FIVE CENTS NUMBER 38

Boys, 1-A Regional Tournaments, Draw Elkhart Tournament Today

Stiff competition among champions of their respective districts, and finally defeating Region 1-A title, the boys of Elkhart today drew the regional basketball tournament in Austin. J. McKnight's Lakeland team, one of the best of the season in years in the Lakeview gymnasium, defeated the Whirlwinds, Bi-District Districts 3 and 4. This was the first game played by the Eagles last night at Floydada with a 2-3. The Whirlwinds of Lakeview Thursday night defeated the hosts 38-30. The final game was the flip of a coin, the result being the Lakeview boys.

Scott, flashy Lakeview, was the scoring series ring up a top. Following Scott's ranks with 28 points, center, whose play under the basket was high. High scorers for Murray's Floydada were Boteler, Rush, and Hukel. Hukel's game played to the result of two games was the best of the series. The boys of Floydada out in several points only to be half by the Eagles last night. From the 20-14. From the Whirlwinds and the result of the game plus an excellent sportsmanship.

Memphis Splits 9-Match Card With Miami Sluggers

Romines K. O.'s Cowan in First Round; Gilbert Gets Draw Decision to Even Card

With 4 losses, 4 wins, and 1 draw the Memphis boxing team split a card even with their visitors from Miami Friday night at the high school gymnasium.

Only knock-out blow of the evening was handed out by Troy Romines, 145 pound Memphis slugger, to Cowan, 144, in the first round of their bout.

Coach C. E. Headstream's boys lost the following decisions: Eddy Gilbert, 75, to Bengé, 71; Billy Robertson, 95, to Kennehelm, 93; Kenneth Gilchrist to Graham, 108. They won these matches: Billy Hood, 125, over Ramsey, 123; Jackie Blum, 127, Kent for 3 rounds; and Glynn Stilwell, 145, won a decision over Pennington, 147.

BIG SNOW HERE BOOSTS MOISTURE

Inch of Moisture, Result of Of Best Snow in Many Years, Soaks Farm Lands of Area

Snow to the depth of 12 inches fell here Saturday, Saturday night, and Sunday, the heaviest in several years, according to J. J. McKinlin, local weather observer. The snow was accompanied by very little wind and therefore did not drift to any great extent, but gave an even moisture to the soil amounting to one and one-fourth inches, it was estimated by McKinlin.

Streets, roads and highways were blocked for a time, and many cars and trucks were stalled during Saturday night and Sunday morning. Street and highway machinery had traffic moving by Sunday afternoon.

The snowstorm covered most of the Panhandle and Northwest Texas. In Hall County the fall was lightest around Turkey, but the rest of the county had about the same amount as that recorded in Memphis.

Farmers believe the moisture from the snow, added to the deep season left over from heavy rains of 1941, will be sufficient for early planting.

Memphis Girls on WTSC Honor Roll

Ruth Aaron and Marion Ruth Duren of Memphis, freshman and sophomore at West Texas State College, made excellent scholastic records in the fall semester.

Dr. D. A. Shirley, registrar, announced that Miss Aaron made a perfect record of five A's, or 20 grade points, and Miss Duren received three A's and 2 B's, or 16 grade points.

M. L. T. Players Perform in Turkey

Acclaimed by local "first nighters" as one of the best home talent plays ever presented, "I'm in the Army Now" was accepted with equal enthusiasm by an audience acquainted with few, if any, of the actors when it was staged in the Turkey Auditorium Tuesday night as a Red Cross benefit.

Students to Gather Scrap Metal for Chinese Children

Thursday, March 12, has been designated as "Scrap Metal for Chinese Children" day by M. J. Draper, chairman of the Memphis and Hall County Civilian Defense conservation and salvage committee.

The students of Memphis schools have been asked to gather scrap metal on that day, sell it to junk dealers and send the proceeds to the organization promoting the drive for funds for the starving children of China.

"In the past America sent scrap metal to Japan, and Japan in turn has used it in the form of bombs and bullets on the Chinese. Now, we want to use scrap metal to help the Chinese," W. C. Davis, superintendent of the Memphis schools, stated.

It is expected that each student will take scrap metal to school on that day. They will solicit the metal from the citizens over the community, and will transport same by truck where there is too much to carry, Davis said.

Housekeeping Aide

WHERE HOMES ARE MADE LIVEABLE

By BETTY EWING

From the point of service to society and particularly a gift to the housewives of the lower income bracket, the Housekeeping Aide project house is one of the most genuinely interesting and educational centers in Memphis.

Home is a haven and there's no place like it, according to poets of all ages, but when there is no income to make a home liveable, it ceases to be a pleasure. That used to be the case, but not any more! With the creation of the housekeeping project in 1937, known then as the home economics project but later changed to its present title, lecture courses and practical experience began to provide information for these homemakers, placing a brighter light on the subject.

SHOW MOVED TO OLD P.O. BUILDING

Howe, Former Livestock Judging Team Member, To Judge Fat Stock Entrants

Final arrangements were made this week for the annual FFA and 4-H fat stock show of Hall County, with the site being changed from the usual location at the B & M Livestock Commission Company pens to the old Memphis post office building. The show will begin at 9 Saturday morning.

The heavy snows and excessive moisture necessitated the change of locale, according to County Agent W. B. Hooser, and the site selected is an all-weather location. The street in front of the building will be roped off for the show.

Ralph Howe, former member of the Texas A. and M. international livestock judging team who is now secretary of the Memphis Production Credit Association, will judge the entries, County Agent W. B. Hooser has announced. As is the usual custom, auctioning of entries will be held following the completion of judging. However, Hooser stated, this year many of the boys will take their calves to Amarillo where they will show at the Amarillo Fat Stock Show beginning Monday. This show includes all the New Mexico, Texas, and Oklahoma counties included in the Tri-State Fair Association.

All entries must be brought to Memphis Friday night before the show by 9 o'clock. Hooser instructed. Weighing in will be done at the Memphis Cotton Oil Mill scales, where weight cards (Continued on page 5)

New Cotton Crop Insurance to Be Offered Countians

March 31 Deadline for Application; Hooser Lists Meetings Over Hall County

For the first time in history, farmers of Hall County have the opportunity to know in advance how much cotton they may have to sell when fall comes regardless of rains, drought or floods, County Agent W. B. Hooser said this week in regard to the new Federal Cotton Crop Insurance plan.

Any farmer wishing to apply for Cotton Crop Insurance made available by the federal government must make his application before March 31, 1942, he said.

Donald L. Cothran, state cotton crop insurance supervisor, explained this week that federal cotton crop insurance protects farmers against all unavoidable hazards such as drought, hail, wind, rain, boll weevils, and other insects. It does not protect growers from losses due to defective or poor seed or bad farming practices, damage to quality, loss by theft, or failure to irrigate when insurance is written on irrigated basis, Cothran said.

Either 50 or 75 per cent of the normal production may be insured, he said, with Federal Crop Insurance Corporation making up the difference in what the crop is insured for and the actual production.

"The important thing about cotton crop insurance is that each farm will carry its own risk. If previous losses have been high, premiums will be high. If they've been low, premiums will be low. There is no overlapping of crop failures," he explained.

Premiums may be paid in cash or cash equivalent on or before maturity date or may be deducted. (Continued on page 4)

THERE'S A Material Difference in Dickie's

These comfortable, well-fitting work clothes cost no more than the ordinary kind. But what a difference there is in quality of material, workmanship, and service! Here there's no comparison.

WEAR AND FIT WELL

You get the feeling your pants and shirt were individually tailored for you. That's because they're made for honest quality—no skimping on cut, cloth, or accessories. You're impressed with extra features in the pants like giant belt loops that prevent waist sag, in the shirts with the dress collars, sleeve plackets, and generous pockets. These and many other advantages give you more service, comfort, and lasting satisfaction. Better try Dickie's next time.

Women Work—

CIVILIAN DEFENSE AUXILIARY NOTES

"America must win this war. Therefore I will work, I will save, I will sacrifice, I will endure; I will fight cheerfully and do my utmost, as if the issue of the whole struggle depended on me alone."

This pledge was found in a notebook beside the body of a World War soldier. It might be well for us to clip this and paste it some place where we could see it several times a day. No boxer goes into the ring without intensive training. Are we, as civilians, training? Are we getting ready for whatever may come to us? Have we answered every call made on us? Some things, to some of us, may seem foolish but those who are training now will be ready when the blow hits Memphis. We probably will not be bombed or invaded but we might be called upon to work, save, sacrifice, and endure. Let us do these things cheerfully and as if the whole issue depended on us.

Several women are trying out sugar rations. Limiting their families to the prescribed quota. They report it easy. A little less sugar will not get the American housewife down.

The Junior Red Cross is doing excellent work. Mrs. Clark Chamblin's grade in junior high, none of whom are more than 12 years of age, have knitted 96 six-inch squares which is enough for the required size afghan. This will be the first knitted afghan finished in the county so far as reported. The high school girls have finished 40 squares. Other activities in the high school include collecting cancelled stamps and waste paper. Posters, using the theme, "Eat the right kind of food. America needs you strong," have been made by the pupils and placed throughout the school buildings and in downtown stores.

Mr. Wolfram of the CCC camp is teaching a Red Cross first aid course in the high school. One class of homekeeping of 11 girls is taking the course together with the girls in the study hall during the 6th period. There is a total enrollment of 32.

There is not a group of people in Memphis working harder for defense than the school teachers. Not only do they incorporate defense into the regular class work but many are devoting extra hours to knitting, sewing, teaching nutrition, etc. They are busy people but it is the busy person who always finds time for things worthwhile.

Red Cross headquarters urges the immediate shipment of all war relief garments. If you have work out, please bring it in as soon as possible in order that this request may be complied with.

GARDENING TO HELP WIN WAR

Big farmers, little farmers, tenant farmers, and part-time farmers in Hall County this year will join with other farmers throughout the United States in producing a record quantity of foodstuff for the United Nations, according to Maggie L. Henson, home management supervisor for the Farm Security Administration.

"Not once in the history of our great democracy have the farmers failed to answer their country's call for help," said Miss Henson, "and Hitler and his fellow outlaws can expect the farm families in Hall County to be standing shoulder to shoulder with our boys in the service until victory comes.

"Uncle Sam," Miss Henson continued, "knows that we must have more food than ever before if we are to win this war. He knows that we must protect the health of our people with better diets from home-grown vegetables."

Miss Henson believes almost every family in Hall County can immediately begin growing fresh vegetables at home in a sub-irrigated frame garden such as the one pictured above. The farm people in this picture are using old tin cans in the place of the more expensive tile to sub-irrigate their frame garden. An outstanding feature of these frame gardens is the fact that fresh vegetables can be grown for the family tables long before the ordinary gardens are in production, and for many weeks after the first frost in the fall. An ordinary sized frame garden will produce all an average family needs for daily use.

"Complete instructions for building and planting a frame garden can be obtained at the Farm Security Administration office in

NEWLIN

By MRS. FRED HEMPHILL

Seasons First Real Snowfall

Beginning Saturday night about 9 o'clock and continuing throughout most of the day Sunday, was the season's heaviest snowfall, amounting to approximately 7 or 8 inches on the level and considerably more in drifts, halting traffic for several hours and making it difficult to drive early Monday. The much needed moisture was welcomed by farmers and stockmen alike. The moisture will be equal to more than an inch of rain. Temperatures have been normal and registered in the 20's at night, warming up to 55 and 60 degrees in the day time.

School Students Buy Defense Stamps

Newlin school students are a patriotic group of youngsters and want to help their Uncle Sam win this war, so they took down their piggy banks and counted out their pennies and dimes and even some dollars, and set the day for Principal Cheves to have the postmaster bring the stamps to school. Each student purchased his or her stamps and was proud to be able to do their bit. Do it again students and buy until it hurts. (It doesn't hurt much to do without that candy bar or chewing gum, does it?)

P. T. A. Program to be Given

In order that the patrons and others in the community may see the program planned by the local P. T. A. a week in advance, program chairman, Mrs. Sam L. March Blue Stamp Foods Announced

Foods available during March to families taking part in the Surplus Marketing Administration's food stamp program in Hall County were announced today by Wynn S. Goode, SMA Area Supervisor.

Pork has been removed from the list for March because of the sharp advance in prices in the past few weeks. Eggs, however, will continue on the list and will offer a readily available substitute for meat during a time of year when egg production is heavy and prices decline seasonally.

With the exception of this change, the blue stamp foods for March are the same as those listed for February. The complete list of blue stamp foods, as issued by the Surplus Marketing Administration for the period March 1 through March 31 in all stamp program areas, is as follows: shell eggs, butter, fresh grapefruit, pears, apples, oranges, and fresh vegetables (including potatoes), corn meal, dried prunes, hominy (corn) grits, dry edible beans, wheat flour, enriched wheat flour, self-rising flour, enriched self-rising flour, and whole wheat (gram) flour.

Blue stamp foods listed are those obtainable nationally and locally by stamp program participants during March at local stores participating in the program.

New Cotton Crop

(Continued from page 1)
from loss payments, if any are made, cotton loans, if available, or from AAA payments.

"People don't carry tornado, life, health, liability, and accident insurance just once in a while and hope to collect the year they happen to have it. They take it for protection, and that's the same principle with cotton crop insurance—protection every year, not just now and then," Cothran said.

What the government expects of farmers in the war program, the Food for Victory program, changes in the 1942 Farm Program and Cotton Crop Insurance will be discussed in a series of meetings, according to County Agent Hooser.

A schedule of meetings of the week beginning Monday, March 16 is as follows: Monday, March 16 at the Pliska Methodist Church, 8:30; Tuesday, Hall County court house in Memphis at 8:30; Wednesday, Lakeview grade school at 8:30; Thursday, Lesley school house, 8:30; Friday, Turkey Theatre at 8 and the Estelline school house at 8:30.

Hooser urges all farmers to attend these meetings and pointed out that to spend some time studying Cotton Crop Insurance may mean the difference between cotton to sell this fall and no cotton at all.

est economic efforts.

On entering the 3-room house which consists of a living room, bedroom, and kitchen, one notices modernistic decoration. Close inspection reveals that the curtains are of unbleached domestic, ornamented with an attractive border design of bright flowers stenciled and then colored with crayola.

The two identical divans, centered with a table arrangement hand-made by the aides, were constructed of old packing boxes with the addition of car seats. The upholstery was done by the women as were the footstools and other furniture.

In each of the bedrooms, in order to provide for extra members of the family, a trundle bed is present. This is merely pushed under the big bed and out of sight. In one instance, for the least expense, the springs were constructed of plain wire netting and the mattress and pillows were stuffed with shredded newspapers.

Fruit crates were utilized for cabinets, closets, and dressers with the most attractive results. According to Miss Deahl, the iron furniture had been bought at the lowest possible cost and then refinished.

Another interesting piece of furniture craft was the use of barrels in making chairs. Covered with bright colored calico with rollers on the base, the chair makes one of the smartest pieces of furniture in the house. Again the barrel appeared in the form of a baby bed. Lined with white and ruffled in blue, it is another example of ingenuity. These beds are loaned out to the lower income families for a stipulated length of time.

Outside the house is a unique garden which can be planted any time during the year, always with the assurance of winter vegetables. Underneath the ground was a tunnel made of tin cans, end to end, and a rubber inner tube running up to the surface. In this manner the under soil can receive the water, and with a burlap cover the garden is well protected. Radishes, onions, mustard, and lettuce plants were thriving in the project garden.

The housekeeping aides who are checked on in the homes by Mrs. Gertrude Horne and Mrs. Mary Chaney are: Mesdames Blanche S. Duke, Myra Hubbard, Sarah McCristy, Valena McElroy, Verner Phillips, Edelia Anglin, Effie Melton, Stella Mash, Anna Mauck, Angie Bradley, Ira Scott, Mary Smith, Lou Downey, Lola Grand, Mamie Fowler, Susie Kendall, Rosa Carpenter, Eula Mitchell,

When a Child Needs a Laxative!

Your child should like this tasty liquid laxative and you should like the gentle way it usually wakes up a youngster's lazy intestines when given by the simple directions.

SYRUP OF BLACK-DRAUGHT contains the same principal ingredient which has enabled its older brother BLACK-DRAUGHT to give so many users such satisfying relief for so many years!

Perhaps that's why it usually gives a child such refreshing relief when the familiar symptoms indicate a laxative is needed.

SYRUP OF BLACK-DRAUGHT comes in 2 sizes. The introductory size is 25c; the economy size is 50c.

CAMPBELL'S SWAN SONG

THIS IS MY swan song. By the time this appears in print, I will be in the armed forces of the United States, so what I say should affect me very little.

Personally, I didn't ask for war. Personally, I didn't want to become a member of the armed forces. Personally, I had rather be at home in a land of peace, a home in which I was happy.

But for some reason, or perhaps for a number of reasons, it has fallen my lot, along with thousands of other young men like me, to become a member of the armed forces.

So I will be. While there will be thousands, millions doing their part on the various battlefronts, or on the shores, or in recruiting offices, or in any other of a hundred or more places, there will also be the army behind the army—one group of people who will have to do their part too, whether they like it or not.

The people at home are the army at home. Here in Memphis and Hall County, for example, there must be organized defense groups to care for the civilian population in time of emergency. There must be people left to buy Defense Bonds and Stamps. There must be people left to donate to organizations such as the Red Cross.

Not all Hall Countians have a right to be proud of their contributions to the American Red Cross. We fell down on the annual roll call quota. We delayed action on the emergency Red Cross drive, and, incidentally this was the last county to start the drive for the emergency fund.

The majority of people in the city of Memphis have failed to volunteer to help in the defense organizations. We people in Hall County finally got started buying Defense Bonds only after the war broke out.

What is the matter with us? Don't you want to help as much as your sons, your brothers, your husbands are helping on the fronts, on the ships, on the islands? Don't you want to do your part? Or had you rather just sit down and "let George do it?"

As I say, I had rather stay at home and live in peace, too. But I didn't have any choice in the matter. And if I had stayed at home, I believe I would have been willing to do my part, although it did take a little of my time, and perhaps a little of the money I might have spent for my own pleasure.

That's really the way things stack up. The soldiers and sailors and marines are out to do their part, and more than their part where the going is really tough. But things at home are apparently going to merely rock along at the old pace.

It won't work, brother, it won't work. There's more to a war than guns, and whether you like it or not, you're going to find it out. If you don't believe me, just sit back and wait and see for yourself.

And, incidentally, if you don't care for what I've said, just look me up on one of Uncle Sam's anti-Jap ships or in one of Uncle Sam's forts or airfields—and see how many are on my side. The odds are against you, and you can't and the United States can't win this war without your help. That's the situation, brother, and if you don't like the time, the plot, or the action, get out and pick your own home.

But wherever you look, you'll more than likely find that there's "no place like home."

Signed, LESTER CAMPBELL.

Press Paragraphs

CULLED FROM THE DEMOCRAT'S EXCHANGES

What's In a Dog's Name?

St. Jo Tribune: From a Shepard Field Cadet to the Tribune editor came this letter: Dear Sir: I caught a ride with three people from your town Saturday night in Henrietta. They had a dog named "Palmer." I left a pair of G. I. wool gloves in the rear seat of their car. As you probably know "Uncle Sam requires his nephews to keep up with their clothing. So, if it would not be too much trouble I'd like for you to insert a notice to this unknown person that it would be appreciated if they would send the gloves to me. Thanking you in advance, Cadet H. W. McKinney Jr.

Editor's Note: The dog's ame gave us the lead—Mr. and Mrs. Clifford Ware and Mrs. Boyd Winder were the people—the gloves are safe in the service of National Defense, thanks to a small mutt of a bird dog.

And More, Too!

Douglas Meador in Matador Tribune: General McArthur is earning his privilege of escaping the worry of making out an income tax report.

Change of Tune

Amarillo Globe: Panhandle weather conditions and landscapes are being supported by the actions of the hostesses and accommodations of the Service Men's Civic Center.

One soldier who arrived at the Fort Worth and Denver station in Amarillo, upon emerging from the car immediately commented on this "God-forsaken" country. The station cafe manager fed the man ham and eggs with seconds on request. Hostess of the Victory Command then took over and entertained the group until they boarded their train to leave.

The soldier mentioned above, as he mounted the steps was heard to say that he looked forward to coming back to this city. When reminded of his first comment, his answer was brief and to the point. "I've changed my mind."

Voters

Jimmie Gillettine in the Hereford Brand: The political pot seems to be boiling harder than in a long, long time. Some of the races promise to become pretty hot. Records show 200 fewer eligible voters than two years ago. It has always been a peculiar thing to me that people will sacrifice, fight, and even die for the right to vote in a free country—and then won't even go to the trouble of qualifying themselves as voters.

Add One, Divide by Two

Ochiltree County Herald: We are asked to save paper and we think it is a patriotic duty to save paper. But how about the thousands of pieces of worthless tripe that are mailed out of governmental publicity offices every day in heavy manila full letter size envelopes. This is only one of the outstanding examples of the official waste of paper.

Hitch-Hiking

Douglas Meador in the Matador Tribune: Tire shortage now indicates that some time in the immediate future, the hitch-hiker will lose his individuality.

Pity the Poor Man

Gertie Haskett in the Childress County News: Women workers in a Chicago factory are asking for men's pay. Most women never bother asking—they just take it.

Locals and Personals

Mr. and Mrs. Henry Boyd Newman of Amarillo visited Monday and Tuesday with his parents, Mr. and Mrs. Henry Newman, prior to his reporting Wednesday in Dallas for enlistment in the U. S. Naval Reserve.

Jobs Open

CIVIL SERVICE

With the national defense program of the United States opening up large numbers of jobs of varied types almost daily, the Civil Service Commission is asking for applications, Glynn Thompson, local secretary of the board of examiners, has announced.

Here's a listing of a few of the jobs for which applications are now being taken (further information may be obtained from Thompson at the Memphis post office):

Junior Assistant Engineer, \$2,000 per annum, for employment with the Prison Service, Department of Justice, Texarkana, Seagoville, La Tuna, Texas, and New Orleans. The age limits for this examination are 25 to 48. These age limits do not apply to persons granted military preference, except that such applicants must not have reached the retirement age.

The United States government has issued a call for stenographers and typists for immediate employment in Washington, D. C. If you are a woman stenographer and can take dictation at the rate of 80-words a minute, or if you are a typist, will you answer the call? The entrance salary for either position is \$120 a month, and opportunities for rapid advancement are excellent for women with ability.

Appointees are assured of reasonable living accommodations in Washington.

LIFE SAVER FOR Cold Weather Starting

Are you all at sea about what to do when your motor suddenly refuses to start because the temperature is low?

Here's the answer: Just fill the tank with Phillips 66 Poly Gas. That's the quick, easy way to find out what a difference high test makes.

A touch of the starter, and your engine rolls into action with split-second speed. It's got to, because any engine in good mechanical condition will start provided the gasoline in the tank is "hot" enough.

And Phillips 66 Poly Gas is extra without a penny of extra cost.

Try a tankful. Compare. See if Poly Gas doesn't give you just the fastest cold-weather starting and cold-weather performance you've ever enjoyed.

Remember, the Orange and Black 66 Shield is High Test Headlight Oil. Because Phillips 66 is the WORLD'S LARGEST PRODUCER of High Test Gasoline.

Information for NEW INCOME TAX PAYERS

Have you filed your federal income tax return? If you come within the group from whom returns are required, you have only until midnight, March 16, in which to file a return. Single persons who earned as much as \$14.43 a week for the 52 weeks of 1941; or married persons living together who had aggregate earnings of as much as \$28.85 a week for the year, are required to file returns. The instructions attached to the forms describe the method of preparing returns, but if further information is necessary it may be obtained at the offices of the collector of internal revenue, deputy collector, or an internal revenue agent in charge. They make no charge for their services.

If income tax returns are placed in the mail, they should be posted in ample time to reach the collector's office on or before the due date—that is midnight on March 16 for calendar year returns. Taxpayers subject themselves to a penalty for failure to file returns on time.

WITH NO AUTO TIRES YOU CAN'T SHOP IN AMARILLO

As you know, The Democrat has long been an advocate of buying at home as much as possible, and for the duration it appears that numerous individuals who have been in the habit of shopping elsewhere will be buying at home.

It's no longer possible for the ordinary person, no matter how much money he may have to spend, to get tires for his car—in fact, retreading is even to be rationed. So those tires on your car may not be as good a year from now as they are now—especially if you continue to drive to Amarillo or some other city larger than Memphis to do your shopping.

In the first place, you don't save a penny by shopping elsewhere, not when you count in the cost of making the trip. And without a car to go in, those shopping trips will be reduced still more.

Now is the time for all merchants to capitalize on the no-new-tire situation and advertise their merchandise. This home-town merchandise is just as good as that bought in Amarillo, and can be bought for a lower price than that in Amarillo when you count in the cost of going out of town to buy the merchandise.

Merchants are missing out on a lot of business by not telling the public through some advertising medium—such as The Democrat—what they have to sell, instead of griping about what they are not able to get.

If you want results, if you want to increase your sales, if you want to continue to remain in business during the war, then advertise in

ORDER PARTS FOR NEXT SPRING NOW!

It is always good business to check your equipment well in advance of the rush season, make a list of parts you will need and order early. This year it is doubly important to order needed parts immediately!

Defense needs are taking a greater share of the nation's raw materials. Manufacturers must anticipate their requirements several

months in advance . . . and even then, materials like iron and steel are to be had only on the basis of priorities. By placing your order early . . . you will be cooperating in the defense program and you'll help us to give you better service by avoiding the last-minute rush.

On account of a record rainfall in the Panhandle area during 1941 pasture and feed crops were luxuriant and an abundant supply of feed was harvested. A small herd of feeder yearlings are shown here eating stacked bundle feed. Moisture prospects for 1942 crops in extension district 1 are regarded as "almost perfect."

Panhandle Farmer Heeds Moisture Conservation Call

Despite 1941 Wet Weather Agent Hanna Reports More Terracing and Contouring

Although 1941 was the wettest year in the annals of weather data of the Panhandle, moisture conservation was carried out by contouring on 938,015 acres of cropland and 104,647 acres of pasture land in Extension District one. In addition, according to Parker D. Hanna, district agent, 103,059 acres on 8,694 farms were terraced, or more than twice as much terracing than was done under the supervision of county agricultural agents in any preceding year.

While soil erosion by water ordinarily is a minor problem in the high plains area, the spectacular effects of wind erosion in the middle thirties makes this one of prime importance. As covercrops and maintenance of other vegetative matter in the soil constitute one of the principal controls of wind erosion, the effectiveness of these practices ties in closely with the moisture conservation program. Accordingly, 382,719 acres of cropland were stripplowed, covercrops were planted on 684,729 acres, and approved summer fallow practices were carried out on 507,990 acres in 1941.

"From this it can be seen," the district agent says, "that Panhandle farmers have learned the lesson that the most effective control of soil blowing is keeping a cover on the land and incorporating vegetative matter into the soil."

I CHANGED MY MIND
Everybody is affected by the war. Some people more than others. The men of draft age are having to give up regular occupations for defense work or army life.

My business has been very good this year. I enjoy my work and want to continue my business in the same way as in the past, but I have felt that for my own benefit (as well as doing my bit for Uncle Sam) I should go into National Defense work. I have advertised that I was closing my business in Memphis. This I intended to do. However, when the time came to close I found it was the hardest thing I had ever tried to do.

Therefore, after much thought I have decided to not close my business at present.

I am going to continue to operate my Studio in Memphis for a few more weeks.

I appreciate the very good business I have enjoyed for the past several years here. Let me continue to serve you in your photographic needs.

New Roof Placed on Baptist Parsonage

The Baptist parsonage has a new roof, and is greatly improved in appearance. The old roof was a flat-type composition, and was subject to leaks during rainy weather, it was reported.

The new roof is steeper and is covered with shingles. It will be less liable to leak and will make the house cooler, it was pointed out.

The work of unroofing and re-roofing took place during some of February's coldest and most threatening weather, and the final shingles were nailed on Saturday, preceding the snow that night.

Refinishing work on the inside of the parsonage will be done soon, it was stated.

Are Your Frostings Fluffy?

GOOD frosting is half the job of good cake! How's your frosting—fluffy, tender but not runny, smooth as untracked snow? To make good frosting, use a thermometer, wipe crystals from sides of pan as it cooks, and use karo in the recipe to prevent crystallization or "sugariness." Here's a favorite recipe for the queen of them all—and some tricks to vary it.

Fluffy Boiled Frosting
2 1/2 cups sugar 1/2 cup water
1/2 cup white karo 2 egg whites
1 1/2 teaspoons vanilla

Cook together in a saucepan sugar, karo and water to 242° F. (firm ball in cold water). From time to time as crystals form on the sides of the pan, wipe away with a damp cloth. Beat egg whites until stiff. Pour the syrup slowly into the egg whites, beating constantly with egg beater. Continue beating until the frosting will hold its shape. Makes enough frosting for 3 9-inch layers, two loaf cakes or one cake baked in a tube pan.

Variations:
Blackberry pink: Add 3 tablespoons blackberry jam (seeds removed) and 2 or 4 drops of pink coloring in place of the vanilla.
Orange: Add 1 teaspoon grated orange rind and 2 or 3 drops of orange coloring. **Peppermint:** Add 1/2 cup crushed peppermint stick candy and cook with the karo mixture. Substitute 2 or 3 drops of oil of peppermint for the vanilla.
Flecked: Add 1/2 cup coarsely-grated chocolate just before spreading; substitute 1/2 teaspoon ground ginger for vanilla.
