LOCKHART - ELDORADO

(From The Austin American)

Though things looked frankly unenterpristing for the Lions at the opening, it soon became apparent that victory was only a matter of time. The West Texas boys, who had traveled all the way across the state from miles south of San Angelo on the Del Rio road, just didn't have the Mr. County of turned turned turned the Del Rio road, just didn't have their little town which lies 45 it. Besides, their captain and ace the Mr. Campbell had one quick ace was crippled and much below par.

Lockhart Gets Score

Before his usefulness was entirely expended, however, this score in the third quarter, and boy Capt. Isaacs—put a scare the failure on the try for extra point left the count 19-6. GETTING IT IN THE NECK

When the gasoline tax first became popular, shortly following the war, it had an excellent argument to recommend it: That the motorist should pay a fair share of the cost of building and maintaining the highways over which he drives.

That's still an excellent argument for a reasonable gas tax. But the motorist has been getting it in the neck to a constantly increasing degree. He's buy- taxes. He is, in common parlaning highways he never gets ce, the guy who takes it. He's maintaining others that

don't exist.

In 1932, according to recently published figures, the tax revenue from gasoline and automobiles in one state was 271 per cent of all moneys spent for roads. In some states it was 150 per cent. For the nation as a whole, it was above 100 per cent. Yet other sources of revenue had to be drawn upon to keep up road building and maintenance. Why? Because nly 70 per cent of the income from these special additional road taxes was actually used for roads—the rest going for other purposes.

THE IDEAL SCHOOL

After consultation with a majority of school students, the following plan was drawn up for an ideal school:

The school should lopen at 10:00 a. m.,, to allow the pupils to make up any lost sleep which may result from constant brain-work.

The school should be well equipped with elevators to prevent all undue exertion on the part of the students. As the Board of Education

would not consent to bear the expense of paying the teachers to teach long hours, it was decided that they should conduct a free dispensary of candy, soda and cigarettes for the midmorning and afternoon refresh-

As to the hours that school should hold session-from 10:00 to 11:00 in the morning, a twohour recess at noon, and with dismissal sharp at 2:30 p. m.

The passing mark agreed upon by most pupils was 45 percent, although everyone thought it satisfactory that no final exams be given.

It was thought that all teachers be under twenty-five and (Continued on last page)

TONIC Laxative

CONSTIPATION, with the annoying symptoms that usually come with it, cuts down organic force and disturbs normal health and well-being. A thorough cleansing of the digestive tract is of great assistance in the removal of sick-

ening constipation symptoms.

When excessive accumulated waste matter disturbs and strains the muscles of the large intestines, rendering them temporarily unrenering them temporarily unable to perform their wave-like evacuating movements, Thedford's Black-Draught is useful in stimulating them to activity, which, again started, should continue regularly until some future disturbance interferes. In this way, Thedford's Black-Draught is one of the TONIC laxatives, tending, as it does to establish a regular as it does, to establish a regular habit of evacuation.
