

Commissioners Court Meets In Regular Session Monday

The County Commissioners employed for another year C. Snell, Farm Demonstration Agent and Miss Lora Farnsworth, Home Demonstrator.

The court accepted the resignation of C. C. Doty, Justice of Peace, and T. P. Robinson was appointed to fill the vacancy.

Members of the court present Monday were Hugh McAngus, Commissioner Precinct 1, R. C. Edmiston, No. 2, Pat Martin, No. 3, T. C. Meador, No. 4, Judge H. W. Finley, County Clerk, J. F. Isaacs, an Sheriff O. E. Conner.

Funeral Services Held Saturday For W. E. Baker

Funeral services for W. E. Baker, well known Schleicher County ranchman, were conducted at the Baptist Church here Saturday.

Mr. Baker was born in Washington County, Arkansas, April 3, 1869, and died July 4, 1935. He came to Texas in 1885 and lived in Grayson and Tarrant Counties until 1906, when he came to Schleicher County.

He married Miss Mollie West Wilson, October 3, 1895 at Van Alstyne. Nine children were born to this union. He is survived by his widow and four children; Ruth, Leslie and Thomas Baker of Eldorado, and Fred Baker of El Paso.

He joined the First Christian Church in early manhood.

Mr. Baker served as Tax Assessor for Schleicher County from 1919 to 1923.

Funeral services were conducted by the Rev. J. L. Ratliff, Baptist minister, and Rev. Noel P. Wilkinson, Presbyterian minister. Pall bearers were A. N. Shipp, W. J. Steward, W. A. Davis and C. S. Chick.

Interment was made at the Eldorado Cemetery. Mr. Baker died at his ranch home Thursday after having been in ill health for two years.

J. W. WILLIAMSON

The body of J. W. Williamson, 59, who died at his home, three miles from San Angelo on the Carlsbad road, Sunday, has been sent to a former home, Belleville, Texas, for burial. It was accompanied by a son, James. Other members of the family drove to Bellevue in their car.

Mr. Williamson had resided here for about three years. He was a member of the Methodist Church.

Survivors include the widow, two daughters, Mrs. B. C. Antorbus, Clarendon, and Miss Sarah Williamson, San Angelo, and three sons, James and Gordon, San Angelo, and Dave, Meador.

CARD OF THANKS

For the beautiful floral offering and for every kindness shown, both in the home, or at the church, or grave of our darling, we are truly grateful, and beg God's blessings on each one. Mr. and Mrs. T. W. Johnson and family.

WOOL MARKET QUIET IN TEXAS THIS WEEK

The wool market was quiet in Texas the past week with very little activity reported from any section of the State. No sale of any consequence have been reported since the close of the previous week when four cars of wool moved from Eldorado and one from Eden.

Reports from the eastern market centers of Philadelphia and Boston indicate a very firm tone in the market there, but the trade chiefly concerned in disposing of the holiday week and taking inventory following the close of the first half of the year.

Authorities are generally of the opinion that wool occupies perhaps the most comfortable position of all commodities at this time due principally to such supporting influences as decreased supplies, increased civilian consumption, extensive government anticipations to fill the clothing requirements of the army and civilian conservation corps, and rising foreign markets.

Vacation School To Have Program Tonite

The Vacation Bible School which has been in progress at the Presbyterian Church the past two weeks will come to an end tonight (Friday) with a program for the public. The children have learned songs and recitations, and Scripture passages, and have done much handiwork. Their handiwork will be on exhibition tonight. Much that they have received through the school cannot be represented in the program, such as the stories to which they have listened, the instruction about the Bible they have received, and the supervised play they have enjoyed. Miss Martha Taylor, the superintendent has been ably assisted by a group of workers from the Methodist and Presbyterian Churches.

The public is invited to attend the program tonight at eight o'clock. An offering will be taken for the expense of the school.

WEED CUTTING

Beginning Monday July 15th, and continuing through next week, has been designated as weed cutting week in Eldorado, by the City Council, please make an effort to cut weeds on your property, especially near your homes and other buildings. A united effort on the part of all can remove much of the heavy growth of weeds from our lots and alleys.

A. T. Wright, Mayor

Mrs. E. W. Brooks and brother Joe M. Christian left Wednesday afternoon to visit their aunt, Mrs. George B. Moore, of San Antonio.

BOLES ORPHANAGE HOME CHILDREN TO SING HERE SUNDAY

Children from the Boles Orphanage Home, Greenville, Texas are making their annual tour of the churches.

Two boys and two girls will be here Sunday and will sing at the Church of Christ at eleven o'clock.

To The Tax Payers of The City Of Eldorado

There has been considerable discussion among the Tax Payers of the City of Eldorado, as to what was being done with tax money collected by the city. In order to better acquaint you with the condition of the city we are giving you the following information.

The city owes approximately \$6,200.00. \$3,800.00 of this amount represents the balance due on 200 pit toilets, which were purchased by the city and should have been paid for by each individual that desired a pit toilet installed upon his premises. These toilets were to cost the user \$31.00, payable \$1.00 per month until the total amount was paid. The city has actually collected \$1,165.00 on these toilets. Some users have almost paid this amount. Others have not paid anything.

\$600.00 of the city indebtedness represents the balance on paving done by the city in 1931.

The balance of the city's indebtedness of \$1,880.00 represents the balance due on the grader purchased by the city several years ago. Practically all of this debt is past due and the holders of these past due warrants are threatening to sue if a part of this debt is not retired within a short time.

The city has on its books over \$4,500.00 in delinquent taxes and if a majority of these taxes could be collected the city could retire about 75 per cent of its debt.

The city is not making any new debts until the present indebtedness is reduced materially.

We will appreciate very much your efforts to retire your delinquent City Taxes and will accept Partial Payments.

The present City Council is in no way criticizing actions of the previous City Council members, but we are merely giving you this information so that you will better understand where your tax money is going.

After October 1, 1935 all taxes delinquent prior to that time will draw a 10 per cent penalty and 6 per cent interest.

Finance Committee

J. L. RATLIFF
S. J. LOYD

SUMMER MUSIC CLASS TO CLOSE WITH PROGRAM

Miss Turner will close her summer music class July 19, with a promotion program. Certificates of promotion will be given to those students who have completed their grades. The Public is invited.

Clean-up Day At Eldorado Cemetery

Mrs. C. C. West, Mrs. Dabney, and Mrs. Frank Meador announce that next Thursday will be clean-up day, or work day at the Eldorado Cemetery.

All ladies are expected to bring a covered dish and serve lunch on the grounds. It is urged that everyone be there and enter into the work together.

Jimmie West made a business trip to San Angelo Thursday.

HOME BOYS VISIT WITH LIONS CLUB

On the program at the regular luncheon hour of the Eldorado Lions Club Wednesday was Jim Dan Hill, President of the State Teachers College, Superior, Wis., a former Eldorado boy, and son of D. C. Hill. Mr. Hill has made an outstanding success in educational circles. He gave an interesting talk and introduced Buck Bailey, another Eldorado boy who has made a name for himself in the athletic world. Mr. Bailey is Coach of Football at Washington State, College Pullman, Washington. He gave some interesting information on football in his talk.

Other visitors on the program were Mrs. H. W. Smith of Kerrville, a former Eldorado girl, daughter of Mrs. W. M. Bearce, Mrs. Jack Kerr and Elnora Andrews who furnished several musical numbers.

John Eden, Sonora, A. T. Wright, Bill Smith and H. T. Finley were introduced as visitors.

Bill Smith was presented with a medal for being the best track man in the Eldorado High School.

At the June 26 meeting a medal was presented to George Stanley Finley, the outstanding boy in Grammer School.

Young Men Report For Military Training

Almost 1000 young men between the ages of 18 and 25 reported to the 1935 encampment of the Citizens' Military Training Camp at Ft. Sam Houston Tuesday morning and were mustered into that service Wednesday morning in an impressive ceremony conducted under the supervision of Brigadier General A. T. Ovenshine, U. S. Army.

Eldorado boys reporting were Paul Davis, Sam Cloud and John Alexander.

The camp was organized with military precision Tuesday as the students reported that Wednesday, following the oath of office ceremonies, the 1935 camp was functioning without the loss of a single hour. As the trainees registered they were definitely assigned to their organizations and immediately started their 30-day tour of active military work.

This year Camp Bullis is far more adequately equipped than ever before. Every thought has been given to systematized military training. As the students were delivered to their respective tent areas they were issued all necessary equipment and clothing. (See No. 1 Back Page)

EVANS ETHERIEGE AP- POINTED MANAGER THAD A. THOMPSON RANCH

Last week Evans Etheriege was employed as manager of the Thad A. Thompson Ranch south of town. Mr. Etheriege has been working for several years on the Ranch and received his promotion when Captain Thompson made a business trip to the ranch last week. Thompson is a captain in the U. S. Navy.

C. E. Knight was called to Moran, Texas last night to be with his father who is very ill.

Arrangements Are Now Made For The Rodeo July 25th

At a meeting last night plans were completed for the Big Barbecue and Rodeo to be held here July 25.

Meat will be prepared for 3,000 people and it is expected that that many will be present on that day. The grounds are being put in shape. The track, a half mile standard Regulation track is in fine shape and is said to be the best in the country.

The business houses will not be asked to close for the celebration. The gates will open at 9:00 o'clock and from that time on there will be something doing every minute.

The program will start immediately after the gates open with a Donkey ball game if plans mature. Efforts are being made to get the burros.

The dinner will be served at 12:00 o'clock on the grounds. At 2:00 the races will start. Five races will be on the program besides the "Kiddies Race". The rodeo will continue throughout the afternoon. There will be bronk riding, steer riding, calf roping, amateur roping, wild cow milching. Two free for all races and two county races will furnish some real excitement.

It is reported that some wild horses will be here. Old Scaby a wild horse from the Big Canyon country, and, said to not have a brain cell working. Another wild and vicious animal is Powderriver, brought here from Wyoming.

The day will be the greatest day of entertainment Eldorado has ever had.

CLOTHING CONTEST HELD LAST MONDAY AFTERNOON

In a clothing contest which was held Monday afternoon at the high school auditorium by members of the home demonstration clubs of Schleicher county. Mrs. Melvin Rogers, wardrobe demonstrator for the Riverside Home Demonstration Club, won first place for demonstrators; Mrs. R. C. Edmiston, demonstrator for the Mayer Club, second place; Mrs. Frank Bradley, demonstrator for the Eldorado club, third place.

Winners in cooperators wardrobe work were: first place, Mrs. C. J. Murr from the Riverside club; second place, Mrs. W. H. McClatchey from the Cliff club third place, Mrs. Leonard Isaacs from the Adams club.

Mrs. Will O'Harrow from the Cliff club placed third in contest dresses for demonstrators.

As winner of first place in wardrobe work, Mrs. Rogers will be given a trip to A.&M. Short Course with all expenses paid by the County Home demonstration Council.

Judges for the contest were Miss Dyora Crowder, home demonstration agent of Tom Green County, and Miss Dora Rainborn, instructor of the home economics in the Wichita Fall public schools.

Following the clothing revue and contest, refreshments of sandwiches, cookies and ice tea were served to approximately 75 people.

CITY COUNCIL HOLDS SESSION TUES. NIGHT

The regular monthly meeting of the city council was held Tuesday night with all members present, Mayor A. T. Wright presiding.

Most of the meeting was taken up with discussions of the installation of water works system and sewerage system.

A committee was appointed to consult an engineer and investigate the possibilities of erecting such a system.

The council men were asked by a committee from the Lions Club to have the street lights turned on, employ a man to keep the main streets cleaned, have the vacant lots cleared of weeds and trash, and to cooperate in the drive to eradicate the county of flies. These requests were acted on in order and each met with the same reply to the committee, "No Money, help us collect the taxes." However, the Council added that every effort would be made to carry out the requests "if and when" taxes were collected. They agreed to cooperate in the eradication of flies.

An invitation was extended to and accepted by the city heads to be guests of the Lions Club at their regular weekly luncheon at the Eldo Hotel Wednesday of this week.

Eldorado Royal Arch Chapter No. 313 Installs Officers

New officers were installed Tuesday night by the Eldorado Chapter Royal Arch as follows:

J. A. Whitten, High Priest; B. E. Moore, King; V. H. Humphry, Treasurer; F. M. Bradley, Secretary; Rex McCormick, C. of H.; L. M. Hoover, P. S.; W. L. Whitten, R.A.C. J. F. Isaacs, J. E. Spencer, W. L. Isaacs, Captains of the Vails. O. W. Smith was installed as proxy for J. M. Peden as guard. W. C. Gilmore of Sonora was installing officer and was accompanied here by Tom Davis, of Sonora.

Refreshments were served to those present.

HOME DEMONSTRATION COUNCIL HOLD MEET

The Schleicher County Home Demonstration Council met July 6 in the office of the home demonstration agent with 18 members and visitors present.

There was reported a total of 84 foundation patterns completed. In all nine of the clubs which participated in this work.

Council voted to hold its annual encampment in Christoval August 15 and 16. Mrs. Palmer West was appointed as chairman of the program committee for the encampment, and Miss Pat Talbot, chairman of recreation for the encampment.

\$12,217.19 FOR 257 FARMERS WAITING TO BE CLAIMED

Two hundred and fifty-four cotton checks totaling \$12,217.19 are ready and the County Agent, Snell is anxious to put them into the hands of the framers. In a statement Tuesday Snell said, "I can't use them. Come and get 'em."

advance. Subscription will be
discontinued promptly on expi-
ration.

WHAT DO YOU THINK?

There are some worthwhile sug-
gestions before the lions club to
be accomplished during the com-
ing months.

At a recent meeting each
member put in writing his in-
dividual idea about what should
be done in Schleicher county.

The ideas suggested are too
numerous to mention here but
among those that are being ac-
ted on now is the eradication of
flies. A committee appeared be-
fore the Commissioners Court
Monday and asked for the coop-
eration of that body. Judge Fin-
ley immediately suggested that
the project be turned over to the
women of the county if we want-
ed anything done. He had just
witnessed a demonstration a few
minutes before, that the women
"get things done". The Com-
missioners are behind the move
and County Agent, C. Snell chair-
man of the committee is formu-
lating plans for the holding of a
meeting in each community
center. He urges every farmer
and ranchman to be present at
these meetings and let be known
what they are doing in this work
at present and to get together in
a concerted effort to rid the en-
tire county of flies.

Another idea is to erect
"WELCOME" signs on the high-
way at the city limits. The
signs have been made ready for
the wording and the Lions are
scratching their heads in an ef-
fort to "think" of an appropriate
slogan for Eldorado. Better
throw open the gate and let
everybody think. Give a prize
for the best wording for this
sign and the results will be
spontaneous.

Plans are progressing nicely
for the rodeo July 25. The
program will be completed this
week and the advertising will go
out the first of next week. Plans
are being made to entertain
more people than last year.

Plowing under cotton to re-
duce surplus is not new. For a
number of years the Brazilian
government which controls com-
pletely the coffee production of
Brazil, has often been burning
the surplus coffee. The Brazilian
coffee crop for 1933-34 is esti-
mated at 29,880,000 bags. Of
this amount 11,952,000 bags
are designated as surplus or sacri-
fice crop which means that it
will be burned. In other words
40 percent of the labor required
to raise the crop will be wasted.
The theory however is that by
controlling the output sufficiently
a better price is secured on
the balance to justify the des-
truction of part of the crop and
prevent the accumulation of
surplus.

Advertising is the greatest sell-
ing force in the world. Adver-
tising will sell anything from a
food to a three hundred dollar
mechanical ice box. Advertising,
however, cannot perform mer-
cenary. It cannot sell merchandise
for a man who is not a mer-
chandiser. It cannot sell mer-
chandise for a merchant who re-
fuses or neglects to attractively

arrange his store and display his
merchandise. It will not sell
shopworn and musty stock when
others are offering bright new
goods. In other words advertis-
ing will do practically everything
when it comes to selling mer-
chandise except supplying
knowledge of merchandising to
the man who doesn't possess it.
If the advertiser isn't a merchant
the advertising won't make a
merchant of him. It isn't equal
to the task of making a merchant
out of a store keeper.

ECONOMIC HIGHLIGHTS

In the eyes of industry, the
federal deficit looms large. Busi-
ness men, in company with in-
vestors, property owners and
other taxpayers, have watched
the government charge present
activities against future income
—and are wondering how long
it will be before the paying-off
process is reflected in exorbitant,
perhaps confiscatory taxes.

In the eyes of the politicians,
the deficit also occupies a large
part of the landscape. During
the political war that will be
fought next year, the deficit will
be an outstanding issue. Re-
publicans will claim that the
Roosevelt Administration is im-
periling the country's credit, is
running us into bankruptcy at
express train speed. Administra-
tion spokesmen will pooh-pooh
that, and answer that vast ex-
penditures were essential to
fighting depression, and that the
country's credit is easily able to
stand the bill.

Irrespective of which is right,
federal finance presents a de-
pressing picture, and has done so
ever since 1930, when the last
surplus was recorded on the
Treasury's ledgers. That year's
surplus amounted to \$738,000,
000, and in the ten preceding
years the government's receipts
had exceeded expenses by the
handsome sum of \$10,000,000,
000.

In 1931, the red ink period
began, when the federal govern-
ment spent \$463,000,000 more
than it received. Then, in 1932,
the era of really large deficits set
in, with a total of \$2,741,000,
000. For the next two years
the deficits were \$2,607,000,000
and \$3,606,000,000 respectively.
And for the fiscal year which
ended on June 30, 1935, it is
estimated that the deficit came to
\$3,065,000,000.

It is a notable fact, according
to the U. S. News, that the 1931
and 1932 deficits were not due
to greatly enlarged spending, but
to a falling off in revenue. Since
the taxes have been raised and
revenues increased, but spending
has gained at a much faster
rate. For example, direct and
indirect doles for unemployed ac-
counted for the spending of \$3,
000,000,000 in the 1935 fiscal
period alone.

At the start of 1934, the Presi-
dent said he expected that federal
outgo would balance income
beginning with July 1, 1935.
Now, in the President's latest
budget message, he forecast that
the 1936 deficit would be \$3,
892,000,000—the largest in our
history. Reason for that about
face, says Mr. Roosevelt, is the
unlooked-for persistence of de-
pression, coupled with the fact
that only the Federal govern-
ment seems capable of providing
relief for the needy. Some busi-
ness men answer that by saying
that one major cause of this per-
sistence has been the vast in-
crease in governmental expendi-
tures and legislative interference
with business—that we are pur-
suing a vicious circle which can
end only in national insolvency.
This view is, of course, held to
be false by Administration econo-
mists.

At any rate, more money is
being spent than is being collect-
ed. It is being spent than im-
posed. It is forecast that next year

the American people will be de-
luded with more and bigger
figures than they ever heard be-
fore, during the conduct of the
national election. The people
will be confused by so-called ex-
perts contradicting each other.
The solution to the deficit prob-
lem will not be solved by politi-
cal speeches from either side.
But until it is solved, American
business will remain unconvinced
that natural, sound recovery can
be achieved.

Business is holding steadily to
a level that is somewhat below
that of a year ago. Fall buying
is down, due principally to the
hope of large purchasers that
prices are about to break now
that the codes are out. July may
witness a rise in the general busi-
ness index that will bring it up
with last year, according to some
experts.

Power production has not
gone into its seasonal decline.
This unlooked-for strength has
resulted not from increased do-
mestic usage, but from large
commercial users.

Commercial private construc-
tion is also at a relatively high
level, and is far ahead of last
year.

During May, Business Week
says, machine-tool business hit
a five-year high. The motor
industry is said to be looking for-
ward with confidence to a heavy
demand next year. Steel de-
mand is fair, and prices are rea-
sonably firm.

Export business is well above
last year, which, in turn, register-
ed a large advance over 1933,
when foreign trade was almost
at a standstill.

The farm outlook is changing,
place of shortages. The Depart-
ment of Agriculture forecasts a
670,000,000-bushel wheat crop
—70,000,000 more bushels than
is needed for domestic consump-
tion. Fruit and vegetables are
unusually abundant, with lower
prices resulting. Only important
agricultural shortage will be
meat, which will be compara-
tively scarce, and so will con-
tinue to demand high prices.

The cotton situation seems to
get progressively worse. Only
way out, says Henry Wallace,
lies in increasing cotton sales
abroad—which can be done only
if foreign countries can sell more
in this country.

Governor Allred of Texas is
charged by Dr. C. M. Rosser of
Dallas as having mixed politics
into the administration of the af-
fairs of the state health depart-
ment. Rosser, recently ousted
chairman of the state board of
health, charges movement is on
foot to remove Dr. J. H. Brown,
state health officer, and that
Allred supports the movement.
A number of years ago the board
was given the right to appoint
the state health officer in order
to keep "politics" out of the

charge, that right has not been
violated by a governor.

But like the little black ants—
where there is "sugar", politics
will crawl in.

Benito Mussolini holds up his
right hand to the whole world,
and his lips send forth the state-
ment that it is on to war with
Abyssinia for Italy. A bolt of
lightning recently struck the
plane in which Il Duce flew.
None of the occupants were in-

jured. England and America
have lost hope that the dispute
will be settled along the lines of
existing treaties peacefully.
France, who will do anything not
in accord with Germany's wishes,
has negotiated a "secret" treaty
with Italy which promises mili-
tary cooperation—in other
words, aid if necessary. The U.
S. has firmly taken a hands-off
stand in the situation, and warns
same 125 American's in Ethiopia
to move out. Most of the

Americans are missionaries and
decline to move. The stay at
their own wish.

A Moscow newspaper charges
that Japan, already virtually rul-
ing North China, has made de-
mands of Independent Mongolia
that Japanese forces and mili-
tary observers be admitted to
Mongolian territory. This new
demand is taken as an intention
to seize Mongolian territory.
which, of course, it is. Russia,
naturally, is protesting.

**For Bad Feeling
Due to Constipation**

Get rid of constipation by taking
Black-Draught as soon as you notice
that bowel activity has slowed up or
you begin to feel sluggish. Thou-
sands prefer Black-Draught for the
refreshing relief it has brought them.
Mrs. Rey Mullins, of Lufe, Ark.,
writes: "My husband and I both take
Theford's Black-Draught and find
it splendid for constipation, bilious-
ness, and the disagreeable, aching,
tired feeling that comes from this
condition." With reference to Syrup
of Black-Draught, which this mother
gives her children, she says: "They
like the taste and it gave such good
results."

BLACK-DRAUGHT

**DULL HEADACHES GONE,
SIMPLE REMEDY DOES IT**
Headaches caused by consti-
pation are gone after one dose of
Adlerka. This cleans poisons
out of BOTH upper and lower
bowels. Ends bad sleep, nervous-
ness. L. M. Hoover, Drugget.

SCHLEICHER AND ITS PROGRESSIVE PEOPLE

As an observer of the progressiveness of Schleicher County and her citizenship since its organization and even before, I would like, through the permission of The Success, review a few of the County's outstanding progressive moves and the rapid growth of its farming industry and its livestock industry. Those who were on the ground when the county was first organized remember the distance we were from the outside world especially in communications, but we soon grew through the push of advancement from a postoffice 50 miles north to the modernization times of communications, daily mail, up-to-the-minute telephone and telegraph service.

Our little city of small lumber houses has developed into a small town filled with new and up-to-date homes and modern business houses, with the new and best equipment for both. Not only has the town kept abreast with the modern home improvements but many of the ranch and farm homes have kept abreast with the times.

If you had been here in the late 90's and plodded through the muddy streets of our little city and even several years later, you could readily see and enjoy the street improvement that our little city at this time enjoys, made so by the progressive ideas of our citizenship.

Our farming industry grew from one or two small farms to one of the best known sections of Texas for its productive soils. Ranch lands and farm lands have increased in value as the progressive people brought better stock, better farming machinery, build better homes and good roads.

In fact when we went to the Dallas Fair with our sheep and farming exhibit we took many prizes, not only once but on several occasions, which can not be done without a progressive citizenship. Schleicher was among the first counties to vote \$125,000 in bonds to get a good Highway to San Angelo and was among the first to take up good road building, now we have one of the best highways through any county with many miles of well graded lateral roads. Twenty years ago most all roads to Eldorado were impassable, on account of the very heavy black waxy land we have on the Divide, today we can reach Eldorado from most any direction on our graded roads, with the exception of one or two lakes which when filled come up over the grade, these we are sure will

be thrown higher as time goes by, and money is secured for such purposes.

Good roads, good Churches and good schools build any community, Schleicher County has done her part in this advancement, and still working at the job, once you live among our good people it is hard to move away and stay. There is always a feeling that draws you back, to be again with the good people of this commonwealth.

The past 35 years have been filled with good improvements and the next 35 years witness even greater and better improvements. Rome was not built in a day, neither was any form of government perfected at the beginning, but with a God loving citizenship, full of thrills like that of our own, better traveling facilities, better communication, better buildings and more paved streets and highways will follow.

We are a progressive people, living in a progressive mood, seeking progressive ideas and not down in the dumps.

All we need is more time to resurrect ourselves from a three year drouth and depression. No county or people will come back faster than this county and her citizenship.

We congratulate our County, City and School authorities for being lenient on tax gathering, giving our people time for gathering in the shackles which will in time be paid with all penalties accrued, only a few will have to be forced. In the mean time lets all use a progressive hammer move with a progressive spirit and at the same time keep in mind economy.

The old advice is "Be sure you are right then go ahead." Too many follow the first part but forget to go ahead.

A friend points out to what he regards as the height of useless legislation the old English law which prohibits a man marrying his mother-in-law.

We have all heard of the Gold Rush of '49 when thousands headed for the new found gold fields of California. With some folks the gold rush is a continual performance. Each day of each year they spend all of their time in a mad scramble for gold. A scramble that is just as eager, just as intense as was the scramble back in the 49s, and we might add, to many, just as fruitless as was the famous rush of nearly a century ago.

Stamp pads at The Success.

One of the most uncomfortable persons to be associated with is the man who is always efficient in everything he does, who seldom if ever makes a mistake. If one is ever given to suffering with an inferiority complex it is in the company of the thoroughly efficient person.

It was a wise plan to make the days only twenty-four hours long. As it is, if we mess up today and fritter it away it represents but one day lost. When morning comes we can start in on a new day and retrieve our mistakes and profit by our errors of yesterday.

An exchange complains that one of the things the matter with government and business too, is that there are too many \$1800 men receiving \$10,000 salaries. We often hear of men who have never been able to earn to exceed \$1800 a year in any profession receiving an appointment that pays ten or twelve thousand dollars a year. The system is wrong, no man who has been able to earn \$1800 a year is worth \$10,000 to the government.

Some one has put it this way: A man is idle who does less than he can.

Daryl Cole Jr. of San Antonio is visiting his cousins Wilkam Nolte, and Abe Janett of Eldorado.

After all, regardless of what he accomplishes, that man is a success who every day does the very best he knows how to do.

INTRODUCING the Smallest Member OF THE BUDGET FAMILY

THE BUDGET FAMILY

My big brothers, TAXES, Food, Clothing and Rent, Grow great on the money they've caused to be spent. The biggest of all, brother TAXES, looks down --- "Electricity, it gets smaller," says he with a frown "It is always so handy; it works day and night, Politicians attack it with main and with might, But they don't notice ME -- the biggest of all. Electricity is tiny and willing, and yet I'm jealous of all the attention it gets. But, perhaps that is better for ME after all. For if I get attention, 'twill end in a squall Which will stop ME from growing, and THAT isn't all-- The voters will clamor to cut down MY size, So let Utility 'take it'--till people get wise."

West Texas Utilities Company

THE BUDGET FAMILY THE BUDGET FAMILY

Efficient Men Plan

—The efficient man meets life squarely. In bad times he is not discouraged. In good times he is always the man with resources. In hard times efficient men plan. They meet affairs as they find them roll up their sleeves and go to work. They re-adjust budgets, they save . . . and when good times come they are ready.

—Sages, through the ages, have always advised, "Spend less than you make."

—A checking account in a good bank can serve you well in such a resolution.

First National Bank

EMERGENCY DITCHING TO SAVE IMPERILED CROPS

The serious situation created in certain sections of the south-west because of heavy rain falls which endanger crops, has been given considerable attention by explosives engineers in various parts of the country. Reports have come in of fields which were already planted and which were deluged with rain and standing water thus imperiling the investment. The speed necessary to save the crops is a vital factor in any attempt at salvage. Explosives engineers have developed a method for quick ditching whereby in such instances dynamite cartridges are put down quickly, the ditch shot, and the water run off. In many cases drainage ditches which could have saved the situation have been clogged up. It is pointed out that it is a comparatively easy thing to clean out these drainage ditches.

The first thing the farmer should do is to remove all brush and tree growth. If the ground is dry, he may use mechanical means for cleaning out the clogged silt. If the ground is wet, explosives will give him the most economical results.

For ditches up to eight feet wide and needing up to four feet of material removed, a single line of holes down the center of the ditch, eighteen inches apart with one to three sticks of dynamite in each hole, and fired by propagation, will give excellent results. The term propagation is used by explosives men to indicate that when ditching dynamite

is used only one cap is needed to fire the entire line of cartridges. That is, when one dynamite cartridge is detonated its concussion, transmitted through wet ground, serves to explode all the others in the line, thereby almost cutting the cost in two.

Ditching dynamite is an adaptation of a 50 per cent nitroglycerin explosive. When this charge explodes, the dirt is thrown 250 feet in the air and spreads in all directions at practically that distance. This leaves no spoil banks to stop side drainage.

Drainage ditches are found in all sizes. The method of loading naturally depends on the size and depth of the material. For wide, shallow jobs, the cross-section method is used. For wide, but deep jobs, the post-hole method is used.

Briefly, the cross-section method is a series of cross rows running at right angles to the center line of the ditch. The number of holes in each cross row depends on the width of material to be removed. The cross rows are joined by a line of connector holes down the center of the ditch. All holes, both in the cross rows and the connector line, are 18 inches apart, having one to three stick load, and 24 inches apart for a three to five stick load. The cross rows will range from three to five feet apart, depending on the number of sticks in each hole. There is no limit to the length of a shot that can be fired with one cap in this method or any other method where the ground is wet.

The post-hole method is a single line of holes, usually made with a post-hole digger, from three to five feet apart. The quantity of dynamite per hole is figured on the number of cubic yards to be removed, using one pound per cubic yard. If the holes are three feet apart and there are ten cubic yards to be removed, for each three feet of ditch ten pounds will be put in each individual hole.

Where the banks of the partially filled ditch are less than three feet high, they need not be taken into consideration in loading. But for banks higher than three feet, more dynamite is required to throw the mud and debris clear of the ditch. The additional amount of dynamite necessary depends on the height of the banks and should be determined by a test shot.

Ditching with dynamite requires but very little experience. The blaster is urged to make a trial shot or two, after which he can determine which method and the amounts per hole required to give him the best results.

COUNTRY WOMAN'S HOME DEMONSTRATION CLUB

The Country Woman's Home Demonstration Club met Wednesday, July 3rd at the home of Mrs. Gordie Alexander. Miss Lora Fansworth Schlicher Country Home Demonstration Agent gave a demonstration on making tufted bed spreads and also gave some helpful suggestions on the color scheme to use.

Cake and ice cream was served to Mrs. Ray Alexander, Mrs. Richard Cheatham, Mrs. Bill McSwair, Mrs. Penington, Mrs. Ward Parks, Mrs. Truett Stanford, Mrs. Tom Alexander, Mrs. Ira Hudson, Mrs. Claude Alexander and three visitors Mrs. Hudson and daughter Miss Pauline and Inez Burton.

The next meeting will be with Mrs. Richard Cheatham, July 17.

FLIES SPREAD DISEASE

Flies are reared in filth and through life make frequent trips from filth to food. Germs causing dysentery and other intestinal disorders are transported on the hairy feet of flies. These insect pests are regarded as having played a leading part in causing food-borne epidemics of typhoid fever, stated Dr. John W. Brown, State Health Officer.

Flies multiply rapidly as soon as warm weather comes to stay. A female deposits more than a hundred eggs at a time in organic material such as manure or in an insanitary outdoor toilet. The life cycle from egg to larva (maggot), to pupa, to adult male or female fly requires but ten days. A week later, fifty females, under favorable conditions, are ready to deposit a total of 50,000 eggs. During the summer season, nine generations of flies may result from one female that laid the first batch of eggs in the spring. It is estimated that if the offspring of a single overwintering female were to survive through nine generations, descendants in the fall would number over five and a half trillion.

Fortunately, modern sanitation and knowledge regarding the life history and habits of the house fly renders possible complete control over the fly nuisance. Proper disposal of human and animal wastes in urban areas and on farms will prevent the breeding and multiplication of flies. Practical suggestions relative to methods of fly control may be obtained from the State Department of Health and U. S. Department of Agriculture.

IT IS HARD TO TELL WHO WAS SHOT

A duel was once fought in Texas, says Facts and Fancies, between Alexander Shott and John Nott. Nott was shot and Shott was not, according to circumstantial evidence. But, as many remarked, it was better to be Shott than Nott. There was a rumor that Nott was not shot, but Shott avowed that he shot Nott, which proves either that the shot Shott shot at Nott was not shot, or that Nott was shot notwithstanding. It was made to appear at the trial that the shot Shott shot shot Nott or as accidents with firearms are frequent, it might have been possible that the shot Shott shot shot Shott himself and Shott would be shot and Nott would not. It appeared to some that shot Shott shot shot not Shott but Nott, and to others that the shot Shott shot shot way, it is hard to tell who was shot.

You Can Prove Anything By the Bible

"You can prove anything by the Bible" is an old saying. It's really so. According to the Bible itself one of its famous characters was killed twice. The 50th and 51st verses of the 17th Chapter of First Samuel read as follows: "So David prevailed over the Philistine with a sling and with a stone, and smote the Philistine, and slew him; but there was now sword in the hand of David. Therefore David ran, and stood upon the Philistine there was no sword in the drew it out of the sheath thereof, and slew him, and cut off his head therewith."

Feak Laws

Our state lawmaking bodies introduce and sometimes pass many freak and amusing bills. One such bill provided that "No one shall operate a political steam-roller or band-wagon on the public highway." In 1932 a bill was introduced in the Kentucky state senate prohibiting boxing and wrestling within the state and making attendance on such contests sufficient grounds for divorce. It was referred to the Committee on Drains and Ditches. Some Federal laws are just as comical. For instance the one that prohibits the landing of sponges at any port in the United States smaller than four inches in diameter. This certainly is a small port.

Don't Fool Yourself

If you suddenly discover that the gasoline in your car is about exhausted don't speed up in order to reach the next filling station—slow down. Experiments have proved that, other things being equal, more mileage is obtained from a gallon of gasoline when an automobile is driven at moderate speed than when it is driven at high speed. You will understand why this is true from the fact that more force is required to propel a car at high speed than at low speed, because of the wind resistance.

We Are Weaklings

A bee, weight for weight, is thirty times as strong as a horse. A very small bug can drag six matches—the equivalent to a man pulling three hundred and thirty beams as large as himself. An ordinary house fly can lift a match and in doing so exerts as much power, in proportion to its size, as a man uses when he holds a wooden beam fourteen feet long by thirty inches square. But imagine a new born baby of 8 pounds who could lift two tons, or an average man who could lift 78,400 pounds. But that is what each of them could lift if they were as strong in proportion as a crab.

RIVERSIDE DEMONSTRATION CLUB, FT. McKAVETT

Handwoven coverlets are suitable spreads to be used with maple or walnut furniture of colonial design, said Miss Lora Farnsworth County Home Demonstration Agent to the Riverside Home Demonstration Club, July 2nd at the home of Mrs. L. L. Tisdale.

Miss Farnsworth added that with painted furniture, spreads of finer material and of dainty colors should be used.

The club is to have a dance Friday July 12th at the Louis Tisdale school house to raise money to send Mrs. C. J. Murr, the elected delegate, to Farmers Short Course, at College Station, as the bedroom demonstrator was unable to complete the demonstration. Mrs. L. L. Tisdale is to take it.

Refreshments were served to Mrs. Verge Tisdale, Miss Yvonne Jones, Miss Farnsworth and six club members.

"One of my ancestors," the teacher proudly announced, "was present at the signing of the Declaration of Independence." "One of mine," Ikey hastened to add "was present at the signing of the Ten Commandments."

We've heard about the last word in automobiles and radios and this and that but a friend suggests that the last word in pajamas is "Good Night."

SOCIETY CLUBS PERSONALS

Rev. and Mrs. P. S. Connell left Tuesday for Seymour, Texas where they will visit Mrs. Connell's parents.

Mr. and Mrs. Joe Gurley of Pumpville, Texas were guests of Mr. and Mrs. F. B. Gunn the past week.

J. C. Ratliff, merchant of Greenville, Texas and wife are spending their vacation here with his parents, Mr. and Mrs. J. L. Ratliff.

W. B. Gibson visited friends and relatives in Eldorado this week.

Miss Billie Louise Bailey of Dallas Texas is the guest of Miss Ann Florence Page and Miss Roberta Holland.

Mrs. Kermeth Gary is recovering from a broken hand received when her car overturned on July 4th.

Mrs. Wallace Roberts of Austin, Texas is visiting Mrs. Oscar Martin and Mrs. Sam Roberts.

Mrs. J. E. Tisdale and daughter Celeste and Miss Inez Marshall left Tuesday for a few days visit at Mertzon with Mr. and Mrs. Vester Hughes.

Jack Ratliff made a social visit to Abilene last week.

Mr. and Mrs. Carl Kerr, Mr. and Mrs. R. L. Ballew, Mrs. Jack Kerr, Miss Elnora Andrews and Mr. and Mrs. R. J. Page spent the week-end on the San Saba River near Ft. McKavett.

Mrs. Ed Hill who has been ill for the past few days was able to be up and out again the first of the week.

Miss Cleone Dabney returned Saturday from a trip east.

Mrs. Mattie Mitchell, grand worthy matron of the Order of the Eastern Star was a visitor of the Eldorado Chapter in a meeting Monday evening.

An Aunt, Mrs. H. H. Beverly of Austin and Uncle, W. W. Sample, Manes, Harrol and Dixon of Smiley, Texas attended the funeral of Estelle Johnson last Tuesday.

J. T. Ratliff, Principal High School, Belcher, La., and wife and young son are visiting in the home of his parents, Mr. and Mrs. J. L. Ratliff.

Mr. and Mrs. O. R. Burden of Wichita Falls attended the funeral of Estelle Johnson.

W. B. Gibson, student in Washington State is visiting friends here this week.

J. L. Ratliff returned Wednesday night from a business trip to San Antonio.

Mrs. Sam Roberts and children have returned to make Eldorado their home again.

J. D. Hill President of the State Teachers College, Superior, Wis., arrived Sunday for a visit with his father and mother, Mr. and Mrs. D. C. Hill and other relatives who live here. Jim Dan graduated from the Eldorado High School, attended A.&M. and finish his education in the north. He is named among the leading educators of the country.

IN MEMORY

On July 4, 1935, after a brief illness, Estelle Johnson passed away. Her voice is hushed—no more will we hear the melody of her beautiful songs—Her violin is closed—from those strings she will never bring sweet music again and yet—earth is just a preparation place and perhaps even now, her voice is blending more beautifully with the Heavenly choir, or her harp is tuned with the orchestra on high. Estelle lived only 22 years, but her happy genial nature, and her friendliness will live long in the minds and hearts of those who knew and loved her. She finished the San Marcos Academy with highest honors, and had completed 2 years of her college work at Baylor University and State University.

Services were conducted from the First Baptist Church, by the pastor, A. J. Quinn assisted by Rev. Frazier of Monehans, with the Massie Funeral service in charge. Members of the Y.W.A. sang, Estelle having been a member of that organization. A special song, Face to Face, was rendered by Mrs. J. W. Walker of Plainview, with Mrs. E. C. Hill, accompanist.

Estelle was the youngest daughter of Mr. and Mrs. T. W. Johnson, and besides them, she leaves to mourn her, a brother Edwin T., of Cutbank Mont. Two sisters, Mrs. I. R. Burden of Wichita Falls, and Mrs. W. B. Terperning of Chicago, with numerous other relatives and friends.

To these we would say, life and its purpose does not end with death.

Then look up and live, for "We are quiet sure that he will give them back—bright, pure and beautiful." And "Low at his feet there's compassion sweet."

MISSIONARY CIRCLE HAVE ALL DAY MEETING

The Young Woman's Missionary Circle met Monday July 8 at 8 o'clock at the Ranch Home of Mrs. S. D. Harper.

A covered dish luncheon was served at 1:00 o'clock and the business meeting held in the afternoon. Mrs. Geo. Abbott told of her experience with missionaries. About 20 guests enjoyed the occasion.

Mrs. T. A. Beasley and Mrs. L. A. Boller spent Monday in San Angelo.

B.Y.P.U. PROGRAM

Intermediate B. Y. P. U. program July 14, 1935—Time 7:30 P. M. at the Baptist Church

Cheerful "Givers" Subject: "In Honor Perfering One Another." Memory Verse: Be kindly affectioned one to another with brotherly love; in honor preferring one another. Romans 12:10

1. A Selfish Request; Elizabeth Stamford.
2. A B. Y. P. U. member who refused to work in the union unless he was given just the task he wanted.
2. A B. Y. P. U. member who refused to sit in the group to which he was assigned; Eloise Whitten.
3. (1) A B. Y. P. U. member who habitually came in late; (2) A B.Y.P.U. member who was jealous of another's success; Iva Dell Lewis.
4. A B.Y.P.U. member who lived and served unselfishly; Ernestine Finnigan.
5. "Me Lash", Dorothy Janett.

WEDNESDAY CONTRACT CLUB MEETS WITH MRS. OGLESBY

The Wednesday Contract Bridge Club members and several guests were entertained Wednesday afternoon in the home of Mrs. Sam Oglesby.

The High Club prize was won by Mrs. Seth Ramsey and the high guest prize went to Mrs. H. W. Smith of Kerrville, Texas.

MRS. DOC KERR ENTERTAINS MERRY MAKERS

Mrs. Roy Andrews was hostess to the Merry Maker 42 Club at the home of Mrs. Doc. Kerr, Tuesday afternoon, with four tables of members and guests present.

Iced melon was served at the close of the game to the following; Mrs. Ben Isaacs, Mrs. J. F. Isaac, Mrs. O. E. Conner, Mrs. F. M. Bradley, Mrs. H. H. Hooker, Mrs. Dollie Edmiston, Mrs. Jim Griffin and Miss Chris Enoch. Guests included were Mrs. Clyde Galbreath, Mrs. Leslie Galberth, Mrs. Ernest Finnigan, Mrs. Frank Spencer, Mrs. Jim Williams and Miss Mary Virginia Griffin.

Mrs. W. B. Cobb will be hostess to club, July 23.

CHEERFUL GIVERS ELECT NEW OFFICERS

The cheerful givers elected new officers last Sunday night after they had completed the program. Those elected were as follows; President, Eloise Whitten; Vice-president, Dorothy Jarrett; Secretary, Ernestine Finnigan. The two group captains are Lois Parks and Elizabeth Stamford.

We want all those who will to join our B. Y. P. U.

Dorothy Janett returned home from Mertzon Sunday evening accompanied by her cousin Imogene Miller, who will stay several weeks with her.

FT. MCKAVETT NEWS

Mrs. Wade Tomlinson of Pontotic has been at the bedside of here father, Ed Lehne, who has been ill for several days.

Mr. and Mrs. L. L. Tisdale have installed a new Superflex in their home.

Mrs. John Murr, who has been very ill in Menard for the past two weeks is now convalescing.

Mrs. C. B. Rogers has installed natural gas at the C. B. Ranch. Regular church services were held at the Episcopal Church last Sunday.

The Riverside Home Demonstration Club is sponsoring a

dance at the Tisdale School House Friday May 12th, with the Ruff Devils playing. The proceeds will be used to send a delegate to A. and M. Short Course.

Miss Kathrine Ball and mother, Mrs. M. L. Ball of Dallas are spending the vacation months here.

NOW AND TOMORROW THE TAX TEMPEST BENITO'S BATTLE CRY ORIENTAL OVERTURE ALLRED ACCUSED

Hundreds of thousands of letters pour into Washington as a result of the recent tax and utility movements—the voice of the public—augesting, demanding, protesting, cheering. The House of Representatives, composed of men who are "easier to get to by the lobbyists than are the members of the Senate, voted the clause out of the utility bill that would mean death to the large holding companies. This is an adverse climax to the President's five-month battle against the utilities. The Senate, approved the clause, but is against the decision of the lower body.

This week will be devoted to pushing through the several other social bills and measures included on the President's "must" legislative program, with the hope of wiping the slate clean for the coming tax fight. For it will be a fight. Utility lobbyists are charged with having "listened in" on White House and Congressional private discussions of the utility bill—through telephone tapping. This was charged by Rep. Rankin (Dem., of Mississippi).

It might not have been such a bad idea for the telephone company, itself a utility, to find out just what the utilities were up against.

Similar instances of spying and prying may be expected during the conferences and hearings

Nervous, Weak Woman Soon All Right

"I had regular shaking spells from nervousness," writes Mrs. Cora Sanders, of Paragould, Ark. "I was all run-down and cramped at my time until I would have to go to bed. After my first bottle of Cardui, I was better. I kept taking Cardui and soon I was all right. The shaking quit and I did not cramp. I felt worlds better. I gave Cardui to my daughter who was in about the same condition and she was soon all right."

CARDUI

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

Now enjoy Modern City Refrigeration

ELECTROLUX operates on KEROSENE

"MY BROTHER HAS ONE JUST LIKE IT IN HIS NEW CITY OF BIRMINGHAM"

ALREADY serving more than half a million fine city homes and apartments, Electrolux now comes to the country—operating on kerosene. It gives you all the famous Electrolux advantages—including perfect refrigeration, plenty of ice cubes—at low cost!

Costs Little To Run! Owners report their Electrolux running for as little as 8¢ a day. Five gallons of kerosene runs this modern refrigerator a week or more. No daily attention is required.

Simpler... More Efficient! That's because Electrolux operates more simply than any other refrigerator. Like all Electrolux, it has no moving parts. The heat from a wickless glow-type burner circulates the refrigerant which ordinary air cools. Electrolux uses no water!

No Moving Parts To Wear! Thanks to its freedom from moving parts, Electrolux saves on repairs and is permanently silent, too! For parts that do not move cannot wear—cannot cause noise!

Besides providing modern city refrigeration for only a few pennies a day, Electrolux will add beauty to your home!

FREE → Write today for illustrated booklet giving interesting information about the Kerosene Electrolux.

ELDORADO HDW. CO.

of the coming tax measures. "Big money" is already known to be sounding out different members of Congress and organizing lobbyists committees to fight the tax legislation. Tax program proposals, as they now stand, are approximately as follows:

Inheritance Taxes: 4 per cent on \$300,000 ranging to 75 per cent on amounts above \$10,000,000.

Corperation Taxes: 10 per cent on net incomes of \$2,000 ranging to 17½ per cent on net incomes of \$20,000,000 or more. (To replace the present 13 3-4 per cent flat rate.)

Surtaxes: 60 per cent on individual incomes of \$1,000,000 would yield \$340,000,000 annually to the government. The government now has a public debt of about 35 billion dollars (\$35,000,000,000).

As many thoughtful, straight forward leaders and public spokesmen are now pointing out, "soaking the rich" is not enough. A more equitable, sane tax program and reform would be to begin with a 2 per cent tax on private incomes of \$5,000, graduating on up the scale to 70 or 80 per cent on private incomes of \$10,000,000 and above. In a few years, an enforced tax law of this nature would go great lengths toward erasing the national debt and more evenly distributing the nation's wealth—without hurting anybody.

BIRELEY'S California ORANGEADE

Real fruit juice orangeade... a-comin' through the straw!

It's a fellow's idea of a great drink... and his mother's idea of what's good for him! No artificial flavoring or preservatives! We bottle it fresh daily in our own dairy... deliver it with our milk and guarantee its quality!

Wherever drinks are sold... specify Bireley's and make sure of the finest 5c beverage you can buy!

QUARTS for the HOME: Have it on hand... for children, visitors, parties... any purpose! Phone today... on your doorstep in the morning!

(From Page One)

ing. It took then only a brief two hours to become full fledged students in this vast military school.

The 1935 camp, nourished by additional appropriations for the C. M. T. C., includes more than 600 basic students who are getting their first taste of military training. There are several hundred additional second year student. This is the first time in three years that first and second year students have been accepted into the C. M. T. C.

Aside from the military training these young men are to receive in the next 30 days will be ample time devoted to athletics and planned recreation. Also daily classes in citizenship and government will be taught by trained officers.

In welcoming the trainees of 1935 into camp Wednesday General Ovenshine expressed the theory of national defense in this country in one paragraph of his address. The General said: "This training must if no way be construed as purely a preparation for war. Ours is a peace loving nation. No intelligent citizen desires to see us become involved in war. Our people abhor war and none more so than those of us who know from first hand experience its full consequences. We do not believe, however, that it will further the interest of peace to lay ourselves helpless and defenseless before the world. Our constitution, our homes, our religion, and our country are very dear to us. They must be preserved and maintained at all costs. No one can reasonably deny this. As pointed out before, our present scheme of national defense is much more business like than anything we have ever had before, and in case of emergency the cost will be much less, both in lives and money."

General Ovenshine, himself a decorated veteran of the World War, pointed out that "should

we be so fortunate as to continue to enjoy peace throughout our lives, the training you receive here would still be worth while and of great value to you and to your country."

He said, "Only a small part of your time will be devoted to tactics and to the technical use of arms. You will be further developed physically, learn how to take care of your body and to carry yourself with a military bearing. You will learn leadership, how to take as well as how to give orders. You will learn respect for authority and how to live under a well ordered discipline. Your character will be strengthened and developed. By your life in camp and your association with your fellows you will learn unselfishness, loyalty, courage and fortitude."

Russell Gunn, Son of F. B. Gunn Buried at Caney, Kansas

Mr. F. B. Gunn received a message last Thursday morning that his son Russel who was employed in Washington D. C. had been accidentally killed from fumigations. He immediately wired the Company to ship the remains to Caney Kansas for burial, and he and his son W. B. Gunn of Siminole, left to attend the funeral, which took place Saturday in the Caney Cemetery in the family lot.

Russell, was a fine young man, filling a good position for the company he was working for and was held in the highest esteem by his co-laborers and his employers.

He was born December 14, 1903, and the youngest of four children. He joined the Methodist church April 22, 1923, and was baptised by the Reverend F. G. Clerk, while he lived on his father's ranch here, and is well known by most of our people, the Methodist pastor at Caney conducted his funeral service. He is survived by his father of Eldorado, F. B. Gunn, one brother W. B. Gunn, of Siminole, Texas. Two sisters, Mrs. Hazel Gurley, of Pumpville, Texas, and Mrs. Lois Wall, of Lawton, Oklahoma.

PRE-SCHOOL CLASS IN MUSIC ORGANIZED (BY MISS TURNER)

September 3rd, a Baby Class and a Pre-School Class in music will be organized. These classes will be limited in number. The Baby class will consist of four pupils, four years of age. The Pre-School age will be six years, and will be limited to six pupils.

Educational authorities are encouraging music lessons early in childhood. This early start gives the child considerable advantage over children beginning at seven years or later.

Music unlike many other subjects can be taught from early infancy. Most of our great masters began their music study at three and four years of age. However, music began late in life, even after sixty-five years of age have been known to produce good results. Many adult beginners have shown astounding results.

Miss Turner is a member of the National Piano-Teachers' Guild, and has recently received a Certificate of Honor from the Guild, in recognition of the high class work entered at the National Piano Playing Tournament. Twenty-five pieces were entered whose grades averaged 90 per cent and above. This certificate came as a surprise.

CARD OF THANKS

We wish to express our thanks and appreciation for the sympathy and kindness shown by neighbors and friends during the long illness and death of our loved one.

We also wish to express our appreciation for the beautiful floral offering.

Mrs. W. E. Baker and children.

Following a brief sermon at the morning service the Lord's Supper will be administered. All members of the church are urged to be present.

The Vacation Bible School closes tonight (Friday) with a program by the children. The public is invited.

FAMOUS FISHERMAN SHOWS HOW YOU CAN GET THE JOB DONE

Giving some fine points in fishing Wednesday afternoon at 6, Jack Lamb, that famous fisherman of Fort Worth and director of the Gulf Fishing Bureau, entertained a good crowd on the court house lawn.

Those who saw him here witness an amazing exhibition. His accuracy in placing the lures, his timing and the smoothness with which he handled the rod were fine and could be appreciated only by fishermen. He demonstrated the proper use of both the fly rod and the casting rod.

Lamb said Southwest Texas offers some of the best bass fishing to be found in the State. The South Concho and Dove Creek near Christoval are fine bass streams, according to Lamb, and Devil's River is perhaps the finest bass water in America today.

The wise fisherman does not purchase everything in the way of fishing tackle that is offered for sale. Instead, he learns that only a few lures are required and purchases only these. In bait casting Lamb finds Al Foss Shimmy Wigglers, Frog Wigglers, the Dardevil, Pflueger's Chum, Horrocks-Ibbotson's Tiger bait, and a few others very effective. He does not use plugs, but in case you are interested in this method of fishing, he says Heddon's River-Runt, Zig-Wag Wiggler, South Bend Bassoreno, Creek Chub Crawdad, and many others will catch fish.

He fishes with the casting rod about six months each year, and with the fly rod during the remainder of the time. His instructions to the novice would be to fish with the fly only when the temperature is 80 degrees and above. Contrary to general opinion, Lamb finds stiff fly rods and heavy lines more suitable in fly casting, while with bait fishing the opposite is true. He uses casting rods about five and one half feet in length and as whips as a buggy-whip. He also uses nine pound test lines and single hook lures, which makes the fishing more sporty and gives the fish more chance.

Lamb fished every day for 17 years and has landed more than 42,500 black bass. He never eats fish, and returns most of his catches to the water unharmed. He obtains thousands of little bass from the Government and State each year and plants them in hundreds of lakes and streams. He has been known to catch 68 bass in one hour, and last year near San Antonio he landed and released 340 in one day.
