CLEAN-UP CAMPAIGN CITY-WIDE

This week the Lions Club discussed plans for a city wide clean-up campaign. And each member technically agreed to don a pair of overalls and get a rake, shovel, hoe, and all other paraphernalia suitable for a real get-together fellowship meeting. The "Tail Twister" agreed to bring a wheel barrow.

This is not only a Lions job—no one is barred. Every business man in town is expected to be on the job or have a strong representative. We will probably need a few women too. Of course they are expected to do the talking—tell the men what to do.

A committee will seek assistance from the City Council and it is expected that they will furnish a means to transport a few tin cans and wrecked fords to the city dump ground, which is all fenced in with a fortified rock wall while some of our streets are badly in need of a drainage system (that is if it should rain.)

If we had a fire plug or two and could collect enough money in Eldorado to pay for the water we could do a good job by washing the main streets, that is if we had some fire hose.

Well anyway plans will be completed next week and we can tell you a lot more about it then.

Seed Loans Are Taken For Schleicher County

THESE LOANS FOR NON-RELIEF FARMERS ONLY; FOR SPRING PLANTING OF TRUCK, FORAGE, AND COMMERCIAL CROPS.

Applications for Seed Loans are being taken for Schleicher County by W. T. Whitten, Committee Clerk at the Clerks Office in Eldorado, Texas. These loans are for non-relief farmers only, and are from a special fund made available by the Federal Emergency Relief Administration for seed for spring planting of truck, forage, and commercial crops.

These funds have been made available to meet the emergency created by lack of funds of the Crop and Feed Loan Section of the Farm Credit Administration, and will be discontinued when, and if, that office makes crop loans.

No loans will be made to farmers who are able to obtain credit locally or elsewhere.

The same County Loan Committee will serve this loan that has heretofore functioned for the Crop Loan Office.

The farmer who is on relief receives the necessary funds to finance his crop through Van McCormick, Administrator who has an office at the Court House.

Crop mortgages, non-disturbance agreements on work stock, and crop waivers are necessary in all cases.

This loan is to permit immediate planting of food, feed and commercial crops.

LIONS HEAR OF DEMONSTRATION WORK FROM MISS FARNSWORTH, COUNTY AGT.; CLEAN-UP CAMPAIGN TO BE SPONSORED

Men Are Told Of Cooperative Extension Work Now Being Done In Schleicher County; This Is Real News To Some of Them

The Lions Club membership met at the Eldo Hotel for their regular weekly luncheon and program with President C. E. Knight presiding. After the club song and a good luncheon the chairman of the program committee presented Miss Lora Farnsworth, Home Demonstration Agent who made an interesting as well as instructive talk, setting forth the purpose and some of the activities of the clubs.

The purpose of home demonstration work is to give to homemakers technical information which will enable them to increase their profit,

comfort, culture, influence and power," she said.

"The major part of the work is carried on through regularly organized clubs. We have in Schleicher County at the present, 9 women's home demonstration clubs and 2 girls 4-H clubs.

"At certain intervals, major demonstrations are selected for the clubs of the county. The three major demonstrations being carried this year in the women's clubs are Pantry Demonstration, Bedroom Improvements, and Wardrobe Demonstration. The major demonstrations for girls' clubs are Garden Demonstration, and bedroom improvement.

"A demonstrator is selected for each demonstration in every club. In other words, every club has a pantry demonstrator, a bedroom demonstrator, and a wardrobe demonstrator. The demonstrator agrees to set up a "pattern" in her club community. She is assisted in different phases of her project by the home agent, and agreeing to be the demonstrator, she obliges. No person enjoys paying for something he does not get—or getting less than he pays for. And no person willingly or intentionally does so.

But prior to the passage of the National Industrial Recovery Act, the establishment of NRA and the adoption of fair trade practices, an astonishingly large number of people were doing precisely that.

Because of the chiseler, who insidiously works his way into every business and profession, men and women in every household in the United States have been paying unknowingly for what they did not get while being spared at the very same time that they were receiving full measure.

To illustrate: As an individual and isolated instance, no great harm has been done when the purchaser, because of deceitful and intentionally false branding, buys at standard price a net pound can of, say, fruit, which contains less than one pound, net weight, of fruit. In the one case it amounts to only a few cents. But the sum becomes very large when, week after week, and year after year, this purchaser is thus "gypped."

The chiseled sum amounts to staggering proportions, running into many hundreds of thousands of dollars annually, when this instance is multiplied by every buyer in the country, and every kind of "gypped" commodity put out and sold by the chiseler.

To point this with one of many concrete illustrations: Only the other day the Regional Compliance Council for this Region, (Arkansas, New Mexico, Oklahoma, Texas), which meets daily in Dallas, ascertained in a case before it that a mayonnaise of salad dressing manufacturer labeled pint containers as quarts, thereby (under this false branding) selling a pint of his product as a quart and at the price of a quart. On the same day, it was developed that another manufacturer was selling a similar product as edible when, in reality, it was wholly unfit for human consumption by virtue of the ingredients composing it—and, aside from all this, the manufacturer was getting high pay for low-cost inferior materials.

From this, the false and untrue con-

clusion is not to be drawn that all manufacturers are engaged in cheap, chiseling deceptions of this kind. In reality, this condition is true of only a small number, in comparison with the great body of manufacturers, who are staunchly and honestly opposed to the deceptive petty thievery of such competitors. But, at the same time, there are enough chiselers in all industries to cost the public huge sums of money yearly.

This is but one of the many bad trade practices which NRA is rapidly stamping out. At first glance, it appears to be a small matter—but is a sum totaling hundreds of thousands of dollars annually a little thing? This minor NRA function alone means to you and yours the saving of a number of \$5. and \$10 bills yearly.

Think it over!

C. The positions of assistant credit union investigator and assistant keeper are not affected by the State apportionment law.

'SPECIAL PURPOSES' LIFE INSURANCE'

(By C. F. O'Donnell, President, Southwestern Life Insurance Company.)

Since 1928 one hundred billion dollars of life insurance has lapsed or otherwise terminated in the United States. This is the amount of life insurance that was not continued until death or until the maturity of the deowment policies. The lapse figure can be compared with the amount of life insurance which is now in force in the United States which amounts to ninety-eight billion dollars. The comparison suggests the possibility that people might use more care in buying life insurance.

Life insurance companies have a selfish purpose in trying to reduce the high lapse lapaation of life insurance. It is also true that a reduction in the lapses of life insurance would be beneficial for the insurance buying public.

Life insurance companies have found out that insurance which is bought for specific purposes stays in force better than life insurance which is bought without a specific purpose in mind. For that reason the life insurance business has developed plans for special purpose life insurance. Special purpose life insurance may be designed for three principal purposes:

1. To provide an income to a family during the period which is necessary for the rehabilitation of the family following the removal from the family circle of the principal income producer.

2. To provide a monthly life income for a designated person. This designated person may be the widow of the insurance buyer, or the life income may be for the insurance buyer if the insurance buyer lives beyond the working years of life.

3. To provide educational funds for the higher education of children. The Southwestern Life Insurance Company reports that during the last six years there has been a tenfold increase in the use of life insurance for special purposes.

The argument for special purpose life insurance is not only that it will reduce the lapses of life insurance but also that it will conserve the proceeds of life insurance that have been accumulated from savings resulting from the unselfish sacrifices of many millions of life insurance buyers.

Countless illustrations could be used to indicate the advisability of conserving the proceeds of life insurance. One illustration will be used here. A survey of two hundred people that invested \$10,000 in 1928 and 1929 shows that 8 1/2 per cent of these people increased the value of their investments, 10 1/2 per cent broke even, and 81 per cent suffered an average loss of \$5,875. The average annual income to these two hundred people during the last three years has been 2.02 per cent.

Texas Lady Tells How Black-Draught Laxative Helps All Her Family

Here's how Black-Draught fills the needs of a family laxative in the home of Mrs. J. S. Stoker, Fort Worth, Texas: "The grown-ups in my family," she writes, "have always taken powdered Theford's Black-Draught for biliousness, headaches and other ailments (due to constipation) and found it a reliable remedy. I was very pleased when I saw Syrup of Black-Draught advertised. I bought it and gave it to my little daughters, ages 6 and 4. They needed something to cleanse their systems and Syrup of Black-Draught acted well." ... Your druggist sells this reliable laxative in both forms. "Children like the Syrup."

IN MEMORIAM
Jim Tisdale, Freshman in the Eldorado High School, died in the hospital at San Angelo on March 23 after a brief illness following an attack of influenza. The students and teachers join in expressing sympathy to the family and sorrow over the loss of our friend and comrade.

TO HIS MOTHER

Jim was my friend
The kind that sticks to the end,
And I hope that I was to him
A pal, as to me was Jim.

I will cherish in my memory the rest
of my while
His bright, beaming, cheerful, smile.
I knew him as a youth of honor,
A master of courtesy, deserving the
prize of the Donor.

We grieve now to see him go
Although he will be happier we know.
But sometime to God we must all thr
As to the sun does the most delicate
fern.

Let us be comforted in our sorrow
For we shall meet him on some great
tomorrow.

And until that unknown glorious day
With God's assistance, let us work,
that we may.

JUNIOR—SENIOR BANQUET TO BE HELD TONIGHT

(By Clarice Lee)

The Junior class have been making plans for the Junior-Senior Banquet. They and Miss Allen, their sponsor,

have announced the Banquet for Friday night, March 29.

Attractive invitations cut as clowns were presented to each junior and each senior and to each teacher.

Girls of the Sophomore class have been given the honor of serving the refreshments on this happy occasion.

We Seniors expect a great time and wish to thank the Juniors for their untiring efforts toward that end.

MORE FUN FOR SENIORS

(By Lois Whitley)

Last week the Senior class was submitted to such indignities as being measured, weighed and answering of numerous questions of rather personal nature. The cause was simply the order for caps and gowns for commencement was being filled in for mailing.

It was necessary to know head sizes, weight, height, and chest measurements, hence the confusion. Twenty-two caps and gowns were ordered and twelve collars for the girls' gowns. The class consists of ten boys twelve girls. This year the gowns will be navy blue and white collars for the girls.

SPRING RETURNS

(The Owl)

At last the spring is here again
And the days are getting long.
It fills my heart with cheer again
As the red bird sings his song.

Spring is here to stay again
And the brooklet o'er the hill
Is babbling on its way again
And the winds are calm and still.

The fields are green with grain again
The trees are blooming all
And now if it would rain again
It would help things until fall.

The hillside seems to grow again
For the trees are leafing out
And the grass begins to show again
And the tender weeds to sprout.

Flowers start to smell again
And drowsily the wild bee hums.
And I hope that all is well again
Before the summer comes.

E. H. S. GRADUATES OF TEN YEARS AGO

(By Celeste Tisdale)

The graduating class of Eldorado High School ten years ago was not even half as large as the 1935 class. Those on roll were Tommy Dee Oliver, Eula Wright, Mable Roach, Lola Mae Tisdale, Annie Neill, Earl Calhoun, Beeler Brown, Robert Isaacs, Truett Ray and Audery Sofgee.

Tommy Dee Oliver is now Mrs. Otis Bule and lives near Eldorado. She was vice-president of her class.

Eula Wright is now Mrs. L. T. Barber. She is living in Eldorado. She was the class treasurer.

Mable Roach is now Mrs. Gaston Brock and teaches school at Sweetwater, Texas.

Lola Mae Tisdale is now Mrs. Lewis Ballew. She lives here.

Annie Neill is now Mrs. Reuben Dickens. She lives here.

Earl Calhoun, was accidentally drowned at Christoval in October, 1930. Beeler Brown was president of his class and captain of the football team. He lives in Ozona.

Robert Isaacs is employed with the Texas Utilities Co. in Eldorado. While in school he was a valuable football player.

Truett Ray now lives in San Angelo. He is a minister.

If our class history is written ten years after our graduation, I wonder if we could have as good a record as this class. If we do we will be doing fine.

Lighting . . .
Yesterday and Today

DID YOU KNOW THAT musical compositions, frequently dwelling on candle light, are but recollections of a luxury in bygone days?

That such spectacular illumination from candles would compare as only modest electric illumination today?

That one modern electric lamp (50-watt size) gives the same illumination as 48 candle light give?

That the wax candle will burn about 4 hours, necessitating 250 replacements to one replacement of the electric lamp?

That an average home today has the equivalent of approximately ten such electric lamps (50-watt size) in use, and with 24 months or 1,000 burning hours as their useful life, the two-year total lighting costs, including cost of lamps and cost of electric service, is only \$27?

That a comparable illumination from wax candles (not considering the inferior light or the danger accompanying any flame, its fine soot floating or gaseous odors) would necessitate consumption of 120,000 wax candles over such a 2-year period at a cost to you of more than \$2,400, yet complete electric "lighting" service is supplied by this company and enjoyed by all members of your household for less daily costs than a cigar to one member of the household.

Further, that over half of all domestic service customers in West Texas pay less than 4c a day for all their residential electric service, including lighting.

ELECTRIC SERVICE IS CHEAP! YOU SHOULD USE MORE OF IT!

President Thomas H. Taylor, Howard Payne College, Brownwood, Texas, has accepted the invitation of the senior class of the Eldorado High School to deliver the commencement address at the close of school on May 23. Dr. Taylor has been in Eldorado on numerous previous occasions and is well known in this section of the state.

Rev. Noel P. Wilkinson, Pastor of the local Presbyterian Church has also accepted the invitation to deliver the baccalaureate sermon at the Baptist Church on May 19.

I note an advertisement in a New York state newspaper by its home town bank. It tells of a new way of saving and paying your next year's taxes. It is something like the old Christmas Savings Clubs.

The Bank says it has arranged a plan called a Tax Club which provides for equal weekly installment payments to the Bank. You estimate what your years' taxes will be and, when taxes are due, the Bank will pay them and send you a receipt. That is, of course, if you have enough in the bank to pay them.

The plan is fine, but how to get the money to pay the installments is the hard question for most people, and then again how can we estimate what our taxes will be a year from now? The only thing we can be sure of is that they will be higher, BUT HOW HIGH IS WHAT IS WORRYING MOST OF AMERICA TODAY!

gates herself to help all other club members in their work which has to do with the demonstration she is carrying.

"In setting up a demonstration—we'll take for instance bedroom improvement. It depends upon the room to be improved, the woman doing the work, and the assistance the agent gives her as to what she does. Her room may need more light in it, floors refinished; furniture renovated or refinished; ventilation improved, a permanent clothes closet added, walls and ceiling improved; a bedside rug added; window curtains to blend in with rest of furnishings; a reading unit provided or improved; a dressing unit added r improved a bed improved.

"These things may call for many demonstrations. The bed alone may call for making demonstrations on making of springs cover, mattress cover, mattress pad, work on light-weight warm cover, sheets to give adequate tuck-in, bed spread work.

"Now the cooperators, as all other club members are called, are to try to achieve three or four certain goals in all three demonstrations. We have a plan of work which runs from January 1st to January 1st embodied in what we call our year book. Each club has the same program at some time during the month. At the authority of these meetings demonstrations are given to assist the demonstrator as well as the cooperators to achieve their goals.

"You see that home demonstration work is not confined to a canning program, neither is its purpose merely for stressing economy in the home. A real home is an institution which is economically sound, artistically satisfying, socially stimulating, educationally balanced, and religiously wholesome. And it is the purpose of home demonstration work to assist in trying to create such institutions."

Miss Farnsworth let each member of the club compare a home-grown wool quilt with a cotton coverlet explaining that the wool quilt was much warmer and lighter than most commonly used bed covering. She urged that people of this county, since wool is so plentiful, to send wool to manufacturers who will prepare it for this purpose. This will enable them to say they have home-grown wool suits.

The club voted to sponsor a clean-up Campaign and appointed a committee to go before the City Father, asking for assistance. A date for City Clean-up will be set when the committee meets some time this week.

IN MEMORIAM

"I hear a voice you cannot hear Which says I must not stay, I see a hand you cannot see, Which beckons me away."

On March 23, 1935, at 8:15 a. m. the spirit of our beloved young friend James Tisdale passed to his heavenly home.

"No more of this world apart, A feeling limb or throbbing heart... In the passing, the place in his home is vacant, a loving son and brother missing. A beautiful friendship, and his friends were legion, is only a memory, but a beautiful memory that will grow brighter through all the coming years. He shall ever be remembered for his smiling face, his jovial disposition and his courteous manner. His spirit shown with all the beauty of childhood, and he was a leader among his friends.

We shall miss him because we loved him, but we would not call him back, for to the pure in heart death but opens the shining portals of an endless day, gorgeous with perpetual glories and everlasting bliss.

"Our little systems have their day, They have their day and cease to be, They are but broken lights of Thee, And Thou, Oh Lord are more than they."

Dear little Jim's stay was short, but long enough for him to endear himself to the hearts of all who knew him.

He is, "Not lost, not dead, nor even sleeping, Though we laid him in the grave with weeping; No sharp despair our chastened hearts can fill, For they are with us still."

"O mystic fellowship divine, Bound by one prevailing sign, The Altar spans death's icy tide, The dead seem kneeling at our side."

"Beyond this vale of tears, There is a life above, Unmeasured by the flight of years, And all that life is love."

To his loved ones, "Rejoice oh grieving heart, The hours fly past; With each some sorrow dies, With each some shadow flies. Until at last The red dawn in the east, Bids weary night depart, And pain is past."

—A Friend who loved him.
