MEDITATIONS

By The Editor

This week we want to again step aside long enough to give Bob Grady, columnist for The Success, room in the beginning of this column for the following contribution. Grady, Government inspector for the local woolen mills and for a mattress factory at Taylor, Texas, has found time to write and submit in his off hours many items for The Success since he came here a few months ago. We appreciate these contributions and have had many, many expressions of interest presented us concerning the column by our readers.

We are sure that our many men in service readers will enjoy his article this week.

BOB GRADY SAYS:

Those disguised Nazis who placed that refugee from a psychopathic ward, A. Hitler, on a high pedestal are probably wishing now that they had placed the pedestal on top of der fuhrer.

The following paraphrase of a well known rhyme is a little premature, but it won't be long before:

There were three Axis-a partners,
Each-a yelling "Boo!"
Some bombs-a fell on Italy
Now there are but-a two.

There was two Axis part-ners,
Vun was a super-hun.
A lot of bombs they was fall down,

And then there was but vun.
One honorable Axis part-ner,
Of honorable Rising Sun.
A lot more bombs (so sorry) fell,
Then there was honorable none.

If Hollywood producers ever decide to film an epic incorporating the more heartrending moments from "After the Ball", "Dante's Inferno", "Love's Labor Lost", and "Ten Nights in a Barroom," poor old Il Musso's experiences of the past year would enable him to play the leading role right to the hilt.

COUNTRY WOMAN'S H. D. CLUB TO EXHIBIT FOODS

The Country Woman's Home Demonstration Club food exhibit will be displayed in the Frank Meador's office window over this weekend only, due to the display being made up largely of perishable foods. The public is invited and urged to visit this display as it is expected to be one of much interest.

Water Operators Met Here Wednesday

Accepting an invitation of L. B. Burk at their last meeting held in San Angelo, the Concho Sanitary Association met here Wednesday evening of this week.

The local waterworks superintendent was responsible for a barbecue served to the group on the courthouse lawn at 8 o'clock that was thoroughly enjoyed by all in attendance, and which brought to the host much praise on his ability to "really feed them."

Following the dinner the association members retired to the City Hall where the president called the meeting to order and the business session got under way. Discussion of control and treatment of various diseases was discussed by W. E. Cuzick, well-informed member of the group. Particular emphasis was placed on the treatment of water supplies dealing with typhoid and poliomyelitis, that are prevalent at the present time in various sections of the state.

Any city official who misses one of these meetings truly misses an instructive discussion pertaining to water purification and control of diseases spread by water supplies not properly treated. Summing the whole thing up, the association is doing a wonderful work for the betterment of health conditions and members of the association are to be commended for their efforts in making the studies and their time and expense in making the association possible.

Present for the occasion were W. E. Beaty, San Angelo; A. R. McMillin, L. E. Ray, A. R. Kreamer, L. D. Kennedy, all of Concho Field; C. W. Guess, J. P. Burden, City Engineer, W. E. Cuzick, C. W. Drake and S. T. Rodgers, all of San Angelo; W. D. Cooper, Ozona; L. B. Burk, Buster Gunn, W. Irl Breedlove and E. H. Sweatt were visitors.

Next meeting of the association is to be held in Ozona, Sept. 15.

HOME DESTROYED BY FIRE

The home of Mr. and Mrs. J. H. Luedecke, Jr., who reside at Rockspring, was completely destroyed by fire Saturday night. Everything was a total loss with exceptions of what few clothes the family had with them. They had come to Eldorado to visit for the weekend with their parents, Mr. and Mrs. Johnny Isaacs and Mr. and Mrs. J. H. Luedecke, Sr., when the fire occurred. It is thought that the fire may have started from a kerosene burner although it has not been definitely decided upon.

CHANGE IN WORSHIP HOURS

August 29th the regular preaching service at the Methodist church will be at ten o'clock in the morning and the Sunday school at 11 o'clock. This is on account of the regular fifth Sunday services at Rudd, the Rev. F. B. Faust announced this week.

Health Warning Issued

(EDITOR'S NOTE: Press dispatches this week indicate in a very impressive manner that infantile paralysis is again on the increase in regard to the number of cases. Although there has been no cases reported in Schleicher county there are cases in adjacent counties. In the interest of safety to citizens of the county, and especially the safety of children, this publication wishes to emphasize the immediate necessity of prevention measures. This, as is indicated by Dr. George W. Cox, State Health Officer, should be done NOW. No greater move could be made on the part of residents in helping in the war effort than taking preventative measures against the disease. It will perhaps save loss of life, save the crippling of innocent children, and too, will save much money used in the treatment of the disease which otherwise could be invested in War Bonds and Stamps, thus helping the war financing program. Let's all adhere to the admonition of the State Health Officer, and to the pleadings of hospitals in Texas, now over-run with cases of Polio, to prevent as many more cases as possible. Start now to clean up your premises to prevent this and other diseases, as well as fire hazards.)

Following is a release from Dr. Cox received this week:

SUGGESTIONS REGARDING CONTROL OF POLIOMYELITIS (INFANTILE PARALYSIS)

Until recently it was generally believed that this infection is transmitted by means of discharges from the respiratory tract. It is now believed that poliomyelitis is primarily another of the several gastrointestinal infections. Therefore, control measures must emphasize clean-up campaigns and improvements in sanitation.

Strict sanitary measures must be observed in all communities. Stringent efforts should be made to eliminate the house-fly and to destroy its breeding places. All mosquitoes and mosquito breeding places must be eliminated at once. Every effort should be made to institute approved garbage collection systems immediately. Safe water supplies must be assured. Where adequate municipal sewage disposal systems are not in operation, it is vitally important to promote and maintain sanitary septic tanks and outdoor privies.

All swimming pools should, under rigid supervision, maintain those standards approved by the Texas State Department of Health. This necessarily included maintenance of proper chlorine level. Where such standards are not maintained, those pools should be closed immediately.

All raw foods and vegetables should be washed thoroughly before use and protected from flies, filth and insects. All eating and food handling establishments should adhere strictly to the State Law concerning the sterilization of dishes and utensils. In the present emergency, those restaurants with insufficient personnel to maintain approved sanitation should close one or two hours a day so that employees can assist in maintaining cleanliness and high sanitary standards.

Every effort should be made to secure approved milk. Rats and mice should be eliminated. Maintain in the home the same sanitary standards that are necessary in community life. Particular attention should be paid to personal hygiene. Excreta from cases and contacts should be handled and disinfected with the same scrupulous care as in typhoid fever or bacillary dysentery.

Over-exertion in children should be avoided. Children should not visit homes where there is a sick child. Cases should be quarantined for 14 days and adults who work in food establishments should be particularly instructed in personal hygiene. It is advisable to reduce to a minimum all human contacts especially in children during an outbreak of this disease. It is not advocated that schools, churches, and theaters be closed.

Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately.

L. L. Baker, mayor of the City of Eldorado, said this week that in his opinion citizens of Eldorado would well be justified in taking every precautionary measure in the prevention of the spread of contagious diseases, and especially in the possible appearance of Polio (infantile paralysis) in this community, and he further urged that a general clean-up of the city would greatly assist in this prevention.

Not only would a thor-

ough clean-up help in the prevention of this disease and other common diseases, but would, at the same time, help to eliminate possible fires, Mayor Baker continued.

Mrs. Allen Doyle of Roswell N. M. and Mr. John Doyle of Mason, visited in the Marvin Logan and L. T. Wilson home over the weekend and attended the McGinnes reunion at Christoval. Mr. John Doyle is an uncle of Mrs. Wilson's and Mrs. Allen Doyle is a cousin.

First Bale 1943 Cotton Ginned, Sold

L. Kent of the Bailey Ranch community brought to Eldorado Wednesday the first bale of 1943 cotton which was bought by the Eldorado Gin Company, ginners of the bale. Mr. Kent received 20 cents per pound for the ginned bale that turned out 506 pounds of lint from 1350 pounds of seed cotton, bringing a total of \$101.20, with Kent retaining the seed.

A premium was made up from business houses and individuals which totaled approximately \$25, bringing the total to around \$126.20.

It was reported Wednesday afternoon that Robert Nixon had out a bale, which would make the second bale in two days.

Blasting for Axis Oil

"Torpedo starboard stern," cries the watch . . . The bells in the engine room ring excited orders . . . The transport veers sharply in its course . . . "Whew," whistles the captain as the tin fish passes harmlessly by, "that was a close call."

Already a subchaser was racing to the spot where the enemy submarine crash-dived. The Y-throwers go into action . . . Wider and wider the spot is circled . . . Geysers of water mark each detonation . . . Then a yell from the crew as the sea boils up a film of Axis oil and debris . . . The last bomb found its mark.

Though it had been weeks since the Y-guns had seen action, every part of the mechanism functioned perfectly. Non-corrosive grease, marine paints, rust preventives protected all working parts against the insidious attacks of the salt air of the sea.

Figuratively the uses of oil in war are myriad and their importance cannot be overestimated (see partial list below). These products are made available for war and industry through leadership in petroleum research, the same research which produces for your car and truck Esso and Humble gasolines, Esso, 997 and Velvet motor oils.

REAL CONSERVATION

Americans are learning the meaning of conservation. They are learning from an exacting teacher—war. War has in a matter of months switched this country from a nation of abundance to a nation of scarcity, as far as civilians are concerned. And where there is scarcity, there must be conservation. Automobile owners cannot burn up their cars with speed as they were wont to do a few years ago. Housewives cannot carelessly demolish household appliances, or toss out surplus food.

The new effort to conserve must reach farther than slow driving and eating the last crust of bread. It must reach into one of the most important existing fields of conservation—fire prevention. Several hundred millions of dollars worth of property is destroyed each year by fire. The bulk of that loss is sheer criminal waste, brought about by indifference and carelessness on the part of individuals. This carelessness can be eradicated by education; by learning that preventing a property-destroying fire is as great a step toward conservation as driving your auto slowly to save tires. Fire prevention authorities have emphasized that: "The development of a safety awareness that will control the daily actions of the individual is necessary if preventable fires and conflagrations are to be reduced to a minimum."

Until our individual conservation efforts are effectively directed toward curbing fire hazards in the home, in the factory, on the farm and every place else where life and property are involved, we have not learned the lesson of conservation.

Pay-As-You-Go Income Tax Facts

By County Agent, Jack Welch

The following facts about Pay As You Go income Taxes were received by Jack Welch, County Agent, this week from T. R. Timm, Extension Service Economist.

The new law so far only changes the time and method of tax payment. If no new law this fall the 1942 rates will be used. An estimated return must be filed by December 15, 1943 and final return between Jan. 1, 1944 and March 15. The March 15 return will provide a chance to correct errors in the December 15 return. Your 1943 income tax must be paid on or before March 15, 1943. All payments that are made during the year 1943 will be deducted from the tax bill. For example, your tax bill as figured December 15

amounts to \$100.00. During 1943 you paid \$50 on what you considered your 1942 tax liability. This means you will owe \$50, due December 15, 1943. The 1942 Tax payment is forgiven only when the tax liability is \$50 or under and the 1942 tax on the 1943 liability is smaller than the 1942 liability. An important point to remember is that the smaller tax due is considered to be 1942 and all or a portion is skipped. If the smaller year's tax bill, which in most instances, will be 1942, is above \$50 then only \$50 or 75 per cent, whichever is larger is forgiven by the Government. The 1942 tax liability can be paid in two installments on March 15, 1944 and March 15, 1945. Of course the total amount can be paid on March 15, 1944 if the farmer so desires.

The victory tax beginning Jan. 1, 1943 is 5 per cent of net business profit above \$1248 if joint returns are made and \$624 if separate returns are made. Deductions for dependents are not allowed as such for the victory tax, but credit is given in the post war rebate. Married couples get a postwar credit of 40 per cent of their Victory tax and single persons get 25 per cent. A deduction of \$100 or 2 per cent whichever is smaller, of the Victory tax is added to the postwar credit for each dependent. A farmer can use his postwar credit by deducting it against this current tax liability if during the tax year he has spent a sum equivalent to the credit due, for war bonds, payments on life insurance policies, and payments on debts reincurred prior to September 1, 1942 or he can wait until the war is over and collect all of it.

Because he scaled the walls of the fortification at Kasba-Mehdia, French Morocco, and from that hazardous position diverted the attention of the enemy with his rifle fire, enabling our troops to enter through the main gates of the fort, Pfc. C. L. Mohler was awarded the Distinguished Service Cross. He risked his life for you. How many more Bonds and Stamps can you afford, to help him? Figure it out yourself.

Two hours after the ill-fated destroyer Hammann was sunk, her skipper, Comdr. Arnold Ellsworth True, was rescued from the water and found to be supporting two enlisted men. He himself was so exhausted that he did not realize both men were dead. Comdr. True, who was awarded the Navy Cross and the Distinguished Service Medal for heroism, typifies the spirit of our men in arms. They give to the limit of their endurance. Do YOUR part! Buy more War Bonds and Stamps!

The Distinguished Service Cross has been awarded Staff Sgt. Doyle Kimmerly of Huntington, Texas, for manning a sub-machine gun and returning the fire of low-flying enemy planes during the Jap attack on Hickam Field. When his ammunition was gone he ran from the cover of his truck to get more, and kept firing until the truck was bombed. He showed bravery beyond the call of duty. Figure out for yourself how much you can invest in War Savings beyond what you are doing now.

Although wounded by a Jap's vicious hooked bayonet in hand-to-hand combat on Guadalcanal, Marine Pfc. Harold Pazofsky of Brooklyn, N. Y., finally succeeded in cutting his opponent down with his machete. Our boys are willing to spend their lives. How much more can you afford to lend by increasing your Payroll Savings allotment? HOME DEMONSTRATION COUNCIL MEETS

The Home Demonstration Council met in the office of Miss Virginia Ryan, Home Dem. Agent on Saturday, August 14th at 2:30 P. M. There were twelve council members and two visitors present. Mrs. Ray Alexander called the meeting to order. A delegate from each club reported the activities of the July meetings. Reynolds and Cliff Clubs reported socials for the month. Mrs. Victor Sauer read the minutes of the last meeting and the chairman gave the treasurer's report.

A letter was read from Mrs. Hart Phillips Jr. and Miss Helen Swift pertaining to the state meeting that is being held in Dallas this week. Delegates from Schleicher County are Mrs. Archie Mittel, Mrs. Wesley Garrett, and Mrs. E. H. Coulter.

Mrs. John Williams announced that the Home Demonstration Clubs would have a picnic lunch on the Courthouse lawn Saturday, August 21st at 7:00 P. M. Miss Ryan announced the 4-H encampment for August 26 and 27 at the McIntosh Ranch.

Plans for the County Wide Exhibit to be held in October were discussed and a meeting of the Council Exhibit Committee together with each chairman of the six club exhibit committees was set for Saturday afternoon, August 21st to further perfect plans. The Eldorado Club will have an exhibit in the hotel window sometime in September. It was voted to follow Home Food Supply and Victory Sewing for demonstrations for the coming year.

BUY MEAD'S FINE BREAD

FAMILY LIVING OUTLOOK

By Virginia Ryan, Schleicher County H. D. Agent.

What's the outlook for war time family living during the next few months? Well, likely the number of rationed articles won't increase much. There's some talk of rationing fresh milk on a regional basis... but that's just talk... so far. The War Production Board says that with sane buying on the part of consumers it shouldn't be necessary to ration clothing.

That means buying only what's absolutely necessary, in line with the Victory Demonstrator's pledge. If clothes rationing ever comes, it'll be because some unpatriotic people have hoarded.

Here are some other changes you can expect as a result of the war: Your soap won't be quite as efficient as it used to be. That's because it contains only about a third as much glycerine as before. The supply of soap depends pretty much on fat from slaughtering and from your kitchen. So when you turn in your waste fats, you'll be contributing to the production of your favorite brands of soap. Housewives are reminded again to put 1 spoonfull of used fats into the can to make glycerine for ammunition every time she pours the fried meat grease into the usual container. Local markets purchasing used fats are: Red and White Grocery and Wright's Cash Grocery.

Do not take less than one pound. Do not take in a glass container. Do not take your surplus fat to the grocer during week ends when they are already naturally busy.

Now about kitchen supplies. The government has decide to do something about a recent shortage of can openers. And manufacturers still are turning out rotary egg beaters, basting spoons, food choppers, wire strainers and cake turners. These are to replace utensils which wear out.

Matches, too, are being streamlined. The "strike anywhere" kind will be shortened by a fourth of an inch. And there'll be more in the box for the same price... Finally, if you like costume jewelry, you'd better take care of what you have, it's considered "non-essential," so little more will be made for the duration.

Mrs. Vernie Humphrey underwent a tonsilectomy in a San Angelo Clinic Tuesday.

GIFT TEA

Honoring Mrs. A. A. Cooper, recent bride, Misses Betty Sue Ashmore, Polly McLaughlin, LaVerne Rodgers, Sarah Sweatt, and Mrs. E. H. Sweatt were hostesses to a gift tea at the Baptist Church Saturday afternoon.

Polly McLaughlin presided at the Bride's book. Melba Calcote presided at the punch bowl.

The linen covered table was centered with a bowl of crepe Myrtle.

Those on the program included a duet by Jean and Dinkey Meador. Mrs. J. M. Hays rendered a piano solo, "Our Own U. S. A." and Frankye Thompson gave piano selections during the tea hour.

Seats of honor were occupied by Mrs. A. O. Marsh of Temple, grandmother to the bride, Mrs. E. E. Newlin, mother of the bride, and Mrs. Cooper.

Some fifty five guests were in attendance.

RED CROSS NEWS

The local knitting unit of the Red Cross has ordered enough yarn to knit 20 pairs of gloves (regular Army gloves). The yarn is expected to arrive this week and knitters are asked to call for the yarn at the Red Cross box at Hotel Eldo, and workers are asked to complete the gloves as soon as possible in order for these to reach the boys in time for use this winter. All garments that are now out are past due. Shipments are being made daily, and those who have garments out now are urged to get them in as soon as possible. Let's not let our part of the work come up last.

Mrs. Luke Robinson.

People's Responsibility

Eight billion dollars of the 13 billion dollars in this Second War Loan Drive must come from non-banking sources, so the responsibility for the bulk of this 13-billion-dollar drive rests with the American public.

Indications are that Americans generally need only to be reminded of this responsibility and how much they should lend their government in order to reach this goal. Americans are backing up their fighting men on the battle fronts. They are supporting the Second War Loan. "They give their lives... You lend your money."

SUFFERS BRUISED ARM

Laura McGinnes suffered a badly bruised arm Sunday when she pulled the cord for cranking a motor when it became stalled while she with a party of others were boat riding. A stick on the end of the cord struck her arm, resulting in a bad bruise. Although not seriously injured, the bruise proved to be very painful and she was able to return to her duties at the San Angelo Telephone Company in San Angelo Wednesday of this week.
