

Governor Views Troops

Governor Allan Shivers, Col. Fred M. Dean, Webb Air Force Base commander, and other dignitaries stand at attention during the big wing review held at the base this morning in conjunction with graduation ceremonies. The governor later addressed graduating cadets during commencement exercises.

## Shivers To Speak Tonight; Reception, Radio Talk Set

A radio talk, appearance at a reception, and an address before the crowd at the A&M barbecue this evening are on the program here today for Governor Allan Shivers.

The chief executive is to be heard in a brief program on KBST at 7 o'clock this evening.

From 5 o'clock until radio time he is to greet members of the City Federation of Women's Clubs, who are to be guests at a reception

honoring the governor in the home of Mrs. Norman Read.

A large crowd is expected at the City Park at 7:30, when Aggies stage an area-wide gathering. They are raising money with the barbecue to finance a scholarship to a deserving high school graduate.

People who do not come for the barbecue, however, have an invitation to hear Governor Shivers, whose talk will be at about 8:30.

## America Must Stay Strong, Governor Tells Webb Grads

America as the free world's last bulwark against communism must continue to keep its military defense strong and its civilian support alert, Gov. Allan Shivers declared here today in an address to a graduating class at Webb Air Force Base.

He lauded the young Air Force men for "seeing the necessity of keeping our nation's armed might at full complement." Then he called upon the civilian population to "show our appreciation to these young men by doing our part to keep America strong."

## Haymes Pleased With Testimony

LOS ANGELES (AP)—Dick Haymes crooned happily today after testimony of a former immigration official pictured him as complying with the law before taking that famous trip to Hawaii.

The trip, to visit his then sweetheart and present wife, Rita Hayworth touched off deportation blues for the Argentine-born singer.

The reopened deportation hearing was adjourned until Friday to allow both sides to look for a court reporter. The testimony proved too weighty for the Immigration Service regular stenographic help.

The witness said he asked if he should warn Haymes that his draft exemption claim might affect his re-entry from Hawaii but testified he was told it was not necessary. And Haymes was not told of this until he returned from Hawaii.

## Three Crashes Put Driver In Hospital

PASADENA, Calif. (AP)—Three accidents in three days put Toll Dickerson in the hospital.

Monday his car and another collided but damage was minor.

Tuesday his car was struck again and had to be towed away.

Wednesday, riding a borrowed motorcycle, Dickerson, 20, figured in another collision with an automobile and suffered a fractured pelvis.

## Land Office Work Moved To Santa Fe

WASHINGTON (AP)—Effective July 30, land office functions in Texas will be handled in the land office at Santa Fe, N.M., Secretary of the Interior McKay has announced.

## Guatemala War Being Conducted Over Airwaves

By SAM SUMMERLIN  
TEGUCIGALPA, Honduras (AP)—The Guatemalan War entered its seventh day today with most of the fighting still apparently raging over the propaganda airwaves and in the diplomatic arena.

There was no indication of a major battle shaping up anywhere.

The anti-Communist "liberation army" seemingly was bogged down by lack of transport just north of the Honduran border.

The army of Red-backed President Jacobo Arbenz Guzman still had not made an appearance in force in the field.

There were these developments: 1. Seven persons were reported wounded, three gravely, when Honduran police fired on a Tegucigalpa crowd watching a pro-Arbenz, anti-U.S. demonstration by students in the Honduran capital last night.

Later thousands of the students and townspeople gathered to parade through the city.

2. Honduras charged a Guatemalan airplane bombed a Honduran airfield Tuesday. The Tegucigalpa government said it is protesting to the United Nations and to the Organization of American States.

U. N. sources in New York said last night the international organization had not yet received the protest, the third filed in connection with the fighting. Guatemala has entered two, one of which still is pending.

3. Guatemala promptly denied the bombing charge. Guatemalan Foreign Minister Guillermo Toriello said in a statement "not a single Guatemalan plane has flown toward the Honduran frontier."

4. The OAS's Inter-American Peace Commission, meeting in Washington, referred to Guatemala a proposal by Honduras and Nicaragua that the five-nation body make an on-the-spot investigation of charges by the Arbenz government that the two neighboring republics supported "aggression" against Guatemala.

Commission Chairman Luis Quintanilla of Mexico said he hoped the Guatemalan government would accept this "generous offer" promptly.

5. Nicaragua formally denied it was guilty of any aggression. In a cable to the U. N., Nicaraguan Foreign Minister Oscar Sevilla Saenz said the charges were intended to conceal the Communist affiliations of the Arbenz government.

6. A Guatemalan broadcast said President Arbenz has assured U. S. Ambassador John Peurifoy in Guatemala City the safety of U. S. citizens living in that country would be assured. There had been reports earlier that the embassy was planning to airlift out the nearly 1,200 Americans there.

The progress of the rival armies was clouded by a welter of conflicting reports, many of them obvious propaganda claims. One rebel broadcast claimed the insurgent forces led by Col. Carlos Castillo Armas were moving on Guatemala City from three sides.

A government broadcast said the rebels had been repulsed and were fleeing toward Honduras.

Col. Castillo was reported to have moved his headquarters from Escupulas, six miles north of the Honduran border, to a town near Chiquimula. This city is about 20 miles south of Zacapa, a key town on the vital railroad from Puerto Barrios and an obvious target of the invaders.

Newsmen who visited Castillo at Escupulas yesterday said the rebel forces appeared bogged down for lack of transport. Castillo, himself, said heavy rains and a lack of organization in the first stages had been his main obstacles.

Castillo's headquarters claimed rebel planes had damaged ammunition dumps and other strategic points in the town of El Progreso, 35 miles northeast of the capital, and also on the Puerto Barrios-Guatemala City railroad. Rebel spokesmen also claimed saboteurs were moving ahead of their forces, causing serious damage with dynamite blasts.

But government broadcasts heard in El Salvador claimed the "enemy" had been hurled back on fronts and was fleeing toward the Honduran border in the Guaslan, Morales and Puerto Barrios areas. They said loyal troops had begun mopping up scattered rebel groups that surrendered without resistance.

Many House GOP leaders, such as Rep. Daniel A. Reed (R-NY), were reluctant to go along even with a one-year extension without new restrictions on imports.

They argued that a three-year extension with new powers for the President to cut tariffs, as originally requested by President Eisenhower and now provided for in the Democrats' substitute, would be like waving a red flag in the face of key House Republicans who favor higher tariffs.

WASHINGTON (AP)—Republican Senate leaders passed word today that adoption of a Democratic-sponsored, broadened extension of the Reciprocal Trade Act probably would kill the 29-year program.

Majority Leader Knowland of California and Chairman Millikin (R-Colo.) of the tariff-handling Finance Committee, it was learned, were using this argument to try to hold votes in line for a simple one-year extension bill already passed by the House.

# Farm Panel In Senate Rejects Flexible Pegs

## DERBY RACERS DUE AT PARK ON SATURDAY

Soap Box Derby entrants are reminded that they are to be at the City Park with their racers Saturday morning at 9 o'clock.

Even if the cars are not completely finished, boys should have them on hand. Preliminary inspection will be made and the cars will be weighed on the official Toledo scales, which have arrived here for use exclusively for the Derby.

Boys may make trial runs on the course, which will be marked by Saturday, and use the starting ramp, which is due to be completed by then.

Ice cream and Coca-Cola will be served to the boys Saturday morning, courtesy of Tidwell Chevrolet Co., sponsor of the event along with The Herald and the Lions Club.

## House Panel Okays World Aid Program

WASHINGTON (AP)—Some Republican congressmen today foresaw heavy sailing ahead for President Eisenhower's \$3 1/2 billion dollar foreign aid program despite its approval virtually intact by the House Foreign Affairs Committee.

The committee scotched only seven million dollars from administration requests in approving yesterday a \$3,470,000,000 ceiling for global assistance during the year beginning July 1.

Rep. Vorys (R-Ohio), a ranking member, termed the committee action a "vote of confidence in the President." He added this is the first time in his 16 years' congressional service that a committee has avoided heavy slashes in foreign aid.

The measure now goes to the House floor, probably Monday, and Vorys predicted that several members, including some committee men, would try to cut it. The Senate has not yet acted.

The House Foreign Policy Committee announced that it had approved untouched these major items:

1. Global military assistance totaling \$1,778,300,000.
2. Military - supporting aid to Southeast Asia and the Western Pacific, 945 million dollars. This includes authority to use anywhere in Southeast Asia 800 million earmarked for Indochina.
3. Global defense support, backing up the military buildup, \$223,280,000.
4. Development assistance and point four aid to underdeveloped areas, 234 million, including 85 million for India.
5. Korean rehabilitation, \$241,300,000, including the American share of United Nations programs.

The rest of the authorized funds would be spent on various types of international relief programs.

The committee sliced 7% million dollars from defense support funds for Europe, but added \$500,000 to the U. N. emergency relief total. Last year the group cut \$1.2 billion.

## Sharp Disagreements Loom In Churchill-Ike Conference

By JOHN M. HIGHTOWER  
WASHINGTON (AP)—The United States today sidestepped the Churchill government's proposal, on the eve of Churchill-Eisenhower talks here, for a Locarno-type system of security guarantees for re-threatened Southeast Asia.

Under such a system the United States and Communist China presumably would be among the powers guaranteeing some kind of Southeast Asian settlement. War-torn Indochina, according to the view of officials here, probably would be "neutralized."

In response to a request for comment on the proposal and other aspects of a foreign policy speech to Parliament yesterday by Foreign Secretary Eden, a State Department spokesman said:

"We were not informed of the content of Mr. Eden's speech in advance of its delivery. We have not received a text of his remarks and therefore have no comment."

The emphasis on not being informed and the failure to make any softening comment gave a strong indication of official United States reaction, which authorities would amplify only in private comment.

In fact, the idea of an aggression security treaty of the type worked out at Locarno between

## Fraud Claimed In GI Benefits To Moms, Dads

WASHINGTON (AP)—The chairman of the House Armed Services Committee, Rep. Short (R-Mo.), said today that American taxpayers have been swindled out of millions of dollars by servicemen fraudulently claiming benefits for parents.

Disclosing what he said were early findings in a broad Army investigation, Short told offenders "to take cover because the full force of justice is coming their way."

The benefits under scrutiny, known as secondary allotments, are paid to parents of armed services enlisted personnel upon affidavit by servicemen and parent that the serviceman provides more than one-half of the parent's support.

Part of the money comes from the serviceman's pay check and part from the federal treasury. The government's share ranges from \$31.30 to \$96.90 a month.

Short's statement went into the Congressional Record in what he called a report on "Project Big," an investigation first instituted 18 months ago in Puerto Rico. As a result of what was found in the Puerto Rican cases, he said, the

## Committee Votes Fixed Plan, 8-7

WASHINGTON (AP)—The Senate Agriculture Committee today rejected the administration's flexible farm price support program by voting 8-7 to extend rigid supports for another year.

The action came after the group turned down, 8-6, a proposed two-year extension of the mandatory supports on the basic crops: wheat, cotton, corn, rice, tobacco and peanuts.

Chairman Aiken (R-Vt.) predicted after the closed door session that the Senate would reverse the narrow committee decision in favor of the administration's flexible price support plan.

Sen. Young (R-ND) offered the motion for a one-year extension of the high-level supports due to expire with this year's crops.

Three Republicans and five Democrats supported it. They were Sens. Young, Thyne (R-Minn.), Mundt (R-S.D.), Ellender (D-La.), Humphrey (D-Minn.), Johnston (D-SC), Eastland (D-Miss) and Clements (D-Ky.).

Opposing the extension were Sens. Aiken, Hickenlooper (R-Ia.), Williams (R-Del.), Schoeppl (R-Ill.), Walker (R-Idaho), Holland (D-Wa.) and Anderson (D-N.M.).

Schoeppl said he first voted for the one-year extension with an understanding that other major provisions of a general farm bill, previously approved by the com-

mittee, would be sent on to the Senate.

"When this was not agreed to I voted against the extension," he said.

Humphrey offered the proposed two-year extension but Young and Thyne voted against that along with others who opposed the one-year motion later.

"I think a two-year extension would face a certain presidential veto," Young told reporters.

He said he believes a one-year extension "has a 50-50 chance for Senate approval and about the same for escaping a veto."

## George Parr's Plea Of Double Jeopardy Due Hearing Friday

SAN DIEGO, Tex. (AP)—A hearing on George Parr's plea of double jeopardy in an assault to murder case is set for tomorrow. But there was still no prosecutor today to take the place of disqualified Dist. Atty. Raeburn Norris.

Judge Maxwell Welch, who has disqualified Norris and his assistant because they were too closely associated with Parr, refused a Parr request yesterday to postpone the hearing.

Atty. Luther Jones of Corpus Christi, Parr's counsel, asked for a two or three weeks "cooling off period." He reminded the court that Judge Manuel Raymond of Laredo, Parr's chief counsel, was sick.

Parr, long dominant in the 79th Judicial District's political wars, was indicted on a charge of assault to murder Cristobal Ybanez, a member of the Freedom Party, organized to oppose Parr candidates and policies.

Parr claimed the indictment placed him in double jeopardy because he already had paid a \$150 fine for striking Ybanez with a rifle barrel last August.

## Resident Injured In Highway Mishap

Mrs. Charles Long, 401 Washington Boulevard, received first aid treatment at Cowper Hospital this morning following a pre-dawn accident on South Highway 97.

Hospital attendants said she suffered from minor lacerations and bruises, and was released from the hospital immediately after treatment.

The accident occurred about 18 miles south of Big Spring around 3 a.m. Highway patrolmen were out of town this morning and could not be contacted concerning the details of the mishap.

Two minor collisions, apparently without injury, were reported to police here yesterday.

Howard Storrell, 9-year-old resident of 1111 West 2nd, was on a bicycle which collided with a car driven by Roy Norris Maness, Webb Air Force Base. The collision was in the 1200 block of West 3rd about 4 p.m. Officers said the youth was not hurt.

An accident in the 100 block of Northeast 12th about 8:45 p.m. involved drivers George C. Rackley, 1101 North Gregg, and Billy Joe Mitchell, 307 Galveston. Mitchell was driver of a truck.

## Helicopter Police

NORTH FORT HOOD, Tex. (AP)—The 36th (Texas) Infantry Division military police have started using helicopters to nab speeders here.

The move is part of a general safety program run by the 36th, here for two weeks for annual field training.

## Flood Control Field Study Is Started

Field studies on some immediate flood control steps were underway here Thursday.

City Manager H. W. Whitney and S. W. Fresse, Fort Worth, consulting engineer, walked over a potential route for a diversion channel around the northern part of the city.

They also made an inspection of the lower reaches of Bear's Creek below the Lover's Lane. The problem there is in part—as County Commissioner Pete Thomas said at a conference Wednesday—salt cedars. Within the past 15 years once-open flats have been turned into a veritable jungle of salt cedars which restrict the flow and constantly build up channel floors.

If land for the northern diversion can be secured, Whitney felt that this would be a relatively simple and inexpensive project that could produce substantial results.

Meanwhile, the city is continuing with cleaning out channels and ditches on the west end of the city in effort to step up drainage in the lowland section there.

The manager said that it was planned to attempt smoothing a couple of bad turns in the channel on the south side of the T&P tracks along and beyond E. 1st Street. Recent high floods have backed water up to E. 2nd Street in the vicinity of Owens and Young.

Meanwhile, a formal request for an over-all study of flood damage and conditions is being made to the Corps of Engineers.

**THE WEATHER**

Big Spring and vicinity: Partly cloudy today, tonight, and Friday. Slightly cool but today, tonight, and Friday.

High today 88, low tonight 72, high tomorrow 88.

Wichita: High 86, low 68, high 86, low 68, high 86, low 68.

Hot

### Stanton Hits Insects With Aerial Attack

STANTON (SC) — The breeding places of mosquitoes, flies and other insects here were invaded from the air early Wednesday on orders of Mayor Woodford Sain.

A square mile of the city and its environs was sprayed with a dust insecticide with a plane brought here from Hobbs for that purpose.

Principal targets of Wednesday morning's attack were the lake beds that have been filled by spring rains, particularly the 36-acre Mexican Lake in the south part of town, which has been described as an ideal breeding place for mosquitoes.

Officials say they have not yet had time to evaluate the benefits of the aerial attack, but that it will require more than this to eradicate the flies. They are urging all citizens to clean up around their places and to cut all high weeds on vacant lots.

### Local Polio Chapter To Cooperate In Special Campaign

The Howard County Polio Chapter will probably cooperate in a nationwide fund drive in August to obtain additional money to fight infantile paralysis.

A special meeting of the local chapter's executive board was held Wednesday afternoon, here in Stanton.

Local directors apparently were of the opinion that an all-out campaign will not be held here in August.

### McMorries Defends Handling Of Finances

STANTON (SC) — County Judge James McMorries told the Martin County voters in an address over a Midland station Wednesday evening that: "As to the money we've spent, I believe we can account for every dime of it. I stand before you now with a heart as far from fraud as heaven from earth. If standing up under fire and fighting to preserve the inviolability of our county funds is a crime, then I stand guilty."

Other than for those comments he did not, in his address, refer to the grand jury investigation of county finances which is currently under way at the direction of the grand jury.

At the time he released a copy of the speech, he also handed reporters a statement which he said represented his views, as well as the views of the County Commissioners Oliver Vaughn, Stanley Lewis, Ervin Welch and Joe Froman.

"We wish to state that we do not, and have not, at any time, opposed such an investigation," the statement said.

"While insisting in every manner that handling of the finances of the county has been proper, we recognize that an investigation of the handling of public funds, at all times and under all circumstances is a proper and good thing, for the people, and for the officers."

McMorries pledged the cooperation of the commissioners and himself to the investigation and concluded the prepared statement with an expression of confidence that the results of the investigation "will show that at all times the money of the people of Martin County was handled by us in good faith for the benefit of the county."

In his radio address, which he had announced as a message to the people of the county, McMorries charged that he is "the number one target of the booze traffic in this part of Texas," and said that "the bootleggers, the water monopolists, and a gang of character assassins are out to ruin me."

He reviewed his efforts on behalf of drought-stricken farmers and ranchers, and pointed to the record of highway construction in Martin County during his three terms in the county judge's office.

During the last five years, he told his listeners, the county has obtained more than 125 miles of hard surfaced roads, and that Martin County itself has built 36 miles of farm-to-market roads.

McMorries pledged the cooperation of the commissioners and himself to the investigation and concluded the prepared statement with an expression of confidence that the results of the investigation "will show that at all times the money of the people of Martin County was handled by us in good faith for the benefit of the county."

### Support Is Urged In Clean-Up Drive Of Lamesa Groups

LAMESA — Tim Cook, chairman of the Chamber of Commerce alleys and streets committee, and the Lamesa Jaycees have appealed for cooperation on the part of all residents in the Lamesa clean-up drive.

The Jaycees urge all residents to obtain covered garbage containers in compliance with a city ordinance and not to use barrels on any premises except to burn waste matter, not including garbage.

Dave Calley, local sanitation, pointed out the importance of a concerted clean-up drive today. Calley stated that Lamesa's garbage disposal ordinance calls for a covered garbage container not to exceed 30 gallons, with the exception of the business houses, and it must be located at or near the alley property line.

In cooperation with city health officials, the clean-up drive committee emphasized today that periodic inspections will be made of all alleys and streets within the next two weeks.

Malcolm Harp, general manager of the clean-up, fix-up, paint-up drive, today urged all citizens to assist the many clubs trying to make Lamesa a cleaner and safer city in which to live, work and play.

### Paper Finds McCarthy Has Support

CHICAGO (AP) — The Chicago Tribune's poll on the McCarthy-Army hearings ended last night with 70,036 persons casting ballots and 91.2 per cent voting in favor of the Wisconsin senator.

The poll, by mail and telephone, was held for six days and followed the 56 days of hearings in the McCarthy-Army controversy.

Those voting in the poll were asked to vote yes or no on two questions: 1. Do you believe Secretary Stevens and Army Counselor Adams and their advisers proved their charges that Sen. McCarthy and his staff exerted improper pressure to secure favored treatment for Pvt. G. David Schine, former committee aide?

2. Do you believe Sen. McCarthy and his staff proved their charges that Stevens, Adams, and their advisers sought to end the inquiry into communism in the Army by threats to circulate an unfounded report about undue favors sought for Schine.

The total vote was 63,850 for McCarthy, 5,331 for the Pentagon and 855 undecided.

The Tribune said ballots were counted as "undecided" when the voter marked to show that he believed both sides had proved their charges or that neither side had proved its charges.

In general, the Tribune's editorial policy during the hearings was favorable to McCarthy's strong anti-Communist stand but at times critical of some of his methods.

Men and bulldozers worked through the night in Des Moines, Iowa, to build a sandbag levee along the east bank of the Des Moines River in the heart of Iowa's capital city. Some 200 volunteers, including some women and children, filled, tied, loaded and piled the bags as the river rose past the high set in 1947's disastrous flood in Des Moines. The Weather Bureau said the river crest was just over 30 feet. (AP Wirephoto). (See Story Page 1).

### Southwest Borden Well Gauged At 329 Barrels Daily On Test

Potential oil flow of 329 barrels has been gauged on a new producer in the Jo-Mill pool of Southwest Borden County. The new well is J. E. Jones Drilling Company (formerly Blanco and Newman Brothers) No. 3 Miller.

Continued oil flow at Goldston No. 1 Morton-Atlas Life Insurance Company, project in the Luther Southeast Field, was also reported today. It is making about 12 barrels of oil per hour.

### Borden

J. E. Jones Drilling Company No. 3 Miller has been completed in the Jo-Mill (Spraberry) Field for a 24-hour flowing potential of 329 barrels of oil. There was no water on potential test, which was taken through a 22-64th inch choke. Gravity of oil is 38.4 degrees, and the gas-oil ratio measures 927-1. Tubing pressure on test was 370 pounds, and there was a packer on casing. The perforations between 7,126 and 7,162 feet were treated with 500 gallons of acid. Pay top is 7,126, total depth is 8,800, and the 5 1/2 inch casing goes to 7,310. Elevation ground level is 2,630 feet. This wildcat is about 14 miles southwest of Gall and one mile southwest of Falcon, Seaboard and McSpadden No. 1 Clayton and Johnson, field discovery. Drillate was C NW NE, 12-33-4n, T&P survey.

Trans-Tex, Green and McSpadden No. 1 McKee, C NE NW, 23-33-2n, T&P survey, bored to 8,284 feet.

Pan American No. 1-B T. J. Good, C SE SE, 2-32-3n, T&P survey, is reportedly making hole at 8,235 feet.

Phillips No. 1 Quartz, C NW SE, 15-33-4n, T&P survey, bored to 5,410 feet in lime and shale.

Hanley No. 1-B H. D. Beal, C NE NE, 23-31-3n, T&P survey, has bit boring at 3,100 feet in lime.

Oceanic No. 1 W. J. McAdams, C NE NW, 26-32-3n, T&P survey, has been plugged and abandoned at 4,137 feet. A drillstem test was taken from 7,689 to 7,935 feet which had recovery of 250 feet of gas-cut mud and 1,810 feet of salt water. Flowing pressure was from zero to 1,025 pounds. The 15-minute shut-in pressure was 3,215 pounds. This wildcat was four miles east of Vealmoor.

Kay Kimball No. 1 H. D. Beal, C SE NE, 4-33-3n, T&P survey, reached 4,333 feet in lime and shale.

Magnolia No. 1 Foster, C NW NW, 22-36-4n, T&P survey, is bottomed at 11,220 feet in lime and shale. A drillstem test was taken from 11,110 to 11,186 feet, and the tool was open an hour. Recovery was 16 feet of slightly gas-cut mud and no shows of oil. Flowing pressure was zero and the 15-minute shut-in pressure was 350 pounds.

Vega No. 1 Pool, C SW SE, 123-M-EL&RR survey, reached 3,540 feet in anhydrite.

Howard Goldston Oil Corporation No. 1 Morton-Atlas Life Insurance, C NW NW, 26-32-3n, T&P survey, is still testing today through a 10-64th inch choke. It has been making about 12 barrels of oil per hour since perforations between 9,822 and 9,832 feet were acidized with 1,000 gallons. This project is a southeast

off-set to production in the Luther Southeast Field.

Maguire No. 1-A Hodnett, C NW NW, 13-25-H&TC survey, recovered 450 feet of gas in drilling pipe and 95 feet of gas-cut mud on a two-hour drillstem test. The test was from 7,540 to 7,590, total depth.

Harper and Huffman No. 1 Ida M. Oldham, C NE NW, 41-27-H&TC survey, reached 2,730 feet in anhydrite and gypsum.

Skelly No. 1 R. T. Shafer, C SW SW, 12-25-H&TC survey, bored to 6,992 feet in lime.

### Work To Stem Flood

Men and bulldozers worked through the night in Des Moines, Iowa, to build a sandbag levee along the east bank of the Des Moines River in the heart of Iowa's capital city. Some 200 volunteers, including some women and children, filled, tied, loaded and piled the bags as the river rose past the high set in 1947's disastrous flood in Des Moines. The Weather Bureau said the river crest was just over 30 feet. (AP Wirephoto). (See Story Page 1).

# Kidnap Mystery Solved After 42 Years Pass

SPRINGFIELD, Mo., (AP)—A kidnap mystery dating back 42 years apparently was solved today by a telephone call from the victim now living in West Virginia.

Robert Thompson was only three years old when his father took him from the home of his mother here in 1912, a short time after his parents were divorced, and custody of their son given to the mother.

He was the object of a nationwide search at the time, but no trace of the child or his father ever was found.

The mystery was broken last night when Springfield police received a telephone call from a man who identified himself as Robert Wilson Pitman, 45, of Japonica Land, Woodrum Park, Charleston, W. Va.

"Pitman" told police that his father, whom he had known as "Wilson Ambrose Pitman" died recently, and that he learned of his true name and past history from newspaper clippings and other papers he found in his father's effects.

The West Virginia man reported that his father assumed the name of Pitman right after the abduction, and that until his father died, he thought that was his real name.

He telephoned police to ask them if his mother, Mrs. Rose Ethel Mason Thompson still was living.

Police located an aunt, Mrs. Ruth Rawson, who said that the kidnaped boy's mother, now Mrs. Rose Tracy, of Jericho Center, Va., is in a hospital at Burlington, Va., following an eye operation.

Police said the West Virginia man said he will come here and go to Burlington to see the mother he never knew.

He is married and the father of two children, police said.

## Maj. Gen. White To Head Sheppard

WICHITA FALLS (AP)—Maj. Gen. Edward White, who has been in command of the Army and Air Force exchange service in Washington, will take over as commander at Sheppard Air Force Base Sept. 1.

He will succeed Maj. Gen. William Old, veteran of 30 years with the Air Force, who will retire Aug. 31. Old will live in Wichita Falls and plans to enter private business.

# UNCLE RAY'S CORNER

Sun with two big planets in one corner.

If we knew nothing about astronomy, we might suppose the sun to be a small object. To my eyes, the light of day looks about the size of the bottom of a dishpan. It seems larger at sunset than in the midst of the day.

By the most careful work, scientists have learned the size of the sun. We know both the diameter and the volume.

The sun is so large that it could hold the earth, the moon, Jupiter, Saturn, Venus, Mars and the other planets. All the planets could be

placed in one section of the sun, and there would be millions of cubic miles of free space left over. The moon is going to block out the light of the sun on the last day of June.

If your friends wonder how a gigantic object like the sun can be eclipsed by the moon, you can show them that a penny can cause an eclipse.

A penny is small as compared to an electric bulb, but you can eclipse the bulb easily enough. Close your left eye, and hold the penny five or six inches from your right eye. Then you can block from view a bulb which is two yards from your face.

Small as the sun may look, it is too powerful to gaze at under usual conditions. If it is covered by clouds, or shaded in some other way, you may look at it without harm to your eyes. Otherwise be careful!

More than one person has hurt his eyes by gazing at the bright sun. The danger grows when field glasses or telescopes are employed. Astronomers know that they must guard their eyes with a dark eyepiece or some other shield when they study the sun.

To the millions who will watch the partial eclipse on Wednesday, as well as to those who will see the total eclipse, I say, "Be prepared!" Have at hand a piece of well-smoked glass or two or three black photoflms, clipped or glued together.

Tomorrow: Heat of The Sun.

Most of this will be used for public works projects, the Federal Economics Ministry said yesterday in announcing the grant.

Over 20,000 Berliners who are unable to find private employment are now working on such projects, financed jointly by American and German funds, the ministry said.

The money released yesterday came from counterpart funds which are put up by the Bonn government to match American dollar aid to West Germany.

NEW YORK (AP)—Funeral services for CBS television news commentator Don Hollenbeck, who committed suicide by gas in his apartment Tuesday, will be held Friday.

John Gude, the 49-year-old broadcaster's agent, said Hollenbeck had been suffering severely from stomach ulcers and had been in a hospital twice in the past four months.

## U. S. Frees Funds To Assist Berlin

BONN, Germany (AP)—The United States has released 58 million marks (\$13,804,000) to help relieve unemployment in isolated West Berlin.

Most of this will be used for public works projects, the Federal Economics Ministry said yesterday in announcing the grant.

Over 20,000 Berliners who are unable to find private employment are now working on such projects, financed jointly by American and German funds, the ministry said.

Mr. and Mrs. E. A. Hargraves were in Idalou this weekend to attend the wedding of a friend.

Mr. and Mrs. Charlie Smith are in Ackerly again to make their home, having moved back from Rogers, Ark.

MRS. WILLIAM PAUL VAN PELT

### William Van Pelt Marries Odessa Girl

The sanctuary of the First Presbyterian Church in Odessa was the setting Saturday, June 5, for the formal, double-ring ceremony of Frances Evans and William Paul Van Pelt. The Rev. Joe M. Brown, pastor, read the ceremony before a background of candelabra holding cathedral candles and baskets of blue and white, majestic daisies and white stock. The choir railing was decorated with cascades of emerald greenery, and the pews were tied with white satin bows, greenery, and candles.

Wedding music was presented by Mrs. Sam McLelland, organist, and Mrs. C. E. McStravick, soloist. The bride, daughter of Mr. and Mrs. John W. Evans of Odessa, was given in marriage by her father. The bridegroom is the son of Mr. and Mrs. P. P. Van Pelt, Sil Nolan.

The bride designed her own dress of net and tulle over satin and her mother made it. The dress was fashioned with an overlay of Chantilly lace scalloped at the neckline and trimmed with pearls. The long sleeves extended to petal points over her wrists, and her floor length skirt with chapel train was set with lace embroidered inserts. Her tiered veil of illusion fell from a tiny white satin hat studded with pearls. She carried a white orchid nestled in tulle and agapanthus.

Joan McKnight of Odessa was maid of honor, and Mrs. Earl Francell and Mrs. J. R. Evans, sisters of the bride, were bridesmaids. Bridesmaids were Frances Ivey, Odessa; Pat Nelson, San Antonio; and Anne Hardy, Dallas. The attendants all wore floor length gowns in shades of sapphire, laceme and royal blue tulle over taffeta. Each carried a cascade arrangement of blue carnations and cornflowers.

Pat Ray, a cousin of the bridegroom, served as best man. Groomsman and ushers were Dick Laswell, Earl Francell, Dick Evans, Jim Hunt of Dallas, and Ed Edwards of Midland. Flower girl was Debra Kase; Garry Francell was ring bearer and Larry Francell lighted the candles.

Following the ceremony, a garden reception was held at the home of the bride's parents. The table was spread with blue net over white satin and was decorated with the cascade bouquets of the bridal attendants. A three tiered wedding cake was served with punch. Crystal appointments were used. Included in the houseparty were Mary Jo Wyatt and Martha Moss of Sherman, and Mrs. Evan's two sisters, Mrs. P. N. Hood of San Antonio and Mrs. McStravick.

The couple went on their wedding trip to Santa Fe, N. M. For traveling, Mrs. Van Pelt wore a white linen dress embroidered in black and a black linen dustier. She wore a large black and white picture hat and the white orchid from her wedding bouquet.

The bride received her bachelor of arts degree in May from Austin College in Sherman. She was an art major and a member of the Alpha Delta Chi sorority. During her senior year, she was elected homecoming queen and senior class princess.

Her husband graduated from Austin College with a bachelor of science degree. An outstanding athlete and physical education major, he has been signed to the Los Angeles Rams, professional football team. "Chop" also played football in Big Spring High School before his graduation in 1950.

### Bradleys Have Son

Mr. and Mrs. James H. Bradley of Stratford, announce the birth of a son, Kerry James, at 10 a.m. Wednesday morning. The baby weighed 6 pounds, 15 ounces. Mrs. Bradley is the former Marlene Burnett, daughter of Mr. and Mrs. R. G. Burnett, 709 Douglass. Paternal grandparents are Mr. and Mrs. George Bradley of Stratford.

### Roman Family Has Reunion At Knott

On Pacific Odyssey

William Willis, 81-year-old Texan, and the balza wood raft aboard which he sailed from Callao, Peru, are shown during recent last-minute preparations for the 11,000-mile scheduled trip across the Pacific. Determined to outdo the historic "Kon Tiki" expedition, Willis hopes to float on ocean currents to Samoa. His only companions are a parrot and a cat. The 35 by 18-foot raft has a tin cabin and nylon sails. (AP Wirephoto).

## Russian Chess Team Clinches Win In U.S.

By GEOFFREY GOULD

NEW YORK (U)—Russia's vaunted chess team, as expected, has conquered the best players America could muster.

The Russians clinched their victory last night in the fourth and final round of a 25-game tournament that stretched over eight days. The score stood at 18½ to 9½ for the visitors, playing here for the first time. Four more games will be completed today, but they can't change the result.

Samuel Reshevsky, America's only player of grand master rank, broke even against Vasily Smyslov, head man on the Russian squad. They drew all four of their games.

And 23-year-old Larry Evans, youngest U. S. player, came out ahead of Mark Taimonov. Evans won two of his games, lost one and drew one, to outscore Taimonov 2½ to 1½.

A win scores a point, a draw a half point. Each player played the same man four times.

Evans won last night with a strong attack on the King's side. "It was the best game I have played so far," he said happily. Prolonged applause greeted the announcement that Taimonov had resigned in defeat.

The No. 2 Russian, David Bron-

stein, swept all four of his games against Arnold Denker and alternate Arthur Dake. The Soviet's third-ranking man, Paul Keres, won three and seemed on his way to a fourth against Max Pavay when time ran out and it was adjourned to this afternoon.

In other results last night Russian Tigran Petrosyan defeated Arthur Bisguier and American Robert Byrne drew his game with Alexander Kotov.

Byrne's younger brother, Donald, 24, still was struggling against Yuri Auerbach, champion of Russia, when the five-hour session ended. Byrne won two of his previous games and lost one.

The matches, played at the Hotel Roosevelt, drew large crowds.

## French Socialists To Punish 5 Who Voted Against EDC

PARIS (U)—The Directing Committee of the French Socialist Party early today decided to punish five leaders who voted against the proposed six-nation European Army.

The committee denied the five the right to represent the party in parliamentary committees until the next general elections in 1958.

Committee members of the French Assembly are designated by political parties and the five Socialists will probably be required to resign from the Foreign Affairs Committee where they recently voted against approval of the European Army Treaty. The balloting was a technical preliminary test.

There are 800 miles of welding and 1,135,000 rivets in the battleship Missouri.

## Rest In Bed Ordered For Marilyn Monroe

HOLLYWOOD (U)—A three-day rest in bed has been ordered for Marilyn Monroe, who collapsed three times since the start of her current picture four weeks ago.

Dr. S. R. Kennamer sent her home yesterday after her latest collapse. He said she was run down as a result of a flu attack 10 days ago, but probably would be able to resume her work Saturday at Twentieth Century-Fox Studios.

### Organized Labor Joins Drive To Defeat Governor Shivers

By CLAYTON HICKERSON

Associated Press Staff

Organized labor had joined the campaign Thursday to defeat Gov. Allan Shivers' bid for a third elective term and called the governor "biased and obnoxious."

At the same time, Ralph Yarborough, regarded by most political observers as Shivers' most formidable opponent, accused him of conducting a hate war against labor.

Shivers is in Big Spring today on a West Texas swing that already had taken him to Midland, Odessa and San Angelo. As he promised a fortnight ago, he apparently was "running scared," making a hard campaign.

Yarborough, in a drive through East Central Texas told Longview radio listeners Wednesday that Shivers may not be afraid of words "like CIO-PAC or ADA" but that the governor was scared of a six-letter word spelling "voters."

Yarborough carried his campaign Thursday to Palestine, Fairfield, Mexia, Groesbeck, Marlin and Temple.

In Corpus Christi, where Shivers has been the daily target of speakers at a four-day State Federation of Labor (AFL) convention, a res-

olution passed calling the governor "biased and obnoxious" and urging his defeat.

Shivers took another tack, however, at Midland where he spoke before a joint meeting of service clubs. He said Texas must continue what he called the "remarkable progress" made during recent years in public schools, the highway system, state hospitals and other services of the state government.

"Such improvements must be continued," he said, "and certainly will be continued as long as I am governor." He added that the average salary of public school teachers had been raised more than \$1.00 per year during his administration.

During the same period, he said, records have been set in adding farm-to-market roads and state highways.

The governor said proposals had been made to complete the job of making Texas state hospitals the best in the country. "That is my goal," he added, "and I feel confident we can achieve it."

J. J. Holmes, another candidate for governor, told Longview radio listeners he would not wait four or five years to remedy the situation. Holmes, who has described himself as a "dark horse with a bright horizon," called conditions "shameful" at the state tuberculosis sanitarium at Tyler.

Other developments during the day, hottest so far of the summer, included these:

1. Rep. George Hinson of Minneola, running for lieutenant governor, moved out of the Lower Rio Grande Valley to the Upper Gulf Coast region. He planned three speeches in Houston Friday and appearances at Rockport, Bay City, Freeport and Angleton Thursday.

2. C. T. Johnson, Austin business man also seeking the lieutenant governor's chair, stressed his platform calling for a state utilities

commission in an appearance at Freeport.

3. Republican National Committeeman Jack Porter of Houston visited President Eisenhower at the White House but wouldn't say what was discussed. He also conferred briefly with U.S. Senator Price Daniel. Porter said his mind was made up for "a Texas Republican" to succeed Judge W. H. Atwell of Dallas. But he would not name his choice.

Such improvements must be continued," he said, "and certainly will be continued as long as I am governor."

He added that the average salary of public school teachers had been raised more than \$1.00 per year during his administration.

During the same period, he said, records have been set in adding farm-to-market roads and state highways.

### Nagging Backache Sleepless Nights

Often Due to Kidney Slow-down

When kidney function slows down, many folks complain of nagging backache, headache, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exercising or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 60 years. It's amazing how many times Doan's gives happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

### ---AND A GOOD TIP FOR YOU

WHEN it comes to sales, every car maker aspires to be up at the top of his price class.

Which is only natural. Popularity like that means success.

We know, because for years Buick has held such an envied position—the unquestioned sales leader in its class. And with good reasons in styling, room, power, value.

But today, folks like you have pushed Buick success even beyond such bounds.

Today, the top sales standings of a full generation have been changed.

Today, latest sales figures for the first four months of 1954 reveal this phenomenal fact:

In total national volume, regardless of

price class, Buick is outselling every other car in America except two of the so-called "low-price three."

That's a tip too good to pass up.

That's the tip-off that Buick must have the hottest styling of the times and the sweetest performance of the year.

More important, that's the tip-off that Buick prices are well within the reach of more and more people—and that such prices buy a lot more automobile per dollar.

So why not look into the tomorrow-styled Buick that puts you so far ahead today?

Come in, or phone us this week for a demonstration. That way, you can judge for yourself that Buick really is the beautiful buy—by far.

### NO OTHER CAR GIVES YOU ALL THIS:

GREATEST STYLING ADVANCE IN YEARS with completely new bodies across the board; lowered roofline, longer and higher fender sweep, exclusive sweep-spear design

NEWEST VISIBILITY ADVANCE with backseat windshields that give 19% more visibility; greater glass area around full 360° arc

BIGGEST VENTILATION ADVANCE in Buick interior comfort; new, screened intake just below windshield brings in huge quantities of outside air at hood-high level, free of road heat and fumes

TWIN-TURBINE DYNAFLOW • SAFETY POWER STEERING

AUTOMATIC-BOOSTER POWER BRAKES • POWER-POSITIONED 4-WAY FRONT SEAT

POWER-OPERATED RADIO ANTENNA • EAST-YE GLASS

ELECTRIC WINDOW LIFTS • WIRE WHEELS • GRANT-FREE AIR-CONDITIONING

HIGHEST V8 HORSEPOWER in Buick history— from advanced vertical-valve V8 engines with up to 8.5 to 1 compression and 300 hp—plus more fuel efficiency from new Power-Head Pistons

FINEST MILLION DOLLAR RIDE— from all-coil springing, torque-tube drive, longer wheelbase—and a new front-end geometry that stabilizes "cornering," insures more positive control, more responsive handling

—PLUS THE WIDEST SELECTION OF MODERN FEATURES— available on most models either as standard equipment or extra-cost options

## One Airplane Lands On Top Of Another

SHAWNEE, Okla. (U)—Two light planes landed simultaneously—one on top of the other—at the Shawnee Municipal Airport last night.

The pilots escaped with cuts and bruises. The planes were damaged heavily.

"If you ever had the world drop in on you, you know how I felt," said H. E. Reding, pilot of the plane on bottom.

New York drivers get more warnings from Connecticut police than those from any other state, with those from Massachusetts and Rhode Island following in that order.

# ALL OF US WELCOME AN ALIBI

But, much as we like to make excuses, they just do not take the place of the cheerful ring of the "do-re-mi" in the cash register. It takes sales to get ahead in any business and most of us have forgotten how to go out and sell.

Most people admit 1953 was a good business year, but even though this particular area was not quite as flush as others because of the drought (our own alibi) we did not sell as much as we could have either in West Texas or in the nation.

Take a look at the statistics of what WAS NOT bought in this big business year of 1953!

## In 1953 of ALL of the families in the United States

- |   |   |
|---|---|
| <b>98%</b> DID NOT move into new homes or apartments! | <b>92%</b> DID NOT paint their houses!            |
| <b>98%</b> DID NOT buy a food freezer!                | <b>91%</b> DID NOT buy a washing machine!         |
| <b>97%</b> DID NOT buy a room air conditioner!        | <b>89%</b> DID NOT ride in pullmans or airplanes! |
| <b>97%</b> DID NOT buy an electric range!             | <b>87%</b> DID NOT buy an automobile!             |
| <b>94%</b> DID NOT buy a vacuum cleaner!              | <b>85%</b> DID NOT buy a television set!          |
| <b>92%</b> DID NOT buy a refrigerator!                | <b>76%</b> DID NOT take a real vacation trip!     |
| <b>92%</b> DID NOT buy an electric shaver!            | <b>71%</b> DID NOT buy a radio set!               |

**In 1954 there's Selling to be done, and it CAN be done!**

**The MARKET is there ... The MONEY is there!**

The Herald reaches the people you need to get your message to, if you are to sell more in '54. It gives you better than 90 per cent coverage in Howard County, reaches into the counties surrounding Howard that make up this city's trading area. The Herald operates five motor routes to give daily delivery to outlying areas, all the way from Ira in Scurry County to Garden City; from Lamesa and Lenorah to Colorado City.

There is no medium available to Big Spring merchants that can give such PRODUCTIVE COVERAGE for an advertising message.

**It's SALES ... not ALIBIS that keep our town growing!**

**The Big Spring Daily Herald**

# Gypsies Watch, Pray For Injured Leader

By ROBERT H. JOHNSON JR.  
DALLAS (AP)—A gypsy matriarch lay in the hospital, and out on the lawn her dark-skinned tribe camped, waiting and praying. Sometimes the clansmen laughed aloud as their children darted squealing among the trees. Mostly they talked softly, in small clusters, and changed from English to a rapid flow of Gypsy dialect when a stranger came near. They kept watch over Mrs. Roale Evans, 75, of Fort Worth, injured in a car wreck.

Worth coppersmith. "That is why we wait."  
Evans, a slim, middle-aged man whose brown mustache almost matches his skin, is the oldest of the Gypsy leader's seven sons. If she should die he would become the tribal head.  
"No, of course I won't be the 'King of the Gypsies,'" he said. That's foolishness. There are many Gypsy tribes, and there is no 'King' or 'Queen'. That's just something people like to say about gypsies.  
"But she is our mother—and she is a Queen to us."  
Mrs. Evans suffered from shock, a broken ankle and foot, an injured hip and deep cuts across one knee and her forehead. She was hurt in a wreck near here Sunday night.  
The tribe began gathering the next day.  
There were about 30 gypsies keeping watch at Methodist Hospital—only part of Mrs. Evans' tribe. Besides the seven sons, she has four daughters, 30 grandchildren and 10 great grandchildren, plus nieces and nephews.  
"Sure, we're gypsies," Evans said. "My mother is a Cherokee Indian and my father was a Serbian, born in Chicago. My great grandfather came from the old country."  
"But we've put a stop to that 'roaming gypsies' stuff. We have good homes and regular jobs. We live like anybody else."  
"I'll tell you something, though—there'll always be gypsies, always. And I'll tell you why," he said, glancing down and smiling.  
"We're proud of being gypsies. That's why."

Really Hooked

Roman Trzcinski, 12, of Milwaukee, Wis., looks over the plug he used on a birthday fishing trip. A fish slipped off the hook and the plug snapped back. One of the hooks lodged in his eye. Surgeons closed the eye to stop the lid from scraping on the exposed barb before an operation to remove the hook. An attempt to remove the hook with a magnet failed. Tape from a temporary bandage was not removed. Doctors said no new attempt would be made to remove the hook for several months. (AP Wirephoto).

# Egyptian Colonel To Face Court In Cairo On Sedition

CAIRO, Egypt (AP)—Col. Ahmed Shawky, former officer commanding the Egyptian Infantry Corps, will appear before the Revolution Court Saturday on charges of conspiring to foment sedition in the Egyptian Army and to arouse discontent among the military against the present regime.  
The prosecutor's office issued an indictment against Shawky yesterday 24 hours after a special military court had announced sentences up to 15 years against 16 army officers accused of attempting a coup d'etat.  
The indictment said Shawky also had established contact with certain circles "endangering state security."

# Elbow To Be Site Of Political Rally

Candidates will converge on the Elbow Community Friday night for their weekly political rally.  
Members of the Elbow Home Demonstration Club have announced that sandwiches will be on sale about 7:15 p.m. for early arrivals. Cake, ice cream and other refreshments also will be on sale throughout the rally.  
Lee Porter, chairman of political activities for Howard County candidates, will preside. Speaking is scheduled to start at 8 p.m.

# Mechem Opposes Visit By McCarthy

ALBUQUERQUE (AP)—Gov. Edwin Mechem, GOP candidate for U.S. senator, says if he has "anything to say about it" Sen. McCarthy (R-Wis.) won't campaign in New Mexico.  
Mechem's declaration followed a Lincoln Day dinner statement yesterday from Republican National Chairman Leonard Hall that it will be up to each candidate to ask for McCarthy's help.  
Mechem opposes Sen. Anderson (D-NM).

# Number Of Unwed Mothers Rises; Sex Hysteria Blamed

By ALTON L. BLAKESLEE  
AP Science Reporter  
SAN FRANCISCO (AP)—The number of unwed mothers is increasing—especially among teen-agers or upper class girls—and a "sex hysteria" in American society is partly to blame, a physician said yesterday.  
Many influences are at work producing "an emotional shambles which fosters many of the deviations and denatured biological trends which are common among our young folks," Dr. Goodrich C. Schaffner of Portland, Ore., told the American Medical Assn.  
He urged physicians to "go beyond the ordinary call" of duty to help these girls.  
He said he had seen "too many impressively happy endings" to think these matters cannot be "decisively handled—many of them by the physician."  
Having their babies may "turn out to be a maturing experience—often a distinct psychological advantage as compared to an abortion."  
Dr. Schaffner said there were 88,000 illegitimate live births in 1938, and 142,000 in 1950. Nearly half these mothers in 1950 were under 20, and 32,000 were girls under 17.  
"A much higher percentage of unmarried mothers nowadays comes from comparatively privileged groups—high school students, college students, young women with good jobs, as compared with the 'poor working girl' or 'peanless domestic' of the beginning of the century."  
Modern customs which "precipitate precocious sex activity of young people" are one cause, Dr. Schaffner said.  
Young people are more aware of sex, "stimulated and maintained by the sex hysteria which is a calculated instrument of modern journalism and so-called entertainment trends."  
"Beyond this, there are loose practices, bad examples and lack of supervision in parental and home influences; liquor, narcotics, automobiles, auto courts, and finally, gang influences which combine the above elements and tend, in certain groups, almost to enforce premarital sex practices."

# Continental Dixie Strike Talks Resume

DALLAS (AP)—Informal talks on the 25-day-old strike of Continental Dixie bus drivers were to resume today.  
Talks aimed at settling the strike were held yesterday, but neither side would divulge details of the negotiations between the company and the Brotherhood of Railroad Trainmen.  
The strike of the Dixie division has tied up buses on 3,000 miles of routes in East and Northeast Texas since 145 drivers walked out May 31.

# Local Attorneys To Attend State Bar Convention

Mack Rodgers and Charles Butts of Big Spring are planning to attend the meeting of Texas lawyers and judges in San Antonio next week. Eiton Gilliland, district attorney, will attend if the grand jury, which meets Monday, finishes its work.  
Butts will serve as a delegate from the Big Spring Bar Association concerning the establishment of a governing body for the State Bar Association. The local chapter opposes the body's establishment.  
More than 2,000 Texas lawyers are expected to attend the four-day meeting which begins June 30.  
Griffin Smith, chief justice of the Arkansas Supreme Court; Miles McDonald, New York Supreme Court justice; and Homer Bishop, Seminole, Okla., trial attorney; are among speakers who will address the lawyers at luncheons.  
Included also on the slate of speakers are T. Coleman Andrews; Internal Revenue commissioner; Edward F. Howery, Federal Trade commissioner; William J. Jameson, American Bar president; T. Lowry Whitaker, National Labor Relations Board counsel; Eugene Worley, U. S. Court of Customs and Patents Appeals; and John J. Parker, U. S. Circuit judge.  
A four-member panel from Minnesota will put on a demonstration of jury trial techniques.  
U. S. Senator Price Daniel and Governor Allan Shivers head the list of Texas attorneys who also will speak.

# Beaumont Solon's Opponent Withdraws

BEAUMONT (AP)—U.S. Rep. Jack Brooks was unopposed for re-election after Jack Niel, radio executive, withdrew from the race for congressman from the Second Texas District yesterday.  
He was quitting the race for "personal reasons," Niel said.  
Texas District yesterday.  
He was quitting the race for "personal reasons," Niel said.

# Hoover Will Speak At Chicago Dinner

CHICAGO (AP)—Former President Herbert Hoover will be principal speaker tonight at the annual Merchandise Mart Hall of Fame dinner. Before the dinner, Hoover will observe ceremonies in which four bronze busts will be unveiled in

the Merchandise Mart Plaza overlooking the Chicago River.  
The four busts represent the four merchants who were elected to the mart's hall of fame last year. They were Marshall Field I, founder of Marshall Field & Co., Chicago; F. W. Woolworth and John Wanamaker, New York merchants; and George H. Hartford, first president of the Great Atlantic & Pacific food stores.

## Pastor Put In Jail On Client's Charges

PORT ARTHUR, Tex. (AP)—A pastor was put in jail here last night in connection with a charge of theft by conversion.  
The Rev. A. R. Bradley, 40, protesting his innocence, was jailed in default of a \$2,500 bond. He is pastor of the First Evangelical Methodist Church here.  
The charge involves \$103 allegedly paid the pastor by a client of the pastor's insurance firm, which he said he operated "to pay off the mortgage on our church."

# Broncs Bomb Spuds; Play Here Friday

SWEETWATER, (SC) — Julio Delatorre hit his 16th home run of the season, which equalled his output for all of 1953, here Wednesday night as Big Spring felled Sweetwater in a bruising Longhorn League game, 15-11.

Tommy McKeena gained credit for his mound win of the 1954 campaign, although he wasn't around for the finish. Gil Silva, added to the staff earlier in the day, replaced McKeena in the seventh, after the Spudders had rallied for four runs, and hurled a shutout ball.

The Broncs return home Friday for a critical series with Midland. Delatorre drove in four runs with a double and single, in addition to his two-run round-tripper.

Pete Simone also proved a ball of fire with the bat for Big Spring, collecting four hits.

Jim Zapp crashed out his sixth round tripper for the year for the Broncs, a solo blow in the seventh, before retiring to the dugout.

Ken Cluley and Charley Tuttle crashed out four-masters for Sweetwater. Cluley's drive came with two mates aboard in the fourth while Tuttle got his with one on in the first—his fourth in the last three games.

The win snapped a two-game losing streak for Big Spring and enabled them to gain a lap on fourth-place Carlsbad and sixth place Odessa.

Gil Hernandez was charged with the loss, his fourth as compared to four wins. Frank Lopez, Herb Dwire and Ollie Ortiz followed Hernandez to the mound.

Silva gave up three hits in his three-inning stint on the mound but he walked only one and struck out two and was very much in command of the situation.

The two teams rapped out a total of 37 hits, 19 of them by Big Spring.

Five Spudders got three hits each. They were Chito Recio, Eddie Gavilan, Cluley, Bill Looney and Frank Salfar.

The loss was Sweetwater's seventh in a row.

Advice From Batting Champ

Harmon Killebrew, right, 17-year-old batting sensation of Idaho semi-pro baseball, gets a tip from Mickey Vernon, who led the American League batters last season, as he joined the Washington Senators in Comiskey Park in Chicago. Killebrew, an infielder from Payette, Idaho, first "bonus baby" in the history of the Senators, signed for a reported \$50,000. Killebrew witnessed his first major league game as his new teammates battled the Chicago White Sox. AP Wirephoto.

## LOOKING 'EM OVER

With Tommy Hart

Not one but two HCJC baseball players are now hobbling around on bad ankles.

Charley Rose suffered a break in a Jayhawk contest a couple of months ago and had to spend some time in the hospital.

Jim Knotts, the Hawks' stellar all-around athlete, made a trip to his home in Doyle, La., before going to Jal. N. M., where he planned to play semi-pro baseball for the summer.

He couldn't resist the opportunity of donning the spikes for a sandlot game and wound up with a fracture. He was hurt while trying to cover home plate on a throw-in.

He should be shipshape long before basketball season, however. The Hawks are counting heavily on him next season.

Bobby Maines, the former HCJC athlete mentioned here recently as considering entrance into the University of Mexico, reportedly is in the U. S. Marines and is taking boot training at San Diego.

Maines played basketball last season at Texas Western College in El Paso.

Tommy Neely, a first-rate tackle for the Vernon Lions last season, has been named to play for the East team in the annual Greenbelt Football Bowl Game at Childress on Aug. 6.

Neely is now employed in the oil fields out of Odessa. He'll probably attend Oklahoma University.

Recent averages showed no less than 11 members of the Corpus Christi Big State League club hitting 300 or better.

Included are Billy Capps, the manager, who used to play third base for Big Spring; and Chli Bigham, the big University of Texas ex, who slickered with Manager Pepper Martin of the Broncs for a contract this spring.

The Iola, Kan., entry in the Western Association, where Willard (The Knuck) Ramsdell, once of Big Spring, started as manager this year (and quit after 16 games), is now being operated by the league itself.

Ramsdell is now with Beaumont, or was, at this writing.

Al Atton, who quit recently as general owner of the Sweetwater club of the Longhorn League, says one of the biggest mistakes he made this spring was in letting Big Spring have Tony Martinez.

Atton was with Wichita Falls at the time. He passed up Martinez because he didn't know how the Wichita Falls falls would receive Negro players. Martinez is a Cuban Negro.

The Spudders, who have since moved to Sweetwater, are still trying to find a first baseman.

How very much better it would have been for the major leagues (in this case, the New York Giants) to let some minor league club develop a player like Paul Giel and pay the team \$60,000 to give the youth the bonus?

When the big leagues take the play away from the minors by signing the promising rookies, they are taking food out of the mouths of the small operators.

## Seminole Fails To Play Game

Seminole's financial difficulties reached a climax Wednesday night with the Oilers postponing their scheduled Sooner State League baseball game with Lawton.

The club, which owner Arthur Williamson said he was trying to move to Paris, Tex., decided to suspend operations until its future is resolved.

Williamson said Ueal Clanton, league president, was polling members on the possible transfer to Paris while Seminole businessmen reportedly had raised \$4,000 in the drive to keep the team in Seminole.

It was baseball as usual over the rest of the circuit as Gainesville grabbed a 9-0 lead in the first inning and downed Shawnee, 10-7, pulling to within 4 1/2 games of the league leaders. The Oilers have another chance tonight to narrow the gap further.

McAlester took advantage of eight errors by the Ardmore Cardinals on an 11-3 victory while Ada outscored Pauls Valley, 12-5. Dick Lubinski led the Ada attack with a two-run homer in the seventh round inning.

The teams complete the series tonight.

## Dwight Weber Hurls No-Hit Game But Loses Decision

Dwight Weber hurred his second no-hitter in three games in YMCA City Softball League play here Wednesday night, but bobbles cost his team a 3-2 decision.

Coahoms made great use of its few opportunities to nose out Weber's Field Maintenance team.

Field Maintenance scored both of its runs in the first on a home run by Hill, which came with Kelly on base.

Coahoms scored twice in the fourth when Ruby Baker was hit by a pitched ball and went all the way around on wild throws. Mike Smolko later walked, went to second on a wild pitch and came home on a long fly to the outfield by Hodnett.

In the fifth, Williams scored what proved to be the winning run when he was hit by a pitched ball and moved around on misplays.

Field Maintenance got four hits off Jim Ward, the winning hurler. Weber, who has given up only two hits in his last three games, fanned seven and walked one in addition to hitting two batters.

Tennessee Milk defeated Bell Telephone, 7-2, in the other game. Baker pitched the win while Gibson was the loser, although he helped his own cause with a home run.

Soldan hit for the circuit for the winners.

## Musicals Upset Reed Oil, 4-2

The Record Shop Musicals cut the Reed Oil Company team down to size again in T-Shirt Little League play here Wednesday night, winning, 4-2.

In the other game, the Owls turned back Seven-Up, 16-15.

Harrison was the winning hurler. Fannon the loser in that one.

Reed Oil still leads the league with a 5-3 won-lost record. The other two teams are tied for first place, each with a record of three wins and four losses.

On Saturday, July 3, an all-star game will be played featuring T-Shirt League players. The best boys on the teams standing first and fourth in the league will be pitted against the best of the second and third rated clubs.

## Bob Casts Spell

CLEVELAND (AP) — Cleveland's Bob Lemon has the Indian sign on the Philadelphia Athletics. The veteran hurler beat the A's 5-3 yesterday for his 22nd lifetime victory over Philadelphia as against only six setbacks.

# Trabert Opposes Unknown In Test At Wimbledon

WIMBLEDON, England (AP)—London schoolboy Bobby Wilson meets Cincinnati stylist Tony Trabert today in a third round Wimbledon match that carries within itself much of Britain's future tennis hopes.

This is Wimbledon's classic David and Goliath match for 1954. It sends a fresh-faced boy into the amateur tennis world almost within his grasp.

## LONGHORN BRIEFS

### Ex-Sox Hurler Is Now With Roswell

When San Angelo defeated Carlsbad 9-2, Wednesday night, it marked the first time this season the Colts have won a game in New Mexico.

The win also terminated a 12-game losing streak for the Colts.

Joe Bauman, Roswell first sacker, poled his 31st home run of the season last night to keep well ahead of his pace of a year ago, when he crashed out 53 round trippers.

Bauman got his blow in the first inning with one on.

Vaile Eaves, newest member of the Roswell mound staff, formerly hurled for the Chicago White Sox.

More recently, Eaves—an Indian—has been in the Big State League. He has also played in the Texas League.

The Odessa Oilers have scored 29 runs in their last three games, yet have lost them all.

### Jolly 'Jolly Good' As Brave Fireman

Depending on where you hail from, "jolly good" may sound like English slang or phony Indian talk. But around the tribal councils of the Milwaukee Braves it means it's a good thing Jolly's good.

Dave Jolly is the Braves' "saver," the pitcher who gets the call when the going is the toughest. He has the special job of protecting leads in late inning or stopping the opposition while his own team still has a chance to win.

The lean right-hander from Stony Point, N.C., has been delivering in brilliant style. He's in his second full term in the majors, after seven years' seasoning in the minors, and so far he has been in 29 games, more than a third of the Milwaukee total.

In 36 innings Jolly has given up only 23 hits and four earned runs for a sparkling earned run average of 1.00. His personal record shows four victories and two defeats. One of his most spectacular performances came yesterday in Milwaukee's 5-2 triumph over the first-place New York Giants.

Jim (No-Hit) Wilson sailed into the lead of the ninth with a three run edge en route to his fourth straight victory. But the Giants, who think they own the copyright on Frank Merrifield finishes, got rid of Wilson with successive singles by Monte Irvin and Don Mueller.

With the dangerous Willie Mays at bat, Jolly stroled to the rescue. He worked the count to 2-2 on Mays, who had homered earlier, before hitting him in the back to left the bases.

Then Jolly applied the pressure. Pinch hitter Hank Thompson lofted a short fly. Wes Westrum fouled out. And Bobby Hofman, who has hit three pinch hit home runs this season, popped up in front of the plate to end the threat.

Brooklyn's took advantage of Milwaukee's success and cut the Giants' first place margin to a single game by beating Cincinnati, 6-3. St. Louis defeated Pittsburgh, 7-1 as Harvey Haddix won his 12th game. Philadelphia whipped Chicago, 5-3.

In the American League Cleveland tripped Philadelphia, 5-2, Cincinnati ousted Washington, 5-4. New York defeated Detroit, 9-4 and Baltimore broke its nine-game losing streak, shading Boston, 8-7, in a 17-inning marathon that ran 4 hours 33 minutes, the longest game ever played in the American League and one minute short of the longest night game in major league history.

Four Boston runs in the ninth sent the game into overtime and the Orioles finally won in the 11th on a single, a fluke double, a walk and a successful dash for home by Jim Brideweser on a grounder in the infield. Boston executed the season's second triple play in the first inning.

Top American women players were expected to sail right through the opposition today. Second seeded Doris Hart of Coral Gables, Fla., meets Miss J. F. Burke of New Zealand and defending champion Maureen Connolly of San Diego, Calif., opposes Edda Buding of Argentina in the top matches.

### Sooter Plain Poison To FW

If Fort Worth's Cats never see Hugh Sooter again it will be two years too soon.

Sooter almost pitched Houston into the first division of the Texas League last night and it was the fourth straight time for the adept Buff hurler to lick the Cats, who have lost five of their last six games and are just six percentage points out of the second division.

Houston, which now has won four in a row, is in fifth place and breathing on the Cats' necks. The Buffs beat Fort Worth, 4-2, last night.

Front-running Shreveport was jarred out of its complacency by Oklahoma City as the Sports fell to the Indians, 6-4, and San Antonio moved back just one game behind the league leaders.

San Antonio was whipping Dallas, 4-3, when all the new blood of the Eagles have brought in in the past three days failed to give the cellar dwellers a lift. Dallas used Les Fleming, the league's leading hitter, which it obtained in a trade with Beaumont but he got only a measly single. Dallas left 15 men stranded on base although getting 10 hits to San Antonio's seven.

Oklahoma City rallied for four runs in the eighth to beat Shreveport. The Indians batted around and used three hits, two walks and an error for the deciding tallies.

Sooter held Fort Worth to six hits in elbowing Houston to its triumph. Houston gathered only eight hits itself but used them better.

Beaumont beat Tulsa, 5-2, to move into sixth place and drop Tulsa to seventh.

### Defending Champ Defeated In NCAA Play At Houston

HOUSTON (AP)—With the defending champion already on the sidelines, two double rounds of match play today cut the NCAA Golf Tournament field to eight players.

Top seeding in the morning round went to a match between medalist Don Albert of Purdue and Ed Wallace, the Eastern Intercollegiate champion from Pennsylvania.

Albert, who was eight under par in 36 holes of qualifying play, was three over yesterday while being forced into overtime before defeating Bryan Honts of Southern Methodist, 1-up in 19 holes.

Wallace was one under while eliminating Don Krieger, Oregon, 2 and 1. It was the Pennsylvania's second straight round of sub par golf. He posted a 76 Monday on the 6,840-yard, par 72 Brae Burn Country Club course, but came back for a 69 in the second round of qualifying play.

Stewart Carrel of Southern Methodist was the first round giant-killer. Despite being three over par, Carrel took a fairly easy 2 and 2 victory from Earl Moeller, the defending champion from Oklahoma A&M.

### Andrews Draws A Bead On Slade

CHICAGO (AP)—Confident Paul Andrews, a rangy ex-paratrooper with a stiff punch in either hand, today drew a bead on an Aug. 4 bout with speller Jimmy Slade after enhancing his lightweight ranking here last night.

Andrews scored a fourth-round technical knockout over rugged Danny Nardico at the Chicago Stadium. The 24-year-old Andrews ranked sixth as a 115-pounder, dropped Nardico for a nine count in the third round and the Tampa, Fla., slugger was waved off as he tried to start the fourth.

There's a hitch in the Aug. 4 Andrews vs Slade bout here because Slade, who recently untracked Hurricane Jackson as an ailing hand, if Slade can't come up against Andrews, the Buffalo, N.Y., better may meet the winner of a heavyweight bout between Jackson and Nino Valdes July 14 at Madison Square Garden.

### The Bolero First In Yacht Race

HAMILTON, Bermuda (AP)—The Bolero, became the first boat to finish the 65-mile Newport, R. I. to Bermuda yacht race today.

The sleek black-hulled 73-foot yawl, skippered by John Nicholas Brown, crossed the finish line at St. David's Head at approximately 12:54 a.m. (EST) after signalling her sail number, 134, in Morse code to the Royal Naval Frigate, Cygnat.

Moeller had his troubles, as have most previous NCAA defending titlists. Only three players in 27 years have won the national title twice.

Moeller won the first hole with a par, and then three-putted the next three holes. A trap cost him the seventh hole and a bad drive lost the 8th.

This left Carrel with a five-up lead after the front nine. After taking a bogie on No. 1, Carrel played even par until he three-putted the 12th green. He lost 13 after a bad drive but still held a three-up advantage.

The next two holes were halved with birdies and pars and a pair of bogies in 16 ended the match. Moeller was six over par.

Albert won his match with Honts with a par 4 on the 685-yard 18th.

Two other overtime matches saw Allen Mundie of Oregon defeat Tommy Morrow, Louisiana State's No. 1 player, 1-up in 19, and David Love of Texas win 1-up in 21 from Garth Spahn of Stanford.

Two more rounds tomorrow will clear the course for Saturday's 36-hole finals.

### Bob Casts Spell

CLEVELAND (AP) — Cleveland's Bob Lemon has the Indian sign on the Philadelphia Athletics. The veteran hurler beat the A's 5-3 yesterday for his 22nd lifetime victory over Philadelphia as against only six setbacks.

# Talented UCLA Team Nearing Tennis Sweep

SEATTLE (AP)—The talented UCLA tennis team edged closer to its third straight NCAA championship today, sending three men into the singles quarter-finals and keeping two teams alive in the quest for the doubles crown.

But one of the Bruins was tagged for a troubled day, blond Richard Doss drawing the quiet law student from Tulane, Ham. Richardson, who is only the defending champ, a Davis Cupper and sixth ranked in U.S. tennis.

Richardson is so good the crowd bubbled with excitement yesterday when he was carried to a dozen games in his second set with stubborn Allen Cleveland of Southern California. Although he lost by a 14, 5-7 tally, Cleveland became the first player in two years to douse a set against Richardson.

The tall Tulaner boosted his popularity when he twice gave points to Cleveland deliberately after what he considered wrong decisions in his favor by the referee.

Only one of the six seeded singles players was sidetracked, Alan Call, second man on the Southern California team, snoved John Harvard of Texas under, 6-1, 6-0. The Texan had been seeded sixth. Ranked No. 3 after Richardson, UCLA's Bob Perry smothered Norm Peterson of California 6-2, 6-1, and third-rated Ron Livingston of UCLA whipped Jim Demas of California 6-2, 6-4. Jacque Grigry of USC, No. 4, had a tougher time with the fast-improving Jack Near of Portland (Ore.), but finished strong for a 5-7, 6-3 victory. Bill Quillian of Washington, seeded 5, rolled over Conrad Woods of Illinois, 6-1, 6-2.

Southern Cal retained a chance to tip over their Los Angeles neighbors in the team scramble, with two men left in singles and one team in doubles. Grigry must tangle with Quillian today in a match considered 50-50, but Call goes against the two-hand hitting southpaw, Livingston.

Perry and Livingston moved closer to the doubles diadem they are favored to win by beating Call and Jim Perley of USC 6-4, 6-2. Their teammates, Doss and Jim Read, got over Peterson and Don Pimley of California 4-6, 6-2. Grigry and Cleveland upheld the USC ambitions with a 6-3, 5-4, 6-4 decision over Washington's Quillian and Doyle Perkins.

### Bob Fernandez Dazzles Dukes

Johnny Walker of the Albuquerque Dukes missed an easy grounder, and the Lubbock Hubbers won a 10th inning West Texas-New Mexico League game Wednesday night, 4-3, when Bobby Fernandez scored from second.

In the other game, Clovis edged Plainview, 11-6, Berger tripped Abilene, 15-4, and Amarillo beat Pampa, 8-5.

Reagan popped the grounder with two out. As Walker bobbled the catch, Fernandez pounded around third and slid into the plate head-first. The winner was Milt Ardrey, and George Socha absorbed the loss, even after bleping his own cause with his first homer of the year.

At Plainview, it was in the top of the eighth that the Clovis Pioneers pushed across an unearned run for their decision. The winners collected only four hits, but Plainview handed them eight straight bases on balls. Red Dial held the distance for the winners despite giving up 16 hits. Outfielder Frank Green, who pitched seven innings for Plainview, took the loss.

Amarillo's tight defense earned its victory over Pampa, which matched the winners hit for hit. Each team batted 12. Eddie Locke took the mound in the ninth when Pampa had one on third and another on first to ward off a last-inning rally.

Rookie John Coddington hurried a seven-hit game at Abilene to starter Berger to victory. Coddington's teammates, meanwhile, blasted five Abilene hurlers for 16 hits. The winners scored in all but the top of the ninth, tracking up three runs in each of the second, sixth and seventh frames.

### Rails Return To Win Circle

Rubber game of the three-game set which will determine the first champ in Pony League competition will be unreeled at the HCJC diamond this evening.

The Rails pulled even in the series by winning Wednesday's game, 15-3. The contest was played under protest, however. Ted Fields, Cargo Kings' pilot, claimed the Rails used an ineligible man, Wesley Grigby.

Eugene Walker and Rickie Terry combined to hurl the Rails to victory Wednesday. Walker pitched hitless ball in the first three innings and switched positions after the Rails built up an eight-run lead.

Ben McCrary, Terry and Walker all hit home runs for the winners. McCrary drove in five runs for the winners.

# Convict Dies In Riot At Prison In Illinois

PONTIAC, Ill. (AP)—One convict was killed last night when 450 prisoners at the Pontiac State Penitentiary staged a two-hour riot that was quelled by prison guards with three barrages of tear gas.

Edwin Jenkins, 21, of Chicago, suffered a fatal wound in the back of the head. Prison officials said he was struck in the head either by a hard object or shrapnel from a tear gas bomb.

Damage was limited to several broken windows and a few minor fires which had been set off in trash cans. Pontiac (with 1,500 inmates), is the state's second largest prison.

Warden Daniel E. Bergan said the demonstration began in the west cell block as the prisoners were being returned to their cells after supper.

"They started rioting as they filed into the cell block," said Bergan. The cell block houses 600 convicts.

Bergan said most of the men were in the block when the rioting started but "about 150 refused to enter and were taken back to the dining room."

"We notified the men to file out quickly or they would be gassed," said the warden. "We waited and when they made no sign to come out, we lobbed in some tear gas shells."

More than 100 prisoners, coughing and choking, came out. Bergan said the second wave of gas brought out all but about 50 of the men.

"Another firing of gas, and then some of the guards, wearing gas masks, entered the block and brought out the last of the prisoners."

Jenkins was found lying dead on the floor. He had served two years of a 5-14 year sentence for assault and robbery.

# Dallas Hospital Is Opened To Use By Negro M. D.s

DALLAS (AP)—Facilities in the St. Paul Hospital in Dallas today were open to Negro physicians.

The hospital's medical staff recently approved the decision to extend hospital privileges to Negro doctors.

Yesterday the details for the set-up were worked out by Sister Mary Helen, St. Paul administrator; Dr. John L. Goforth, medical staff chief, and the five Negro doctors chosen as the initial group to admit Negro patients to St. Paul.

The doctors will have full access to all hospital facilities except obstetrics. Sister Mary Helen said obstetrical service cannot be extended to the Negroes because the division is so crowded.

The Negro doctors may attend staff and scientific meetings. Dr. Goforth said "we have felt for a long time that the colored physicians of our area should have the privileges available here."

St. Paul was the first hospital in Dallas to open its facilities to Negro doctors.

# Lions Told Dairying Is Big Industry

Bossy still has an important role down on the farm. Bryan Blalock, regional public relations representative for Borden Company, told Lions here Wednesday.

Of \$32 billion income for agriculture, no less than \$7½ originated with the cow, he said. Moreover, studies have indicated that 30 per cent of the poundage of a really balanced diet would be in dairy products.

One of the practical reasons for dairying is that it furnishes a balanced agriculture that injects stability, according to Blalock. He touched on progress, soil conservation and spoke against agricultural supports.

Accompanying him here for the talk was Kit Carson, Midland, district sales manager for Borden.

Guests for the program, which was in observance of Dairy Month, were Raymond Smith, Gandy; Sherman Cowen, Foremost and Tennessee; Ike Bedell, Borden. Distributors furnished milk, ice cream and cottage cheese for the weekly luncheon.

Roxie Dobbins, president, announced that installation of officers would take place at the next Wednesday session.

# U. S. Refinery Gets Mexican Oil Supply

BROWNSVILLE, Tex. (AP)—The first shipment of a five-year contract between McBride Oil and Gas Corp. of San Antonio and Pemex, Mexican oil company, had arrived here today.

The oil, a 107,000-barrel tankerload, will be refined at McBride's Brownsville refinery. Gas, oils, asphalt and light products will be made from the crude.

# IT HAPPENED

## Pays To Obey Law

ORANGE, Va. (AP)—When the approaching car didn't dim its lights as required by state law, State Trooper James W. Chambers turned around and overtook the vehicle.

Two youths in the car, Jackson Libert, 18, and Aubrey Caldwell, 21, both of Pulaski, turned out to be escapees from a state prison camp. The car had been stolen several hours earlier in Roanoke.

## Guaranteed Payment

DALLAS (AP)—If a driver involved in a traffic accident here Wednesday wants his car back, he's going to have to pay.

The car careened off the Forest Avenue Bridge and struck the home of Mrs. Lucile Price, causing several hundred dollars in damages.

## The driver and a woman companion fled. Mrs. Price chained the car to a tree.

"And that's where it's going to stay until I'm paid," Mrs. Price said.

## Scares Don't Faze

HARTFORD, Conn. (AP)—John Holmes, 31, placed this classified ad in the Hartford Courant: "Ramshackle farm; for direct sale from owner (realtors just laugh) at fancy price, forty acres of pin oaks and black snakes. Old world charm includes sagging floors, tortuous stairway and draughty fireplaces. Located in Higganum (ugh), Conn. Dandy opportunity to toughen up wife and kiddies for future. If you think this ad is funny, wait until you see this farm. Telephone. If a hollow laugh answers, don't hang up—that will be the owner."

Holmes, a salesman who has been living on the 100-year-old farm for three years, said he had several calls last night from people who want to look the farm over.

## Sun Hatches Chicks

STANDISH, Maine (AP)—A batch of eggs discarded at the town dump hatched out 41 chicks after baking in hot sunshine, caretaker Bert Chaplin reported.

Chaplin said last night the chicks appear to be flourishing despite their unceremonious entry into the world.

## AMA Urges Health Groups To Consult

SAN FRANCISCO (AP)—Led by the Texas delegation at the convention, the American Medical Association urged voluntary health organizations to consult with it before starting any treatment involving new drugs or new methods.

The action was taken as a dig at the Salk polio vaccine project of the National Foundation for Infantile Paralysis.

The Texas offered a resolution critical of some phases of the project, saying the medical profession was "surprised and put into a difficult situation so far as public relations were concerned" because the AMA had not been consulted.

## Pampa Booster Plant Blast Kills One Man

PAMPA, Tex. (AP)—An explosion and fire at the Cities Service Gas Co. booster plant here yesterday killed a high school English teacher.

Kenneth Walters, 28, had taken a summer job as timekeeper at the plant about three weeks ago. He was head of the English department at Pampa High School.

Another worker at the plant, Graver Austin, 28, was injured but in "fairly good" condition.

### TV For AFR Cadets

Capt. Leslie R. Merrifield, left, and M-Sgt. W. L. West establish a television antenna atop a dormitory for the benefit of cadets of the Air Force Reserve Officer Training Corps. Approximately 100 of the AFROTC men are at Webb Air Force Base this summer for field training. Bill Westfall, manager of the Big Spring Goodyear store, furnished the 17-inch TV set and antenna for the cadets.

## History's View Of Pancho Villa Is Not What Big Springer Saw

By JIM CLARK  
Bandit-chieftain Pancho Villa acting in outrage in 1916 crossed the U. S. border and, with 400 men raided Columbus, N. M., killing 16 citizens and partly burning the town, history tells us.

But Andrew Jackson Godwin of Big Spring, captured by Villa's army during Villa's marches across Mexico, has a different story to tell.

"It is my conscientious opinion that Pancho Villa had nothing to do with the attack on Columbus," he asserts. He has no doubt, however, that Villa's guerrillas were responsible for the attack.

Villa, he believes, knew nothing of the raid until after it had occurred. Officers responsible for the action were disobeying orders executed by Villa, he says. And he witnessed their court martial upon their return to Villa's army.

"Knowing the circumstances involved, I never knew any harm that Pancho Villa did anybody," Godwin says. "He was awful nice."

Godwin, fondly called "Uncle Jack" by his townsmen, was held prisoner by Villa for more than 18 weeks. At the time of his capture he was working as foreman of Southern Pacific Railway construction in Chihuahua, largest state in Mexico.

"I was never mistreated and was paid in American gold for my services," Godwin says. While prisoner he served as foreman of construction and repairs for Villa.

His main duties consisted of building bridges burned by Villa during his attacks in order that the army could move from Chihuahua.

Godwin says that while with Pancho Villa he never saw an American prisoner mistreated. "He took care of the sick and treated all with the greatest of respect," he says.

Godwin never fought with Pancho Villa's army, he declares. "I fight for no one except Uncle Sam."

"It was seldom I saw him without a smile on his face," he says of the Mexican general, a descendant of Montezuma.

Maintaining the opinion that Villa was simply trying to protect himself, he says, "He didn't want trouble with the United States."

Pancho Villa, whom Godwin describes as a man standing always with thumbs in belt, "really liked to drink and gamble."

Pancho Villa's parting words upon Godwin's release were "Tell

your folks Pancho don't want no trouble."

Godwin, 75, who closely resembles former Vice President John Nance Garner, has now settled down to a less active and exciting life than in his early days. A painting contractor, he lives with his wife, Jessie, at 714 West 3rd.

Excitement with Villa is not the extent of Uncle Jack's adventures, however, for he was building docks in Brest, France, when the United States entered into World War I.

Witnessing the shooting beginning in the French harbors, he watched England's Union Jack come down as the U. S. Stars and Stripes were raised over his construction job.

He wasn't accepted into the French army because of his age and bad hearing. So, he "peddled" cigarettes for YMCA to the 36th Division in France. "I was going to help anyway," he says. Godwin was back in America when the Armistice ending the war was signed.

Godwin was born in Dublin in 1880. His ancestors were all from Ireland. His grandfather, captured by the English army when he was 17, was given a military education under the crown. A monument erected in his grandfather's honor now stands in London.

Because of lack of funds it was necessary that he leave Galveston Medical School soon after his entry.

"Should have gone back," he says, "I made a mistake when I left school, but life has been pretty fine."

## Landscaping Program Is Under Way At Jr. College

An extensive landscaping program is being undertaken at Howard County Junior College, announces Bruce Frazier. The landscaping program, begun this year, will last for several years, he reports.

Twenty varieties of trees were recently planted on the campus. The job was done by Wolf Nursery, San Angelo, at a cost of \$500. The many varieties were planted, Frazier reports, both to beautify the campus and demonstrate how certain types of trees will grow in Big Spring.

Bermuda lawns around campus buildings were also planted by Wolf.

A newly installed sprinkler-irrigation system is now in operation, Frazier said. College officials have

requested that they be allowed to tap the water main coming from Lake J. B. Thomas for sprinkler-irrigation use. City water is now being used.

Approximately 90 acres of land surrounding the campus has been cleared of trees and bushes, Frazier said. The remaining land will probably be used to demonstrate varieties of grasses in connection with agriculture courses. Water taps have been added over the 90 acres in order that the entire campus may be irrigated when necessary.

Future plans include the planting of shrubs around buildings and the employment of the full-time gardener, Frazier said. The possibility of constructing a green house is being explored, he said. The green house would be used in connection with agriculture classes and to provide plants for the college.

## Three Ackerly Girls Attending Baptist Camp In Big Spring

ACKERLY—Attending the Baptist Youth Camp in Big Spring this week are Patsy Bristow, Peggy Ingram, and Dorothy Williams, members of the intermediate group of the G. A. S. Mrs. Faye Harry, Mrs. Neva Springfield, Mrs. R. M. Adams and Mrs. Merlene Williams will assist one day each at the camp.

Visitors in the Tom Gregg home Sunday were Mrs. Gregg's aunt, Mrs. S. R. Snyder of Corpus Christi, and Mr. and Mrs. George Cathey of Lenora.

The Junior Girls of the Baptist Church were entertained with a party Tuesday night in the home of their teacher, Venita Hogg.

Recent guests of Mr. and Mrs. D. L. Rasberry were his parents, Mr. and Mrs. L. D. Rasberry of Lubbock, Mrs. Dale Rasberry and children, and Mr. and Mrs. E. L. Buckner, also of Lubbock. Other guests were Mr. and Mrs. Harold Dean Rasberry of Lamesa.

Cecil Niblett, who is attending Abilene Christian College this summer, was at home over the weekend.

Visitors in the W. L. Nix home were their daughter, Mrs. A. J. Moore and son of Fort Worth, and their nephew, Dean Nix of Richmond, Calif.

## Stanton Scouts Go To Davis Mountains

STANTON—Thirteen Boy Scouts attended the Buffalo Trail Scout Ranch, Davis Mountains, recently, Scoutmaster Bob Deavenport accompanied the group.

Boys attending were Robert Whitaker, Richard Supulver, Paul Petree, Carl Reynolds, Bill Edwards, Warner Walker, Virgil Miller, Eddie Standefer, Dwayne Thompson, Gilbert Casbeer, Fred Houston, Norman Donaldson and Kenneth Hazlewood.

## Braniff Studies Offer

DALLAS (AP)—An offer from Pan American-Grace Airlines to buy the facilities of Braniff Airways in Latin America has been considered, Braniff President Charles Beard of Dallas said Tuesday. He did not disclose the decision. He said the decision will be transmitted to Panagra and to the Civil Aeronautics Board in Washington.

## Many Prices Seem Headed Downward

By SAM DAWSON  
NEW YORK (AP)—Pressure on the pocketbook is easing a little here and there as summer comes. There's hope today that before the hot weather is over, you may see still lower prices—if only slightly lower—on a few of the things you buy.

Competition among salesmen, and a growing abundance of raw materials and manufactured goods are the underlying causes. Wholesale food prices have already dropped. Talk of lower prices for still more foodstuffs is being heard.

Bargains appear more frequently at the clothing counters. Gasoline cuts appear in scattered areas—despite the insistence of oil industry spokesmen that general price cuts are unlikely.

If you're building a house this summer you'll find prices of a number of building materials a little lower than a year ago.

Counter to all this good news for the consumer, however, is the tendency of most basic raw materials to hold firm in price.

There is a good deal of talk of higher prices for the basic commodity, steel. Much of the talk is based on the bargaining just now between management and labor over new pay contracts. Talk of higher prices usually is spread around during such bargaining periods. But it is taken seriously enough this time, apparently, for a number of steel users to step up their ordering now to beat any possible rise in price.

The carpet makers are beginning to hike their prices. They cite an increase in the cost of carpet wool. And they point to the high operating costs which made many companies look bad profitwise in their

first-quarter earnings statements. But thrifty shoppers have been doing pretty well for some time now in the stores in many lines—food, apparel, household appliances.

Some of the lower prices you find in the shops aren't reflected in the factory price lists. Merchants have shaved retail prices for promotion purposes or granted discounts or generous trade-in allowances.

Some merchants say they are looking forward to seeing these unofficial lower prices openly listed by some factories this fall.

Mail order houses, whose sales have been trailing last year by a greater margin than retailers in general, are starting to lower catalogue prices.

Prices in the new fall book of Sears, Roebuck, for example, average out 3 1/2 per cent below its last fall catalogue. Sears says its prices this fall will be the lowest, on an average, since 1950.

Milk, cheese and ice cream prices should come down, the U. S. Department of Agriculture says, perhaps with a little wishful thinking.

Pork prices at last are tending lower. A big spring pig crop coming to market this fall should whittle a few cents off a chop.

Wholesale food price indexes are now at their lowest in three months.

## Nearly 900 Asteroids Are Located

ANN ARBOR, Mich. (AP)—Discovery of almost 900 new asteroids or pig-squawk planets — and re-discovery of some of those that have been "lost" for many years—has been reported by an Indiana University astronomer who said the findings should help reduce a potential traffic hazard of any future travel in spaceships. Dr. Frank K. Edmondson told

a meeting of the American Astronomical Society that the tiny heavenly wanderers — ranging in diameter from two miles to 50 miles — had been spotted during a five-year search.

And he said work is now progressing to compute their orbits, or pathways through space, so as to try to add them to the list of some 1,000 other baby planets whose orbits are well known to astronomy.

Asteroids are believed to be fragments of a planet which exploded ages ago — or perhaps even chunks of planetary material which never got assembled into a full-size planet. The biggest known

asteroid is 480 miles in diameter. Edmondson told a reporter that the new discoveries should help in charting the heavens to assist spaceship navigators — if and when such travel comes along. "Asteroids would be hazards to spaceship navigation," he said. "You'd have to know where they are and how they move in space."

CURTIS BAKER

### Baker Is Church Music Director

Curtis L. Baker recently became director of music at Colorado City's First Baptist Church. He has served as choral director at Colorado City High School for the past five years.

The chorus won first place rating and was voted the outstanding chorus last spring in competition with choruses from Abilene, San Angelo, Brownwood and Sweetwater.

At music day festivities at the State Fair last fall the chorus represented its region.

**THE GRUB LINE**

With Franklin Reynolds

A. L. White, an old-timer farmer in the Payne County Community of Mitchell County, south of Colorado City, has tried several legumes and recently planted 18 acres of cropland to guar and four acres to cowpeas.

The guar was planted in regular width rows at the rate of six pounds to the acre. The peas were planted in the same sort of rows but at the rate of 10 pounds. He says he is using both these crops for soil improvement and seed production.

Mr. White has 30 acres of alfalfa which he planted last fall in combination with oats as a nurse crop. He plans to cut hay from this alfalfa this fall.

Next year, he says, he plans to plant cotton on this guar land to check on the reports he has heard that guar greatly increases production when it is followed by cotton.

A Mitchell County Lone Wolf Mountain farmer, Hugh Hallmark, who lives in Loraine, has planted 20 acres of mixed land to guar. He is planning on soil improvement and on following the guar with cotton next year. He says that it works out as he expects he will use the guar in a regular rotation program on his farm.

His guar, up to a pretty fair stand, was planted in 38-inch rows at the rate of six pounds to the acre.

He has used hairy vetch on his farm at different times and has been well pleased with it. In 1949 he had some cotton that followed this vetch and it produced almost a bale to the acre.

Hallmark believes in legumes, is always ready to try out a new one, and thinks this West Texas cropland is greatly in need of them. He reworked his terraces this spring to bring the system up to district standards, but says it will require another year for him to completely finish this job.

Another Mitchell countian trying out summer legumes is C. A. Hopper, who farms in northwest of the Spade Community.

He has 15 acres of cowpeas, in rows, up to a good stand and six acres of Blue Panic Grass up to a fair stand.

He planted the Blue Panic with an SCD-owned seeder in 38-inch rows at the rate of two pounds to the acre. This planting withstood some hard rains in that vicinity earlier in the spring.

Hopper says he will use the peas for soil improvement and the guar for supplemental grazing. He is interested in guar as a summer legume and plans to keep tab on several Mitchell County plantings this year in order that he may better make up his mind about its adaptability.

A survey of 43 High Plains counties reveals that they have in operation 27,983 irrigation wells, an increase of 3,879 for the year. The list of counties included Borden, Dawson, Martin and Scurry.

The other counties are Armstrong, Bailey, Briscoe, Carson, Castro, Cochran, Collingsworth, Crosby, Dallam, Deaf Smith, Dickens, Donley, Floyd, Gaines, Garza, Gray, Hale, Hansford, Hartley, Hemphill, Heckley, Hutchinson, Lamb, Lipscomb, Lubbock, Lynn, Mitchell, Moore, Ochiltree, Oldham, Farmer, Potter, Randall, Roberts, Sherman, Swisher, Terry, Wheeler and Yoakum.

Early Army surveyors moving through this area marked it down as the "Great American Desert" and predicted it would never be inhabited by anything but buffalo, antelope, Indians, rattlesnakes and prairie dogs. Now it is one of the highest cotton producing areas in the world. Of this area, 3,627,105 acres can be profitably farmed with irrigation water pulled from under the surface.

The first irrigation in the area was in 1912, and since then this farming method has been steadily increased.

The 3,678 wells that have been put into production since May of 1953 have converted 563,557 acres from dryland to irrigation farming.

In the 43 counties, and under irrigation, there are 1,304,200 acres of cotton; grain sorghums, 1,479,060 acres; alfalfa, 106,913 acres; irrigated pastures, 55,000 acres; Sudan, 28,585 acres; wheat, 371,760 acres; oats, 14,140 acres, and legumes 23,075 acres.

Roberts County has the smallest number of farms under irrigation, only three, while Hale County has 1,750, the highest number. There

are 1,700 irrigated farms in Lubbock County.

Swisher County has the largest irrigated acreage, 450,500 acres; Hale County has 430,000 irrigated acres; Lubbock County has 320,000 irrigated acres and Lamb County has 280,000 acres under irrigation. The smallest irrigated acreage is in Wheeler County, which has put 220 acres under pumps.

There are 15,125 irrigation pumps in the area that are operated with butane; 6,617 by natural gas; 4,692 by electricity; 1,086 by gasoline and 460 with Diesel fuel.

A total of 18,117 wells have a lift of more than 125 inches while 9,566 wells have lifts under that figure. Of these wells, 14,104 have a pumping capacity of less than 700 gallons a minute, while 13,879 pump more than that.

County Agent Ralph Jones at Stanton reports finding some fleas on cotton in the Courtney Community.

Reports generally from over Howard and Martin counties indicate a pretty fast multiplication of grasshoppers. Some farmers have put out poison for the grasshoppers and some are waiting until just a little later.

Fifty acres of Blue Panic Grass, seeded in 20-inch rows on the George Glass Ranch in the north part of Martin County last spring, has provided some mighty good grazing.

Martin Vavra, of the Stanton SCS unit, says there are going to be enough grass and feed crops planted in his county this year, in different width rows, to furnish a good check on the proposition of whether or not farmers have been wasting too much ground between rows. Experiments have proven higher sorghum grain production when the rows are 20 or 22 inch than when 38 or 40 inches. The heads may be smaller, the stalks may not be as tall, but the grain production is higher, and certainly that much more stubble provides that much more protection against blowing.

Vavra is running checks on these things this year.

Incidentally, the Blue Panic on the Glass place has been sprinkler irrigated.

The Sparling meter owned by the Martin-Howard Soil Conservation District is now being used in Midland County but will be brought to Martin County to test the flow from irrigation wells there in about two weeks.

This meter measures well output ranging from 200 to 2,500 gallons per minute, and can tell the farmer just exactly how much water he is pumping.

Stanton SCS technicians ran water application tests on the farm of Jim Tom at Tarzan, and the Tom Smith farm at Courtney last week.

These tests also show how much water the farmer is losing to the wind and the depth of moisture penetration, enabling them to better control and guide root development on their crops.

A. C. Powell of the Courtney Community has a good stand of 18 acres of semi-irrigated Blue Panic Grass.

**83-Carat Diamond Sells For \$36,400**

LONDON (AP)—The 17th-century Jehangir diamond was sold yesterday for \$36,400.

According to tradition the diamond, weighing 83.05 carats, was originally suspended from the head of the peacock on the peacock throne in Delhi, India.

An Indian prince, the Maharaja Bahadur of Burdwan, put up the gem for auction. Auctioneer I. Chande said the buyer was a "Mr. Zaharias," otherwise unidentified.

The pigments which determine the color of the human eye often appear some time after birth so that children who will be dark-eyed later, often are blue-eyed at birth.

## TAMALES

And This One Is Betty Sue

Mrs. L. A. Newman and daughter, Margie, admire the girl's large collection of dolls. Margie has 19 collection dolls and many others to play with. She has named most of her dolls after the people who gave them to her.

## Summer Snacks Handy To Mrs. L. A. Newman

When there's a young daughter around the house, any mother needs a few "in-between snacks" on hand. Mrs. L. A. Newman, 200 Kindle Rd., always manages to have some refreshing lemonade or sandwich spread for her daughter, Margie. She finds this lemonade especially convenient since it can be made ahead of time and stored in the refrigerator. About her fresh cucumber sandwich spread, she says, "You've heard of the expression 'cool as a cucumber,' well this one really is."

Mrs. Newman and her daughter both have a wide variety of activities and interests. Although she is only five years old, Margie has won four photo beauty contests. A lover of music, she has been singing over radio programs since she was one and a half years old. She also takes piano lessons and has a violin which she hopes to learn to play in the near future. Her hobby is collecting dolls, and she also plans to start collecting dishes.

Collecting pictures of Margie is Mrs. Newman's hobby. She is president of the Homemaker Class at the Airport Baptist Church, council delegate for the Home Demonstration Club at Lomax, and vice president of the Airport P-T.A. She also teaches private music lessons.

And now for that refreshing summer snack combination.

**LEMONADE**  
**Ingredients:**  
 2 cups lemon juice  
 1 1/2 cups granulated sugar  
 10 cups water  
 Ice, lemon slices, sprigs of mint, etc.  
**Method:**  
 Combine lemon juice, sugar, and

## How To Make Glassware Wear Longer

The bride buying her glassware on an apron string can achieve the same glamorous effect with dime-store purchases as the town's richest hostess does with her expensive imports — if she follows a few simple rules.

1. Judge clear glassware against a dark sleeve or purse a few feet away from the display for a better idea of how it will look at home.
2. Be sure your glassware is well-proportioned, functional and balanced.
3. Buy double-duty glassware. Put milk, iced drinks, highball in tumblers; fruit and pudding in sherbet glasses.
4. Think about heat-resistant ovenware which can go to the table as sparkling serving dishes.
5. Save time by air-drying glasses, rim down, when ammonia or detergent are used.
6. Store stemware upright on the shelf with different sizes in rows from front to back for easy accessibility.

## Good Reason For Creamed Meat In June

In a savory cream sauce is a simple, satisfying way of serving cooked meat cubes. There's an extra good cue for serving the family favorite creamed meat dishes these days because June is National Dairy Month.

Among the long list of good combinations, you'll find veal cubes and button mushrooms; ham cubes and chopped celery. Remember in preparing the cream sauce for these meats, combine equal amounts of butter or margarine and flour. For a medium thick sauce, use 2 tablespoons each, fat and flour for each cup of milk. Season to taste with salt and pepper.

The way the creamed meats are served adds to their appeal. Either one, veal or ham, could be temptingly served over toast, split biscuits, corn bread squares, shoe string or whipped potatoes or boiled rice.

4 cups water. Boil 5 minutes or until sugar is thoroughly dissolved. Remove from heat; add remaining water, and let cool. Just before serving, add ice and garnish with lemon slices and mint if desired. Serves six, or store in glass container in refrigerator for between meal drinks for children. Double this amount will serve 25 punch-cup servings.

**FRESH CUCUMBER SANDWICH SPREAD**  
**Ingredients:**  
 8 ounce package cream cheese  
 1 large cucumber  
 Salt and pepper  
**Method:**  
 Cream the cheese, put in a dash of salt and pepper to suit taste.

## In A Hurry? Sandwich Lunch Ideas

Summer days frequently find the family out of doors and mother is no exception. This means that quick and easy lunches that will keep her family well fed are a must for the homemaker.

Here are some luncheon specials to fit these requirements. For example, pork sausage links make a hit appearance in open faced sandwiches. Cook the links with 2 or 3 tablespoons of water in a covered frying-pan for about 10 minutes, remove the cover and brown the links. On toasted bread slices covered with bubbling cheese, place the sausage links and top with a tablespoon of tart apple-sauce.

Toasted sandwiches filled with strips of crisp bacon, tomato slices and lettuce and a surprise sauce are another choice. The sauce is made of chili sauce generously added to mayonnaise.

A third summer day lunch special is peanut butter and diced chopped bacon. To moisten the peanut butter, add a bit of honey. Serve all of these sandwiches with a hot vegetable, a dish of relishes, a simple desert and beverage.

## One Dish Meal

Here's a one-dish sausage meal. Shape one pound of bulk pork sausage into six rolls and place them in a cold frying-pan. Add 2 or 3 tablespoons of water, cover and cook until the water evaporates, about 10 minutes. Alternate layers of cooked macaroni seasoned with grated onion and sauerkraut in a casserole. Arrange the sausage rolls, wheel spoke fashion, over the top. Add 2 tablespoons of sausage drippings and bake in a moderate oven (350 degrees F.) for 1 hour.

## Lighter Food Makes Better Appetites

"Summertime, when the livin' is easy" may be changed to "Summertime, when appetites lag" unless you use all the tricks in the book to keep up the interest of your family.

A change in salads, or added flavors, or maybe a different garnish will perhaps add zest to the meal. Here are a few suggestions for lighter, more interesting eating:

Sprinkle sliced cucumbers with paprika for an extra-pretty garnish.

To make a special topping for a fruit salad, add a tablespoon or two of chopped nut meats—walnuts, pecans, or almonds—to mayonnaise and whipped cream dressing.

Processed cheese spreads contain more moisture and less fat than regular processed cheese. The spreads range in flavor from mild to sharp.

Next time you are preparing a hot slaw, try adding rounds of frankfurters to the salad. Heat the frankfurters by covering them with boiling water and then letting them stand off the heat for five to seven minutes.

A pound of bologna yields 16 to 18 slices; a pound of liver sausage makes about 16 slices 1/2-inch thick. Handy figures to remember when you are planning a platter of cold cuts and salad for a summer buffet party.

## This Is A Good Time To Serve Broilers

Looking for an easy and economical way to serve chicken? Smart economy-wise cooks know that broilers are now more plentiful and lower in price than they've been in a long time. If you have never tried broiling chicken, here is your opportunity to discover how easy it is to serve your family luxury meals on an everyday budget.

The best chicken for broiling is a plump, young bird 8 to 12 weeks old which weighs not more than 2 1/2 pounds dressed. The smaller broilers may be split down the back only and cooked whole; while larger birds are easier to handle when cut into halves. The chicken will be easier to manage on the plate if you break the joints and remove the wing tips.

Before cooking the chicken should be wiped dry, coated with melted fat and sprinkled lightly with salt and pepper. A light sprinkling of flour is optional, depending upon the preference of the individual cook.

Turn the skin side of the bird away from the heat and start to broil with a very moderate heat, keeping the meat several inches away from the flame or heating element. As the chicken broils, turn it over several times and baste frequently with drippings of melted fat. It takes 35 to 45 minutes to broil a 2-pound chicken (dressed weight) with a moderate heat.

Some cooks may find it more convenient to start the chicken in the broiler and finish it in a moderate oven (300 to 350°); others

## Franks And Sauerkraut Are Old Team

Franks and sauerkraut, of course, are as much a team as hot dogs and mustard, and even this combination may be served in many different ways to add interest to the dinner menu. Or these winners go well in many different casserole dishes using beans, rice, macaroni or spaghetti.

A dish equally good for company dinners as for the family consists of slices of frankfurters in a richly flavored sour cream sauce. For extra drama, serve it in a chafing dish.

**FRANKS IN SOUR CREAM SAUCE**  
 8 frankfurters  
 2 tablespoons fat  
 2 teaspoons flour  
 3 tablespoons catsup  
 1 cup commercial sour cream  
 2 teaspoons sugar  
 1/4 teaspoon salt  
 1/4 cup water  
 Cut franks in half-inch slices and brown in the hot fat. Stir in flour. Add remaining ingredients and heat to boiling point, but do not boil. Serve on rice or noodles. Makes four servings.

A variation of the standard favorite, franks with sauerkraut, is obtained by stuffing the franks with cheese and baking. The kraut is combined with onion, caraway seed and enough catsup to give it a pinkish color and an interesting flavor.

**STUFFED FRANKS WITH KRAUT**  
 8 frankfurters  
 8 strips cheese  
 8 slices bacon

1 can sauerkraut (2 cups)  
 1/4 teaspoon caraway seed  
 2 tablespoons finely chopped onion  
 1/4 cup catsup  
 3 tablespoons brown sugar  
 Combine kraut with last four ingredients. Simmer, covered, for 20 minutes. Split each frank lengthwise, without cutting all the way through. Fill slit with cheese and wrap franks with bacon, fastening each end with toothpicks. Bake on a rack in a shallow pan at 425 degrees F. for about 15 minutes, or until bacon is cooked to the desired crispness. Serve kraut topped with stuffed franks. Makes four servings.

## Pork Curry

Here's a dish to interest lagging appetites—curried pork. Cook 1 cup of sliced onion in drippings for about 5 minutes, then add 4 cups of sliced tart apples, cover and cook until tender. Make a thin gravy with 1 tablespoon each of flour and drippings and either 1 cup of milk or water. When thickened, add two cups of cooked pork, 1 tablespoon curry powder, 2 tablespoons of lemon juice and salt to season. Add meat in gravy to apple-onion mixture and heat thoroughly. Serve on fluffy white rice.

Add finely chopped or grated cucumber. Mix well. Spread between slices of bread. Makes about 12 sandwiches.

# NEW "COLOR-WARE" PREMIUMS IN MOTHER'S OATS!

- Like gifts! 12 exciting premiums—one inside each package.
- Attractive and gay for your table, your kitchen shelves.
- They're useful and durable—you'll want to collect them all.
- So treat your family often to creamy-delicious Mother's Oats.

Easy to make as coffee!

And just as quick. Simply pour Old Fashioned Mother's Oats in boiling water. It cooks completely—creamy, smooth and full-flavored—in only 5 minutes. And costs less than 1¢ a serving!

A West Texas 'First'

"The Robe," CinemaScope version of the famed novel about what happened to Christ's robe, returns to Big Spring Sunday for a four-day showing at the Jet Drive-In. It'll mark the first time a CinemaScope movie has been shown in a West Texas drive-in. Shown above are Richard Burton and Jean Simmons, two of the stars of the picture. Victor Mature also appears in the role of Demetrius, the Greek slave. It's a Twentieth Century-Fox picture and features Technicolor as well as the wide, curved post-screen to give the illusion of depth.

## Mars Comes Closer To Earth Today Than In Past 13 Years

By CHARLES MERCER  
NEW YORK (AP) — Someday, perhaps not in this century, man will explore space. Someday, when he cuts through the heavens like a celestial arrow, he will seek the red planet Mars.

No planet in the sky has excited the imagination as much as Mars because of one tantalizing question: Does it contain life?

Today Mars comes closer to earth than it has in 13 years. Today the two planets are only 40 million miles apart — a mere arm's length in the infinite distances of the universe. As Joseph M. Chamberlain, general manager and chief astronomer of the American Museum-Hayden Planetarium explains it: the earth, traveling in a smaller orbit than that of Mars, has caught up with the other planet in their race around the sun.

average surface temperature about minus 70 degrees Fahrenheit.

Man's increasingly close scrutiny of Mars has come about, in Chamberlain's words, because "of all our neighbor worlds, Mars most closely satisfies standards of climate and topography which might allow for a few familiar life forms."

It has absorbed astronomers since Galileo. But interest in it has greatly increased since 1877 when an Italian astronomer named Giovanni Schiaparelli sighted thin lines on the planet's surface. He called them "canali," meaning channels. Almost immediately the public thought it meant "canals" and interpreted them as artificial and therefore the work of intelligent life. Thus began the popular idea that there was life on Mars.

Many scientists see no reason to believe the canals are the work

of intelligent beings, however. Rather, they say, the canals are the result of natural causes—fissures or volcanic cracks or glacial tracks. Other astronomers never have been able to see the canals and doubt their existence.

As Mars draws near earth, scientists will seek many missing parts in the jigsaw puzzle. They will study its weather conditions. They will try with radiometers to determine the amount of light and heat radiation from the planet. Spectrographs, which thus far have failed to detect any water vapor in the planet's atmosphere, will be employed again.

Yet even this intensive study of the Martian world is but a preliminary rehearsal to September 1956, when Mars will be only about 35 million miles from earth. Then mankind may be nearer the answers to the mysterious questions:

What lies under the surface of Mars? If there is not life as we now understand it, is it there in some earlier phase of evolution? Or is it possible that Mars contains the vestiges of a vanished civilization?

## Show Place Village Sold For \$500,000

CHENIES, England (AP) — This Buckinghamshire village—one of the show places of England—was auctioned off yesterday in seven minutes for a half-million dollars.

The village was put up for sale to help meet taxes on the Duke of Bedford's estate. The Duke, owner of the village, died last October.

The successful bid came from the Metropolitan Railway Country Estates Ltd., which announced present tenants may buy their homes if they wish.

The fer-de-lance, a poisonous snake found in Central and South America, resembles a rattlesnake without the rattle.

The average length of life for Americans has reached a record high of 68.5 years, an increase of nearly four years in the last decade.

## House Panel Okays Flood Control Plans

WASHINGTON (AP) — A House public works subcommittee has approved authorization of 13 new flood control projects to cost \$178,123,550.

The recommendation to the full committee for probable inclusion

in an omnibus authorization bill for flood control and rivers and harbors projects. The authorization of projects merely approves their construction. Money for the work is subject to separate action.

Authorizations included 40 million dollars for the Brazos River and tributaries in Texas.

## New Drug Might Take Place Of Anaesthesia

By RENNIE TAYLOR  
SAN FRANCISCO (AP) — A drug designed to make people insensible to pain but to leave them conscious and able to move may give surgery a new substitute for anaesthesia, a Mayo Clinic doctor reported today.

This preparation does for the entire system what a local anaesthetic does to a specific part of the body, Dr. John S. Lundy told the American Medical Association (AMA.) Dr. Lundy is head of anaesthesiology at Mayo.

A patient can be taken to complete amnesia and then brought back quickly, Dr. Lundy said. The drug is called dolitron and was developed by William S. Merrell and Co. of Cincinnati. Dr. Lundy is the only one who has used it so far. He tried it on 127 patients, most of them dental cases.

The new drug may be of value in childbirth, the physician said, because the woman patient would be able to obey instructions from her doctor on what to do to speed delivery. Since she would retain

the ability to use her muscles, her blood circulation rate would not slow down greatly, and this would be beneficial to the child.

Five of the patients had hemorrhoid operations. In these cases the dolitron was used along with curare, an arrow poison much used in medicine. Afterward only one of the five needed morphine to control post-operative pain, Dr. Lundy said.

The drug is injected into the vein. Two or three of the total group of patients had swellings in their veins afterward, the physician said, but no serious reactions. Analgesia, he added, is safer than anaesthesia.

Although Easter is scheduled for the first full moon after the vernal equinox, the date is set not by observation of the real moon but by rules established before astronomers knew as much as they now do about the movements of the moon.

### SAFeway MEATS are trimmed before weighing SO YOU SAVE MONEY

You get more good-eating meat for your money when you buy trimmed-before-weighing meats. The illustration at right shows you how Safeway trims rib roast before it is displayed for sale. Result: you pay only for portion that will eat just right... not for excess bone, waste and fat. Safeway regularly trims its meats this money-saving way—each cut according to its own special requirements. Start buying trimmed-before-weighing meats today and see how they help keep your food budget in line.

INSECT CONTROL TIPS

Clean And Spray, To Keep The Bugs From Multiplying

With the appearance of warm weather the pesky bugs in our community are increasing faster than you can count. And as these drafted critters multiply so do your troubles. For bugs are a bother; they annoy you; infest your home with germs; and cause untold loss to your possessions.

Under sinks, drain boards, stoves, refrigerators, cabinets, drawers, baseboards and pipes through walls and floors. In basements, give special attention to corners and drains, overhead pipes, ductwork, and between joists.

Apply in crevices or shelves and drawers, and in openings around water pipes, heat ducts, electrical outlets and baseboards. Use oil can to squirt cracks and crevices. Pour into center of ant-hills.

ANTS: Paint or spray until wet. Treat around door sills and window frames wherever ants travel.

Federal Education Office To Leave Race Issue Alone

NEW YORK (U-P)—U.S. Education Commissioner Samuel Brownell said Wednesday the policy of his office is one of noninterference with the states on segregation questions. Commenting on the Supreme Court decision banning segregation in public schools, Brownell said his office would help the states "when they want us to" but that "we do not want to interfere in your activities."

The commissioner, a brother of Atty. Gen. Herbert Brownell, addressed a convention of the National Council of Chief State School Officers.

Commissioner Brownell said he believed it important to have "education in the hands of the community."

Six Sparrows Tangle With Giant Airliner

ATLANTA (U-P)—Six sparrows tangled with a four-engine airliner over the Atlanta Airport. Capt. J. B. Parker had to land the Delta-C&S DC7 Tuesday and transfer his 69 passengers to another plane.

The dead birds were removed from the engines. The plane was hauled to a hangar for repairs.

SCORPIONS AND SPIDERS: These bugs are dangerous in any home, but present no problem when properly treated. Treat dark corners, cracks and crevices, closets and basements. Spray or paint door and window sills and other places where these bugs can enter the home. Repeat treatment until no insects are found.

FLIES, MOSQUITOES, WASPS, AND JUNE BUGS: For outdoor control, spray infested areas, spray into cracks and under car-pets, including windows, screens, doors and garbage cans. Repeat as needed.

CARPET BEETLES: Make localized applications to areas of the floor and baseboards, directing spray into cracks and under carpets where insects may be found. Treat crevices, cracks or closets and infested areas of shelving. Repeat as necessary.

MOLD AND MILDEW GROWTH: For the prevention of superficial growth of mold and mildew, make thorough and repeated spray applications to affected surfaces only. When mold is heavy, repeat application after allowing surfaces to dry. Then, no more moldy closets, no more mildewed shoes, trunks, suitcases and other leather goods and textiles when you spray regularly.

Help control the spread of polio an many other diseases in our community. Start with your own home first by cleaning it, removing any trash, and spraying to make those bugs die, not multiply.

Storm Gives Vermont New Covered Bridge

FAIRFIELD, Vt. (U-P)—Vermont has a new and quaint covered bridge today as the result of a gusty thunderstorm. Winds lifted an empty 40 foot silo last night and dropped it 600 feet away, across a brook. The farm owner's wife, Mrs. Donald Reed, said, "It makes a perfect covered bridge."

Federal Grand Jury Widens Probe Into Harris Drug Scandal

HOUSTON (U-P)—A federal grand jury is widening its investigation of a police narcotics scandal. Jury Foreman T. C. Brennan Jr. said this week "the investigation is taking on many new aspects."

"This investigation is too big to go too fast," Brennan said. "It's too important to the city and to the people."

The grand jury had two sessions Tuesday with Lt. Larry Fultz, head of the Houston police internal security squad. The jury issued a subpoena for all the squad's June records.

Brennan singled out three vice

squad detectives for their cooperation with the grand jury and said Houston owed them thanks. The three are E. H. Bennett, J. T. Conley and W. C. Pool. Bennett, Conley and Detective M. A. Billintzer dug up an \$85,000 cache of heroin last August. This set up the present investigation which broke into the open June 3 when Billintzer shot himself to death in a vice squad office.

Martin 4-H Boys Attend Encampment

STANTON — Six Martin County 4-H boys and Ralph Jones, county agent, attended the District 6 camp at Alpine recently.

The boys participated in rifle contests and athletic events. Rains forced a cancellation of a planned overnight camping trip. Jeff Glendinning, Ronnie George, Leon Mattingly, and Jerrel Mattingly, all of Tarzan and Joe Deathridge and Delbert Holcomb of Flower Grove, attended.

Health authorities are warning housewives that the only really clean homes are bug-free homes. So housewives are advised to clean and spray to rid their homes and premises of the feeding and hiding places for germ-laden bugs. Bugs will rarely breed in a well-kept home, so to reduce the chances for bugs to breed in your home . . . remove garbage, bits of food, lint, scraps of waste fabrics and other accumulated materials, and then do a thorough job of spraying.

Here are a few suggestions for summertime bug control: ROACHES AND WATERBUGS: Treat all cracks and crevices until damp or wet, using an oil can, paintbrush or sprayer. Apply
