HOBBS POOL TO BE PRORATED

HOME TOWN TALK By Beddy

Mr. Hoppin, of the department of commerce, was in town Thursday to inspect the airport and, having inspected it, told its directors what ought to be done to it before a genuine AIA classification could be obtained and the port assured a permanent place on the federal airway systems' southern transcontinental route.

His remarks showed that considerable cash yet must be spent in the port. Sale of the first mortgage bond issue of \$30,000 (\$1,000 has not yet been sold) will help things a great deal. It will take the port out of debt, and provide some more land. It will, perhaps, pay for some of the relocating of lights.

We should have more heart to work on the airport now. Because it is becoming rapidly more popular and more widely recognized than in the early part of the year. Many more people are using it. Mr. Hoppin told the Kiwanis club Thursday that air traffic on the S.A.T. system, as well as other important commercial lines in the country, had increased 1,000 per cent within the past twelve months. That means more than most anything.

But we've got to keep improving the port. It is, of course a painful process, now and then. It may become momentarily burdensome but it will be worth while in the long run.

Mr. Otto Atkinson of Dallas, telephoned us from San Angelo to offer his services to local dairymen in their negotiations with the city commission relative to the standard milk ordinance. He is president of the National Milk Producers' Association of Texas and says that the standard ordinance with the exception of about three "jokers" is all right. However he warned that the boys had better get started off right and that the whole thing revolves around proper enforcement, insofar as the smaller dairymen is concerned.

He was informed that apparently satisfactory progress was being made between the commission and those representing the dairymen and that prospects were good that the ordinance, in its final form, would be approved by all parties concerned.

It strikes us, too, that a third "party" ought to be considered; not only the dairymen and the city commission but, more important still, the consumers of milk. Especially the babies.

This afternoon we join Bob Jacobs for a ride to Abilene to the annual banquet of the West Texas Press Association. Tom Jordan and Jena left this morning. They're life-time honorary members. Once a year these news hounds and ad men, etc., get together and, true to form, talk shop the whole time just like they do everywhere else they go. Perhaps it's a creeping malady.

Got a golf tournament of newspapermen planned. Can you imagine that? And they'll even let left-handed newspapermen in. After two years our game is exactly two strokes on the average, worse than right after we started. Our only comfort is the thought of how many good golfers have been developed by whippin' us. The latest is Bili Yarbo, our make-up man, who's getting too good for us and must advance pretty soon into the big time ranks herabouts.

Terminal Worker Suffers Foot Injury
B. J. Williamson, painter, employed by Robert H. McKee, contractor, at the new Texas and Pacific engine terminal, is in the Hivings and Barcus Hospital with a dislocated right foot, the result of a fall.
Williamson was injured when the scaffold upon which he was working broke. He fell 30 feet, landing on his right foot.
No bones were broken.

LIBRARY IS SUBJECT AT LUNCH Commissioners Have Not Assisted, It Is Said

The Lions Club, at the regular luncheon held at the Crawford Hotel, today pledged support to the county library, and will assist women working on the project to obtain a sufficient number of voters' signatures to create the unit.
According to the report made at the meeting today the county commissioners have not assisted with the project.
Creation of the library becomes mandatory if bona fide signatures of one-half of the voters are obtained, said Dr. Bivings.
The Lions will assist in circulating the petitions in industrial plants, railway shops and refineries.
E. F. Duncan was appointed chairman of the committee to assist in the work. Frank Boyle, D. L. Lindley and R. C. Campbell are other members of the body.
A committee consisting of Lions Bonham, Faw, and Tracy Smith was appointed to meet with Chamber of Commerce and other lunch-club groups to work out plans for a proposed road bond issue.
Duncan was elected delegate to the National Convention at Denver, July 16, 17 and 18.

Talley Rites Set Saturday Services to Be Held at Family Home 10 O'Clock

Funeral services for H. L. Talley, 55, prominent Big Spring drug store owner, will be held Saturday morning at 10 o'clock at the family residence, 511 East 15th Street. Mr. Talley succumbed at 12:15 o'clock Thursday morning after a heart attack.
The Rev. W. G. Bailey, pastor of the First Methodist Church, will conduct the services, assisted by the Rev. W. B. Andrews of Fort Worth. Burial will be in the new Mt. Olive Cemetery.
Mrs. Bruce Frazier has charge of musical arrangements for the rites. Pallbearers will be Harry Hurt, Shine Phillips, W. J. Riggs, Calvin Boykin, Albert Fisher and Rufus Elliott.
Honorary pallbearers will be Henry Edwards, Ralph Link, A. G. Hall, Hall Hart, Jim Barker, Andrew Merrick, J. J. Hair, J. I. Pritchard, Dr. G. T. Hall, Lloyd Barker, Dr. J. R. Barcus, Joe E. Edwards, James Little, C. T. Watson, Bob Cook, Dr. J. R. Dillard and H. D. Cowden.
Among the relatives here for the funeral are Miss Hattie Adams, sister of Mrs. W. R. Talley, E. and Mrs. W. R. Talley.
He is survived by his widow, two sons, Lesie Gregg and Littleton Adams Talley, one sister, Mrs. D. J. Taylor, Temple, and five brothers, W. E. Talley, Waco, Luter L. Talley, Irsan, Dr. L. B. J. B. and W. R. Talley of Temple.

Shoes, Clothing Wanted for Girls
Shoes and clothing for two girls are badly needed, according to Mrs. F. C. Scott, official of the Salvation Army.
According to Mrs. Scott sizes eight and seven in women's shoes are needed for a 17-year-old girl, and a girl of 14 years.
The girls are the daughters of a family stranded here, the father having been ill with typhoid fever.
The clothing or shoes may be left at 904 Johnson Street, or officers will call for them if they are notified at telephone 1071.

The Weather
West Texas: Partly cloudy tonight and Saturday; local showers and cooler in the Panhandle Saturday.
TO VISIT PARENTS
Mrs. W. M. Robinson of Toyah will arrive this afternoon for a visit with her parents Mr. and Mrs. Can Powell, and sister Mrs. J. O. Trautman.

Smith Shoots 75 To Pass Up Armour, Hagen Bobby Jones Starts 2nd Round At 2 P. M.

INTERLACHEN CLUB, MINNEAPOLIS, Minn., July 11 (AP)—MacDonald Smith, the veteran Scot from New York, won the battle of the "Big Three" professionals today and took a one stroke lead with a total of 145 for the first 36 holes of the National Open Golf championship. Smith added a 75 to his first round 70 to go ahead of Tommy Armour's 146 and Walter Hagen's 147.
Bobby Jones, followed by a tremendous gallery, finally got off on his second round shortly before 2 p. m.

ARMOUR CRACKS
INTERLACHEN CLUB, MINNEAPOLIS, July 11 (AP)—Cracking on the last nine holes of his second round, Tommy Armour, the black Scot, shot a 76 today, for a two-day 36-hole total of 146. This put him temporarily in the lead, with Mac Smith and Walter Hagen chasing him for honors. Bobby Jones had not yet started but could take a 75 and tie Armour.
Walter Hagen finished with a 75 for a total of 147, one stroke behind Armour.
Hagen, with a great chance to overtake Armour, slipped on the last nine holes and took 40.

SHAVE HIGH
INTERLACHEN CLUB, MINNEAPOLIS, July 11 (AP)—Bob Shave of Cleveland equaled par with a fine 72 today in the second round of the National open golf championship, taking temporary lead of the field with a total of 148 for 36 holes.

FARMERS PLAN PARADE
Rumors current on the streets today indicated farmers of the county would stage a parade Saturday afternoon, making public protest of the milk ordinance which recently went into effect here.
According to the rumors the farmers will gather at the south end of the Gregg street viaduct at 1 o'clock and parade through the business district.
The parade is to be held preparatory to a general mass meeting of Howard county farmers to be held at the court house at 2 o'clock.
J. M. Williams, city sanitation inspector, and City manager V. R. Smitham probably will meet with the farmers.

South's Labor Problems Affected By An Economic Influence Surviving From Glamor of Old Plantations
(Editor's Note: This is the second of a series of articles based on a survey of "Labor in the South" made by the Institute for Research in the Social Sciences of the University of Virginia.)
UNIVERSITY, Va., July 11 (AP)—Out of the glamor of old plantation days, when powerful if kindly despots ruled the lives of their vassals, has survived an economic influence that still works mightily in the problem of labor for the Old Souths new industries.
So the Institute for Research in the Social Sciences, established at the University of Virginia in 1926 by the Rockefeller Foundation, has found in an exhaustive study of present conditions in the South and the reasons that have endured for more than half a century.

CLUB HEARS SECRETARY Department of Commerce Envoy Speaks

Steve D. Ford, the club's secretary and Marshall C. Hoppin, of the United States department of commerce, spoke before the Kiwanis club at its weekly luncheon meeting, held in the Crawford dining room Thursday noon.
Mr. Ford reports his trip to the Kiwanis International convention in Atlantic City. Mr. Hoppin stressed importance of not being satisfied with the minimum requirements for AIA rating. He said the aviation industry now is faced with inadequacy of airports and that requirements will demand facilities considerably better than the minimum AIA requirements.
Mr. Ford outlined incidents at the International convention, telling of things gleaned from discussions of various secretaries of more than 1,000 other clubs, of new and useful methods employed to stimulate attendance, program and functions of individual clubs. His talk was exceedingly interesting. His outline of the meeting will be completed at a later meeting.
Bernard Fisher was chairman of the program for the day. J. E. Kuykendall is next week's chairman.
President G. W. Deats named a Kiwanis committee to act with groups from other organizations in discussions of the best method of bringing to a vote a county road bond issue for paving state highways.
Joe Fisher, Nat Shick, G. R. Porter and Raymond Lyons were placed on the committee.
"You need some more equipment," Mr. Hoppin said of the airport here. "The improvements you already have made indicate that you are in a accord with the nationwide program of developing airports."

Additional Requirements For AIA Rating Listed By U. S. Envoy After Inspecting Airport Here
A report of additional requirements needed to earn an A-I-A rating for the Big Spring Airport was in the hands of C. T. Watson, secretary of the Chamber of Commerce today.
Marshall C. Hoppin, airport specialist of the department of commerce inspected the local airport Thursday, leaving last night for Brownsville.
Additional facilities for taking care of passengers included sleeping quarters for three men, visiting pilots; eating accommodations within one-half mile of the field; and larger accommodations, such as waiting rooms.
Sufficient motor repair equipment to handle a major overhaul job is needed.
Weather equipment recommended by the inspector included a barometer, anemometer, thermometer, bulletin board giving the latest weather information, and a weather map.
A radio receiving set and loud speaker to receive hourly weather reports also are needed.
First aid equipment and an ambulance are required.
Additional lighting facilities are needed before a rating for night flying can be earned. The flush type lights must be replaced with a standard two foot, eight-inch cone and light to indicate the landing area, with all boundary standards including the cone. An overhead in flood lights to 15 candlepower per foot is needed.
Installation of safety coils at the base of each boundary light to prevent accident to high tension current in the event of a collision is demanded. This is not required if the operating voltage does not exceed 310 volts, except when the maximum open circuit voltage exceeds 450 volts.
Hangar roof markings are required to be lighted by exposed incandescent lamps or neon tubes.
An auxiliary beacon which would flash green is needed. The department of commerce representative also recommended removal of certain telephone lines in posts in the vicinity of the field.

STERLING'S CANDIDACY IS TARGET Houston Man Enjoys Increasingly Strategic Position

(By The Associated Press)
Campaign fires flared merrily Friday under the impulse of new fuel, as Ross S. Sterling of Houston, highway commission chairman and gubernatorial aspirant, was rapidly becoming the storm center of the campaign for the democratic nomination.
State Senator Clint C. Small, at Waco yesterday, declared "Texas needs as governor a man who has nerve enough to discuss other problems."
C. C. Moody, not scheduled.
Frank Putnam, not scheduled.

R. S. Sterling, Anson, 3:30 p. m.; Stamford, 5 p. m.
C. E. Walker, not scheduled.
Jim Young, Houston, 8 p. m.
Mrs. Miriam A. Ferguson, Brenham, 5 p. m.
Thomas B. Love, Weatherford, 3 p. m.; Station KTAT, Fort Worth, 9:30 to 10 p. m.
Paul Loven, not scheduled.
Earle B. Mayfield, Mart, 2:30 p. m.; Waco, 5 p. m. (Station Waco).
Barry Miller, Mineral Wells, 2:30 p. m.
Items of state government besides the issuance of state road bonds, he added that "strip Mr. Sterling of his robes of office as highway commissioner and his 5,000 campaign managers and the payroll of the state, take him down to the financial size of the rest of us candidates and make him run on his own merits, and he wouldn't get as many votes as 'Soapy' Moody." Small planned speeches today at Groesbeck at 2:30 p. m. and at Marlin at 5 p. m.
Most of the speeches also were directed against Sterling. Mayfield declared Sterling was spending "vast sums of money" and asserted he had never seen such an "open, brazen and defiant attempt to buy the governor's office as is being made today by the Ross S. Sterling forces."
The former United States senator was booked to speak today at Mart at 2:30 p. m., and at Waco at 5 p. m. over Radio Station WACO.
Speaking at Yonkum for the candidacy of his wife, former Governor James E. Ferguson declared at a public rally that "Sterling was head of the KKK organization in Houston, with the proposition that members pay sixteen dollars for a three-dollar robe. But this bond proposition is a worse hold-up. The Ferguson's were announced to speak."

Killing Heat Again Sweeps Middle West Total for Present Wave Mounts To 31

CHICAGO, July 11 (AP)—Killing heat surged anew over the middle west today, causing more deaths. The total for the present heat wave now is 31.
The scourge of summer struck hardest in the St. Louis metropolitan area yesterday. Six persons died and eleven were prostrated. The thermometer touched 103 degrees.
The six deaths brought the Missouri heat casualties in the present oppression to 11. The state also had the highest unofficial temperature, Sikeston reporting a reading of 110.
Most of Iowa was perched above 100 degrees. Marshalltown, Atlantic and Council Bluffs cooked beneath 104. The total deaths to date from heat prostration mounted to four with one yesterday in Council Bluffs. Livestock in all parts of the state succumbed and farmers sought relief by working fields at night.
Thunderstorms and rains brought relief to northern Illinois, but caused crop and property damage. Harrisburg, seven times smitten by temperatures of 100 degrees or more, reported the state's highest yesterday at 106 1-2.
A fatality in Springfield brought the Illinois heat deaths to five.
In the torrid northwest, five have died; four in Minnesota and one in St. Paul. North and South Dakota were baked.
Wisconsin's first heat victim was a boy, 11 Elliot, who dropped dead yesterday while at play.
Continued heat was the forecast for the middle west, except in localities fortunate enough to receive showers.

EARL CARROLL LEADS GIRLS TO COURT
NEW YORK, July 11 (AP)—Earl Carroll, who boasts that through his stage doors pass the most beautiful girls in the world, led eight of them through the portals of Jefferson market court today for a hearing on police charges that his latest "Vanities" is an indecent show.
Carroll, Jimmy Savo, "Vanities" comedian, and the eight show girls and dancers had to elbow their way through five hundred gawping spectators gathered in the street and in the courtroom. Hardly had the principals taken their seats when the judge ordered attendants to clear the room of all "curiosity seekers."
More than 200 spectators left or were escorted out, but standing room was still scant.
Captain James J. Coy, police critic, was the first witness. He described the scenes which led to the raid on the show and the arrest of the producer and members of the cast.
Coy said his seat was in the twelfth row, and defense counsel expressed the opinion that he "was too far from the stage to be able to tell whether or not Keith Bacon, in her dance of the fans, was attired only in fans as the police charge."
"It was when she walked off the stage," Captain Coy replied, "with her back to the audience, that I realized."
"You mean," said the defense counsel, "that while she was doing the dance facing the audience she so manipulated the fans that you couldn't tell whether she was wearing any clothing or not?"
"Yes," Coy replied.

Lovington Body Back From Meet
LOVINGTON, N. M., July 11.—The delegation from Lovington to the quarterly meeting of the Carlsbad Highway Association at Oklahoma City July 9, returned here Thursday. The highway has just received federal designation from Maysville, Ky., to El Paso, Texas, via No. 62. The highway passes through Lovington. The delegation from this city was the largest to attend the meeting and was heartily cheered for its enterprise.

OPERATORS AND STATE FIX TERMS Provisions Withheld From Public For Present

SANTA FE, N. M., July 11 (AP)—The state of New Mexico and the 24 operators of the Hobbs oil area in Lea County have entered an agreement to prorate oil production in that area. Dr. Austin D. Crile, land commissioner for New Mexico, announced today.
The terms of the cooperative contract agreed upon by the operators and approved by the state were withheld for the present. The contract is not expected to be made public until after a meeting at Roswell by an executive committee appointed yesterday to arrange placing the proration agreement in actual operations. The Hobbs field at present has a potential production of 125,000 barrels of oil daily.
Keak-F. Cusack, of the Slaty Oil and Gas Company, who aided in establishing proration in the Wink and Yates fields, was present at the Santa Fe conference during the past two days. He sent telegrams to other members of the executive committee calling a meeting to be held at Roswell this week end or early next week.
The contract signed by the 24 operators was approved by the state after conferences among state officials, including Governor R. C. Dillon and the oil men.
While the proration contract was being signed at Santa Fe the Empire Gas and Fuel Company brought in its first well in the Hobbs area last night. The well was flowing wide open in excess of 7,000 barrels. Drillers expected to get the casing collar this morning, and scouts predicted the well under control will be worth more than 15,000 barrels a day.

FARMER MISSING

Relatives of Frank Cain, 60, farmer, living six miles north of Big Spring on the Gail Road, were seeking him today, and expressed fear he had been a victim of foul play.
According to his father-in-law, W. L. Rogers, Cain left home Thursday morn'ing to buy some groceries. He purchased the groceries at a local store, paid a back bill and for the additional supply, and informed the clerk he would return for the goods.
He has not been seen since that time, according to Rogers. He did not have but a few dollars on him at the time he was last seen.

Sterling Visits Press Confab

ARILENE, Texas, July 11 (AP)—Scores of newspapermen were gathered here today for the fifth annual convention of the West Texas Press Association. Eddie Warren of Post is president and George F. Smith of Snyder is secretary.
Ross Sterling of Houston, candidate for governor and a publisher, mingled with the scribes this morning.
Banquets, golf matches, dances and theatre parties were on the entertainment program. Addresses by leaders of the press were to feature the business session.
Ray Nichols of Vernon, president; Ian Harben of Richardson, secretary, and R. L. Scott of Deleon, vice president, of the Texas Press association were introduced to the convention. Several other regional organizations are well represented.
President Warren in his annual address praised the advancement of vision, the development program is outlined by the West Texas Chamber of Commerce and urged newspapermen to concentrate on making Texas manufacturing.

Youth Found Dead Near Iatan Road
COLORADO, Texas, July 11 (AP)—The body of Everett Thomas, about 22, of Oklahoma City, Okla., was found today on the Texas and Pacific railroad right-of-way near Iatan, Mitchell county. The body was badly mutilated. Thomas was identified by a card in his pocket.

HAD KIDNEY TROUBLE SO BAD HE COULDN'T GET A GOOD NIGHT'S REST—ORGATONE (ARGATANE) BRINGS RELIEF

"Do you know that before I began taking this Orgatone kidney trouble bothered me so badly at times I couldn't get a real night's rest," said L. W. Johnston, who lives on rural route 1, about twelve miles northwest of San Angelo, where in the Schwab Drug Co. he other day.

"I have suffered, nobody knows how much, with stomach trouble for the past year," continued Mr. Johnston. "I couldn't sleep at night on account of the pain, and would get up in the morning feeling all tired out and hardly fit for the day. After eating gas would form on my stomach causing shortness of breath and often times this was followed by sick bilious headaches. No kind of treatment or medicine did me any good and I still suffered from constipation and was forced to take some strong laxative every night."

"I saw Orgatone (Argotane) advertised in the papers and decided to take a chance on it helping me. Well, it proved to be the right thing and I have already picked up several pounds in weight and feel better than I have in years. I sleep good every night, eat heartily and I don't have those sick headaches at all. I feel that I am a well man already. But I am going to keep on taking Orgatone (Argotane) until I am satisfied every bit of that stomach trouble is out of my system. Orgatone (Argotane) is the greatest medicine I ever heard of and I just can't praise it enough."

Genuine Argotane may be bought in Big Spring at the Collins Bros. Drugs—adv.

'Border Legion' Opens at Ritz

Weeks were spent by Paramount officials selecting a proper location site for the filming of the latest Zane Grey Western to be brought to the screen, "The Border Legion," an outdoor, all-talking thriller with Richard Arlen, Fay Wray and Jack Holt in the cast which opened a two-day stand at the Ritz Theatre here today. Sites within a radius of seven hundred miles of Hollywood were visited, examined, discussed and listed before the rich gold region near Sonora, California, in the Sierra Nevada mountains, was finally chosen.

A special train transported the small army of players and technicians to the location headquarters, 400 miles from Hollywood. Included in the equipment were a locomotive and four coaches which were old when the first western moving picture was filmed. The period of the Zane Grey story is about 1870. The action deals with the adventurous struggle for gold.

Poison Fatal To Fort Worth Baby

FORT WORTH, July 11 (AP)—Little Donald Wallace Van Landingham, 19 months, played for seven hours around the house at the home of his parents, Mr. and Mrs. Virgil Van Landingham, before they realized the child had taken a fatal poison late Thursday. At 11 p. m. the baby became per-

ously ill and the mother recalled that at 4 p. m. the child had put something in his mouth. At 1 a. m. Friday he died in a hospital. While Mrs. Landingham was in another room, Donald Wallace dragged a chair over to a dresser. He pulled open a top drawer, where lay a box of pills containing the poison which the father had been

taking. Later, it was found that two or three pills were gone. In a few minutes, the mother noted the child had something in his mouth. Believing it was some harmless substance, she removed it from the child's mouth. Nothing more was thought of the incident, until Donald became seriously ill.

Captain Hawks Is Injured In Crash

WICHITA, Kas., July 11 (AP)—Captain Frank Hawks, noted transcontinental flier, was injured slightly here today when his new monoplane, "Mystery S," crashed at the Travel Air Airport. He suffered only minor cuts.

The plane fell from about the height of telephone wires after the engine stalled as Hawks started to land from a trial flight.

The flier said he was traveling at about 80 to 90 miles per hour when the engine suddenly went dead. The plane hurtled over twice as it struck the ground but Hawks was not thrown out of the cockpit. Airport workers said the plane

TOPPING ALL THRILLS

with RICHARD ARLEN, JACK HOLT, FAY WRAY, EUGENE PALLETTE

A Paramount Picture

MAN-FIGHTING. woman-loving terror of the gold lands. Destroyed by a woman they can't understand. The greatest Western story-tellers created it. Like "The Virginian," all-talking, all-outdoors. Spectacular beauty! Backstage of fashioning beauty! Stirring romance in a land where a woman is a lady. Filled with death-defying courage and high adventure.

Railroad Brotherhoods Support Candidacy of Mayor Thomason

That railroad brotherhood members of his home city are actively supporting Mayor R. E. Thomason in his campaign for the democratic nomination to congress from this district is shown by a letter received by The Herald from D. S. Evans, legislative representative, B. of R. T. Lodge No. 80 and W. A. Coffey, legislative representative of B. of R. T. Lodge No. 800.

It is as follows:

The following is an extract taken from a letter, under date of June 12, 1930, sent to the Chief Executives of the Standard Railway Labor Organizations, which is self-explanatory:

"There will be a vacancy in the Sixteenth Congressional District of Texas caused by the retirement of Congressman C.

W. M. CLARK, Vice President and National Legislative Representative Order of Railway Conductors.

A. F. STOUT, National Legislative Representative, Brotherhood of Maintenance of Way Employees.

We are very much interested in the election of Mr. Thomason and would appreciate it if you would publish the above in your newspaper at your earliest convenience, so as to inform the membership of the different labor organizations of the action taken by the above mentioned representatives.

Thanking you in advance for same, we are, yours very truly,

Roy Clayton To Preach Here

Roy Clayton, young minister from the congregation of the First Baptist church, will preach at the West Side Baptist Sunday School at 3:45 Sunday evening following the regular afternoon services of the school.

Mr. Clayton has been preaching but a short time and proposes to attend college or seminary in the fall, but he will have a message worth while to which the public is cordially invited.

The services will be held in the Baptist Mission on West Fourth street. Classes have been arranged to care for as many from Jones Valley as will attend.

This is the first preaching service arranged since the permanent

(CONTINUED FROM PAGE 1)

at Brenham tonight.

Sterling, at San Angelo, continued to pound away in his speech with an explanation of his \$350,000,000 state highway bonding plan, to be financed by income from gasoline tax revenues.

He directed his attack at Lieut. Gov. Barry Miller, whom he termed "a nice man, but he has been shooting a lot of bunk to the people."

Sterling asserted Miller had declared in a speech at San Angelo that the income of the highway department was \$50,000,000 a year. "I'm here to tell you that it is no such thing," Sterling said. "It is \$30,880,000 a year."

Directing his attention to Lieut. Small, Sterling said "he voted for submission of the \$175,000,000 state road bond issue when that measure was before the Texas legislature. He was for it then."

Sterling's itinerary included a speech at Anson at 2:30 p. m. and at Stainford at 8 p. m.

Thomas B. Love, in an address last night at the North Texas Teachers' College at Denton remarked concerning the amount of money he believed Jim Young and Clint Small were spending in their rival campaigns. He predicted he would win the nomination by a majority of 50,000 to 75,000 votes in the first primary.

He planned to speak at Weatherford at 2 p. m. today and over Station KAT, Fort Worth, from 8:30

Bankhead Designation As Military Highway Asked At Convention Held By United States Road Association

OKLAHOMA CITY, July 11 (AP)—Election of W. A. Boone, Pontotoc, Miss., as president, and the passing of a resolution urging congress to take over the Bankhead National Highway and make it a military road, made up the major part of the first session of the Bankhead National Highway Association, meeting in conjunction with the United States Good Roads Association. The goods roads meeting was adjourned early yesterday to give way to the Bankhead meeting.

Luther Liles of Anniston, Ala., C. E. Roop of Carrollton, Ga., and R. C. McDaniel of Arkadelphia, Ark., were elected to the positions of vice presidents at large. J. A. Roundtree, Birmingham, Ala., was re-elected director general.

The Bankhead delegates also urged congress to mark all highways with the numerical markings and the name of the highway, thus preserving the names familiar in road planning and building.

Plans to erect a monument in honor of the late T. A. Plozman, Talladega, Ala., first president of the Bankhead association, were begun.

The Bankhead highway, starting at the zero milestone in Washington, D. C., traverses the states of Virginia, North and South Carolina, Georgia, Alabama, Mississippi, Tennessee, Arkansas, Oklahoma, Texas, New Mexico, Arizona and California, Roundtree told the convention.

During the World War 37 cantonments, aviation fields and military posts were located on the Bankhead highway. There are 16 such army posts now on the highway.

WOOL BULLETIN

BOSTON, July 11 (AP)—The Commercial Bulletin will say tomorrow that the week has been very dull in the wool market, although some improvement is noted towards the end of the week. Prices are slightly changed. In the west buying operations are dwindling. The outlook in the piece goods market is considered hopeful but no great improvement is expected much before September.

There is a slight improvement recorded at the London colonial sale since the opening, but London has not benefited by this improvement. In fact, prices there appear slightly easier. There is little change in the values in Australia or the other primary markets.

Mohair is quiet and without notable change. Wool quotations: Scoured basis:

Next Prize Offer For Small Hot Dishes That Are Easy To Prepare For Your Supper

Mrs. Lewis McKee and Mrs. Louis Rosser Are Winners of Week's Prizes For Best Pie Recipes

BY THE MARKET PAGE EDITOR Of course the heat has got most of us down, but even at that one's husband comes crying home for something hot for supper.

Hot sandwiches are our suggestion for his relief from ice box leftovers and your relief from the hot cookstove in the evenings.

The two best recipes sent in to us by next Friday will receive \$1.50 each as a prize award.

This week we prophesied a flood of pie recipes—and our prophecy came true. We had so many we scarcely knew what to do with them all.

After much deliberation we decided on "Florodora Pie" submitted by Mrs. Louis Rosser, Gail R. T., and "George Washington Pie" submitted by Mrs. Lewis McKee, R. F. D. Box 152.

Honorable mentions go to Mrs. H. G. Carnick for her "Vinegar Pie" quoted below, to Mrs. B. G. Parker for her Marshmallow Pie, and to Mrs. D. W. Jones of Monahan for her large number of recipes, all above the regular par excellence.

Here are today's winners:

"GEORGE WASHINGTON PIE" Mrs. Lewis McKee, R.F.D. Box 152 This pie was (Washington's favorite) it is, according to Mrs. McKee, just as good now as it was then.

1 cup brown sugar 1/2 cup sweet milk 1/2 tbs. cornstarch 1/2 tbs. butter 2 eggs

13 cup English walnuts Method: melt and brown the butter until a deep golden brown. Mix the sugar and cornstarch and gradually add milk to form smooth paste. Then add beaten egg yolks, remaining milk and browned butter. Put in double boiler and cook until thick. Add finely chopped nut meats and pour into baked crust. Top with meringue made of egg whites, marshmallows chopped, or whipped cream on top of egg meringue.

"FLORODORA PIE" Mrs. Louis Rosser, Gail Route 3 egg whites stiffly beaten 4 tablespoons sugar 1/2 cup diced marshmallows 1 teaspoon vanilla 1/2 cup red cherries 1/2 cup chopped candied pineapple 2 cups stiffly whipped cream 1 baked pie crust Method: Beat the egg whites and add the sugar. Beat for one minute. Mix the cream, pineapple, cherries, vanilla and marshmallows. Fill pie shell, cover with the egg white mixture and bake quickly. Remove and chill.

VINEGAR PIE 2 cups sugar 2 tbs. butter 3 eggs 4 tbs. flour 4 tbs. vinegar 2 cups water Method: Cream butter and sugar. Add eggs and beat. Stir into this the flour. Then add vinegar and water. Line two pie tins with paste and pour in the filling uncooked. Sprinkle nutmeg on top. Bake in hot oven until crust is well browned. Finish baking in slow oven.

Hints For Homemakers By Jane Rogers The new glassware in pastel shades of tanz, rose, green, amber or azure is lovely for serving cold beverages on the porch or in the garden. The pitcher, glasses, plates, and dishes for cakes, sandwiches, candy and lemon, may all be had in the same shade, either stained or plain.

Children who protest against eating carrots may develop a liking for this important vegetable if it is prepared as follows: Scrape carrots, cut in pieces about one-fourth inch square, boil in salted water until tender, drain in pan, and brown lightly in butter, with sugar sprinkled over to make a glaze.

TO CALIFORNIA J. L. Webb left Thursday night for Long Beach, Cal., where he will meet Mrs. Webb and accompany her back to Big Spring.

MAKE MOTOR TRIP Mr. and Mrs. Max Jacobs and two daughters, will leave Sunday for a motor trip to East Texas points. They expect to be gone for a week.

MARSHMALLOW PIE Mrs. B. G. Parker, 611 Johnson St. 24 marshmallows 5 eggs 2 cups sugar 2 bananas for each pie or a cup of finely chopped pecans if preferred to bananas. Method: Put marshmallows in double boiler and melt. Beat egg whites stiff and add sugar to eggs. Beat thoroughly. Then add to marshmallows. Pour into baked pie shells which have bananas sliced in them. Set in the oven and brown. This makes two small or one extra large pie.

LOMAX BONDS APPROVED Lomax school bonds amounting to \$8,000 have been approved by the attorney general, according to Miss Pauline Cantrell, county superintendent. The bond issue was recently voted by voters in District 16 for construction of a new building.

Miss Andre Walker joined the Frank Reedy Touring Party in Dallas yesterday. She will accompany them on a month's tour through points of interest in Alaska. Mrs. J. I. McDowell, who has been visiting relatives in Austin, also joined the party in Dallas.

News Briefs MINNEAPOLIS—Dress reform for males in hot weather has hit Interlachen with reverse English. Some outstanding pros, hitherto knickered with long socks, are wearing short socks. But their shirts are covered with long pants.

LONDON—The bug has bitten the Prince of Wales hard. "When you are too old to play golf you had better die," he told the Lucifer Golfing Society at a banquet.

PALM BEACH—All that is left of a railroad that once connected Jupiter, Venus, Maru and Juno has become the property of C. P. Corrigan for \$2.89. At a sale for unpaid taxes he bought the right of way in Juno, now Palm Beach. The road was eight miles long.

WASHINGTON—Mrs. Hoover is to give a lawn party next Wednesday at the White House for wounded war veterans.

MAX MEADOWS, Va.—What good is a gun when a woman screams? Two men essayed a bank robbery. One pointed a pistol at Miss May Hull, assistant cashier, and told her to hold up her hands. She screamed and dashed to the president's office. The robbers fled.

ATLANTIC CITY, N. J.—Siamese (?) twins parted! Madeline Infante unhitched herself from Patricia because all the salary was not forthcoming, blackened the manager's eye and tore down some posters ballyhooing herself and Patricia as Daisy and Violet Hilton, the original. The manager had Madeline in court to no avail.

SEVILLE, Spain—Returned from the grave, so to speak, Senorita Antonia Vargas has enabled 100 men to get out of jail. She worked in an olive factory and was supposed to have been killed last month by the police in a labor demonstration. A general strike followed, there were many arrests. Now she has shown up, insisting that she was away on a vacation—everybody arrested for rioting has been freed.

SYRACUSE, N. Y.—Virgil Barrigar, 16, is an authority on the sensation of being run over by a locomotive. Trapped at a grade crossing he ran ahead of the engine. It caught him. He was found lying face down under the tender in the center of the rails. He walked to an ambulance a bit bruised.

MRS. BARNETT TO SAN ANTONIO Mrs. J. W. Barnett and daughter are in San Antonio visiting relatives.

New Dishes to Relieve The Monotony of Meals

By JOSEPHINE B. GIBSON

Sometimes we hesitate to try a new dish because we are afraid it will not appeal to the rest of the family, and we go on cooking the old standbys until our meals fall into a rut. This is foolish, because there are many hundreds of excellent recipes for dishes so good that very few people could help liking them. And by using a wide variety of recipes we not only relieve the monotony of our meals for those who must eat them, but also help keep up our own interest in cooking—the regular three-meals-a-day.

These recipes are all so good that you will want to use one of them every day until you have tried the entire list. I am sure:

Stuffed Ham Roll:—1 slice ham about 1 1/2 inch thick, 1 cup bread crumbs, a few grains of pepper, 1/2 teaspoon prepared mustard, 1 medium size can cream of tomato soup, 1 tablespoon chopped onion, and 1 teaspoon Worcestershire sauce. Soak ham in water if salty. Make a dressing of crumbs, with enough liquid to moisten. Cover slice of ham with dressing, roll up like a jelly roll, and tie firmly. Put in roasting pan or casserole, cover with cream of tomato soup, and surround with 1 cup par-boiled carrots. Cook until carrots and meat are tender.

Swiss Steak:—Round steak, cut thick, 1-2 cup flour, 2 tablespoons fat, a few slices of onion, salt and pepper, 1/2 green pepper chopped fine, 2 cups boiling water, or 1-1/2 cups water and 1-2 cup tomato ketchup. Mix the salt and pepper with the flour and pound into the meat. Brown the meat in a skillet, then add the onion, green pepper, boiling water and tomato. Cover closely and simmer slowly until done. This may be cooked in a casserole in the oven, or in a skillet on the stove.

Baked Cottage Ham:—1 cottage ham, 1 dozen whole cloves, 3-4 cup granulated sugar, 1 tablespoon pure vinegar, 1 teaspoon prepared mustard, bread crumbs and a few tablespoons water. Soak ham overnight in water. Pour this water off, and cover the ham with cold water. Bring to boiling point slowly, and simmer until ham is tender. Allow to cool in the liquid in which it has boiled. Then remove excess fat and any tough skin, and stick cloves in one side. Make a syrup of sugar, mustard, vinegar, and a small amount of water and pour over the ham. Cover one side with bread crumbs and bake until delicately brown, basting occasionally with the syrup.

Beefsteak Pie—Steak or roast beef cut into 1 inch cubes, 1 onion, 1-3 cup tomato ketchup, 1 teaspoon beefsteak sauce, a small amount of flour and water, salt and pepper, and 4 medium size potatoes. Cover cubes of steak with boiling water, add onion, tomato ketchup, and beefsteak sauce. Cook slowly for thirty minutes. Remove onion, thicken gravy with a small amount of flour and water, and add salt and pepper to taste. Add potatoes, which have been cut into 1-4 inch slices and parboiled in boiling salted water for eight minutes. Put into a buttered baking dish, cool slightly, and cover with baking powder biscuit dough or pie crust. Bake in a hot oven for twenty minutes and serve with tomato ketchup.

Fish Fillets with Tomato and Olive Sauce:—6 individual fish fillets, 1-3 cup crushed rice flakes, 4 tablespoons butter or pure Spanish olive oil, and 1 beaten egg. Dip fillets in beaten egg, then in crushed rice flakes. Saute in fat until tender and a golden brown. Serve with:

Tomato Sauce:—2 tablespoons butter, 1 small onion, 2 tablespoons flour, 1 small can cream of tomato soup, 1 small bottle Spanish olives (chopped), and 1-4 teaspoon salt. Melt butter and add finely chopped onion. Cook until onions are tender, then add flour, and stir until smooth. Add tomato soup, chopped olives, and salt, stirring until well blended and hot.

Presbyterian Daily Vacation Bible School Has Annual Picnic At Park

The Daily Vacation Bible School of the First Presbyterian church held its annual picnic at the City Park last night. Over 125 children and parents attended the outing and took part in the games and contests held. A committee composed of three women saw to it that picnic "eats" were supplied to all. They were: Mesdames J. O. Tamsitt, J. B. Littler and C. P. Rogers. Everyone assembled at the church yesterday afternoon and were then taken to the park. Games suitable for each division of the school, primary, intermediate, junior and senior, were thought-of by the supervisors and played by the children. A spelling match was carried on among the older people. The Daily Vacation Bible school is meeting every morning at the Presbyterian church. Its enrollment is around 125 and its average daily attendance, despite the hot weather, has been at least 80.

HILLS BROS COFFEE owes its rare flavor to the principle you follow in making mayonnaise

You add the oil a little at a time to prevent the mayonnaise from separating. Hills Bros. roast their coffee a few pounds at a time to prevent variation in flavor. That's why this patented, continuous process is called Controlled Roasting. No bulk-roasting process can produce such a rich, delicious flavor. And not only that, but you will find complete stocks, conveniently arranged, and the prices will be a pleasant surprise. Here you can shop quickly, completely and economically. Herald To Sponsor Straw Vote For Governor Among Big Spring Women Readers

Pick Your Gubernatorial Choice From Any of the Fifteen Candidates And Cast Your Ballot

BY THE WOMAN'S EDITOR With women crying to enter the fields of politics and many of them doing it, the Big Spring Herald will become a voluntary mouthpiece of the fair sex as to their attitude toward the oncoming gubernatorial combat.

With fifteen governors to choose from opinions must of necessity be pretty widely scattered.

It is with this knowledge that the Herald announces a Women's Gubernatorial Straw Vote to start Monday of next week.

Whether you cast your vote for "Ma" or whether you go Republican and drop a ballot for Butte, it is all the same to the Herald, but it would like to get some fair estimate as to the chances of the fifteen candidates between now and the primary elections.

Think It Over Ballot boxes will be placed all over town, positions to be announced later. A ballot will be printed daily in the Herald and as the compilations are made, announcements will go forth to shock or please the public. Ballots may be mailed to the Herald, unsigned.

Ladies, this is your chance to make the men sit up and take notice. Read the political news and surprise your husband with your canny comments on this or that candidate.

And cast your ballot. Another story on the Straw Vote.

Coahoma Crew Wins From Bankers In Close Battle

In Coahoma the Walkers and the Reids have it. According to the baseball roster three of the Walker boys—J., N. and L., to be specific—can play baseball, and two of the Reids, H. and E. are on tap.

The Bankers look better—much better. With Stevens at third, and the addition of Taylor and Kendrick to the infield, acquisition of Bishop at first, McPeak behind the slab and Glenn for the infield, has helped matters considerably.

Efforts to obtain a game with one of the highly, but probably not deserved, praised San Angelo baseball organizations for this Sunday proved futile.

Spouting Spike Henniger's red caps will clash with the Mexican Tigers this afternoon. Saturday afternoon the same contest topped aggregation will play Col-Tex Refinery at Dusty D for the benefit of the respective treasuries of the two aggregations.

H. Reid, Coahoma first baseman, joined the ranks yesterday of those that rap a thousand. Reid did his rapping and retired when he had three hits to his credit. He led the field for the day, with Kendrick, Banker shortstop, a notch behind with three singles in four trips.

Bill Stevens, the Steer mentor, seems rather elated, for some reason or another, over the 1930 football prospects. Having absorbed a goodly portion of gridiron knowledge during the past month, Stevens is set, or will be, to do a little upsetting along the way.

Of course predictions are too early. But should the Steers defeat the Mountaineers in the Mineral Wells garden in the first encounter, they are likely to go a bit further; than is generally expected of them.

Big Spring racquetteers will journey to Abilene Sunday for an inter-city bout. Ray Brown and Frank Whitehurst, Curtis Bishop and Tom Hutto, will cover that stretch of sod between here and there to represent the city beautiful in the matches.

Anyone wanting two snappy ball players, admittedly so, can obtain them by conferring with none other than Harold Harwood and Ben Anthony, openly declared gems of the diamond. At last account they were playing with the Bankers, but even that roll fails to have their names thereon at final registration.

COLORADO 9 TO PLAY HERE

Col-Tex Refinery and Cosden Refinery will meet Saturday afternoon at 4 o'clock at the City Ball park.

COOK'S BUNT DECIDES FRAY

Treasury Nosed Out In Seventh Inning By Newcomers

Coming from behind in the sixth frame to tie the tally, the Bankers revised and rebuilt, saw their efforts fade into futility when N. Walker, Coahoma third baseman, slashed out a triple, and scored on Cook's slow one down the first base line, to cop the tight tilt 6 to 5.

The winning run came in the seventh inning after Hull, initial Coahoma chucker had been relieved by Garcia, who truck out three of the Bankers in their half of the seventh. Walker's triple came after

Cosden-Tigers and the Mexican Tigers will clash at the City Ball Park this afternoon at 8:30 o'clock, or somewhere in that immediate vicinity.

Whittington—Jessa E.—will be on the mound for the gasoline producers. The Tigers had not decided upon their chucker this morning.

Today's tilt will mark the second game for each of the teams in the second half of the City League chase.

one was away. Cook sent his slow bunt down the marker and Bishop muffed it in an attempt to catch Walker at the plate.

The Bankers scored in the third inning after two were down. Bill Stevens singled, F. Payne was walked, and Kendrick singled to tally Stevens. In the first of the fifth the Bankers combined F. Payne's triple and Kendrick's third single of the evening to score Payne. Coahoma added on in the same inning on N. Walker's double and Reid's single, Walker scoring.

Walker's blow broke up the ball game, and Cook's tantalizing bunt finished matters. Garcia received credit for copping the fray.

MAGNOLIA BEATEN BY M-B

Merrick & Bristow took the lead in the Oil Belt League with a victory over Magnolia, 10 to 1, behind the splendid pitching of Lyday, who allowed but four hits and struck out nine batters.

Gramer was the Magnolia pitcher. He allowed eleven hits and got five strikes out. Papanan, with a double and a single in three trips, Tate with a double and two singles in three at bats and Chapman with a triple and a single led the Merrick & Bristow barrage.

AL SINGER'S TITLE HOPES UNDIMMED BY 'KNOCKOUT'

Al Singer, New York battler, and Sammy Mandell, lightweight champion, who will battle for the title, July 17 at the Yankee Stadium.

NEW YORK (AP)—Al Singer claims that if he wins the lightweight title from Sammy Mandell here the night of July 17 no small part of the credit will belong to Ignacio Fernandez.

NIGHT GAME 4 WESTERN COPPED BY BUFFS CLUBS IN FIGHT

Night baseball invaded the northern half of the Texas League last night, when the Shreveport Sports cavorted for the first time under the klieg lights at Bienville field.

The Indians were one up on their nearest rivals with eight victories against seven for Detroit by winning yesterday's opening game of an abbreviated series 6 to 5.

St. Louis again moved ahead of Chicago's White Sox, taking sixth place by a half game margin and gaining a 7-6 margin in the games played between the two clubs by winning a ten inning game 7 to 6.

They finished with a total of 28 hits, to which the Phillies added five errors. Pete Donohue yielded 16 blows, including the feature clutch of the game, Chuck Klein's 25th home run of the season, but had no trouble going the route.

SPORT SLANTS

ALAN GOULD ASSOCIATED PRESS SPORTS EDITOR

The best intercollegiate track and field performances for the spring season, closed in spectacular fashion in the N.C.A.A. championships at Chicago, reveal the greatest collection of marks any campaign has known.

Here are some of the most conspicuous on the track: 100 yards: Frank Wykoff, U.S.C., 14 seconds (world's record).

440 yards: Pete Bowen, Pittsburgh, 48 seconds. 880 yards: Russell Chapman, Bates, 1:52.4.

1 mile: Ralph Hill, U. of Oregon, 4:12.4 (American record). One mile relay: Stanford, 3:15 2-5 (American record).

120 yard high hurdles: Steve Anderson, Washington, 1:44 (Equal World's record). 220 yard low hurdles: Lee Seaman, Illinois, 2:32 (Equals N.C.A.A. record).

The field events have witnessed these sparkling feats: Shotput: Harlow Rothert, Stanford.

Discus: Eric Krenz, 167 feet, 5 3-4 inches (World's record). Javelin: Ken Churchill, California, 212 feet, 5 inches (Equals U. S. mark).

The official world's 100 yard record of 9.5 was awarded at Berlin to Eddie Tolan but the Michigan negro wound up his college career without capturing a single important championship race.

If any sprinter deserves world's record recognition in the century, on the basis of this spring's galloping, it is Frank Wykoff, the Trojan terror. Frank sped down the straightaway in 9.4 at Los Angeles May 10; in 9.7 at Cambridge, May 30 and 31; in 9.4 at Chicago, June 5 and 7.

Wykoff lost only one big race all season. That was to the blond and rangy Stanford ace, Dyer, at Los Angeles on April 12. He has not been beaten since then and traveled some 6,000 miles across the country and back to demonstrate in a few hundred yards that he is the fastest of them all—for the time being.

At 220 yards, George Simpson of Ohio State held a clean cut margin, in addition to which the Buckeye Bullet, was less than a full stride behind Wykoff in the two times they met at 100 yards.

One of the familiar faces that will be missed most from the footballing ground New York this summer will be James McLarnin. The Celtic soccer has laid off for a few months, motoring and playing golf in the great Northwest while giving a sore right hand plenty of time to mend. A return match between Baby-face Jimmy and dusky Jack Thompson, the new welterweight champion, is a "natural" but it may not be "thrown" anywhere until September, if then.

South's—

(CONTINUED FROM PAGE 1)
"This spirit of paternalism was

not greatly changed by the Civil War," they reported. "Indeed, for a time it was necessary under the conditions that followed that struggle. The tradition of proprietary responsibility for dependents—a fine tradition in many respects—has survived in an environment of free labor with its assertion of the

right to self-determining.

"Much of the opposition to trade union movements, to laws limiting hours of labor for women and children, and to other regulatory measures, is in part an inheritance of this tradition of paternalism. Similar opposition has indeed been manifested by employers in other parts of the country, but in the South it has to some extent assumed the form of an opposing culture—a clash between an old civilization and a new one."

Law Compensation

The Southern industrial worker is receiving a compensation much below that of the country as a whole, the study revealed. While the eleven Southern states owned 12.6 per cent of the total number of manufacturing establishments of the United States and produced 10.2 per cent of the value of manufactured output, they employed 14 per cent of the total number of workers and paid them only 9.2 per cent of the aggregate wages.

The relatively low economic level in which the greater part of the white population of the South lived before the Civil War is still effective, the investigators found. Small farms then were very numerous, and did not yield the returns of Northern farms of similar size. This was attributed in the report to location, farming technique and lack of facilities for marketing surplus products.

European immigration has affected the South directly but little, the survey revealed, for reasons which were principally economic. The small farm of the South in the plantation era and for a long time afterward offered little in the way of gain to the prospective cultivator of soil from Europe, and the plantation required a considerable capital outlay. The manufacturing industries were for the most part in the North, and were of sufficient variety to enable the worker to take advantage of competing bids for employment.

Difference

A striking difference between the South and the remainder of the country was shown in comparisons of per capita wealth. While the eleven Southern states studied contained over 26 per cent of the country's population in 1890, they had only a little more than 13 per cent of its wealth. In 1922 the figures were slightly more favorable, but even then the states referred to had only 15 per cent of the wealth of the United States with more than 25 per cent of the population.

The per capita wealth in 1890 was \$519 for the South as against \$1,036 for the country as a whole, and 1922 the corresponding figures were \$1,747 and \$2,919.

"Much has been said," the report points out, "of the lack of skill on the part of the workers of the South as compared with those of the North and West. At least it has been made to show that the great difference in wage levels is partly attributable to this cause."

FIVE MEN DIE IN PLANE CRASH

HOME TOWN TALK

By Beddy

Informal conversations indicate at least a majority of the city commissioners, if not all of them, favor creating the Board of City Development, which is provided for under the city charter.

Whether they all would favor appropriating all of the money the charter allows is problematical. That sum would be, under present valuations, about \$6,500 annually derived from a tax of ten cents per \$100, on approximately \$6,500,000 in tax valuations.

The board, according to the charter, would consist of fifteen members, serving without pay, and would report regularly to the city commission. The charter reads that this board shall "never merge its identity with any other organization."

This cuts off any chance of a B. C. D. in Big Spring becoming a part of or a subsidiary to the Chamber of Commerce. Its functions, therefore, would very naturally be those of a quasi-governmental nature.

It is a foregone conclusion, we suppose, that in the event of creation of the B. C. D. it would immediately be besieged by requests for allotments of money for support of numerous enterprises, many of them useful. But \$6,500 would go just so far and no further and the board would be confronted with a knotty problem. When allotments had been made somebody would be sore because his organization did not get anything or as much as he thought it should.

The writer happens to be a director of the Chamber of Commerce but, even so, it is his opinion the B. C. D., if formed, should be composed of fifteen men selected entirely without regard to their connection or lack of connection with the Chamber of Commerce, as officers or directors; furthermore, the 15 B. C. D. members ought to be picked so that when you got them together you'd have an accurately representative cross-section of the city's life and activities.

Retail interests, wholesale interests, agriculture, railroad labor organizations, union labor crafts, oil refining and producing, education, and other factors in the community make-up ought all to be represented.

There are several things that we need a lot that are going begging because there is no fund which may be properly expended for the purpose.

It is very gratifying to learn that the city commission has a broad, yet conservative attitude toward enlarging and improving the fire department, and developing parks and play grounds.

A town may very easily be a good one in which to keep the wolf from the door and yet not be a good one in which to live.

That is, the town with more smokestacks than its neighbor may draw more permanent residents and possess more wholehearted unanimity in the things designed to improve the welfare of all the people simply because the neighboring city has provided the things that make life worth while.

Parks and playgrounds are among these things; good schools, good churches, good libraries, too.

The city's park system has been founded with the new City Park. There are other admirable sites for parks or playgrounds or both. We ought to develop them just as rapidly as practicable.

BOBBY TIED FOR LOW IN OPEN MEET

Shoots One Under Par On First Round

INTERLACHEN CLUB, MINNEAPOLIS, July 10 (AP)—Bobby Jones, the defending champion, was tied for the lead in the first round of the United States Open Golf tournament today by the Brooklyn sharpshooter, Wilfred (Whifey) Cox. Each had the same score of 34-37—71, one under par, and a one stroke lead for the time being over the rest of the field.

INTERLACHEN CLUB, MINNEAPOLIS, Minn., July 10. (AP)—Under a broiling hot sun, Bobby Jones shot a 71, one under par, for the first round of the National Open golf championship and assumed the lead in defense of his crown. Bobby was out in 37 and back in 37.

H. L. TALLEY SUCCEUMBS

Heart Attack Fatal To Drug Store Owner

Hiram Littleton Talley, 55, associated with his sons in the Crescent Drug Store, Crawford Hotel, died at 12:15 o'clock Thursday morning following a heart attack.

He died at his home, 511 East 15th street before medical attention could be obtained. A doctor and an Eberley ambulance rushed to his home, but arrived a few minutes after he had expired.

He is survived by his widow, Mrs. Ruth Elbise Talley, and two sons, Lewis Gregg and Littleton Adams Talley, all of Big Spring. One sister, Mrs. D. J. Taylor, Temple, and five brothers, W. E. Talley, Waco; Luther L. Talley, Iraan; Dr. L. R. Talley, J. B. Talley and W. R. Talley of Temple.

Funeral services had not been arranged this afternoon. They are pending arrival of his son, L. A. Talley, who was out of the city at the time of his father's death. All of the near relatives are expected to be here for the funeral rites. Eberly Funeral Home has charge of the body.

Mr. Talley died a few hours after complaining of being ill. He went home from the store late in the afternoon on account of being ill. He moved here from Electric Nov. 9, 1927, opening the Talley Drug store in the same location it now is in. He was a native of Temple.

Cotton Marketing Leader of Texas Talks to Hoover

WASHINGTON, July 10 (AP)—Inclusion of all Texas cotton farmers in board activities was recommended today to President Hoover by M. H. Wolfe, of Dallas, general manager of the Farmers Marketing Association of America. At present Farm Board loans are made only to cooperative associations receiving board approval.

Wolfe said on leaving the White House that there were two schools of cooperative marketing in Texas. He added that one, favored by the Farm Board, stressed collective marketing of cotton while the other believed in cooperative marketing with special stress on reasonable profit to the farmer. Wolfe said only two percent of Texas cotton is sold through cooperatives affiliated with the board and added the Farm Board's policy should be made broad enough to include the "other 98 per cent."

STERLING IS TARGET OF CANDIDATES

Highway Financing Is Big Issue As Race Gets Tight

By The Associated Press Candidates for governor were keeping the political trails hot over Texas Thursday, denouncing each other and in particular Ross S. Sterling of Houston, chairman of the Highway Commission and his proposed \$350,000,000 state road bond issue.

Just two weeks remained in which they might expound their arguments before the deluge of oratory would be stopped by the solemn scratching of pencils in voting booths.

Some were calling names of their opponents and some were not. Lieut. Gov. Barry Miller was among the group refraining from mentioning his opponents. However, in a speech last night at San Antonio, he did go so far as to say he was not running for governor "on the last presidential election and didn't give two whoops for Tammany Hall."

"I want to do something for the people of Texas," he said, suggesting the unemployment problem as something in which a governor of Texas might take a hand.

Miller planned to speak at Springtown at 2:30 p. m. today. Hot In San Antonio San Antonio, and in particular, a hotel lobby there, yesterday contained for a time potential causes for political combustion in the persons of former Governors James E. Ferguson and Miriam A. Ferguson, Senator Thomas B. Love and Earl B. Mayfield. The four mingled in the lobby a short time with their local supporters grouped around them.

Each spoke at mass meetings and over the radio, during a one-day period. Senator Love told his audience he would use the full force of the state to enforce the laws "in Bexar county or any other county." He reaffirmed his intention of bolting in the event Mrs. Ferguson was the democratic nominee this year. He was booked for our speeches today at Denton, with one tonight at the College of Industrial Arts.

Mayfield centered his fire on the candidacy of Sterling, in a radio address, and a speech before a mass meeting last night. He said he saw "the sinister hand of Standard Oil and big finance behind the Sterling candidacy, as well as behind the prison relocation proposal and the proposed statewide bond issue. He planned to speak at Lockhart this afternoon and at Austin tonight.

Young Vs. Sterling Jim Young of Kaufman charged Sterling, in a speech last night at Beaumont, with using the power of his office as chairman of the state highway commission "to gain an im-

INDUSTRIALISM MOVES SOUTH

(Editor's Note: This is the first of a series of articles based on a survey of "labor in the South" made by the Institute for Research in the Social Sciences of the University of Virginia.)

UNIVERSITY, Va., July 10. (AP)—Southward moves industrialism, until its teeming center draws downward toward the Dixie outposts of the Ohio and Potomac rivers.

This is the finding of the first scientific study completed by the Institute for Research in the Social Sciences at the University of Virginia. It is devoted to labor in the South, which it covers in all its connections. Agriculture, still dominant below the Mason and Dixon line, has lost ground before the steady growth of manufacturing, the study revealed, but the most striking comparison was found with the country as a whole. During the 47 years from 1850 to 1927, the value of manufactured products for the entire nation increased 1,170 per cent, but that for the eleven distinctly Southern states grew over 2,300 per cent, more than twice as much.

In less than one-fourth the total number of states, in approximate-

FORT WORTH GOOD WILL TOURISTS SEE BIG SPRING AND EAT FINE BARBECUE

Sixteen Fort Worth business men, on a seven-day tour of West Texas, spent Wednesday night in Big Spring and, while here, had their eyes opened wider than ever to the phenomenal growth and the encouraging future of the city.

From ring-side seats they viewed the stage that is Big Spring, for they were carried to the highest point on the brink of scenic Mountain and their eyes and ears directed by remarks of C. T. Watson, manager of the Chamber of Commerce, they learned about Big Spring.

"We have this or that—Watson would say, and point out the physical part of "this or that"—the railroad shops, the refineries, the hotels, and many other things. "This is a darned good town, one Fort Worth man was heard to tell another, privately. "You can count the towns on one hand that have the industries this one has," he added.

Another was interested in knowing how Big Spring got its name. He was told of the Big Spring story of the present city and of its interesting history. He, and his fellows, also were told that in their rooms at the Crawford they would find copies of the industrial survey compiled recently by the Chamber of Commerce. Its first chapter deals with the history of the city.

Another question was "are we on the cap rock?" It was explained that "over yonder" on the north side of town, the Great Staked Plains really begin. Then E. A. Kelley explained that scenic Mountain and its neighbors to the east and west, really constitute the extreme northern rim of the Edwards Plateau and that the plateau extends continuously south to San Antonio, where geological formations are similar to those in the hills fringing Big Spring.

Mr. Watson outlined Big Spring's famous five sources of income in a brief talk. The party had arrived at 7:25 p. m. at the Crawford hotel in its special motor bus. Rooms already had been arranged for by Mr. Watson in a few minutes the visitors had been fixed for the night and were in automobiles lined up on Scurry streets. The procession moved directly to scenic Drive. After the short session there the party went to City Park where a chicken barbecue was Big Spring, Nat Shiek et al was served in a pavilion that, apparently, had more to do with endearing Big Spring to Fort Worth than all the oratory that could have been dispensed.

Page, Mauldin Attend Meeting

George Page and J. L. Mauldin, motor bus line operators of Big Spring, attended a meeting of West Texas business men in Abilene Tuesday to discuss proposed schedule revisions. The object is to coordinate schedules of all trunk and short-haul lines in a manner calculated to afford more frequent, more rapid and better connective service to the public.

Coahoma Address of Thomason Schedule For Next Saturday

R. E. Thomason of El Paso, candidate for congress, announced Thursday that he would deliver campaign speeches in Coahoma Saturday, July 12, and in Colorado Saturday evening. He visited here last week and made a speech during the Jubilee. He reports much encouragement in all counties of the district.

Howard Intangible Railroad Values Total \$347,960

AUSTIN, July 10.—Howard county has intangible railroad valuations of \$347,960, on which state tax only will be levied, according to the report of Tax Commissioner F. C. Weinst. This embraces the intangible valuation placed upon the 32.43 miles of the Texas and Pacific Railway in Howard county.

D. W. Christian, Jr., Out of County Race

D. W. Christian Jr., who recently filed as a candidate for Democratic nomination for the office of tax collector of Howard county Thursday, through his father, D. W. Christian Sr., announced that he had withdrawn from the race. He did not make a detailed statement of his reasons nor did he announce any preference between the men remaining in the race for the newly created county office.

PROMINENT K. C. PARTY DESTROYED

Wing Gives Way, Explosion Heard Before Fall

ARANSAS PASS, Texas, July 10 (AP)—Five men, all from Kansas City, Mo., were killed when an airplane crashed four miles from here today.

The dead: Murat Boyle, Raymond Watson, Eugene Lynn, Roy Dellano, Gene Gabber.

KANSAS CITY, July 10 (AP)—Murat Boyle, killed when an airplane crashed near Aransas Pass, Texas today, was president of the Missouri State Bar Association and a member of the firm of Hoggatt & Boyle, insurance attorney.

The others killed were also prominent. Raymond Watson, attorney, was the son of I. W. Watson of the law firm of Watson, Gage and Hess. Roy J. Dellano was a prominent realtor of Kansas City. Gabbert was a flier.

Eugene M. Lynn was an accountant, president of the Kansas City Golf Association and club champion at Mission Hills here.

A sixth man, S. H. Durkin, also of Kansas City, who flew here with the party, was not in the plane at the time of the accident, having stayed at the port to fish a white longer.

Identification of the dead was made from baggage and papers in the wrecked plane. A wing to the plane was seen to give way and the craft crashed shortly afterwards, witnesses said. Gabber was piloting the plane. The plane fell from such an altitude that the bodies of the victims were pushed into the ground.

The party flew from Kansas City to Corpus Christi Sunday. The plane was left at the Corpus Christi airport and the men journeyed here by automobile. Today the pilot was sent back to Corpus Christi for the craft. The accident occurred a short time after the men had entered the craft and it had taken off from the airport here.

Rufus Hyde New Stanton Mentor

STANTON, July 10.—Announcement was made today by C. L. Sone, superintendent of schools, that Rufus Hyde, former Simmons university football star had been elected athletic coach of the Stanton high Bulldogs for the coming season, succeeding Briggs Irvin, resigned, who accepted a like position at Merkel.

Mr. Hyde comes highly recommended as a leader and it is expected that the Stanton athletic team will maintain their high standing in the district. He was captain and played quarter on the Cowboy squad last season.

R. E. Thomason, Candidate For Congress, Speaks Here

SEND BEST QUALIFIED HE PLEADS

El Paso Mayor Heard By Crowd At Jubilee

Declaring "the mud-slinging tactics of politicians is a thing of the past," pleading with Howard County voters to send the best qualified man to Washington as a representative of this, the 11th Congressional district, and discussing the issues as he saw them, Mayor R. E. Thomason, El Paso, candidate for Congress to succeed Claude Hodges, who is retiring spoke on the courthouse lawn Saturday afternoon. He appeared at Stanton after leaving here.

Woodward Introduces

Mr. Thomason was introduced by his friend, Garland A. Woodward, prominent Big Spring attorney. Mayor Thomason traced his career in public service work. It started when he was county attorney at Gainesville, extended through his time spent in the house of representatives, his term as speaker of the house, and the four years he has been mayor of El Paso where he moved 20 years ago.

Qualified "I believe," he declared, "I am qualified to go to Washington and attend to your affairs as no other candidate in this race can. My youthful opponent has had no experience. He hasn't even been a resident of this district for eight years. He left in 1922 and he will not have been back a year until election time. I am not running on personalities, I am not endeavoring to stir up sectional strife. I am running principles, not personalities, on merits and nothing else."

Tariff Mr. Thomason spent much of his time discussing the tariff, declaring in the beginning "there really are no issues in this campaign." He declared the producer is entitled to a fair share, and that there are inequalities in the present bill. He said he believed in providing a just and reasonable market and profit for the oil man, the farmer and the rancher.

"The principle," he said, "is right in the farm bill, and I'm going to help perfect it. There should be a tariff on raw products and oil produced in this district."

In speaking of the present labor situation he said statistics show four million out of employment in the United States. He declared during the last 10 years an annual average of more than 50,000 Mexicans have come into this country.

"Send me to congress," he told his audience, "and I'll do my best to make America safe for Americans."

Boggs and Haas Win Air Races

As hundreds of spectators looked on, T. G. Boggs, Ranger pilot, and Herbert Haas, San Angelo, vied for honors in the Big Spring Air Show Friday afternoon.

Boggs carried off honors in two events, both first places, and Haas placed in three, including two seconds and one first.

Boggs captured first prize of \$50 in the twenty-five mile race for planes of 110 h. p. and less, with J. M. McConaughy of Dallas, second.

In the 25 mile race for planes of 170 horsepower and less, I. M. McConaughy took first place, carrying with it a \$75 prize, and Haas placed second to win a \$25 premium.

Haas placed first in the spot landing contest to win \$35, with Jimmy Walker Cromwell Airlines' pilot taking second place honors.

BIG FIFTY-FOUR WINS FINAL HEAT IN RACE OF TERRAPINS

Big Fifty-Four, a terrapin that believes, evidently, it is better to start late than never—did just that and won \$100 for Taylor Anderson Saturday night in the final race of the Terrapin Derby.

As other terrapins left their moorings Big 54 rested. Others traveled but he homesteaded. Then he had a change of mind and started touring. He crept past one, then another, and finally crossed the line. The time for the 35 foot race was 1:07.

"Gold Digger," favorite, owned by Lloyd Barker, had misgivings about crossing a line, so he reached it first, and thought it just as well to walk around with the line than cross over.

His logical line of reasoning cost his owner the rich first prize.

T. T.-2, the pride and job of D. L. Reed and Frank Boyle, won the second heat in thirty one seconds, but lost out in the final heat.

Summer Frocks For Teen Age Girls

Saddest Season Brings Swankiest Clothes

Shorter and Have Normal Waistline

Proper clothes for young girls: When they are at the scrawny age (it'll take a wise mother to recognize her darling at this stage) and are too old to wear sox but too young to wear the sophisticated styles of today, they present a problem to any mother.

Often they are allowed to dress far past their age and yet again they are kept in childish clothes and curls until they are too shy to mingle properly with their other young people. The first evil (we repeat, evil) is practiced gaily and daily here. Youngsters just in their teens shock our sense of the fitness of things (and we thought we were unshockable!) until we have taken to our soul the problem of taking to task their mothers.

However, never let it be said that we are always criticizing in a destructive manner. Here are a few simple little style hints straight from Paris to help you with your problem. Young girls' summer frocks in Paris are nearly as short as those in vogue a few ears ago. Youth alone, it seems, now has the right to leave off trailing skirts until night falls, when she puts them on just like her big sister or mother. And they, too, are just a bit shorter.

Wider shoulders and the normal waistline are two of the main points of young girls' frocks this summer, with the skirts almost tight to the knees and flaring out from there. Jane Regny is making a charming young girls' frock in jonquil-colored handkerchief linen, inspired by the little aprons of the Dutch peasants, with little wings on the shoulders. It has a soft, close-fitting belt and the skirt is flared from the waistline at the side.

Another daytime frock comes in navy-blue taffeta with a sleeveless waist of white, lace-trimmed silk jersey. The jacket has a double ruffle below the waist and double cuffs on the straight sleeves.

Sensible and essentially youthful is a white tricot frock worn with a blue and white tricot jacket which has its shoulder-line widened by a square cape that reaches to the elbows at the sides. There is a belt of blue leather at the waistline. For evening there is a charmingly youthful frock for the young girl in white crepe remain with velvet ribbon for trimming. The skirt is shirred at the waistline in front and back, repeating the fullness of the waist and is cut circular from the curved yoke at the hips. A girle is tied in a bow at the left side.

AND JUST IN PASSING Clara Hood Regel, Fashionist of the Dallas Morning News, who is in the city now covering the Oil Men's Jubilee for her paper, deserves our passing attention and commendation.

Mrs. Regel is most outstanding in her field of women's fashions. She was chosen by the News to fill the position she holds because of her intense vitality, her capacity for fast, prolonged and excellent work and her knowledge of her subject.

Every fall and spring the News sends Mrs. Regel to New York where she spends two weeks in closest contact with the best style sources in the United States. She will leave for her fall trip within the month.

Mrs. Regel, many may remember, is not a stranger to Big Spring. She taught here at the Central Ward School before her marriage to John

Latest Bedspreads

There's a spread appropriate for every style of bed.

BY MARGERY TAYLOR Bedspreads this summer are not going to be outshining in the decorative color chorus.

All the tints of the rainbow seem to be represented, and in all the summer fabrics—chintzes, voiles, moires and satins. The question of ensemble is easily answered by bedspreads which match draperies and dresser scarves.

There are to be de jure spreads and quilts, for instance, in tones of garnet or green. With the garnet pink sheets may be used, and green with green.

You may have matching draperies if you prefer, but you will find dainty voile curtains edged with red or green ball fringe very quaint.

Chintz spreads, of course, are as popular as ever. The latest come in charming little all-over patterns, usually made up with ruffles or bands of contrasting color.

Among the most attractive of the new chintzes is one with a diamond

pattern, each space holding a prim little flower.

The four-poster bed, of course, demands candlewick coverlets and patchwork or applique quilts. Candlewick is very summery and asks for little attention. On either unbleached muslin or colored grounds, they come tufted in red, blue, green, pink and gold.

For the guest bedroom, organdie sets in plain colors or painted, are hospitable. Colored sheets under these transparent spreads are a refreshingly cool sight.

For the rooms of the males of the family, India prints for bedspreads are especially favored with approval.

The rayons offer many attractions. Moires are especially smart this summer.

But decorative bedspreads need be limited only by our own skill and ingenuity. Exploration in the draper and dress goods departments will probably be rewarded with treasures in just the right cottons, silks or rayons.

There are three bedrooms on the second floor, besides two bathrooms and a dressing room off the owner's room. The living room on the first floor is one of the most cheerful in the house, facing as it does on both front and rear.

Location of the dining room at the rear gives privacy and allows plenty of light and air. The rear porch is convenient to both living room and dining room and meals may be had there conveniently in warm weather.

The lot for this home should be at least 50 by 100 feet, and large if possible. The cost is between \$8,000 and \$10,000.

No Corners Here

This is a house without corners, so designed that mother will not have to tell daughter to run the vacuum cleaner as close to the corners as possible. In design it is one of the so-called modern types, but really is an adaptation of an old style to present-day needs.

The plan is very compact and economical to build. Either concrete or brick may be used. If concrete is the material chosen it should be honed to a smooth finish. If the brick is used it should be painted white. The brick posts at the front gate also should be white to harmonize with the general color scheme.

FARMERS CALL MASS MEETING TO PROTEST MILK ORDINANCE

At a meeting Saturday afternoon in the county court room of about forty men, most of them farmers of the Big Spring vicinity, it was decided to call a mass meeting or next Saturday at 2:30 p. m. in the county court room of all farmers interested in selling milk and butter in Big Spring.

The purpose of the meeting, it was stated, was to discuss the problem of meeting the new city milk ordinance affecting "our home products."

"We must have some concessions or drop this sideline to our farming business," said a statement issued following the meeting by Barney Cline, who was its chairman.

The informal discussion held Saturday afternoon centered both around the milk ordinance and in protests at refusal of the city manager to allow cards advertising the meeting to be distributed on the streets Saturday. There is a city ordinance prohibiting the distribution of hand bills and circulars of various types downtown.

The chief items in the ordinance to which those at the meeting expressed opposition were several fees, for license to sell milk in the city and for health examination of cows and attendants.

A few of those attending were bitter in their denunciation of the city commission, declaring the ordinance was so framed as to crowd the little man and favor the big business man in the dairy business.

COLORADO PASSES IT COLORADO, Texas, July 5 (UP)—C. M. Everett, a graduate of Texas Agricultural and Mechanical College, whose home is in Houston, has been employed by the Colorado city council as sanitarian, a place made necessary by adoption of a standard milk ordinance, according to Mayor H. L. Hutchinson.

MISHAP AT SHOW MARS THE FINALE

Fireworks Go Awry; One Man Sent To Hospital

The First Annual Oil Men's Jubilee was brought to a close Saturday night with a final ball at the Crawford Hotel ending the three days of entertainment.

The Old Gray Mare's Colts played a final concert on the courthouse square as thousands of Saturday night visitors crowded the streets.

Hundreds attended the dance at the Crawford on the final night of the Jubilee.

The jubilee entertainment at the grounds west of the city was brought to an abrupt and hurried close as the sham battle "Over the Top" was halted when fireworks exploded in the wrong direction, sending one spectator to a hospital and slightly injuring several others.

Melvin Calley, 22, Cosden Refinery employe, was in the Big Spring Hospital today as a result of the accident. He received a badly bruised side when hit by a heavy missile. He was not critically injured.

A number of boys had their clothing torn by the fireworks when they showed the reserved seats.

Finals in the Terrapin derby were held Saturday night with Big 54, winning the last heat.

Hundreds attended the Fourth of July activities, which included the Air Show and baseball game in the afternoon, fireworks display and dancing at the jubilee grounds, and other forms of frolicking and entertainment.

Class Has Party For Its Protege

Honoring the first birthday of little Jacqueline Regdale, special ward of the Busy Bee Class of the Methodist Church, the members met yesterday afternoon in a social gathering.

Two classes, the Willie Knowles and the Busy Bee, presented the baby with a new high chair and the class gave presents as individuals as well.

The baby's picture was taken and if it "turns out well" will be printed in some near future issue of the Herald. The class has been taking care of little Jacqueline for almost a year.

Punch and cake was served to the following members of the class and visitors: Mrs. Regdale and Mrs. W. G. Bailey; Billy Eva Jean, Virginia and Jacqueline Regdale and Misses LaVale Barbee, Kathryn Smith, Fern Lee Simpson, Lucille La Boff, Mae Olson Pierce, Christine Farrar, Anna Lee Haley, Martha Ann Shebourne, Ruby Smith, Gertrude Martin, Georgia

ACCRUED INTEREST TO BE PAID

All of March 6 Issues Cared for By Transaction

The City of Big Spring has just completed negotiations which led to sale of the unpaid portion of three municipal bond issues voted by the citizenship March 6. The bonds brought par and accrued interest since April 15, it was announced Monday.

Sold \$82,000 Brown-Crummer of Wichita, Kansas, bought the entire waterworks issue, \$115,000; the entire street improvement (viaduct) issue \$20,000 and \$48,000 of the \$130,000 sewer improvement issue.

The remainder of the sewer bonds \$82,000, had been sold to the contractor for part of the extension program contracted for under provisions of the election order which led to approval of the issue by the voters. This part of the sewer issue also brought par and accrued interest.

The sale ends a prolonged period of negotiations, including two formal openings of bids, all of which were refused due to sub par and otherwise unacceptable proposals.

Sale of the bonds clears the way for more rapid completion of the various improvements proposed during the campaign which led to overwhelming victory for the issue.

The Benton street viaduct, already being built, will be paid for jointly by the Texas & Pacific Railway Company, Howard county and the city of Big Spring, the latter paying 15 per cent and out of proceeds of the \$20,000 street improvement bond issue.

Sewer Lines The sewer improvement program, including the laying of many miles of collection lines within the city, a new and larger outfall line from the collection system to the disposal plant, and a new sewerage disposal plant already has been contracted for. The large main which will lead through the lowest part of Jones Valley was being dug Monday morning.

This work will continue southward through Lake View and Edwards Heights additions, thence eastward across the southern portion of the residential section, thence northward through Highland Park and Cole & Strayhorn additions toward the railway reservation and the outfall line.

Plans and specifications now are being drawn by the city manager's office for two new water reservoirs: a million-gallon reservoir south of town beside the present one and a 220,000-gallon reservoir on their hill immediately south of Edwards Heights. Contract for construction of these will be let in the near future.

Considerable additional waterworks enlargements will be done from proceeds of the waterworks improvement bond issue.

Mrs. E. Holland visited her sister, Mrs. S. L. Lockhart near Luther last week, staying several days.

Mr. and Mrs. Ross Hightower and children visited Mrs. Hightower's sister and family, Mrs. Clara Hill, Sunday.

W. H. Robinson and wife spent most of last Friday with Walter Robinson and family. Mr. W. H. Robinson is slowly recovering from a recent illness.

Mrs. J. A. Shirley and Mrs. H. L. Shirley are visiting Mrs. S. L. Lockhart.

The Cosden Refinery enlargements are being built rapidly.

J. C. Brown and wife spent Sunday night with Mrs. Browns mother and family, Mr. and Mrs. Robert Hull.

The sandstorm of the 25th killed much cotton and as it is too dry and too late to replant the result will be a considerable reduction in acreage this year.

Walter Robinson sold Louie Hutto to a saddle pony for his niece, Don Hutto, last week.

Several of the 4-H club members of this community were present at the picnic given for all 4-H members of the county last Friday. The following attended from here: Henry Robinson, R. L. Digney, Woodrow Robinson, Mildred Patterson, Marie Robinson, Irene Digney, Ara Mae Herbert and Esie Robinson.

Mr. and Mrs. Charles Robinson and family went on a fishing trip last week down on the Concho.

Rev. J. O. Heath will preach at Robinson chapel church Saturday evening, Sunday morning and Sunday evening. The public is invited to attend all three services.

FT. WORTH MOTORCADE TO BE HERE

Scenic Drive Trip and Barbecue On Program

Arrangements for entertaining the Fort Worth chamber of commerce motorcade, which will arrive here Wednesday at 7 p. m. to spend the night, were made Saturday at a meeting of the public relations committee of the chamber.

Edwin A. Kelley, first vice president will be master of ceremonies at a chicken barbecue at City Park, which will honor the visitors. Dr. E. O. Ellington, president, will be out of the city.

Nat Shick was made chairman of the refreshments committee. It was decided to sell 100 tickets at \$1 each to the chicken barbecue to defray expenses of entertaining the visitors. A committee was named to handle the ticket sale. It is: J. E. Kuykendall, Ben Cole, Buck Richardson, H. C. Timmons, L. W. Croft, H. B. Dunnagan.

Tickets may be procured or reserved by calling the chamber of commerce.

Business men especially were asked to buy tickets and attend the barbecue, which will be prepared to care for 100 in addition to the visitors.

Upon arrival here the motorcade will be taken to the top of scenic mountain for a view of the city and there will be told of some of her resources. The party then will go to City Park for the chicken barbecue.

State Ticket Longer Than Ever, With Fifty Names; Hundreds Run For District Officers In Texas

DALLAS, Texas, July 9.—Candidates for places on the Democratic primary ticket this year are more numerous than in any previous year of which the Texas Election Bureau has records. The State ticket contains fifty names against the previous high mark of forty-one set in 1924. Only one candidate is unopposed, Mr. Marrs for State Superintendent of Public Instruction, whereas heretofore there have been from two to four. There were only twenty-five names on the State ticket in 1920. The number of candidates for Governor sets a new high mark for that office, more than in 1924. Candidates for district offices also are more numerous than usual.

The Republican State primary ticket contains twenty-six names against thirteen in 1926. There are yet many blank places for district candidates. The Republicans held no primary election in 1929.

Following is a complete list of candidates for State and district offices on which the bureau will gather returns, Democratic and Republican, as reported by bureau correspondents:

MEXICANS

ROB FRUIT STAND MAN

Helps Companion Fix Flat, Another Grabs Cash While he helped a Mexican to "repair" his car, J. D. Grice of the Grice and Reese Fruit Stand, Johnson and Eleventh streets, was robbed by another Mexican of his money box containing cash and an ice book at 8 o'clock last night. According to the proprietor of the stand, the Mexican stopped his car near the stand and asked for a lantern. While he held the lantern the Mexican worked with his automobile. Another Mexican appeared from around the side of the stand, snatched the money box and ran. The other Mexican, got in his car and drove away. About \$15 in cash was taken. The ice book, valued at \$27, was found this morning in the money box, which had been discarded near the stand. City policemen investigated a call to the Southern Ice and Utilities sub station, Main street, last night when it was reported two persons were seen leaving the place. Nothing was reported missing by officials of the company.

Kicks 'In Laws' Out; Man Fines Self Five Spot

DALLAS, July 9 (INS).—Charged with forcibly ejecting "in-laws" from his home, a man brought to trial in city court here recently, became his own judge and fined himself \$5—but said it should have been \$100. The man was brought before Judge Muse on a charge of disturbing the peace. "What have you done to disturb the peace," the court asked. "Well, Judge, it was like this. My wife's people have been visiting us for the past three weeks and I got tired of them and threw them out." After several minutes required to restore order in the room, Judge Muse asked the man to assess his own fine, according to the satisfaction he derived from his act. The defendant hesitated a moment, and said: "Well, if I could afford it I would fine myself \$100, but I only have \$5 so I guess that will have to do."

ESCAPED CONVICT IS HELD HERE

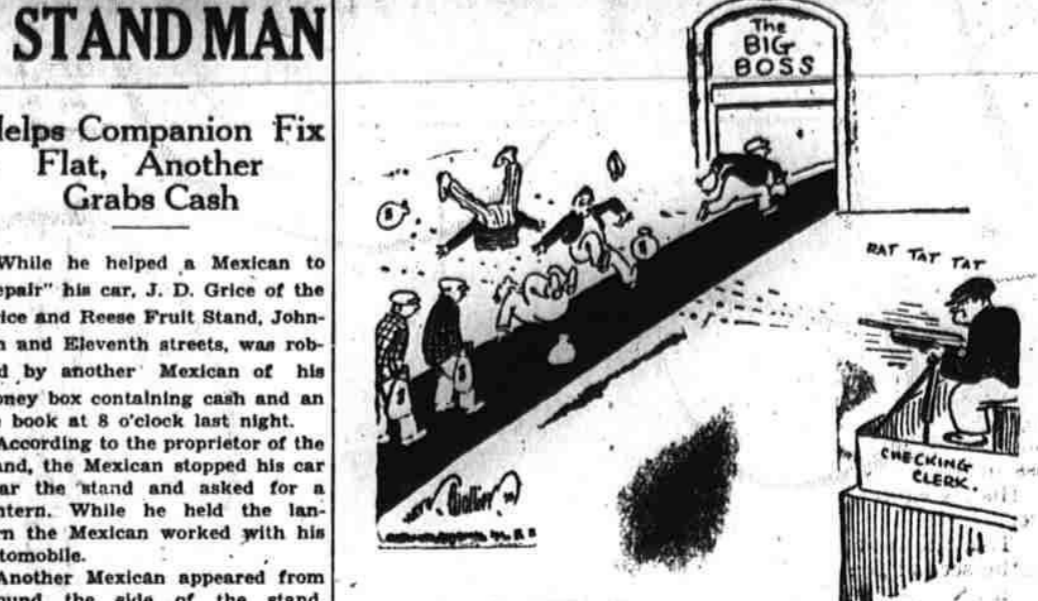

Partner Served Sentence, Ciscoan Tells Officers Wm. T. Frye, Cisco, escaped convict, and J. L. Wilson, Cisco, ex-convict, were arrested and lodged in jail here this morning by Deputies Andrew Merrick and D. D. Dunn. Frye, who with Wilson, went to the penitentiary from Shackelford county, admitted after his arrest in a pasture north of the Corder refinery, that he "outran the dogs" in March 1929, when he left the Ramsey state prison farm. They men, who gave their ages as 24, said they were given two years each on a charge of cattle theft. Wilson declared he served his sentence. Frye said he served eight months of his two year sentence before he managed to flee from the farm. The two were arrested here several days ago and said fines for being drunk. Monday members of the Sheriff's department received word from Eastland Frye was an escaped convict. The actual arrest of the men was made by Merrick. They were seated in the pasture when Merrick slipped behind them, ordering them to "throw up your hands." He had Frye handcuffed by Wilson and they were brought to the city. Two pints of liquor were found in Frye's possession when the arrest was made, said the deputies. Wilson will be detained pending information from authorities. Penitentiary officials will be notified of Frye's arrest.

Chicago Gangsters Kill Within Own Families, Will Rogers Says; Crime Low For City So Large

They have a very elaborate system of checking. By Will Rogers Well all I know is just what I read in the papers, and what I see as I prow the hinterlands. Now lets get this Chicago thing straightened out. I was out there for a whole week right here lately, and talked with everybody that I thought might know something of the real condition as it is out there. Course it was kinder like Politics, you have to discount about 90 per cent of what each side says. But the main thing we did find out, and that was that as far as crime in proportion to its population, why it has less than anybodys town. There has been lots of men killed here, but they have been gangsters, and 90 per cent of them have been killed by their own Gang, not by a rival Gang, its been by their own, for some double crossing and holding out on their bosses. You see they have very elaborate systems of checking up on you, the same as any big business has of checking up on their clerks or employees, and the minute they discover that you are not handing over all the "loaf" or that you might be dealing with some rival enterprise, why they what is called, "Put you on the spot," that means you are sentenced, and if your last insurance is not paid, it would be well to look into it, for you are "not going to be with us long." But if you go along and do your work and turn in all that's coming, why you have nothing to fear, and may get a raise, the same as in any other business. Crookedness Is Old You see lots of people think that all this Racketeering and Bootlegging and corruption is just a fly by night affair, run on a alshod haphazard way. Well you never were as old as crookedness. It started away back when Eve used some political and sex influence on poor old Dumb Adam to get him to gnaw on a forbidden Apple. Old Cain slew Abel, or vice versa, I dont know which. But anyhow it was an argument over the Spils. So you see on account of its age its not a fly by night industry. Meanness has always been better organized and conducted than righteousness. So these Lads here are really of an old and ancient (and sometimes) honorable profession. Chicago has no more cussedness than any other City but its been better advertised. They have never lacked for newspaper space. If out of town papers wouldnt supply it why their own would. Naturally there is different Gangs, as there is different groups in every line. People are going to drink, and somebody has to supply it to them. People are going to gamble, and somebody has to prepare them a place to do it. I was of course in the early days back in 1919 or 20 a small business, but it grew and grew far beyond even the expectations of its most optimistic boosters, till today Bootlegging and Racketeering of various sorts are not a business, its an industry. There is no such thing as a little Bootlegger, no more than there is a little Banker. The day of the little Banker in a small town is past. He is a Member of a chain. He is a subsidiary of some big Concern. Well thats what this is. The little fellow cant live in this business on his own, he has to work for some one else. He cant go out and buy his goods and peddle it to you on his own. No he simply makes delivery, and its for the chain. He is simply an order clerk, or delivery man, or one of dozens or other menial work hands in this great and intricate industry. Its not done by some little fellow with a few hundred dollars capital, its done by Financiers. It takes capital to invest to insure the safe delivery of Liquor into Chicago and distribute it around that it does for to do the same thing with your milk, your bread or even your meat. They have to control ships. Aeroplanes, Trucks by the hundred. High wages. Protection Costly Then look at an expenditure that none of the other basic commodities have to meet, and that is Protection. Talk about a Tariff wall! Why the tariff is only collected by

OIL BRIEFS

OKLAHOMA CITY, July 9 (UP)—Striking an increased gas flow at 6,634 feet, in the Simpson sand, Prairie Oil and Gas and T. B. Slick No. 1 Dill, C SE NW 17-13 W, north of Britton, was flowing an estimated six million feet of wet gas today. Gasoline content is estimated as high as 15 per cent. This virtually proves a new field for Oklahoma county, since this flow of gas can be termed a commercial well. It is expected the well will be carried deeper into the Simpson and Wilcox series where big production is almost assured.

City Manager Gives Position Relative To Candidates Cards

City officials have made no effort to stop an age-old custom—that of distributing small announcement cards among voters on behalf of candidates for election to various precinct and county offices—and had not mentioned that the practice could be brought under terms of an ordinance prohibiting distribution on the streets of printed matter until the matter was mentioned by a local printer, said City Manager V. R. Smitham Wednesday morning. Mr. Smitham said he did not feel distinction of candidates cards would cause any undue littering of the sidewalks and streets. Therefore, he added, the city officers have not been instructed to interfere with the practice. The city manager said he had been informed of criticism aimed at himself from certain quarters since he refused Saturday to allow cards advertising a mass meeting of those opposed to the city milk ordinance, and that this criticism had been shifted from his action of Saturday to statements he would prohibit distribution of candidates cards. The latter matter was not broached by himself but by others, he added.

Lindbergh Baby Is Named for Father

ENGLEWOOD, N. J., July 9 (UP)—The name is Charles Augustus Lindbergh Jr. A young man who was born June 22 and has thrived marvelously for more than two weeks without a name, now has one. A statement issued from the home of his grandfather, Ambassador Dwight W. Morrow, where he was born, said that the baby's parents had decided to call him after his father. The announcement ended much speculation.

Midway Building Sold To Merrick

Howard County 4-H Boys Start Poultry Elimination Contest

Howard County 4-H Club boys at 9 o'clock today started elimination contests in the state poultry judging contests. Approximately 35 boys, under the direction of J. V. Bush, county agent, will be in the county contest to decide which boys will be members of a team to go to College Station. Three boys will be selected at the end of the county contest. These will go to College Station for a short course at Texas Agricultural & Mechanical College, and participate in the state contest. Expenses will be paid. The course lasts from July 28 to August 1. The judging of poultry started on the Dr. Wolf farm, west of Big Spring. There are 1,237 farms in what is called "greater Atlanta" only minor bruises and abrasions to his body. He received medical attention at the Big Spring Hospital and was dismissed.

Babe Benched for Tilt with Umpire

NEW YORK, July 9 (UP)—Babe Ruth received a three day suspension today as the result of yesterday's altercation with Umpire Brick Owens. The Babe protested violently about the umpire's decision on a called third strike against Charley Ruffing in the first game of yesterday's double header and was ordered from the field. Notice of the suspension came from President E. S. Barnard of the American League after he had received the umpire's report.

doubt there are many newspaper readers who wonder just what it is that is commonly known rather vaguely as "news."

"News is synthetic food, delivered for the purpose of satisfying a great human hunger."

"News is a revelation of things which a few people know about, made for the benefit of millions who would not otherwise know about those things."

"News is an unrhymed essay on life. It is poetry without form and art without artistic intention."

"News is a record of the good and the bad, but hardly ever of the indifferent."

"News is an implement wielded by a profession which is no respecter of persons, but tries to be a respecter of human conventions, according to the standards of a given time."

He might have concluded his definition with the confession that so vast an institution is "news" that it is beyond the power of human mind to define it.

Perhaps the great body of newspaper readers will choose to define it as that which some want with their breakfast rolls and others want on the ride to and from work, which is a welcome friend at the evening fireside and which holds a universal appeal for the literate.

A NICE GIRL COMES TO TOWN

SYNOPSIS: Because she loves him, Mary Lou Leslie agrees to become engaged temporarily to Tony Titherington so he may gain his wealthy aunt's financial backing on a flight around the world. She refused to finance the flight unless Tony won Mary Lou's hand, and the two are playing a game of make-believe. Mary Lou previously had been in love with Brynmor Whitmore, but their romance apparently was shattered following a series of unpleasantities. Tony leaves on his flight, and Mary Lou, her morale broken by his departure, continues to work in the London gown shop of her cousin, Jay Jerome. She hasn't seen Brynmor for some time.

Chapter 20 MISSING

Brynmor, strolling down Fleet street on his way to lunch, saw a white-faced ghost of Mary Lou dash directly out of a newspaper office. His surprise at her agitation banished his resolution to have nothing more to do with her. Besides, even with a pale face and frightened eyes, she looked pretty. "Hello, how are you, Mary Lou?" Mary Lou stared blankly at him. Then she blurted out: "It's too dreadful, isn't it? But of course nothing can be done. That's the awful part of it."

Jay urged her to lie down in the sitting room and rest.

"She was too nervous to rest, however. She closed her eyes, but visions haunted her—visions of Gay Girl crashing to earth and Tony dragging himself from the wreckage, his face deathly white, his lips bloodless—"

Time after time she tried to sleep, but that same picture always returned, more vivid with each attempt she made to forget it.

"I wish I'd never seen a movie," she finally exclaimed aloud in exasperation. "It makes you visualize things like this so clearly!"

"Quite right, my dear," came a gruff voice from the doorway. Mary Lou sprang up from the couch. "Why, Miss Titherington! It's so nice to see you!"

"They were an incongruous pair—Mary Lou in her smart grey flannel dress with white collar, and Tony's aunt in clothes that were at least ten years out of style. Yet they were drawn together by a mutual bond—their love of Tony, although Miss Titherington never would have admitted it.

"Don't disturb yourself," she said, sitting down beside Mary Lou. "Mrs. Jerome said you were lying down in here. I bet you're fagged out worrying over this last foolishness of that nephew of mine. Fancy setting out on such a mad adventure when he had a sweet girl like you to keep him at home! What good will it do him? That's what I ask myself."

"Drat the thoughtless young fool!" she continued. "I didn't know a thing about it until yesterday. I never read the papers. Who Who wants to know who's been murdered? Mr. Moore, the vicar, was passing as I worked in the rock garden. 'So sorry to hear about your nephew, Miss Titherington, the red-faced old fossil called over the fence. 'What's this about my nephew?' I asked. He seemed surprised. 'Why,' he said, 'it appears they haven't been able to get in touch with him since his plane passed over Port Darwin some days ago. 'Nonsense!' I said. But he went to considerable pains to assure me it was so. After he'd gone I sent Mrs. Fawcett out to buy a paper."

"Abruptly Miss Titherington rose to her feet. 'Well, I must be getting back. Mrs. Fawcett will wonder what has become of me. Let me know when you want to spend a day in the country.'"

"She bent over and kissed Mary Lou on the cheek, 'Chin up, my dear,' and departed in haste. Some time later Jay came in, flooding the room in light. Her eyes were worried. In her hands she held the last edition of an evening paper.

Mary Lou looked up, afraid to face the inevitable disappointment. "Any news?" Jay nodded. Mary Lou wet her lips. "Good news?" Jay shook her head. "No, dear. But I thought you'd better know. Here's the paper."

Mary Lou took it from her. The headlines leaped out to her— YOUNG AIRMAN MISSING All Attempts to Reach Tony Titherington by Wireless Fail—Search Started by Australian Air Force She read no more. The paper slid to the floor.

"Mary Lou—don't look like that!" "Oh, Jay, if you only knew—I love him so."

Jay's own throat was choked. "I do know, dear."

There was a knock on the door. "Some flowers for Miss Leslie." It was the assistant's ails girl. Jay took them in. "Look, Mary Lou, aren't they lovely?"

Mary Lou looked at them disinterestedly. Brynmor had sent them. "That's funny," she murmured. "He's never sent me flowers before."

On his card he had written: "I am sorry—you know I am." Mary Lou read it twice. Then, with an angry gesture, she flung them on the floor.

"No funeral wreaths yet, thanks," she cried in a choked voice. "Tony is safe. I know he is. I refuse to believe that anything serious has happened to him!"

Why An Elective Commission?

FROM some quarters, notably those of James E. Ferguson, quite a lot of propaganda has been disseminated of late in favor of changing the method of choosing the state highway commissioner.

Mr. Ferguson, and others, were perfectly satisfied with having the three commissioners appointed so long as they had a voice in the appointing. But, having made such an abominable mess of that privilege they know full well they'll never have another chance, and so are attempting to line up their friends in various parts of the state for a campaign of prejudice that they hope will result in changing the method of selecting these officials.

If Texas had not obtained an efficient highway commission through the wise appointments made by Governor Moody when he first went into office conditions within the state would now be so bad as to challenge the very existence of the government itself.

Would you favor electing the justices of the United States supreme court or the secretary of the treasury or the secretary of state in Washington?

Those officials are selected purely on a basis of their personal qualifications for filling the offices. They are not selected because they had more money to spend in campaigns or more prejudicial matter with which to make campaign, thunder before summertime political picnic crowds.

The federal government does not elect but appoints the men who manage the bureau of public roads. Neither is the postmaster general elected, but appointed.

The state highway commission must handle more money than all the other departments together. It is of prime importance that business men, not demagogues, be placed on that commission.

There will be times, of course, when the governor will either be fooled in a man or else owe the wrong man a political debt so great he will not keep him off the commission. But, as has been demonstrated in the not so remote past, there are plenty of ways to rid the state of undesirable situations in the highway department.

When the present governor went into office one of the most influential of the men who had supported him for election demanded that a certain man of his home town be put on the highway commission. The governor, believing this man not qualified, refused. The result was that a great newspaper that had staunchly supported the governor, turned right about face and threw all its influence against him. The appointment Mr. Moody did make has been demonstrated as a wise one.

Quite often isolated communities or counties find fault with the highway commission because a road was designated along this section, instead of the one on the other side of the hill or creek. Then the commission is accused of being partial. But, just let us elect those commissioners and you'll run into more partiality, more swapping of roads for votes than you ever could imagine.

HOWARD COUNTY FINANCIAL CONDITION HEALTHY, JUNE 30 TREASURER'S REPORT SHOWS

Financial conditions of Howard county are extremely healthful, the report of the county treasurer, E. G. Towler, for the month of June discloses.

The county tax rate was reduced for this year's collections from \$1.44 to \$1.20 and members of the commissioners court declare prospects are very favorable that this will be further reduced, perhaps to \$1.05 for the coming year's collections.

The county is on a strictly cash basis. The general fund contained \$27,961.45 June 30. The Howard county road bond fund, supported by a 4-cent tax levy to retire the \$100,000 county road bond issue of 1912, contained \$182,350 June 30.

This small balance does not, however, show the true condition of that fund for it owns no less than \$46,000 in securities bearing 5-1/2 per cent, viz: Winkler county road bonds, \$29,000; Howard county court house and jail bonds, \$4,000; Midway common school district bonds, \$13,000.

The Winkler county road bonds owned by the road bond fund will mature April 15, 1932. This county's bond issue for which the fund owning the Winkler securities is maintained, may be retired March 1, 1932, according to an option held by the county.

Other Funds The jury fund, supported by a 15-cent tax levy, collected \$67.63 during June and totaled \$5,273.53 June 30.

The road and bridge fund, supported by a 13-cent levy, collected \$393.91 during June and at the end of the month contained a total of \$14,379.94.

The Howard county special road bond fund, which is to retire the \$300,000 serial bond issue voted in 1920, collected \$61.40 during June and contained \$27,716.84 at the end of the month.

The highway fund, which simply is a division of the road and bridge fund contained \$33,549.91 June 30. This fund received all monies from the state motor vehicle registration fees which go to the county and is, therefore, not created from county taxes.

The jail warrant fund, created to retire warrants issued to finance construction of new jail cells several years ago, received \$6.14 during June and contained \$3,080.72 statement might send him to the penitentiary.

"Him," referred to the man who had taken her away from her home in Belton.

"Him" was the man that had taken her in a "pretty good old Ford" across two state lines.

Five months ago she met the 30-year-old laborer in Belton. She went with him "because he said he wanted to marry me."

The girl, who steadfastly maintained she is 19 years of age, but who looks as if she is barely sixteen, told of how she had been compelled to assume the name of her "man's" first wife; how she, just a girl, had mothered the three children; and how she "had lived with him as man and wife."

two names." And under two names he was booked by the city police department—one, supposed to be his real name, the other an alias.

"I don't know where he went a night. He didn't drink and he didn't smoke. I don't know anything about him. He was a day laborer. But he did me wrong."

The babies, in all probability, will be sent to the accused man's parents in Breckenridge. The girl will be sent home to the "can't face."

Prizes for Pies Mrs. D. W. Jones and Mrs. Hambrick Winners

So many people have asked us when we are going to offer a prize for the best pie recipe that we are now breaking down and asking for it.

They promised to favor us with their favorite one, their husband's favorite one and the children's favorite one. In fact if we get all of the pie recipes that have been threatened on us we will start a pie factory.

So without hesitation and at this minute sit down and dash off your best pie recipe. (Please write clearly in your excitement, ladies.) We will give a prize of \$1.50 for the two best pie recipes sent in within the next week.

To return to the moment, however, we must announce the winners for Jell-O desserts. Mrs. D. W. Jones (who cooks for a hobby) obliged with some most interesting ones this morning. She is undoubtedly due a prize. The other, however, was much harder to choose out of the lot.

Here are the recipes:

LOG CABIN CUSTARD Mrs. D. W. Jones, Monahan, Tex. 1 cup Log Cabin Maple syrup, 1 cup walnuts, chopped fine, 6 marshmallows, 6 candied cherries.

1 package Orange Jell-O, 1 cup boiling water. Dissolve gelatin in boiling water and stir until thoroughly dissolved. Then add the syrup and chill. Pat Murphy Speaks Here

E. E. (Pat) Murphy, San Angelo, attorney and candidate for Congress to succeed Hon. Claud Hudspeth, who has retired, made his second campaign speech in Big Spring before several hundred people at the Oil Jubilee grounds Thursday night.

He was introduced by C. P. Rogers. While here he was the guest of Gill Cotton.

Mr. Murphy declared he was over here "to mix and mingle with the people" of Howard county rather than make a campaign speech.

He confined his remarks to a brief outline of his platform.

Restricted immigration, and the Box bill were discussed. He said he is the only candidate to take a definite stand on the measure. Relief for disabled war veterans, needs of the independent oil operators, necessity of "breaking the trusts and combines," were included in his speech.

While here several weeks ago Mr. Murphy read telegrams from city and county officials of San Angelo assuring him of their solid support.

During the past six weeks he has made 40 campaign speeches, and is making one of the most intensive campaigns ever made in a congressional race.

Mr. Murphy has also received the endorsement by all the railroad men in San Angelo.

Plant Lice Remedy Outlined By Agent

The number of calls coming to the office of the county agricultural agent seeking methods of controlling plant lice led to a statement by J. V. Bush, the agent, outlining best known methods of combating the pest.

Here is a good remedy, he said, especially for plant lice on watermelons, cantaloupes and garden vegetables: mix nicotine sulphate and hydrated lime in the proportion of 2 1-2 pounds to 47 1-2 pounds. Mix these two ingredients in a keg or other closed container which may be revolved over and over until a thorough mix is obtained. Apply the resulting mixture to the under side of the leaves of foliage of the plants with a dust gun.

Do not undertake to mix this in the open because it is liable to lead to suffocation of the person doing the mixing and, too, a good mixture cannot be obtained in that way.

"I spend the money I make on my route for clothing, some for swimming, a show once in awhile, for haircuts, candy, for baseball goods to play with, some on my bicycle and some of it goes into my savings account."—Charles Bond.

"I buy my clothes, have money to go to college and pay on my insurance."—Robert Lee Campbell.

"I spend some money and give the rest to my mother."—Fred Savage.

"I have been working for The Herald five months. I bought a bicycle and now I am going to summer school with my money. I have also bought a Boy Scout suit, and am trying to save a little money as I go along."—Earnest Watts.

"First of all my money goes for clothes and other necessities of life. I have bought myself a bicycle to use in delivering my route. It cost \$27.50 and I paid it out by the week. I have bought two suits of clothes and other things such as shoes and shirts. After I have bought my clothes I needed a few Christmas and birthday presents. Then I got myself some sporting goods. During school I bought all my supplies and paid tuitions, library fees, books, classics, laboratory fees and the like. I have bought a good many novelties and other things that suited my fancy, such as baseball gloves, baseball caps, shoes, tennis shoes. I took a trip to Sweetwater last fall for the football game with money earned down at The Herald office. I paid my school club fees."—Thornton Hart, route 3.

"For two years I have almost supported myself on the money I earned delivering papers. I bought all my school supplies and nearly all my clothes with the money earned. I took a commercial course this year. I paid all my tuition for the whole term. I bought almost all my clothes and shoes for the last two years. I belong to a number of school clubs and with the money I earned I paid the dues of each club. I bought a bicycle to deliver my route on, and paid it out in monthly payments. I bought a suit of clothes last year and paid it out with the money I earned. All the library fees were paid with the money I earned. I bought all the sporting goods I wanted such as baseball gloves, balls, mitts, shoes, hats and the like. I had all the spending money I wanted for shows and the like. I bought all the Christmas and birthday presents that I needed to buy or that were necessary. If you ask my opinion I would say that it would be pretty hard to find a more steady and helpful job for the school boy in Big Spring. It never interfered with my studies in any way."—O. C. Hart.

"Wednesday pay day money goes very quickly. I put five dollars a month into my Building & Loan Association account, spent about \$1.25 a week for movies and amusements and use the rest of it for clothes."—Ferrell Squires.

"About a dollar a week of my money goes for amusements and I save that remaining after I have bought necessities."—Eldon Harrell.

"My money every Wednesday goes for various things, including about a dollar for amusements, \$2 for my building & loan account and the remainder for clothes."—Fredrick Koberg.

"I am saving about three-fourths of the money I earn on my route to buy a suit of clothes. The other one-fourth I use to buy candy and ice cream contest, to go swimming and to go to shows."—Charles Bond.

TAXING OF UNIVERSITY LANDS WOULD BE ALLOWED UNDER PROPOSED AMENDMENT TO LAW

AUSTIN, July 9.—West Texas counties that now are penalized for contributing the huge oil royalties to the University of Texas by being denied any local tax revenues from the valuable oil lands, will have this situation remedied in November, if a constitutional amendment that is to be voted on is adopted.

This amendment, favored by university regents and officials, will permit the counties having university lands within their borders, to tax this property for county purposes the same as if it belonged to private individuals.

It follows that in which counties already have been authorized to tax school lands owned by other counties.

The amendment is one of four to be voted on at a separate election to be held along with, and on the same day as the general election in November.

Another will permit the university to issue bonds, by making these securities subject to investment of the university permanent fund.

A legislative reorganization and salary increase measure is among the list of amendments. It would double the length from 60 to 120 days of the regular legislative session, and double the pay of members during the period from \$5 to \$10 per day. It would set aside the first 30 days to introduction of bills, the second 30 to committee hearings and reports, and the final 60 to enactment of laws. Either house could set aside the order on a four-fifths vote and emergency matters could be taken up at any time.

The fourth amendment would be the court reform measure advocated by jurists and lawmakers, of abolishing the present nine-month term of state supreme court and making the term continuous the year around. At present, regardless of the congestion of business before it, the court is required to take a three months' statutory vacation each summer.

tributed inside store buildings and within residences or they may be left securely in the doors of residences, said Mr. Smitham.

The ordinance was passed to prevent littering of the streets and of automobiles with numerous circulars, hand bills and cards, he said.

Under this ordinance, he added, it is unlawful to distribute candidates' announcement cards on the streets.

particular situation."

The fees provided for in the local milk ordinance are levied for one purpose—to make the sanitary department self-supporting, said Mr. Smitham.

"We must either have these fees tax the people to support the department," said the city manager. "Under the existing arrangement those who sell milk pay for operating the department."

"The city," he continued, "is not attempting to prevent any one from selling milk, provided a permit is taken out and the grade of the milk is exhibited on the containers. Requirements for various grades of milk are based on conditions under which the milk is produced. Grading, therefore, is no more than a check upon sanitation practiced by the dairyman. Graded A, B, C and D run in proportion to the degrees of sanitation. It is the city's way of indicating to the people that degree of sanitation. And all milk not produced under sanitary conditions is graded 'D.' Grade D milk may be sold just as any other grade. We're not stopping anybody from selling it. If a citizen wants to buy it that is his business."

DAIRYMEN ASKED TO GIVE IDEAS

Saturday Meeting Is Followed By A Statement

All cities that have attempted to enforce the standard milk ordinance outlined by the state health department has experienced opposition of the type voiced here Saturday afternoon at a meeting of a group of farmers, City Manager V. R. Smitham said in an interview Monday morning.

Mr. Smitham said that "it is not the pleasure but the duty of the city commission and myself to protect the health of the citizenship and that the citizenship is interested in enforcement of this ordinance is manifested by the repeated requests for its enforcement that have been coming to me ever since I came here a year ago."

Continuing, the city manager declared that "we had rather consider the interests of the entire citizenship than of a few individuals at the expense of the general public. Our sole desire is to protect the health of the entire citizenship in the most practical way."

"If at any time," he said, "those who have complaints will make them known in the proper way we will be glad to consider them. There may be some ways to amend the ordinance to make it more practical. We're not closed up here to listening to the likes and dislikes of any one. Far from it. They might have something to say that would help us with something we're worried about."

Mass Meetings

Calling mass meetings is not the way to help anybody in this

AS TO HAND BILLS

Following complaint at a meeting here Saturday of farmers and others interested in objections to the city milk ordinance because the city manager refused to allow cards advertising the meeting to be distributed on the streets of the business district V. R. Smitham, the city manager, called attention to provisions of an ordinance governing the matter and he said he could not allow an exception to be made to it.

He quoted from the ordinance, section 13, which declares that it shall be unlawful to scatter or distribute "advertisements, hand bills, circulars, printed or written announcements, or papers of like character upon the streets, sidewalks, alleys, gutters or within the public buildings or on the public grounds or in the premises of any kind within the limits of the city."

Such matter may be dis-

AN EXCEPTION

If a person resides in the city and milks a few cows, say two or three, and sells some milk to his neighbors or others who come to his home to get it rather than having it delivered to them he is not affected in any way by the ordinance, said Mr. Smitham. The ordinance contemplates that a milk purchaser who goes to the place where it is produced and there obtains his milk has ample opportunity to inspect the sanitary conditions himself, he pointed out.

"There is no more dangerous food from the standpoint of the danger of contamination than milk," he said. "It is one of the most likely transporters of typhoid and other diseases. That is why we feel strict regulation of dairy conditions are necessary."

There have been complaints by dairymen and other handlers of milk and other foods because health certificates were required of those handling those foods, said Mr. Smitham.

"The city health officer has within the past 12 months so ordered four handlers of milk and other foods to discontinue doing so due to their diseased conditions," he added. "There is likelihood that many diseased persons have been working in food establishments where they did not come under the observation of the health officer. Under this ordinance every food handler must be examined once a year for a health certificate."

hibited in meeting present-day industrial problems, but also the persistence of old standards of living and habits of life."

Cheap labor, it was found, had had its effect in attracting industry southward, but the Institute investigators were inclined to believe that the importance of the labor factor has been exaggerated. Natural resources, they said, were a more powerful influence.

In 1927 there were 12 industries in the eleven Southern states each of which had an output in excess of \$100,000,000. Census figures showed that more than 56 per cent of the country's cotton manufacturing is being done in the South; 84 per cent of cottonseed products; 55 per cent of fertilizers; 40 per cent of lumber and lumber products; 27 per cent of refined petroleum; 53 per cent of turpentine and resin; 46 per cent of cigars and cigarettes; and 12 per cent of the nation knit goods.

The 12 manufacturing industries each of which in 1927 had an output in the South of over \$100,000,000 were as follows:

Cotton, \$880,805,268; petroleum refining, \$580,478,618; cigars and cigarettes, \$563,784,310; lumber and timber products not elsewhere specified, \$501,854,630; oil, cake and meal, cottonseed, \$233,050,130; cars and general shop construction and repairs for steam railroads, \$208,772,542; knit goods, \$142,823,882; flour and other grain mills, \$130,833,235; lumber—planing mill products not made in planing mills connected with sawmills, \$128,717,098; slaughtering and meat packing, \$121,450,905; furniture, \$109,961,637; fertilizers, \$105,415,387.

County Living Rooms Undergo Many Changes

Many and varied changes have taken place in the homes of the most progressive of Howard county women, who live in the outlying communities.

Due to the influence of Mrs. Loucille Allgood many of them entered the living room improvement contest and one of them won it for this district.

Stories of the changes that have been made to the living quarters of the family have appeared here from time to time. This is the last of the descriptive stories.

Mrs. A. J. Stallings of the Lomax community had a very good room before she entered the contest. The improvements made rendered it a usable room for the family instead of just a place to entertain company. The light was improved by removing the window shades she had kept drawn low. She put her drapes on poles, and added new glass curtains, which made very attractive windows. The piano which had been across one corner of the room was put parallel with the wall in a central position of the room. An Alladin swinging lamp was added. A reading center was added by means of a combination desk and book case purchased from a second hand store and refinished. The room was made more livable by addition of desk, end table, card table, card table, games, and story books for the children. Two small oil heaters were added to furnish heat. The room was made more attractive by improving the curtains, hanging the pictures lower, removing two Chinese matting plaques and a useless oilcloth pillow and paper flowers.

Miss Grace Lockhart of Luther transformed a dark unattractive room into a restful, attractive, comfortable one. One window was out, shades were rolled to the top and osenberg curtains hung on poles, a very dark beaded ceiling painted in light figured tan paper of good design, and painting dark woodwork and floor beige. An old steel couch was made into a day bed by dropping both sides and making a pad, covering it with a tan, orange and brown cretonne. Paper flowers and other useless bric-a-brac was removed. Good pictures replaced poor ones. All old furniture was refinished. A congo-lem rug from another room was put on the floor. An end table and magazine stand were added. Miss Lockhart and her family did all the work. Mrs. Lockhart says it is such a pleasure to stay in that room that she cleans it first every morning, and hates to leave it to do her other work. She was awarded first prize in Class I.

She improved the room with money from sale of eggs. With the paint and paper given her by a lumber company she has started over the rest of the house. Her expense was \$42.85. The two above spent \$42.50 each.

Mrs. G. W. Davis

Mrs. G. W. Davis of R-Bar had a good living room suite in her room. She went over all her woodwork and floors, replaced a congo-lem rug with an axminster of good design, added osenberg drapes on poles, replaced undesirable pictures with good ones, and rearranged her furniture. Paper flowers were removed from the room. She did a good job hanging the paper herself. After improving this room she felt it necessary to make the same improvement in the adjoining bedroom. She spent \$54.78. She and her family did all the work.

Mrs. J. W. Smith

Mrs. J. W. Smith of Hiway had started remodeling her room before the contest started. She had papered the wall, painted the ceiling and woodwork flat white. She left the paper as it was, but covered the flat white with ivory. Her shades were remodeled to fit her windows and the scallops removed. Osenberg drapes were hung on poles. The floors were improved by sandpapering, staining and varnishing.

Uncomfortable furniture was replaced with a velvet suite. Family portraits found their way to the bedrooms and good pictures put on the walls. A card table and games were added.

A chalk dog and cat were removed from the room, also useless pillows. A wilton rug replaced a badly worn one. An end table and magazine rack and library table were added. The family did all of the work, and now they feel repaid with the pleasure they have out of staying in the room. \$185.75 butter and egg money was used for this improvement. She won first in class II in the county, then first in the district. After starting the work, it has spread from room to room. She has gone over her whole house.

Mrs. Dewey Martin

Mrs. Dewey Martin of Hiway started with a new home, having bedroom furniture in her living room. She improved the room by removing bedroom furniture and adding a living room suite, occasional chair and table, and a victrola. She added good pictures, and facilities for games. Her cost was \$222.89.

The women of the county went on a living room tour June 18th. Each community went together, but
