No. 35

## County Seeks WPA Allotment for Road Building

### FOOTBALL TRAINING BEGUN WEDNESDAY AFTERNOON AUG. 28

Coach Weldon Bynum issued suits to about twenty boys Wednesday afternoon, and pre-school practice was begun. A number of the boys are unable to begin practicing until the beginning of school because of having to work.

He planned to have practice sessions both during the morning and afternoon during this week.

Coach Bynum has just returned from the coaching school at Texas Tech, which he has attended the past two summers. This school is recognized as one of the best in the country, and Fritz Crisler of Princeton, Francis Schmidt of Ohio, Dana Bible of Nebraska, and other famous coaches made up the faculty.

Coach Bynum comes to Eldorado High School from Paint Rock. Last year that school was defeated for the championship of its district by the Eden High School, which subsequently defeated Brady. The team was undefeated except by Eden in 1934 and only lost one conference game during the 1933 season. Mr. Bynum has had seven years of coaching experience.

The Eldorado squad is made up of seven letter men, but the lack of experienced boys is compensated for by a heavier squad than this school has had for several years. Prospects are good for a team which should be a strong contender for the district championship.

### Mrs. Terry Crane's Father Died Monday

Monday, word was received of the death of H. E. Halcombe in Temple who died of Pneumonia. At the time of Mr. Halcombe's death he was 76 years of age. Funeral services were held at Richland Springs, Texas Tuesday.

Surviving are one daughter the Mrs. Terry Crane of Eldorado and Mr. Clinton Halcombe of Richland Springs.

Mr. A. K. Bailey of Eldorado attended the funeral.

### Another Reminder About 'Relief Business'

Sounding another reminder that the days of "relief business" in Texas are numbered, the Texas Relief Commission has informed district administration offices that the school lunch program which last year aided in providing lunches for 51,000 children weekly, will not be resumed this year.

Following up repeated suggestions that citizens look to their own resources, officials have urged that Parent Teacher Associations, men's and women's service clubs, church societies, and other organizations continue the school lunch program in communities where it is still needed.

Stamp pads at The Success.

### LATEST NEWS ON GOOD ROADS

Late Thursday evening prospects were looking good for work to begin on field work and other preliminaries, which are necessary before the final application for government funds—with which 156 miles of county roads will be repaired and built—will be acceptable to the WPA district offices.

District manager Burnside and Chief Engineer, Callahan were here Wednesday and Thursday endeavoring to get the work started at once. They say we have no time to waste, as other counties are going after the money now available. It is very urgent that we get busy and do something NOW.

### School Registration To Begin September 2nd

Schools in the Eldorado Independent School District will open Monday, September 2. A program beginning at 10:00 Monday morning will officially open the Eldorado high school and grammar school, and the Reynolds, Alexander, and Mexican schools will also begin their work at that time.

Immediately after the opening exercises, registration will begin and all high school and grade pupils will sign up for their courses for the year, receive their books, and get all books covered.

Freshmen students in high school will have their choice of Home Economics I, General Science, and History I. All Freshmen must take English I and Algebra I.

Sophomores will have their choice of Home Economics, History II, Spanish I, Biology, and Typing, and must take English II and Algebra II.

Juniors must take English III either this year or next. In the event that Spanish was taken in the Sophomore year, Spanish II must be taken during the Junior year in order to retain credit on Spanish I.

Seniors must take English IV and History III, unless the latter was taken during the Junior year.

Juniors and Seniors may choose the remainder of their work from the following courses: Physics, Typing, Bookkeeping, Business Arithmetic, Home Economics II, Public Speaking, and Texas History.

### H. T. FINLEY ACCEPTS POSITION IN MIDLAND

H. T. Finley left Sunday for Midland where he has accepted a position in a barber shop.

Finley has been with the City Barber Shop here for more than two years, and has been barbering in Eldorado about seventeen years. His friends will miss him, but wish him success in his new location.

### MUSICAL PROGRAM GIVEN LIONS CLUB

At the regular weekly luncheon of the Lions club Wednesday at the Eldo Hotel a musical program was rendered by Miss Lois Carr, 12 year old daughter of Mr. and Mrs. J. C. Carr. Miss Carr is a musical student under Miss Turner. She has appeared in the National Tournament held at San Angelo. She received high honors in her grade, and has been on the air twice, broadcasting over KGKL, San Angelo.

Mr. C. A. Mitchell was introduced as a new member of the club and he made a short talk, stating that he appreciated the welcome he had received in Eldorado. "I like this country and believe that it has a great future," he said. "I am proud of an opportunity to become a member of this club and want to do my part in civic affairs."

Mr. Mitchell is manager of the M. & R. Chevrolet Company. Weldon Bynum, football coach for Eldorado High School was introduced by Lion Smith, as a visitor.

Committee reports were made as follows, Road committee, C. S. McKinney chairman reported that a tentative estimate for road work in Schleicher county had been made to the WPA office in San Angelo. A total of \$111,400.00 was asked for to complete eight projects. C. E. Knight, chairman of committee to provide a needed roof on a residence reported that the work was about finished. Chairman of Sign committee, C. S. McKinney, reported that signs were ready to be put up and asked that volunteers help dig holes and help get the signs up this week.

### School Opening Exercises Monday Morning at 10:00

At 10:00 o'clock Monday morning, September 2, the Eldorado schools will officially begin their work for the school year 1935-36 with the opening exercises to be held in the high school auditorium.

An effort will be made to begin the program promptly on time, and the cooperation of school patrons in making this possible will be appreciated.

There will be an interesting and varied program consisting of short speeches, readings, vocal and musical numbers, and introduction of new teachers.

All parents and others, interested in the schools are cordially invited to attend.

### 4-H Boys and Girls Enjoying Barbecue

The Four-H club boys and girls are having their barbecue today at the Eldorado Fair Park. Dinner will be served at 7:00 p. m.

All boys and girls who were in the club work last year and those who anticipate entering this year are urged to be present. Be sure and bring your parents.

### Tribute To Weeklies Was Will Rogers' Best

Chicago—Some of the late Will Rogers' philosophic and humorous paragraphs will go down in literary history as masterpieces. And perhaps one of the finest of these is his tribute to the "home town paper," one of his last writings.

"Take away my ham, take away my eggs, even my chili," said Will, "but leave me my newspaper. Even if it has such purely local news as 'Jim Jones came home last night unexpectedly, and bloodshed ensued' or 'Jesse Bushyhead, our local M. D., is having one of the best years of his career, practically speaking—but they just won't pay him when they get well,' 'the county seat was packed yesterday with prominent people from out of town, attempting to renew their notes' and 'election ain't far off and everybody is up for office that can sign an application blank.'"

"Now all that don't seem much news to you. But it is news to you, especially when you know the people and they are your own folks. So no matter how punk you may think your local newspaper is getting, why just take it away from you and see how you feel. The old newspaper, I think, is just about our biggest blessing."

"So let's all read and be merry for tomorrow the paper may not have enough ads to come out."

### Teachers in Eldorado Independent School District of 1935-36

The teachers in Eldorado Independent School District for 1935-36 term are as follows: Eldorado High School; Tom D. Riddle, Prin., Weldon Bynum, Willie Allen, W. E. Cooper, Louise Hinyard, Mayme Evans, Eldorado Grammar school. H. D. Irby, Prin., Grace Hyde, Oma Ford, Mrs. Payne Robinson, Dorothy Taylor, Mrs. Bennie Watson, Helen D. Connell, Annie Oerbert, Mary E. Miller, Mrs. Mary Adrian.

Reynolds; Mrs. Lola Sparks, Prin., Miss Ena Ford. Alexander; Miss Mary Erskine. Mexican; Mrs. W. M. Davis, Prin.

### H. D. Mercer Located In City Barber Shop

H. D. Mercer, well known barber, of Eldorado for the past seven years, has accepted a position with the City Barber Shop.

Mercer has been employed by other shops here and at one time worked in the City Barber shop for a period of several years.

### RICHEY'S RETURN FROM FISHING TRIP

Mr. and Mrs. A. D. Richey and Horace Lee Richey returned Wednesday from a fishing trip in Old Mexico.

They left Sunday for Don Martina Lake where they caught all the fish they could eat and brought back about 35 pounds.

## Judge J. H. Finley Has Submitted A Tentative Estimate of Road Work

### CITY COUNCIL HAS EMPLOYED ENGINEER

The city council has employed an engineer for the purpose of making a survey and finding the cost of an adequate water and sewer system for Eldorado.

The engineer, Mr. H. R. F. Helland went to work this week, making estimates and filling out the application blanks for PWA funds with which the system will be built.

### All County Roads Will be Included in Project \$111,400.00 Asked For CALICHE 156 MILES

Commissioners Will Resubmit Road Program When Engineer's Plans Complete

Although engineering data and plans are not available for the giant road building program in Schleicher county, Judge Finley submitted to the WPA office at San Angelo a tentative estimate of the work Monday.

The estimates were purposely made high in order to make sure of enough to complete the job. When the engineering work is finished the cost will probably be cut considerably.

The estimates are based on the following costs. Labor, per mile \$300.00, grading and drainage \$300.00, Engineering and miscellaneous, \$100.00, Total estimated cost per mile, \$700.00.

The project consists of the improvement of the road from Eldorado to Station A at a cost of \$12,000.00, Eldorado to a point 20 miles west on the old Ozona road, \$14,000.00, Lateral road into Reynolds community \$7,000.00, Eldorado to Alexander School \$6,000.00, Eldorado to Meyer to Menard county line \$17,000.00, Russell-Henderson Community road \$4,000.00, Eldorado to Adams School and lateral roads \$21,000.00, Eldorado to Iron County line (Mertz-on road) \$17,000.00, Eldorado to Davis Thompson Community \$9,000.00, Thompson tap three miles South of Eldorado to point in Thad Thompson Ranch \$2,000.00. Total cost estimated at \$111,400.00.

Of the amount asked for in the application, if it is granted, the county will be asked to pay approximately \$6,000.00, which will be in the form of rock, caliche, and the use of county road equipment. The county will have to keep up the machinery furnish a foreman and an engineer's services will be needed to make the plans.

This is considered one of the greatest moves made by this county. It will save the county money in the long run, as well as get us out of the mud. Our unemployed problem is solved and it is estimated that money saved on the maintenance of county roads for the next few years will more than pay the county's part of the cost, not mentioning the money that will be saved on wear and tear of automobiles.

Mrs. N. P. Wilkinson went to Comanche on Saturday on account of the death of a relative. She returned on Wednesday bringing with her for a few days visit a cousin, Mary Ruth Sleight, of Lake Charles, La.

### Boy Scouts Spend Two Days Camping

Monday and Tuesday of this week the Eldorado Boy Scout troop 18, accompanied by Scout Master, Don McCormick, J. A. Whitten, chairman of executive committee, E. W. Brooks, member of executive committee and A. J. James, cook spent a delightful two days and nights camping on the banks of the San Saba river on Louis Tisdale's ranch.

The boys were allowed plenty of time for fishing and playing and those enjoying this splendid outing were: Bob Bradley, Willie Bridgeman, J. T. Ballew, Hugh Craig, Billie Green, Abe Millar, Julian Carr, Earl Bryant, Marshall Bailey, William Jarrett, Gardner McCormick, Jack Whitely, George Whitley, Jolly Sample Wallace Cozzens, Bobby Oliver.

### WORK STARTED ON A. J. ROACH HOME

Workmen begin work on the A. J. Roach home this week. It will be remodeled and three rooms will be built to a second story and one room will be added to the ground floor.

Local carpenters will do the work, and the material will be furnished by the West Texas Lumber Company.

### First Bale of Cotton Ginned Here Tuesday

The first bale of cotton for 1935 was ginned for Amalio Ramon on Tuesday of this week. The bale weighed 485 pounds. Eldorado Gin Company did the ginning.

Ramon said he was late this year. He had the first bale in 1934 ginned on August 6. He will bring in another bale or two this week.

The Success has a standing offer one year's subscription to the person bringing in the first bale of cotton each year.

1897.

Subscription \$1.50 per year, in  
advance. Subscription will be  
discontinued promptly on expi-  
ration.

**WHO IS THE WINNER?**

This evening in a million  
American homes brows will be  
knit and stubs of lead pencils  
moistened as a not inconsid-  
erable portion of the Nation grap-  
ples with homework. Teacher  
isn't to blame. The labor is self-  
imposed and isn't gainful except  
for a precious few, declares  
Charles Magee Adams in the  
August Review of Reviews.

"Something for Nothing" cap-  
tions his article. The inference  
drawn from its perusal is that the  
writer, after much research into  
the ramifications of the Prize  
Contest in which big cash prizes  
are offered by manufacturers,  
concludes the whole business is  
rather a gamble. Rarely is the  
winning entry which won the  
small fortune made public. Eva-  
sions, he asserts, are the usual  
responses to contestants asking  
what the winning line or slogan  
Boards of judges of undoubted

integrity are sometimes appoint-  
ed. Yet, as the millions of an-  
swers roll in, hundreds of tempo-  
rary clerks must be engaged to  
eliminate the ruck. How ade-  
quately trained are they? Has  
any enterprising reporter ever  
tracked down the winning entry  
of the big cash prize, in order to  
form unbiased judgement as to  
the comparative merit of the par-  
ticular answer or slogan that  
won?

Does the artificial spurt caused

by making all contestants buy  
the product equal the abstention  
from later purchases of it by the  
vast army of disappointed, lured  
by radio and other advertising  
into the increasingly miserable  
bypaths of getting something for  
nothing?

Who is the winner?

**IN THE BALANCE**

Ask any business man, invest-  
or, property owner or thinking  
worker what is most needed to  
give the nation the confidence,  
the spirit and the optimism that  
will break depression.

You might get the same an-  
swer from each: "Tax reduc-  
tion, plus a determined policy  
that will balance the budget as  
soon as possible, and gradually  
reduce and eventually eliminate  
the vast national debt."

Real, permanent and sound re-  
covery cannot arrive so long as  
industry faces the prospect of  
confiscatory taxes that will seize  
whatever profits it is to make.  
We cannot have a wave of home  
building so long as our citizens  
realize that increasing taxes may  
soon make it impossible for them  
to keep their property. We can-  
not have re-employment of the  
jobless so long as investors are  
afraid to put their money into  
productive enterprises—because  
rising taxes imperil both princi-  
pal and income.

The national debt is approach-  
ing the \$35,000,000,000 mark.  
Hundreds of millions of dollars  
a year are required to meet the  
interest. More hundreds of mil-  
lions are required for sinking  
funds with which to pay off the  
bonds when they fall due. Long  
after the money has been spent,  
and the things it bought have dis-  
appeared, we and our children  
will be paying the bill.

The Federal government has  
attempted to "send us back to  
prosperity." In the view of  
many unbiased commentators we  
would have gone a long way  
farther toward recovery had  
spending been held down—in  
other words, the government's  
policy, in their belief, has hin-

dered and not helped the nation.  
Yet more spending is in prospect  
—and more taxes.

The people want tax reduc-  
tion. Business wants tax reduc-  
tion. Investors and workers want  
tax reduction. Unless it is  
achieved, the nation's economic  
future is in the balance.

**TEXAS WEEKLY TO  
SHARE IN ADVERTISING**

Decision of the Centennial  
control commission last week to  
spend \$50,000 for paid adver-  
tising with Texas newspapers  
(outside the metropolitan centers  
and the cities where Centennial  
celebrations are to be held)  
marks a victory for officials of  
the Texas Press association and  
others who have contended the  
small newspapers were entitled  
to some paid advertising. They  
have carried the burden to ad-  
vance publicity for the Centen-  
nial for more than a year, and  
some advertising revenue will en-  
able many smaller newspapers of  
Texas to continue their loyal sup-  
port of the Centennial, which has  
been given without cost in the  
past. The decision is logical,  
since 60 per cent of the total at-  
tendance at the Centennial  
events will come from Texas,  
based on the attendance figures  
of other expositions.

**EQUITABLE REGULATION  
AT LAST**

The bill providing for regula-  
tion of trucks and buses in inter-  
state commerce has passed both  
branches of Congress, and has  
approved by the President. No  
fanfare of trumpets attended its  
passing or singing, and it did not  
"make" the headlines. But, from  
the standpoint of the general  
welfare, few pieces of legislation  
passed by recent Congresses can  
compare with it in importance.

The bill does not penalize  
trucks and buses. It simply  
places their regulation within the  
jurisdiction of the Interstate  
Commerce Commission, which  
has strictly regulated railroads  
in every phase of operation. It  
puts all carriers on the same  
equitable basis, so far as regula-  
tion and federal supervision is  
concerned.

The bill's passage will produce  
two immediate results, both of  
which are of vital public interest.  
First, it will make it possible to  
control and eliminate the so-called  
"wildcat" bus truck operator,  
with improper equipment, inade-  
quate insurance, and no sense of  
responsibility that falls upon  
those who transport persons and  
goods. In this way it will be of  
immense benefit to establish,  
well-operated truck and bus sys-  
tems, which have been greatly  
damaged by the irresponsibles  
within their industry.

Slogans constitute a powerful  
influence, but no European na-  
tion has succeeded in establishing  
"forgive and forget" as a nation-  
al policy.—Washington Even-  
ing Star.

**ECONOMIC HIGHLIGHTS**

Statistics indicate that both  
the current business situation and  
the business outlook are improv-  
ing. Many important industries  
are doing better now than since  
1930—some are actually running  
ahead of their 1929 experience.

A much asked question is:  
"To what extent are government  
policies responsible for the im-  
provement?" A few think they  
would be given credit for stimu-  
lating business. But most busi-  
ness men seem to feel that we  
are making recovery in spite of,  
not because of, political activi-  
ties. They think that if Con-  
gress took a swing to the right,  
the course of recovery would be  
immeasurably accelerated. That  
is a matter of opinion—and, in  
the light of recent Presidential  
statements, there seems little  
chance that the Administration  
will go conservative.

**TAKING BUNK OUT OF  
CIGARETTE ADS**

In the interests of truth, de-  
cency and propriety in advertis-  
ing—and because it's about time  
somebody spoke out in this mat-  
ter anyway—the Seattle Commu-  
nity Press Association has  
gone on record opposing the  
misrepresentation in the adver-  
tisements of a national tobacco  
company.

The blatant claims, shouted  
from magazine, newspapers and  
billboard ads, that cigarettes are  
useful equipment for successful  
athletes, are insults to the public  
intelligence. But worst of all,  
problems are being made much  
more complex for the high school  
coach, the teacher, the play-  
ground leader and the parent. It  
is certainly against all the rules  
of good taste and sound public  
policy to have it declared  
through a series of misleading  
advertising statements, that  
cigarettes are a boom to athletes.  
And this editorial is not an argu-  
ment for or against smoking,  
either.

An aroused public and ob-  
noxious bunk.—University Her-  
ald (Seattle, Wash.)

The lad who always had diffi-  
culty describing the shortest dis-  
tance between two points grew  
up to be a taxi driver.—Austin  
American.

**DISPUTE ON NEW DEAL VALUE GROWS DECISIVE WITH NEWSPAPERS OPPOSED**

Theory and practice are at loggerheads in regard to the New Deal practiced by the artisans of Washington. Such is the consensus of able newspaper observers of the nation, as compiled by the systematic poll being tabulated by "Newsdom".

Despite an evidence of full belief in the honesty of purpose of Franklin D. Roosevelt and assurance that the critics of the press are more inclined to be constructive than relentless, this survey of opinions clearly points to a rising dispute on the efficacy of spending our way to recovery, burdening posterity and attempts of regulation without full regard to private initiative.

Reading through more than 2,250 letters from owners, publishers and editors of newspapers located in almost every country of the nation, the impression prevails that programs and projects are hardly popular pursuits in this era of apprehension and uncertainty. That the New Deal led the way out of the wilderness, is frankly admitted by a great majority of the observers; but it is now contended that the blind are seeing again, the lame and halt are less numerous and prospects for individual efforts are greater by regimentation.

Clear thinking, not political basis, runs through these manifold letters and advice on the grave national questions. Sectional lines are forgotten, the newspapers executives have made a serious attempt to analyze the feelings of their respective readers. That the majority have arrived at a conclusion which is not favorable to the Administration and which insists that there must be decided alterations in the schedules of Congress, must be accepted as ominous in the political field. It augurs of an inclination to protect investments, limit left wing developments and eventually allow industries, commerce and trade to strike back, to reacquire the position they once enjoyed.

Praise for the New Deal, as gathered from the minority report, revolves mainly around the popularity of the leader, the benefits accruing to the farmers and the restitution of banking to a protective level. Many newspaper executives keep insisting that had it not been for the drastic action of 1933 and the subsequent aid of the Federal Government the banking industry of this vast country would have been so chaotic by this time there would have been none left and consequently the nation would have been bankrupt with all this word means.

Mr. Roosevelt kept us out of the revolution, says a Southern supporter. Had it not been for his wide vision, the farmers now would be eliminated by starvation or worse, says a Kansas wheat producer. His leadership, his sympathy to the masses are the backbone of the New Deal, is the opinion of a Californian, who adds that the calamity of going ahead without the guidance of Mr. Roosevelt would be inestimable.

And many of those opposed to the New Deal continuance are not slow to acknowledge that the Roosevelt influence must be maintained but with many modifications, simplifications and concessions.

The trend toward socialization of government is highly against American precedents, says an upstate New York observer. Ohio was settled by pioneers who worked out their own destinies and are as efficient now if given a chance, writes a newspaper leader of the Buckeye state. We distrust too much advice and regulation through the Union,

opines an Oklahoman who admits to an oil consciousness and fear that the black gold of his state is going to be less productive unless Congress keeps hands off and allows the state to handle production and preferences.

Doling billions to shiftless, lazy non-producers who never did produce is the worst feature of the New Deal efforts, might be the consensus of the majority protesters. Wide protest against inefficient administration of relief is heard, but the tremendous machine needed for proper functioning, might explain any failure on this score, the editors admit.

Any breakdown of this poll is not favorable to the New Deal. It finds the persistent critics weaned away from Federal regulations and demanding that the nation be turned back to its respective owners.

The Constitution must be adhered to, say hundreds. Any deviation will be fought more desperately than was the Civil War, says a Michigan publisher. There must be immediate change in the attitude of the Administration toward business and labor, say many. So it goes through these observations which makes it apparent that there must be something slightly wrong with the drift and that Washington is commanded to make amends quickly.

Business reports from the durable goods leaders down to the small retail store assure of a decided upturn this Fall. The newspaper leaders forecast this recovery move and add that lessening of the hold of the Federal powers would possibly hasten and solidify any upturn which may come.

The editor and publishers indicate clearly that the handwriting on the wall is ominous and is becoming more and more legible each day.

Don't bother about having deas. Take somebody else's and sell him it is yours. You can't copy right the durned thing.—Ft. Worth Star Telegram.

Future generations will farm better land and enjoy better health because of today's agriculture soil and improves the food on the farms of today.

**ONCE WAS PLENTY**

A hard, drinker named Prosit whose nose is so red that some people mistake it for a danger signal, recently got a job at the navy yard in Washington. He was assigned to the boiler shop and his job was to get inside a boiler and hold the red-hot rivets, one at a time in the holes in the boiler and let the man outside put a lead on them with a heavy leaded hammer. That same day the new worker appeared before

the surgeon at the hospital with his nose smashed.

It was a novel case, even for a naval surgeon, and the surgeon asked: "How in what-Sherman-aid-war-was did you get your nose smashed like that?"

The new man explained: "It wasn't my fault. They had me inside a boiler and I put my nose through one of them holes to get a sniff of fresh air and the man outside with the hammer thought it was a hot rivet. He hit it only once—but that was enough."

**THE LACK OF MONEY**

Possibly most people do not know so very much about money. But at one time or another we all know something about the lack of it.

Of course money isn't everything, but it certainly does its share toward making life easier and happier. It is a lot easier to spend money than to save it, when it is in your purse. It is better to keep it in our bank where it will be protected until you need it. That is the best way to avoid a lack of money

**Keep a Good Laxative always in your home**

Among the necessities of home is a good, reliable laxative. Don't be without one! Do your best to prevent constipation. Don't neglect it when you feel any of its disagreeable symptoms coming on. "We have used Theford's Black-Draught for 21 years and have found it a very useful medicine that every family ought to have in their home," writes Mrs. Perry Hicks, of Belton, Texas. "I take Black-Draught for biliousness, constipation and other ills where a good laxative or purgative is needed. I have always found Black-Draught gives good results." Sold in 25-cent packages.

**"RECKLESS" HAS EVERYTHING—IT'S HARLOW'S BEST**

The musical treat of 1935 has come to the screen in the Metro-Goldwyn-Mayer musical extravaganza, "Reckless," which opened at the Lone Star Theater September 1 and 2.

Of first importance, the picture introduces Jean Harlow and William Powell as co-stars for the first time. The glamorous platinum star is seen as Mona Leslie, a dazzling Broadway dancer who rises to great social and professional height, only to be plunged into the depths of scandal and disgrace by the mad act of her millionaire playboy husband.

Powell seen as Ned Riley, the oval sports promoter who walks side by side with Mona through her triumphs and tragedies and finally emerges as "best man."

Franshot Tone ably handles the role of Bob Harrison, the millionaire husband and others deserving of honorable mention are May Robson, as Granny; Rosalind Russell, as Jo Mercer; Henry Stephenson, as the elder Harrison; Ted Healy and Nat Pendleton as Powell's companions and little Mickey Rooney.

Producer David O. Selznick and Director Victor Fleming have crowded everything that goes toward making a bang-up entertaining picture in "Reckless." These include four snappy song hits, presented in colorful surroundings and hords of beautiful girls, dazzling settings and with several sensational names participating in them.

As the musical numbers unfold, we see such ace entertain-

ers as Carl Randall, sensational dancing star who appears as Miss Harlow's dancing partner; Allan Jones, the recent singing star of "Bittersweet"; Nina Mae McKinney, noted colored blues singer who, we understand, raced from London to Hollywood to sing in the "Reckless" theme number; and even bearded Man Mountain Dean, the giant hill-billy wrestler.

"Reckless" is a musical picture well worth seeing.

**SEDIMENT IN CREAM**

By Prof. K. M. Renner

While the amount of sediment in cream cannot always be sued as a measure of quality, it does serve as a good indicator for the care that was used in producing and handling the cream on the farm. The sediment disk presents indisputable evidence, not only to the cream buyer, but also to the producer, of the relative cleanliness of the cream. While a clean sediment disk may not mean that the cream is first grade, it does show that the producer is using care in keeping his cows and utensils clean.

There is considerable correlation between the keeping qualities of cream and the amount of sediment present in the cream. Good cream which is clean will keep longer than dirty cream. The type of sediment present will also have considerable effect upon the keeping qualities of cream.

The following kinds of sediment of animal or plant origin may be found in cream: Barnyard manure, flies, ants, straw, feathers, dirt, and even small rodents. The presence of any of this foreign matter in cream is rather conclusive proof that the producer has been very careless in the production and handling of his cream, and this type of cream should be condemned as being unfit for human consumption. In some cases its presence is due to lack of information as to correct methods, and others it is due to a general lack of observing sanitary methods. The first is more easily remedied than the second.

**Types of Sediment: How Sediments Get into Cream and How to Best Prevent its Entrance:**

Barnyard manure usually gets into the milk during the milking period. The cow gets manure on her flanks and udder by lying down in a dirty barn or barn lot and if the cow is not properly cleaned and the udder and teats washed before milking, quantities of the dried manure will fall into the milk pail. While proper straining will eliminate the insoluble portion of this filth, part of it will dissolve, imparting to the milk a characteristic cowy flavor. Proper sanitary observances such as keeping the barn and barn lot clean, using small-top buckets, and washing the cows' teats and udder before milking will eliminate this difficulty.

The presence of cow hairs may be prevented by keeping the cows' udder and flanks clipped, and by brushing the flanks and thighs before milking; the use of small-top buckets will also help in eliminating these hairs. Cotton disk filters will eliminate them entirely from the milk as they cannot pass through the cotton strainer pad.

Ants, flies, feathers, small rodents, etc.; most of these types of sediment gain entrance after the cream has been separated and while it is being held on the farm prior to delivery to the buying station. Its presence indicates carelessness in handling the cream. Cream should be stored in either a stone crock or well-tinned can. The crock or can should have a loose fitting lid which will come down over

the top side of the can or crock. The practice of tying a muslin cloth over the top of the cream can will prevent the entrance of small red ants, dust and sand.

Curd Sediment: Sometimes the sediment pail will show small and rather uniform-sized lumps of curd. Usually this indicates that the cream is of high acid or has been held at a high temperature, or both. Frequent stirring of the cream during cooling, stirring the cream thoroughly each time a new batch is added, and again just before delivering will assist materially in remedying this defect. While it is not as serious as the other types of sediment it does prevent an accurate butter fat test from being made because a representative sample cannot be taken.

**NEW SECURITIES PET**

There's this much you can say for a rattlesnake—At least he warns before he strikes!

As much cannot be said for the stock promoter and seller of the blue sky and boundless sea. By subtle means, for or foul, he gains the confidence of his victim, fleeces him or her of every available dollar and is gone again. That's the method of operation of the Securities racketeers, according to Secretary of State Gerald C. Mann, administrator of Texas new Securities Act, designed to drive out of Texas the sellers of spurious securities. Stocks, bonds, certificates in oil and gas properties, and many other forms of commercial interests are defined as securities under the law.

The new law became effective May 23rd of this year. Today a few of the tangible results may be summed up as follows:

Two sets of operators are under indictment awaiting trial for violation of the law. Other cases are pending. The operations of one of these parties extended from coast to coast and Canada to Mexico, with headquarters in San Antonio. He is known to have received as high as \$5,000 daily from the investing public, most of whom, were not able to afford the loss. The promoter and his associates lived in royal luxury and ease.

In El Paso a gang that has mulcted some \$300,000 or more from credulous investors in the past four years, folded their tents and departed shortly after the arrival of that city of an investigator from the Department of State. It is impossible to compute the saving thus afforded. In another Texas city a stock salesman returned \$4,000 to one of his victims when apprised that the State Department was investigating the matter.

"But the job has only begun," Secretary Mann declares. "Our objective is to rid this State of these racketeers so far as is humanly possible. It can be done only with the assistance of the people of Texas. No purchaser should buy any form of security without first determining if the seller is registered and licensed by the Department of the State. We should likewise be apprised of cases of fraud. The time has come in Texas when the securities racketeer must take his rightful place alongside the convicted murderer, hi-jacker and common thief—behind prison bars."

**FAIR AND WARMER**

First Reporter—I ran the "How to Keep From Catching Cold" column during the winter.

Second Reporter—What are you doing now?

First Reporter—In charge of the "How To Keep Cool" column.

**POLITICAL RACES IN TEXAS THIS FALL**

There will be some unexpected political campaigning, particularly in the congressional races, in Texas this fall and early winter. Under the new system of congress convening in January, instead of December, adjournment is delayed until long after the usual quitting date in other years. Congressmen, facing re-election campaigns next year, expect to be tied up in Washington during the months in which they usually make their primary races next year. Therefore many of them expect to do their political fence-building when they return to journalment of the present session of congress

**SOME TIMES THEY SEE SNAKES**

Lincoln, Neb.—The Nebraska liquor control commission—still in its swaddling clothes—has fought its way through mazes of complex problems, but today perplexities tops them all.

Orville Leggett of Thedford Neb., wants to go into the rattlesnake-killing business. He wrote to the state department of agriculture asking if the state paid any bounty war wholesale reptile slaughters.

The letter was referred to the liquor commission.

The trouble about free speech is that it allows a lot of folks to try to talk their fool heads off without succeeding. — Boston Transcript.

Apricot ice and angel food cake were served to the following:

Mr. and Mrs. W. B. Cobb, Mr. and Mrs. Jim Griffin, Mr. and Mrs. F. M. Bradley, Mr. and Mrs. J. F. Isaacs, Mr. and Mrs. Ben Isaacs, Mr. and Mrs. O. E. Conner, Mrs. Betty Tubbs, Mrs. H. H. Hoover, Mrs. Ray Andrews, Mrs. Dollie Edmiston, Miss Chris Enoch, Miss John Alexander, Mr. and Mrs. Doc Kerr and Miss Bertha Shugart.

Guests were Mr. and Mrs. T. K. Jones.

Miss Chris Enoch will be hostess to the club September 10.

**W. B. Cobb 81 Monday**

W. B. Cobb was 81 years old August 26. He received a letter from John Q. McAdams Monday, and he has received a letter from him every year since 1906. They were old friends in Brady in the early days.

"Count your garden by the flowers.

Never by the leaves that fall. Count your days by golden hours,

Don't remember clouds at all, Count your nights by stars—not shadows,

Count your life with smiles not tears,

And with joy, on this your birthday,

Count your age by friends, not years."

—Anonymous.

**The Red & White Stores**

Are independently owned and operated—They are not chain stores. There are over 90 Red and White Products approved by Good House Keeping Institute.

In the last 12 months, we have used 269 calves from Schleicher County Ranchmen.

We believe in patronizing our home industries and are making an average of killing 8 calves per week at the present time.
