"A Weekly Publication Serving Schleicher County"

VOL. XXXVII

Eldorado, Schleicher County, Texas, Friday, April, 9, 1937.

NO. 15

On The DIVIDE

A PIGGISH THING

Tom Smith returned from the Pecos last Monday afternoon, and as he parked his car folks began gathering around and peeping inside.

Tom had a Haveline pig occupying the back seat. He captured him on the Pecos river and brought him home. We wondered what the thing was good for, but learned later that they make good watch dogs.

ATTEND MEETING

County Agent W. G. Godwin, accompanied by several members of the local Soil Conservation committees, went to Midland on Tuesday afternoon, where they attended a meeting Wednesday in connection with the programs as carried on in Texas.

BUYING SHEEP

J. L. Williams of San Angelo was a business visitor in Eldorado last Tuesday. Mr. Williams stated that he was buying some sheep in this territory and was here making arrangements for their delivery.

R. H. JACKSON SELLS LAMBS AT MARKET TOP

R. H. Jackson, well known Schleicher rancher, just recently sold 90 black faced lambs on the Ft. Worth market. These were December lambs and averaged a little over 70 pounds.

The lambs brought \$12 per 100 at Ft. Worth, which was more than any others brought during that week, it was stated.

VISITS HERE

Richard H. Cocke, attorney from Wellington, visited in Eldorado over the week-end. He is associated with his father, Judge R. H. Cocke, in the law firm of Cocke & Cocke at Wellington. Richard was very favorably impressed with Eldorado and Schleicher county and the possibilities for future development here.

Albert Bailey recently shipped two loads of shorn mutton lambs to the Fort Worth markets. The lambs averaged around 87 pounds and were sold at 8 1-2 cents per pound.

BUILDING NEW HOME

Emmett Hall has started construction on a new home on his ranch 20 miles north of Eldorado.

All lumber and materials were moved to the site last Monday, and construction has been started. The new home will contain four rooms and a bath.

ADDS TO HOME

Mr. and Mrs. Ray Jones have just completed the addition of two more rooms to their home in Eldorado. Ray called his home "just a shack" when he first moved into it, but he's going to keep on until he makes a house out of it. It's getting to be a pretty good "shack" now.

IT'S A GIRL

Mr. and Mrs. Don McCormick are the proud parents of a daughter, born last Tuesday night at a San Angelo hospital. Both mother and daughter are reported doing nicely.

Williams, Knight And Rees New Members Of School Board

More Than Usual Interest Shown In Election As Rees Leads Ticket

More than usual interest was shown in the election which was held last Saturday for the election of trustees for the Eldorado Independent School District, as one of the largest votes in many years was polled.

Seven names appeared on the ballot for this district, and 220 votes were cast for these candidates.

H. B. Rees, who becomes a new member of the board, led the ticket by a large majority. Elected to serve with him are John Williams and C. E. Knight. Unofficial returns of the election, as announced by those in charge of the election Saturday, shows the following vote.

H. B. Rees	193
John Williams	186
C. E. Knight	152
E. M. Reynolds	23
M. J. Wade	33
J. H. Luedicke	34
Russell Donaldson	19

A total of 101 votes were polled for the county trustees. V. H. Humphrey was re-elected as trustee at large, and Claude Meador was elected county trustee for Commissioners Precinct One, succeeding A. J. Mund.

43 Votes Cast In City's Election

OLD MEMBERS OF THE CITY COUNCIL ARE RETURNED TO OFFICE

With only 45 votes being cast in the city election here last Tuesday, all old members of the City Council were re-elected to office. No new names were filed for mayor, and only one appeared on the ballot for alderman.

The ballots were printed so as to provide for write-ins, and some few names were written on the ballots. In the race for city marshal Ben Isaacs won over Fred Bruton by a vote of 34 to 8. The vote for mayor and aldermen, as announced by those in charge of the election, was as follows:

For Mayor
A. T. Wright 38
H. B. Rees 4
Roy Andrews 2
For Aldermen:
Elton Ellis 1
J. L. Ratliff 38
A. J. Roach 34
Geo. R. Long 33
W. F. Parrent 10
Lum Davis 1
H. B. Rees 1

CLUB GIRLS WILL ENTER 4-H CLUB SHOW HELD AT BIG SPRING

The 4-H Club girls of Eldorado are now working on hooked and tufted bath mats. Those who are not carrying on this work are copying off patterns for dresser scarfs.

The articles made by these girls will be exhibited at the Big Springs 4-H Club show which will be held during the early part of next fall.

Sister Of D. C. Hill Passes Away At Grapeland, Tex.

Mr. D. C. Hill left last Saturday afternoon for Grapeland, Texas, upon receipt of a message that his sister Mrs. T. S. Kent, was not expected to live.

Mrs. Kent, who was a well known pioneer of that section, passed away Saturday night, before Mr. Hill reached her bedside. She was Mr. Hill's only remaining sister, Mr. Hill now being the only survivor of a large family of children.

Mr. Hill is expected home the latter part of this week. The Success joins his many friends here in extending sympathy in this hour of bereavement.

Brisk Activity In Wool Contracting Shown In County

OVER 33,000 FLEECES ARE CONTRACTED THROUGH LOCAL WAREHOUSE

Activity in both shorn and contract wools continued in West Texas during the past week, with sales in volume being reported from several sections.

Around Eldorado, approximately 33,000 fleeces were contracted through the Eldorado Wool Company at prices ranging from 35 cents to 36 1-2 cents. Draper & Company were the heavy purchasers of local wools, having obtained some 20,000 fleeces; Wright Bros. took 10,000 fleeces, and an unannounced firm 3,500 fleeces.

Mohair Sold

The local warehouse shipped approximately 50,000 pounds of spring mohair early in the week. The contracted portion of the accumulation going at 60 and 70 cents. Hair which was not contracted was sold by the warehouse at 65 and 75 cents.

THREE MARRIAGE LICENSES ARE ISSUED HERE IN MARCH

Three marriage licenses were issued by the county clerk's office in Eldorado during the month of March, according to the records of John F. Isaacs. They were to the following:

W. W. Trotter and Miss Hattie Casey, both of Eldorado, on March 10th; William E. Davenport and Chatalyn Chapmen, both of Fort Stockton, on March 25th; William Thomas Turner and Mrs. Effie Powell, both of Sonora, on March 25th.

ATTEND DISTRICT MISSIONARY MEETING

Mrs. W. B. Wheeler, Mrs. L. Wheeler, Mrs. D. E. DeLong and Mrs. Jess Koy left last Tuesday afternoon for Kerrville, where they are attending the Methodist Ladies Missionary Society.

They were to remain for the entire meeting which closed on Thursday.

Mr. and Mrs. J. D. Tinning Jr. of Hutto, Texas visited in the homes of Mr. and Mrs. V. G. Tisdale and Mr. and Mrs. L. W. BaDew last week-end.

Extension Service Leaders To Be Honored At Luncheon Here

APRIL 20 SET AS DATE FOR LUNCHEON; INVITE CLUB WOMEN, BUSINESS MEN

Miss Mildred Horton, director of home demonstration work in Texas, and Miss Kate Adele Hill, district agent, will be honored at a luncheon held in Eldorado on April 20th, it has been announced by the club women of Schleicher county. At a meeting of the county council last Saturday, preliminary plans for the luncheon were worked out.

The club committees are inviting all members of the Eldorado Lions Club, all business men who are not members of this club, and all home demonstration club women of the county to attend this luncheon.

A committee was appointed Saturday to make arrangements for the luncheon, such as selecting the place, etc. This committee is composed of Mrs. Palmer West, Mrs. Norman Hodges and Mrs. Elton Ellis.

An invitation committee has also been appointed, with Mrs. Bill McSwane acting as chairman.

Junior Class Launches Plans For Annual Banquet

The Junior class met in the afternoon of March 30 to make plans for the annual Junior and Senior Banquet to be given the evening of May 1. The place for the banquet was not decided on, but will be decided on in the near future.

Four committees were formed to take care of the plans for the banquet. The menu committee is composed of Josephine Parrant, Bessie Rae Mercer, Wilma Nixon, and Maurine Parks. Orval Edmiston, Eloise Whitten, Bonnie Mund, Marjorie Roach, and Jack Jones make up the decoration committee. The invitations committee consists of Ed Reynolds, Ernestine Finnigan, Dorothy Jarrett, and George Williams. Mary Cloud, Raymond Rogers, Louise Bruton, and Alice Mund form the program committee. The other members of the class will help these committees in any possible way.

CLOTHING CONTEST SLATED FOR JUNE 15

Miss Frances Bowen, county home demonstration agent, has announced that the wardrobe clothing contest for club women of this county will be held on June 15th.

Miss Kate Adele Hill, district agent, will be here and will judge the contest.

VISIT DAVIDSON'S

Mr. and Mrs. L. Q. Sparks and family of Barnhart, Miss Marion LeSha of Venezuela, South America, Miss Tom Smith and Mr. and Mrs. B. K. Cheek and Billy Kenneth of Eldorado were guests of Mr. and Mrs. Roy Davidson last Sunday.

Methodists Plan All-Day Missionary Rally April 25th

In commemoration of the sailing of the first missionary of the Southern Methodist Church to China, an all-day celebration and missionary rally is being planned for the local church. This rally will be held on Sunday April 25.

The regular Sunday school and preaching services will be observed in the morning. A basket dinner will be spread at noon, and an enjoyable and instructive pageant will be given in the afternoon.

Local church workers are anxious that all members of the church co-operate to make this a great day with the local church. Every member is urged to attend the services and enjoy the programs, services and fellowship.

Further announcements regarding the rally will be made from time to time.

Godwin Announces Changes Listed For New 1937 Program

Principal Changes Covered In Letter From The State Office

Due to the many questions that have been asked regarding changes in the 1937 Agricultural Conservation program from the 1936 program, County Agent Godwin is attempting to answer these questions by giving an outline of the changes. He asks that all farmers interested study these changes.

The changes as given by Mr. A. L. Smith, executive secretary of the state committee, are as follows:

(a) A soil conserving base must be established for each farm. This is the acreage normally planted to soil conserving crops on the farm.

(b) The requirements regarding minimum acreage of soil conserving crops have been changed. The minimum acreage of soil conserving crops that must be planted in order to escape the penalty is the soil conserving base plus the acreage diverted from the soil depleting base for payment.

(c) The penalty for not planting the minimum acreage of soil conserving crops has been changed. Instead of 1 1-2 times the (See No. 1 Last Page)

Fifty-One Football Suits Are Issued

More boys are now coming out for football than ever before in the history of Eldorado high school. Coach Bynum has issued uniforms to fifty-one boys this year, and there may be more to come out yet. The boys have been divided into four groups and have had scrimmage every afternoon.

There was no football practice last week because Coach Bynum wanted to prepare his track team for the four-county meet at Menard.

Football practice was started again on April 6, and will continue four more weeks. At the climax of the spring training a game will be held with the ineligible of Eldorado high school.

Coach 'Matty' Bell, S.M.U. Mentor Visits Eldorado Monday

BELL SELECTING MATERIAL FOR UNIVERSITY TEAM; CLEMENT GETS OFFER

Coach Madison (Matty) Bell of Southern Methodist University was a visitor in Eldorado last Monday afternoon. Coach Bell made the trip from San Antonio to see Johnnie Clement about attending S. M. U. next year.

Coach Bell seemed highly pleased with Johnnie, his football record and his scholarship standing in Eldorado high school. He made him an offer to come to S. M. U., offering him a scholarship together with a job to pay his room and board at S. M. U. Bell stated that he had only 10 or 12 more scholarships to give and was picking Johnnie from the San Angelo section of the country.

Bell stressed the importance of a boy learning something besides football while in college in order that he might secure a position when he graduates.

The S. M. U. mentor showed a gold football studded with diamonds which Dallas admirers gave Bell and his players the year S. M. U. played in the Rose Bowl.

Bell was accompanied by "Pop" Morgan, who is connected with the athletic department of Southern Methodist University.

Eldorado Misses Literary Trophy By Only Ten Points

MENARD WINS LITERARY EVENTS; JUNCTION WINS ATHLETICS

Eldorado High School lacked only five points of tying Menard for the literary 18-inch trophy in the 4-county meet held in Menard last Saturday. Individual participants from Eldorado were successful in winning a large number of gold medals.

In the essay contest, Menard won first, Raymond Rodgers of Eldorado second, and Junction third.

In spelling, Menard ranked first, Sonora second, and Alice Mund and Leola Sauer of Eldorado third.

In typing, Alice Mund, Genevieve Ramsey, and Billie B. Steward of Eldorado won first, each of the three receiving gold medals. Sonora was second and Menard third.

In shorthand, Johnnie F. Isaacs, Bonnie Mund, and Elizabeth Stanford of Eldorado won first, each of them receiving gold medals. Menard was second and Junction third.

Eldorado won first in both boys and girls debate, all four team members receiving gold medals. The boys team consisted of Jack Hext and Ed Reynolds, while Maxine Wilton and Johnnie F. Isaacs composed the girls team.

Eldorado did not place in junior girls declamation, and did not enter a team in junior boys declamation and boys and girls extemporaneous speech. In the (See No. 2 Last Page)

REMEMBER WHEN?

You wouldn't think of lighting your cigar with a twenty-dollar bill. You've heard of people doing that, and have probably regarded them as being insane.

But, if you are an average person, you consistently take chances on a fire that may cost you many times a "measly" twenty dollars.

Remember when a fuse blew last winter and you couldn't find another—and so established the circuit by putting a penny behind the old fuse? Thousands of fires, many of which have destroyed lives, have been caused by this highly dangerous practice.

Remember when the cord of your reading lamp wore through and you repaired it yourself, with the aid of a kitchen knife, some automobile tape and considerable profanity? The list of fires resulting from amateur electrical repairs would fill a big book.

Remember that cold morning when the fire was balky and, in a fit of anger, you turned to kerosene to get it going? That practice has burned down thousands of homes—and provided many a man with an abrupt passage to the hereafter.

Remember when you noticed that your furnace doors were no longer tight, that the flues looked to be in a sad state of repair, that the chimney shot sparks—and you decided to have those matters attended to another day? Sometimes the other day never comes.

Remember when you awaken-

ed and found the room full of smoke from the smoldering cigar butt that had fallen onto the bed or the carpet? The insurance records are full of cases where the smoker in question never did wake up again in this world.

The list of careless actions that may cause fire could be prolonged indefinitely. You may take a chance a thousand times and get away with it—and on the thousand and first time it may get away with you. The man who lights his cigarette with a twenty-dollar bill is not as wasteful or reckless as the man who takes a chance on fire.

A FIRE A MINUTE.

Don't leave small children alone at home!

Tragedy after tragedy has been recorded where an untended child has been either killed or disfigured for life by fire. A recent case is cited by the Industrial Commission of Wisconsin. A boy of four and his brother of six months were left in the house when the parents went visiting. The boy pushed the baby buggy containing his brother too close to the heating stove. A blanket caught fire, and the infant was fatally burned.

Other accounts tell of fires started by children playing with matches. In still other incidents a stove door is opened or lids lifted off by the child and fires are started. Fatal results have often followed the pouring of kerosene on a fire by a child. All small children love to play with fire, and no precaution should be overlooked in restraining them.

Parents should immediately take two steps. First, never leave your children alone at home. Second, do the simple and inexpensive things necessary to the elimination of common fire hazards. All fireplaces should be screened. Colthes should be hung at a safe distance from pipes and stoves. All heating equipment and adjuncts should be periodically inspected and overhauled. Continuous care should be taken in handling and storing inflammable liquids. Waste of all kinds, such as papers and rags, should be disposed of or stored in metal containers. The wiring of electric appliances should be checked occasionally—a frayed or twisted cord can cause circuits followed by fire.

Every minute a fire breaks out in America. Two-thirds of all those fires occur in homes. Will your home be on that list this year—and will you and your family be subjected to a menace that may take life, due primarily to your own carelessness?

CARD OF APPRECIATION

I wish to take this means of expressing my appreciation to the voters of this school district for honoring me with a place as one of your trustees, for the past few years.

It has been a pleasure to serve the people in this capacity and I did so to the best of my ability. I enjoyed the co-operation of other trustees, and I think our school and faculty are second to none.

I also thank you for the interest shown me in the last election, even though I ask that my name be omitted from the ballot.

No finer group of people can be found anywhere than our new selection of trustees and teachers. I see no reason why our school should not continue to rank among the best in the state.

W. J. Stewart

Mr. and Mrs. Jimmie Lowe of Crane, Texas visited Mr. and Mrs. J. C. Johnson over the week-end.

DEATH COMES TO NEW LONDON

The appalling disaster in the school at New London, Texas, in which hundreds of students perished when an explosion, followed by fire, destroyed a new \$1,000,000 building, should bring to public attention an old and grave problem—protection for school children.

Regardless of the cause of this cataclysm, it emphasizes the fact that thousands of schools throughout the nation, including some which are supposedly model plants, contain hazards that may—any day, any minute—result in disasters equally great.

It may seem unbelievable, but schools still exist in which the doors open inward. If fire broke out, panic-stricken children would pack against these doors, making it impossible to open them. And when the flames were extinguished, blackened, unrecognizable bodies would be found.

In other schools fire escapes are inadequate, or are difficult to reach. In others, heating plants are of poor construction or are in bad repair. In others stairways are narrow and are so designed and situated that a fire breaking out on a lower story would immediately roar up the stair wells, fed by drafts, making it impossible for children on upper stories to escape. They wouldn't even have a fighting chance for life.

Yes, literally thousands of schools contain hazards such as these. Experts from fire preventative organizations have often inspected relatively new school buildings—and found, to the astonishment of the proud board of trustees, that they teemed with hazards, any one of which could cause disaster and wholesale death.

Whatever the cause of the New London disaster, it should make the people think—and their thinking should force expert inspection of every school in America, and the elimination of any hazards found.

Health-Wrecking Functional

PAINS

Severe functional pains of menstruation, cramping spells and jangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines!

Thousands of women have found it helpful to take Cardul. They say it seemed to ease their pains and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods.

Try Cardul. Of course if it doesn't help you, see your doctor.

ENTOMOLOGIST TELLS FARMERS, FARM WIVES HOW TO COMBAT INSECTS

College Station—The insects which are waiting to attack the farmer's crops and his wife's fruits, vegetables, flowers and shrubs are of two general types, sucking and eating, and two different types of control measures are necessary to control them, according to R. R. Reppert, Extension entomologist of Texas A and M. College.

The sucking type of insects suck the sap from plants, and include such common insects as the aphids, or plant lice. Where insects suck the sap, stomach poisons are seldom effective, and a contact poison which attacks the insect from without is effective. Nicotine sulphate is the most widely adopted contact poison, and can be used either as a dust or a spray. To get good control contact poisons should be used on hot, still days, Reppert

Nations of World Allot Year 1939 To New York Fair

World Exposition Already Growing Up; Seeks Active Participation of State

NEW YORK, (Special).—The New York World's Fair, in which every state in the nation must inevitably take small or prominent part, is out of its infancy. Preparatory construction goes on night and day at the Flushing Meadow Site of 121½ acres at the geographical center of New York City. A steady flow of activities and announcements emanates from the Fair Corporation headquarters on four floors of the Empire State building. Judging from all of these, the Fair is a lusty growing institution that will reach full maturity—no question about it—by the scheduled opening day, April 30, 1939.

The task of grading the site is about half completed. Battalions of men with trucks have already moved over 3,000,000 cubic yards of dry fill in the process of turning the waste marsh land of the Flushing River basin into park ground. Other battalions are scooping out "meadow mat" for use as fertile top soil for the made lands, and in so doing excavate the beds for the two large lagoons featured in plans for the Fair.

The first of the 300 structures which, according to estimates, will house the 1939 Fair, has been completed and is ready for occupancy. This is the headquarters building for the field forces of today and the employment department of the exposition period.

Scheduled for early in the new year is the start of actual construction of the \$900,000 Administration building. The designs for this structure, let under architectural contract a few weeks ago, are nearing the day of their approval in the Corporation's offices. Upon completion of this building, late in August, 1937, the Fair headquarters, bag, baggage and sales offices, moves to the exposition site.

"The most splendid and significant edifice projected for the 1939 international exposition," the Theme building, as described at Fair headquarters, is also well along in its contractual period. The estimated cost of this great building for the "Thematic Centre" of the exposition is set at \$1,200,000. The preliminary designs are to be finished in about eight weeks and the final plans submitted within four weeks thereafter. Construction is scheduled to start immediately the design is completed.

From this Theme centre will radiate all that is to be the 1939 Fair as conceived by its founders and rendered into concrete terminology and model by the Fair's Board of Design.

said.

The chewing insects, such as the cabbage worms, web worms, potato beetles, tomato worms, and similar types can be controlled with stomach poisons, most of which are on an arsenical base. For spraying, lead arsenate is preferred, while calcium arsenate is generally preferred as a dust. Non-poisonous substances, such as derris or pyrethrum may be used on vegetables for the table.

Some insects break the general rules, Reppert said, and pointed out that the adult of the cotton boll weevil is controlled with stomach poisons while the striped cucumber beetle, a chewing insect, can be best controlled with contact applications.

The best way to determine the type of insect which is infesting a plant is to observe the type of injury, according to Reppert. If part of the plant is eaten away, it may be concluded that a biting insect is responsible; while if the plant appears unthrifty and the leaves are turning yellow and are withering, a sucking insect is responsible. County agricultural and home demonstration agents should be consulted as to the class and formula of poison to use.

CHILD HEALTH DAY NAMED FOR TEXAS

Governor James V. Allred has proclaimed May 1 as the eleventh annual Child Health Day in Texas, in conjunction with a national observance of the day under proclamation issued by the President of the United States. The State Department of Health is sponsoring May Day in Texas. Governor Allred said, "May

day has become an incentive for campaigns to immunize our children against smallpox, diphtheria, typhoid fever, whooping cough—to encourage child health clinics—dental, prenatal, pre-school, and to find and treat crippled children; to wage safe milk campaigns, realizing that the health and security of our children are essential to the well-being of our State and Nation, and as such deserving encouragement through the development of plans to promote maternal and child health and to extend child welfare, now therefore, I, James V. Allred, Governor of the State of Texas, do hereby proclaim May 1 as Child Health Day, and urge all agencies, public and private, concerned with the health and welfare of children, on this day to cooperate in the plans of Federal, State and local agencies in promoting the health and security of the mothers and children of Texas, and to make arrangements for carrying these benefits to the children of every county in the State."

Eye Strain

The first warning of eye strain should be taken very seriously. It is nature's way of warning you that your eyes need attention. You should consult with us.

NOBODY'S BUSINESS

Austin.—The battle between Gov. Allred and the legislature, smouldering ever since the 45th legislature convened, broke into the open with the definite indication from the senate, thru John Redditt, chairman of its finance committee, that the upper body will not pass any radically increased tax measures, because as Redditt pointed out in a lengthy technical statement, there is "no need for new taxes." It is my opinion that we would be better off if no new taxes were levied at this session," he said. "Why the necessity of levying and collecting many taxes unless there are needs for the adequate maintenance of proper agencies of government? Texas has the greatest opportunity of any state in the union by continuing its policies of economical administration of government and fair and equitable tax problems."

The actual needs, Redditt said, will be determined by the fate of the many tax remission bills. Gov. Allred has already said he would not sign tax remission bills unless provision is made to replace the revenues thus diverted from the state. He backed this up with a veto of the Harris-co flood control remissions, and the senate sticks to Redditt's policy. It is fairly obvious that Allred's ambitious plan of raising \$13,000,000 a year new revenue is definitely dead.

Confidence Shaken

Observers here agree that Allred's handling of the legislature has been far below the governor's usual skillful diplomacy. His first message, advocating enormous new tax measures after he had stumped the state during the summer declaring there was no need for new revenues, was a shock to the legislature. The governor's candidate for speaker Bob Calvert, won without opposition, and he apparently had a dominant position in the house, and, with new blood in the senate, a good chance to control there, too. But he forced his luck too strongly. His early messages, many here believe, were couched in rather harsh and undiplomatic language. Many members resented his flat decla-

rations that he would veto certain measures, before they were passed. His house control cracked when he fell out with the pension liberalization block. The senate resented his unusual course in appearing on the floor and at committee meetings to force action on the race-betting repeal bill, altho a heavy majority favored repeal. The lobbyists took skillful advantage of the situation and fanned the fires of resentment. The net result is the regular session will probably not solve what Allred has described as a financial crisis, little actually will be accomplished and one or more special sessions are strongly in prospect. Whether the state is better or worse for this session is, of course, a highly controversial question. But a good many sound thinkers believe the less the session does the better off the state will be and the better opportunity it will have to complete economic recovery, without burdensome new taxes of debateable necessity.

Another Highway Fund Raid

The highway department, operating on a cash basis and spending sizeable sums of money is continually subjected to attempted raids on its funds. The newest attack, chronicled in this column last week, had to do with a practice of certain small counties of issuing scrip for purchases. This scrip was then peddled about at a discount, in neighboring large counties, and used by buyers to pay for auto licenses at less than their neighbors have to pay. Under the law, small counties with less than \$50,000 annual income from auto licenses, keep all this revenue while sums over \$50,000 go, on a graduated scale, partly to the highway funds. Diversion of registration from large counties to small counties obviously cuts down the department's road building funds, which amounted last year to about \$5,770,000 from this source. The highway department took steps to curb the registration of cars in which the owners actually lived. Meanwhile, the house permitted introduction of a bill to legalize registrations in counties other than those in which the cars are actu-

ally owned. Friends of good roads are preparing vigorously to contest the bill, pointing out that such a plan would endanger a fund almost equal to the state's share of the \$15,000,000 of federal-state highways now being built each year; that it would endanger federal aid, because federal authorities are becoming impatient with states that divert motorists' tax money to purposes other than highway building; and that it would take a substantial part of all the funds now available for building strictly state roads, on which no federal aid is obtainable.

NOTES

Sen. Claude Westerfelt, of Dallas, gets tired of hotel food, so his charming wife, Nell, installed a tiny electric grill, on which she cooks biscuits "like mother used to make", broils bacon and scrambled eggs, in their hotel room. An invitation to breakfast with the Westerfelts is highly prized by Austin gourmets. Rep. "Red" Harris, of Dallas, is celebrating the arrival of a fine new son, his first-born, and as red-haired as his dad. . . . Members of the house appropriations committee put Maj. J. R. Larién, Houston oil operator and Texas U. regent, "on the spot" when he appeared to urge more liberal appropriations for the university. Parten frequently leads the independent oil men who appear to protest against higher oil taxes, and the committee professed wonder that he would favor more spending of state money. . . . The board of control is in a stew, trying to iron out a conflict regarding dedication of the \$500,000 San Jacinto memorial at Houston. It seems that thru somebody's mistake, both Jesse Jones and the Texas Masonic Grand lodge were both invited to lay the cornerstone. Jones controls the federal money the monument is being built with, and the Masonic brothers cast a lot of votes, so the board of control doesn't want to offend either party. . . . The fate of the racehorse repeal bill now depends entirely upon the parliamentary skill of its backers. It has a low place on the senate calendar. If they can get it up, it will pass overwhelmingly. Its opponents can keep it off the senate floor, the bill is dead for this session. The governor is reported to have declared he will submit the repeal measure at a special session, if it dies this time.

PAT TALBOT IMPROVED

Miss Pat Talbot, who underwent a major operation at a Temple hospital in January, is reported to be rapidly regaining her health. Miss Talbot was able to attend the meeting of the Riverside Home Demonstration Club last Tuesday.

H. H. Hooker of San Angelo was a business visitor here one day last week.

"BEST FOOT" PUT FORWARD FOR EXHIBIT

Neighbor Nations Will Send 'Only the Best' to Texas International Exposition

Dallas, Texas, April, 8.—"We must send samples of only the best," is the guiding thought of Latin American neighbor nations in assembling exhibits for the Greater Texas and Pan American Exposition, which opens in Dallas June 12.

Eleven republics of Central and South America already have accepted invitations extended by two flying envoys, Dr. Roscoe R. Hill and Charles H. Abbott, who have passed the half-way mark at the southernmost tip of the continent and are returning through Atlantic-side capitals. They call on neighbor nations began at Mexico and will be completed when they reach Havana in mid-April.

Typical of the responses for space in the million-dollar Pan American Palace at the international fair, where wares of the western world will be shown, is an editorial just received by Director General Frank L. McNeny from El Cronista, published at Tegouigalpa. Honduras was one of the first countries to receive and accept the invitation from the emissaries.

"We cannot help but applaud" read the editorial, "and applaud enthusiastically the official approval to present in Dallas an exhibit of our best natural products and those of our rising industries." The editorial identified the stand of Honduras and El Cronista in the following, translated from its printed version:

"We who for so long have begged to make known the numerous natural resources in foreign lands, in order to attract capital and industrialists to cooperate in their proper exploitation; we who have in recent years carried on propaganda to establish permanent exhibits of natural and manufactured products in consulates in the United States and other countries cannot but applaud."

The editorial recalled that the government once exhibited in an exposition in Florida "where the good quality of our products received a prize and the praise of all the visitors." At that time, manufacture of junco hats attracted a great deal of attention.

At the Dallas Exposition, Honduras expects to make an interesting exhibit of its tobacco products, just as Colombia and Brazil and other nations plan to show cacao, rubber and coffee, and the many varied natural products of their lands.

"To make a more complete success of the Exposition," said the editorial, "it must be recom-

mended that the authorities in charge be sure to furnish those persons who will go with it with accurate details of the location of these products, their relative abundance, facilities of transportation to the regions in order to exploit them properly, of prices transportation from these regions to ports where they are to be shipped and, if possible, photographs of the regions."

WEST TEXANS FEED LIVESTOCK FOR HOME AND MARKET

County agricultural agents of the West Texas section report that there has been, in the past few years, a noticeable trend toward feeding out hogs, sheep, and cattle, both for home use and for market. The advent of the trench silo has facilitated the feeding program, the agents point out.

Hog producers of Kimble county are using protein supplements for the first time in feeding enterprises. Use of cottonseed meal and tankage in feeding out 22 hogs is estimated by S. R. Schneider to have saved our bushels of corn per head. Schneider owned two grade sows which saved nine pigs in the spring and 13 from the fall litters. Unable to sell the pigs at a fair price, he decided to feed them out. The spring litter went to market in 156 days weighing 186 pounds while the 13 fall pigs were sold at 178 days, when they averaged 192 pounds. The hogs topped the market and returned a good profit. Schneider has purchased two registered sows and a registered male of the Hampshire breed for future use.

The first trench silo built by Fred Thalman of Bandera county is being used to furnish roughage for 18 head of steers he is feeding out. In addition to he-gari silage, the steers are receiving cottonseed meal and crushed ear corn, and put on an average daily gain of 2.85 pounds during January. Thalman believes that

silage is the cheapest and best all around roughage that he can supply for his feeding operations, and is planning to put in two additional trench silos next year.

The county agricultural agent of Reagan and Glasscock counties conducted a trench silo demonstration on the farm of Harry Echols on February 4, when a silo was opened and the silage fed to dairy cows, hogs, horses, and sheep. Echols is feeding 85 head of sheep, a steer to be butchered for home use, and seven milk cows. He has enough feed in his two silos to feed this number of animals for five years without raising another crop.

APPLE BOXES USED TO BUILD CLOSET

Hazel Doyle, the Bedroom Demonstrator of the Senior 4-H Club, has about completed all of her work in Bedroom Improvement. One of Hazel's most prized exhibits is a closet that she and her mother built from orange and apple boxes.

She papered her room and hung new drapes and she is planning to arrange a study center by adding a chair that she will refinish and making a book case and a waste basket.

Mrs. A. T. Wright and daughter, Miss Agnes were visitors in San Angelo last Wednesday.

When You Feel Sluggish (Constipated)

Take a dose or two of Black-Draught. Feel fresh for a good day's work.

Work seems easier, life pleasanter, when you are really well—free from the bad feelings and dullness often attending constipation.

For nearly a century, Black-Draught has helped to bring prompt, refreshing relief from constipation. Thousands of men and women rely on it.

We Can Save You Money

West Texas Feed Co.

The Humble Company lists approximately 13,000 Texas men and women on its payrolls. If you could gather all these folks and their families into one place, they would make a city with over 50,000 people. Happily, they don't all live together; they are scattered through the length and breadth of Texas so that the work they do, the money they earn, contributes to the building up of a hundred or more Texas communities. Through them, as through many other activities, the Humble Company, a Texas institution, plays its part in the sound development of our common state.

American Legion In Building Boom Sweeping Texas

Recreation spots where West Texas boys and girls can run and play, where their mamas and papas can go for a swim and a dance, and where the younger set can meet in their run-down flappers or their swanky sport models—that's the example set by Abilene's American Legion.

And it's all a part of the building boom now sweeping the West Texas country where, not so many years ago, savage Indians sought relaxation in the hone-too-savory sport of taking pot shots at our ancestors.

The harder people work, the more they need relaxation, declared N. R. Kennedy, local leader for the West Texas Utilities Company who paused from his multitudinous duties long enough to discuss the Legion's Building project in Abilene.

"Now, take those boys there," he continued, "they don't have much money to work with but they've managed to dig up the money for a 50 by 130 foot club house—all because they work hard and they want to have a little fun in their spare time."

And they're not doing any shoddy job, either. Modern as any high-powered club house in the country. Why, they've already installed 90 feet of lumiline lights in four different colors across the ceiling of that building. And they're dickering for an attic comfort cooling system so they can sit and read, write, or do their jiggling, this summer with all the comfort of a seaside resort. They've even figured out a way to finance a complete electric kitchen for their banquets and conventions. Those boys sure have got something on the ball!

The Abilene Legion has a 5-acre plot on the main highway east of the city. Located on the site is a children's playground, a natatorium, a caretaker's cottage, and the new club house—50 by 130 feet in size. The entire grounds is lighted by flood lamp.

The club house, constructed of native stone, includes a dance floor 35 by 81 feet which can be converted into a theatre with stage at the north end; lounge rooms for men and women; banquet kitchen; lodge room an office. A patio, 12 by 88 feet, is on the east side facing an artificial lake and the swimming pool. A cove lighting system with center ceiling construction of lumiline changeable lamps in

four colors (red, green, yellow, and blue), extends the length of the building.

Ruck Sibley, chairman of the building committee and former post commander, said completion and gala opening of the club house on June 1 will culminate a drive begun 11 years ago by the Legion for a recreation park which might be opened to the public. Income from the swimming pool and dance facilities will be used to promote Parramore Post's "community service, child welfare and public safety" program.

The Post plans a three-day dedication program about June 1. A nationally famous orchestra will be secured for the event, Sibley said.

956,000 TEXANS BENEFIT FROM SECURITY LAW

San Antonio, April 6.—More than 956,000 people in Texas are benefiting directly under the Social Security Act, with eight of the act's ten provisions now in operation in this State, according to a statement issued today by Oscar M. Powell, regional director of the Social Security Board. Among these beneficiaries are approximately 670,000 who are estimated to be employed in jobs covered by the State unemployment compensation law and 120,000 who are being aided under an approval old-age assistance plan. Records show that 836,586 wage earners have applied for accounts under the old-age benefits program. Practically all these are also covered under the State's unemployment compensation law.

Powell explained that only one part of the act—the old age benefits program which went into operation January 1—could become effective without State action. In the other nine programs the States must take the initiative. Texas, it was pointed out, has set up approved plans for seven of these services, covering: unemployment compensation; aid to the needy aged; maternal and child-health services; services for crippled children; child-welfare services; vocational rehabilitation; and public-health services. The programs in which it is not yet participating are: aid to the needy blind, and aid to dependent children in their own homes.

Through the old-age benefits program workers in commerce and industry are now beginning to build up credits toward regular monthly incomes which will give them something to live on after they retire.

Under the State's unemployment compensation law, enacted on October 27, 1936, eligible workers who become involuntarily unemployed will be entitled to regular payments of 50 percent of their full-time weekly wages, with a maximum of \$5 or three-fourths of weekly wages whichever is less. Ordinarily benefits may last as long as 12 weeks during a year, depending upon the worker's past employment. The State is already col-

lecting funds under this law, which stipulates that unemployment compensation payments will begin in January 1938.

Powell stated that under the State-Federal old-age assistance program approximately 120,000 of the State's needy aged during March received cash allowances from funds provided in part by Texas, and in part by the Federal Government. It is estimated that in March it paid out from combined Federal and State funds a total of \$1,800,000 for old-age assistance. In January, the average individual payment to the aged was \$14.98. These estimates are based on reports to the Social Security Board since this plan went into operation.

The Texas old-age assistance plan under the act became effective in July, 1936. All told, it has received Federal grants of \$7,180,950 for old-age assistance.

Texas passed a State law for

old-age assistance in 1935, but this did not become effective until the present plan went into operation. It has had a State law for aid to dependent children (mothers' aid) since 1917, but had not made any specific provision for aid to the blind.

In addition to participating in these programs for which the Social Security Board is the Federal administrative agency, Texas is also cooperating in social security programs directed by other Federal agencies.

The three maternal and child-welfare programs, administered by the Children's Bureau of the United States Department of Labor, provide for the extension of such services, particularly in rural areas. Texas had an approved plan for maternal and child-health services for 1936, and Federal payments totaling \$42,001.66 had been made to the State by June 30. The plan approved for the fiscal year end-

ing June 30, 1937, provides for a Federal grant of \$190,590. Under the 1936 approved plan for services for crippled children, \$49,999.92 had been paid to Texas by June 30, 1936. The 1937 plan, as approved, includes a Federal grant of \$152,730.02.

A Federal grant of \$27,349.74 was paid to Texas for child-welfare services under the 1936 plan. For the fiscal year ending June 30, 1937, a Federal grant of \$90,758.43 was provided in the Texas plan approved.

The purpose of vocational rehabilitation is to provide reeducation for workers crippled in industry. At the end of the last fiscal year, 2009 such persons were receiving training under the Texas program, for which the State has received Federal grants of \$90,054. The Federal administrative agency for this part of the act is the Office of Education of the Department of the Interior.

GOES TO ODESSA

Return Of Piston Rings Lands Mexicans In Jail

**RINGS IDENTIFIED AS BEING
TAKEN FROM REPAIR SHOP
OVER YEAR AGO**

It's very seldom that a person is "jailed" for taking back something he's borrowed. Perhaps if this should happen more often, it would serve to remind us all to be a little more prompt about returning borrowed articles.

But this case of "borrowing" was a little out of the ordinary. The articles borrowed were some 24 piston rings, and they were borrowed a little over a year ago.

Last Monday, two Mexicans entered M. F. Laird's auto repair shop. Although they probably didn't know it they were returning a portion of the borrowed piston rings—16 of them to be exact.

Mr. Laird recognized the handwriting on the wrappers as his own, and, instead of buying the rings back, as we're told the two "Mex." boys wanted him to do, he notified the law. And Urbano Contu and Lionisio Perez, local Mexicans, soon found themselves peeping through the bars.

The Mexicans declared that they had bought the piston rings

from other parties, and, consequently, knew nothing of their being stolen 12 months ago. After being questioned thoroughly, the Mexicans were again granted freedom, but they lost their piston rings in the deal.

Chamber of Commerce To Hold Convention In Brownwood, Tex.

Brownwood, Apr. 7.—Elaborate preparations are being made for the nineteenth annual convention of the West Texas Chamber of Commerce to be held here May 10, 11 and 12.

Brownwood Chamber of Commerce already has appointed the convention steering committee and committee chairmen. Jed Rix, assistant WTCC manager, has opened convention headquarters in Hotel Brownwood.

An attendance of at least 10,000 people is expected. Hotel reservations are being received daily.

General outline of the program has been completed, but a number of details are yet to be worked out. The program will include two general assemblies, on Tuesday and Wednesday

mornings.

In addition to the general assemblies, four group conferences will be held "Soil Conservation and Flood Prevention", general theme of the entire convention, will be topic of discussion at one of the conferences. Subject of another one of the conferences will be "Oil and Gas Development in West Texas."

Two luncheons for WTCC directors, who are expected to attend from all affiliated cities and towns, will be held, one on Monday and the other on Tuesday. The directors will hear reports from the convention work committee and vote on proposals and resolutions received.

A luncheon for newspapermen and Chamber of Commerce secretaries will be held Tuesday, May 11.

Two outstanding shows, for which talent already is being secured, will be presented under the direction of Dr. Mollie W. Armstrong, Brownwood. The shows will be highlights of the Monday and Tuesday night programs of the convention.

Governor James V. Allred and Col. Ernest O. Thompson, member of the Texas Railroad Commission, have accepted invitations to speak during the convention. Other speakers of national prominence will appear on each program during the three-day session.

B. Y. P. U. GROUP IS ENTERTAINED WITH PARTY APRIL 1

After school, April 1st, a group of Juniors were entertained by their Leaders in the home of Mrs. Bailey Montgomery. After being divided into two groups, several games were played; the losing side in each contest had to wear dunce caps until they became winners. After playing these games a short business session was held and the following officers were elected for the next quarter: President, Tommie Alaine Davidson; 1st vice-president, Mozelle Parks; 2nd vice-president, Pauline McLaughlin; Secretary, Ollie Alexander, Jr.; Group Captains, Nora Kate Brown, Walter Roy Davidson and Joe Montgomery. Refreshments of cookies and lemonade were served to the ones named above and Mary Rounds, Norma Jean Sproul, Ida Davis, Maxine and Katherine Montgomery, Billy Jack Reynolds, Ray and Roy Jacoby, Mrs. Montgomery, Mrs. L. M. Hoover and Joe Cleary Moore, Mrs. G. A. Neill, and J. C. Parker visitors.

National Youth Administration boys working under the supervision of the county agricultural agent in McLennan county during February ran terrace lines on 852 acres of farm land, constructed 18 check dams in outlet

ditches, and sod 6, 654 square feet of terrace outlets and outlet ditches, A. W. Brisbin, assistant district supervisor, reported to J. C. Kellam, acting state director.

ART CLUB TO HOLD REGULAR MEETING ON NEXT SATURDAY

The Art Club will hold its regular meeting next Saturday afternoon at two o'clock in the home of Miss Ellington. The program will be a discussion on free hand drawing, by Mrs. Jack Elder, and Mrs. Robert Milligan will give a paper on "Onderdonk Dean of Texas College."

Officers who are now serving

the club are: Mrs. Jack Elder president; Mrs. Robert Milligan, vice president and chairman of the yearbook committee, being assisted by Mrs. Claud Meador; Mrs. S. D. Harper, secretary and treasurer; Mrs. Tommy Smith, club reporter, and Mrs. W. O. Alexander, parliamentarian.

The club meets on the second Saturday of each month. Those interested in joining are invited to call Miss Ellington.

David DeLong returned home Tuesday, after spending the week-end at A. & M. College, where he attended the cotton festival.

Eldorado Hdw. Co.
"A Service Institution"

per acre.
(e) The method of computing the Soil Building Allowance for the farm has been changed. The 1937 Soil Building allowance will be \$1 for each acre in the soil conserving base, plus \$1 for each acre diverted from a soil depleting base for payment, plus \$1 for each acre in commercial orchards on the farm in 1937, plus \$1 for each acre devoted to only one crop of commercial vegetables in 1936, plus \$2 for each acre on which two or more crops of commercial vegetables were produced in 1936, plus 25 cents for each acre of fenced, non-crop open pasture land that is in excess of one-half of the crop land on the farm and which has a carrying capacity during the normal pasture season of at least one animal unit for each five acres. Terracing idle cropland, or planting soil conserving crops will not increase the soil building allowance for the farm.
(f) The general soil depleting base has been changed to include the entire acreage normally interplanted to general crops and legumes, the acreage of small grain is normally harvested for seed, hay or forage.
(g) The rates of pay for diversion from the general soil depleting base has been changed from an average of \$10 per acre for the United States to an average of \$9 per acre for the United States.
(h) Deductions will be made if the 1937 acreage of crops in the general base exceeds such base, or the acreage of such crops needed to meet home consumption needs for the farm, whichever is the greater.
(i) The County Conservation Association will handle at least certain parts of its local administrative cost by means of "county budgets" similar to old Corn-Hog Associations. Details are not yet available.

2
(From Page One)
senior boys division, John McWhorter of Eldorado placed third, with Menard first, Sonora, second, and Junction fourth.
In the athletic division Johnnie Clement and the volley ball girls were the star performers for Eldorado. Johnnie won first place in both high jump and the discus throw, receiving two gold medals. Each of the six girls on the volley ball team received gold medals for first place. Those on the team were: Josephine Parrent, Ernestine Finnigan, Ber-

by Jo Whitten, Flois Duncan, Floyce Sherrod, and Charlene Mund. Junction ranked second in volley ball, with Sonora third and Menard fourth.
Others who placed in athletic events for Eldorado were Hugh Craig who ranked second in the mile run and fourth in pole vault, Johnnie Clement third place in both low hurdles and broad jump, Gene McCalla fourth in the 220 yard dash; Slaton Skinner third in the 880 yard run; Harmon Bodine fourth in the 880 yard run; and Jack Whitley, the only junior to place, won third place in the high jump and the pull high.
The final rankings in the track meet were Sonora, first; Junction second; Eldorado, third, and Menard, fourth.
Junction won the all-around athletic championship, nosing out Sonora by only three points.
All the schools were enthusiastic over the value of the 4-county meet in fostering a healthy spirit of competition between the schools. All the schools are looking forward to having a bigger and better meet next year.

ELDORADO SCHOOLS HOLD MEMORIAL SERVICE

The Eldorado schools held a memorial service in honor of the school children who died in the New London school disaster on March 17. Rev. W. B. Wheeler of the Methodist Church conducted the service, which was held in the school auditorium last Wednesday.

In his talk to the student body, Rev. Wheeler stressed the fact that the children who died in the New London explosion did not die in vain, because a law had been passed in Texas since the disaster which will make a recurrence of the tragedy very unlikely. He brought out the fact that down through the pages of history it has always been necessary for men and women to lay down their lives in order that progress might continue, citing San Jaun Hill, The Alamo, Golliad, and Flanders Field as some examples.

After the talk by Rev. Wheeler, the Eldorado school children were permitted to give one cent each to be sent to the Memorial Committee in New London to be used as that committee sees fit. The total amount given by students and teachers was \$7.35, many giving more than the designated penny.

Mr. and Mrs. Charlie Boettcher of Wichita, Kansas, were in Eldorado last week. Miss Doll Weatherly accompanied them to San Antonio for the week-end.

Members of Junior Class Select Rings For Next Year

The Junior Class met Wednesday afternoon and ordered their Senior rings for next year. The rings are of streamlined design, have a large engraved top, and might be had in solid 10 K gold, heavyweight, gold plate, solid base, or hollow base types. The plated rings were \$8.25 for the girls and \$9.25 for the boys. The solid gold rings are \$9.25 for the girls and \$10.25 for the boys.
The rings were ordered from the Star Engraving Company of Dallas, Texas. Students may have their rings early in the fall of next year if they deposit \$1.00 before June 1. Those who deposit \$1.00 will receive either a silver basketball, gold plated belt buckle, silver football or wristlet.

NOTICE
Several complaints have been made about school boys driving down the sidewalks near the school in their cars. Such acts endanger the lives of others, and those guilty of this are subject to prosecution. I want to urge everyone to see that this is not repeated in the future. Let's protect the lives of our children.
A. T. Wright, Mayor

RANCHMEN—Plenty of live-stock contracts, covering agreements on sale of livestock, on hand at the Success Office.

CLASSIFIED ADVERTISEMENTS

FOR SALE—High grade cotton. Seed at \$5.00 per 100 pounds. These turnouts last year were from this cotton.
