"A Weekly Publication Serving Schleicher County"

VOL. XXXVII

Eldorado, Schleicher County, Texas, Friday, August, 20, 1937.

NO. 34

On The DIVIDE

AND SO GOES GOSSIP

"Street Gossip" has it that two of Schleicher county's typewriters have been loaned out, without the knowledge or permission of the Commissioners Court. And while they are loaned out—to be taken outside the county, so this "street talk" has it—those who loaned them, had to borrow one from another office.

According to these reports, which we take as being reliable, one of the typewriters was taken to Tom Green county, and the other to Sutton county.

Some months ago the Commissioners Court purchased two new typewriters, and both the old ones were sold for more money than would be allowed on the new ones.

We purchased one of the old typewriters, paying twice as much as it would have brought had it been turned in on the new one. We paid cash for the machine and were given a receipt under the date of March 15th, and then were out a considerable amount for repairs before it could be satisfactorily operated.

Someone saw the machine and recognized it as the one formerly owned by the county. We're told that considerable criticism was put out at that time because the newspaper office was using the county's typewriter. As a matter of fact it was, and is, our own personal property—not that of the newspaper office.

We didn't know the county's typewriters could be borrowed, or leased. If we had known this we would not have bought the machine we now have, but borrowed it from the county.

If such is the case—if these machines are loaned out, or hired out, someone is assuming authority which does not properly go with any one office in our county.

IT HAPPENS ABOUT THIS TIME OF YEAR!

Along about this time of year, folks begin thinking in terms of football. This is especially true of those boys who have experienced "many battles" out on the gridiron.

Jack Hext, one of the Eagle mainstays last year, has made the latest contribution in the following comparison:

Working in a drug store in Eldorado on Saturday afternoon is like a football game.

Ed Hill is quarterback—he calls the signal with a cherry coke, and we get a line rush for the fountain. Then everyone goes out, goes into a huddle again and get the signal. About the time the counter is clean, here comes another line drive.

This occurs from 3:30 to 6:30.

BUILDING NEW HOME

Construction on a new residence for Mrs. Ruth Boyer was started about two weeks ago. The dwelling is located just east of the Presbyterian church.

This new home, which will be modern in every respect, is expected to be completed within the near future.

Eighth Anniversary Being Observed By Self Serve Grocery

Free Sandwiches And Coffee
To Be Served During
Friday, Saturday

Observing the eighth anniversary of the opening of the Self Serve Grocery in Eldorado, A. D. Richey, Jr., owner, is offering many specials for Friday and Saturday of this week. Free sandwiches and coffee will be served during the anniversary celebration and good-will grocery boxes will be given away at various hours during the day Saturday. These hours are designated in the Self Serve ad this week.

The Self Serve was opened eight years ago August 18th by Williams & Richey. In 1936, A. D. Richey, Jr., purchased the interest of his partner, and the store is now owned and controlled exclusively by Mr. Richey.

"We opened with a \$1,350 stock," Mr. Richey said, "and today the Self Serve stock consists of over \$25,000 in merchandise with no indebtedness against the firm. We have always made it our motto to give the people of our trade territory merchandise at prices as low as at San Angelo, and many of our every day prices are lower than at Angelo."

"We wish to thank the public for the generous patronage extended us during the past eight years, and we hope to serve you many more years in the same efficient way. We believe that nothing is too good for Self Serve customers. Courteous, efficient employees are on duty for your convenience. We believe that our present employees are the most efficient we've ever had during our eight years in Eldorado. Every employee in our store is a gentleman, is courteous and accommodating at all times, and we believe our customers appreciate this fact."

"Schleicher county is the home of the Self Serve Grocery," Mr. Richey continued, "and many of our present customers have traded with us during all of our eight years here. We appreciate your loyalty to a firm that is trying to serve you better every day, and we extend a cordial invitation to every man, woman and child to visit our store during our anniversary celebration."

REVIVAL MEETING TO BEGIN SUNDAY AT KAFFIR

A revival meeting will begin at the Kaffir school building next Sunday, and will continue through Sunday, August 28th.

Kenneth Green and Gene Lewis, both Schleicher county young men and licensed preachers, will do the preaching for this revival. The singing will be under the direction of Clifford Nelson of Coleman.

A good meeting is expected, and a cordial invitation is extended to everyone to attend these services.

Mr. and Mrs. John Kerr and son of Houston spent several days here, visiting Mr. Kerr's brother and sister, Doc Kerr and Mrs. Tom Jones, and other relatives in this county.

Vocational "Ag" Department Is Now Being Equipped

Work has just been completed on tables, filing case, and book and equipment case for the vocational agriculture department. New books and magazines are also being ordered as required by the State Department for Vocational Education to offer a well-rounded source of reading material for the agriculture work.

According to E. O. Nevills, agriculture instructor, everything will be in readiness by the opening of school. He is at present working on a survey of the community to assist him in preparing the outline for a course of study which will best fit the needs of the boys of this section.

The department is being equipped and plans are being made for an enrollment of approximately fifty boys.

ATTENDING COWBOY CAMP MEETING

Mr. and Mrs. Tom Jones and daughters, Rosalyn and Pauline, left Thursday morning for the Davis Mountains, where they are attending the annual cowboy's camp meeting.

This meeting has been held annually for many years, and the Jones family has attended for the past eleven years.

Annual Encampment For Women And Girls Postponed This Year

Announcement was made Monday that the annual county-wide encampment for club women and club girls of Schleicher county has been called off. This encampment has been held annually for the past several years as a climax to the annual A. & M. short course.

A called meeting of the county council was held last Saturday afternoon, at which time it was decided to call off this encampment because of the fact that the annual Short Course would not be held. The women were to hold their meeting on the 27th and 28th of this month. The girls encampment was scheduled for August 30 and 31.

Miss Frances Bowen, county home demonstration agent, stated that plans are being made for some form of club activity to take the place of these annual encampments.

UNIVERSITY MAN IS THRU HERE MONDAY

Mr. E. R. Dabney, who is in charge of the Newspaper Library of Texas University, was in Eldorado last Monday on his return to Austin. Mr. Dabney was accompanied by his wife and son, and had been on a vacation trip.

Mr. Dabney was a pleasant caller at the Success Office and had his place in our mailing list. He explained that all newspapers received by his office are securely bound and placed on file as permanent records.

Many students who graduate from the University of Texas go to the Newspaper Library to secure data for their thesis, and this library is serving a wonderful purpose.

Boundary Line Of Schleicher And Tom Green Determined

COMMISSIONERS IN MEET
LAST WEEK AND DECIDE
ON BOUNDARY

Accepting the original L. L. Farr survey, members of the Schleicher county and Tom Green county Commissioners Courts determined the boundary line between these two counties on Thursday of last week. For many years, this boundary has been indefinite and has caused considerable mix-up in tax renditions.

Surveys of land lying along the county line, based upon the early L. L. Farr survey in 1891, compiled by W. F. Morris, deputy Tom Green tax assessor-collector, were accepted by the two groups of commissioners.

Resulting from the setting of the boundary, some lands along the line will be shifted from one county to the other for convenience of tax assessments. It can not be determined yet which county will benefit or whether either will benefit from the shifts. Mr. Morris said. Thirty-four blocks, or 21,760 acres are involved.

Both counties will pass orders accepting the Tom Green survey, which are to be sent to the state land office. There, corrections will be made in the next abstract of land titles.

L. L. Farr surveyed the county lines in 1891 and his survey has been held valid since.

ATTEND MEETING OF BAPTIST ASSOCIATION

Several from Eldorado attended the West Texas Association of Primitive Baptists which was held with the Concord church in Dickens county last week.

Local people to attend were Mr. and Mrs. Jack Faught and son, Mr. and Mrs. George Woods Ed Hazelwood, Mr. and Mrs. Will Faught, Milton Faught, Victor Sauer and his two sisters, and Edith Faught. All reported a good trip and a very interesting and inspirational meeting.

School Board Adopts Budget For 1937-38 Session

At its called meeting Monday evening, the Board of Education of the Eldorado Independent School District adopted a budget for the 1937-38 school year, employed a teacher, and transacted several miscellaneous business items.

A comparison of the actual expenditures for the school year ending with the budget adopted last year shows a saving of a little more than \$1,000. The grand total of the budget for the coming school year will amount to a little more than the total for the 1936-37 session, due principally to the inclusion of vocational agriculture in the curriculum.

Miss Ellice Hudson of Austin was selected as commercial teacher to fill the vacancy created by Miss Dilla Enochs, who did not accept the position. Miss Hudson has the B. B. A. degree from the University of Texas and has had seven years experience. (Continued from page 4)

Louis Kerr Is Now Employed By City Grocery

Louis Kerr, Jr., son of Mr. and Mrs. L. B. Kerr, who are well known in Schleicher county, has recently been employed by the City Grocery. Louis has lived in this county for about 14 years, and is well known here.

After finishing Eldorado High School, Louis attended Harding College at Searcy, Arkansas. He took a journalistic course at Harding, and had launched a successful college career at the end of the year. It was while at Harding that he met Miss Doris Crook also a student at Harding, who later became his wife.

Mr. Kerr was employed by the City Grocery soon after he returned to Eldorado, and has again started on what promises to be a different but an equally successful career. His polite manner and ready smile makes him a favorite of many customers.

Mrs. Kerr is also employed by the City Grocery, working on Friday and Saturday of each week. "We believe that our customers will find a friendly and courteous service rendered by this couple," E. M. Willis, manager, said, "and we invite the friends of Mr. and Mrs. Kerr to pay them short visits in the store as they would otherwise."

First Bale Of 1937 Cotton Ginned Here Monday

BALE WEIGHS 493 POUNDS,
GROWER GIVEN PREMIUM
OF ABOUT \$30

The first bale of 1937 cotton was ginned in Eldorado last Monday. The cotton was grown on the N. Williamson place in Schleicher county.

The bale was ginned by the Farmers Cooperative Gin of Eldorado, and was bought by Payne Robinson, who paid 12 cents per pound. From about 1,400 pounds of seed cotton Mr. Williamson secured a 493 pound bale.

Business men of Eldorado are contributing toward the annual premium offered for the first bale ginned in this county. Mr. Robinson stated Wednesday that the premium list would amount to approximately \$30.00, with practically every business house making some contribution.

Five bales of cotton have been ginned by the Farmers Cooperative Gin, four of them being from the N. Williamson place. The fifth bale was brought in by A. P. Bailey.

Reports from over the county are that early cotton is opening rapidly, due to the hot, dry weather.

PAUL McLEODS ON VACATION IN MEXICO

Mr. and Mrs. Paul McLeod left Wednesday of last week for Potosi, Texas, where they joined Mr. McLeod's parents, Mr. and Mrs. John McLeod, on a trip to San Antonio to visit relatives.

Mr. and Mrs. Lawrence Neill joined the party in San Antonio, and they are on a two weeks vacation trip to Monterey and Mexico City and other points in Mexico.

Precinct Four To Hold Liquor Election On Next Monday

ALL PRECINCTS TO VOTE
ON AMENDMENTS TO
CONSTITUTION

Besides having the privilege of voting on the six constitutional amendments next Monday, citizens of Precinct Four in Schleicher county will also vote on the question of whether or not the sale of liquor will be permitted in that precinct.

This election was called by the Commissioners Court after that body had been presented with a petition signed by a number of qualified voters, asking for the election. The petition was presented the court as a result of attempts to secure a license to sell liquor in this precinct.

It is believed that this precinct will poll the heaviest vote next Monday, since those opposed to the sale of liquor are making a concerted effort to keep this precinct dry. The election is to determine whether or not the sale of liquors containing alcohol in excess of one-half of one percentum by volume shall be prohibited.

Other precincts will vote on the six amendments to the state constitution. Briefly, they are as follows:

1. Authorizing the Legislature to incorporate banking bodies.
 2. Assistance to destitute children.
 3. Abolishing of salary method of compensating all district, county and precinct officers of this state.
 4. Providing that no property shall be assessed for ad valorem taxes at a greater value than its fair cash market value.
 5. Authorizing the adoption of a plan for construction of paved roads and bridges or both in Harris County and in road districts therein.
 6. Assistance to needy blind over the age of twenty-one years.
- All qualified voters of Schleicher county are urged to vote in the election next Monday.

Electric Rates Reduced To Users In Eldorado

The West Texas Utilities Company this week ignored the rising cost of living when it announced a reduction of 16 2-3 per cent in electric rates for Eldorado.

A new low rate of 2 1-2 cents per kilowatt-hour for all current over 50 kilowatt-hours used monthly in homes equipped with electric ranges was announced by N. R. Kennedy, local manager. The reduction makes electricity as practical as any other fuel for cooking purposes, he said.

The 2 1-2 cent rate is effective with this month's bills. Only customers using electric cookery will benefit by reduction. It is based on the theory that "the more you use, the less it costs," Kennedy said.

Where the electric range is installed, all current over 50 kilowatt-hours used each month will take the lower rate. It is a step in the "incentive rate schedule"

DEATH'S BUSY SEASON

Now that summer is here, with its increased tourist and other automobile traffic, death prepares to reap its richest harvest. From the homes of the United States must come about 37,000 to die and a million others to be injured, some crippled for life, during the year, if former record are to be equaled.

This senseless slaughter goes on in spite of all the warnings given and in the face of the object lessons held daily before our eyes.

The pitiful part of this continuous tragedy is that most of these casualties are entirely unnecessary and might be prevented by the exercise of ordinary common sense. They are due either to an insane desire for speed or an utter disregard for the most elementary rules of safety.

Many of the victims are helpless passengers, whose lives are at the mercy of the criminally reckless or incompetent driver. Some accidents are apparently unavoidable, of course, but in the vast majority of cases they are the result of pure carelessness on the part of motorists or pedestrians.

And even the most careful driver is often helpless when he encounters a fool on street or highway.

A UNIQUE INVENTION

A reading lamp that cools the reader by means of a four-bladed silent electric fan mounted just above the light bulbs was invented recently by E. G. Shinner of Chicago. The unique lamp was one of the features of the recent Merchandise Mart lamp show.

Designed to sweep the cooler air from the floor of a room the fan's horizontal blades draw this air through the vented opening which surrounds the top of the shade. In this way the steady flow of heat given off by the light bulbs is in this lamp carried off through the shade, rather than falling about the reader's head and shoulders. The fan, moreover does not blow a direct blast on anyone in the room, but in blowing directly ceilingward disperses such odor as tobacco smoke.

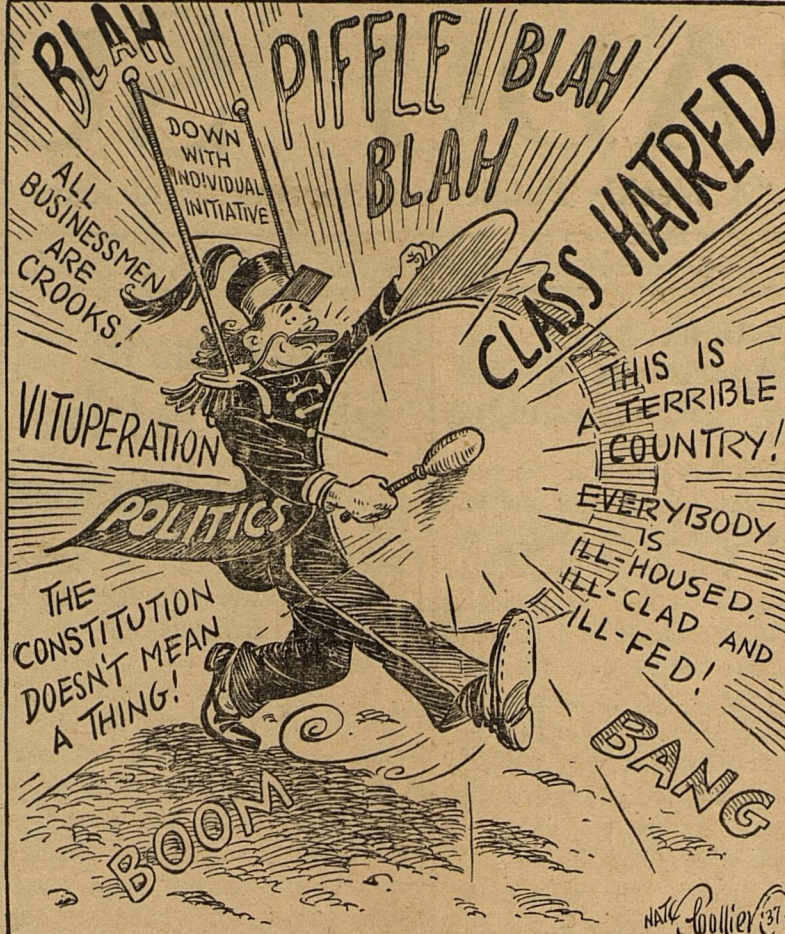

The lamp has several other interesting uses such as for a bedside lamp when, during the night, the lights are turned off but with the fan kept running for cooling and proper ventilation. Here again the sleeper does not have a direct blast blowing on him and therefore any possibility of contracting neuritis is completely eliminated. Physicians and health authorities who have examined the fan-lamp have approved it on this score. The lamp is also adaptable to office use.

GLOOMY PROSPERITY

After a long period in which new financing by industry was at its lowest ebb, a start toward normal financing has been in evidence in recent months, although it has been handicapped by the operation of new restrictive laws already in effect as well as by fear of further harmful legislation to come.

According to Col. L. P. Ayres, a noted financial authority, the second quarter of 1937 has been a period of "pessimistic prosperity." While production and em-

BEATING THE BIG BASS DRUM

ployment have increased and profits have been somewhat larger, business sentiment has been predominantly gloomy. Col. Ayres believes the explanation for this sentiment may be seen in the decline in the security markets, "a condition which never fails to produce gloom among business men, even though their own affairs may be entirely unaffected by such declines."

Rumors of a plan to require 100 per cent margins in security markets have had a further disturbing effect, according to another expert, who declares that if margin buying were outlawed, prices of securities would be artificially driven down, at the expense of investors. He asserts that the Federal Reserve Board already has ample authority to prevent the excessive use of bank credit in the purchasing and carrying of securities.

Further tinkering with the financial machinery would probably halt industrial expansion plans, and thus new opportunities for employment would be lost and potential increases in the nation's productive wealth would be restricted. Legislative and bureaucratic tinkers must give business and industry a rest before we may expect to see a return to sound prosperity.

LOCALS

Mr. and Mrs. Jimmie Martin and baby of McCamey spent last week end in Eldorado, visiting with relatives.

Mr. and Mrs. P. W. Hazelwood and family spent several days last week attending the annual McDonald reunion at Ferdricksburg. They returned home Sunday night.

Aaron Edgar visited his parents, Mr. and Mrs. E. M. Edgar, and other relatives and friends at Wellington last week end.

G. A. Brooks and children, Maurice and Mary Adelle of Brownwood, and Mrs. F. M. Brooks, mother of E. W. Brooks of Bangs are visiting in the home

Up in the Morning Feeling Fine!

The refreshing relief so many folks say they get by taking Black-Draught for constipation makes them enthusiastic about this famous, purely vegetable laxative. Black-Draught puts the digestive tract in better condition to act regularly, every day, without your continually having to take medicine to move the bowels. Next time, be sure to try

BLACK-DRAUGHT

Growth MEASURED IN SAVINGS

Take an individual, or a business, or a successful enterprise of any kind. Examine the reasons for success... and you'll find saving among them. It may take the form of preparedness for emergencies. It may be for improvement. It may be for any of a hundred purposes... but saving must always be present where success and growth are found.

A Texas institution manned by Texans

"THE REST OF THE RECORD"

BY JAMES V. ALLRED
Governor of Texas

MEXICO CITY, Aug. 14, 1937
By the time you read this, we will be back in Texas and, notwithstanding the wonderful privilege it has been to visit Mexico, happy to be back home. We are particularly anxious to see little David, our second son, and baby Sam Houston.

It is difficult for us to realize that it is so hot in Texas. Mexico City is 7500 feet high and the weather is ideal. They tell us it is this way the year round—little cooler in winter than in summer. It was a little chilly for us at first—believe it or not, we asked for a fire at lunch; now, however, we are accustomed to it and the weather is lovely. Occasionally when the mountain tops are clear of clouds, we can see two snow capped volcano peaks in the distance.

Although Ambassador Joseph Daniels is in Europe, he wired his assistants here to insist upon our staying at the American Embassy. So here we are—and we have never been privileged to stay at a lovelier place. Our own Government officials have been almost as marvelous to us as those of the Mexican government.

Last week I told you how hospitable these people had been to us in the early stages of our visit; this hospitality has increased in warmth at every stage. We

have been entertained by seven governors in as many state capitols, and by officers in the President's cabinet here in Mexico. It clearly demonstrates that these people believe in the Good Neighbor policy inaugurated by President Roosevelt.

President Cardenas of Mexico is absent from the capitol. He is in the state of Yucatan, which is the most southern Mexican state, working on agrarian, or agricultural problems. He sent us a warm telegram of welcome, then commissioned the Governor of this Federal District to call on us officially as his representative. Mrs. Allred is visiting the President's wife today. Everywhere these people seem to realize that they have more in common with Texas than perhaps any other state; I think if we take the same position, it can only result in more business and better relations for all of us.

It would be impossible in this short space to even refer to all seen on this trip. I really believe we could spend a month right here in Mexico City and not see half of all we should see. The old churches or cathedrals, the palaces, the public buildings, the theatres, the gardens, the parks, the flowers, the schools, the public markets—the people. It is the people who most interest me. They are picturesque with their music everywhere, their arts, their dress which has changed but little for centuries, yet all this maintained alongside a twentieth century civilization of modern highways, railroads, hotels, tourist camps and conveniences of every kind. We have driven over highways as well constructed and maintained as any in Texas, yet in fields adjoining they still plow with oxen; and peons trudge alongside the road plying whips over the backs of burros loaded with wood or cargoes larger than the beasts themselves.

The history of Mexico is as interesting as that of any nation. The struggles of the people for liberty and freedom have been just as brave, if not braver, than our own. It has been such a privilege to us to journey over the very ground travelled by Cortez, the Spanish Conqueror, hundreds of years ago; to see the palaces and the churches he built. One of the most inspiring and stupendous things we have seen was driving over the mountains to Puebla, looking out upon a valley where Cortez had built a church for everyday of the church year—260 of them, beautiful, massive things of stone with shining burnished domes; one built on top of a pyramid.

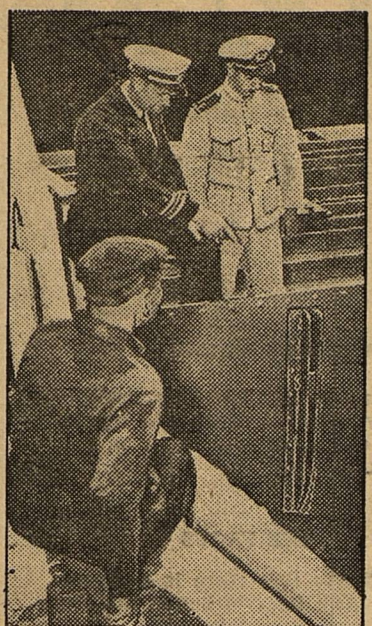

I shant tell you of the bull fight they staged for us. I am glad I saw one—in fact, I enjoyed it, but I can't say that I want to see one again. One of the nicest entertainments given us was yesterday at the Department of Communications. First, of course, a nice luncheon; then young ladies who worked in the department paraded before us dressed in colorful native costumes of each of the 28 Mexican states. Then they entertained with music, songs and dances. It was better than a professional show since those who played the parts actually came from the states they represented.

We have met lots of people here from Texas. I hope more will be able to come in the future. We were particularly happy to find the Cowboy Band from Hardin-Simmons College at Abilene playing at one of the local theatres. They are also going to play at a reception given for us here at the Embassy tomorrow.

We will, of course, be back in time to vote at the election Monday, August 23rd. Six constitutional amendments are to be voted on: All of them are important and I hope my friends will vote for them. I am particularly interested in seeing the one adopted which will authorize the legislature to provide for payment of county officers by either salaries or fees. The present salary system hasn't worked as satisfactorily as the old fee system. It costs the taxpayers of the state as a whole 70 % more—and I'm interested in trying to save money!

Miss Imogene Miller, Miss Lucile and Lou Ella Davenport of Mertzon are visitors in Eldorado this week.

WHAT GOES WHERE

PROPER loading of a ship is no hit-or-miss job. Cargo must be within easy reach at each port and must not cause the ship to list. Aboard the Grace Line's "Santa Elena," First Officer Ernest Prather instructs a future merchant marine officer, Cadet Leonard Burger, in one of the tricks of his profession.

Rural Rehabilitation Supervisors Meet At College Station

The Resettlement Supervisors of all County Offices in District No. 12 received authorization to attend Resettlement's Annual Rehabilitation Conference which will be held in the form of an A & M Short Course. Others making the trip from this District in addition to B. Miller, District Rural Supervisor and Alicemaye Atwell, District Home Supervisor will be; Odell Hall, Secretary in the District Office; T. R. Andrus, Mason Texas; H. G. Duckworth, San Angelo, Texas; Paul E. Probst and Edith E. Nesom, Presidio, Texas; C. C. Dyer and Marie D. Waterman, Barstow, Texas; Floyd L. Stainback and Isabel A. Holladay, Ballinger, Texas; Fred W. Roeder and Berta N. York, and Burma Wood, Junction, Texas and A. M. Cooper and Irene Hanna, Kerrville, Texas.

The local supervisors are being asked to prepare suggestions and questions to be discussed at the conference and short course. It seems it is to be truly a democratic conference with discussions by all rather than a few long speeches.

Every committee will have as its chairman a County Supervisor. Committee finding will not necessarily be adopted by Dallas or Washington Offices but it is hoped that they will certainly have influence.

Prominent Resettlement Officials from Washington, as well as Regional and State are expected to attend.

For the first time the annual meeting is being held at College Station where it is anticipated much information will be received from Agricultural Specialists who will take part. The Specialists will join RA workers in small committees which will report back to the conference as a whole, suggested methods of developing the "live-at-home" program which is required of rehabilitation borrowers.

Among the more prominent

speakers will be Dr. T. O. Walton, President of the College; H. H. Williamson, Director of Extension Service; Roy W. Snyder, Director of short courses; Miss Mildred Horton, Assistant Director of Extension Service; C. M. Evans, Assistant Regional Director in Charge of rural rehabilitation; Mrs. Laura Neale Love, Regional Home Management Supervisor, Resettlement Administration; E. H. Holmgren, Administrative Assistant, AAA; and Louis P. Merrill, Regional Director, Soil Conservation Service. The following college and Extension Service Specialists will also lecture to the entire delegation; E. R. Eudaly, dairy specialist; Grace I. Neely, specialist in food preservation; G. G. Gibson, assistant dairyman, E. M. Regenbrecht, swine husbandman; D. W. Williams, head, Animal Husbandry Department; S. A. McMillen, Extension economist; J. W. Chapman, Assistant Agricultural Engineer; G. W. McCarthy, poultry specialist; C. E. Murphy; Jack Shelton, Assistant Director of Extension; C. E. Bowles, Extension specialist in cooperative marketing and others.

McDonald Reunion Held On Week-End At Fredericksburg

Many people from all over the state gathered at Fredericksburg last Saturday and Sunday for the ninth annual McDonald reunion. The reunion was the largest one of the most interesting and enjoyable ever held.

Those from this county who attended the reunion are: Mrs. W. J. McDonald, Mr. and Mrs. Marvin McDonald and sons, Mr. and Mrs. P. W. Hazelwood; Mr. and Mrs. Vernon Hazelwood and son; Mr. and Mrs. Lamont Hazelwood, Mrs. Frank Spencer, Mrs. Roy Andrews, Mrs. Clyde Galbreath, Mr. and Mrs. Lester Henderson and son.

"The Public School is as much a part of our government as is the Constitution, and to seek, either publicly or privately, to destroy either of them is nothing less than treason to the United States." —Marion S. Church, Dallas.

Miss Tom Pearl Smith left Wednesday for Austin, where she is visiting her sister, Mrs. Geo. E. Baugh, for several days.

John Alexander Weds Norton Girl Here Saturday

Miss Bobbie Louise Taylor became the bride of John W. Alexander at 6 o'clock Saturday evening in the home of the Baptist pastor here. Mr. and Mrs. Forrest B. Alexander were attendants at the wedding and gave a buffet dinner for the couple immediately after the ceremony.

The bride is a daughter of Mr. and Mrs. Ben Taylor of Norton and was a sophomore at Howard Payne College last year.

The bridegroom is a son of Mr. and Mrs. W. O. Alexander and completed his junior year at Howard Payne in the spring. The couple will make their home in San Angelo, where Mr. Alexander is employed with the Walker-Smith Company, wholesale grocers. They are now in Brownwood for a short visit.

VISIT HERE

Mr. and Mrs. K. W. Crook and daughters Almada, Dorthy and Allene of Pangburn, Arkansas, are visiting in the home of Mr. and Mrs. Lewis Kerr, both of whom are employed by the City Grocery.

Mr. and Mrs. Crook report a very favorable trip and express flattering opinions of our country and climate.

Great was the surprise of these folks on finding instead of a barren deserts like district, a wonderful farming and ranching territory un-surpassed even by their own fertile valleys.

Eldorado welcomes these people and hope that they have a favorable vacation.

Hayden Ellis of Mertzon was a visitor in Eldorado Friday.

Women's Activities In H. D. Clubs

Mrs. Otto Sauer, a member of the Reynolds Home Demonstration Club, exhibited some home grown huckleberries at a recent club meeting. No member of the club had ever tasted the fruit before and the fresh berries and the preserves that Mrs. Sauer brought were given a great deal of attention.

"We grow such a little fruit in Schleicher County", says Mrs. Sauer, "that I think that we should make every effort to produce anything that will grow. I just ordered the seed and planted them. The bushes required little care and water and they make a nice shrub. My family is beginning to acquire a taste for the fruit and I'm going to plant more next year."

Mrs. G. L. Ballew, a former Pantry demonstrator of the Eldorado Home Demonstration Club, reports that her pantry is complete for this year. Mrs. Ballew is trying to carry out the Home Demonstration slogan, "Once a demonstrator, always a demonstrator."

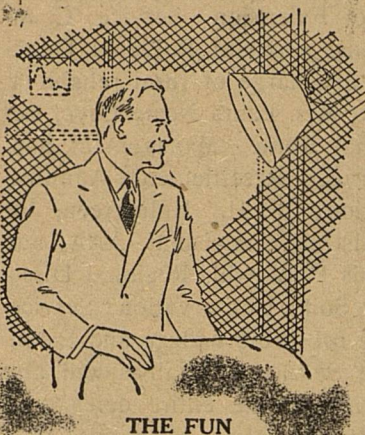

She has supplied all of the needs of her family and has filled her food budget for the year. She has planted her fall garden and she reports that it is doing nicely. This garden will supply the fresh vegetables for the family until frost comes. Then the canned products will come into use.

Mrs. Ray Alexander, a Kitchen Demonstrator of the Country Club, is the first of the Kitchen demonstrators to complete her work. Mrs. Alexander is very proud of her whole new house that grew out of her plans for improving her kitchen. She is now planning to begin work on completing the remainder of her house so that it will be in keeping with the high standards that she has carried out in her kitchen.

One of the biggest accomplishments of the year, Mrs. Alexander feels; is the new set of cooking vessels that replaces the battered and worn out equipment she did have.

Feeling that a well filled pantry is an essential part of a kitchen, Mrs. Alexander set to work new house to fill her pantry shelves so as to provide for the months when her garden will not be supplying the family with fresh vegetables. She has now a pantry that would be the envy of any pantry demonstrator of the

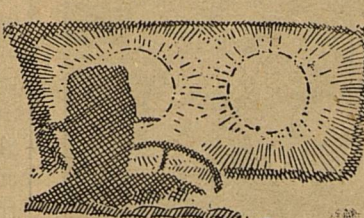

FUN with FACTS

THE FUN

1. In a room darkened so that you can barely distinguish articles, stand over or near an unlit light. Pick out some picture or object across the room. Turn on the light for 8 or 10 seconds, then turn it off. Try to distinguish the object on which your eyes were focused.

2. Place a match box or other small article on the edge of a mantelpiece or have someone hold a pencil vertically at eye level. Walk

THE FACTS

1. Notice that there is quite an appreciable interval before the object becomes visible again. This nearly duplicates driving conditions at night with headlights of an approaching car. During the several seconds which may elapse before maximum vision returns, your car may travel more than 100 feet. (40 M.P.H. = 60 feet per sec.)

2. Without the unobstructed vision of both eyes, it is difficult to judge distances accurately.

School Board— (From Page One)

in teaching commercial work. She comes to Eldorado highly recommended by the superintendents under whom she has taught in former positions.

Miss Brentice Smith, who taught at Alexander last year, was transferred to the principalship of the Mexican school to fill the vacancy created by the resignation of Mrs. W. M. Davis.

The Board decided to replace the building in the Alexander community which burned last May and to continue the school there.

Members present were B. E. Moore, president, Jess Koy, H. B. Rees, John Williams, T. H. Wilton, and Leslie L. Baker, secretary. Patrons of the Alexander community met with the Board.

Electric Rates— (From Page One)

which provides low-cost current for refrigeration, lights, and other domestic purposes in-as-much as these are included in the high-usage bracket.

Popularity of the electric range was credited with making the reduction possible. The spread of electric cookery to hundreds of homes formerly using old-fashioned methods makes a lower rate practical, Kennedy said.

"The reduction is in keeping with the company's policy of lowering rates as fast as increases

usage permits," he added. "Although the cost of living in general has risen and taxation has reached an unprecedented height, we believe it wise to encourage home modernization by making electric service as cheap and efficient as possible."

SCHOOL CHILDREN TO VISIT EXPOSITION ON OCTOBER 25, 26

Group movement of school children, their teachers, parents and friends from Eldorado has been set for Oct. 25 and 26 at the Greater Texas and Pan American Exposition. The Santa Fe railroad has offered a group rate for this event. Total cost of the round trip is a cent a mile for the round trip.

When the group reaches the Exposition it will have the facilities of a service office near the main entrance gate. There orders for group admission tickets at 25 cents each will be issued, special amusement concessions provided and information as to lodging furnished, all without charge. The Exposition, at this office, also will maintain a baggage checking service.

Governor James V. Allred has officially proclaimed these dates as school holidays. Full credits will be allowed the children who attend the Exposition.

Much that is new and educational is offered this year. Included is the Cavalcade of the Americas, greatly enlarged, presenting the romantic history of all the Americas without charge. The Pan American Casino, largest indoor stage in the world, will offer entertaining programs. In the \$1,200,000 Texas Hall of State, in addition to the romance of Texas, is presented an exhibit from Tulane University of Mid-American history. The Federal building has added numerous new features as has the Hall of Texas History, all these being free attractions. The football season will be in full blast. Students may spend two days at a very nominal expense and witness the only international Exposition of the year.

EMERGENCIES in traffic are likely to happen any time, but it's more exciting to be taken unawares.

SOCIAL SECURITY BOARD PLACES FIELD OFFICE AT ANGELO

The San Angelo field office of the Social Security Board is one of a number being established at strategic points throughout the United States to bring administration of the Federal Old-Age Benefits sections of the Social Security Act close to the people affected by it. The office is located at 412 Rust Building, with W. O. King in charge as manager.

One of the duties of this field office will be to provide employers, employees, and all other interested persons with accurate information regarding their rights and obligations under Federal Old-Age Benefits provisions of the Act. The services of the staff of this office will be available to the public at all times for interpretation of this section of the Act.

Expect only a part of what you hope for.

Some folks do nothing to avoid making mistakes.

WEST TEXAS LUMBER CO.

A West Texas Institution
Serving West Texas

KNOW TEXAS

Little do carefree Texas fishermen realize the forethought and preparation which makes it possible for them to "haul 'em in." The energies of the Texas Game, Fish and Oyster Commission are combined with those of the U. S. Bureau of Fisheries to protect and better fishing conditions both for commercial and sporting purposes.

Experimentation in the hatcheries, made necessary by a national fish shortage which began about 1884, is one of the most important phases of the commission's work at present. Shad, herring and California salmon were first tried, but did not thrive in Texas waters. Then German carp were tried, but this fish was soon discredited for lack of food value.

Now the nine hatcheries, which are located to serve all sections of the state except Southeast Texas, concentrate on white perch, black crappies, catfishes, bream, goggleeye and green perch. A total of 3, 137, 357 small fish were distributed over the state from these hatcheries in the fall of 1935. The commission is also working on the propagation of minnows and smaller fish, since their sale for commercial bait has caused a feed scarcity for game fish.

Precautions have to be taken that game fish are not crowded out by buffalo, carp, suckers and gars. Other menaces are predatory birds and snakes.

A floating laboratory has been established by the commission on the coast at Rockport. Little is now known about the habits and banks of coastal fish, but authorities say that if the Gulf banks were as well marked out as

those at Newfoundland, fishing interests would have a tremendous boom.

Name Please?

The first telephone exchange was opened in Texas August 21, 1879, at Galveston. Anyone who used the phone called for his party by name, not number. In 1883 the first long distance line was constructed between Galveston and Houston. Now, according to 1935 figures, there are 1,135 exchanges over the state and 553,928 telephones.

Texas Silver Mine

Although Texas does not contribute much to the gold supply of the nation, from the little town of Shafter comes \$300,000 to \$700,000 worth of silver annually. The mine, which is located in the western section near the Mexican border, has been in operation about half a century. It was closed from 1930 to 1932 but has been producing regularly ever since.

Speaking of Harvests

Four million dollars worth of peanuts! That's a lot of money to connect with the often-scorned "goober," but the 134,550,000 pounds of peanuts produced in Texas in 1935 are valued at that figure. The peanut crop is centered in Eastland, Brown and Comanche counties and branches out into the East Texas and west cross timber belts.

TEXAS CATTLE FED OUT EARLY IN SEASON HAVE PROSPECT OF MARKET

College Station.—Texas feeders have prospects of an exceptional market for such beefs as they can finish out by the end of the year and the first two months

MRS. ROOSEVELT LIKES FAIR "SAMPLE"

NEW YORK (Special).—Mrs. Eleanor Roosevelt, wife of the President, like more than 200,000 others persons from all over the world, has already sampled the New York World's Fair of 1939 by visiting the exhibit the Fair Corporation maintains for the public on the Fifth Avenue floor of the Empire State building. "I am much interested in this Fair," said Mrs. Roosevelt, "after she had seen the ingeniously illuminated models and animated displays that promise so many wonders for the Nation's Fair." "It seems to me that there is opportunity here to do a remarkable piece of work from the educational standpoint. The conception of the whole Fair as outlined to me sounds very provocative of thought." The theme of the Fair is "Building the World of Tomorrow."

of 1938, according to G. W. Barnes, animal husbandman of the Texas A. and M. Extension Service.

Barnes, who has recently completed a tour of the major grain and livestock areas of the State, reports that the grain crop is good over a major portion of Texas.

"The good grain crop over a large part of the State, in combination with the shortage of grain for early feeding in the corn belt, makes this an ideal year for Texas feeders," Barnes said. He warned, however, that feeders should start their operations at once in order to get their animals well finished and on the market before corn belt beefs begin to move.

The excellent grain prospects in the corn belt have strengthened the demand for feeder and stocker animals, Barnes pointed out. Texas normally sells about two million feeders and stockers each year, he said and feed out around 150,000 beefs.

If beefs are placed on feed as soon as the grain supply warrants, so that the animals can be marketed before early April of

1938, Barnes believes that Texas feeders could profitably finish out from 300,000 to 500,000 animals.

MINOR DEFECTS IN CHILDREN NEED CARE BEFORE SCHOOL DAYS

Now is the time, according to State Health Officer Geo. W. Cox, for every parent to ask himself if his child is physically ready for school. A visit to the family physician will answer this question and give time for correction of minor defects before school bells ring out this September.

School children are exposed to so much infection that where a definite preventive against disease is known, parents should take advantage of it.

Vaccination against typhoid, diphtheria and smallpox should be done at once. These vaccinations may save many days out of school, Doctor fees and perhaps life itself. More than three hundred children die each year in Texas from diphtheria.

A child with defective vision cannot be expected to do the re-

Dove Season To Open Sept. 15th; Closes Oct. 31st.

Mr. Remschel, game warden for this district, was in Eldorado on Thursday morning, and announced that the open season on mourning doves begins on September 15th for this section.

Open season will be from September 15th to October 31st.

The bag limit for mourning doves and white-winged doves is 15 a day and not more than 15 in possession at any one time.

The State Legislature is likely to pass new regulations next month, it was stated. Many members of the Legislature have expressed their intention to change the State law in September, and if this is done a mourning dove and white-winged dove season can be provided as follows:

In the Panhandle section, September and October. In the remainder of the state, September 15th to November 15th.

quired work in school, until this handicap is removed. Inflamed, watery eyes, granulated lids, chronic styes, nervous actions as habitual winking may be caused by defective vision and should be attended to immediately.

The far reaching effect of infected tonsils on the system has been recognized by health workers for many years. Many of the ills of later life as heart disease, arthritis, deafness and the like, are directly traceable to tonsils that became infected during childhood and were allowed to remain untreated.

Dental defects are found in more children than any other imperfection, estimates the Texas State Department of Health, urging that children should be taken regularly to the dentist for examination and cleaning of the teeth. This precaution keeps the mouth clean and makes it possible for dental defects to be discovered as soon as they appear.

Postural defects are detectable in children much sooner today than was formerly the case. Have your family physician see if your child's shoulder blades project and if his arches are low. Simple exercises while the child is young, diligently adhered to, will prevent later developments. Some physical defects of children, particularly underweight or malnourishment, show no appreciable present effect. If such a condition is not corrected it may

result seriously in later years.

Hard and fast rules for a child's weight at a certain age are difficult to arrive at due to variation in children's bone construction and physical build, but some gain should be shown each month. Average weights for height-and-age, as computed by experts, may be had from your family physician.

Established in 1921

NOBODY'S BUSINESS

BY JULIAN CAPERS, JR.

Austin.—The novelty of a Monday election day, in which voters will pass on six proposed constitutional amendments, will be enjoyed by Texans next week for the first time. Legislators, believing more voters would come out on Monday than on Saturday or Tuesday, the usual for primary and general elections, set the Aug. 23 date as an experiment. The apparent willingness of voters to change the constitution in recent years, in contrast to their former reluctance to approve amendments has led many observers here to predict that all the amendment will be adopted, without serious contest, except the one proposing to return the fee system of compensating county officials. Well-informed sources here report a close division of sentiment on the fee amendment, with the outcome in doubt.

School Row Goes On

Another round in the court battle over the \$22 per capita apportionment of state school fund was fought in Dallas, where Judge Claude McCallum issued a temporary injunction restraining Comptroller George Sheppard from certifying the \$22 figure. The action was brought by state school board members Ben Tisinger of Dallas, and R. S. Bowser of Caldwell, and followed action by a San Antonio court in dissolving an injunction forbidding the board from reducing the \$22 apportionment. Atty. Gen. Bill McCraw has previously ruled that Sheppard must certify the \$22 figure. McCraw now faces the necessity of going into court to defend Sheppard, and oppos-

ing the ruling he gave the latter. Rural schools, however, got some good news, as the joint legislative committee supervising payment of rural aid, announced 90 per cent of approved claims will be paid immediately, with a later division of \$294,000 surplus. The committee members added their word of criticism of the state department of education to the volume of critical comment which has been piling up from legislative sources for several years, when it reported numerous accounting errors, and wide discrepancy in the construction of the rural aid supervisors employed by the department.

Can We Prevent War?

Down every highway and byroad in Texas that leads to Gulf ports, Texans have for months seen trucks hauling scrap iron and steel, destined for European and Far Eastern nations, to be converted into bombs and sharpshooters. This week, in Shanghai, aerial bombs ripped apart the bodies of hundreds of men, women and children, as Japan and China began fighting again. Many believed the 'next' war had begun.

But Col. Ernest O. Thompson, Texas railroad commissioner and chairman of the interstate oil compact commission, who recently returned from the World Petroleum Congress in Paris, quoted significant figures concerning oil without which no nation can make war. Texas has about one-fourth of the world's potential supply of oil, Thompson reported; the Conroe field, for instance, has reserves comparable to the whole of Rumania, and Rumanian crude fixes the prices of European oil, where gasoline sells for 90 cents a gallon, 36 cents being tax.

"We have got something here

in Texas that the world is going to come after," Thompson declared. "It looks like they are going to have a war in Europe within a couple of years. They have not got the money to pay for the oil, and we can probably prevent war by not letting them have this crude."

Signing this week by President Roosevelt of a two-year extension of the compact will enable Texas and other states to retain full authority over their own oil production.

Notes

More than 10,000 state old age pensioners previously drawing grants were dropped from the rolls during June and July despite strenuous denials of a general trimming of the rolls entered by pension officials during the closing days of the regular session. August pension cuts have not been announced, but pension press agents continue to flood newspapers with denials of any general trimming of the rolls.

A hot battle for the seat of Sen. Jim Neal, of Mirando City, the man who broke the long reign of Archie Parr, is seen next year, with Lon Messer, of Robstown; Rep. Augustin Celaya of Brownsville, and Dist. Atty. Kelly of Edinburg already out as opponents of Neal. Sen. Neal voted to repeal race gambling, and thereby saved from a gubernatorial veto an appropriation for Texas A. & I. college Kingsville, and friends of the college are rallying to his support. . . Orville S. Carpenter, who won undying fame as the most tactless public official in Austin, when he recommended depriving old age pensioners of the right to vote, made another bid for popularity when he announced that 60,000 workers were not properly registered with the unemployment compensation commission, and will lose their unemployment benefits for the past quarter and until the mistakes are corrected. Carpenter was quickly shunted from the post as head of the pension organization to the unemployment commission after his historic "bust" before a legislative committee. . . County Judge

Health-Wrecking Functional

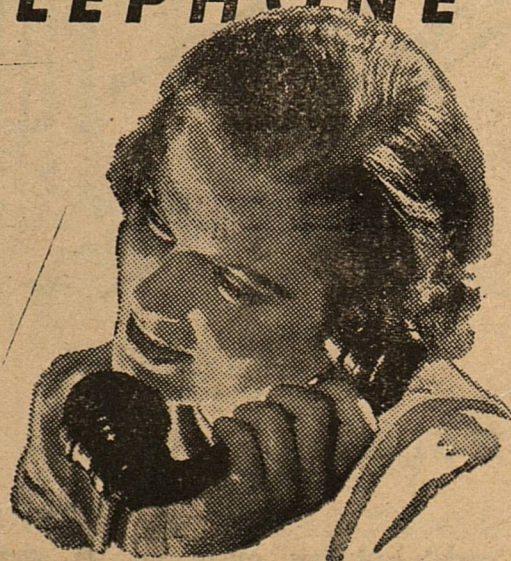

PAINS

Severe functional pains of menstruation, cramping spells and jangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines!

Thousands of women have found it helpful to take Cardul. They say it seemed to ease their pains and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods.

Try Cardul. Of course if it doesn't help you, see your doctor.

WHEN YOU TELEPHONE

1. Be slow to hang up when calling.
2. Be quick to answer when called.

In the Southwest, 25,000 people a day hang up before the called party has a chance to answer.

Roy Hoffheinz, of Houston, is reported to have found the pace set by Leut. Gov. Walter Woodul in the race for attorney general too strenuous, and changed his mind about opposing Woodul. If he finds sentiment favorable on his present tour of the state in behalf of the Harris-Co. tax amendment, his friends say he may oppose Judge C. V. Terrell, railroad commission chairman, next year.

CITATION BY PUBLICATION

In The District Court Of Schleicher County, Texas

September Term, A. D. 1937

E. L. Knight, Plaintiff,

Vs.

E. H. Oliver, and his devisees, legatees, assigns, unknown heirs, and legal representatives, and Mrs. E. H. Oliver, and her devisees, legatees, assigns, unknown heirs, and legal representatives, Defendants.

No. 567

The State Of Texas To Any Sheriff Or Any Constable Of Schleicher County, State Of Texas:

GREETING:

You are hereby commanded to summon E. H. Oliver and his devisees, legatees, assigns, unknown heirs, and legal representatives, and Mrs. E. H. Oliver, and her devisees, legatees, assigns, unknown heirs, and legal representatives, Defendants, whose residences are unknown to appear at the next regular term of the district court of Schleicher County, Texas, to be held at the court house thereof, in the town of Eldorado, on the 3rd Monday in September, A. D. 1937, being the 20th day of September, A. D. 1937, then and there to answer a petition filed in the said court on the 24th day of July, 1937, file number of which is 576, in which suit, E. L. Knight is Plaintiff, and E. H. Oliver and his devisees, legatees, assigns, unknown heirs, and legal representatives, and Mrs. E. H. Oliver and her devisees, legatees, assigns, unknown heirs, and legal representatives, are Defendants, the cause of action being alleged as follows:

The Plaintiff, E. L. Knight, who resides in Lampasas County, state of Texas, alleges that on or about the first day of January, A. D. 1937, he was lawfully seized and possessed of the following described land and premises, holding and claiming the same in fee simple, to-wit:

That certain Bexar Preemption No. 8338, Abstract No. 724, of 160 acres, in Schleicher County, Texas, patented to E. H. Oliver, which patent is recorded in Vol. 1, page 8 of the Patent Records of Schleicher County, Texas, which record is here referred to for full description.

said tract being adjacent to said Sections 74 and 75; and that on the day and year last aforesaid the Defendants and each of them unlawfully entered upon said premises and ejected Plaintiff therefrom and wholly withhold the possession thereof to his damage in the sum of Five Hundred (\$500.00) Dollars, and that the annual rental value of said land is Fifty (\$50.00) Dollars per acre.

The Plaintiff further alleges in said petition that he is the owner in fee simple of said land having obtained title thereto by limitation under the laws of the state of Texas as well as from the sovereignty of the soil, as follows:

By having had and held peaceable, continuous, and adverse possession under title and color of title from and under the state of Texas for more than three years immediately preceding the first day of January, A. D. 1937, and before the commencing of this suit; also claims title under a duly registered and recorded deed and peaceable, continuous, and adverse possession of said land, cultivating, using, and enjoying the same, paying taxes for a period of more than five years next preceding January 1, A. D. 1937, and before the commencing of this suit; and also alleges that Plaintiff has had and held peaceable, continuous, and adverse possession of the said land described above, cultivating using, and enjoying the same each year for a period of more than ten years next after any cause of action accrued and before the first day of January, A. D. 1937, and before the commencing of this suit.

WHEREFORE Plaintiff prays citation issued to each of the above named Defendants commanding each to appear and answer the petition, praying judgement of the court as follows:

(1) Divesting each and every one of the Defendants of all title in the above described land, investing such title in Plaintiff:

(2) Cancelling and declaring null and void any claim of title by Defendants.

(3) Judgement for title and possession of said land and Plaintiff have a return of restitution.

This action is brought as well to try the title as for damages."

You are commanded to so summon such Defendants and to serve this citation by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some news paper published in your county; but if there be no newspaper published in said county then in any newspaper published in the nearest county where a newspaper is published.

Herein fail not, but have you before said court, on the first day of next term thereof, this writ, with your return thereon, showing how you have executed

the same.

Witness John F. Isaacs, clerk of the district court of Schleicher County Texas.

Given under my hand and the seal of said court in the city of Eldorado, Schleicher County, Texas, this the 24th day of July, A. D. 1937.

John F. Isaacs, Clerk of the District Court of Schleicher County, state of Texas, issued this 24th day of July, A. D. 1937.

John F. Isaacs, Clerk of the District Court of Schleicher County, Texas.

SAVE MONEY EVERY MILE

That's the Reasonable Expectancy with a GMC

GMC prices now crowd the lowest—yet

first cost is secondary, as everybody knows.

Low cost-per-mile is where a truck saves

money. A recent cost analysis of 15,000

trucks proves GMC upkeep far below the

average. Save on first cost—

save money every mile, too!

You can do it with a GMC!

Time payments through our own Y. M. A. C. Plan at lowest available rates

Switch To ELECTRIC COOKERY with NEW LOW RATE!

Rate Reduced to

2½¢

Per Kilowatt Hour.

Electric Cookery Averages No More than One Cent a Meal per Person

NEW RATE EFFECTIVE NOW!

Requiring usage of the modernized, speedier, and cleaner type of cookery provided by the Electric Range, a new, comprehensive rate, conducive to greater use of Electric Service, becomes effective with this month's payment of bills. Under its provisions ALL OVER 50 kilowatt-hours of electric current used each month costs only 2½ cents per kilowatt-hour. The basis for the reduction is the proven theory that "the more you use, the less it costs."

This reduction, amounting to 16 2/3 per cent, is designed to make Electric Cookery as practical, from the standpoint of fuel, as any other type. The fact that there is no combustion makes Electric Cookery *cleaner*. A greatly improved flattened calrod heats almost instantaneously and hugs the bottom of utensils to prevent escape of heat. There is no flame to burn up oxygen, thus making air fresher and *cooler* in the kitchen. It is automatic, thus making it *easier*. Cleaner! Cooler! Easier! And this new, low rate makes Electric Cookery just as cheap or, in many instances, *cheaper*. Add *faster*. It's another reason for switching to Electric Cookery.

Lowers Cost of Lighting, Refrigeration And All Other Residential Usage Over 50 K.W.H. per Month

Many, many homes already use over 50 kilowatt-hours of electric current each month. By adding the electric range to kitchen equipment (*it has proven itself the most valuable of all Electric Servants*) you secure a rate of 2½ cents per kilowatt-hour on ALL current used over 50 K.W.H. used monthly.

This means that when you reach the higher usage brackets for light, refrigeration, and all other domestic purposes, your electric bill is calculated at a rate which actually amounts to a saving. It permits increased usage at no additional cost. Best of all, it permits Electric Cookery to enter homes which heretofore considered it "too high."

We invite you to come in so that we may show you the latest models in Electric Ranges. We believe you will approve of Electric Cookery—and the new rate that permits you to use the *switch*.

IT'S CONVENIENT

Our store will be cool. Several electric fans will keep you comfortable, and our clerks will help you to find what you want. Come, stay as long as you like.

Friday And Saturday

Eight years ago we started business in Eldorado. The wonderful patronage of all our friends and customers has enabled us to grow until we have built our meagre \$1,500 stock of 1929 to the \$25,000 stock we now have. We want you to have a part in our celebration, and we invite you to come to this special occasion.

Free Groceries Saturday

Groceries valued at \$2.50 will be given away at the following hours: 10:30 & 11:00 A. M.; 3:00, 4:30, 5:30, 6:30 & 7:30 P. M.

One ticket given with each dollar cash purchase.
One ticket given with each dollar paid on account.

Free Coffee & Sandwiches

will be served at all hours Saturday. Representatives from many wholesale firms will be here to serve you and make you feel at home.
