

## MEDITATIONS

By the Editor

With the 7th War Bond Drive drawing nearer to a close and this county not over its quota, it might be that the following would have a tendency to hasten purchases: During a recent war bond drive on a destroyer escort somewhere in the Pacific, the ship's paper asked, "Why are you buying war bonds?" One of the more alert seamen answered, "Freedom from fear, freedom from want, freedom from oppression, and FREEDOM FROM THE NAVY!"

While speaking of the Pacific, it might be well to mention the fact that parents should instill upon their children caution against attempting to pick up or handle "curious-looking" pieces of paper. This admonition does not carry with it any intention to create alarms but it is definitely known that a few scattered "bad intentions" have drifted over after being released by the Nips; also, we know generally the area they have thus far fallen, and just in the event a chance one should come in, there should be precaution to avoid an accident to an innocent child who might be lured by the colored paper boobies accompanying the Jap balloons.

Military authorities inform us this week there is absolutely no cause for alarm or nervousness or panic in any manner over the missiles that are being sent in "West of the Mississippi," and that likely any danger resulting from the chance articles of warfare would be by children handling through curiosity or perhaps a fire caused by an incendiary.

There are very few chances of one of the balloons coming to this area, also.

The Brownwood Bulletin says: Nurses! Dottie has done it again!

Dottie has been doing it again and again in some 17 Texas counties, while peace officers pursued her and merchants charged off thousands of dollars worth of forged cashier's checks to "profit and loss."

It's all profit to Dottie, who paid a little visit to Brownwood Saturday and pocketed \$350 for her leisurely little shopping tour of this city.

But local merchants shouldn't feel too badly about how they were "taken" by Dottie. They can look at what she did at Abilene and feel that this is not the only sucker town in Texas.

Dottie "took" Abilene for \$2,600, the finest ermine coat in town and sundry other valuables. But then Abilene is a place where according to a magazine, there aren't any wartime shortages.

Dottie signed her name in a bold hand, "Marie Putney," to the little souvenirs she left of her visit to Brownwood.

Firms which have these nicely printed bogus "cashier's" checks for their files gave Dottie both their money and their merchandise in exchange for her little works of art.

According to information around the sheriff's office, Dottie has a long and notorious record in Texas and Oklahoma, where she helped accentuate the paper shortage by distributing her forgeries.

The crook books kept at the sheriff's office indicates that when the gal was "mugged" at McAlester State Prison up in Oklahoma she had the innocent moniker of "Dorothy Buck," which is an old and honorable name in the Southwest.

Somewhere along the line Dottie took to cashier checking, and she found it convenient to adopt some aliases, so it is claimed. These included Betty Williams and Dorothy Bates, and now her newest nom de guerre, Marie Putney.

She appears to have signed the latter to cashier's checks in the following sums on the Fort Worth National Bank which were cashed Saturday in Brownwood by Dublin's \$100; A & P Store, \$50; Lord's, \$50; Piggly Wiggly, \$50;

FORTY-FOURTH YEAR

ELDORADO, SCHLEICHER COUNTY, TEXAS, FRIDAY, JUNE 1, 1945

NUMBER 18.

## Spring Wool Clip Moving Fastest in Area's History

Monday of this week registered more than one million and 1,000 pounds of spring clip of wool stored with the Eldorado Wool Company Warehouse in Eldorado, with something over 377,000 pounds of the clip appraised Monday at close of business.

Considering the fact that a possible 85 per cent of the season's clip was in, it is believed that the season's production has come in faster this year than at any time before in the area's history. Lack of moisture to hinder shearers is a likely explanation for the swift moving and storing of wool.

The appraisal price range has run from 41 to 58 cents per pound.

## Canning of Pineapple Proved Popular in County This Season

The marketing committee with the cooperation of the Red & White Grocery Store purchased 600 pineapples for the Home Demonstration Clubs of the county. The pineapple sold for \$5.00 a dozen but they were exceptionally nice ones. The marketing committee is trying to purchase several hundred more as there could easily be 600 more sold in the county.

The agent prepared a sheet of instructions for the canning of the pineapples and placed 100 copies in the grocery store so that each person getting the fruit could have a copy.

The women received various yields from their pineapples due to the fact that some packed their fruit tighter in the jars and some women did not receive theirs until the pineapples had been picked over at the grocery store.

Mrs. Gordie Alexander got 31 pints of sliced pineapples, 2 pints of pure juice and 4 quarts of juice from the peel out of 1 dozen pineapples.

While Mrs. John Williams got 41 pints of sliced pineapples and 16 quarts of juice from the 1 dozen pineapples that she bought. Neither of the women kept any out to eat fresh.

According to the information received from the local grocery store the price of pineapple on the market is as follows:

No. 2 can sliced pineapple 28c, pints 50.

No. 2 can of juice 19c, pints 50.

According to these prices the 41 pints of pineapple that Mrs. Williams canned would be valued at \$11.48 and worth 2050 points. As No. 2 cans of juice is the only size that the agent was able to find the price of, we can convert the quarts of juice into 32 pints. At the above quoted price this would be valued at \$6.08 and have a point value of 1600. The total value of \$17.46. By subtracting the \$5.00 price of the dozen pineapples, there would be a saving of \$12.46. Not only could this saving in points and money be considered but the fact that there are not any pineapples sold on the market commercially at the present should be taken into consideration.

**SERIOUSLY ILL**  
Mrs. Conn Isaacs is seriously ill with pneumonia in an Amarillo hospital. According to information received the first of the week, she was getting along "as well as could be expected."

Mr. Isaacs, a son of Mr. and Mrs. Ben L. Isaacs, is a civilian instructor at the Amarillo Army Air Field.

## Our WASHINGTON Letter

By Congressman O. C. FISHER

A partial victory against discrimination in freight rates was won by western and southern states when the Interstate Commerce Commission recently ordered, that as soon as schedules can be prepared, an article moving by railroad freight shall take the same rate classification regardless of where it starts or stops. One of the greatest barriers to establishing manufacturing plants in the west has been this discrimination in freight rates. It has always been cheaper to ship raw materials to the east for processing and return the finished product to the southwest than to process them where they were grown.

It is generally believed that it will take a year or two for the railroads to adjust their rate schedules but the Commission has ordered them to put into effect by August 30, a partial adjustment in class rates.

The battle in the House of Representatives over the renewal of the Reciprocal Trades Agreement Act will be over by the time this is printed. The Administration would have experienced little difficulty in getting an extension of the present act for another year. The principal opposition is to the provision granting the Secretary of State the power to reduce tariffs by another 50 per cent below present levels. It is feared, that in his enthusiasm to build good will, the department might seriously harm great industries in this country upon whom many people depend for their jobs. Lowering of tariffs on natural rubber to aid certain countries might easily destroy our own great synthetic rubber industry. Lower tariffs on meat will surely encourage imports that will seriously harm our domestic livestock and meat processing industry. Our experience during the war with governmental regulations and manipulation has made us somewhat fearful of granting additional power to officials who are not elected by the people.

Two typically American incidents occurred on May 21 when President Truman conferred the Congressional Medal on T/Sgt. Jake W. Lindsey before a joint session of the Congress. One was that General Marshall, Chief of Staff, acted as personal escort for the Sergeant, and the other, when he retired from the Chamber, Sgt. Lindsey received greater applause than did the President, who is himself very popular with the Congress. In no other country would these things happen. Other items of interest were the fact he is the one hundredth infantryman to receive the Decoration in this war and that less than 48 hours before the Ceremony in Congress, he was at his post in Czechoslovakia. He will now be discharged and return to his home in Mississippi.

War Food Administrator, Marvin Jones, advises us that the United States has produced 50 per cent more food annually in this war than in World War I. With ten percent fewer workers on farms,

## Food Locker Project Approved By WPB; Box Orders Placed

An article appearing in a San Angelo paper this week stated John B. Stribling had announced approval of Eden and Eldorado frozen foods locker priorities by the War Production Board in Dallas, and that he had gone to Abilene Tuesday to place orders for new locker equipment.

Plans are for installation of 400 locker boxes in Eldorado. "Little trouble is anticipated in securing of the equipment," the article quoted Stribling as having said, and he hopes to have the local project in operation here by the middle of September, this year.

Stribling was in Eldorado Saturday of last week seeking a location for erection of a building to house the plant. It has not been disclosed whether such a location was chosen.

## Tap Made for REA Lines This Week

Wednesday night of this week West Texas Utilities Company employees were making installation of switching and meterizing equipment in order to supply a tap line for current to the R. E. A. lines when they are ready to receive power.

Jerry Pennington, local WTUC manager stated they would have their installations complete by Friday of this week.

This week also found Taylor Construction crewmen busy on line construction of REA's Section A.

## Final Date For Filing Payment Applications

The closing date for filing 1943 and 1944 Agricultural Conservation Program Applications for payment has been set as June 30. This applies only to those operators who filed a timely performance report.

This closing date is not an administrative closing date to which certain exceptions can be made as has been the case under previous programs. This closing date has been set by law and payments cannot be made under any condition where producers filed applications under the 1943 or 1944 program after this date.

## Five Red, Five Blue Stamps Valid Today

Five more red stamps for meats and fats and five blue for processed foods will become valid today, June 1, OPA has announced.

The red coupons are V2 through Z2; the blue D1 through H1. Both series, in Ration Book Four, will be good through Sept. 30.

OPA also reminded that the following stamps will not be good after June 2:

Red—Y5, Z5 and A2 through D2; Blue—H2 through M2; and sugar coupon No. 35.

and with total national population up a third, our people have had about 10 per cent more food per capita during this war than in the 1917-18 period. During the present conflict, twice as much food has gone annually to the armed services and for overseas shipments as was used for these non-civilian outlets each year of the last war. This record has been accomplished notwithstanding a shortage of labor and machinery, and many other handicaps.

**Time For Industrial Peace**

If war has taught the nations of this world anything, it is that the price of peace, however high, is the one purchase price humanity must pay if it is to survive in the future.

It is past time that the lesson be applied to the domestic affairs of our country, as well as to international relationships.

There will be no prosperity worth the name in the United States after this war—no jobs for returning veterans, no employment effective enough to provide well-being for our working force or for management—unless there is first industrial peace between management and labor.

That harmony must be—in fact, can only be—created by labor and management on a voluntary basis—and soon! Our people, our fighting men, are led to the teeth with the incessant squabbling that has disrupted production for the past decade.

This squabbling is not necessarily the fault of rank and file union members. It is, however, an indictment of irresponsible labor leadership.

The solution to these labor-management difficulties—in which every farmer, rancher, worker, housewife and businessman among us has a stake—can only come from labor and management themselves.

**Senator George Could Be Right**

Insistent on 60,000,000 or any other arbitrary number of postwar jobs inevitably would lead to "the most rigid regimentation we ever had in peace," according to Senator George, chairman of the Senate Finance Committee.

Emphasizing that "the only practical approach is to aim at a level of productivity that will furnish full employment, as far as it can be realized, for all,"

the Senator declared:

"We can't reach any such arbitrary figure as 60,000,000 jobs without controlling industry itself and the placement of workers. It would mean a complete change in our economy, and I think the traditional American way has worked pretty well so far."

**Eyes Toward Germany**

Washington has been interested in dispatches about the department of Nazi bigwigs blazoned with medals and stuffed with pride who have been surrendering to the American armies. The tendency of these chief gangsters in defeat to make Adolf Hitler the whipping-boy and to appear as innocent as the cat with the canary inside, should not fool our commanders. The dexterity with which certain former Nazi Lions have become lambs is amazing. The selection of General Eisenhower as military governor of Germany is fortunate. He will not dawdle, pose or compromise. The United Nations have confidence in his administrative amiability. He will do teamwork even with the Germans to aid them in their economic and civic restoration.

Fear has been expressed lest officials of the United Nations may fall so completely under the spell of the rascals who planned and waged this brutal war that they will trust them with responsibilities of government. Such a prospect seems improbable. The memories of how their former concessions to Nazi complaints, policies of appeasement and outright aid only helped a nation feigning weakness to turn its destructive might against them when it had become mighty in arms will doubtless give the United Nations the necessary caution. This most evil serpent, Nazism, that wriggled up from the morass of Prussianism with all the protective coloring of culture and patriotism, only to sink its fangs into the bodies of many peoples, must be shown no mercy. It must not only be scotched but killed and buried with absolutely no hope of a resurrection. This safe policy does not call for acts of vengeance or mistreatment of the German people. It does require removal of the last vestige of the monstrous thing that has crushed mankind with fear, sufferings and death.—Jacob Simpson Payton in The Christian Advocate.

Author of the widely read best seller, "Sun in their Eyes" and creator of the comic strip character, "Jane Arden," Monte Barrett will open the Sixth Annual Clinic for School Librarians on June 7 at the North Texas State College library auditorium. Barrett former Houston and San Antonio newspaper man and author of eight books will speak on the subject of "Telling the Story of Texas."

**American Vet Council To Assist Veterans**

The American Veterans of World War II Council No. 1, was organized in Austin, Texas, March 7, 1944, after seeing such a need, and a wonderful opportunity to serve and assist the Service men and women of World War II.

The American Veterans of World War II Council was granted a State Charter on February 20, 1945.

The purpose of this organization is to preserve and strengthen comradeship among its members; to assist in re-establishment of worthy American veterans; to protect the welfare and rights of the Service man or woman while still in the uniform, or any honorably discharged service man or woman; to perpetuate the memory and history of those who have paid the supreme sacrifice; to assist their widows and children; to maintain our obligation to the government of the United States of America and its Constitution and laws; to preserve our American institution of Freedom; to defend the United States from her enemies of any nature whatsoever.

One aim of said Council is to try and unite under one great body many of the Veterans organizations that now exist, such as The Navy Mothers, The Marine Mothers, The War Dads, etc. in order that we may better serve the service men and women of America now in service or have been honorably discharged.

The American Veterans of World War II Council membership is composed of mothers, foster-mothers, wives, widows, sisters, and daughters of American War II service men and women of the army of the United States, or any other branch of service during World War II.

Council No. 1, Austin, Texas, sponsored the "Living Memorial" project for McCloskey General Hospital, Temple, Texas—which was securing funds for 17,000 shrubs and trees to beautify the 215 acre grounds. (The government has since seen the value of this and is now carrying on such work). Council No. 1 has also furnished many recreational rooms in the Veterans' Hospitals, furnishes entertainment for the hospitals, performs some courtesy for all groups of boys who are leaving for training camps, and many such things as can be done by any such local group.

If any one is interested in such an organization for your Community write to Mrs. John Lee Smith, Capital Station, Austin, Texas for further information.

"May God grant on this V-E Day, that women of America will go forward, courageously with faith in each other and in the ideals upon which our American Constitution was written, faith in the eternal principals of Americanism, faith in our ability to maintain it's challenging program. Only then will the Star of Hope rise over America's destiny and point to us a realization of the sublime ideals of true Americanism," said Mrs. Smith.

T/Sgt. and Mrs. John T. Ballew and baby of Victoria have been visiting here with his parents, Mr. and Mrs. G. L. Ballew.

**State Health Officer Urges Precaution Against Dreaded Polio**

Austin, Texas, May 30. — Last year was considered by health officials to be an epidemic year for poliomyelitis in Texas. Inasmuch as 78 cases of polio have been reported to the Texas State Department of Health so far this year as compared with 58 cases in the same period during 1944, Dr. Geo. W. Cox, State Health Officer, has issued the following statement and suggestions concerning the control and prevention of polio which he urges all Texans to observe.

Control measures must emphasize clean-up campaigns and improvements in sanitation. Strict sanitary measures must be observed in all communities. Stringent efforts should be made to eliminate the housefly and to destroy its breeding places. All mosquito and mosquito-breeding places must be eliminated at once. Every effort should be made to institute approved garbage collection systems immediately. Safe water supplies must be assured. Where adequate municipal sewage disposal systems are not in operation, it is vitally important to promote and maintain sanitary septic tanks and outdoor privies.

All swimming pools should, under rigid supervision, maintain those standards approved by the Texas State Department of Health. This necessarily includes maintenance of proper chlorine level. Where such standards are not maintained, those pools should be closed immediately.

All raw foods and vegetables

should be washed thoroughly before use and protected from flies, filth, and insects. All eating and foodhandling establishments should adhere strictly to the state law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain approved sanitation should close one or two hours a day so that employees can assist in maintaining cleanliness and high sanitary standards.

Every effort should be made to secure approved milk. Rats and mice should be exterminated. Maintain in the home the same sanitary standards that are necessary in community life. Particular attention should be paid to personal hygiene. Excreta from polio cases and contacts should be disinfected and handled with the same scrupulous care as in typhoid fever or bacillary dysentery.

Over-exertion in children should be avoided and children should not visit homes where there is a sick child. It is advisable to reduce to a minimum all human contacts especially in children during the outbreak of this disease.

Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately. It is recommended that cases be quarantined for 14 days. It is not advocated that schools, churches, and theaters be closed.

## Care of Woolens and Floors Discussed at H. D. Club Meeting

A program on the care of woolens and the care of finished floors as given when the Eldorado Home Demonstration Club met Friday afternoon in the home of Mrs. Jerry Pennington.

The meeting opened with the Club Collect repeated in unison, the Pledge to the Flag and "America." Roll call was answered with "What I intend to use on my floors."

Mrs. Palmer West gave a demonstration on the "Care of Woolens" and stressed the fact that care should be given woolens in cleaning, wearing and storing. "When you take care of your woolens, you benefit three ways," Mrs. West said. "First, the wool keeps its fresh, fluffy look. It holds its friendly warmth and it gives longer wear in general."

"The Care of Finished Floors" was given by Mrs. L. D. Christian who stated that a strong soap should not be used or one containing lye, but a mild soap used with water, wipe floor dry, wax and oil as desired.

The next club meeting will be an all day one June 8 in the home of Mrs. Perry Mittel with a demonstration by Mrs. Fannie Pittman, Agent. All club members who were not at the last meeting are urged to call the president before that time.

Refreshments were served to 7 club members and one visitor, Mrs. Ira Locklear.

## Food Still Important Factor In Winning War Against Japan

Austin, Texas, May—Reminding Texas homemakers that food is still the No. 1 important item for winning the war and the peace, Miss Jennie Wilmot, University of Texas associate professor of home economics, has put into verse a "modern" Mother Hubbard story. Written for the Texas State Nutrition Council news bulletin, Miss Wilmot's verses are as follows:

### OLD MOTHER HUBBARD—FACTS AND PROPHECY

Summer, 1945

Old Mother Hubbard  
Went out to her cupboard  
To look at her left-over food.  
"Of Peaches I've 20  
Of berries a-plenty,  
Now, really, I think that is good."

"The war's about finished  
The need is diminished  
For all of the Victory canning  
I'll live on my ration  
And take a vacation,  
And not can the food I was planning."

Winter, 1945-46

Old Mother Hubbard  
Went quick to her cupboard!  
She'd just hurried back from the store—  
Her points, inelastic,  
(It seemed so fantastic!)  
Would scarcely buy anything more.

The cans in the cupboard  
Of Old Mother Hubbard  
Were gone! Not a peach or a berry!  
Monotonous eating  
Each day she'll be greeting,  
To pay for the days she was merry!

And the moral, says Miss Wilmot, is that food will be our most telling weapon for the peace. "Can all possible," she says. "Follow the best directions like they were a map to Tokyo!"

## Ford-Calentine Wedding Rites Read Saturday, San Angelo

In a ceremony performed in San Angelo at noon Saturday, May 26, Miss Ena Ford of Eldorado became the bride of Clyde H. Calentine of Sutton County. The Rev. George S. Baker, Jr., pastor of the First Methodist Church of San Angelo officiated.

**Lieut. R. N. McDonald Bombs Hong Kong**

First Lieut. Raymond N. McDonald, B-24 pilot of Brady, recently flew in the first island-based raid on the Chinese mainland when his Jolly Roger Liberator outfit led the Fifth Air Force from the Philippines in a sensational bombing of Hong Kong.

Climaxing a two and one-half year northwestward drive out of Australia through the South Seas, the Jolly Rogers, oldest B-24 organization in the Pacific, dumped half-ton blockbusters on South China's greatest port, blasting it to shambles.

Making the 1600-mile trip without fighter escort, McDonald and his airmates knocked out 12,500 tons of shipping to further reduce the dwindling Jap navy and left the huge Kowloon drydocks and navy yards in flaming ruins. They put an amazing 90 per cent of their bombs in the target.

Other installations they wiped out were buildingways, marine machine shops and miles of warehouses and wharfage.

The knockout boosted the Jolly Rogers' shipping destruction total to a half million tons while the raid itself added another "first" to the famous outfit's string of opening daylight blows, including Rabaul, the Admiralties, Hollandia, the Philippines and Borneo.

McDonald, in the army more than two years, has flown 25 combat missions totaling 225 hours, with Corregidor, Bataan and Formosa among the targets. He is the son of Mr. and Mrs. R. N. McDonald, formerly of Brady but now of Texarkana.—Brady Standard.

Lieutenant McDonald is a grandson of Mrs. W. J. McDonald of Eldorado.

A/C J. L. (Jack) Neill, Jr., son of Mr. and Mrs. J. L. Neill, has been transferred from Olathe, Kansas to St. Mary's College, Calif., where he is a member of the Eighth Battalion of the U. S. Naval Pre-Flight School there.

In 17 Texas counties they say, Dottie has breezed in and blitzed and breezed out, leaving her mementoes.

In Abilene she had the audacity to use cashier's checks bearing the name of an Abilene bank.

Apparently she was a bit more diplomatic here, and preferred Fort Worth stationery, ended the Brownwood reporter's report.
