

MEDITATIONS
By the Editor

Mr. and Mrs. T. W. Johnson increased our roving desire this week when they sent the publishers a post card bearing a beautiful scene from the Glacier National Park of snow-capped mountains and lakes. The card was mailed from Cut Bank, Mont., and stated they were on their way then to Oregon and having a wonderful time.

Every once in a while even a country editor gets impressed in a manner that he sometimes might wonder if someone else could be wrong.

The army and navy have done a remarkable job in handling the millions of civilians out of whom fighting men had to be made in the shortest possible time.

They maintained production of finely-trained soldiers, sailors and marines and they are winning the war faster than many of us anticipated it possible to do.

Generally speaking, ranking officers have not been harsh in their discipline, at least not for offenses against the government of the United States.

But for offenses against the governments of Germany and Japan have failed to show, in our estimation, good judgment in at least two instances.

The sentence of two years at hard labor and a dishonorable discharge for the soldier who struck nine rebellious German prisoners with his fist, is one of these instances.

It is commendable that the army corrected this mistake of a court-martial. The soldier who socked the Germans had been through bitter fighting; had seen how American prisoners of the Germans had been tortured and murdered. And when German prisoners became unruly he spoke to them in the language they understand best.

Wonder if he should not have been promoted instead of prosecuted?

And now the navy is to court-martial a young submarine commander who sank a Jap relief ship by mistake.

According to press reports the Jap ship was responsible for her own hard luck. She was off her course and improperly lighted. Could it have been a suicide ship trying to be sunk in order to justify the attack on several well lighted hospital ships by the treacherous Japs,

The men who man our submarines are heroes who have paved the way for our victories in the Pacific by the vast Jap tonnage they have sunk, at great risk to themselves. The commander might have fired too fast. If we get it correct you have to fire fast in that business or you don't fire at all.

We are fighting an enemy that has violated every rule of civilized conduct, one that has invented atrocities never before heard of in existence of human beings. Can we afford to be too technical?

Meting out of punishment to this officer might take a different course if the desk officers saw the situation—though a periscope.

Induction centers of the army and navy could bear a little more scrutiny by desk officers who are allowing men in charge, many times corporals, to stand up and abuse men sent to these centers for physicals and assignments. Discipline could be impressed and authority shown without these fellows taking the name of God in vain at every breath and insulting teen-age youth by abusive language at every command and without reason. Is all this necessary to win a war or train a soldier?

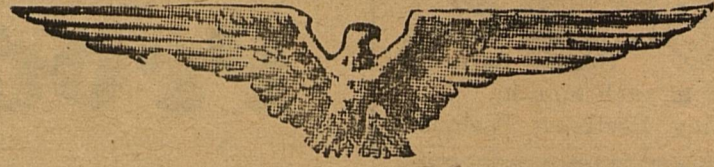

SUTHERLAND TO ENTER SERVICE JULY 29

Coach Ernest Sutherland and Mrs. Sutherland and little daughter are to leave Eldorado Saturday for Archer City. The coach is to enter the armed services on July 29. He has been mentor of the Eagles the past two seasons and leaves behind him many boys who are lamenting his leaving.

FORTY-FOURTH YEAR ELDORADO, SCHLEICHER COUNTY, TEXAS, FRIDAY, JULY 13, 1945 NUMBER 24

WITH THE MEN IN SERVICE

Back In States

Sgt. Duncan C. O. Wilson arrived last week to spend a 30-day furlough period with his parents, Mr. and Mrs. D. C. O. Wilson on their Fort McKavett ranch following his recent return to the States. Sergeant Wilson has been stationed in England where he was a member of a gun crew on a B-17. He entered service in June, 1943.

Out Of Service

S/Sgt. Marvin Mirike was greeting friends here this week following his unexpected arrival back in the States and home. Mirike was in civilian clothes and wearing the United States Service Discharge Button in his shirt collar this week. He formerly was stationed in Eldorado with the Field Crew of the AAF, and had been overseas about a year. He plans to return to ranching at the home of his mother-in-law, Mrs. Felix Susen.

Sgt. William McAngus and Mrs. McAngus arrived in Eldorado Tuesday for a visit with the Sergeant's parents, Mr. and Mrs. Hugh McAngus following his arrival in the States on June 29 from Scotland where he has been attached as a groundcrewman with the Eighth Air Force. He had been overseas 23 months. Mrs. McAngus resides in El Paso.

Marine Master Sergeant Louis Kerr arrived Saturday in Eldorado for a visit with his parents following his recent return to the States from the Eastern Theatre of Operation. He visited recently with his wife for a few hours in Honolulu. Sgt. J. T. Kerr left this week after spending since Monday with his brother and parents. He is stationed at San Antonio and the two brothers had not seen each other in about five years. Another brother, T/Sgt. Granville Kerr, in Air Corps, is thought to be near Guam, has not been seen by the two brothers in about seven years. They are sons of Mr. and Mrs. Bud Kerr.

Pvt. L. D. Mund, stationed at Fort Benning, Ga., arrived Tuesday for a furlough of 11 days to be spent with his wife and with his parents, Mr. and Mrs. Charlie Mund. Private Mund is in the Paratroops and recently received his wings.

The name Missouri signifies "big muddy."

Brahman Cattle "Proving Up" in Texas

Corsicana, July 11.—(TLNS)—Texas, with an eye for beefsteaks, has taken a product from India and run it into a thriving industry that is savory from two standpoints—taste and dollars.

A sacred item, means of power and source of milk in India, the Brahman came to America in the latter part of the last century in but one role—as a beef-maker—and wartime has spotlighted its rapid development as one of Texas' beef breeds. The big humped-back animal with the long ears, in proportion to existent numbers, today is supplying as much edible beef as any other breed, tests on the butcher's block have disclosed.

The hump is deceptive—the breed is literally a walking beef factory, cattle experts and packers disclose.

"They fleshen quickly, are heat, tick and disease-resistant, are the best of foragers, are immune to cancer and pink eye and dress out top beef percentage when slaughtered," say J. Afton and J. Harry Burke of Corsicana, who own one of the prominent registered herds of the nation. Their cattle swept the national Brahman show at Houston early this year, placing the bull and female grand champions and reserve female champion as well as taking numerous other ribbons.

There are dozens of Brahman herds in Texas but the Brahman "population" in the nation is still lower than competing breeds because of the late entry of the Brahman into the United States. Biggest task, say the Burke brothers and other breeders, is to supply the brisk demand.

Brahman boosters cite a test on record made by the U. S. Department of Agriculture, Texas Experiment Station and King Ranch that shows steer calves sired by Brahman yielding most edible beef, scored highest in taste, excelled in tenderness of meat and brought best prices in a breed contest. The Burkes have an order list

Flying Instructor Locates Here, Has Plane For Instructing

Ralph Jackson, licensed civilian instructor, set his Taylor-Craft down on the runways of the local port Monday and declared he wanted to locate in Eldorado to continue instruction of civilian students who have started toward their solo work, also to accept new students for flying and at the same time offer the area flying service composed of cross-country charter service, cargo hauling and any type flying desired by the public.

Jackson holds all flying instructor's ratings, and states he has had well over 4,000 hours flying time, with a lot of the time in the service of the government as an instructor. He was a civilian instructor before the war and for several months conducted a flying service at Ozona prior to coming here.

With a full-time instructor on the job all the time it is felt that enough students, together with plane rentals and other types of flying service will justify Jackson to locate here. Any one wanting to learn to fly is invited to contact the instructor where they may obtain his rates. Also if there are persons wishing to make cross-country trips or ship cargo for fast delivery he may be found at the local airport or located through any of the local enthusiasts or airport committees.

Readers are invited to read an advertisement announcing the new endeavor in this issue of the Success.

Mrs. J. W. Harrington Called By Death Monday Morning

Mrs. J. W. Harrington, 84, passed away at the home of a daughter, Mrs. Will Montgomery in the Rudd community Monday morning, 23 days after the passing of her husband, J. W. Harrington, who died on June 16.

The deceased couple were pioneer residents of West Texas and had lived in the Rudd community a number of years. They celebrated their 66th wedding anniversary on March 6 of this year. Both were members of the Methodist church in that community. The elderly couple were married in Mason on March 6, 1879.

Funeral services were held from the Eldorado Methodist Church Tuesday at 4:00 P. M., conducted by the pastor of the local church and the Rudd church, Rev. F. B. Faust. Ratliff Funeral Home was in charge of arrangements.

Survivors include two daughters, Mrs. Frank Panusis of Taft, Calif., and Mrs. Will Montgomery of this county; a brother and sister, both of whom reside in New Mexico.

MOORE INFANT DIES

Marcia Moore, daughter of Mr. and Mrs. Henry Moore, died shortly after birth in a local hospital at 3 o'clock this morning.

Survivors include the parents, a brother, Michael, and the grandparents, Mr. and Mrs. L. Moore, Eldorado.—San Angelo (Monday) Evening Standard.

of waiting Brahman sires when they're available this fall. That's a sample of the demand.

The Brahman, which the Rajahs couldn't "see" for gems and spices, apparently has come into its own in Texas, where cowmen look right through cowhide and see a beef steak, hump on top notwithstanding.

Runge Ranch To Be Scene Of Weed and Grass Identification Meeting When 4-H Club Boys And Girls Meet Monday

Education Is Still Half Century Behind The Times

Austin, Texas, July 11.—Public school training for children from the time they are four years old until they are 18, with universities offering only junior, senior, master, and doctorate work, has been proposed by a University of Texas educator.

Dr. Frederick Eby, long-time professor of education at the University, and a proponent of the junior college, believes that the school system can be reorganized for more efficiently and more economic utilization of funds.

"Education is still half century behind the times," Dr. Eby said. "Our institutions are in the hands of men who have little vision, and who lack sufficient training in educational philosophy and science."

Changes in the school setup which he suggests are:

Kindergartens for children from 4 to 6 years old; six-year elementary schools, followed by four year intermediate school, followed by a four-year college setup. The latter schooling would take the place of the last two years of high school and the present junior colleges.

"Universities should shift freshmen and sophomore work to the colleges, confining their teaching from the junior level up. Such a program would be economically more effective, and would give us an educational system in keeping with the American leadership in the culture of the world," he said.

Rain Fall Brings Relief To County

The total rainfall in the county, according to gauge recordings by government gauges and furnished through the courtesy of the local Soil Conservation Service were reported to have shown the following measures since July 4:

Gauge	Inches
Runge	4.40
Oglesby	3.35
Bearce	2.50
Kinser	.74
Eldorado	1.20

Pasture lands have taken on a new green in most all sections of the county and crops that were suffering for moisture are reported to be taking on a rapid growth.

Evangelist Will W. Slater of Fort Smith, Ark., shown above, is conducting a revival meeting at the Church of Christ and will close out the revival period Sunday, July 15. Services are being held each evening at 8:45.

To further the youth of the county with identification of weeds and grasses, Jack Welch, Schleicher County Agricultural Agent has arranged for both 4-H club boys and girls to meet at the Forrest Runge ranch Monday afternoon where they will study vegetation.

Time of the meeting has been announced as 3:00 o'clock P. M. Higo Mika of the Divide Soil Conservation Service will be in charge of the identification part of the program, and Agent Welch states that arrangements are being made for interesting discussions to be made on feeding and possibly on terracing.

A ranch style barbecue is to be held late in the afternoon and will be partaken of by those in attendance.

School District Election Ends In Tie Saturday

A most unusual event occurred Saturday of last week when the election was held in the Eldorado Independent School District to determine whether or not the district would be authorized to levy and collect a tax not to exceed \$1.50 on the \$100.00 valuation of taxable property for school maintenance.

The unusual thing of the election was the fact that despite the small vote cast it ended in a tie. There were 41 votes cast for maintenance and 41 votes cast against maintenance.

Last Rites Held For Beamon Speed

Funeral services were conducted Sunday afternoon, July 1, from the Methodist Church for Beamon Auston Speed, 36, who died suddenly of a heart attack at about 2 o'clock Sunday morning at his residence here. Burial was in the Sonora Cemetery, with the Masonic Lodge in charge of graveside rites. Ratliff Funeral Home was in charge of arrangements.

Mr. Speed had lived in Sutton County since 1918, when his family moved to Camp Allison from McLean, Texas, where he was born in 1909. The family moved to Sonora in 1923, and he had made his home here since that time.

He attended the Camp Allison and Sonora schools, and later was associated with his father, the late Dallas T. Speed who died in 1931, in the dairy business. After the death of his father, he and his mother continued to operate the dairy until 1933. For the past seven years, Mr. Speed has been employed at E. F. Vander Stucken Co., Inc.

In April, 1940, he was married to the former Miss Nora Davis of Eldorado, daughter of Mr. and Mrs. Anderson Davis, and they had one child, Carolyn, 3.

Mr. Speed became affiliated with the local Masonic lodge several years ago and since that time had taken a very active part in Masonic work, training many men for Masonic work. He was also a member of the Sonora Fire Department.

Survivors include the widow and the daughter; his mother, Mrs. Ardena Speed of Sonora and Houston; and one sister, Mrs. H. F. Payton of Houston.—Devil's River News.

**PROPERTY RIGHTS INHER-
ENT IN HUMAN RIGHTS**

In its "Fortnightly Letter," the
Connecticut Economic Council of
Hartford says:

"Frequently the pious sentiment
has been uttered that 'property
rights' must never be placed above
'human rights.' But if we stop and
think, we know our 'humanity' is
at the base of our property.

"Freedom in the right to work;
in the enjoyment of our existence
in decent homes; in the opportuni-
ties opened by good education; in
good health as improved for us by
modern science—all of these free-
doms are supported by our prop-
erty in the fruits of our labor.

"No man who is not assured of
the products of his labor can be

**TEXAS VETERAN FIRST IN NATION
TO GET FARM LOAN UNDER NEW ACT**

A Texas veteran of the Army
Air Forces became the first man in
the nation to obtain a loan under
the new ex-soldier's farm owner-
ship program of Farm Security
Administration.

Carroll M. Olson, Hamilton
County, former AAF captain, signed
up for a loan at the regional
FSA office in Dallas just a few
hours after the program became
effective, in the presence of FSA
and Veterans Administration offi-
cials.

It was the second first for Tex-
as under programs designed to as-
sist veterans to enter farming. In
March a Cass County veterans ob-
tained the first farm loan under
the GI Bill of Rights.

Carroll, a 6-foot, handsome na-
tive of Bosque County, was a farm-
er and student at John Tarleton
Agricultural College before enter-
ing service as a flying cadet in
April, 1941. He was stationed at
fields in California, Florida and
in the Carolinas and received a medi-
cal discharge in February of last
year.

The program under which he re-
ceived his loan is the result of a
\$25,000,000 FSA appropriation by
Congress, earmarked for farm own-
ership loans to veterans. Con-

sure of his liberty. If we have no
property rights in what we pro-
duce, we are under a political con-
trol which soon turns into a econ-
omic enslavement. We are not free
if we have no say about what we
shall expend our forces upon, what
sacrifices our ambitions shall in-
spire us to make, and what re-
wards we shall aim to attain."

gress appropriated this year more
than three times the amount FSA
had in the fiscal year just ended
for its farm program. This time
the agency received \$50,000,000,
against \$15,000,000 for the last
fiscal year, with half designated
for veterans loans.

Veterans may borrow on the
same terms offered other farmers
under the FSA farm ownership
program authorized by the Bank-
head-Jones Tenant Purchase Act.
Loans for the full amount of the
cost of purchasing and establish-
ing a farm may be made, with
forty years to pay at 3 per cent
interest. A majority of borrowers
take advantage of a variable pay-
ment plan which enables them to
make larger payments in good
years and smaller ones in bad
years.

More than 5,000 farmers in the
Southwest region of Texas and
Oklahoma have become farm own-
ers under the program, E. Lee Oz-
birn, regional FSA director, said.

Carroll's \$7,400 loan will cover
cost of land of a 157-acre sandy
loam farm eight miles west of

Cranfill's Gap, repairs to house,
construction of combination gar-
age smokehouse, installation of
pipe and ventilated pantry. When
materials are available, he will
build a barn.

Veterans with a farming back-
ground are eligible to apply for
loans at FSA offices in their re-
spective counties. A committee
of three farmers passes upon their
eligibility.

The cantaloupe, one of Ameri-
ca's most popular fruits, derived
its name from a town in Italy.

SOCIETY

PARTY HONORS TWO OUT-OF-TOWN GUESTS TUESDAY EVENING

Mrs. Lawton Brevard was hostess to a group of friends Tuesday evening at the home of her parents, Mr. and Mrs. Roy Davidson, when she entertained in honor of two out-of-town guests, Mrs. Jo Ed Hill and Miss Billie Barbour.

The guests enjoyed swimming,

then were served a barbecue after which bridge was played.

Present were Mrs. Jo Ed Hill, Mr. and Mrs. Buster Gunn, and Bobo, Mr. and Mrs. Joe Wagley, Mr. and Mrs. Roy Davidson, Misses Sarah Hill, Betty Bryant, Frances Thompson, Paddy Jones, Billie Barbour and the hostess.

MISS FRANCES THOMPSON ENTERTAINS WITH BRIDGE

Miss Frances Thompson entertained at her home Monday evening with two tables of bridge.

A salad course was served to Misses Pauline Jones, Betty Bryant, Sarah Hill; Mmes. Lawton Brevard, Margaret Tinning, and Mrs. Jo Ed Hill and Miss Billie Barbour, both of Fort Worth and the hostess.

High score award went to Miss Hill and the bingo prize went to Mrs. Brevard.

PRESBYTERIAN AUXILIARY MET MONDAY

The Presbyterian Auxiliary met in Circle Monday at the church with Mrs. Leslie Baker as leader. The subject of the program was "How Do I Begin."

Mrs. F. B. Gunn was hostess and served refreshments to 8 members.

Mr. and Mrs. C. L. Meador, Jr., were in Dallas last week for a visit with their son, Jack Meador and Mrs. Meador, before Jack left for New York where he was to sail for foreign service with the American Field Service Command. He was accompanied to New York by his wife who is to return to Dallas to make her home while he is in service. Miss Edda Lou Meador, who had been visiting in Florida returned from Dallas home with her parents.

Hill-Whitten Wedding Rites Read Sunday

Miss Margaret Rebecca Hill, daughter of Mr. and Mrs. J. E. Hill of Eldorado became the bride of William Morris Whitten, son of Mr. and Mrs. W. T. Whitten Sunday morning at 9:30 o'clock.

The Reverend F. B. Faust, pastor of the First Methodist Church, read the wedding vows in the home of the bride's parents.

A bouquet of mixed spring flowers was centered on the mantel and large baskets of gladioli were placed at either side.

For the wedding the bride wore a sky blue dress with white accessories. Her corsage was of white coronations. For something old she wore a gold pin belonging to her grandmother and for something borrowed she wore gold ear bobs of her sister.

Immediately following the ceremony Mr. and Mrs. Whitten left on a week's wedding trip to Alpine and the Davis Mountains. For traveling the bride wore an aqua linen suit with brown and white accessories.

Mrs. Whitten is a graduate of the University of Texas and for the past few years has been a member of the Ozona school faculty.

Mr. Whitten has recently received a discharge from the Army Air Forces after serving 32 months in the CBI Theatre of war.

Following the wedding trip the couple will be at home in Eldorado.

Out-of-town guests were the bride's grandmother, Mrs. J. F. Murchison of San Angelo and Mrs. Jo Ed Hill and Miss Billie Barbour of Ft. Worth.

NEW BOOKS AT LIBRARY

New books added to the Public Library recently include "The Secret Bank" by Hope; "The Youngest WAC Overseas" by Bailey; "American Chronicle" by Baker; "Green Dolphin Street" by Gaudge; and "Jane Eyre" by Bronte, donated by Mrs. C. S. Chick in memory of Mrs. W. A. Davis.

Lilla Jean Ellington and Jonnie Lee Dickens will leave Monday for Kerrville where they will spend a week attending the Methodist Assembly Camp for Intermediate Youth Fellowship.

Mrs. Jo Hill and Miss Billie Barbour are house guests in the J. E. Hill home following their arrival here last week.

HOOVER'S DRUG STORE

H. D. Agent Points Out Saving In Points And Money

On Monday, June 25, the Marketing Committee of the Home Demonstration Council purchased 80 bushels of peaches. The women of the clubs were notified before time that the peaches were to arrive that particular morning. The peaches sold for \$2.39 per bushel. They were the yellow freestone of the early Elberta type of peach. These peaches were sold in a short time that day. The Committee also purchased ten bushels of golden yellow plums which sold for \$1.75 a bushel.

Then on July 2 the Marketing Committee purchased 125 bushels of peaches that sold for \$1.98 per bushel. Again on Saturday, July 7, another purchase of 65 bushels was made that sold for \$1.59 per bushel. This makes a total of 273 bushels of peaches that have been purchased and sold in the county through the Marketing Committee.

Mrs. Goldie Alexander purchased three bushels of peaches and a half bushel of plums from the first lot of fruit that was sold. From this amount of peaches she canned 60 quarts of peaches and made 4 quarts of preserves. She kept out about two gallons for the family to eat. According to the information that the agent secured from the local grocery stores, number 2-1-2 cans of peaches, contain 1 lb. and 14 ozs., cost 35c and eighty points. Even a number 3 can lacks about an inch holding as much as a quart jar. Mrs. Alexander had her jars and rings and she only had to purchase the caps. The caps cost 10c a dozen and she used five dozen and six. Considering that the amount of sugar used was one pound for every four quarts of fruit canned, she would have used 15 pounds with the 60 quarts. This amount of sugar would have cost \$1.05 at 35c per five pound bags. The total cost for peaches was

\$7.17 and 55c for caps. This made a total of \$8.77. Sixty cans purchased at the grocery store would cost 2400 blue-points and \$21.00. By subtracting the total cost of the 60 quarts she canned from the price of that many cans purchased at the store, she had a saving of \$12.23. The blue points that she saved can be used to purchase food that she is unable to can at home.

Since the price quoted for the commercially canned peaches was for the number 2-1-2 cans and even a number 3 can does not hold quite as much as a quart jar, the saving in money and points was actually greater than that given above.

Mrs. Alexander used 1-2 gallon of karo in making the 4 quarts of preserves instead of using sugar. At 85c per gallon this amount of syrup would have cost 43c. The price of a jar of preserves that is less than a quart that is sold commercially cost 65c per jar. Since we included the price of the peaches and caps used in considering the saving on the 60 quarts of peaches canned, the only cost that needs to be considered in the preserves is the cost of the syrup. Since 4 jars of commercially made preserves would cost \$2.60, by subtracting the cost of the syrup used, she had a saving of \$2.17 on the preserves. Again we need to keep in mind that the jars of preserves purchased commercially are less in quantity than a quart jar.

Miss Dorothy Wilson who has been attending the University of Colorado for the past 12 months was accompanied from Denver last week by her parents, Mr. and Mrs. D. C. O. Wilson, and plans to spend a vacation period on their ranch before entering the University of Texas in September. Miss Barbara Coch of Montrose, Colo., schoolmate of Miss Wilson at Denver, accompanied the Wilsons home and is their house guest.

The 1945 wheat crop for Texas has been estimated at 36,200,000 bushels, as compared with 74,746,000 bushel yield in 1944. Dr. F. A. Buechel of the University of Texas reports. Estimates for the oat crop include 43,912,000 bushels.

Mary Jane Smith of Austin is here for a visit with her grandmother, Mrs. W. M. Bearce.

T. F. Welch of Foard County left Sunday after spending a few days here in the home of his son, Jack Welch, and family.

Guests in the home of Mr. and Mrs. C. A. Graves over the weekend were their sons, Clyde and family of McCamey; Pfe. and Mrs. Webster Graves of Bryan, Texas, and a grandson, Darrel Graves and Mrs. Graves of Girvin.

Pulverulent limestone, a material to finely-ground chalk, and used in the rice polishing industry, is being produced in several Texas counties, according to Glen L. Evans, economic geologist with the University of Texas Bureau of Economic Geology. In 1942, he said, 1,800 tons were used for rice polishing.

IT'S GREAT TO GET BACK FROM NATURE

POISON IVY, mosquitoes, ants, sunburn, rain—
Roughing it on a camping trip is great stuff. For a week or so. Then you begin to long for the comforts of home.

A good light to read by... a hot shower... your electric razor... an electric range... and, of course, your radio.

It's surprising the number of every-day conveniences made possible by electricity. You take them for granted—until you have to get along without 'em.

The big reason why you forget 'em is because electric service is so good and cheap. Electricity is still available at low pre-war prices. There have been no shortages.

And you can be sure there will be plenty of power for the post-war electric era—thanks to the practical experience and sound business management of America's light and power companies.

Listen to "THE SUMMER ELECTRIC HOUR" with Robert Armbruster's Orchestra and guest stars. Every Sunday afternoon, 3:30, CWT, CBS.

West Texas Utilities Company

Fat-Salvage Bee To Aid in Licking National Fat Shortage

It's been ages since we had an old-fashioned "bee" in these parts, but just as we've always pitched in to help a neighbor, so must we pitch in for our country.

To help make hundreds of battlefield and home-front essentials, more used fats are needed than are on hand. City folks are trying to make up the deficit of over 1,200,000,000 pounds. But their fats aren't enough.

Women in small cities, towns and rural districts must also save every drop of fat. Not just big amounts. But scraps of plates, meat trimmings. Melt them down once a week. Your butcher will give you up to 4¢ and 2 red points a pound. If you have any difficulty, call Home Demonstration or County Agent. Approved by WFA and OPA. Paid for by Industry.

Healthy Babies Discussed By Dr. George W. Cox

Austin, Texas, July 11.—Milk is an infant's natural food; nevertheless, milk plus heat, dirt, and flies has killed many thousands of babies. The intestinal diseases that attack babies in summer are, according to Dr. Geo. W. Cox, State Health Officer, largely caused by germs carried in milk and water. Unclean or contaminated water can be as harmful in causing infant diarrhea as contaminated milk.

Thousands of babies grow and keep well in Texas every year because they are given the right kind of care and the proper attention is given to the preparation of their food. The right kind of care includes keeping in close touch with the baby's doctor at all times; a regular daily schedule for sleeping, feeding, and bathing; sufficient time in the outdoor air; and

carefully supervised exposure sunshine—all these precautions can be important factors in keeping the baby well at all seasons of the year. In addition to benefitting the baby, this type of routine allows the mother time for her household duties and much needed rest periods.

"The baby should wear a minimum of clothing and should be handled as little as possible," Dr. Cox said. "A smooth, flat comfortable bed for the baby with no pillow and with plenty of fresh air will help him to sleep and rest."

The State Health Officer emphasized the importance of keeping the baby constantly protected from flies, mosquitoes, and other insects which may transmit diseases. Dr. Cox said that pamph-

lets outlining the proper care of the baby may be had free upon request to local health departments and the State Health Department.

Workers Urged To Show Social Security Cards To Employers

With many returning servicemen entering the labor market for the first time and with students getting jobs, Elliott W. Adams, manager of the San Angelo office of the Social Security Board today advised all workers "to show their security account card to every employer for whom they work."

This is essential to protect the worker's wage record, which is maintained under his name and number for his future monthly insurance benefits, Adams pointed out. For example, there are approximately 575,000 Smiths on the Social Security Board's records, and therefore, there are approximately two Smiths have the same number.

In stressing this point of one number for a worker's lifetime, Adams explained that employers are required to report each worker's wages, under both his name and number to the Government every three months. Then these wages are credited by the Social Security Board on each worker's individual ledger sheet, under both his name and number.

For these reasons, all workers in industry and commerce should follow this advice:

1. Show your card to every employer for whom you work.
2. Make sure that he copies

both your name and number correctly so that your wages may be credited to your account.

3. Hang on to your card. Don't lose it; but if you do lose it, get a duplicate. Never get a different number. Two numbers may cause some loss of wage credits and consequently of benefits. If you have more than one number, go to the nearest office of the Social Security Board and see which one you should keep. You need only one number throughout life.
