Koy Well No. 1 Put on 90 Barrels

A daily allowable of 90 barrels pending a Railroad Commission hearing July 17, has been given Cooper Gas Company, No. 1-A Jess Koy, this county's first large oil producer.

The oil has been flowing into a two-inch pipe to Shell Pipeline's 10-inch carrier to Houston. The well is producing gas and oil, the former rated 24,700,000 cubic feet and the latter 90.75 barrels hourly at 5605-40 feet and 110 hourly from 5520-70 feet. The gas is shut off at present.

Cooper No. 2-A Koy, an offset of No. 1, is drilling well below 1,000 feet, and drilling is proceeding steadily. This second well will be watched with great interest, as bringing in of another heavy producer will be the signal for extensive drilling operations by major companies who have Schleicher holdings.

MENARD ROAD PLANS SENT TO HIGHWAY DEPT.

Schleicher County residents are flattered over news that the State Highway Department district office at San Angelo have completed plans for the Menard-Eldorado highway, bonds for which were voted many months ago. It is hoped that the contract for the road work will be let within the coming week.

County officials state that the county's part in the project is practically completed, and that there will be no local hitches to slow down the work. The data in the project is now in the State Highway Department office, and it is expected that an early start will be made in this new highway.

Methodist Guest Speaker To Be Heard

Rev. Clifford Zirkel, Adult Conference worker, whose home is in San Antonio, will be a guest at the Methodist Church Saturday night and Sunday, July 13 and 14.

On Saturday evening at 8:00 p. m., he will meet with the congregation for a conference session followed by a social hour with the Wesley Adult Class as hosts. On Sunday at 10:00 a. m., Rev. Zirkel will hold conference with the two adult classes and will preach at the 11:00 a. m. service.

He will accompany Rev. Faust to Rudd where he will preach Sunday afternoon, returning here to preach again at the regular Sunday evening services at 8:00 p. m.

Rev. Zirkel comes here well recommended. A young man, he is a graduate of Westmoreland College, and has done post-graduate work at Yale. He comes from a Methodist family, who have lived in San Antonio for many years, and are members and prominent workers in the Travis Park Methodist Church there. His father, C. H. Zirkel is co-owner of the Zirkel Monument Company.

It has been announced that Rev. B. McCreary of Bronte will be the preacher for the Methodist revival here from August 4-11.

Mr. and Mrs. E. E. Newlin and Mrs. E. H. Sweatt attended funeral services Tuesday afternoon in San Angelo for the infant daughter born July 9 to Mr. and Mrs. Edward Newlin. The baby was dead upon birth. Mrs. Newlin's condition was reported as fair.

Ex-Prisoners of War Attend Convention

Arthur and Jack Montgomery went to Austin during the weekend to attend sessions of the Texas Kriege Club, members of which have been prisoners of war.

It was decided to hold the next convention at Ft. Worth.

COURT CANVASES ELECTION VOTE FOR MEMORIAL

The Commissioners' Court Monday canvassed the vote on the Memorial Park \$50,000 bond election and studied architects' plans for the building in preparation for advertising for bids.

Two out-of-town architects presented plans for the building, but no definite commitment was made by the commissioners.

The bonds were sold to Dewar Pancost and Robinson and bids will be advertised for at a later date. More discussion of the recreation center, bonds for which were approved June 29 by a 2-1 vote of Schleicher County residents, is expected at the next Commissioners' meeting August 12. The memorial will be erected in memory of War veterans from Schleicher County.

Sugar Rationing Still In Force Official Warns

"All phases of sugar rationing program are still in force," Cal C. Straughan, sugar rationing officer of the San Antonio area said recently.

"Reports indicate that there is considerable misunderstanding on the part of consumers and industrial users concerning the status of sugar rationing during the hiatus period of price control, and that some dealers are selling sugar without collecting ration points. This is a violation, and is subject to all penalties of the Second War Powers Act," Straughan explained.

This act, Straughan said, was extended to March 31, 1947, by Congress, and this extension was signed by the President on Saturday of last week. The president issued an executive order on June 30 that specifically directed OPA to continue to perform all functions relating to sugar rationing.

While the sugar rationing program is in effect, consumers should retain family ration books in their possession, Straughan said. Other sugar users, such as industrial, institutional, wholesalers, and retailers are also advised to retain unused ration evidence and records in their possession.

Straughan also reminded home canners that Spare Stamp No. 10 was validated July 1, 1946. However, he urged consumers not to spend Spare Stamp No. 10 until they actually have fruit on hand to be canned, as there will be no other sugar allocated for canning purposes during 1946.

Good Record Of Tax Collections

In a check-up at the sheriff and tax collector's office Tuesday, it was revealed that 97.8% of the 1945 State and County and Common School taxes had been paid up to July 1 when annual reports are made. Taxes not paid by that time are placed on the delinquent roll.

Aged Schleicher County Resident Buried Saturday

Funeral services for Mrs. W. T. Conner, 87, resident of Schleicher County since 1907, were held at the home of a son and daughter-in-law, Mr. and Mrs. O. E. Conner Saturday afternoon at 5:00 o'clock with the Rev. J. M. Hays, pastor of the First Baptist Church officiating. He was assisted by the Rev. F. B. Faust, pastor of the First Methodist Church, and the Rev. D. I. Miller, pastor of the Fundamental Baptist Church.

Interment was in the Eldorado Cemetery with the Ratliff Funeral Home in charge.

Mrs. Conner died early Saturday morning at the home of a son-in-law and daughter, Mr. and Mrs. John McLeod, Pontotoc, with whom she had made her home since the death of her husband in 1940. The body was brought overland in a Brady Funeral Coach.

Harriett Williamson was born April 19, 1859, at Bagdad, Williamson County, and she was married to the late W. T. Conner on Jan. 29, 1882. Five children, two girls and three boys, one of whom died in infancy were born to the couple. She was a life-long member of the First Baptist Church.

Immediate survivors include two daughters, Mrs. McLeod, Pontotoc; and Mrs. J. L. Neill, Eldorado; two sons, John Conner, Kingsville and Orville Conner, Eldorado; eight grandchildren, and three great-grandchildren.

Pallbearers were Clyde Galbreath, Lionell Ballew, Palmer West, Ken Ogdien, Will Isaacs and C. L. Meador, Jr.

Out of town relatives attending the services were: Mr. and Mrs. C. R. Woolsey and daughter, Alice Ann and Eugene Woolsey, nephews of Lubbock; Mr. and Mrs. John Conner, Kingsville; Mr. and Mrs. John McLeod, Pontotoc; Mr. and Mrs. Wilford McLeod and son, Bill of Pampa; Mr. Davis, Amarillo; Dale McLeod, Las Animas, Colo.; Mr. and Mrs. George H. Neill, Sonora; Mr. and Mrs. Clifford Taylor, Mr. and Mrs. Reed, San Angelo, and Robert Martin, Dallas.

Ballots Printed For Democratic Primary

Election ballots for the July 27 primary election, were printed at the Success office during the past week end and delivered to E. C. Hill, county Democratic Chairman. H. T. Finley, county clerk, reports that a few calls have come in for absentee ballots and these are being supplied this week.

NEW DAUGHTER

Mr. and Mrs. F. L. Powers, Jr., of Alpine, are the parents of a daughter born Friday, July 5. The baby weighed 8½ pounds and has been named Linda Sue. Mrs. Powers is the former Venita Davis, daughter of G. H. (Dick) Davis, and sister of Mrs. W. C. Doyle of this place. Paternal grandparents are Mr. and Mrs. F. L. Powers of Kansas.

Mrs. Doyle and Betty Mae left Sunday for a few days visit with her sister and family. They were accompanied to Alpine by Mr. Powers who came here for them.

RECEIVE DEGREES

Among candidates receiving degrees from Sul Ross College at the close of the summer session Aug. 22 are Charles A. Reynolds, superintendent of the local school, who will receive his Master of Arts degree and Lawton Brevard of Talpa, husband of the former Tommy Davidson, will receive his Bachelor of Science degree.

Bitterweed Pulling Barbecue Monday Sponsored by Lions

The annual bitterweed pulling, sponsored by the Lions Club, will take place next Monday, July 15 at 4:00 p. m. with workers covering the town section, followed by a barbecue on the courthouse lawn. Joe Brown Ross of Sonora will be the principal speaker.

It is generally surmised that the pulling will be lighter this year due to the drought and the energy with which previous campaigns have been conducted.

Eldorado Churches Clean Their Yards

Members of the Presbyterian congregation recently gathered at their church for a "weed pulling and grass mowing" party. All working together soon made the lawn about the church and manse a very attractive place.

Men and women of the Methodist Church worked Wednesday afternoon on the church lawn and will work again today (Thursday) to clear the yard of unattractive grass and weeds which have gained too much foothold for the regular janitor to take care of.

CHRISTOVAL RAISES SCHOOL TAX RATE

In an election held last Saturday, voters of the Christoval Independent School District approved by a majority of nearly two to one a proposal to raise the maximum school tax rate from \$1.00 to \$1.50. The vote was 58 in favor of the proposal and 33 against. Approval does not necessarily mean that the tax rate will be upped to the \$1.50 maximum.

A portion of the tax increase will be employed to "hire teachers at the present high salary rates," Lewis Hale, school board secretary said.

ON BAPTIST HOUR

Dr. R. Paul Caudill, Baptist Hour speaker for next Sunday morning, July 14, will discuss the subject, "Christian Strategy for World Conquest," as announced by the Radio Committee of the Southern Baptist Convention, S. F. Lowe, Director, Atlanta, Georgia.

Dr. Caudill, Pastor of the First Baptist Church of Memphis, Tenn., leaves on an extensive tour of foreign mission fields soon after his Baptist Hour engagement, according to the Atlanta announcement. Mr. Lowe states further that his abiding interest in world missions and his careful study of mission objectives and methods eminently prepare Dr. Caudill for discussing his subject.

The Baptist Hour is broadcast over an independent network which carries the Methodist and Presbyterian Hours at other seasons, and may be heard in this state.

Highway Department Releases New Map

Another bid for out-of-state tourists is in the making as the Texas Highway Department announces limited quantities of its first post-war color travel map now rolling off the presses.

The expected bumper crop of summer tourists in the Lone Star State will be guided over Texas highways with the aid of a map that will give visitors a brief introduction to a few of the State's points of interest. In addition it will afford a complete, accurate, easy-to-ready travel map for the use of all.

The de luxe map is expected to be the most popular feature at the Department's Information Bureaus which have been reopened at strategic points to supply post-war tourists with reliable, up-to-date facts on highways and tourist attractions which support one of the state's largest and fastest growing "cash crops."

The postwar edition carries a small scale map of the United States, the usual large scale insets of the State's metropolitan areas, strip maps of the main Texas travel routes and the Pan American highway into Mexico. It gives mileages between towns and carries a supplementary mileage chart. The highway marking system is explained with illustrations and there is a column of miscellaneous facts about the nation's largest State.

Shown also are the State and National parks, some of the old Missions, and other points of historical interest. Twenty-six color pictures, which will be changed in each subsequent edition, depict typical Texas scenes.

The outside of the map, when folded for mailing, bears a picture of the State Capitol and another of Governor Coke Stevenson. Below the Governor's picture is his official greeting "To Motorists Everywhere." In his message Governor Stevenson extends to the people of other States and Nations a cordial invitation to visit Texas and enjoy the hospitality of its people. "The highways of Texas are yours," he says. "Use them freely for your business and pleasure."

Mrs. Davis Leaves For Naples, Italy

Mrs. Paul Davis and two and one-half year old son, Dickie, left Monday for Naples, Italy, to join Captain Davis, who has been there since March. She has been living in San Angelo with her parents, Mr. and Mrs. C. H. Meadows, for the last few months, and has visited often in Eldorado with her sister-in-law, Mrs. W. C. Doyle, and her father-in-law, G. H. Davis.

Planning to remain only a year, Mrs. Davis is taking nothing but clothes, linen, the baby's playthings and a few cooking utensils. Her greatest difficulty was in purchasing winter clothes at this time of the year, she said.

En route to New York from where she will sail, Mrs. Davis will visit in Columbus, Ohio.

Captain Davis is also a brother of Lum Davis of this place, and a former resident here.

Mrs. Liza Bridges of San Antonio is here for a few days visit with her mother, Mrs. J. R. Word, and her brother, W. R. Word.

The Eldorado Municipal Airport will be formally opened Sunday, July 28, with an all-day entertainment featuring air performances, a rodeo, and a free barbecue at noon for flyers.

The airport, with its three turfed runways, CAA approved, is located at the western outskirts of the city. The Lions, who are sponsoring publicizing of the event will have charge of the event, and will prepare the grounds for entertainment of many visitors.

Information concerning the all day Opening is being mailed out this week, and the Lions are anticipating a most successful get-together of Texas flyers.

Candidates' Rally at Reynolds School

The annual Candidates' Rally is being planned by the Reynolds Home Demonstration Club for Friday evening, July 19, at 8:30 o'clock at the Reynolds school building.

This year's rally will take the form of a supper and 42 party Ladies are asked to prepare the suppers bring them along either in a sock, boxes or sacks tied with a sock, as tacky as possible, together with their husbands, sweethearts or friends, with "well filled pocket books." The owner will keep the mate to the sock and when boxes are sold, supper and 42 partners are found by matching the socks. The main thing is not to let friend "Hubby" or your date, know or see the kind of sock you use.

Half of the proceeds will go into the school fund, with the other half being retained in the club treasury. Candidates, of course, will come with well prepared speeches!

Sponsored by the club, the affair has been an annual occasion for the last several election years, and always draws a large crowd. Other money making schemes used at the rally in former years included ice cream suppers, bingo games, etc. The sock supper is a new thing in this community, but has proven a success in other places.

The public is invited to attend this rally, which, so far as is known, is the only one being held in the county this year.

Firemen to Attend A & M Short Course

The Eldorado Volunteer Firemen expect to send several delegates to the Firemen's Training School short course at A & M College July 14 through 19, according to Chief Palmer West.

In the refresher course, training will be received on the latest methods and other worthwhile instruction in firefighting and the use of equipment given.

Firemen sending delegates are also given credit through the course on their state insurance, amounting to a 3% credit on the key rate. This factor, however, is not so important, as is the potential worth of what they really learn at the school according to Chief West, who hopes to have as many as four attend.

Mr. and Mrs. George Long have returned home from a few days visit in Quanah with relatives of Mrs. Long. They also attended to business matters regarding the estate of Mrs. Long's mother, the late Mrs. Ruby Hart.

Jack Shugart, new deputy sheriff, was unable to report for duty this week due to illness.

WATERSHED FLOOD CONTROL PROGRAM SET UP

The Middle Colorado River watershed flood control program is without equal in agricultural history. Although it is only one of 11 similar projects authorized by the United States Congress for post-war operations in the 1944 Flood Control Act, the Middle Colorado program is ranked high in importance.

Never before has such an attempt been made on so large a scale to reduce the frequency and severity of floods by holding more rain water on the uplands where it falls and by retarding the run-off of the remainder.

The Middle Colorado project has been included in all watershed flood control planning since the Omnibus Flood Control Act of 1936 established a new national policy on flood control. The Department of Agriculture's watershed flood control program is based on a detailed survey of the Middle Colorado River watershed completed in 1941. Three agencies of the Department of Agriculture—the Soil Conservation Service, the Forest Service and the Bureau of Agricultural Economics cooperated in making the detailed survey of the 7,200 square miles comprising the Middle Colorado flood control project. As a re-

sult of the survey, the Department in 1942 proposed a comprehensive soil conservation program which Congress authorized in the 1944 Act for post-war operations, the work to be completed within 20 years. This program will supplement the War Department's downstream flood control plans for reservoirs, levees and other major structures.

As described in the Department of Agriculture survey report, the Middle Colorado River watershed includes Brady Creek, Hords Creek, San Saba River, Jim Ned Creek, Pecan Bayou and the main stream from the mouth of the Concho to the mouth of Pecan Bayou. The area includes all of McCullough County and parts of Taylor, Callahan, Eastland, Runnels, Coleman, Brown, Comanche, Concho, San Saba, Mills, Schleicher, Menard, Mason, Sutton and Kimble counties.

The flood control program will be carried out through soil conservation districts which now cover 95 per cent of the Middle Colorado watershed.

Because of the public benefits to be derived from the program and the need for completing the work as soon as possible, federal funds will be used to pay for a part of the cost of installing some of the required measures.

The major problems are soil erosion and surface run-off on the uplands. By-products of this upland

destruction include sedimentation of fertile bottomland, stream channels and reservoirs, more frequent and disastrous flooding and higher flood crests. Secondary though costly results include interruption in public utility services, washed out roads, bridges and railroad tracks, and damage to urban property.

Total estimated cost of installing the Middle Colorado flood control program is \$3,360,000, including \$2,693,000 authorized by Congress to be appropriated over the 20-year treatment period. The share of the farmers and ranchers in the installation work is valued at \$667,000, practically all of it for labor, equipment and materials available on the farm.

Predominant use of the land in the Middle Colorado watershed is for the production of livestock. Over-grazing has left the ranges and pastures unprotected and hence subject to erosion. The eroded land causes excessive run-off which results in the ruinous floods, particularly in the tributary areas.

Of the annual average flood damage of \$682,000, land on the small tributaries suffers 76%. Damage to crops and pastures accounts for most of the total loss.

The flood problem in the Middle Colorado watershed can be divided into these three parts: that occurring on small creeks and branches, that on the main stems of the San Saba River, Brady Creek and Pecan Bayou and that on the main stem of the Colorado River.

When measured in dollars and cents, benefits of the work are great. Each dollar of total cost will return benefits of \$3.44, it is calculated. Each dollar invested by the federal government will return \$1.46 in flood control benefits. Total direct flood control benefits are estimated at \$137,000 annually. This represents a 21% reduction in flood damage.

Greatest benefits, however, will be in terms of increased production from cropland and grassland and in lower farm and ranch operating costs. These benefits will approximate \$1,519,000 a year.

Farmers and ranchers are not the only ones who will benefit from the flood control program. The public in general will reap substantial benefits in the reduction of damage to urban property, public utility service, highways and recreational facilities. And it must be remembered, too, that an entire community benefits when the surrounding farms are productive and prosperous.

Today's Kitchen Is Attractive and Efficient

* Plaids for eye-appeal, cupboards for convenience keynote this compact kitchen. The cabinets come in a variety of styles and may be installed independently. Wooden cabinets are easily painted any color after installation.

BECAUSE the kitchen is not only the homemaker's principal workroom but the heart of the home as well, it must not only be efficient but attractive as well, the Rural Home editor of nationally-circulated Capper's Farmer points out.

Appliances—the supporting cast to the homemaker's star role—have been vastly improved, she writes. They make work easier, cleaner and save time. Ranges, refrigerators and sinks have been precision-built. They include automatic features that take over much tedious responsibility and give improved results.

"Much of our modern equipment in kitchens is being installed rather

than built in," she declares. "Some manufacturers of ranges and refrigerators now have kitchen units complete with various types of cabinets and base units. These may be installed or removed independently of other pieces in the same room. When an entire kitchen cannot be purchased outright, it may be gotten a piece, at a time. These units may be arranged in almost any number of arrangements, depending on size of family, the kitchen and the pocketbook."

A workable kitchen must have each piece of equipment placed in relation to other pieces, she adds. Then work moves smoothly and easily with a minimum of wasted effort.

Shower Honors Recent Bride

Honoring Mrs. W. F. Edmiston, the former Earlene Coulter, a number of ladies of the WSCS entertained with a gift shower Saturday afternoon in the reception rooms of the Methodist Church.

Greeting guests were Meses. D. E. De Long, E. H. Coulter, E. N. Edmiston, Miss Tommie Lee Wilson and the honoree. Misses Mary Cloud, Mary Dell Edmiston, Joyce Bark and Mrs. Palmer West assisted in receiving the gifts.

A yellow, green and white color scheme was carried out in the decorations with the lace covered table arranged with a bowl of yellow dahlias and flanked by yellow candles in green holders. Bowls of shasta daisies, yellow zinnias and white daisies were placed about the room, further emphasizing the color scheme.

Miss Charlene Edmiston, who made the bride's book, also presided at it, and Mrs. Orval Edmiston and Mrs. Joe Wagley presided at the punch bowl.

A musical program was presented with Mrs. F. B. Faust and Miss Katherine Davis at the piano during the tea hour. Two piano selections were given by Miss Emily Ann Harper, a violin number by Mrs. Earl Ralston accompanied by her mother, Mrs. Faust, and two solos, "It Might as Well be Spring" and "Sweet and Lovely" by Katherine Davis, accompanied by Mrs. Ralston.

Mrs. George Cartwright, the former Leola Sauer, met her husband, Capt. Cartwright in San Antonio recently, upon his return from service in Japan. Capt. Cartwright, whose home is in Indianapolis, Ind., has received his discharge from the service, and at present the couple's plans are undecided.

Anita Runge, daughter of Mr. and Mrs. J. F. Runge, is on a several weeks vacation trip to points in Alabama and North Carolina where she is visiting with friends and relatives.

Mr. and Mrs. J. F. Runge and sons, Dick and Jim, spent Saturday at the ranch home of Mrs. Runge's mother, Mrs. R. S. Windslow near Menard and attended a family reunion. Mrs. Runge's brother-in-law and sister, Mr. and Mrs. Z. A. Boyd and three children of Seattle, Wash., were present for the reunion. The Runge's daughter, Mae, accompanied them home after a ten-day visit with her grandmother.

Mrs. Archie Wright is visiting this week in Uvalde with her sister.

Barbara Mund, accompanied by her father, Arthur Mund, went to Dallas Saturday where she enrolled in Draughon's Business College for a business course.

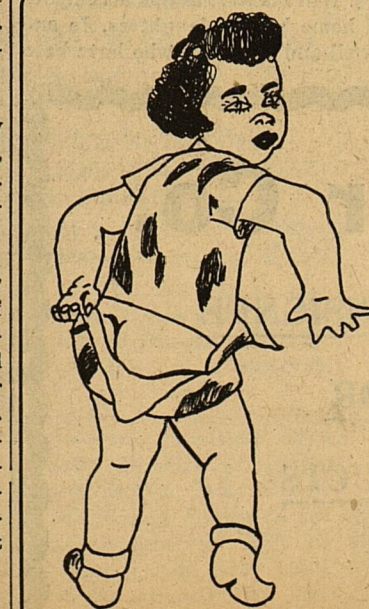

ALLAN SHIVERS CITES PLATFORM

Mrs. Brodie
BALANCES
the Budget!

"You have to be a trained seal to balance a budget these days!" complains Mrs. Brodie.

"Everything costs so much! Take clothing—when you can get it," says Mrs. Brodie, "and look at the price tags! And food—that's simply skyrocketed! House furnishings—if you can find a house to furnish—are way up!"

"But not electricity!" says Mrs. Brodie. "No, indeed!" says Mrs. Brodie.

"Electricity has been coming down steadily for years!"

"Electricity," says Mrs. Brodie, "is just about the easiest thing in my budget to balance!"

If you have a budget to balance—and who hasn't?—you'll appreciate that the low cost of electricity is no accident. It took plenty of practical planning and experience on the part of the folks in this company who—like Mrs. Brodie—have budgets to balance, too.

Wanda Matteson

Wanda Matteson Wedding Date is Set

Mrs. E. H. Coulter has announced the engagement and approaching marriage of her daughter, Miss Wanda Lea Matteson, and Raymond Sherrard, Jr., son of Mr. and Mrs. Raymond Sherrard of New Orleans, La.

The wedding will take place August 17 at Saint John the Evangelist in Schenectady, N. Y.

Miss Matteson is a graduate of the Eldorado High School. She is a former resident of San Angelo and attended the high school and the Junior College there. She is a graduate of Sul Ross College, Alpine. She taught chemistry one year in Ballinger High School and for the past two years has been employed as a chemist at the General Electric Company in Schenectady, N. Y.

Mr. Sherrard is employed as an engineer in the Schenectady Works of the General Electric Company. He was formerly an instructor at Tulane University from which he graduated in 1942.

Shivers Discusses Platform

Senator Allan Shivers, only ex-serviceman in the race for Lieutenant Governor, focused attention on war veterans when he opened his campaign recently in his home town, Port Arthur.

"I exchanged ideas with fighting men many times in the hard days overseas in Africa, Italy, France and Germany. I know the anxiety and disappointment so many veterans feel today, and I understand and appreciate their problems that are also my problems," the Jefferson County senator stated.

Although only 38 years old, Senator Shivers is dean of Texas Senate because of his 12 years service there. The Gulf Coast counties of Jefferson, Hardin, Liberty and Orange made him the youngest senator ever to take the oath of office when he was first sent to the state capitol to represent them in 1934.

"My past 12 years experience in the state senate enables me to preside over the legislative body, which is one of the main duties of Lieutenant-Governor," Senator Shivers pointed out.

Listed as his aims when elected Lieutenant-Governor, Senator Shivers named consideration of war veterans' problems, higher salaries for teachers, better farm-to-market roads, reorganization of the pardon and parole system of the state.

He pointed out that he proposed and sponsored a farm-to-market road program for every county in Texas during the last session of the legislature. "The first old-age assistance law placed upon the Texas Statutes was sponsored by Allan Shivers," he reminded.

"I have been a proponent of legislative redistricting since 1937. This must be done and Real soon," the senator said, continuing his platform. "I favor a 60-day session of the legislature each year rather than 120 days every other year. I also favor a reduction in the number of legislators and adequate pay for them," he stated.

Now touring the state in the interest of his candidacy, the senator stated he is asking for promotion upon the basis that he is the only candidate for Lieutenant-Governor who has the experience and qualifications that are so badly needed in order to properly preside over the Texas Senate, the Lieutenant-Governor's chief function.

FLOWER SHOP MOVED

The Friendly Flower Shop of San Angelo, which is represented here by the Woman's Society of Christian Service of the Methodist Church, has moved from 1321 South Oakes to new and larger quarters located at 1119 South Oakes.

The shop is now featuring a larger and more complete stock of flowers and other merchandise. Herschel Summerlin, co-owner stated that almost double the former floor space is now available, with a cold storage vault three times larger. Personnel has been increased to six employees.

T. H. McCreery is co-owner with Summerlin of the Friendly Flower Shop, which was established about twenty months ago.

Billy McCravey and Pancho Bradley are operating a watermelon stand at Christoval. They reported a rush of business on the fourth.

**WASHINGTON NEWS LETTER
By Congressman Fisher**

The big news in Washington last week, as was true over the nation, was price levels with controls taken off. A survey made in grocery stores here showed some increases, a few decreases, and many things selling for about the same. For weeks there has been practically no meat sold in stores, but it is reported the big rushes in the stockyards will be reflected in meat counters very shortly. Most complaints here have been concerned with increases in rents.

The price of meat will, of course, be higher. This is true because of removal of ceilings and also because of removal of consumer subsidies. The subsidy is a hidden cost the consumer has been paying all along but without it being shown in his grocery bill each week. The same is true of milk and a number of other commodities. In Washington, milk jumped three cents a bottle immediately, but it really was not an increase after all, because the three cents equalled the subsidy the government has been paying on each bottle of milk purchased by the consumer, and is usually referred to as a "hidden cost." In the case of meat, the government has been paying about a nickel a pound on the consumers' bill.

All in all, during the past four years, Uncle Sam has spent a total of six and a half billion dollars in helping to pay grocery bills of American consumers. That is, of course, not a real saving to the housewife because the money used for that purpose has been borrowed by the government, with interest, and the consumers will eventually have to foot the bill anyway. At 2½% interest this accumulated bill will continue to cost us 162.5 million dollars every year until the bonds are paid off, and this will require years and years.

Modern Gas and Electric Ranges Stress Convenience

WHETHER you buy a gas or electric range, you'll find that each has special advantages, Joan Miller tells rural homemakers in nationally circulated Capper's Farmer.

"Whichever type you select," she writes in the farm magazine read by 1,250,000 rural families, "you

A deep-well cooker plus large unit and two of average size give ample space for meal preparation on top of electric range shown above. Automatic timer may be set to snap oven heat on and off. Staggered automatic-lighting burners, including an extra-large one, are a feature on range for either gas or liquefied gas shown at left. Broiler has metal tray which may be used for serving.

will find that generally the new ranges are convenient for quick meal preparation. They are good looking pieces of equipment which are easily kept clean.

Purchasing a range made by an established, reliable company is your insurance of a good quality product, she continues. But it pays to notice or ask about these construction points:

Top-of-range burners or heating units should be spaced far enough apart so they'll accommodate large pans or kettles.

The oven should be placed where most convenient to reach and use. The broiler also should be conveniently located for placement of food.

For ease in cleaning, look for porcelain enamel, inside and out.

Toe space is important at bottom front edge of range for greater comfort when standing in front of it.

In gas ranges look for Certified Performance models which are automatic.

In liquefied gas ranges, check on whether the specified fuel has been odorized. This makes for easy detection of leaks.

Our present stock of flour will be sold at the old price. All new flour will be at an advanced price.

No merchandise now in stock will be advanced in price, but prices will rise as new merchandise arrives.

Owing to the higher cost of cattle and hogs meat is bound to increase some in price, but will not reach the black market price of \$6.00 a steak.

Do not buy it because you think there will be a shortage. Buy it because you need it.

International binder twine. If you buy now the old prewar price of 6.80 will get it. If we have to buy new stocks, it will probably be higher. Feed sacks are also available now. Buy them while they are available.

Metcalf Guest At Lions Club Meeting

Penrose Metcalf, candidate for State Senator, re-election, was guest speaker at the regular meeting of the Lions Club Wednesday. Mr. Metcalf discussed the State tax money, explaining where it comes from, its disposition and other important details interesting to the average citizen.

In the business session, with Jimmy West, newly installed president, a program committee was appointed, and final details were worked out for the bitterweed pulling scheduled for Monday and the Air Show to be staged July 28.

Joe Lawrence was introduced as a new member.

INTERMEDIATE GIRL SCOUTS MEET

The Intermediate Girl Scouts held a one day camp at the home of their sponsor, Mrs. Bethel Jeffrey, recently. Four girls were present including Greta Mund, Pansy Ruth Owens, Billie Jo Jeffrey and Corena Lee Burk.

We came at 9:30 a. m. and left at 4:00 p. m. We re-spaced and re-decorated a room and papered another one to complete work on two badges. We cooked our own dinner consisting of weiners, steak, melon, bananas, fruit cocktail and cookies, and we enjoyed two cases of soda pop. The July dues were collected.

The next meeting will be on Saturday, July 13 at 3:00 p. m. at Mrs. Jeffrey's house. All girls who have not paid their dues are asked to do so at this time. —Reporter.

Ranch Home Burns Saturday Afternoon

The ranch home of Mr. and Mrs. O. L. Woodward about 21 miles northwest of town was destroyed by fire late Saturday afternoon. Entire contents of the house together with all of the clothing of the family was a total loss.

The family had been in town and Mr. Woodward was returning home leaving his wife in town. A thunderstorm with a great deal of lightning had come up, and he said that on approaching the house he noticed that it was in flames. He reached there too late to save anything. It is believed by Mr. Woodward that lightning was the cause of the fire.

The loss was not covered by insurance.

\$3 MILLION FOR SCHOOL LUNCHES IN TEXAS IN '46

The Texas school lunch program will receive more than \$3 million next year under the National School Lunch Act recently signed by President Truman.
