In the second quarter Big Lake was in possession of the ball on the Eldorado 40 yard line. They received two 5-yard penalties making it 3rd down and 20 to go. They punted and Whitten made 10 yards on punt return. Eldorado was forced to punt. Big Lake now began their touchdown drive, making 25 and 20 yards in succession, placing the ball on the 2-yard line. Eldorado set them back for four plays and the ball went over on downs. The second half began with Eldorado kicking to Big Lake. Eldorado out-played the Owls this period. Mund managed to block a Big Lake punt. Then Mittel carried twice making a first. Then Mund, Whitley and Mund again were good for another 1st, placing the ball short of the 20 yard line. Here Eldorado lost on downs. Big Lake ripped through the line for several short gains and then a fleet-footed halfback got away for 60 yards and a touchdown. Try at conversion was good, making the score 13-0. The fourth period the breaks seemed to be against both sides as neither could get underway. Eldorado threatened once in a series of last minute passes. The game ended with the score standing 13-0.

Outstanding players for the Eagles were Mund, Mittel and BAPTIST CHURCH Whitten at backs, and Sproul who played guard and defensive safety. Various linemen showed up

Oct. 29 Deadline **Provisions Explained**

October 29, 1946, has been set as the last date upon which veterans of the Navy, Army, Marine Corps and Coast Guard can be enlisted in the Army in the grade of Technical Sergeant under the provisions of War Department Pamphlet 12-16. Enlistments under its Therefore be ye also ready: for provisions in other grades up through Staff Sergeant after Oct. 29th is not affected and therefore will continue to be accepted. This latest directive came in a telegram from the War Department just rethere the only hope for this world is the soon coming of our blessed E. Dorrough of the Sonora recruiting office.

None of the above regulations affect the right of an Army veteran to reenlist in grade held at time of discharge, provided the reenlists within 20 days after discharge.

Supt. C. A. Reynolds has been ill in a San Angelo hospital this week suffering from a deep chest cold and bad throat.

Mr. and Mrs. Clyde Keeney were San Angelo visitors Tuesday.

A definite start has been made by members of the First Baptist Church in carrying out a 4-point improvement project, planned and

tion of a Hammond organ, air con-

ditioning, and renovation of pulpit

and choir loft. The paving project is practically completed. It includes center-tocurb paving of 150 feet and 100 feet north and west of the building, and other paving along the parsonage. A curb will be added later. Tom Lauderdale, W. O. Alexander and J. F. Kinser are on this committee.

The Hammond organ, costing over \$2,000, has been bought with a \$500 down payment, with delivery to be made in June or July ..

The air conditioning unit has not been located. The church had hoped to buy this unit from an army surplus office, but as churches are only 5th in priority, they have not as yet located one.

The choir loft and pulpit have not been changed to date, but will receive attention soon. There will be new pulpit furnishings and the loft will be raised.

Increased Sunday school attendance has called for several new Sunday school class rooms, which will be provided by changing of interior partitions.

About two thirds of the amount needed for the entire improvement project has been raised.

Editorial on Winning

That "yesterday's champs is today's bum" is an old proverb in the athletic world, this is true because milk. "yesterdays champion" tends to forget what it took to make him a champion. He gets the idea that the other fellow is supposed to be down when the old champ struts out on the field. He forgets that 'knocking off an old champ" is one of the best loved chores of the sports world. Everybody loves to kick yesterdays champ-especially if he takes it lying down. The old champ must remember that he must stand up and slug it out with the challenger, bruise for bruise, block for block, tackle for tackle, brains for brains. He should rem-

Everything else must be forgotten. The cigarettes, the candy, the brave strutting on the street, the vain strutting on the field, the rides, the loafing, the looking for the easy way.

Only a few things can bring the old champ back but they must be there or today's young challenger will continue to kick the daylights At one time she was a pep squad out of the old champ.

Cafeteria

Miss Lucille Rumsey, Home Ec teacher, is the efficient head of that busy place, the school cafeteria. She plans all menus, does the marketing and supervises the work in the kitchen.

The women who work in the cafeteria are Mrs. L. V. Schooley, Mrs. Russell Donaldson and Mrs. Ralph Steward. Mrs Steward works only part time. The girls who help these women are Ebba Jean Blaylock, Johnnie Lewis, Peggy Mc-Angus, and Rita Ann Elder.

Reports from Miss Rumsey were that there was an average of 215 students that ate in the cafeteria ast month. This was for 19 days She also reported that over \$1000 was spent for food last month. She reported there have been 240 stuents that have eaten in the cafeeria this month.

In order to conserve foods and save expenses, the cafeteria uses the foods that are in season, and that are abundant. The foods in season now are potatoes, onions and apples.

Statistics on the cafeteria are

as follows: 35 lbs. ground meat per day or 35 lbs. roast per day; 16 loaves of oread per day; 3 lbs. of butter per day; 6 gals. of green beans per day; over 100 lbs. of potatoes

Enough Food is no Accident

It is no accident that the largest crops in our history are being harvested this year when we, and the rest of the world, need them most.

In spite of war, loss of labor and little new equipment, the American farmer has again taken care of us and provided a life-saving surplus for abroad.

How do our farmers do it? How is it that only sixteen per cent of our people can feed all of us and go on breaking records in the face of circumstances which slow up industry?

There are three reasons: First, farmers work harder and longer than most other Americans: Second, they know how to make the best use of tools. And, third, they have a long-standing partnership with industry seeking to satisfy their urge to get more out of the land for the same labor. Farmers are still practicing the kind of enterprise that built America.

National thanks are due the farmer for the job he has done in the last five years. Universal respect is due him for his foresight in helping industry equip farms to meet a whole series of emergencies:

BUT .:: we should not crowd our luck, or the farmer's luck either. Too many farm tools are now worn out. Without new ones production may go down. Farmers need over eight hundred million dollars' worth of new implements and equipment. It is up to industry and labor to keep wheels turning to produce them, but any recurrence of strikes would prevent this.

America should see that the hard-working farmer gets what he needs.

On Playing

the Fiddle Badly

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or

Because the spirit of harmony is there-harmony between folks who like each other's company, who enjoy the simple, homey atmosphere

-with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene-with its community music, home entertainment, friendly glass of beer - than to hold out for professional perfection. (Besides, I like to play the fiddle-even badly!)
