NUMBER 13

NEW PAGE WELL IS BROUGHT IN DURING WEEK

With wildcats and producers scattered out over separated areas, Schleicherites who enjoy witnessing the activity are hard pressed to cover the ground! A condensed summary of the situation follows:

Another producer has been brot in in the Page-Koy oil field, and Western Drilling Co., are moving

over to a new location.

Cooper Gas Co. No. '2E Bert

The water well on No. 1 Sam E. Jones wildcat—660 ft. SW Sec. 3K GH&SA-has been put down, and the derrick is on location. The crew are staying in Sonora.

It is expected that L. W. Elliott trustee, Virge Tisdale No. 1—three miles east of Eldorado—will be shot some time today, Thursday, to test out a showing at 2115 feet.

The coming months are expected o bring drilling activity to other arts of the county.

655 POLL TAXES

A total of 655 poll taxes have been paid in Schleicher County, as compared with 827 last year which was a political year.

Sugar Stamp No. 11 Is Good On April 1

The Office of Temporary Controls announced last week that spare stamp No. 11 in OPA family ration books will become good April 1 for 10 pounds of sugar.

Validation of the 10-pound stamp will mark OPA's change-over from the five-pound ration procedure for household users. The current stamp, No. 63, good for five pounds, will expire March 31.

September 30, but OPA said a meeting will be held in the near second stamp good for 10 pounds future to hear, and accept or reject, sugar imports meet expectations.

McNear Is Murdered

Only a few days after his appearance as a witness before the House ton of Concord, Calif., informing Committee on Labor, George P. them that he and his family expect McNear, Jr., was assassinated near to be here for an Easter visit with his home in Peoria, Illinois. The 56-year-old president of the Toledo, Peoria and Western Railroad, told Chairman Fred Hartley of our comton is a brother of Mrs. Lewis Wilson, and Mrs mittee that attempts might be made on his life. The unions had been striking against his 235-mile line for 17 months, mostly over alleged featherbedding demands. Right or wrong, McNear was evi dently very sincere in the cause he presented. The unions then appeared before our committee and among other things, charged Mr. McNear with lack of any knoweldge of railroading and accused him of being unreasonable and stubborn. On the day of his death, members of the Labor Committee received a letter from McNear expressing a willingness to appear again before our committee. The fact is that McNear learned railroading under Mr. Loree, famed American railroader. He worked on track gangs on the New York Central in 1916 and 1917 which fitted him for an important

And his father wrote back: "Son, you don't desert the boat in the niddle of the stream; you see it through to the far shore.

Young McNear "saw it through." Today he lies buried in New Guinea. Today his surviving father lies buried in Peoria, a victim of slugs from a shot gun fired by an assassin in the dark as McNear took his nightly stroll near his home.

He believed in his cause and "saw it through" to the far shore. It seems a shame that a man like McNear should, in free America, pay with his life for convictions in which he believed and in which he had a right to believe. The son gave his life for a cause; so did the

Our Labor committee has just investigated the 11-month old Allis Chalmers strike and disclosed that t was inspired by communists. Giving our exposure as reason for their action, Allis Chalmers promptly fired Harold Christoffel, strike leader of the local union involved. We produced ample proof that Christoffel, along with several other leaders in the union, are commies.

Among other exposures, we turned the light on one, Julius Emspeck, sec-treas., of the United Electrical, Radio and Machine Workers of America, third largest union in the CIO. Communism is strong in the leadership of that union. Proof that Emspeck is a communist was rather conclusive. He is a prominent member of the The session of Congress during CIO national executive board. Known by fellow travellers as "Comrade Junniper," Emspeck was one of the organizers of the electrical union, now boasting 600,000 members. That union has engaged in many strikes and boycotts during the past year.

> Last July, CIO President Phil Murray appointed Emspeck to a five-man board that took over control of the CIO-PAC after Sidney Hillman's death.

With that union either dominated or controlled by the enemies, one shudders to think what might happen in key power plants and electrical works, so essential to our naional security, if we should ever find ourselves at war with Russia. Those communists pay allegiance to Russia first, to America second.

Legislation is badly needed to fragment and control this vast concentration of power over our econand treasury department appropri- omy which now may be lodged in the hands of a few willful men. It is more power than good men should want, and more power than

Co. Agent Describes Screw Worm Control

A new treatment for screw-worm infested livestock has been developed. The grade of lampblack used in this formula is that ordinarily sold by lumber yards and paint stores for tinting paints. Lampblack appears to increase the killing action of benzene and to impart a greater efficiency to diphenylamine for protecting the wound against inestation. The commercial grade of the other ingredients is used ..

The diphenylamine is dissolved in the benzene, preferably by placing the two substances together and allowing them to stand 12 to 24 hours. Solution can be hastened by placing the container in a vessel of hot water and leaving the container uncovered. An open flame should never be used, since benzene

is highly inflammable.

The triton X-300 and the n-butyl alcohol should be placed in a tight container and agitated vigorously until thoroughly mixed. This mix-ture should be added to the diphenylamine-Benzene solution and the combined mixture shaken again. red in gradually. Mixing should be continued until the compound is smooth in texture. Eldorado Wins Third at

March 18.-Last Friday and Saturday were high days for this district, as the annual district meet Diet is sometimes as important was held in Sonora those two days. Up to the very last event, there was a furious race between Junction and Sonora for those precious points that would determine the final winner of the Interscholastic League Meet. However, Eldorado entries were crowding with a close

Sonora proved to be first rate ally good, winning first place over added, it was Sonora who came out sax. on top with a total of 150.

Junction took a few of the literary events, but it was in track that they really shone. There were quite a few representatives from Junction, too, backing their school. They won a good number of tennis points, which helped in their total of 90 points.

Eldorado's track team held their own, stacking up points here and there. In the literary events we won several second and third places. After all the points were totaled, our own was around 60.

On Saturday afternoon about 6:30 Sonora's fire department served a barbecue supper to everyone who came to the meet. There were about 500 who were served, and it ooked like everyone was certainly enjoying it.

After a slight breathing space, everyone went to the gym, which was decorated, complete with crepe paper streamers, and furnished with a band by the fire department. At about 9 o'clock the duchesses and dukes representing the various towns, marched in, and the duchess from Sonora, Joyce Johnson, was crowned queen. The awards, cups, and trophies that the different entries had won, were presented to the duchess representing that town. After this the queen officially

pened the dance. The band that the firemen provided was a six piece one, Harrison's Texans. Their swing music and crooners inspired even the wallflowers to pitch in and have a

We had three busses waiting to take the students home Saturday night. One left at 7:30, with a load of about 35, the next one at 9:30 with around 20. But the "night owl" as the 12:10 bus was called, had only about 10 on it.

Some Winners

The grade school girls softball Saturday evening in their first game with Junction 11-15.

In chinning, Jack Dodd placed second, Elton Harris third, and Billy Gene Edmiston tied for fourth place. . . In the track events, Gordon Hamm led grade school coming in second in the 100 yard dash; first in the 50 yard dash and first in both the high jump and broad jump. . . Hamm, Billy, Galbreath, Jimmy Woodward and Gerald Hicks came in second in the mile relay. Hicks also placed second in the broad jump and fourth in the 100 yard dash.... This gave grade school 31 points out of a possible

State Lunchroom Inspector

Visits Eldorado School Miss Clark, the state lunchroom inspector, visited Eldorado school last Wednesday. She complimented Mrs. Schooley and Mrs. Donaldson J. L. Neill. on their efficient work in operating the lunchroom and said they were doing an excellent job according to health standards, and that the food was well prepared. Miss Clark also stated that the meals were well balanced and unusually good.

Council Has First Problem The Student Council met for the first time recently and discussed their first problems: (1) Where did some of the basketball suits disappear; (2) How to keep paper off the floor; (3) Better care of the

rest rooms. The Council met again when a question arose about cigarette butts on the boys rest room floor and a wastepaper basket overturned. All this happened on a recent night at dramatic club meeting. Some pranksters partially exhausted a fire extinguisher of all of its CO2. When the mischief was discovered the council met and called in the students involved, and ruled that Jody Whitten, Arthur Mund, Gerald Harris, Carroll Sproul and Fred Speck should pay for refilling the extinguisher.

H. E. Class Work The third year home economics girls have just completed upholstering a chair and have started making dressy dresses. These dres-

The girls are now studying luncheons. They have prepared and served a salad plate luncheon and a vegetable plate luncheon.

MRS. FRED WOODS

From where I sit ... by Joe Marsh Apple Tree Versus

Wheat Field

If you ever visit Jeb Crowell's farm, he'll take you right out on

that back porch of his and show you his apple tree. "There," says Jeb, "is nature's noblest creation-fifty years, and

bearin' still the finest cider apples in the county!" But last fall, when a group of us was there, Lud Denny points

across the river to his grain fields and says: "There's an even finer sight! Acres and acres of golden grain you can make dozens of appetizing things with-including wholesome, sparkling beer."

Both of them got so eloquent on the subject, that the rest of us worked up quite a thirst; so Jeb goes to the icebox for beer and cider. And when the refreshments come, Lud chooses cider, and Jeb takes the beer!

From where I sit, that's the answer to most disputes. You can talk all you want, but when it comes to tastes and preferences, there's just no argument.

OLD FASHIONED HOUSE CLEANING URGED FOR CITIES Austin.-A good old fashioned

spring house cleaning in every city and community in Texas would do a great deal toward furthering good health in this state according o Dr. Geo. W. Cox, state health officer, who said recently "From a practical standpoint the old adage that 'Cleanliness is next to Godli ness' is still well worth emphasiz-

ng. A general clean-up program of state-wide proportions with the obective of bettering health condiions for our citizenship should include surface cleaning, drainage, the graveling of streets and alleys, the cleaning of all parks and playgrounds and the clearing of weeds and rubbish off of vacant lots.

Dr. Cox stressed the fact that nany dangerous diseases are filthborne, and the only possible way to control them is to eliminate the insanitary conditions responsible for their spread.
