NUMBER 17

#### LOCAL BOARD HIRES TEACHERS, **UPS SALARIES**

At a recent meeting of the Board of Trustees of the Eldorado Public Schools the following teachers were elected to teach during the 1947-48 term.

Elementary: Thelma Ellington Ina Mae Lightsey, Mrs. Ruth Prince, Mrs. Carl Stevens, Mrs. Bennie Watson, Mrs. Corrine Rob- DAMAGE CROPS; inson, Mrs. Francis Sellers, Miss Annie Herbert.

High School: C. F. Jones, Mrs. Lucille Coleman, Miss Jewel Shelton, Ernest Sutherland, Mrs. Ennest Hill, Miss Nora Koen, Miss Dorothy Maxfield.

Latin American School: Mrs. Bill Davis, Mrs. Olive McFarland, Mrs. Bailey Montgomery.

Negro School: Bertha Mae Miles The setting of salaries was deferred until the next meeting. It was brought out at the meeting by Ranchers who had hoped to depend the superintendent that if the suggested schedule is met by the local school, about \$7,000 more money will be needed than will be provided by the increased per capita appor tionment.

Supt. Reynolds is serving the the board last year. At a previous meeting of the board, Peyton Cain and Wyndell Hall, high school principal and elementary principal ON INCREASE respectively, were re-elected for the 1947-48 term.

Mrs. D. C. Royster was re-elected available. Degree teachers are gains momentum. sought for these vacancies and for

the physical ed position. At the last meeting of the board, in addition to approving the monthly bills it was decided to hire a

carpenter to make livable the teacherage recently moved from the Reynolds school grounds. C. L. Martin was employed as carpenter and work is progressing rapidly toward completion of the project. This makes available three units for teachers.

**Deputy Reccommendations** 

After a recent visit to the local cated. schools by Deputy State School Supt. Hunt the following report was received by the trustees from the division of supervision of the State Department of Education.

Commendations: (a) Well rounded curriculum. Subject offerings

returning to Eldorado to work in PULLING HERE the county again. Most of the wives TOMORROW are already here, and the men who are not here to date are expected back from Big Lake in a few days. The company, of which H. B. Mayo is local manager, are re-opening their office in the Ogden building.

Southern Geophysical men are

#### LATE FREEZES **RAIN NEEDED**

Slowed down by a late spring freeze, Schleicher County's grass areas. and cultivated crops are badly in the Lions Club, will be served to need of a heavy rain to encourage more rapid growth.

A typical report is that of C. O. Bruton who stresses need of rain on his more than 300 acres of cultivated land. His maize, wheat, oats

and barley are up to a good stand, but are not growing as they should

heavily on pasturage by May report that the late freeze gave grass and weeds a set-back which only a heavy rain could offset. Corn and garden products were

frozen back, as were half of the peaches and apples and all of the first of a 3-year contract given by plums and apricots, growers report.

#### **OIL ACTIVITY** IN COUNTY

At least two new tests will probneeded when teacher assignments ably go down soon north and east made. The board voted to hire of Eldorado, and wells now being public school music teacher and drilled may be brought in soon as a Spanish teacher if these are oil activity in Schleicher County While the new tests are practi-

cally assured, the exact information s not available as the Success goes to press Thursday morning. The Sam E. Jones wildcat No. 1 (660 sw Sec. 21, block K, GH&SA) s drilling today at about 3600 feet. This test was staked out by Frances Callery of Ft. Worth. Cooper No. 3D Bert Page (660 NE Sec L GH&SA) is drilling at new residence in Glendale. The about 4800. Two oil sands are reported in the Cooper 1C Koy (block

YEARS AGO, before Thomas Edison invented a successful light bulb, our grandparents burned kerosene and candles that were expensive, troublesome, and gave very poor light,—but,—

#### EDISON GAVE YOU SOMETHING NEW AND BETTER

This genius, laboring over thousands of experiments, led the way to better light for better sight,—as well as to a better way of living, with electricity.

TODAY you have bright, cheerful and well lighted homes, stores and offices. There is no reason for them to be otherwise! Because you have LIGHT BY WIRE.

A much better lamp bulb than Edison's first incandescent light can be bought for a thin dime. I, Reddy Kilowatt, will light that bulb for hundreds of hours for a coolie's wages, and give you more and better light.

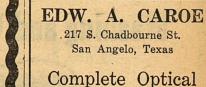

Edison's successful light bulb was really the start of the electric industry. Today we work and live electrically; we have more comforts and conveniences than any other country in the world,—all because one man had an idea and developed it.

#### MY HAT IS OFF TO THOMAS EDISON

#### **Agent Discusses Garden Insects**

There are two classes of insects that are likely to attack your garden this year. The chewing insects, which chew holes in the leaves of fruit, and the sucking insects, which suck juices from the foliage, stems nd fruit. Horticulturists tell us that, gen-

erally, DDT will control both types of bugs, except the plant lice and the red spiders. Of course we all know by now that DDT is not the answer to all our prayers on insect problems, and in fighting vegetable insects, there are some things to watch. For example, DDT will burn the foliage on vine crops like squash cucumbers and melons, so we'll be wise to use some other insecticide ored Mrs. Bates Wagnon of Station on these crops.

DDT cannot be safely used on leafy vegetables that are harvested every day, or even each week, since the residue of the insecticide is hard to remove from the leaves. This residue can be harmful if eaten.

Now, you can use DDT on beans, peas, tomatoes and cabbage, proz vided you apply it early in the season. The horticulturists say that it cannot be safely used within three weeks of harvest time. So there's a rule for us, no DDT on beans, peas, tomatoes and cabbage later than three weeks before the vegetables are ready for harvest.

On root vegetables, potatoes, car-rots, beets, onions and the like, you are safe in using DDT throughout the season.

DDT can be used either as a dust or spray. Three to five per cent dusts are good for garden insects, and an effective spray can be mixed with two ounces of 50 per cent wettable powder in a gallon of water. -W. G. Godwin, County Agent.

Mr. and Mrs. J. L. Neill were called to Stephenville last Saturday to be with their daughter, Mrs. Wm W. Spurlock, who was recovering in the hospital there from an attack of pneumonia which she suffered while visiting with her husband's relatives at Richland Springs. Mrs. Spurlock's condition has proved, but she will be confined the hospital for a few days. Mrs. eill remained with her daughter. Mr. Neill returning home Sunday.

VACATION BIBLE SCHOOL AT PRESBYTERIAN CHURCH Miss Edith Clark from the Pres byterian Assembly Training School at Richmond, Va., will assist with the Vacation Bible school at the local Presbyterian Church which making plans for a successful and store in Ballinger, where he has McWhorter as leader and eleven interesting course of study during already gone. the week, and all children of the Both Mr. and Mrs. Dallinger are community from the primaries through the Intermediate ages are

#### a Barn

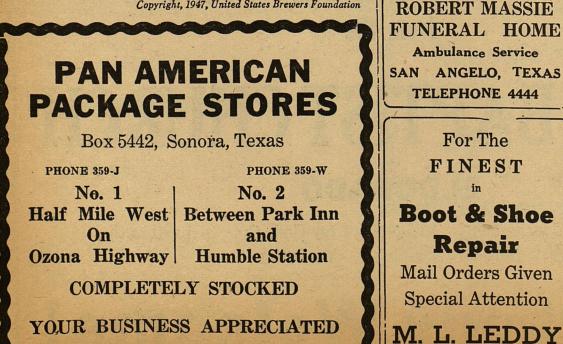

Cy Hartman finally got his new barn painted, but plenty of folks had a hand in it. Whenever someone got a free day, or a little extra time, they'd come over and help out with paint and brush.

And Cy, to show his appreciation, held a big "barn warming" Saturday-for all the folks who'd helped him (but not barring those who couldn't). Ma Hartman supplied sandwiches, and Cy rolled out a mellow keg of beer.

You'd never think of a barn as "homelike." But with those lanterns

# Notice to Bank Customers

Because of the extra amount of work involved in getting your statements out at the end of the month we have been considering for some time the practicability of dividing them and mailing them out on regular days just preceding the end of the month. We have decided that beginning this month we will divide the accounts into four sections, mailing the first section, accounts of customers whose names begin with letters A to E inclusive the first day, F to K inclusive the next day and the two others on succeeding days.

We have carefully considered this plan and believe it will work no hardship on our customers and it certainly will be of much help to us. However, if any one or more of our customers find it necessay to have a statement of his or her account at the close of the month and will so advise us we shall be glad to carry out your wishes in this respect.

We want to assure each of you that we appreciate your business and that it is our intention to do our best to handle your accounts as you prefer them handled. We hope this plan will prove mutually pleasant and satisfactory.
