Day's Pay Asked In County Chest Drive

"Give One Day's Pay—The American Way." This was the slogan being emphasized today, as a dozen men took time off from their own affairs to solicit 100 per cent participation from business payroll groups for a day's pay contribution to the Howard County Community Chest.

Bus Strike May Not Last Long

HOUSTON, Tex., Nov. 3. (AP)—A proposal for ending Houston's first major transportation tie up in history was accepted at 12:10 p. m. today by 1100 striking CIO bus drivers and mechanics.

HOUSTON, Nov. 3. (AP)—Bus drivers in Texas' largest city went on strike today but the work stoppage may be short-lived.

The strike of 1,100 members of the CIO Transport Workers Union began at 12:01 o'clock this morning. At 9:30 the strikers began voting on a last-minute management offer.

Fast-growing Houston's population is estimated at about 500,000. The city estimates about 175,000 residents ride the buses—the city's only public transportation other than taxicabs—and from work.

As the strike took effect there was much pooling of automobiles. Hitchhikers wagged thumbs at residential sections. Many of those near their destinations walked.

They were to make reports as promptly as possible, compiling an "honor roll" of those firms whose employees are 100 per cent in the day's pay participation, and another roster of firms whose workers are 100 per cent in contributions of any size.

Meanwhile, R. R. McEwen had assistants calling on business establishments for special gifts, and reported that generous response was forthcoming from many quarters.

The campaign's rural phase starts Saturday, when rural workers will meet at the courthouse with Durwood Lester, rural chairman.

The Chest campaign office will open Friday, Groebel said, in the Empire Southern Gas company office, 112 East Third street, and Mrs. Jimmy Jennings will be in charge. Volunteer donations may be taken there.

Sherman Seeks to End Defense Row

WASHINGTON, Nov. 3. (AP)—Adm. Forrest P. Sherman indicated today that efforts will be made to talk out troubles in the Navy before any more heads are lopped off.

The new chief of naval operations, swinging into his first full day on a tough job, said there will be no great shakeup "if I have anything to say about it."

"That isn't the way to get results," he told a reporter. Sherman will have something to say about any shakeup because he was handpicked by Secretary of the Navy Matthews to try to bring more harmony into the armed forces.

He took the oath of his new office yesterday at a solemn ceremony in Matthews' suite at the Pentagon. He said he was facing different responsibilities but knew he could count on the admirals to support him.

It was on Matthews' suggestion that President Truman tossed Denfeld out as chief of naval operations to make way for Sherman. It was Denfeld who went in as clean up hitter for the admirals when they aired before Congress complaints that the Air Force and long-range bombing were being overbuilt at the expense of the fleet.

Ballentine Gets Chief's Old Post

WASHINGTON, Nov. 3. (AP)—Adm. Forrest P. Sherman moved swiftly today to tighten ship under the new Navy top command by assigning Rear Adm. John J. Ballentine, Pacific war hero, to his own old post in the Mediterranean.

Sherman, pulled out of command of the sixth task fleet in the Mediterranean to take over as chief of naval operations, was sworn in yesterday after a shakeup growing out of the interservice row over war roles.

Shortly after the announcement of Ballentine's assignment, Sherman attended his first meeting of the joint chiefs of staff where the quarrels over unification policy had centered.

He was introduced to the other members of the joint chiefs by the chairman, Gen. Omar Bradley.

UNCLE SAM IS NOT AMUSED

County authorities are looking for a motorist who knocked down 18 mail boxes between Big Spring and Fairview earlier in the week, obviously just for the fun of it.

The culprit apparently drove a big truck into each one, bowling it over like a ten pin. Sheriff Bob Wolf said the guilty party is liable to prosecution by the Federal government.

U. S. MAY ENTER MARKET

Hog Quotations Dip To Three-Year Low

CHICAGO, Nov. 3. (AP)—Uncle Sam soon may have to add some pork meat to his hoarded groceries. Hog prices are slipping. They are now at the lowest level in more than three years.

Hog prices are slipping. They are now at the lowest level in more than three years. They are not far above the price at which the Agriculture Department must buy pork to help hold up the farmer's price for live hogs.

Uncle Sam's hoarded groceries include eggs, milk, potatoes, grains and many other items. But there's no meat in the larder. Many livestock traders think the last thing Uncle Sam wants to do is buy meat, taking it out of the consumer's market.

However, he won't be able to help himself if prices continue to slide. The top price for hogs here yesterday was \$17 a hundred pounds. That was the lowest since OPA ceilings were removed Oct. 15, 1946. The old ceiling was \$16.25.

Falling prices have spurred meat interests to action. A nationwide educational and advertising campaign promoting the use of pork will start next month.

Charles Shuman, president of the Illinois Agricultural Assn., which is backing the promotional campaign, says, "we are interested in heavy consumption of pork because it means we can convert our large grain supplies into meat and find a market for our product."

Amount Reduced From Earlier \$1 Million Figure

Group Would Go Free Pending Appeal Of Case

NEW YORK, Nov. 3. (AP)—The U. S. Court of Appeals ruled today that the 11 top American Communists convicted of conspiracy may be released in bail pending appeal of their case.

The court ruled that seven could be released in \$20,000 bail each and four in \$30,000 bail apiece. The government originally asked that their total bail be set at \$1 million.

An opinion handed down by Judges Learned Hand, Thomas W. Swan and Jerome N. Frank said that bail was being set because the government "conceded that the appeal herein raises a 'substantial question.'"

Bail of \$30,000 was set for Eugene Dennis, John B. Williamson, Jacob Stachel, and Irving Potash. A \$20,000 bail was fixed for Robert Thompson, Benjamin J. Davis, Jr., Harry Winston, John Gates, Gilbert Green, Carl Winter and Gus Hall.

Previously the government asked \$100,000 bail each for Dennis, Potash, Stachel, Williamson, Hall, Green and Thompson. It recommended \$75,000 bail each for Davis, Winston, Gates and Winter.

The 11 were convicted of conspiracy to advocate violent overthrow of the U. S. Government.

Pardon Asked By Grandstaff

NASHVILLE, Tenn., Nov. 3. (AP)—Frank Grandstaff, whose musical composition won him six days of freedom last month, asked today to be relieved of his life sentence.

Citizens of Big Spring, Texas, about which Grandstaff wrote a cantata on his cell wall, obtained Tennessee's permission to have him as guest during a Centennial celebration at which it was performed.

Grandstaff, serving under Tennessee's habitual criminal statute, has asked the state board of pardons and paroles, which takes up his case today, to recommend to Gov. Gordon Browning that he be pardoned.

Several Texans have joined in asking that Grandstaff be released. They include 18 members of the Texas and Pacific male chorus which sang his cantata Oct. 2 at Big Spring.

U. S. Tax Boost Of 25 Per Cent Looms

WASHINGTON, Nov. 3. (AP)—President Truman may have to ask Congress for an increase of 25 per cent or more in some taxes if he wants to balance the budget that way, government figures showed today.

Despite advance notice of opposition in Congress, Mr. Truman has indicated he will ask for more revenues. He says it is necessary to help cover the \$5,500,000,000 in red ink spending he has estimated for the year ending next June 30.

To raise even that amount of additional revenue, congressional experts said Mr. Truman probably will be forced to ask for sharp increases in individual and corporation income taxes.

These taxes represent about three-fourths of the \$38 billion in revenue the treasury expects to take in in the current year, while it is paying out a total estimated by the President at \$43,500,000,000.

Many members of Congress have made it plain that they don't favor any increase in taxes. In fact, the Senate Finance Committee voted during the last session to cut excise levies but the issue never saw action in the Senate.

Congressional experts figure it would take an across the board increase of about 15 per cent in individual and corporation income taxes to produce the budget-balancing \$5,500,000,000.

Since a blanket boost in such taxes is not believed to be feasible, these experts said some taxes might have to go up 25 per cent while others remained at about present levels.

Truman Will Speak At St. Paul Today

BOARD TRUMAN TRAIN EN ROUTE ST. PAUL, Nov. 3. (AP)—President Truman's old campaign train rolled again today on the anniversary of his greatest political victory.

He carried with him what he jokingly described as a "non-political bi-partisan" speech for delivery at St. Paul, Minn., at 9:30 o'clock tonight.

His aids said it was a renewal of his blasts at "reactionaries" and of his championship of the "fair deal" program for which he campaigned in 1948 and which he presented to the 81st Congress last January.

And they emphasized he will send a program back to Congress again in January and back to the voters in next year's congressional elections.

It was a year ago today—the result was long in doubt in the Nov. 2 voting—that Mr. Truman received the news of Thomas E. Dewey's concession of defeat.

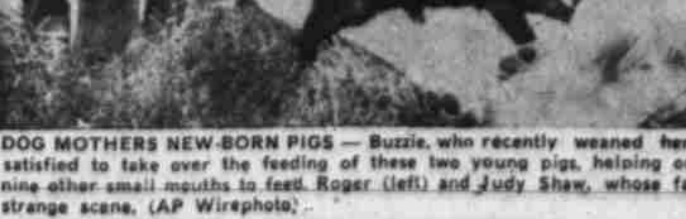

It came to him in the penthouse of Kansas City's Hotel Muehlebach after he had spent election night hiding away at a hotel in Excelsior Springs, Mo.

Many of the proposals for which he campaigned have failed in Congress—notably civil rights measures, a national health program and federal aid-to-education.

He started the 1950 democratic campaign ball rolling last Labor Day with speeches at Pittsburgh and Des Moines. What he calls the "reactionaries" and "selfish interest" are his target again.

He is due in Minneapolis late today for a parade into St. Paul, a reception, a banquet and then his speech in the civic auditorium.

It is all part of "Truman Day" climaxed the celebration of Minnesota's centennial.

Three Striking Sailors Facing Prison In Greece

BALTIMORE, Nov. 3 (U)—The three Greek sailors on a nautical sidown strike 30 feet up the aftmast of the Freighter Aristocratis may win their skirmish with the U. S. Immigration Service but it looks as though they'll lose their battle to steer clear of their homeland.

A shipping firm spokesman said the vessel will sail to the Orient by way of the Suez Canal instead of via the Panama Canal and the three seamen will be put ashore in Greece. The ship is scheduled to sail Sunday with a cargo of fertilizer.

The trio climbed aloft early Tuesday morning to thwart efforts to deport them. The three seamen, and a fourth who has disappeared, are members of the Greek Maritime Union Oeno which was outlawed by the Greek Government in 1947 as Communist.

The immigration service refused them permission to come ashore when the Aristocratis docked. Immigration officials believe they are not bona fide seamen but are merely waiting an opportunity to jump ship and enter the United States illegally.

Because this situation had arisen several times and because the four seamen had been agitators in protesting recent pay cuts, the ship's owners decided to send them back to Greece aboard another vessel.

That's when the one sailor disappeared and the other three went up the mast, refusing to come down and not letting anyone else up. A spokesman for their union said they're afraid they'll be put in prison back home, or worse.

Sympathetic crew members are keeping them supplied with food, drink and cigarettes.

Shivers Trying To Soften Up Texans For New Tax Program

AUSTIN, Nov. 3 (U)—Whether they realize it or not, Texans are being softened up for the bite of new taxes.

Everywhere Gov. Allan Shivers goes these days—and he is on the go a lot and over a wide territory—reiterates his views that the "bread base" tax is his idea of raising new revenue.

The governor first expressed that opinion midway of the last session of the legislature, while he was still lieutenant governor and when it appeared it might be necessary then to levy for new revenues.

Shivers was one of the key figures in Senate passage of the 1948 bus tax bill that is on the books now. It was written in 1941 and legislatures since then have re-legislated new tax campaigns.

Texans are now paying—directly or indirectly—about 45 different kinds of taxes in support of their state government.

It is inevitable that some new unexplored areas of revenue will be sought as sources to tap. There is already widespread talk about a state income tax, and the spectre of a sales tax is also just over the horizon. Either proposal could touch off a violent legislative storm.

It is also reasonable to assume that efforts will be made to increase taxes on some sources already taxed: the usual oil, gas and sulphur tax proposals will be made and also battled to a finish. Not only the governor, but members of the legislature are talking the tax question in their home districts and some of them over wider areas.

Rep. Marshall O. Bell of San Antonio recently wrote an editorial for the South Texas, official publication of the South Texas Chamber of Commerce, reviewing the state spending and taxation issue.

It was widely circulated as a reprint pamphlet with this paragraph emphasized after Bell had said that between \$100 and \$125 million in revenue will be needed: "How will taxes be levied to meet this deficit? In my opinion a state income tax will be proposed; also, a general sales tax, and an increase in the tax on natural resources. I had always thought an increase in the federal income tax field, but more than 31 states now have state income taxes and the number increases every year. The opportunities for further development of Texas will be impaired if excessive taxation is imposed."

Both Shivers and Senator G. C. Morris of Greenville, acting lieutenant governor, went into the spending and tax question before the Texas Manufacturers' Association in convention at Mineral Wells.

Shivers bore down on the point that the cost of state government will keep on going up as long as the state government is responsive to the requests of the people for more and better services. Morris said it would take \$40 million dollars to bring the eleemosynary institutions up to a level worthy of Texas' honor. Bell's editorial carried this warning: "We are going to have just as good and efficient a government as the voters demand, or just as wasteful and inefficient a govern-

MONAHANS HAS BIGGEST FLEAS
DALLAS, Nov. 3 (U)—The world's biggest and smartest fleas live in Texas.

That's what State Land Commissioner Bascom Giles says. He spoke to the Dallas Rotary Club yesterday, and somehow got the itch to talk about fleas.

"Monahans out in far West Texas is now the Mecca of wild flea hunters," he said.

"Hunters from flea circuses are coming there in droves. The Monahans country raises a flea that is exceptionally large and intelligent. A Monahans flea learns in half the time of an ordinary flea."

TEXAS LADY LOSES 47 POUNDS

The following remarkable story shows conclusively that Barconstrate DOES take off fat.

It contains nothing harmful. In fact, it contains ingredients that make you feel better. No starvation diet—no weakness—no hunger. Barconstrate, the original grapefruit juice recipe, takes off fat quickly, safely and you see just plenty.

Here is proof

Here is what Mrs. H. F. Bishop, Route 1, Stamford, Texas, wrote us:

"I am very glad to endorse Barconstrate. No please accept my sincere thanks and appreciation for the great benefit I derived from its use. I not only lost weight, but also looked and felt better in every way."

"I had to have a very serious operation and was told that I must lose a lot of weight before the operation could be performed. I went on a diet and tried very hard to lose, but wasn't losing much weight until I heard of Barconstrate. I began taking it and could soon tell the difference in the way I felt and the weight I was losing. I weighed 200 pounds when I started and I lost a total of 47 pounds and was able to undergo my operation. I can truthfully recommend it to others, since it did so much for me."

At all druggists

If you are overweight and want to take off ugly fat, just go to your druggist and ask for four ounces of liquid Barconstrate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just one tablespoonful twice a day. If the very first bottle doesn't show you the simple, safe way to take off weight, return the empty bottle for your money back.

Airliner Wreckage Is Awesome Sight

WASHINGTON, Nov. 3.—The wreckage of the big airliner—shredded in places almost beyond belief—was an awesome sight.

On board the Navy Tug Watch, veterans salvage workers shook their heads in amazement as a towering crane lifted the shattered front part of the airplane from the muddy bed of the Potomac River late yesterday.

There were the crumpled wings, the fattened crew compartment and the torn fore section of the passenger cabin of the Eastern Airlines ship which plummeted into the river Tuesday killing 55. It was the worst airplane disaster in history.

The plane broke in half when it was struck in the air by a Bolivian fighter craft. The tail section and most of the fuselage of the airliner crashed on the river bank. The fighter rocketed into the Potomac—still to be salvaged when operations were halted last night.

The Navy tug, a barge and crane lashed alongside, moved onto the scene yesterday afternoon after Navy divers working in muck to their waists had latched cables to the airliner wreckage.

Slowly, cautiously the crane started the long hoist from 35 feet of water. The plane was upside down, and a landing gear to which the main cable was hooked broke the surface first.

Then a tedious inching of the wreckage into the air began. After each short haul there was a pause so the water could drain from the exposed section.

The left wing, its tip dangling, cleared next. The two engines on that side were gone—still on the bottom.

The nose and the crew compartment were the most shattered of all—a maze of tangled wires and cables so dense it was almost impossible to see through the cabin.

Both engines also were missing from the other wing, and from the cowling hung another mass of wires.

Coal Relief Fund Is Established

CLAIRTON, Pa., Nov. 3 (U)—Clairton's city fathers have set up a relief fund for the families of the town's 5,000 striking steelworkers.

At a special session yesterday, city council voted unanimously to appropriate \$50,000 as an emergency relief fund. The program will start on Monday.

Mayor J. Mullen said the action was taken because a number of strikers' families reported "they have no means of meeting food, light and other bills."

The steel workers are employed in Carnegie Illinois Steel Corp. mills here.

"Our program will be a sort of loan to our people," said Mayor Mullen. "Each applicant will promise in a signed statement that he will repay the money when he can. If the workers are unable to repay in cash, plans will be made for them to work it out for the city."

DOGS CAUSE ARREST OF ACCUSED KINGPIN OF NARCOTICS TRAFFIC

NEW YORK, Nov. 3 (U)—Peter J. Locascio's concern for his two expensive dogs has landed him behind bars, accused as a kingpin of the American traffic in narcotics.

He was called into Queens felony court today on state charges of illegal possession of an estimated \$1 million worth of dope.

Federal and police agents raided Locascio's lavish Queens home yesterday. They lay in wait until they saw him leave the house to walk his two handsome boxer dogs.

"I wouldn't have been home this afternoon if I didn't have to take these dogs out for an airing," he told police.

Locascio was termed by City Detective Emanuel Schein "the biggest distributor of narcotics in the country."

The 35-year-old prisoner described himself as a truck driver. But police said he paid \$20,000 cash two weeks ago for the two-story home. They seized a sporty new Cadillac convertible parked in front of it.

Agents said the arrest nine months ago of 17 smalltime Manhattan dope peddlers set off a search for the source of the narcotics.

The raiders said they found a pound of heroin in a second-floor linen closet of Locascio's home. A secret compartment beneath a kitchen sink, they said, yielded four more pounds of heroin plus 6,000 vials of morphine and equipment to dilute raw dope for human consumption.

Peddled at retail through underworld sources, police said, the dope was worth a million dollars. The actual value in legitimate trade channels is much less.

The officers said Locascio admitted serving a two-year federal prison term before the war on an illicit alcohol charge.

British-Yugoslav Talks Strike Snag

BELGRADE, Yugoslavia, Nov. 3 (U)—British Yugoslav negotiations for a \$560 million five-year trade pact apparently have hit a snag. The talks have been in progress nearly nine months.

It was disclosed last night that Sir Charles Peake, British ambassador to Belgrade, will leave for London by plane Friday in an effort to iron out the difficulties barring agreement. The nature of the difficulties has not been divulged.

THIEVES GETTING BUSINESSLIKE?

CAMDEN, N. J., Nov. 3 (U)—Are the thieves holding business meetings these days?

Joseph C. Nettleton, business agent for Local 56, AFL-Meat and Cannery Workers, reported to police yesterday that someone broke into his parked car and stole a gavel given him by fellow union members.

Also taken, Nettleton said, was a six-inch square ebony sounding board—used to produce a bigger bang with the gavel.

ENDANGERING PEACE IN BALKANS

Albania, Bulgaria Face UN Condemnation Of Activities

LAKE SUCCESS, Nov. 3. (U)—The United Nations is expected to record an overwhelming majority vote today for a four-power resolution declaring Albania and Bulgaria endanger peace in the Balkans by aiding Greek guerrillas.

Beware Coughs From Common Colds That HANG ON

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

The resolution, introduced by Australia, China, Britain and the U. S., also calls on the two Russian satellites to stop supporting the Communist-led guerrillas. UN observers pointed out, however, that both Albania and Bulgaria had ignored similar resolutions passed by previous UN assemblies and that the sharp attacks on Greece made by spokesmen for both countries in the political committee yesterday indicated they had not changed their attitude. The four-power resolution also calls for continuance of the UN Special Committee on the Balkans and urges all countries to place an arms embargo on Albania and Bulgaria until they stop aiding the Greek guerrillas. Both communist nations and Yugoslavia, which has closed its border to the guerrillas, were asked to co-operate with Greece in the settlement of differences by peaceful means.

The resolution underlined the serious view of the Balkan situation taken by the sponsoring powers in stating that the launching of a new attack on Greece would justify the calling of a special session of the assembly to deal with the situation. The Balkan problem has taken up weeks of debate in the political committee, even though consideration of it was deferred for two weeks while a special four-man conciliation committee attempted to find grounds for a general settlement. The conciliation efforts broke down and the special committee in its report pinpointed the blame on Albania's demand for a final definition of the Greek-Albanian border as a prerequisite to a settlement. Greece long has claimed the northern Epirus, a part of Albania. The special political committee meanwhile prepared to vote on procedure for admission of new members to the UN. The 59-nation group has before it a series of Australian resolutions calling on the security council to reconsider the Russian-vetoed applications of Mashemite Jordan, Ceylon, Nepal, Ireland, Portugal, Italy, Austria, Finland and the Republic of Korea (South Korea). The Soviet Union has introduced a resolution favoring admission of all the above states, except Korea, plus Albania, Bulgaria, Romania, Hungary and the Mongolian People's Republic. Russia has vetoed the applications of the nine-western sponsored nations in the Security Council, which recommends candidates to the assembly. They have offered to lift the veto if the West would support the five Communist candidates. While the Australian resolutions are almost certain of approval, there has been some scattered support among non-Communist nations for the Soviet measure. Some of the Arab nations have indicated they will vote for the Russian resolution.

S. R. GUGGENHEIM

S. Guggenheim, Mining King, Succumbs Today

PORT WASHINGTON, N. Y., Nov. 3. (U)—Solomon R. Guggenheim, senior member of America's great mining family, died here early today at his Long Island estate, Trillora Court. He was 88.

The multi-millionaire copper king was active in the family business until three weeks ago, when his health suddenly began to fail. His condition worsened early this week and his three daughters were called home.

His wife, Irene, was with him when he died, and a daughter and son-in-law, Mr. and Mrs. Henry Obre, of Baltimore, also were present. His eldest daughter, Countess Castle Stewart, was reported flying home from England.

Guggenheim was the senior member of the firm of Guggenheim Bros., and was the last survivor of the seven sons of Meyer Guggenheim, who started the family in the mining business in North and South America.

He also was a generous art patron, and had been a collector since his marriage in 1895 to Irene M. Rothschild, a young art follower.

In 1937 he formed the Solomon R. Guggenheim Foundation to encourage and popularize art—especially in its modern form of non-objective painting. His own personal collection ranged from American landscapes to the Barbizon school and primitives.

As head of the family firm, Guggenheim was a director of a number of metals corporations, including Kennecott Copper, Braden Copper, Pacific Tin, and the Nevada Northern Railway Co. He also was one of the major stockholders in the huge Anaconda Copper Mining Co.

Guggenheim was born Feb. 2, 1861, in Philadelphia, the son of a prosperous embroidery manufacturer. He was educated in the United States and Switzerland. His father early became interested in Colorado mining, and this end of the business prospered so that the sons liquidated the embroidery firm and concentrated on metals.

Reynolds Picks Up Hour In Flight

DAMASCUS, Syria, Nov. 3. (U)—Milton Reynolds regained an hour today in his attempt to get around the globe faster than any commercial airline passenger ever has before.

The millionaire pen manufacturer picked up the hour between Istanbul and Damascus. Previously, at Brussels, he had recovered 30 minutes of the seven hours he lost at Shannon airport, Ireland, waiting for a London fog to lift.

Reynolds arrived here at 7:05 a.m., Damascus time (12:05 a.m. EST), in a Pan American airliner with 26 other passengers. He took off for Karachi, Pakistan, an hour later.

The round-the-worlder said he liked the "beautiful Damascus weather" and wished he could stay longer.

Earlier Reynolds had said his chances of breaking Col. Edward Egan's record for a round-the-world airliner trip hinged on his getting to Hong Kong in time to catch a flight Friday. He is due there six hours before his Trans-Pacific plane leaves.

Five Meet Death In Apartment Bldg. Fire

CHICAGO, Nov. 3. (U)—Five Negroes, including two boys, perished and about 20 others suffered injuries in an early morning fire which swept through a three-story south side apartment building.

Some 50 of the 200 Negroes living in the 54 small apartments were carried down ladders from the flaming building at 5634 South Parkway. Several persons leaped to safety while others were injured as they jumped in attempting to escape from the fast-spreading flames.

Firemen fought the blaze in below freezing weather for two hours before getting it under control. Police said the dead included two boys about eight years old who died in the Provident Hospital, a woman, and two men. They had not been identified today.

POLICEMAN HAS OWN EVIDENCE

ALBUQUERQUE, N. M., Nov. 3. (U)—Patrolman E. G. Lindley went to investigate a report that little Leonardo Lujan had been bitten by a dog. The dog bit Lindley too.

He ordered the dog's owner to tie it up.

Restoration Of Historic French Embassy At Austin Is Planned

AUSTIN, Nov. 3. (U)—Restoration of a French embassy here, one of the two buildings built in the United States especially to house a foreign representative, was planned today by the Daughters of the Republic of Texas.

Five keys—one to the front and one of the back door of the 110-year-old structure—were turned over to the DRT yesterday by the State of Texas.

Hall Logan, chairman of the Board of control, presented the keys to Mrs. Henry R. Wofford of San Antonio, DRT state president. H. J. Job, French consul at Houston, and about 50 members of the DRT from throughout the state attended the ceremony.

Purchase of the building by the state for \$24,256 was authorized by the 49th Legislature in 1945. The bill specified that the building was to be used by the Daughters of the Republic but was to remain state property.

"This is one of the most important events in state history," Logan said at the presentation. He recalled that France was the first world power other than the United States to recognize the Republic of Texas.

Mrs. Wofford said her organization would attempt to beautify and preserve the rambling building in which much Texas history was made.

The DRT plan to restore the embassy to its appearance when Count Alphonse de Saligny built it in 1840 to house the French Embassy. Then it will be opened to the public.

Job represented the consul general of France in New Orleans. He expressed France's gratitude for the friendship of the United States and for the Texas veterans "whose bravery in the last war was surpassed by none."

The historic building was bought by Dr. Joseph Robertson, Austin's first physician after Texas became a state. It was his family's homestead until the death of his daughters, Miss Lillie Robertson and Mrs. Sarah Smith, in 1941 and 1942, respectively.

The house was closed until the Robertson estate sold it to the state. It is furnished with relics of Texas' days as a republic. One of the prized mementoes is a chair in which Stephen F. Austin once sat.

The DRT held its executive committee meeting here yesterday and today, climaxing it with a luncheon celebrating Stephen F. Austin's birthday today.

Woman Gives Slant On Female Crimes

TOKYO, Nov. 3. (U)—Japan's first woman prosecutor is newly appointed Chieko Kadogami, 36, another of two sons. She gave this slant on her job at a news conference:

"In my opinion, female crimes should be handled not only in the light of the law but also with affection."

and Mrs. Sarah Smith, in 1941 and 1942, respectively. The house was closed until the Robertson estate sold it to the state. It is furnished with relics of Texas' days as a republic. One of the prized mementoes is a chair in which Stephen F. Austin once sat.

Atlantic Pact Powers Start Work On Arms Plan

LONDON, Nov. 3. (U)—North Atlantic Pact powers have started work on an integrated plan for meeting arms requirements of the 12 allies.

This was announced last night by the British defense ministry at the conclusion of the initial two-day meeting here of the alliance's arms supply board.

A communique issued by the ministry said the board "agreed that increased military production must be accomplished without jeopardizing essential economic rehabilitation."

The board instructed its permanent staff to proceed at once with developing the integrated plan for arms requirements.

Every signer of the North Atlantic Pact except soldierless Iceland was represented at the meeting.

Sailor Aviators Park On Highway

HONOLULU, Nov. 3. (U)—Two sailors ran out of gas in a rented airplane over Maui Island. Carlton B. Sumner and Roy Jennings, both yeomen first class from the Aircraft Carrier Valley Forge, set their craft down on a highway.

They walked to an airport nearby, bought a five-gallon can of gasoline, walked back to the plane and filled 'er up.

The lads took off as police cleared the highway. Didn't even get a parking ticket.

Desperado Surrenders To FBI After Wild Arizona Jail Break

EL PASO, Nov. 3. (AP) — Jack Tatum, 28, wavy-haired desperado who dodged a storm of bullets and broke jail at Phoenix, Ariz., faced a trip Wednesday back to the same barred lodgings.

Unarmed and broke, he surrendered meekly late Tuesday to FBI men who spotted him on a little-travelled downtown street.

Tatum and four other prisoners started the break in the Maricopa County Jail early the morning of Oct. 22. Only Tatum, Charles Edward Carver, 33, and Edward McEwen, 32, died on a stairway. They were shot by a crippled watchman, Tom Stone. The other two, Dinsel McDonald and John Bridges, staggered out of a cloud of tear gas with their hands up.

A shot from a pistol seized by the jail breakers pierced Deputy Sheriff O. Z. Alford's mouth in the melee.

The five men got loose in the five-story court house building by jumping Jailer W. A. Millett as he entered their top-floor cell with aspirin. They locked him up.

Tatum made it to the ground floor and slid out a window.

Then, he told FBI Agent D. K. Brown, he fled to a citrus grove near Phoenix and hid there four days, living off oranges and grapefruit.

Finally, he caught a freight train to Tucson, Ariz., and lived four days in a hobo jungle. He arrived in El Paso early last Sunday on a bus from Tucson.

HIS HONOR IS EXCUSED

DALLAS, Nov. 3. (AP) — District Judge Dallas Blankenship, checking a list of persons summoned for jury duty, called R. J. Dixon.

"I'd like very much to serve, Judge," said the smiling Dixon. "But I'm pretty busy this week."

Judge Blankenship took one look and quickly excused his fellow jurist, District Judge R. J. Dixon.

Warplane Engines Not Banned, Says Broker

LOS ANGELES, Nov. 3. (AP) — A customs house broker claims that 42 warplane engines involved in smuggling charges were not banned for export.

John L. Westland testified at the trial of seven men accused of conspiring to violate the neutrality act by smuggling planes and aircraft parts to Israeli forces during the recent war in Palestine.

Westland told the court he filed the proper customs declaration for the export of the engines and added he was commissioned by Ray Selk, one of the defendants, to file the declaration.

In addition to Selk, the defendants are Adolph W. Schwimmer, former president of Service Airways, Inc., of New York; Herman M. Greenspan, Las Vegas, Nev.; Sam R. Lewis, Los Angeles; Abe Lewis and Leon Gardner, both of North Hollywood, Calif.; and William Sosnow, New York.

Brooke Graduates To Receive Degree

WACO, Nov. 3. (AP) — Students completing a prescribed course at the U. S. Army's Brooke General Hospital at San Antonio will receive a master of science degree from Baylor University.

President W. R. White of Baylor announced affiliation of the Army center as a teaching unit of the graduate school.

Berry's Adopted Daughter Sues

LOS ANGELES, Nov. 3. (AP) — Wallace Berry's adopted daughter has sued to recover property she claims was hers before the late actor's death.

Carol Ann Berry, 18, in a suit filed yesterday, listed the property as a \$7,000 bank account, a 1949 automobile, two government savings bonds and 66 shares of stock in the Hollywood Turf Club.

Four New Shopping Centers Planned

DALLAS, Nov. 3. (AP) — Leo Corigan says construction will start late this month on four new shopping centers in Houston.

The Dallas real estate developer estimated their cost at about \$3,800,000.

He said yesterday they will be located in the tri-cities, North Shepherd, North Main and North Washington areas.

CIO Local In Revolt Against Left Wing UE

PITTSBURGH, Nov. 3. (AP) — The 13,700 member CIO local at Pittsburgh's Westinghouse plant Wednesday was in rebellion against its parent organization, the left wing United Electrical Workers Union.

The uprising came as the UE was on the verge of expulsion from the CIO, now holding its annual convention at Cleveland.

Already CIO president Philip Murray has announced a plan for

organization of a new union of electrical workers.

Officers of the Pittsburgh local — No. 601 — decided Tuesday to withdraw from the UE and join the new, as yet unnamed union.

To make the decision binding, pending a meeting of the local's executive committee, the officers moved the local's funds to a new bank, announced they would withhold all per capita payments to the UE and resolved to ignore all messages from UE national headquarters.

"We no longer consider ourselves in the UE," said Stanley Glass, recording secretary of the local and leader of its right wing faction. "We are still in the CIO," he added.

Other spokesmen for the local said the action is part of a movement under way in the entire "Westinghouse conference," a

group of about 90,000 workers in Westinghouse Electric Corp. plants to secede from the UE and set up its own organization as a right wing CIO unit.

Chicago Girls Still Seeking Ranch Jobs

WACO, Nov. 3. (AP) — Remember those two Chicago girls who drove a buggy to Texas just because they wanted to work on a ranch?

Well, they still want to work on a ranch. So Tuesday noon they hitched their horse to the 1898 buggy and padded out of Waco bound for Bandera.

"The people in Waco have been wonderful. It's just that there are no ranch jobs here for us," Alice Michaelis, 19, and Ruth Kenyon, 18, said.

State-Financed Land Buying Program Set

DALLAS, Nov. 3. (AP) — A state-financed land buying program for veterans will get underway between Dec. 1-16, Land Commissioner Bascom Giles announced.

"We'll soon be ready to go," he told the Dallas Rotary Club yesterday.

He said \$5 million worth of bonds for this purpose had been sold, adding that a total of \$25 million in bonds will be sold.

He estimated that because of the program, Texas will have 5,000 new land owners.

Baker Won't Seek Presidency Again

CHATTANOOGA, Tenn., Nov. 3. (AP) — Roy Baker of Sherman says he will not be a candidate to succeed himself as president of the Young Democratic Clubs of America. He has been president for two years.

Baker arrived yesterday to set up headquarters for the national convention which opens here Nov. 17.

World Day Scheduled

World Community Day will be observed in Big Spring at the First Presbyterian church Friday at 3 o'clock under the auspices of the United Council of Church Women.

The program theme for the day will be based on the subject, "Peace is Possible." Therefore on that day women will watch, women will work and women will pray.

Mrs. Arthur Pickle will serve as program leader.

World Community Day was first instituted because church women believe that God is the Father of all mankind and that it is His world; they believe also that the human family can learn to live together in peace.

"Pieces For Peace," for the displaced housewives overseas will be dedicated in special services. Mrs. Shine Phillips, Church World Service chairman, will conduct the dedication of the bundles.

Members of the Public speaking department of the high school will present a dramatic skit on the theme, "Peace is Possible." Another feature on the program will include the Music club quartet.

Ina Mae Green Named President

Ina Mae Green was elected president of the newly organized Mud-Hen Ceramics club in the home of Mrs. Bob Satterwhite, 610 E. 17th, Wednesday.

Other officers named were Nancy Dillard, secretary and Bobbie Satterwhite, treasurer.

Mrs. Steve Baker presided during the organization of the club.

Those attending were Mary Reiley, Pat Flowers, Lois Coffee, Margie Baker and Merle Stevens. Other members include Mary Alice Isaacs, Jewel Madison and Jean Manning.

Big Springers Will Appear At Music Convention In Monahans On Saturday

MONAHANS, Nov. 3—The Monahans Music Study club will be host to the Ninth District, Texas Federation of Music clubs, Saturday, Nov. 5. Representatives are expected from Alpine, Big Spring, Midland, Odessa, Pecos and Stanton.

Elaborate plans are being made by the Monahans club, newest in the district. It marks the first convention entertainment for the music group. Sessions will be held in the Methodist church.

Eu Jean Smith, Odessa, district president, will preside and be principal speaker. Mrs. Paul Moss, Odessa, state first vice president, and Mrs. Post Gillette, Fort Worth, will make important program talks.

Registration opens at 9 a. m., with coffee at the church. Prior to registration the executive board will convene at Ballard's cafe at 7:30 a. m.

Mrs. Ruby Read Leads Program

Mrs. Ruby Read spoke on "The Origin of Thanksgiving and Its Teachings," during the program meeting of the Big Spring Chapter of the Order of Eastern Star in the Masonic hall Tuesday.

Joyce Howard, past worthy advisor of the Order of Rainbow For Girls, sang two vocal solos: "Above the Halls of Time," and "Look For the Beautiful," accompanied by Gale Bonner.

Refreshments were served in the Masonic dining hall by Mrs. Ora Johnson, social chairman.

The Thanksgiving theme was carried out in the decorations. The table was laid with a gold satin cloth and centered with a large arrangement of red chrysanthemums shaped as a turkey.

Others acting as hostesses included Verna Mae McComb, Jewell Webb, Ruth Roden, Johnny Weeks and Mary Hatch and Charlene Kee.

Approximately 50 persons attended the affair, with a number of out-of-state visitors.

Park Methodists Conduct Study

Members of the Woman's Society of Christian Service convened at the Park Methodist church for the study lesson, "Sharing the Blessings of Home," from the book, "Women of the Scriptures."

Mrs. G. C. Graves served as study leader. Mrs. Abbie Anderson offered the opening prayer.

Others on the program included Mrs. Abbie Anderson, who spoke on "The Hospitality of the Nameless Widow"; Mrs. Dora Moore, who discussed, "The Shunammite Woman"; Mrs. W. C. Guthrie, who talked on "The Contribution of Homes to Jesus Ministry"; Mrs. I. A. Smith, who discussed, "Lois, Eunice and Timothy"; Mrs. Gould, who gave the part, "The Home of Priscilla and Aquilla"; and Mrs. A. T. Rogers, who discussed "The Home of Mary and Martha."

Junior music clubs of Midland, Odessa, Big Spring and Stanton will present musical numbers in fine arts presentations. Senior music clubs will give a program. All visiting clubs will participate on the program.

Approximately 75 are expected to attend. Mrs. Ray North, president of the host club, Mrs. Woodrow Wilson, general chairman, Mrs. W. M. Morris, program chairman and Mrs. A. W. Wenck, hospitality chairman, will steer the convention.

RIBBON RAMBLINGS

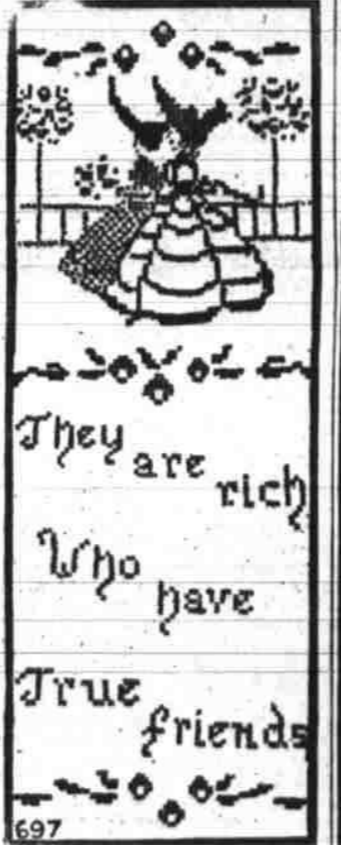

By Mildred Young

The Big Spring Junior Band will present their first performance of the year when the Big Spring B team meets the Snyder eleven on the local field tonight. The band is important in the fact that it is the future high school band of this city. There will be no halftime show. J. W. King, Sr., high school band director, will be in charge.

A group of teachers and students from San Angelo High school spent the morning looking over the Big Spring high school. They were on a good will mission and included a coach, a football player, a teacher, a yell leader, a band member, a student council member and two students. Their purpose was to create a stronger feeling of good will between the two schools. Their choice of time, the day before the San Angelo - Big Spring football clash, seems wise. Too often, when two schools are rivals on the football field there is a good deal of hatred and ill feeling. It is much better for all concerned when this is not the case. When students of rival schools meet each other face to face and look on the other faculty and students as human beings instead of a dummy which they burn at pep rallies, students of both schools have something to gain.

Some two weeks ago, we wrote an "Around the Rim" concerning the idea that all work can not always be done during regular office hours. Yesterday, we received a much appreciated letter concerning that editorial. The writer commended the idea and added that we have too many clockwatchers, but that most of us forget that although clockwatchers stand up like sore thumbs, there are more conscientious workers than there are clockwatchers. We know a number of the conscientious workers and our hats are always off to them.

When The Government Steps In, America's Free Press Is Gone

Every newspaper office is the recipient of a shower of what might be called government propaganda, rolling from presses and mimeographs, riding free in the mails, and covering every subject under the sun, from what the admirals said about the generals to the proper way to mix up a mess of ice-box left-overs.

Truman's oft-sounded criticism of the American press as to truth and honesty. As head of an outfit that hands out millions of words of propaganda to the newspapers every month, the President—and many another government official and politician—shows a paradoxical interest in utilizing the facilities of a press whose disinterest and honesty they question.

SEEK THIRD WIN

Shorthorns Host Snyder In 7:30 Game Tonight

Local football fans will be afforded another opportunity to see the Big Spring high school B team in action tonight, when the Dogies play Snyder's reserves in a game at Steer stadium starting at 7:30 p. m.

Taken all the way around, this is quite a treat. True, the Shorthorns haven't won so many games this year but they always play an interesting brand of ball.

Coached by Wayne Bonner and Conn Isaacs, the locals have romped to wins over Coshoma and Midland while losing to Sweetwater twice, Stanton, Seagraves and Robert Lee.

The Big Springers will go along with a new quarterback tonight, since Robert Cobb has been promoted to the A team and won't be available. Indications are Jimmy Stewart, Speck Franklin, Frank Philley and possibly Ray Adams or Wendell Casey will start in the locally second string.

The Shorthorns have been going at it hammer-and-tongs all week in preparation for this one, which they want to win.

Snyder is due to form rugged opposition. The school and the city is growing by leaps and bounds and the B team reportedly is only a step or two behind the Tiger regulars.

Raiders Point For Western

LUBBOCK, Nov. 3.—Tex. Tech's Red Raiders face perhaps the toughest assignment of the year in defense of their Border conference football crown this weekend.

The Raiders journey to El Paso to meet Texas Western's Miners in a night game and fans generally feel there is rough going ahead. Last fall the Raiders walked over Coach Jack Curtice's El Paso lads, 46-6, and expect more than a small amount of effort at revenge.

In addition, it is Homecoming at Texas Western, and that always makes it bad for visiting teams. Western has in Halfback Pug Gabriel the leading ground gainer and leading scorer of the Border conference, while the team as a whole is far out in front both offensively and defensively. Tech apparently has the better passing attack and the better punting this year.

Tech lost last Saturday to Rice 28-0, while the Miners were dropping a game to Hardin-Simmons. Both teams next Saturday will be eager to get back in the win column.

Raider backers are happy over return to form of Halfback Calvin Stevenson, whose net 87 yards rushing against the Rice Owls led Tech ground gainers and moved him to second spot offensively for the team. Fullback Bud Conley continues to lead for the season with a better than 4-yards-per-carry average.

Tech will carry a full squad to El Paso and will use a varied offense and shifting defense. The Rice ground attack was halted substantially, but pass defense of Tech was weak.

Juniors Meet Lakeview 11

The Big Spring Junior high school Yearlings set sail for Lakeview today where at 7:30 o'clock they joust with that community's Junior high griders in an exhibition football game.

The Yearlings are in prime shape for the Lakeview clan and expect to come home with a victory.

LOOKING 'EM OVER

With Tommy Hart

When the Big Spring high school Steers take the field against San Angelo's Bobcats tomorrow night in the Concho City, they'd best keep their lamps potted for a dash downfield by George Kendall, a glue-fingered end. Kendall is a prima target on passes.

If they see too much of Kendall before the school year is out, you can understand. Kendall is also a basketball player who will give Big Spring, and all other IAA teams, fits in the season just ahead.

If the Fellows tip the Steers at football, Kendall is sure to play a major role.

Dalmer Turner, Howard County Junior college's mild-mannered athlete, had to sit out most of the HJJC-Weatherford football game last week because he sided in with A. J. Cain in an argument in the fireworks that almost stopped the game here last Friday night.

Turner couldn't see any sense in one of the Weatherford athletes picking on Cain and proceeded to tell the visiting lad to go mind his business. The lad from down state apparently was carrying a big chip on his shoulder, however, because he proceeded to brace himself for trouble with Del. About that time, the officials stepped in and ordered both boys to the sidelines to cool off.

Cain, by the way, played himself quite a game.

The Hawk linemen who limped out of action in the Weatherford game, then tumbled back into the fray with hardly a false step were, for the most part, suffering from leg cramps.

PATTON GIVEN LUCK CHARM, STARTED STREAK

The Quarterback, seasonal publication covering football for The Sporting News, went to great lengths to describe the circumstances surrounding Cliff Patton's successful bid for a new place-kicking record for the Philadelphia Eagles. Cliff, as you know, is an ex-Big Spring boy.

We repeat it for you, in part: "Nov. 18, 1947, was a cold, chilly sember day. The Philadelphia Eagles, bound for their first National Football league division championship, had polished off the Boston Yanks in convincing 22 to 0 fashion.

"Yet the six-foot-two, 240-pound guard sat disconsolately in front of his locker, gazing into space. He went slowly back over the day.

"Yes, he had gone through the same routine of the previous Sunday; but his right sock on first, worn a blue tie, even put on the suit he didn't care so much about. He hadn't walked under any leadders, tossed his hat on a bed or seen a black cat.

"But things had turned out differently. He had missed two of his four tries for the extra point and missing tries for the point wasn't so good. X x Coach Greasy Neale didn't like guys who missed.

"He looked at his shoes. Nothing was wrong with that. He shook his head dispiritedly. Yes, Cliff Patton was a disappointed guy.

"As he went through the door, a young lady with an autograph book stepped up to him, 'Please sign this,' she said. Cliff started to walk by, then looked up. 'If you do, I'll give you this four-leaf clover,' she said pleadingly.

"Good luck tokens don't mean anything to me," replied Patton. But he signed and the girl pressed the clover into his hand. He looked at it. He didn't dare throw it away, so he pulled out his wallet and tucked it in between his cards.

"Since that day, Cliff Patton, burly guard of the Eagles, hasn't missed a placement try for an extra point and against the Washington Redskins on Oct. 23 he broke Automatic Jack Mander's all-time National league record of 72 consecutive conversions. He not only broke the mark, but he kicked seven goals to raise his total to 77 without a miss. And, like Tennyson's brook, it looks as if he'll go on forever. X x x"

"He started his kicking streak with three against Pittsburgh three more against the Cardinals; and four against Green Bay to close the 1947 season with ten straight.

"He kicked 80 in a row in the 12 Eagle games last year. And thus far this season, the Eagles have scored 17 touchdowns and Patton has converted after every one."

Stanton Buffaloes Invade O'Donnell Field Friday

STANTON, Nov. 3.—Coach Leo Henson, right end; Neil Stovall, left end; Wayne Cook, right tackle; Richard Rikil, left tackle; Joe Swinney, right guard; Melburn Heckler, left guard; Tommy O'Brien, center; Whistle Lindsey, quarterback; R. S. Higgins, left half; Earl Koonce, right half; and Joel Koonce, fullback.

The contest, first between the two schools in more than 10 years, is to get underway at 7:30 p. m. in Eagle stadium. Stanton, victorious over Trent by an 18-0 score last week, will be out to add another win to their season record.

Both defensive and offensive strategy has been the object of the Buffalo coaches this week as Coach Fields cautiously prepared his charges for the O'Donnell clash. The Eagles have lost several games this year, but have been up against some fairly tough competition. The Stanton coach declared.

The Buffaloes will probably play most of the Friday game without the services of Leo Roy Gibson, fullback sparking who is nursing a bruised leg. Coach Fields said. Gibson will probably be called on for light duty during the contest, though he isn't slated to start the tilt. The rest of the Stanton squad is in top shape for the game.

Probable starters and positions on the Buffalo team are Kenneth

Casey Stengel Named Manager Of Year By AP

By JOE REICHLER AP STAFF

NEW YORK, Nov. 3.—Casey Stengel, who hit the jackpot in his first year with the New York Yankees after nine unsuccessful seasons as National League pilot, is the major league's "Manager of the Year."

The grizzled veteran, who overcame a list of obstacles to lead the Yankees to an American League pennant and a world championship last season, was the overwhelming choice of the baseball writing fraternity which voted in the Associated Press poll.

Stengel grabbed 101 of the 116 votes cast. Only four other pilots received recognition with Detroit's Red Rolfe and Philadelphia's Phillies' Ed Sawyer tied for a poor second at six votes apiece.

Joe McCarthy, Boston Red Sox skipper, who was pored out for the pennant two-straight years on the final day, received two votes. Jack Onslow, freshman pilot of the Chicago White Sox, got the remaining vote.

Stengel received the accolade for his tremendous job with a club that didn't figure to win in the first place, and was crippled by a record number of injuries and illnesses from the start of the season right down to the final day. In addition, he had to live down the reputation as a clown and court jester.

He came to the Yankees as a stranger after five years in the minors. Even before the club concluded its spring training program in Florida, he was accepted by his players as a sound tactician, a keen student of the game and a smart handler of men.

It was Stengel's proud boast that he didn't levy a single fine on any of his players. Nor was there a single squabble between player and manager all year.

"Never have I seen a club work together as this one did," he proudly said at the club's victory dinner after the final World Series game. "Maybe we weren't the greatest team in history, but the Yanks of '49 were the fightingest, most spirited team I ever saw in my 40 years in the game."

It is not too far-fetched to credit Casey with infusing some of the fight, hustle and spirit that enabled the Yankees to hurdle all barriers and defeat a favored Red Sox team in the closing days of one of the most torrid seasons in American League history.

Five Schoolboy Games Tonight

By The Associated Press Five games tonight, one of them putting an unbeaten record on the line, start off the most crucial week-end of the season in Texas schoolboy football.

John Ricagan of Houston, the last undefeated team in the City Conference, swings against Jeff Davis in the top game of District 2.

Forer Cooter Tech, together in the Dallas district but it's an unimportant game and it's the same for the clash of Fort Worth Tech and Poly at Fort Worth. However, in the San Antonio district, Thomas Jefferson, one of two unbeaten teams in the conference race, rolls against Alamo Heights. Victory for Jefferson, which is expected, would put this team even with San Antonio Tech in wins.

At El Paso, El Paso High plays Mesa, Ariz., an intersectional game.

The headliner of the week is tomorrow night when Little Grand Prairie makes its greatest bid for glory. Undefeated and Untied, Grand Prairie ambles Highland Park of Dallas, the perennial District 8 Class AA champion, in the scrap that should determine the district title.

They won't be able to handle the crowd that wants to see this one and there will even be some standing room sold. Grand Prairie has been in Class AA three years and it is the first time a team has come along in years that appears capable of challenging big Highland Park.

Throughout the state are 46 games tonight, tomorrow and Saturday. All except four of them are conference affairs. At least a half-dozen district titles are in the balance.

Slammer Leads Pinehurst Play

PINEHURST, N. C., Nov. 3.—Folks around this golf-wise village pride themselves on their knowledge of the game. They were never more right than yesterday.

When Sammy Snead set off for the first round of the North and South Open Tournament most of the first tee standees took after the slugger from White Sulphur Springs, W. Va.

They knew they'd see something worth following. They were rewarded for their \$25-a-rod ramp around the No. 2 Country Club Course. The Slammer banged out a four under par 68 to grab a one-stroke lead over Johnny Dulla of Pittsburgh and Ted Kroll of Philadelphia, Pa.

Snead was low man of a field of 11 in this 47th renewal of the \$7,500 test which winds up with 36 holes tomorrow.

Fifteen stakes, the most in winter racing, are slated for the coming campaign at Hialeah race track.

Cotton Bowl Game Already Sellout, Officials Reveal

No Suggestion Who Will Play

By HAROLD V. RATLIFF AP Sports Editor

DALLAS, Nov. 3.—The Cotton Bowl already is sold out and no one has the least idea what teams will play in it. The host team is the Southwest Conference champion and right now three teams are in the running for that honor.

The visiting school can't even be approached until the Cotton Bowl officials submit a preference list to the teams most likely to be conference champion.

Dan D. Rogers, selection chairman of the Cotton Bowl, said today he thought at least a scratch list might be submitted next week.

Baylor and Rice are tied for the lead, neither having been defeated. Southern Methodist has lost only one game. Arkansas, Texas Christian and Texas each has dropped two. Saturday Baylor plays Texas, Rice meets Arkansas and Southern Methodist engages Texas A&M, which has lost three.

Cotton Bowl officials said no outside team had been contacted in any way and would not be until the Southwest Conference situation cleared. But it is known that two teams are being eyed more speculatively than the rest. These are Oklahoma and Michigan State.

There have been reports that Oklahoma was already committed to the Sugar Bowl but Cotton Bowl officials scoffed at that. They think Oklahoma would look with favor on any way and would not be until the Southwest Conference situation cleared. But it is known that two teams are being eyed more speculatively than the rest. These are Oklahoma and Michigan State.

Applications for tickets to the Cotton Bowl are being accepted until tomorrow night by mail with a limit of four to a person. There are 25,000 seats available to the public.

Director-General James H. Stewart said over 12,000 individual applications already had been received in the two days the sale has been under way. Most of these want the limit. Stewart thinks there will be 12,000 more applications. That would mean, even if each application was for only two tickets, that the available seats would be oversubscribed.

A drawing will have to be held to determine who gets the tickets.

Douglass Leads Kegling Play

Douglass is out front in Men's Classic bowling league standings, after Wednesday night's activity.

Seagrams and Jones are two games off the pace, each with a record of 14 wins and 24 starts, while two other quintets—Atlantic Refinery and Nathan's—are both kegling at a better than 500 clip. Jake Douglass and Ray Osborne engaged in some torrid individual play last night. Douglass walked off with individual game honors with a 243, one pin better than Osborne, who rallied to grab off high aggregate with a 618. Douglass was second with a 588.

Douglass fattered in all team laurels with an 888-2584.

AILING — Howard Washburn (above), quarterback of the Big Spring high school football team, may miss most of Friday night's game with the San Angelo Bobcats. Howie suffered a groin injury in last week's contest with Austin high of El Paso and is having to take it easy in practice this week.

Frank Tripucka Primed To Play For Detroiters

DETROIT, Nov. 3.—Former Notre Dame Quarterback Frank Tripucka has learned the hard way that switching from college football to the pro ranks is a tough grind.

A recruit with Bo McMillin's Detroit Lions, Tripucka was hopeful today that he would get in his first lifts in the play-for-pay rank this week end.

The 1-year-old Bloomfield, N. J. rookie came off the Fighting Irish campus last year described by Coach Frank Leahy as the "finest ball-handler I've ever seen in college football ranks."

The Philadelphia Eagles labeled him their No. 1 draft choice last fall but were so loaded with talent this year that they could not use him.

"I just couldn't find a spot in the Eagles lineup," Tripucka explained. "With quarterbacks like Tommy Thompson and Bill MacHides around, what chance has a recruit got?"

Eagles Coach Earle "Greasy" Neale substantiated Tripucka's statement.

"I really hated to see the kid go but in our 32-player limit we needed linebackers over quarterbacks," he said.

Because National Football League rules prohibit selling or trading players following the season's third game, Tripucka had to come to the Lions via the waiver route.

He has only been with the cellar-dwelling Lions for 10 days but already looks like the answer to a lot of McMillin's problems.

McMillin, former head coach at Indiana, said yesterday that he figures it is about time to see what his ball-handling ace can do under fire.

Said Bo: "There's nothing like actual game play to show how far a rookie can go and it's about time Tripucka made his debut in pro football. We'll use him against the Chicago Cardinals Sunday and hope he'll see a lot of action."

"Amen," echoed Tripucka.

Steer, Bobcat Regulars Ailing As Traditional Battle Nears

Both Big Spring and San Angelo will enter their traditional football game Friday night in San Angelo in sub-par physical condition. Indications are the local school-

boy griders will have to go along with a third string quarterback, Robert Cobb, most of the way.

Floyd (Pepper) Martin and Howard Washburn, who have divided time at the signal chanting spot for the Bobcats, have been favoring injuries and may be of little service to the Longhorns.

Red Ramsey, Angelo mentor, has revealed that Sam McKnight, senior Bobcat tackle, and Gary Sendorford, reserve guard, would probably miss Friday's contest due to injuries suffered in practice this week.

McKnight is on the sidelines with an injured collar bone while Sendorford is favoring a broken wrist.

Robert Cobb stepped into the first string quarterback berth for the Steers in practice yesterday as the locals went through a rehearsal of their plays.

All indications point to the Steers using the overhead game against the Cats, since Cobb is an expert passer.

Officials Probe Racing 'Fix'

SATEM, N. M., Nov. 3.—Amateurs with license in their hearts and a knowledge of the physical geography of Rockingham Park were sought today as those concerned with "sponging" five horses in the seventh race here Oct. 24.

Most of those interested in sponging the tamperers, who pushed small sponges into the thoroughbred's noses, are convinced there was no intended betting coup as the wagering on the race was not abnormal.

It was pointed out, however, that the seventh race plays a part in the makeup of the figures used in the number pool in this area.

The sponging, designed to cause a horse to become distressed—particularly in a hard stretch drive—was discovered by Lyle Phillips who found a small blood-covered sponge in the feed bin of his horse Seersucker which finished fourth in the race.

The race was won by A. J. Ryan's Crisis. Crisis also won yesterday's seventh.

Phillips reported to track authorities and Dr. Lewis found sponges in the noses of Mrs. Tom Hasko's M. Longine which was eighth in the nine horse field; H. J. Arll's Shining Deed which finished in show position, and Maple Leaf Farms' Farmington which was seventh.

Buffaloes Play Bearkat Sextet

FORBES, Nov. 3.—Forbes's Buffaloes, still in the scrap for the District Eight state football title, move to Garden City Friday afternoon for an encounter with Doc Self's Bearkats.

The Buffaloes have won all but one start to date and are counting on taking this one handily.

Coach Frank Honeffert will shoot a high-powered offense built around Wayne Huettel at the Cats.

Role Of CIO-PAC In 1950 Elections Will Be Studied

CLEVELAND, Nov. 3 (AP)—The CIO turned to its mounting domestic and world-wide political chores today wrapped in the newly-acquired robes of a right-wing federation.

In international politics, the CIO is joining with the AFL and labor federations abroad in creating a new world labor congress, rivaling the Soviet-dominated World Federation of Trade Unions.

Hot debate was expected over foreign affairs and the international move—from at least some of the left-wing leaders still sitting in the convention hall.

'SMILE IN VOICE' MAY BRING AID FOR PRETTY RADIO DISPATCHER

MARCUS HOOK, Pa., Nov. 3. (U) — Ella Smith, crippled radio dispatcher for a taxicab company, may soon be walking with the help of braces bought by a group of seamen who liked the "smile in her voice."
The pretty, blue-eyed girl—crippled all of her 24 years — was "adopted" by tanker and freighter crewmen who first heard her voice while riding in taxis on shore leave in this port.
Ella became quite a favorite, even though her well-wishers had never seen her. Radio operators

on ships coming up Delaware Bay to Marcus Hook and other nearby ports mould tune in her directions to cab drivers.
Several months ago, Ella's voice went "off the air." Inquiring seamen learned she had gone to Temple University Hospital in Philadelphia for an operation.
A group of seamen, led by James E. Ritchie — port agent for the CIO-Maritime Union — supplied blood for several transfusions.
Yesterday, Ella came home from the hospital and on hand to greet her were a number of her seafaring friends. Ritchie was there, too, together with C. W. Williamson, president of the Marcus Hook Civic Assn.
They told the girl of their plans to buy her braces — and to see that she has the best of medical care.

Police Seeking Kidnaped Girl

MULLINS, S. C., Nov. 3. (U) — Police combed the Carolinas today for blond seven-year-old Mary Spivey, reported kidnaped by two motorists after she got off a school bus.
Police Sgt. D. W. Drew of Mullins said the girl's red coat and pink sweater were found near the bus stop.
Mary alighted from the bus near her home about 4:30 o'clock yesterday-afternoon.
Police said residents nearby told them that as the bus drove off two men in a 1941 Plymouth coupe pulled up and the child entered their car. The coupe, bearing South Carolina license plates, drove toward the North Carolina border.
Drew said two men in a car answering the description of the wanted coupe bought whisky last night near the North Carolina line.
An alarm was spread by police radio in South Carolina and North Carolina.
The child lived with her farm tenant parents five miles northeast of here, and attended the Nichols school, two miles from her home.
Mullins, with a population of 5,000, is 15 miles south of the North Carolina border.
Drew said the child was wearing a checked dress and white shoes. She stuttered, he added.

Actor Denies He Was Boy Friend Of Attorney's Wife

LOS ANGELES, Nov. 3. (U) — It was in the role of real estate broker, not boy friend, that he called upon a divorcee suit defendant, Richard Powers, veteran stage and screen actor, declares.
Powers, 57, formerly known in western films as Tom Keene is accused of intimacies with Mrs. Florence H. Walton, 39, Delvy T. Walton, 53, her wealthy attorney husband, previously testified he and two detectives broke into his wife's bedroom Sept. 26 and found her unclothed and Powers also disrobed in a bathroom.
Powers testified yesterday he was very tired that morning and had asked Mrs. Walton to make him a cup of tea before they went to look at an apartment she wanted to rent.
He had also asked permission to use a bathroom, he added, and Mrs. Walton had called through the closed door, warning him not to come out.
Powers testified further "I did not even know Mrs. Walton well enough to shake hands."

Legislative Council Is Set Up By Texas

AUSTIN, Nov. 3 (U.P.)—Texas is trying a new angle of attack on knotty legislative problems. It has joined 22 other states in setting up a legislative council to pre-digest proposed major laws before starting them on the formal road to enactment.

Backers of the plan hope it will result in a more orderly process of lawmaking. They hope it will eliminate some of the haphazard legislation and lawmaking blunders that have marred many past sessions.

Eventually, it may supplant the custom of setting up a wide variety of interim committees to study proposed legislation and bring it before the lawmakers. The theory is that one such committee including both Senate and House members, reinforced by a technical staff of researchers, can operate more efficiently and with less expense than several such bodies.

The Texas Legislative Council was told at its first meeting that this has been true in Kansas, where the idea of unified between-session research was pioneered in 1933.

The speaker was Frederic H. Guild, a tart-tongued little man who admitted he might be somewhat addressed as "Doctor—but not as 'Professor.'" He is the director of

research for the Kansas council. His salary is \$8,500 a year and he said this was a little embarrassing because it was more than the governor of Kansas got until the chief executive's salary was raised recently.

Guild told the Texas council that the idea of such legislative research agencies had been a hobby of his for many years as a member of the American Political Science Association. He admitted bias in favor of the notion of letting unbiased research dig up all the facts on which to base legislation and government policy, letting the chips fall where and on whom they may.

He said even the lobbyists in Kansas were beginning to be sold on the idea since sometimes things they wanted turned out to be supported by the facts. Not always, but sometimes.

Guild related that there had been something missing in the law-making process in Kansas and the first problem of the council was to restore the confidence of the people in the legislature.

Before that happened, the legislature had to restore confidence in itself. He said the council helped to do this.

The lawmakers had been trying

to do a job without the proper tools. The research staff employed to dig into any problem and come up with the facts were seen as the proper equipment for sound legislation based on services the public needs, plus full information on all factors bearing on it.

Guild said he was completely sold on the idea. He thought Kansas was profiting by it. He unequivocally recommended that Texas follow a similar pattern.

Just how the Texas council will work is still not known.

Committees were appointed at the first meeting to work on a possible agenda and to make policy recommendations. This should fall before the November meeting of the council, but whether it will be able to set up its permanent staff of researchers in time to have much effect on the January session of the legislature remains to be seen.

Also unknown is what the legislature's collective attitude will be toward recommendations made by a council as the result of academic research.

You can already hear some members shouting the frazzled phrase: "Long-haired professors."

Guild said he knew all about this. The council's big problem in pushing its ideas through the law-making mill will be to sell the legislators themselves of the soundness of the procedure of using the scientific approach to state policy problems.

But when you put research in its shirt-sleeves and remove the ivory tower stigma from it, he said, you can get somewhere. Many legislators have had experience in local government and the practical aspects of lawmaking.

When you can combine this with the factual results of real research, you have translated the problem into terms that can be understood.

Chiropractor President To Be Honored

Midland-Odessa-Big Spring area chiropractors will honor their new state president, Dr. H. H. Kennedy of Longview, with a testimonial luncheon at the Scharbauer hotel in Midland at 12:30 p. m. Sunday.

Also to be honored will be Dr. R. S. Florence of Tyler, member of the new Texas Board of Chiropractic Examiners, and Dr. J. C. Shipman, vice-president of the Texas State Chiropractic Association.

Drs. Kennedy and Shipman were elected to their posts at the recently-concluded state association convention held in Brownwood. At the Sunday luncheon chiropractors present will elect a member to the board of directors to fill the vacancy left by Dr. Shipman when elected to his new post.

The dinner is one of a series planned by the T.S.C.A. to be held throughout the state to introduce the estimated 1,500 Texas chiropractors to the new president and members of the board of examiners.

Resident Of Big Spring In '85 Recalls The Shoot-Em-Up Times

Reports of Big Spring's Centennial celebration have evoked old-time memories from an early-day resident of Big Spring, Johnson C. Brown, now of 1413 14th street, Moline, Illinois.

Mr. Brown has written The Herald as follows:

"As a resident of Big Spring in 1885, when it was a town of about 1,000, I was more than interested in reading of the growth of the town to 20,000 since then. I am writing these few lines with the idea that you might find a place for it in your paper. I worked for a Mr. Bixler, who ran the hotel there. I was married in Big Spring in 1885. They had built a new courthouse for Howard and adjoining counties and the picture of the new courthouse was printed on envelopes. I still have one of them.

"There was a company of Texas Rangers stationed near town, who acted as policemen. There was a bunch of cowboys came in, intending to shoot up the town, but the business men were ready for them with Winchester. Seeing this, they laid down their arms very meekly.

"Marionfield, about 20 miles west, had the same experience, when they came in to shoot up the place, but two of them were killed. This town was organized by a Catholic priest, for a farming community, but it did not work out too well.

"I also worked on a sheep ranch near Big Spring. I am now 88 years old and my son is writing this for me. It really brought back memories to read of your big celebration down there.

"In conclusion, may I sincerely wish Big Spring many more years of continued growth and prosperity."

To Provide Your Family With Energy For Crisp Mornings, Serve Pancakes

Mornings are becoming a little crisp. To send the family off to school and work with plenty of energy, try plain pancakes and the menu given.

Orange Juice
Plain Pancakes* Maple Syrup
Canadian Bacon
Slicky Buns Beverage
(Recipe for Starred Dish Follows)

PLAIN PANCAKES
Ingredients: 1 1/4 cups sifted all-purpose flour, 3/4 teaspoon baking powder, 1/2 teaspoon salt, 2 tablespoons sugar, 1 egg, 3/4 cup milk, 2 tablespoons butter or margarine (melted).
Method: Mix and sift flour, baking powder, salt, and sugar together. Beat egg just until foamy with rotary beater; add milk and melted butter or margarine and beat again to combine. Add dry ingredients and beat only until batter is smooth. Pour about 2 tablespoons of batter of each pancake into hot greased griddle; when top is puffed, bubbly and cooked around edges turn over. Bake until other side is brown. Makes about 12 pancakes or servings for 4.
Note: 3/4 cup finely ground cooked ham may be added to batter; in this case sugar may be decreased by 1 tablespoon.

Rolled Raisin Nut Cookies Are Good Snack Bet

Chilled Red Apples
Rolled Raisin Nut Cookies*
Hot Marshmallow Cocoa
(Recipe for Starred Dish Follows)
Rolled Raisin Nut Cookies
Ingredients: 2 1/2 cups sifted all-purpose flour, 1/2 teaspoon baking soda, 1/4 teaspoon salt, 1/2 cup butter or margarine, 1/2 cup sugar, 1 teaspoon grated orange rind, 1 egg, 3 tablespoons milk, 1/4 cup seedless raisins, 1-2 cup coarsely chopped pecan or walnut meats.
Method: Mix and sift the flour, baking soda, and salt. Cream the butter or margarine, add the sugar gradually and cream thoroughly as you do so. Mix in the grated orange rind. Beat egg well with rotary beater and beat into creamed mixture; if electric mixer is used, egg need not be beaten before adding. Add flour and mix well. Add raisins and nut meats and stir to distribute. Divide dough into convenient pieces to handle; chill rest meanwhile in refrigerator. Roll out thin on lightly floured board or pastry cloth. Cut into desired shapes with cookie cutter. Place on greased cookie sheet. Bake in a hot (325 F.) oven for about 7 to 9 minutes or until done.

Chocolate Thinsies Take Slump From Meals

Saturdays after bring a slump to menus. Give them a delightful touch with such treats as chocolate thinsies. Recipe and menu suggestion follows:
Toasted English Muffins with Marmalade
Chocolate Thinsies* Beverage
(Recipe for Starred Dish Follows)
CHOCOLATE THINSIES
Ingredients: 1 square (1 ounce) unsweetened chocolate, 1/4 cup butter or margarine, 1/2 cup sugar, 1 egg, 1/4 cup sifted all-purpose flour, 1/2 teaspoon salt, 1/4 cup finely chopped walnut, pecan or Brazil nut meats.
Method: Put the chocolate and butter or margarine in a heavy medium-sized saucepan; melt over extremely low heat. Remove from heat, add sugar and stir well. Add the egg and beat thoroughly with a wooden spoon. Add the flour and salt and mix well. Turn into two buttered 8-inch square pans and spread evenly and very thinly with a spatula. Sprinkle with nut meats. Bake in a moderately hot (400 F.) oven for 12 to 15 minutes. While warm mark into 2-inch squares. Cool and break into crisp squares.

Meringue-Topped Peaches Will Please

Tomato and Clam Juice
Casserole of Pork Chops
Baked Potatoes
Fresh Green Lima Beans with Canned Corn
Hot Biscuits
Meringue-top Peaches* Beverage
(Recipe for Starred Dish Follows)
Meringue-Top Peaches
Ingredients: 6 canned cling peach halves, 1 nine-ounce can crushed pineapple (drained), 1-3 cup sugar, 1 egg white, 1 or 2 drops almond flavoring.
Method: Drain peaches from syrup thoroughly and arrange on flat baking dish. Heap each peach half with drained pineapple and sprinkle each with a teaspoon of sugar. Beat egg white with rotary beater or electric mixer until stiff enough to hold a peak that curls over slightly when beater is slowly withdrawn; add remaining sugar gradually, sprinkling it over entire surface of meringue, and beating as you do so. Beat in almond flavoring. Spread meringue over top of peaches. Bake in a slow (325 F.) oven until lightly browned. Cool before serving. Makes 6 servings.

Bluefield Coal Contract Talks End In Deadlock

BLUEFIELD, W. Va., Nov. 3. (AP)—"This ends the Bluefield Conference—period."

That was the way one operator explained it when contract talks between John L. Lewis's United Mine Workers and the Southern Coal Producers Assn. collapsed yesterday.

The discouraged operators walked out of the conference, which had been dragging along intermittently for more than five months with no signs that the two sides could break the deadlock.

The SCPA, representing about one-sixth of the nation's bituminous production, was the last management group to continue formal negotiations with the UMW.

Northern and western operators representing the bulk of the industry quit contract talks last month. President Joseph E. Moody of the SCPA said further negotiations at this time to end the 45-day-old strike of 278,000 miners would be "fruitless and useless."

U.M.W. Secretary-Treasurer Joseph E. Moody, who had been the union's chief negotiator here, failed to show up for the final session. Other UMW negotiators had no comment on the breakup.

Moody said the operators are willing to reopen negotiations when "the union is willing to discuss seriously a fair and reasonable wage contract."

Lewis has given notice that the terms he is demanding would raise the price of mining a ton of coal by from 30 to 35 cents.

The operators have said that they cannot accept a contract that would raise their costs in a falling market.

Missing Girl Found Unharmed

LANHAM, Md., Nov. 3. (AP)—It was dark and cold down under the railway fill where 7-year-old Claire Marie Hanratty sat under a bush calling to her "mommy."

Three of the some 1,000 men who joined in a search after the blood lot failed to return from school yesterday, scrambled down the 50-foot embankment and found her there at 1 o'clock this morning. "I got lost," she told her rescuers, "but I wasn't worried."

Members of 16 fire companies, more than 100 soldiers, 25 Prince Georges County policemen and hundreds of neighbors joined in the 10-hour search.

The child was found about two miles from her home at Sealbrook, Md., just outside Washington, D. C.

The Hanratty family moved to Sealbrook from Washington Sunday. Claire Marie was entered in the Lanham school yesterday. Her mother gave her a note to her teacher, explaining where the school bus driver was to let her off on her way home.

But, Claire Marie got on the wrong bus. After getting off at West Lanham, she wandered about all afternoon and through the night. Then she got tired and sat down under a bush.

She was not harmed by her experiences. She laughed and talked with her rescuers. She was "awfully hungry," she said.

Church Building Bids Will Be Opened Here Today

Bids for the construction of a new Church of Christ building at 14th and Main streets are to be opened at 5 p. m. today at the church office, Puckett & French, architects and engineers for the project, have announced.

Four contracts are to be let for the construction of the new auditorium. They will be for general construction, electrical, plumbing, and heating and cooling. A number of bids are expected for each phase of the work, Olen Puckett, architect, said.

Contracts Violated By 68 Braceros

SAN ANTONIO, Nov. 3. (AP)—The U. S. is shipping 68 bracero laborers back to Mexico for violating employment contracts.

A group of 58 workers were due here today from Memphis. They will be put with 10 being held here for return to Mexico via Laredo.

H. P. Brady of the Border Patrol said the braceros were contracted to work on farms under the agreement between the United States and Mexico. These men, he said, have abandoned their jobs.

Rare Blood Disease Is Fatal To Child

DALLAS, Nov. 3. (AP)—A two-year-old Louisiana boy, John Tip Collins, died last night of a rare blood disease.

Doctors said he suffered from reticulo-endotheliosis—a disease similar to leukemia, a disease in which the blood's white corpuscles get out of control and destroy the red corpuscles.

Mr. and Mrs. M. D. Collins of LaFayette, La., brought their son here for treatment.

Baptist Meet Slated

DALLAS, Nov. 3. (AP)—The annual state Baptist student convention opens here tomorrow.

SPAGHETTI

1/2 lb. spaghetti
1/2 lb. ground beef
1/2 lb. tomato sauce
1/2 lb. onion
1/2 lb. pepper
1/2 lb. salt
1/2 lb. oil

1/2 lb. spaghetti
1/2 lb. ground beef
1/2 lb. tomato sauce
1/2 lb. onion
1/2 lb. pepper
1/2 lb. salt
1/2 lb. oil

Please use pork in skillet over low heat until fat is melted. Add chopped onion to fat and brown. Mix in tomato paste, beans, salt and cook slowly for 15 minutes.

To make meat balls, mix all ingredients together thoroughly and shape into balls. Drop into sauce and simmer 1 hour and 15 minutes in uncovered pan. Serve sauce and meat balls over freshly cooked spaghetti. You'll be surprised at the good flavor the sauce give this recipe, a gift to us from one of our Italian friends. Enough sauce here for 6 stomach spaghetti lovers.

PAVED ROUTE WILL OPEN SOON

Mexican Central Highway To Join El Paso, Mexico City

EL PASO, Nov. 3. (AP)—In just a few months the Mexican Central Highway from El Paso to Mexico City will be open to tourists.

It's a new paved route that explores colorful sections of the land below the border. And it will be an important segment in the proposed hemisphere highway from Guatemala to Alaska.

Gov. Foglio Miramontes of Chihuahua, Mexico, says it will be completed by the end of 1949.

Already a few tourists have traveled the unfinished highway. Detours are necessary from Parral, in the state of Chihuahua, to Durango, capital of the state of Durango.

Otherwise, the entire road from Juarez to Mexico City is completed.

The major concern of tourists thus far is the lack of suitable tourist accommodations, but these are expected to improve once the highway is completed. Many of the old hotels and restaurants along the route have begun remodeling and enlargement programs.

From the Mexican-border city of Juarez, the road winds through five Mexican state capitals, to health resorts, fishing and hunting paradises, and quaint Mexican villages.

Chihuahua is the first big city after Juarez. Beyond Chihuahua are Boguilla Lake, where good fishing is reported and the hot sulphur springs of Camargo.

Parral, a copper and silver mining town, has a large American settlement.

At present the highway from Parral to Durango is unimproved but convenient detours to Torreon, a thriving commercial and agriculture center, lead tourists around this section and allow them to continue to Durango, a major entrance to the rugged Sierra Madre mountains. Durango is also the principal point on an unfinished road leading to Mazatlan, celebrated resort city located on the West Coast of Mexico, which is only an hour's flight away by Lamsa Airlines, the Mexican affiliate of United Airlines. The area around Durango offers hunting for deer, deer, mountain lions, ducks and geese.

From Durango, the highway leads through the mining and cattle center of Fresnillo to Zacatecas, capital of the state of Zacatecas. High in the Continental Divide, Zacatecas presents an unusual architectural picture with its native houses, steep streets and tiny street cars.

Leaving Zacatecas, the tourist can take side trips to such spots as San Luis Potosi, famous for its ancient churches, climate and hunting; Guadalupe, one of Mexico's largest cities and capital of the state of Jalisco; and beautiful Lake Chapala, Agualecalientes, another stop on the highway, is one of the few silk worm culture centers on the North American continent. Near it are catacombs, excavated by some Indian tribe of unknown origin.

Leon, second largest city in the state of Guanajuato, is distinctive because of its narrow, cobblestoned streets. After Leon, the road winds through Celaya, home of the famed Mexican architect, Francisco Eduardo de Tresguerras, to whom the city owes its architectural beauty.

Beyond Celaya, the road reaches few large cities but goes through rich cattle-raising country whose unfenced ranches are patrolled by Vaqueros, the Mexican equivalent of American cowboys.

The final stretch of the highway leading into Mexico City is perhaps the most beautiful and interesting portion of the entire route. Attec Indian ruins and pyramids, along with the ancient monasteries of the Spaniards, can be seen nestled in the mountains surrounding the Mexican capitol on all sides.

When the new highway is completed it will join the Pan American highway at Mexico City to make a complete loop through Mexico. Starting from either El Paso, Laredo, or Brownsville, tourists will be able to touch all major points of interest in the Mexican interior, using Mexico City as the southern base.

Army Food Service Methods Will Be Demonstrated Here

An exhibit of Army and Air Force food service methods to be given here Nov. 13-15 will demonstrate progress made in military food preparation in the last few years, according to Capt. Harold Sandford, commander of the Big Spring Recruiting Main station.

Modern food service practices and opportunities for advancement have placed GI food handlers in an enviable position among soldier-specialists, Capt. Sandford said.

In the "old Army," a cook was too often the man who failed to make good as a rifleman or horseman and was "banished" to the kitchen, the recruiting officer declared. Now, seven Army service schools instruct mess personnel in each phase of food preparation. Student cooks start out as apprentices, working several weeks in a kitchen to decide whether or not he is really interested in food service as a career. If so, he applies for enrollment in a cook's course at one of the Army schools. He may specialize in baking, pastry-baking, meat cutting, or quality for a supervisory job, Capt. Sandford said.

Periodic Army-wide examination enable him to compete with other cooks for promotion, both in rank and position. Jobs available through the examination-type promotion system range as high with mess officer with rating of lieutenant colonel.

The new food service methods and specialists courses will be demonstrated from a 10-ton van which is to be parked at 3rd and Main streets for three days, starting Nov. 13, Capt. Sandford announced.

Plentiful Supply Of Anti-Freeze Is Reported Here

The supply of permanent-type anti-freeze here will probably be large enough to go around this winter, a survey of local service stations and garages indicated Wednesday.

Most dealers reported stocks of permanent anti-freeze, as well as quantities of alcohol base compounds. Though "Prestone," popular DuPont ethylene glycol solution, is still scarce, a number of other ethylene glycol anti-freezes are available.

Such compounds are manufactured by the Chrysler corporation, General Motors, Ford, and most major oil companies. All contain rust and corrosion inhibitors and are completely reliable, service station and garagemen say.

Pure ethylene glycol, widely used in government vehicles during the war, is available at some local stores. Inhibitors may be obtained and added to radiator solutions to prevent rust and corrosion.

Salt solutions which were destructive to both radiators and engines were distributed here shortly after the war, but none have made their appearances here this season, dealers stated.

Some were of the opinion that such "anti-freezes" were being held off the market because of new state inspection requirements. All warned that salt base solutions should be kept out of auto cooling systems.

Land in the far north thaws only on the surface in the summer, and remains frozen to considerable depth below the thawed portion.
