Miss Wilkinson, E. D. Thigpen Exchange Vows

Marriage vows for Miss Mary Helen Wilkinson and E. D. Thigpen of Odessa were read on Feb. 26 at the home of the bride's parents, Mr. and Mrs. E. L. Wilkinson in San Angelo. Thomas E. Scott, minister of the Church of Christ, performed the double-ring ceremony in rooms decorated with white carnations.

The bride wore a powder blue suit with navy accessories and an orchid corsage. Mrs. R. E. Leigh attended her sister as matron of honor and Hayden Lewis, brother-in-law of the bridegroom, was best man.

A reception in the Wilkinson home followed the ceremony and included in the houseparty were Mrs. L. E. Wilkinson and Mrs. Joe Wilkinson, sisters-in-law of the bride, and Mrs. Hayden Lewis, sister of the bridegroom. The couple left afterwards on a short wedding trip.

The bridegroom, son of Mr. and Mrs. A. P. Thigpen of Eldorado, is employed by the Blocker-Alfred Oil Co. in Odessa, where the couple will make their home.

Among out-of-town guests at the wedding were the bridegroom's parents, and his brother, Albert Ray Thigpen of Eldorado.

day afternoon at the Methodist Church. Mrs. L. Wheeler was leader, assisted by Mmes. S. D. Harper, Roy Shilling and Luke Thompson. Mmes. O. E. Conner, A. L. Jones and A. T. Wright were hostesses and served cake and coffee to 14 members.

Mr. and Mrs. T. J. Bailey and son and friend of Ozona, Mr. and Mrs. Marshall Bailey and son of Lubbock, Mr. and Mrs. Frank Valis and Mr. and Mrs. D. E. DeLong visited Sunday afternoon with Mr. and Mrs. A. J. Roach. A dinner guest was Father Ronnie Einhaus of Sonora.

JOHNNY STIGLER HONORED ON THIRD BIRTHDAY

Mrs. John Stigler entertained Saturday afternoon with a party honoring her son, Johnny, who was three years old. The group played outdoor games, after which pictures were taken of the honoree and guests with the birthday cake and gifts in the playroom.

A color scheme of pink and blue was carried out in refreshments and favors. Those present were Lannie Spurgers, Terry Ray Holliday, Celia Ann Minyard, Gwen Neill, Pam Carr, Paula Jo Mace, Mary Ann Page, the honoree and his brother, Jerry.

Church Groups Have World Day of Prayer

Mrs. Bert Page was leader for the World Day of Prayer program, "The Lord Is My Keeper", when women of the Presbyterian and Methodist churches met at the Methodist church last Friday for an all day meeting. Also present were the pastors of the two churches.

Mrs. Joe B. Edens gave the history of the World Day of Prayer. Mrs. S. D. Harper presented the different projects to which this year's offering will go, in the form of a radio broadcast. A negro spiritual was presented by Mrs. Dorothy Hastings and Mrs. Leola Spears, colored guests at the meeting.

Several members of the Magnolia Seismic crew, who are working temporarily at Midland, visited here last week. Walter Bohot visited his family, and John Ochsenr visited his parents. Floyd McGinnes met his wife here and took her to Crosbyton, where she will visit her parents while he is working in Midland.

Mrs. N. J. Yearout and Mr. and Mrs. Eugene Yearout of Hobbs, N. M. spent the week end with their daughter and sister, Mrs. Andrew Nixon and family.

FIRST BAPTIST CHURCH NEWS

The book "Cooperating with Southern Baptists" was concluded when WMU circles met Monday afternoon for their regular meetings. Circle 2 met with Mrs. Perry Mittel with Mrs. Fred Watson giving the review. Cake and coffee were served to seven members.

Mrs. Carroll Ratliff gave the study when Circle 3 met in the home of Mrs. Ben Biggs. Refreshments were served to nine members and one child.

Circle 5 met in the home of Mrs. Roy Martin with Mrs. W. R. Davidson giving the review. A salad plate was served to twelve members and one visitor.

The Rev. J. M. Hays is holding a revival this week at Norton, and will return home Monday.

ST. LUKE'S BAPTIST CHURCH

Rev. C. H. Adkins, pastor, delivered the sermon at the 11:00 service Sunday morning at the St. Luke's Baptist Church; and Mrs. Dorothy Hastings, president of the missionary society, was in charge of the afternoon service, with Mrs. Lela Spears bringing the lesson. Deacon Morgan was in charge of the evening service and Rev. Adkins delivered the sermon.

Next Sunday is all-men's day at

the church, but details of the program have not been arranged. There will be all-day services, with communion at night. Other activities during the coming week are the YWA Tuesday night, prayer meeting Wednesday night, starlight band Thursday afternoon, teachers' meeting Friday night, and entertainment Saturday night.

Make that water walk downhill

IT doesn't take a "gully-washer" or a "goose drownder" to rob you of your precious topsoil. Bare land, up-and-down-hill row crops, and over-grazed range all invite rain to escape without working for you—and to erode your topsoil away. But sod or cover crops act like a blotter to absorb and hold the growth-giving water. Slopes and hillsides tilled on the contour, with alternating strips of crop-land and grass, save maximum amounts of water, hold erosion to a minimum. Flatter fields may be subsurface-tilled to keep the protective rain-absorbing trash on top. Correct rotations of crops, which include plow-under crops, will help absorb and hold moisture.

You need lots of water. It takes about 200 barrels of water to grow one bushel of corn. That's around 625,000 gallons for every 100 bushels. And most other growing plants also require large amounts of moisture... You can't control the amount of rainfall you get. But you can conserve it, so that every drop does the best possible job of making grass or crops for you.

As farmers and ranchers in every state well know, water has a "split personality." It can

be your ally, or a devastating foe. Lashing rains can erode away inches of fertile topsoil in a short time. But it takes nature 300 to 1,000 years to rebuild each lost inch. That's why the control of water is so important in a good land management program. Considerable progress in erosion control has been made in the past ten years. But we've still got a long way to go! Hundreds of millions of productive acres are endangered by erosion and gullying. They're washing away! Only good land management can save our soil and keep America strong. It will pay you—and all of us—to make that water walk downhill.

Growth

As every boy and girl should know, Big oaks from little acorns grow. And that's the way with business, too. Your growth depends on the job you do.

Gustavus Swift, away back when, Slaughtered a heifer, and he then Peddled the meat, also the hide. Got back the cost... a small profit beside!

From that small start in this big land Swift kept pace with the job at hand. As the job grew bigger, Swift grew, too. Yes, growth depends on the job you do!

New Grass Varieties

by Wilkie Collins, Jr.
Soil Conservation Service
Lincoln, Nebraska

Wilkie Collins, Jr.

Good pasture is the key to production of more meat, milk and wool, at lower cost. In addition, a good cover of grass protects your soil against wind and water erosion. When you have improved pasture, or range, good livestock and a sound conservation program, you have a profitable combination.

Many new grasses have been developed in recent years. Several of these promise to become real money-makers for livestock men. They out-yield old grasses, give a longer grazing season, and provide better soil protection.

1. **Smooth Brome**—The Lincoln, Auchenchach and Fisher strains give higher yields, are easier established and withstand summer heat and drought better in the central, eastern and southern brome areas.
2. **Intermediate Wheatgrass**—A high-yielding, sod-forming cool-season grass that is easier to establish than most varieties. It is highly palatable and does exceptionally well in the central and northern plains and western mountain area.
3. **Sand Lovegrass**—Highly palatable, especially well adapted to sandy soils.
4. **Tall Wheatgrass**—A high-yielding cool-season bunchgrass that does better than other grasses under alkaline conditions.
5. **Ky-31 Fescue**—High-yielding, supplies longer grazing, especially good for southern and south-eastern states.
6. **Russian Wild Rye, Blackwell Strain of Switchgrass, Hays Buffalo Grass, Yellow Bluestem and Sweet Sudan** are other new or improved grasses for adapted areas.

Grasses usually give higher yields and better quality forage when grown in association with an adapted legume.

Martha Logan's Recipe for

BEEF PLATE WITH HORSERADISH SAUCE

(Yield: 3 to 4 Servings)
1½ pounds beef plate floured ½ cup sliced onions
2 tablespoons shortening ½ cup chopped celery
1 teaspoon salt 1½ cups water
or celery leaves

Cut meat into serving pieces and dip in flour. Melt shortening in heavy kettle. Brown meat well on both sides. Add salt, onions, celery, and water. Cover and cook 3 hours. Serve with Horseradish Sauce.

HORSERADISH SAUCE—Melt 2 tbsp. butter or margarine in a saucepan, blend in 2 tbsp. flour, mixing well. Slowly add 1 cup milk, stirring until well mixed, and thick and smooth. Add 1 tsp. salt, 3 tbsp. lemon juice, 1 tsp. sugar, ¾ cup horseradish. Cook over low heat until thoroughly heated.

A System that Works!

I get riled up when I hear talk of changing our system of government, or our system of doing business, here in America. Sure, there's always room for improvement. But you can improve a house without wrecking the building!

Any system that produces worthwhile results must be a pretty good one. I think our way of doing things has worked out mighty well for Americans.

Here we are—about 6% of the world's population, living on less than 6% of the world's land. Yet, through what I like to call our "three I's"—Initiative, Ingenuity and Industry—we have created the American way of life. We enjoy greater freedoms than the other 94% of the world's people. We have educational opportunities for all... schools, colleges, universities, libraries. And 48% of the world's radios. As just one measure of personal comfort and convenience, we have 92% of the world's bathtubs. We have a motor vehicle for every four people. And more than 286,000 miles of paved roads for them to run on.

Most important of all, thanks to your system of agricultural production, we have plenty of food for all of us—and enough to help feed our less fortunate neighbors. Yes, I think it's worth getting riled up in favor of the American System now and again.

MR. McCORMICK, MISS MITCHELL WED IN MARFA

In an impressive double-ring ceremony held in the First Baptist Church in Marfa last Saturday evening at 7:30, Miss Katherine Mitchell, daughter of Mr. and Mrs. Crawford Mitchell of Marfa, became the bride of Len Gardner McCormick, son of Mr. and Mrs. Van McCormick of Eldorado.

Vows were repeated before the altar, which was beautifully decorated with white stock and white tapers before a background of fern. White candles burned in each window. Rev. C. M. Spaulding, pastor, officiated.

The bride was given in marriage by her father. She wore a wedding dress of ice blue satin, fashioned with a fitted bodice and flared skirt which extended into a train in the back. The yoke was decorated with matching blue beading and the sleeves tapered to points over her hands. Her veil was of blue illusion caught to a halo of lilies of the valley. Her ornament was a diamond brooch belonging to her mother, and she carried a bouquet of white orchids and blue hyacinths.

Her attendants were dressed in blue taffeta gowns and matching taffeta caps, and carried colonial bouquets of red roses. Mrs. William Newton of Waco attended her sister as matron of honor. Bridesmaids were Miss Rowena Mitchell of Rocksprings, Miss Mary Barton of Marfa and Mrs. Eugene Robertson of Burkburnett; junior bridesmaids were Miss Pam Newton of Waco and Miss Connie Mitchell of Rocksprings.

Robert Henderson of Quanah was best man. William Newton of Waco, R. L. Cooper of Dallas, and Douglas Fleming of Houston were groomsmen, and ushers were Harry Patterson of Hillsboro, Joe Reynolds of Austin, Paul McCollum of Odessa and T. P. Robinson of Eldorado.

A reception was held immediately after the ceremony at the Paisano Hotel in Marfa. The bride and groom, Mr. and Mrs. Crawford Mitchell and Mr. and Mrs. Van McCormick were in the receiving line. Punch and a three-tiered cake, iced in blue and white, were served from the bride's table, which was decorated entirely in white, including white tapers, white hyacinths and white satin streamers. Baskets of white stock and tulips were placed about the reception room.

Coffee and cake were served from the bridegroom's table. Coffee was poured from a large gold-colored coffee pot, and the cake was in the shape of a double ring, iced in chocolate.

When the couple left on their wedding trip, Mrs. McCormick was wearing a gray and blue suit, with white blouse and other accessories of navy. She wore a white orchid corsage.

The couple will return to Waco this week end, where they will be at home in the Brookview Hills Apartments. Mr. McCormick is a senior at the Baylor Law School and is an instructor in the school of business at the college. Mrs. McCormick is an instructor in the physical education department at Baylor.

The bride received her BA and MA degrees in physical education from Baylor. She was head of the physical education department in Little Rock, Arkansas for four years before returning to Baylor as an instructor. She has been a member of Delta Psi Kappa and Alpha Chi.

The groom is a graduate of the Eldorado High School, received his BBA from Baylor and is a senior in the Law School there. He has been a member of the Baylor basketball and football teams, and has played professional football for two seasons with the Washington Redskins and the Baltimore Colts. During World War II he was a first lieutenant in the U. S. Marine Corps for three and one-half years.

Among those attending the wedding from out of town were Mr. and Mrs. Ben Hext, Mrs. Lillian Crosby, Mrs. J. E. Tisdale, and Mr. and Mrs. Van McCormick, all of Eldorado; and T. P. Robinson Jr. of Eldorado, now a law student at Baylor.

Among pre-nuptial parties held this week for the couple, members of the wedding party, and other friends, were a chuck wagon supper at a Marfa hotel Thursday night; a coffee at the home of one of the bride's friends in Marfa Friday; the rehearsal dinner Friday night; and a luncheon at a Mexican cafe Saturday. Mr. and Mrs. Van McCormick were among the guests at each gathering.

A Sound to Remember

When dialing, be sure you hear a humming sound before making your call. This "hum-m-m" is your signal that the equipment is ready to take your call. If you dial before hearing this signal, you are apt to get a wrong number or no number at all. You'll get better use from your dial telephone if you remember to listen for the dial tone.

The San Angelo TELEPHONE COMPANY

Yes, a penny's BIG money!

When you spend it for electric service, of course! That important little penny will do any one of these things for you...

 1¢ ... vacuum clean 6 large rugs	 1¢ ... toast 3 full loaves of bread
 1¢ ... beat and mix 6 layer cakes	 1¢ ... wash (and dry) 6 loads of dishes
 1¢ ... bring you an evening of radio	 1¢ ... light a 100-watt lamp more than 3 hours

It's amazing what your electric penny buys in comfort and efficiency and real living values. It takes a lot of skill and experience—yes, and sound business management—to keep electric service the biggest bargain in your budget today. (And this, remember, in spite of the rising costs of making electric service available to you!) Truly, electric service does a lot for a little!
