## Guest Speaker Here At Lions Club

L. W. Keilers, manager of the Texas Employment Commission Service at San Angelo, was guest speaker at the regular meeting of the Lions Club Wednesday. Mr. Keilers explained the benefits and function of the employment commission which works two ways: in helping find employment, and in granting compensation for the unemployed.

Following the meeting, Keilers also talked to the senior class at the high school.

In the business session, an order was placed for 60 folding chairs to be used in the dining room of the memorial building. These chairs are expected to arrive next week. Each Lion is contributing \$5 toward the purchase of the chairs, and have agreed to be responsible for 60.

Since at least 100 chairs are needed, and since the room will be used by all organizations, committee members are asking that any other individual who would like to contribute \$5, or a smaller amount, may contact C. C. McLaughlin, secretary, H. T. Finley, equipment chairman, or C. A. Reynolds, president. Lions members who have not already paid their \$5 are urged to do so.

This plan will give everyone an opportunity to see that enough chairs are on hand for any occasion. Ten tables have already been placed in the hall, and the kitchen is practically equipped for use.

## LIONS TO SPONSOR EASTER EGG HUNTS

All children ten year old or younger, are invited to attend the Easter Egg hunts Sunday afternoon at 2:30, sponsored by the Lions Club. The three hunts, beginning at the same time, will be held on the court house lawn, in the Latin-American Community and in the colored community.

Committee members are asking all Lions who can do so to please meet at the court house at 2:00 p. m. to hide the eggs and complete plans.

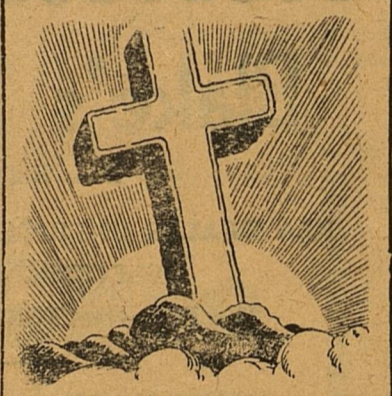

Mr. and Mrs. Sam Oglesby and Bill attended the Ice Capades in Ft. Worth over the week end. Bobby Oglesby, student at A&M, met them in Stephenville and went on to Ft. Worth with them.

## NEW AUTO EXCHANGE BUSINESS ORGANIZED

In a deal made last week, Gus Love has purchased James McDonald's interest in McDonald's Gulf Station situated near the Eldorado schools. The new business, which will be owned by Nolen McDonald and Gus Love, is being reorganized as the L&M Sales and Service and will engage in the business of buying and selling used cars as well as carrying on the regular service station.

Nolen McDonald has had about 20 years experience in Brady in the automobile sales business, and in opening this business here he believes he is providing a service which Eldorado has needed.

## Sonny Stanford Wins Medal for Wool

Sonny Stanford was awarded a sterling silver tie clasp with 4-H emblem recently for being the most outstanding 4-H boy in wool production for 1948, in Schleicher County.

Sonny started 4-H club work in 1938 with fat fine wool lambs, showing 4th and 7th at the local show, 6th in San Angelo, 12th and 20th in Fort Worth.

In 1939 Sonny had the champion lamb at the Schleicher County show. He also had 2nd place in a pen of three lambs. Sonny won 1st in the mens division, 2nd in the pen of three, and several places in the 4-H club division. In San Antonio he placed 5th in the singles and 3rd in the group of three. Total profits for the year was \$252.70. The entire 4-H club won \$742.00 at four major shows. The years of 1940-41 were years comparable to 1938-39.

In 1942 Sonny fed a calf winning the local show and placing 5th in the San Angelo show. It was in 1943 that Sonny turned to breeding sheep, sweeping the San Angelo show in 1943-44-45, as well as the local show in successive years.

Again in addition to breeding sheep Sonny turned to fat lambs in 1946. He repeated in winning the local show with his registered Corriedales as well as showing the champion ram and ewe in San Angelo. His lambs sold well and the premium money totaled high. This year profits hit the \$400.00 mark.

In 1947-48 it was success story with his registered Corriedale sheep at the local show and at San Angelo. Sonny started working with wool and mohair. He was judged the 4th highest individual at Sonora open to all 4H and FFA boys of the State. He was high individual of the contest in Corriedale sheep judging.

Sonny is a freshman at Texas Tech at Lubbock. His success at Texas Tech will be as sensational as his 4H club days—because he is interested always in getting the most out of a project.

## LETTERS . . . From the People

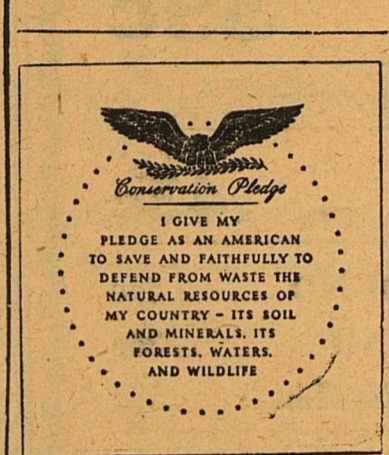

A parent contributes the following letter to this column of the Success:

Gossip should be stopped at any time and especially when it is causing confusion in our school. And the best way to do that is to never repeat what you heard someone say some one else said. Let us keep the prayer in our hearts that Edgar A. Guest wrote:

"Plea for strength: Lord, keep me working, keep me fit, At my window I don't want to sit watching my neighbors hurrying by. Let me stay busy till I die. Grant me the strength and breath and will some useful niche in life to fill; A need to serve, a task to do. Let me each morning rise anew, Eager and glad that I can bear My portion of the morning's care. Lord, I don't want to sit about Broken and tired and all worn out, Afraid of wind and rain and cold, Let me stay busy when I'm old. Although I walk at slower pace, Still let me meet life face to face! Let me a garden plant and sow, Set phlox and peony, row on row, Hew wood for winter's cosy fire, And at some useful labor tire. This is my prayer: As time goes by, Lord, keep me busy till I die."

—Contributed by an Eldorado Parent.

## FUNERAL BEING HELD FOR LOCAL PHYSICIAN TODAY

America's Conservation Pledge, a 30-word creed defining the term "conservation" and calling the attention of all to the necessity for preserving our remaining natural resources, is now in its third year of service to the nation. The Pledge had its origin in a national competition, with \$5,000 in prizes, sponsored by Outdoor Life magazine in 1946.

The Pledge has been adopted by the American Museum of Natural History. It appears in the official literature and mailings of many of the state fish and game and conservation departments. It is also used in the advertising and on the stationery of many business houses.

The office force of the Eldorado Divide Soil Conservation District are working on a display of native grasses, to be used in their regular work in the district, and on field days.

## Rehearsals Continue On Grade Operetta

Classroom rehearsals are under way for the grade school operetta, which will be presented in the school auditorium on the night of April 28. Miss Lucille Farmer, music teacher, is in general charge of the production.

Miss Pauline Jones, girls' physical education teacher, is teaching the dances for the operetta, and Wyndell Hall, grade school principal, is assisting the groups and has supervised the recording of the piano accompaniment which is being used for rehearsals.

The operetta, "Snow White", follows the traditional fairy tale. Besides the familiar story characters, there will also be fairies, animals, sunbeams, and other costumed characters in the production. Parents are working on the costumes and expect to have them finished by April 22.

Solos and choruses by the group will be given with piano accompaniment. It is planned to build a set of stairs which will be used as an extension at the front of the stage to provide enough room for the operetta's finale, which calls for the presence of the entire cast on the stage at once.

Mr. and Mrs. L. A. Goss had as their guests over the week end her mother, Mrs. Emma Stolle and her brother and his wife, Mr. and Mrs. T. A. Stolle and daughters, Shirley Ann and Sandra Sue of San Antonio.

Bob Oglesby, student at A&M and a friend, Grace Clayton of Comanche, student at John Tarleton, will spend the Easter holidays with his parents, the Sam Oglesbys.

Sunday visitors in the home of Mr. and Mrs. John R. Jones included her brother and wife, Mr. and Mrs. C. E. Miller and two children of San Angelo.

Mr. and Mrs. H. T. Finley will have as guests for Easter their son George, his room-mate "Red" Wilson, and Bill Milliken, all students at SMU. The boys are expected to arrive tonight. Wilson played pro football last year at Green Bay, Wis.

Mrs. Ray Doyle and Mrs. Kenneth Doyle have taken over operation of the hamburger stand opened last fall by Nolen and James McDonald at McDonald's Gulf station.

In the recent school board election Henry Speck received 87 votes and Jim O'Harrow 86 votes.

Dr. H. W. Wiedenmann, 55, Schleicher County doctor for 22 years, died suddenly of a heart attack, at his office in Eldorado Tuesday afternoon, April 12, 1949.

Local firemen, called to the scene, attempted artificial respiration, and oxygen was administered, but he failed to revive, death coming shortly after the attack occurred, and before the arrival of Dr. Douglas Barry of San Angelo.

Funeral services are being held this afternoon at 3:00 at the Methodist Church, of which he was a member. Officiating pastors are Rev. Marvin Williams of Kermit, Rev. C. R. Richards of Santa Anna, and Rev. Roy Shilling of Eldorado.

Music, which has been arranged by Mrs. Luke Thompson, will be rendered by a choir composed of singers from the Methodist and other churches of the city, with Mary Lee Gunstead as organist.

Pall bearers are: Palmer West, Jess Kov, Payne Robinson, Arthur Mund, Luke Robinson, Dr. Douglas Barry, Clyde Keeney and R. C. Morgan.

Honorary pall bearers include San Angelo doctors, the American Legion of Eldorado, Johnnie Isaacs of Cody, Wyoming, C. C. Hamilton and Tony Papi of San Angelo, and others from Eldorado.

Interment will be made beside the body of his wife in the Eldorado cemetery.

H. W. Wiedenmann was born Aug. 19, 1893, at Hepler, Kansas. He attended the schools of that city, and later served in the Navy in World War 1, after which he attended college, graduating from the Kirksville College of Osteopathy at Kirksville, Mo.

On May 27, 1923, he was married to Clarice Huffman of Hepler, Mo., whose death occurred here Sept. 20, 1946.

The couple are survived by one son, Dwight, a second son having died in infancy. Also surviving are four sisters, Mrs. L. S. Reynolds and Mrs. P. G. Kelley, of Whittier, Calif., Mrs. T. S. Sawyer of Pawhuska, Okla., and Miss Pauline Wiedenmann of Kansas City, Mo. Two brothers, W. F. Wiedenmann of Kansas City and Dr. John Wiedenmann of Denver. One sister, Barbara, died in a drowning accident about 20 years ago.

Dr. Wiedenmann opened an office here 22 years ago, and has been practicing his profession here since that time. He has been troubled with failing health for a number of years.

He leaves a host of friends to mourn his passing.

## Merchants Ass'n To Hold Annual Meeting in Dallas

A program to attract nearly every type of merchant in Texas is being planned for the 49th annual meeting of the Retail Merchants Association of Texas, which is to be held in Dallas May 1 to 3. Mrs. Ernestine Hext, manager of the local Association, urged all Eldorado merchants to make plans now to attend.

Some of the topics on the convention program are: Office Records, Watching the Overhead, When To Use a Telegram, Legal Problems, Collection Letters, How to Distribute the Work where Two or More People Work, Selecting and Training Employees for Special Jobs, Personnel Problems, Financing Electrical Appliances, and many others. Nationally-known experts will be on hand to make the talks.

Mrs. Hext said that sectional meetings would be held throughout the three days, thus permitting specialty groups to gain the greatest good in the least time.

"We are urging not only all the merchants in this area to attend, but to bring along their employees as well, especially those in the collection and credit departments," Mrs. Hext said.

Charles, son of the Dick Jacksons, is ill in a San Angelo hospital with pneumonia. He is a student at SAC. Mrs. Jackson is in San Angelo with her son.

**Local Delegates To Be At Texas Presbytery**

W. M. Patterson and Joe Edens are official delegates from the local Presbyterian Church who will attend the Mid-Texas Presbytery at Cleburne beginning next Tuesday. Rev. and Mrs. F. E. King plan to be in Fort Worth Monday for a meeting, and will also attend the Presbytery in Cleburne on Tuesday. The group plans to return home Wednesday or Thursday.

Rev. King announces that the date for the summer revival at the Presbyterian Church has been set for June 5 through 12. The Kings' two sons, Rev. Will King and Rev. John King, will conduct the services as they did in a revival here last year.

The renovation of the church property is about complete, with new sidewalks and new curbs completed this week.

Mrs. Will Isaacs and Mrs. F. E. King are sponsors for a newly-organized Junior Choir, which is meeting each Wednesday evening at 7:00. This group will make up the choir at the Sunday night services on April 24. A good crowd of children has been coming to rehearsals.

Billy Whitley, son of the Jack Whitleys of Rocksprings, has enlisted for a year in the Army Air Corps. The family are former residents of this county. Whitley attended school at Sul Ross until mid-term, and since that time has worked in Midland until his enlistment. He is stationed at present in San Antonio.

Friends here will be glad to learn that J. W. Carroll of Junction, father of Tom and Vernon Carroll, is doing well at the Fredericksburg hospital where he is undergoing treatment for a broken hip.

W. W. Jackson made a business trip to Oklahoma this week, and was accompanied by J. T. Jackson and Marion Wade, who planned to fish while there.

Mrs. Walter R. Davidson is employed this week at a flower shop in San Angelo during the Easter rush. Judy is staying here with her grand parents, the Roy Davidsons.

From where I sit... by Joe Marsh

**There'll Always Be a "Gawker"**

"Harry the Hermit," as he's called, came into town last week and, as usual, caused quite a stir. He looks like a cross between Santa Claus and Daniel Boone.

We had a friendly glass of beer together and I asks him, "Don't you ever get annoyed at the way some people laugh and stare as you go by?" "Shucks no," Harry says. "Only while they're laughin' at me, I'm feelin' a mite sorry for them. Imagine—folks so ungrateful they can't see I'm really just the same as they are underneath."

From where I sit, Harry's a lot more "civilized" than the people who make fun of him. He's contented, lives the way he believes is right without harming anyone—and what's more, he's tolerant of others whose tastes in living are different from his.

Maybe we all don't look the same, or act the same, or eat or drink the same, but in a free country, why should we?

This is freedom—many religions, many races, living in harmony together. For freedom is more than a way of life. It is a state of spirit—and our richest asset.

Under freedom of religion, Americans attend more churches than any other nation. Under freedom of speech, we have more newspapers, more radio stations than any other country in the world. Under freedom of opportunity, our children attend more schools, have more chances to succeed in life.

We are only 7% of the world's people, living on 6% of the world's land. Yet, we

who live in America have the highest standard of living the world has ever known.

Under freedom of enterprise—you may call it Democracy, or Capitalism—we make just about one-third of the world's goods, mostly for our own use. We drive three-fourths of the world's autos, use about half the world's electricity. Our homes are unrivaled for comfort and labor-saving devices. We eat more meat, buy more clothes, see more shows, own more insurance. We even save more money.

Yes, freedom pays—in the coin of tolerance and understanding, and in the coin of progress and prosperity.

25 YEARS in SAN ANGELO

# Ounce of Prevention...

Cowboys of just a few years ago would have been puzzled by the above illustration. But livestock producers today see it as a picture of a routine job... vaccination of a calf to help keep him healthy.

Livestock producers and meat packers have a common goal: to supply America with all the wholesome, nutritious meat this nation of ours needs. And so at every step of the way—from range, farm and feed lot to the tables of consumers—precautions are taken to produce meat of the best possible quality... meat that will receive the familiar round purple stamp "U. S. Inspected & Passed." This purple circle, found on every important cut supplied by federally inspected packers, is the housewife's guarantee of good, wholesome meat.

Growing animals are subject to various ailments. Meat, milk, wool and other valuable by-products... enough to supply a good-sized nation... are lost on farms and ranches each year. Add to this the lost grain and grass fed to animals which never live to maturity, or fed to unthrifty livestock that gain slowly. Total dollar losses run into billions.

Much has been done toward reducing these losses. New drugs and chemicals, such as the sulfas, penicillin and phenothiazine, are conquering livestock ailments, pests and parasites. But some of these causes of reduced production and profit are stubborn. To lick them will take increased knowledge, cooperation among neighbors and a constant watch for danger signs. But the increased earnings which can result from these efforts make them more than worth while. Production of healthy livestock is the only way to keep the markets for the meat you produce supplied and expanding. In solving your problems your local, state and federal veterinarians are good men to turn to for help.

### Price Balances Supply and Demand

In the first six weeks of the year livestock and meat prices have dropped with great rapidity. In my 24 years with Swift & Company I have never seen so violent a drop. On the other hand, I have never seen prices start down from so high a level. It is the law of supply and demand at work.

When the wholesale prices of meat—the amount meat packers can get for it—go down, it means lower prices for livestock. It always has been and always will be that way. When demand for meat increases, we are able to pay producers more for their livestock. The prices Swift & Company, and the other 26,000 meat packers and commercial slaughterers, pay for livestock are governed by what they can get for the total available supply of meat and the by-products. As in the past, so in the future, livestock prices will result entirely from the balance between supply and demand.

**Let's Be For Things** Seems to me that most of us spend too much time and blood-pressure being *against* things. Let's be *for* things. Let's be for freedom of choice and initiative. Let's be for a system which allows a man to choose freely his own work, to make his own opportunities, to plan his own production. Which lets him decide where and how he lives; how he spends or invests his earnings. Let's be for our country, where a man's the boss of his own time, his own thoughts and his own political and religious beliefs. Let's take a good look at the rest of the world, then reverently thank God, and be for the United States.

Hope you have a prosperous summer, and we'll be looking forward to being with you again. Meanwhile, if you're in Chicago, plan to visit us at Swift & Company. All of us in the Agricultural Research Department cordially invite you to drop in for a chat. We'll be looking for you!

F.M. Simpson.

### Quotes of the Month

The livestock producer, both by nature and by necessity, is a true conservationist. He would no more deliberately ruin the property on which he depends for his livelihood, and which he hopes to pass on to his children, than the manufacturer would deliberately tear down the plant in which he operates.

A. A. SMITH, President  
American National Livestock Assoc.

Livestock provides one-third of all the food energy in the American diet, and 80 per cent of all the land used to produce the nation's food supply is devoted to livestock production. That is the story of a big business, vital to all Americans.

CHARLES A. BURMEISTER,  
Production & Marketing Administration—USDA

### Saving More Lambs

By Alexander Johnston, Wool Specialist  
University of Wyoming, Laramie

Because every lamb grown to market maturity will now bring from \$15 to \$20, lamb mortality has become a source of increasing loss. Lambing practices reflect this. Open range lambing is decreasing. Pasture lambing is increasing in favor. Bands of from 500 to 1500 ewes are run in fenced separate meadow pasture. If spring storms are prevalent, shelter sheds are provided. The ewes lamb by themselves with little assistance.

Shed lambing is popular, especially when July or August fat lambs are desired. The lambing band is kept in a feed corral or small pasture adjacent to a lambing shed. When a ewe lambs, she and her "green" lamb are taken into the shed to an individual pen or "jug." After a day in the "jug," they are put in a larger pen with others. Gradually, over a period of 3 to 10 days, larger and larger units are merged. From the shed these bunches go out to green pastures or into feed yards until the pasture grows. Under this system of almost complete control, a very high percentage of lambs is saved.

The paddock system of lambing also is receiving favorable attention. Ewes, after they lamb, are transported from the range to the lambing shed by trailer. After a day or two in the shed, a small bunch is made up and turned into a small pasture with a shelter shed. In a day or two, several small bunches are merged and go into a larger pasture. This is repeated until at the end of two weeks or so, the summer bands are assembled.
