## Ripe Grain Damaged As More Rains Hit County

Ripe oats which was ready for combining has been falling over and shelling out as a result of general heavy rains which hit this county Monday of this week, and again Wednesday (last) night.

The rains on Sunday night and Monday totaled up to 3½ inches in some parts of the county. Last night's rain, which was accompanied by heavy winds and lightning, turned out to be less than half an inch in Eldorado. The Eldorado Wool Company gauge registered .2 inch for the city. Archie Mittel reported .37. Ranches reporting only light showers were Victor Sauer, Forrest Runge and Pat Martin.

### Monday Rains

John Williams and Joe Edens report a heavy hail along with rain at their places east of Eldorado. Damage to their crops was estimated at 35 percent.

Dan Adams reported a 3½ inch rain at his place, and Jim Tom Roach had a 3 inch rain which did considerable damage from hail to his small grains. The Robert Milligan place had 1.8 inches with no hail, B. E. Moore reported 1½ inches, and Robert Nixon and Mrs. J. H. Boothe each had an inch.

M. W. Jones reported 1.07 Monday and Monday night, Nick Jurecek had .9; Mrs. Pat Martin about an inch; J. Forrest Runge, 1 inch or more; and Thad Thomson, 1.7. L. T. Williams had over 2 inches, W. H. Joiner 2½, W. G. McAlpine 2½, and the Ray Willoughby ranch 1 inch.

Those reporting smaller amounts of rain Monday and Monday night were Glen McDonald, .75; P. K. McIntosh, .30; C. M. Reynolds, .75 with no hail; Ello Wilde, ½ inch

## Dallas Announces July 4 Observance With Fireworks, Show

A rip-roaring, old-fashioned Fourth of July celebration, featuring a gigantic fireworks exhibition and super thrill show, has been scheduled for the nights of July 2, 3 and 4 at 8 p. m. in the Cotton Bow at Dallas.

Feature attractions will include the celebrated Zucchini sisters Victoria and Duina, in their world-renowned human cannonball act and Peeyay "Human Meteor" Ringeons who will speed a bicycle into a sensational leap for life through space. Both attractions will be making their first appearance in the Southwest.

The fireworks display will feature scenes typical of the Southwest, including beautiful floral groups, dazzling aerial displays, and cleverly staged comedy and novelty numbers.

Curtain time at the State Fair Starlight Operetta will be held until after the Cotton Bowl event, permitting out-of-town visitors to attend both shows on the same night.

## Headstream Infant Is Buried Here

The infant son of Mr. and Mrs. Ray Headstream of San Angelo, who died Tuesday night in a San Angelo hospital, was buried in the Eldorado cemetery Wednesday morning at 11:00. Rev. F. E. King conducted the graveside services.

The baby was born Monday night in a San Angelo hospital and weighed three pounds, nine ounces at birth. He had been named Thomas Ray II.

Survivors include the parents one sister, Marcia, age one, and two grandparents, Mrs. Daisy Ford of Eldorado and W. W. Headstream of Snyder.

### NEW SC EMPLOYEE

Glenn Green, Schleicher county college student, is a new employee for the summer at the Eldorado Divide Soil Conservation District office. Green is taking range management at A&M, and will graduate next year at mid-term.

## NEW BILL PUTS TEXAS NEAR TOP IN EDUCATION

AUSTIN, Texas. —Texas will soon be among the top ten states in education.

Enactment of the three Gilmer-Aiken bills into law provides the vehicle by which the state will climb from its low rank, it was declared here recently by Charles H. Tennyson, public relations director of the Texas State Teachers Association. The organization led the lengthy legislative battle for reorganization of the public school system.

"These measures pave the way for more classrooms and more and better teachers, as well as providing for more equitable distribution of the cost and revising the top-level administration," Tennyson declared.

"Our children will receive a better education. As a result, our state will benefit."

Tennyson pointed out that schools which fail to meet minimum requirements of teachers' and administrators' salaries will not only fail to receive state aid provided in the new laws other than the per capita apportionment, but will be dropped from the accredited list.

"The new laws pave the way for the addition of 1,500 teachers as soon as physical facilities can be made available."

"This will relieve much of the classroom congestion which has made for sub-standard education in many of our schools."

The new salary scale for teachers and administrators will do two things to provide Texas with a superior educational system, Tennyson also pointed out.

"Texas will be much more attractive to outstanding teachers from all parts of the country," he said. "Too, the additional pay teachers can get for holding masters degrees will send thousands of them to school to get the higher degree. The greatest enrollment in many years is expected by most Texas colleges and universities this summer in their graduate divisions."

The minimum salary for teachers holding bachelors degrees was increased from \$2,000 to \$2,400 annually. Under the new bills, they get \$54 a year additional for the first twelve years of teaching. That makes a maximum salary of \$3,051. The old ceiling was \$2,655.

Teachers holding masters degrees will have a minimum salary of \$2,628. The minimum was \$2,232. Their credit of \$54 a year additional for each year of teaching experience continues for twenty-six years instead of twelve. That makes a maximum salary of \$4,032.

In addition, the law was revised to allow school districts to supplement the salary scale set by law. Under old statutes, districts receiving rural, or equalization aid, were forbidden to add to the specified salaries. Furthermore, districts may employ more teachers than allotted under the law if they desire to do so.

Mr. and Mrs. Fred Watson and Mr. and Mrs. Tom Alexander fished from Saturday to Tuesday at Buchanan Lake, and had good luck. On Sunday the Watsons spent the day in Luling where they attended a reunion. Mr. and Mrs. Gordie Alexander of Austin visited the Tom Alexanders Sunday at the Lake.

Mr. and Mrs. E. W. Martin and three children of Ireland are visiting their son E. W. Jr. and his family.

Mr. and Mrs. Marvin McDonald received a telegram this week from Mr. and Mrs. C. Sirkel of Killeen, former Eldorado residents, that their daughter, Clara Jane Sirkel, had died. Funeral services for the 11-year-old child were held Tuesday in Killeen.

The Sirkel family lived here several years ago. Sirkel was an employee on the Marvin McDonald ranch.

## Polio Threat Brings Action By City Council; Sanitation Drive Launched

### Buildings Inspected By Schleicher County School Officials

After a trip to inspect new school plants in West Texas, school board members expect to employ a firm of architects to draw up plans for Schleicher County's new \$475,000 school improvement program.

A trip to Sonora, Ozona, Big Lake, McCamey, Crane, Odessa, and Midland was taken early this week by School Superintendent C. A. Reynolds, Board members Jerry Pennington, Henry Speck, Jim O'Hara and Gene Edmiston, and architects from Abilene, David Casnel, David Casnel, Jr., Dan Boone, and Mr. McCowan.

While most of these schools were completing larger building programs, (Crane, e. g., had spent about \$1,500,000 for their school plant to take care of 800 scholars) the visiting delegation got some ideas from all of these plants which might be suitable for the local school system.

Next Monday night the board will go into regular session. As the hiring of a firm of architects is necessary before plans can be drawn up, it is probable that action will be taken on this question.

With the passing of the Gilmer-Aiken school reorganization bill which will make drastic changes in the school set-up, especially in teachers' salaries, the board will have other important work to do before the new school year starts. To date there has been no action on employing of teachers, pending final action on the Gilmer-Aiken bill.

### CHILD OF FORMER RESIDENTS DIES

Mr. and Mrs. Marvin McDonald received a telegram this week from Mr. and Mrs. C. Sirkel of Killeen, former Eldorado residents, that their daughter, Clara Jane Sirkel, had died. Funeral services for the 11-year-old child were held Tuesday in Killeen.

The Sirkel family lived here several years ago. Sirkel was an employee on the Marvin McDonald ranch.

### Boy Scout Fund Drive Continues

The Boy Scouts need \$186.19 in order to meet their quota of \$840 for this year, states Don McCormick, chairman of the finance drive of the organization. The \$840 quota is necessary to sustain the seventy Scouts and Cubs in this county for the year.

McCormick has received \$474.81 in cash, \$65 in new pledges and \$124 in old pledges, he states, making a total of \$663.81.

Anyone who has not been contacted in this drive is urged to turn in his donation to McCormick at the REA office as soon as possible.

### Chevrolet Firm Rents Used Car Lot, Adds Two Employees

The new Chevrolet business in Eldorado has stepped up its activity by addition of two helpers and renting of a lot for used cars.

Elmer Peters, former Parker Motor Co. mechanic, started work Monday as a regular employee. Another helper this week is Mike Henderson of Ballinger, son of Shorty Henderson, who is employed here during his college vacation.

The entire crew is busy getting in tools, building parts cabinets, and painting the interior of their building (formerly Williams and McAngus Hardware, later occupied by Harms Hardware.)

The vacant McWhorter lot, adjoining the Success at the south has been rented by the firm for a used car lot, and employees were busy Wednesday clearing the lot of weeds and mesquite, in preparation for display of used cars.

### BEE MAN'S WIFE CATCHES SWARM

Mrs. Gordon McDonald, wife of Bee-Man Gordon McDonald, has always wondered what she would do if bees swarmed while her husband was gone. Now she knows — she'd catch them herself!

The couple's three-year-old son came running in, shouting, "Mommy, come quick, the bees is flying!"

She set the hive, ran for a box and broom, and swept bees into the box and from there emptied them into the hive until she had caught the whole swarm, sprinkling the moving mass with water as she worked.

"I didn't get stung once," she says, "but I don't expect luck like that to last!"

Mr. and Mrs. E. W. Martin and three children of Ireland are visiting their son E. W. Jr. and his family.

## FIVE POLIO PRECAUTIONS ARE LISTED FOR PARENTS

Warning that the 1949 polio season is "just around the corner," the National Foundation for Infantile Paralysis today issued a list of precautionary measures to be observed by those in charge of children during the epidemic danger period which usually runs from May through October, reaching its peak during the hot, mid-summer months. The five easy-to-follow health rules for children are:

1. Avoid crowds and places where close contact with other persons is likely.
2. Avoid over-fatigue caused by too active play or exercise, or irregular hours.
3. Avoid swimming in polluted water. Use only beaches or public pools declared safe by local health authorities.
4. Avoid sudden chilling. Remove wet shoes and clothing at once and keep extra blankets and heavier clothing handy for sudden weather changes.
5. Observe the golden rule of personal cleanliness. Keep food

CUT OUT AND KEEP FOR REFERENCE

tightly covered and safe from flies or other insects. Garbage should be tightly covered and, if other disposal facilities are lacking, it should be buried or burned.

The National Foundation also listed the following symptoms of infantile paralysis: headache, nausea or upset stomach, muscle soreness or stiffness, and unexplained fever. Should polio strike in your family, call a doctor immediately. Early diagnosis and prompt treatment by qualified medical personnel often prevent serious crippling, the National Foundation pointed out.

The organization emphasized that fear and anxiety should be held to a minimum. A calm, confident attitude is conducive to health and recovery. Parents, it said, should remember that of all those stricken, 50 per cent or more recover completely, while another 25 per cent are left with only slight after effects.

If polio is actually diagnosed, contact the chapter of the National Foundation for Infantile Paralysis serving your community. The chapter will pay that part of the cost of care and treatment which patient or family cannot meet.

Eldorado's city trucks today began a city-wide clean-up designed to alleviate the threat of polio from this area. This and other means of combatting the disease threat were decided upon by the City Council at a special session Tuesday night. Mayor Carrol Ratliff urged the cooperation of all citizens in cleaning their premises and alleys and disposing of trash and refuse. The clean-up efforts will last through this week end, weather permitting.

Residents were asked to put tin cans and trash in boxes or large sacks and place them by streets or alleys in order to facilitate the work of the city employees.

Enforcing of city ordinances against keeping livestock within the city limits and obstructing alleys, were decided on in connection with the campaign. Specifically cited by the Council was the 1941 ordinance which prohibits the keeping of horses, mules, sheep, goats, or hogs in the city limits. The ordinance states that violators can be fined "not less than one dollar and cost, nor more than fifty dollars..." and stated further that the said animals could be impounded. The ordinance excepted, however, milk cows and their calves provided they were kept in adequate and sanitary pens.

After conferring with Dr. H. Z. Pennington, county health officer, the Council deemed it unnecessary at this time to close or quarantine any public gathering places. There is as yet no known case of polio in Schleicher county.

Cleaning the city's private and public properties was thought advisable before any further spraying with DDT is done. Cleaner premises would make the spray more effective.

The city will mow weeds from private city lots with the recently acquired power mower. A flat rate of \$1.50 per lot will be charged, and will be payable in advance. The Council specified, however, that such lots would have to be free of rocks, stumps, heavy mesquite growth, and refuse.

Fire Chief Palmer West stated that the fire department would continue its practice of protecting the property of persons who want to burn weeds off their lots.

The Council approved a city-wide election to decide the establishment of a permanent trash pick-up service. At the election, to be held Thursday, June 30, residents will vote on whether or not to assess each residential water meter a monthly fee, and each business house a designated amount, to cover the costs. City trucks would pick up refuse in the residential districts twice a month, and in the business district, daily. The amount assessed each business would scale downward depending on the amount each had to be hauled off.

The Council also appropriated funds to help send four firemen to the short course at A & M.

### Legion, Auxiliary Plan Monthly Social

The regular third Thursday American Legion-Auxiliary social will be held Thursday, June 16, according to announcement made by the social committees of the two organizations.

The social will be an ice cream supper, and it will be held at the memorial building.

### OIL NEWS

Skelly no. 3 Mary Jackson continues to look good, though an official potential has not yet been made. An unofficial test indicated more than 300 barrels per day. It is understood that a potential is scheduled for today.

### CUB MEETING

A Cub pack meeting will be called about the middle of the month, announce Cub leaders, who also state that there will be no den meetings this summer.

**FUMIGATION OF STORED GRAIN**

In Texas the insect pests of stored grain breed with little interruption the year round. The more important of these are the black weevils or rice weevils, Angoumois grain moth, saw toothed grain beetles, flour beetles, Indian meal moths, and bean and pea weevils.

Bins used for storing grain should be thoroughly cleaned of grain and dust to reduce reinfestation before storing the new crop. Sprays are useful in eliminating infestations in cracks and pockets of the bins. A 5% solution of DDT thoroughly applied to the flooring and walls will do an excellent job in controlling the stored grain pests. Small quantities of old grain from the previous season should be fumigated, fed out, or otherwise disposed of before harvest.

The sides and floors of the bins and cribs should be made as nearly air tight and rat proof as possible. The sides should be at least six inches higher than the grain after leveling off.

Fumigation is the best and most economical method of protecting grain in storage. Temperatures of 65 to 70 degrees F. are best for fumigation.

Where bins are not tightly sealed above, tarpaulin or other gas-tight sheets can be used to cover the surface of the grain.

An ethylene dichloride - carbon tetrachloride is cheap, non-inflammable and effective, and does not harm germination regardless of dosage, exposure of moisture content of the grain. It is made up of three parts by volume of ethylene dichloride and one part of carbon tetrachloride.

The mixture weighs about eleven pounds per gallon and can be purchased in 55 gallon drums. It is applied with watering can or sprayer on the surface of the grain at the rate of 6 gallons per 1,000 bushels or 5 gallons per 1,000 cubic feet. If the temperature is a little higher some of the liquid should be poured directly into the grain.

The chemical mixture does not taint the grain which remains palatable and safe for both livestock or human consumption.

Inspect the grain in storage at least once a month and fumigate it if found infested. Accumulation of waste grain and feed around the farm buildings should be removed.

Caution: If signs of dizziness should occur, the operator should get into fresh air immediately. When much is to be applied a gas mask should be worn.

**Worm Control**

During seasons like the present one, when we are having heavy rainfall and heavy dews, there is a great deal of danger of stomach worm infestation. Moisture and warm weather provide ideal conditions for reproduction of this parasite.

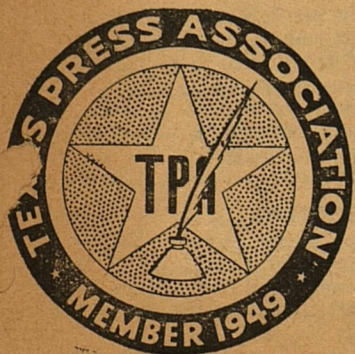

Sub-station No. 14 at Sonora recommends the following schedule for the control of stomach worms in sheep. Drench in the early spring with phenothiazine; feed phenothiazine and salt (10 lbs. of salt to one pound of phenothiazine) during the summer months; drench with phenothiazine again in the fall. (When the lambs are weaned at shipping time.) Sheep should be watched carefully during the season for symptoms of stomach worms and additional drenching practiced as needed.

A pale watery appearance of the membrane around the eyes and lips is usually a typical symptom. This is usually accompanied by the loss of weight or emaciation. Scouring is a common indicator of stomach worms. In advance cases bottle jaw (a swelling on the under side of the jaw and neck) and eating of dirt or other material are common signs of this condition.

Lambs should be watched carefully as this parasite will do damage to young animals more quickly than to adults. Adults have more time to build up more resistance and will take longer to produce the harmful effects.

Every effort should be made to guard against loss from the stomach worm.

### Program Announced For Mias Amigas Annual Meeting

The program for the eighteenth annual meeting of the Mias Amigas Club has been announced this week by the program committee, with a two-day session of business, reunion, recreation and fun on the agenda.

The invitation committee has sent out invitations to all members who have moved out of this county. The members have located a copy of the first issue of a paper published in Schleicher county, and invitations for this year are in the form of a miniature newspaper, with a number of items from the first issue reproduced on the first page. On the inside is the program for the two days.

The group will register at 9:30 a. m. Thursday, June 23. This will be followed by a business session, and a barbecue at noon. ### A & M Specialist Gives Instructions For Building Storage Bins

The lack of adequate storage for the bumper crop that is now beginning to move in the state is causing much concern. This, coupled with the drop in price, has brought the producer face to face with a real problem but fast action may yet save the day. It isn't too late to provide much on-the-farm storage and at the same time qualify for a government loan on the crop, says W. S. Allen, extension agricultural engineer-buildings of Texas A&M College.

According to Allen, 500-bushel capacity grain storage bins or granaries can be built for about .50 cents per bushel of storage capacity and 1,000-bushel bins for about .40 cents per bushel capacity. These construction costs can be further reduced through the use of materials which may be available around the farm. Due to the high cost of materials, it may be advisable in some localities to buy pre-fabricated bins or granaries. Allen says such structures in some instances are selling from .28 to .31 cents per bushel capacity.

Whether you build or buy pre-fabricated bins will depend on the local situation, he says. If you need a blueprint for building on-the-farm storage, go see your local county agent. Through him plans are available for many types and sizes of grain storage structures.

When you get the plan, says Allen, get a local estimate on the cost of construction and then compare this figure with what a pre-fabricated building would cost. Then take your choice. It is well to keep in mind, continues Allen, other uses that can be made of such structures after the grain is taken out and plan them for such.

Grain storage structures, concludes Allen, should be well built so they'll last for many years. And, too, one of the qualifications for a government loan is that the grain be stored in bins or granaries where it will not be subject to damage from moisture, insects, rodents, or from other causes.

Marjorie Goss, Joyce Elaine Stolle, Adeline Sturethaler and Buddy Clark, all of San Antonio, are visiting Mr. and Mrs. L. A. Goss.

Forrest Runge attended the reunion of his graduating class at A&M last Friday and Saturday. He was president of the class, which graduated in 1914 with 69 receiving diplomas. There were 25 present for the reunion.

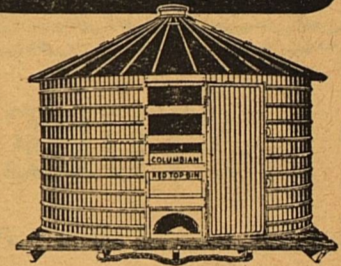

Mrs. L. D. Ochsner spent Tuesday in Sonora with her daughter, Mrs. Harold Scherz and infant son, who was ill.

Mrs. Henry Mercer has rented her house to Mr. and Mrs. Smallwood and has moved to her small rent house. Smallwood is a driller on the Jackson well.

Mr. and Mrs. Gordon Shilling and three boys of Fort Worth, and Mrs. G. H. Wisdom of Lebanon, Oka., are visiting in the Rev. Roy Shilling home.

**Farewell Party For Williams Family**

A farewell party and picnic, attended by the residents of the Reynolds community, was held Friday night at the Reynolds schoolhouse, honoring Mr. and Mrs. Bernard Williams and family who have moved to Canon City, Colo.

The group spread their picnic supper together and spent the evening visiting. The community presented the Williamses with a Mirro-Matic Pressure Cooker as a farewell gift.

The family left Saturday afternoon for their new home, Earl Lloyd moving their household goods in the Lloyd truck, and the family making the trip in their car. The family own a ranch eighty miles from the city, but will live in town in order to be near the schools. Mr. Williams' brother is living at the ranch house.

Two of the children, Leon and Dorothy, will enter the Canon City schools in the fall. Frances is a member of this year's graduating class in Eldorado, and will enter college in Colorado in the fall.

L. E. Lloyd bought the Williams ranch here.

Carson B. Nixon, 21, received a five-year sentence for forgery in a district court here Saturday. Sheriff Ernest Sweatt picked him up at Sugarland and brought him to Schleicher County for the court session Saturday. The youth had received a two-year sentence in another county, which makes his prison term seven years. Sheriff Sweatt accompanied him to Huntsville this week.

Mr. and Mrs. Gardner McCormick of Waco spent the week end with his parents, Mr. and Mrs. Van McCormick. McCormick is a student in the law school at Baylor, and his wife is teaching in the physical education department at the college. They will leave the latter part of July for Baltimore, Md., where McCormick begins training for the professional football season.

**LET'S OBSERVE FLAG DAY, JUNE 14, 1949**

June 14, the anniversary of the adoption of the flag of the United States in 1777, is now quite generally observed as Flag Day. This date was definitely established as Flag Day by a proclamation of President Wilson, issued May 30, 1916.

He suggested that throughout the nation and in every community that day be observed with special patriotic exercises.

A few of the rules concerning the displaying of the flag as contained in the Flag Code adopted by Congress in 1942 are as follows:

With a few exceptions, the flag should be displayed only from sunrise to sunset. The flag should not be displayed with the union down save as a signal of distress. The flag should never be used for advertising purposes.

During the ceremony of hoisting or lowering the flag or when the flag is passing in a parade or in review, all persons present should face the flag, stand at attention, and salute. The salute to the flag in the moving column should be rendered at the moment the flag passes.

The flag, when flown at half staff, should be first hoisted to the peak for an instant and then lowered to the half-staff position. The flag should be raised again to the peak before it is lowered for the day. Crepe streamers may be affixed to spear heads or flagstaves in a parade only by order of the President of the U. S. The flag should never be allowed to touch anything beneath it.

The flag flies day and night, year in and out in four places: on the east and west fronts of the U. S. capitol; at the grave of Francis Scott Key; and at the war memorial, Worcester, Mass.

The flag should be displayed in or near every polling place on election day. The flag should be displayed during school days in or near every schoolhouse.

Please display your flag at home and at your place of business on flag day.

**Giles Explains Operation of New Veterans' Land Program**

By **BASCOM GILES**  
Commissioner of the General Land Office

The Veterans land program is now a reality.

The idea was born in the hearts of the veterans themselves while they were overseas and thinking about home. Their letters to my office asking how they might obtain a farm or ranch home if and when they returned, inspired me to put the machinery of this program in motion.

Last week Governor Jester's signature made the Veteran's Land bill into formal law. The bill was sponsored in the upper House by Senator John Bell of Cuero and in the lower House by Representative Reuben Senterfitt of San Saba.

The legislation grew out of a Constitutional Amendment adopted by the Citizens of Texas in a special election in November of 1946. At the following session of the Legislature the necessary enabling legislation failed to receive final consideration in the Senate.

The 61st Legislature, promptly and without a single negative vote in either House carried out the mandate of the people, making it possible for Texas Veterans of World War II to own a farm or ranch home of their own choosing by making a small down payment with the balance financed by the State at a low interest rate.

The Legislature has placed the administration of this program in the hands of the Governor, Attorney General and the Commissioner of the General Land Office.

Here briefly are some of the outstanding provisions of the new law:

The Board may issue up to \$25 million in bonds to finance the program.

Land may be purchased from an individual, from the State, or Corporations for re-sale to veterans at cost. (This provision will be more fully explained in a separate article—Editor's Note.)

Veteran may select land which he desires to purchase subject to the approval of the Board.

The maximum purchase by each veteran shall not exceed \$7,500 to be financed by the State.

Veterans disabled by combat service connected disability have 90 days preference right to purchase.

Lands may be purchased for a minimum of 5% down payment with 40 years to pay the balance at 3% interest. (This indebtedness may be retired sooner if the veteran wishes.)

All money received during the six remaining years of operation shall be used to pay interest on bonds and to purchase additional land for re-sale to veteran. The purchaser shall not transfer or sell lands purchased for a period of 3 years from the date of purchase. The veteran will not be permitted to make more than one purchase. The veteran is not required to reside upon the property.

All applications should be addressed to Bascom Giles, Commissioner of the General Land Office, Austin, Texas.

**Polio Precautions**

Children should be cautioned by parents to avoid swimming in polluted waters, particularly in areas affected by polio epidemics. Children should use only beaches or public pools declared safe by local health authorities.

**THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS**

Mrs. Lewis Wilson and son, Lewis Jr. left today by bus for Comstock to visit relatives. Mrs. Wilson's brother from California will visit there.

Mrs. Claude Alexander and boys fished Friday night and Saturday at Buchanan Lake and report good luck. They also attended a Clark family reunion in Lampasas and visited Mrs. Alexander's brother J. C. Clark and family at Burnett. John Alexander went on to Austin with his grandmother, Mrs. John Clark, for a visit there, and planned to join a group of boys who would attend the state DeMolay convention in Beaumont. He will return home the latter part of this week.

Mrs. Don Severns and Mrs. A. J. Roach were shopping and visiting in San Angelo Friday.

A. J. Roach received a message from his brother, John Roach, who has been in an Abilene hospital for a serious eye operation. John Roach, a former Eldorado resident, had a cataract removed from his eye, and is reported to be resting well.

Mr. and Mrs. William Lewis of Abilene spent the week end with Mrs. J. D. Ramsey.

Mrs. John Koschak and son Karl of San Angelo are visiting her parents, Mr. and Mrs. Seth Ramsey.

Dick McCalmont of Sonora and Mr. and Mrs. E. E. Newlin were Sunday dinner guests in the Eddie Peel home.

Perry Mittel is adding a room to his residence, and rock veneering the entire house.

Visiting over the week end with Mrs. W. M. Bearce and the W. R. Bearces were Mrs. J. E. Boykin of Cuba and Mrs. Lois Beavers of Abilene, both daughters of Mrs. W. M. Bearce; also a granddaughter, Mrs. L. G. Davis and son Louie Bob of Abilene.

Mr. and Mrs. C. H. Davis and three sons of Ferris and Dossie Gillispie of Oklahoma spent several days last week with Mr. and Mrs. Weldon Davis.

Mr. and Mrs. Gordon Griggs and daughter and Mrs. J. Hall Bowman visited several days with friends in Walnut Springs.

Carroll Sproul has started work as accountant in the office of Charlie Trigg Motors.

Mrs. Bill McRae, the former Louise Burk, will leave for San Antonio today after a visit with her parents, Mr. and Mrs. Lum Burk. She accompanied Leonard Baugh, who was looking for stock for a ranch which he and McRae have leased near Sierra Blanca, and to which the two couples will move as soon as a new house is completed on the place, which will be about July 1.

Mr. and Mrs. Orland Harris and children were in Alpine the first of the week where they visited Mr. and Mrs. L. L. Harris who have established a laundry there.

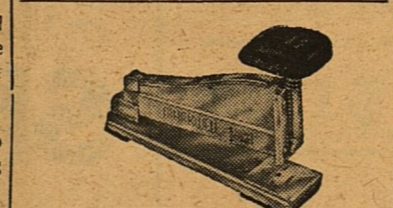

Mrs. W. F. Parent and daughter have gone to San Antonio to visit Billie Parent and Mrs. G. M. Skornicki. Janice Skornicki, who spent the past three weeks here, accompanied them home. Mrs. Parent will also visit her brother, C. E. Griffin, in San Antonio.

**Polio Precautions**

During hot summer months, a good health rule for children is to avoid over-fatigue caused by too active play or exercise, or irregular hours. This rule is particularly important in polio epidemic areas.

**BUSINESS MEN'S BIBLE CLASS ATTENDANCE GROWS**

The business men's Bible class, which is being held each Sunday morning in the memorial building, is growing, according to members. The group meets at 9:45 and dismisses at 10:45.

The program for each Sunday includes fellowship, a song service, and lecture. Nolen McDonald is song leader and W. M. Patterson is pianist. Gus Love, vice president, is in charge of the services.

The speaker this Sunday will be either Rev. Will King or Rev. John King, guest ministers at the Presbyterian meeting this week.

**MRS. CROSBY ENTERTAINS WEDNESDAY BRIDGE CLUB**

Mrs. Lillian Crosby entertained the Wednesday Bridge Club with a luncheon last week, followed by games of bridge. Mrs. Jack Shugart won high club, Mrs. Mollie Williams high guest, and Mrs. Sam Oglesby bingo.

Guests present were Mrs. Gene St. Clair and Miss Doll Knouse of San Antonio, Mrs. Van McCormick, Mrs. Mollie Williams, Mrs. Frances Thompson and Mrs. Kenneth Cheek. There were sixteen members and guests present.

**LIONS CLUB**

The Lions Club quartet got a big hand when they sang several numbers at the club's regular meeting Wednesday. The quartet is composed of Nolan McDonald, Ervin Mund, C. F. Jones, and Mrs. Gus Love. Guest speaker was Rev. John M. King of Victoria, Texas, who is here with his brother conducting a meeting at the Presbyterian church.

During the business session it was announced that installation of officers will take place the latter part of this month and will be observed with ladies' night.

Reports were made on the Scout drive, the city clean-up campaign, and the purchase of additional equipment for the memorial building.

**MRS. FINLEY ENTERTAINS WEDNESDAY BRIDGE CLUB**

Mrs. Pat Finley was hostess when the Wednesday Bridge Club met yesterday in her home. Mrs. Leslie Baker won high club, Mrs. Luke Thompson high guest.

A salad plate was served to ten members and the following guests: Mmes. Luke Thompson, E. C. Peters, Jack Hext, Patton Enochs, Jess Walston, and Lewis Whitten. Mrs. H. T. Finley was a tea guest.
