

FIRE DESTROYS LARGE BARN AT HENDERSON'S

Fire completely destroyed the barn and its contents, on the Tom Henderson place late Friday evening. The blaze, discovered by the family at about six Friday afternoon, quickly spread from the stables to the upper end of the structure, and the entire building and its contents were destroyed before the flame could be checked.

Fire boys made the run from Eldorado, and reached the scene in time to save fences and corrals.

The barn, one of the largest in the county, contained feed, saddles, and miscellaneous ranch equipment. Some insurance was carried.

While Mr. Henderson has made no definite plans to replace the building, he states that he may put up a temporary structure for use this winter.

Crew Begins Work On Pouring Concrete For New High School

Men working on the school building project in Eldorado began pouring concrete Tuesday for the foundation of the high school building.

All workmen on the job are local men with the exception of the supervising personnel. In addition to about twenty local workmen, those on the job include E. W. Beeman, superintendent; Rex Chitwood, field clerk and assistant superintendent; Jack Sharp, job superintendent; and Bob Fuson and Bob Fuson Jr., who are working as steel tyers.

Reinforcing steel for footings and piers has arrived.

In about three weeks, the crew expects to begin excavations for the grade school annex, which will adjoin the grade building on the east.

They are painting the interior and cleaning and renovating the kitchen and main room, in preparation for opening Saturday. They state that they will serve free coffee all day on the opening day.

With them are their daughter and her family, Mr. and Mrs. Louis Matuska and baby of Chicago, A. son, Glendale, also of Chicago, will be here on the opening day. All have been visiting the family in Eden during the past month. The Wilkersons have a daughter, Bobby Ann, age eleven, who turned in her books Wednesday at Eden and plans to enroll here Monday in the fifth grade.

The Wilkersons have rented out their ten-acre place near Eden. They are relatives of Bill Locklear, from whom they bought the business.

Plow Cotton Stalks Up — Now!
The late infestation of boll weevil cost many producers heavily, especially on late cotton. Even though a record crop was harvested for the county and some producers' yields were the highest ever, approximately one-fifth bale per acre more would have been harvested if Mr. Boll Weevil had not made his late appearance.

A conservative estimate is 1000-1500 more bales would have been produced in the county.

There is a way to keep this infestation from being greater next year. Destroy Mr. Boll Weevil's food supply by plowing up cotton stalks now. If the weevil's food supply is destroyed, winter weather will reduce greatly the number of weevils that will otherwise live through the winter.

If you do not starve the weevil his numbers will increase from year to year.

This practice is a must to the producer who has cotton in his crop rotation for next year.

Vacation Is On!

Teachers and students in the Eldorado schools turned their backs on the schoolhouse yesterday, and began a long vacation week end, which will include Thursday, Friday, Saturday and Sunday. Out-of-town teachers have gone to their homes and college students and local young people who are teaching elsewhere or are otherwise employed are visiting home folks here.

Stores of Eldorado have closed for the day, with the exception of a few filling stations, drug stores and cafes. A few merchants are seen at work behind closed doors in preparation for the coming merchandising season, as Christmas buying becomes more general after Thanksgiving Day.

Basketball Season Begins With Workouts Monday

Bud Hopkins, Coach

Basketball practice started Monday at the high school, according to Coach Bud Hopkins, and prospects are bright for the coming basketball season.

All of last year's lettermen except one (Buddy Baker, who graduated) are back with the squad again this year.

The high school group is practicing after school each day. Freshmen boys expect to begin their workouts in about a week, as soon as a practice schedule can be arranged during the day.

Seventh and eighth grade boys will begin workouts right after the Thanksgiving holidays. These boys' district schedule is the same as that of the high school team; they play a game each time the high school team plays a district game. The first district game is scheduled for Jan. 6, with Sonora.

Dates for the annual Ranglands basketball tournament will be held in Eldorado January 13 and 14. First place, second place, and consolation trophies have been ordered, along with five eight-inch trophies for the all-tournament team.

Although the squad will not have new uniforms this year, supplementary shorts have been ordered.

Those coming to practice this week include Chester Biggs, Bill Jones, Gordon Hamm, Gerald Hicks, Jimmie Woodward, Glenn Biggs, Sammie Whitten, and E. H. Nixon, all returning lettermen; and Dean Clark, James Alexander, Joe Ed Spencer, O. T. Conner, Jack Mund, George Ochsner, Durwood Rutland, Truman Biggs, Jimmie Morgan and Maurice Christian.

Volleyball Practice Gets Under Way After Thanksgiving

Volley ball girls, under the direction of their sponsor, Mrs. Troy Erwin, will begin working out two days a week after the Thanksgiving holidays. Twenty-eight girls have signed up to play.

The girls will have new suits this year, consisting of shorts and blouses of white satin with black and gold trim.

Their games with other towns will not begin until after basketball season is over, to avoid conflict in use of the gym.

Volley ball games have been scheduled as follows:
Feb. 28, Big Lake here.
Mar. 3, Ozona there.
Mar. 7, Sonora here.
Mar. 10, Big Lake there.
Mar. 14, Ozona here.

Among students arriving here Wednesday for the holidays were Bobby Barber, Ebba Ann Finley, Emily Ann Harper, and Jody Whitten.

Mr. and Mrs. H. T. Finley and Mr. and Mrs. Lewis Whitten and Sammie will attend the SMU-TCU game this week end. Ebba Ann Finley will accompany them back to Ft. Worth where she will spend Saturday and Sunday with friends.

Mr. and Mrs. Albert Thigpen made a business trip to Mason Thursday.

Reindeer Prepare for Trip to Eldorado

This is a photograph of reindeer which will pull Santa's sled through the streets of Eldorado at 3:00 p. m., December 24, Christmas Eve, as a special Christmas entertainment feature sponsored by the fire boys of this city.

Santa will distribute candy to the children, and will jingle real sleigh bells which most young folks of the county have never heard.

Fire boys point out that Santa will have real whiskers, which will be another main feature of his personal appearance here.

Animals Good Texans
The reindeer which Grady Carothers, Goldthwaite ranchman, imported from near the Arctic Circle last year are now good Texans.

They proved that by living through the hot Texas summer. Reindeer experts have told Carothers that his deer are the first on record to survive the month of August in the southern part of the United States.

The reindeer, which have ex-

ceptionally heavy hair to enable them to withstand the severe artic cold, sweltered through the summer months, but otherwise did all right.

Carothers' reindeer have spent almost as much time traveling as did Dancer, Prancer, etc. of the famous poem "Night Before Christmas" — and a lot of their traveling has been by air.

The Goldthwaite rancher secured the deer at Colovin, Alaska, on the north shore of the Bering Sea. They were flown from Alaska to Seattle, Washington, then down the California coast and on to Texas.

Buying reindeer isn't a matter of just handing over the money and taking away the animals. The federal government is highly particular about taking the deer out of the Territory of Alaska, and extensive arrangements had to be made with various federal bureaus and with the Eskimos, the only persons permitted to own reindeer

in Alaska.

The reindeer were trained to pull Santa's sleigh in Seattle with the aid of Mike Nilluka, a Laplander who came to Alaska in 1892 with the first herd of reindeer imported by the federal government.

Carothers had to watch the diet of the deer. At first they would eat only "reindeer moss", a short native grass that grows in the arctic.

Carothers brought along some of the moss, but eventually got them to eat other foods. He can't feed them corn, however, because corn raises their temperatures and the climate in Texas already is hot enough for them.

Since arriving in the United States, Dancer, Prancer, Dunder and Blitzen have been seen by many thousands in parades and other "personal appearances" which give children of the Southwest their first opportunity to see Santa Claus' famous helpers in person.

Girl Scout Troop Meets November 19

Girl Scout troop no. 1 met at the home of the leader, Mrs. R. L. Ballew, on Saturday, Nov. 19.

Present were Mary Tisdale, Ellen Wheeler, Riedale West, Jimmie Dell Williams, Thomasyn Jones, Ann Ballew, Mrs. R. L. Ballew, leader, and Mrs. C. L. Wheeler, assistant leader.

We worked on our first project, that of making picnic glasses. Cans were wrapped with different colors of carpet warp. These make very attractive containers for ice tea and other cold drinks at barbecues and picnics.

Our new president, Dale West, presided at the business meeting. Other officers elected last week were Sue Kinser, secretary, Ellen Wheeler, treasurer, and Ann Ballew, reporter.

We discussed our plans for each girl to go to Girl Scout camp next summer. Nibbles were served at the end of the meeting.

Our treasury was greatly enhanced on November 12, when Mr. Nathan Donsky purchased livestock at the Lions club annual auction, donated it to be sold for the Girl Scouts, re-bought and re-donated it, bringing us the total amount of \$120. We are deeply grateful to Mr. Donsky and also to Mr. Charlie Trigg, the second purchaser, for this money. We will use it in a useful, creditable way.

—Ann Ballew, Reporter.

Mrs. Virge Tisdale went to San Angelo Tuesday to attend the Ft. Concho chapter of the Daughters of the Republic of Texas luncheon at the Cactus Hotel. Mrs. Tisdale is a member of the organization, and she was accompanied by a guest, Mrs. C. M. McWhorter. The luncheon was given in honor of the state president, Mrs. Walker, and the state secretary, Mrs. Webster, both of San Antonio.

Petition For Crockett

A petition was being circulated for signatures here this week asking the Commissioners Court of Crockett County to order an election to decide the question of issuing \$85,000 in bonds to be used for public park improvement, construction of a modern swimming pool and community recreation center on water works hill.—Ozona Centerman.

Basketball at Mertzon

The boys turned in their football uniforms Monday and checked out basketball equipment. A strong schedule has been arranged for the basketball team and it looks like a rather gloomy year. Only 5 boys returned from last year's entire squad. The team is not expected to be very strong at the beginning of the season, however Mertzon will be strong enough by the time conference play starts to give most anyone a fight for it. The boys open their basketball schedule next Tuesday night, November 22, with the Ozona Lions at Ozona. It will be a battle between two district champions of last season.—Mertzon Star.

Menard Sale a Success

The Annual Armistice Day PTA Auction Sale held in the American Legion Park was a huge success. Many people attended, and it brought a total of \$3,936.63 which is the largest ever. This money as you know will be used mostly for books for the new school library. Nelson Johnson, of San Angelo, was the very efficient auctioneer. He donated his time for the event. To show their appreciation, the PTA presented him with a reversible jacket and a beautiful piece of luggage, and Winston Sheen presented him with a huge dressed turkey.

The winning parade floats belonged to the Loveless-Gas Company, Fifth Grade and the Fourth Grade. Each received \$5.00 for their prize.—Menard News.

Field Tour at Paint Rock

Approximately 125 farmers and ranchers attended a field tour on the O. L. Sims Ranch at Paint Rock last Wednesday, Nov. 8. The tour was made in order to study a planting made of King Ranch bluestem and other range plants.

Attention was also given to the machinery the Soil Conservation Service has at its disposal to seed grass in either cultivated or pasture land. A combine rigged up to harvest blue stem was also shown. The tour was sponsored by the Concho Soil Conservation District, Paint Rock Lions Club, and Texas Extension Service.—Eden Echo.

Deer Scarce

The six-day deer season west of the Pecos closed at sundown Friday with many disappointed and unsuccessful deer hunters blaming the weather on the scarcity of bucks seen to even provide a shot. Clear nights and warm sunshiny days caused the deer to graze at night and lie in secluded spots during the day.—Sanderson Times.

New Houses for Ft. Stockton

Fort Stockton is on the march, with issuance this week of building permits covering 25 modern new homes and totaling \$150,000, in addition to other individual permits totaling more than \$10,000, and bringing to nearly \$200,000 the total for the month of November during its first 15 days.

Second major new housing project announced in recent weeks will be the Comanche Heights development planned by Harry Reynolds, Midland contractor, on lots obtained along Spring Drive in the vicinity of the Clayton Williams and Paul Counts homes. Reynolds obtained permits for fifteen modern new homes, each permit being for \$8,000.

At the same time, clearing of the site and issuance of ten more \$8,000 permits to Jeter Lumber Co. of Odessa, signalled the actual be-

ginning of a first major housing project announced in The Pioneer three weeks ago. The Jeter homes will be built on Colpitts Boulevard between 11th and 12th streets, on each side of the street. Size will be 26 x 30 feet for the frame residences.—Ft. Stockton Pioneer.

Blackwell Gin Burns

The only gin in Blackwell burned Friday afternoon, and was a total loss, estimated at \$40,000 to \$50,000. Fire was discovered in the seed house about 1:30 p. m. Volunteers fought the blaze but could not put it out.

The smoldering fire burst into flames about 4 o'clock and by 7 o'clock the entire plant was demolished.—Bronte Enterprise.

New Big Lake Church

Jack Hignett of San Angelo was awarded the contract for the construction of the new First Methodist Church building on a bid of \$55,000. Work on the building will begin as soon as the lot is cleared of the old building and the adjoining parsonage. Razing of the old structure was started Monday and the parsonage is to be moved to another lot.—Big Lake Wildcat.

Miss Danell Baker, A. G. McCormack United In Marriage

Miss Danell Baker, daughter of Mr. and Mrs. Leslie L. Baker of Eldorado, and A. G. McCormack, son of Mr. and Mrs. John McCormack of Windom, were married here Saturday evening at 7:30 at the First Presbyterian Church. Rev. F. E. King, pastor, officiated at the double-ring ceremony.

Vows were repeated before the altar, which was decorated with a white wrought-iron arch, candelabra, and baskets of white 'mums and white gladioli.

The bride was given in marriage by her father. She wore a white slipper satin wedding dress which was fashioned with long fitted sleeves, fitted bodice, and marquise yoke outlined by a wide ruffle of embroidered medallions. A half peplum extended to form a long train. She wore a veil of imported silk illusion caught to a tiara of seed pearls and crystal beads, and carried a bouquet of white feathered 'mums surrounding an orchid.

Mrs. J. T. Ratliff of San Angelo, sister of the bride, was matron of honor and Misses Doris Calcote and Edda Lou Meador were bridesmaids. They wore identical dresses of satin with matching head-dresses and carried bouquets of pink 'mums. Mrs. Ratliff wore pale green, Miss Calcote wore pink and Miss Meador wore ice-blue. Jackie Shugart, cousin of the bride, was flower girl and wore a light orchid satin dress fashioned like those of the bridesmaids.

Paul McCormack of Bonham, brother of the bridegroom, was best man, Vaughn Baker, brother of the bride, and Ray Hudgens were ushers. Grover Lee Johnson lit the candles.

Mrs. James Page played the traditional wedding music and accompanied Miss Katherine Davis, who sang "Because" and "I Love Thee."

A reception was held in the church parlor immediately following the ceremony. Mrs. Jack Shugart registered the guests and Mrs. Paul McCormack and Mrs. Glenn Span served cake and punch.

The refreshment table was laid with a white lace cloth and was centered with a bouquet of white gladioli and white 'mums. The double-ring wedding cake was iced in white.

About two hundred guests registered at the reception.

When the couple left on a wedding trip to South Texas the bride was wearing a winter blue suit with matching accessories and an orchid corsage.

The bride is a graduate of the Eldorado high school and attended John Tarleton college. She is employed at the First National Bank in Eldorado. The bridegroom attended Gober high school and is employed with the Petty Geophysical Company of San Antonio.

Mr. McCormack, who is working this month in Sabinal, expects to be moved at the end of the year. Mrs. McCormack will continue her job at the First National Bank here until Christmas, and will then join him.

Mrs. W. T. Whitten, Mrs. W. C. Doyle, and Mrs. C. C. McLaughlin were hosts at the rehearsal dinner Saturday noon in the McLaughlin home, with about twenty-five present.

Mr. and Mrs. Jim Cheek, who have been visiting at Blanco, stopped in Eldorado last week for a several-day return visit with Mrs. Roy Davidson on their way back to their home at Tucson, Ariz.

Watch Out For The Symptoms!

Laughed out loud when I heard Hoot Davis was down with Chicken Pox. A man of forty-five catching a kid's disease!

So I went to see him, armed with jokes about "second childhood" but forgot them fast when I got there. Hoot looked terrible and had quite a fever.

While we talked, I come to think of how Chicken Pox is a lot like other "diseases"—diseases of the character, such as intolerance, self-righteousness or just plain ignorance. They're excusable in children, but when they come out in

adults they're ten times as bad—and can be mighty "contagious."

From where I sit, we should all watch out for the "symptoms"—little things like criticizing a person's preference for a friendly glass of temperate beer or ale. We've seen personal freedom wither away in other countries, when individual intolerance was allowed to get out of hand and become a nation-wide epidemic.

Bride Is Honored At Friday Shower

Honoring Mrs. Billy Whitley, a recent bride, who before her marriage was Miss Kathryn Hall, a shower was held Friday afternoon in the memorial building from 2:00 to 4:00, with a committee from the Church of Christ, a committee from the First Baptist church, and the school sextette, with Miss Farmer as sponsor, hostesses for the afternoon.

In the receiving line were Mrs. Wyndell Hall and Mrs. Jack Whit-

ley, mothers of the bride and bridegroom, and the honoree. The sextette, composed of Laura Holcomb, Mary Thompson, Lola Beth Ballew, Jerry Henderson and Myrta Bob Harper, also a duet, Myrta Bob and Lola Beth, sang several times during the tea hours, Miss Farmer accompanying them. Miss Farmer, Maryvonne Griggs and Lola Beth played piano selections.

The dining table, which was laid with a lace cloth, was centered with an arrangement of large white mums, flanked by green candles. The cake was iced in white and decorated with green and yellow.

At the tea table were Iretta Fay Mace and Jerry Henderson, who served cake, and Lilla Jean Ellington and Joyce Burk, who poured coffee. Mary Thompson presided at the register.

About sixty women registered and others sent gifts.

Mrs. J. C. Johnson and Johnnie shopped and visited in San Angelo Monday.

Arriving here this morning for a visit on the J. C. Johnson ranch are Mrs. Jimmie Lowe, Lamesa, and Mr. and Mrs. Raymond Lynn, San Angelo.

WEDNESDAY BRIDGE CLUB
Mrs. Pat Finley was hostess to the Wednesday Bridge Club with a luncheon last week at her home. Included with the three tables of members was one guest, Mrs. W. L. Kinser, and one luncheon guest, Mrs. H. T. Finley. Mrs. C. A. Reynolds won high and Mrs. Charlie Trigg won bingo.

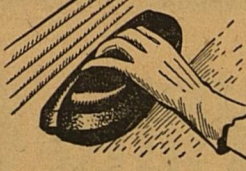

Miss Edda Lou Meador, student at SMU, spent the week end with her parents, Mr. and Mrs. C. L. Meador, and was a bridesmaid in the Baker-McCormack wedding Saturday night.

Feeding Experiments At Big Spring Are Completed

The results of recently completed cattle feeding experiments at the Big Spring Field Station should be of interest to cattle feeders in West Texas. The 1948-49 experiments were a continuation of the research work that has been underway at the Station for several years, and was a study of the influence of mineral supplements in grain sorghum rations for fattening steer calves.

J. M. Jones, professor of animal husbandry, Texas Agricultural Experiment Station; N. R. Ellis and W. A. Black (deceased) both of the USDA Bureau of Animal Industry; and F. E. Keating, superintendent of the Big Spring Field Station, conducted the research work.

Six lots of steers, with six steers to the lot, were used in the experiments and were fed similar rations for 182 days. Lot one received no mineral supplement and was the check or control group and the other five groups received varying amounts of mineral supplements — bone meal and limestone flour.

The best performing group was the one that received 200 grams of bone meal per day as a supplement to their ration of ground threshed milo, cottonseed meal, sumac sorgho silage and salt. This was the same ration that was fed to all lots. This lot had the highest daily gain, the lowest feed cost per hundred pounds gain and the best net return when they were sold.

Normally sorghum silage contains enough carotene to take care of the vitamin A requirements but the silage used in these tests was low in carotene due to the drouthy conditions and the late harvests that prevailed in the Big Spring area in 1947 and 1948. A number of the steers developed marked symptoms of vitamin A deficiency during the latter part of the feeding period but fully recovered after three treatments of 2 ounces per head of a commercial cod liver oil containing 2,000 units of vitamin A per gram was administered. Jones recommends the feeding of good alfalfa hay or the cod liver oil treatment for steers that are being fed on silage or roughage from sorghum crops that were produced under drouthy conditions and harvested late.

None of the steers in the 1948-49 feeding test at any time displayed any outward symptoms of urinary calculi trouble.

Jones says that the results of the feeding tests at Big Spring over a period of years indicate that the feeding of 200 grams of bone meal per head per day is a good practice for feeders to follow. It tends to hold down the urinary calculi trouble, cattle make slightly higher gains and have a better finish than those not getting the bone meal supplement. The increased income per animal will more than pay for the cost of the bone meal, says Jones, and the other benefits go in for good measure.

Mr. and Mrs. James Williams had as week end guests Mr. and Mrs. Hubert Podany and Pete Knightenbock of Dallas. James accompanied them home Sunday, returning to Eldorado Monday.

Mrs. J. B. Sammons returned home to Van Horn after staying with her mother, Mrs. T. K. Jones, during her recent illness.

Mr. and Mrs. Jack Jones left this morning for Ft. Worth to visit relatives. They will be joined there by Mr. and Mrs. T. K. Jones of Eldorado, Mrs. A. L. Ohlenburg and children of McCamey and Mr. and Mrs. Jim Lucas, of Borger.

Nick Jurecek, who has employed 115 braceros, the largest number in the county, will take them soon to Eola.

If You Are 85, 45 or 3, Hadacol Helps All Ages

HADACOL is good for all ages, bringing five of nature's B vitamins and important minerals to the young and old alike. Recently the HADACOL folks received the good news that among the countless thousands who had been benefited by HADACOL were a lady of 85, a man of 45 who felt like he was 18, and a beautiful little girl only three years old.

Mrs. Edmond Doucet, of Church Point, La., is 85 years old, having thousands of friends in the picturesque Evangeline section of Louisiana where she was born and has spent all of her life. These friends are happy to know that Mrs. Doucet feels better now than at any time in two years and gives the credit to HADACOL.

"I had been sick for almost two years and was suffering with gastric disturbances and bloating. I was run down, had lost weight and had to stay in bed most of the time. I lost courage and felt that there was no hope for me."

Mrs. Doucet had tried many preparations without apparent beneficial results when she heard the glorious news about HADACOL.

"After taking several bottles of HADACOL I felt like a new person," said Mrs. Doucet. "I eat anything I want without ill effects and sleep well. I feel much stronger."

Neville Dugas, of Route 1, Box 101 B, Carencro, La., is a successful farmer who had worked early and late at all kinds of hard work and it wasn't so long ago that he wondered if he would ever be able to work that way again. He had tried many medicines, but felt no better.

"I had all kinds of stomach disturbances," said Mr. Dugas. "My stomach was so bloated that it felt like it would swell up and burst. I suffered with gastric disturbances, heartburn and was run down and nervous. I had no appetite and suffered with headaches and I couldn't sleep at night. I was so drawn and pale that my friends had difficulty in recognizing me. After the third bottle of

HADACOL I felt a real improvement and after the twelfth bottle of HADACOL I felt like I was 18 instead of 45. I am feeling perfectly well."

"My three year old daughter, Joan, had lost her appetite," said Mr. Dugas. "Her cheeks were pale and she cried often. I started giving Joan HADACOL and after three of the large economy size bottles she is now healthy, has an excellent appetite and her disposition is perfect."

All three of these people were suffering from a lack of B vitamins and the minerals which HADACOL contains. HADACOL comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away. It is easy to understand, therefore, why countless thousands have been benefited by this amazing tonic, HADACOL.

A lack of only a small amount of B vitamins and certain minerals will cause digestive disturbances. Your food will not agree with you. You will have an upset stomach. You will suffer from heartburn, gas pains and your food will sour on your stomach and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the symptoms and signs of lack of B vitamins and minerals which HADACOL contains. And if you suffer from such a deficiency disorder, there is no known cure except the administration of the vitamins and minerals which your system lacks.

It is easy to understand, therefore, why countless thousands have been benefited by this amazing tonic, HADACOL. So it matters not how old you are or who you are... it matters not where you live or if you have tried all the medicines under the sun, give this wonderful preparation, HADACOL, a trial. Don't go on suffering. Don't continue to lead a miserable life. Many persons who have suffered and waited for 10 to 20 years or even longer, are able now to live happy, comfortable lives because HADACOL supplied the vitamins and minerals which their systems needed. Be fair to yourself. Temporary relief is not enough for you. Give HADACOL a trial.
