## Dr. Pope Extends Revival To Include Two Sundays

Dr. Kenneth Pope, who has been engaged to conduct revival services at the Eldorado Methodist Church, starting Sunday, announced this week that he had made arrangements to continue the meeting here through Sunday, July 27. Dr. Pope had originally promised to remain only five days.

Here is the way the meetings line up:

At 11:00 o'clock Sunday morning a guest speaker from San Angelo will occupy the pulpit at the Methodist Church, while Rev. Faust and his family are closing out a meeting at Rudd.

Upon Jack Hodges, field scout executive, of San Angelo, a popular speaker and a prominent Methodist layman, will fall the responsibility of holding down the pulpit in Eldorado Sunday morning while the pastor is at Rudd. Aibly assisting him will be Mrs. James Faust, who will sing "If Christ Came Back."

At 7:00 o'clock Sunday evening, Dr. Pope will arrive by plane at Angelo. He will be met by a good driver and hustled in a fast car to Eldorado where he will take the pulpit at 8:30. Assisting him in the meetings from then on will be Rev. F. B. Faust, local pastor, and Mr. and Mrs. James Faust, song leader and soloist, besides a church choir made up of members and visitors.

The music at the night service will include three special numbers, "Oh Lord Most Holy," a duet by Mr. and Mrs. James Faust; "Hear My Prayer," a solo by Mrs. Faust, and "I Walked Today Where Jesus Walked," a solo by James.

There will be special numbers through the week during the entire eight-day service.

## Capt. W. H. Currie Dies at Age of 37

Funeral services for Capt. William Henry Currie, 37, were held in San Antonio at 2:00 p. m. Wednesday, with burial in a cemetery there. Capt. Currie, attached to a U. S. Army hospital as a special nurse, died Monday in Louisville, Ky., where he had been transferred from Seattle, Washington. He had been in Louisville only three days, and the cause and other details of his death are not known here at present.

A graduate of the Eldorado High School, Capt. Currie entered the service in 1936, serving overseas with a medical detachment in Egypt. After his return to the States, he was assigned to duty at an Army hospital in Seattle.

Immediate survivors include the widow and two sons, aged one and five years of Seattle; the mother, Mrs. A. P. Currie of Eldorado; three sisters, Mrs. George Williams and Mrs. Zida Williams of Eldorado; and Mrs. W. T. Green of Christoval; and two brothers, C. C. Currie of Coahoma, and Donovan Currie of Eldorado.

Relatives attending the services included Mrs. George Williams, Mrs. W. T. Green and C. C. Currie.

## LEGION TO PLACE BUSINESSMEN'S FLAG ORDERS

The American Legion is taking orders for flags to be used by business houses for suitable display on patriotic occasions.

The flags will measure three by five feet and will be complete with poles, the cost not to be more than \$7 each, and somewhat less if as many as a dozen are ordered.

Some business houses of the city have flags, it is pointed out, but many establishments are comparatively new and are not supplied with flags, or flags in the possession of businessmen are old and need replacing.

Arthur Tree is taking orders for the flags which will be delivered about two weeks after orders are placed. The Legion is doing this as a patriotic project and not for profit.

Earl Parker sold Bill Edens of Eldorado a new Frazier car Wednesday.

## Oil News

Announcement, delayed for weeks while title was being cleared, is made recently that Ralph Lowe of Midland will drill to Ellenburger in a wildcat test on the J. T. Jackson place, near the old Opp well.

The test is scheduled to start in thirty days, and will go down to 7,000 feet. Location has not yet been staked, but it will probably be about 1½ miles southwest of the Opp. It will be located on a 3,264 acre tract, acquired for ten years from J. T. Jackson.

The old Opp well, known as Opp No. 1 Jackson, produced an official daily output of 105.53 barrels when it was brought in Sept. 1, 1939. It did not hold its production, dropping finally to a few barrels a day, when it was deepened without changing its status. Location of the old Opp was 1005 from N. line, 2070 from E. line Sec. 41 — LL — TC RR.

The old Opp may not have developed into a consistent producer, but it has helped to write Schleicher County oil history, coming as it did when a suggestion of a boom still followed discovery of oil. Its last bid for publicity occurred about May 20, 1947, when purchasers of the old equipment were pulling casing out of the hole, and oil sprayed all over the ground and trees in that locality before it could be plugged. Henry Newman bought the material.

The Jackson — Whitten, — Parker — T. K. Jones locality, an area a few miles west of Eldorado, has been a hot spot throughout the winter and spring, and Schleicherites have been expecting announcement of proposed drilling for some time. It is understood that \$25 in cash has been paid for some leases in that neighborhood.

Operators are still hopeful of making a fair producer out of Al Grobl No. 1 Jess Koy, north outpost to Strawn in the Schleicher Co. oil field. The well is producing up to 5 barrels per hour, and swabbing and testing still continues. A 3000 gallon acid treatment Sunday was followed by testing of Strawn thru the casing at 5470-85 feet. This well is C NW SW 34 LGM & SA.

It is understood that the Broehl Koy well goes on production today with an estimated 100 barrels per day.

George D. Morgan trustee No. 3-C Jess Koy, C SE NE 38 L GH & SA, has passed 5,000 feet. This well is an east offset to Morgan 1c Koy, 10th producer developed in the field.

The Hayden Baugh Groehl No. 1 wildcat in the Rudd community 4½ miles north and slightly west of the field, C SE E 8 M GH & SA, is nearing 1,000 feet.

Drilling is proceeding steadily on another wildcat test in the Rudd community, on the Luke Robinson place, 660 E 660 S SE¼ Sec. 49 Bl. I. Chapman and McFarland will take this test to Ellenburger.

Mrs. Fred Wood spent the week end in Big Spring.

## REA DESIGNATES AUGUST 15TH FOR ELECTION

The annual meeting and election of officers for the Southwest Texas Electric Co-Op is scheduled to take place August 12 in Eldorado. While details are not ready for publication, it is announced that there will be a day of business sessions and entertainment.

REA service is being brought this week to the Ethel Williams place between Eldorado and Christoval. Right-of-way for the line is being cut and poles are to be put up on the H. C. Williams place in Tom Green County, then the route veers to the west.

## SOUTHERN GEOPH. UPS ITS FORCE TO TOTAL OF 50

With fifty men at present on the payroll, counting a large number of new employees, Southern Geophysical are concentrating their efforts on Schleicher County.

Retaining a skeleton force of old employees, the company put on a number of new men for work in this county, many of them local residents. Headquarters are in the Robinson (Ogden) building.

## LEGION ELECTS NEW OFFICERS FOR 1947-8 YEAR

The American Legion meeting Thursday night in regular session at the courthouse, selected Gene McCalla as new chaplain, to succeed Clyde Keeney, and Lum Davis, first vice president, succeeding Ray Jones, and reelected the remainder of the old slate.

The complete list of officers is now: Commander, Don McCormick; first vice, Lum Davis; second vice, Earl Parker; Adjutant, Arthur Tree; Chaplain, Gene McCalla; Ser. Officer, H. T. Finley; Sgt. at Arms, B. F. Blaylock.

The second Tuesday in August has been selected as the time for a watermelon feast for Legionnaires and their families. The feast will be held August 14 on the courthouse lawn.

## FUNERAL HOME GROUNDS LEVELED AND WORKED

The ground at the new Radtiff Funeral Home are being leveled and worked, the interior having been completed recently.

Sidewalks and curbs have been built, grounds worked in preparation for sodding, and many loads of caliche used in preparing the un-paved side street for use.

## NEW SON

Born on July 8, a son to Mr. and Mrs. Oren Lee Furr, at Houston. The baby is the grandson of Mr. and Mrs. F. L. Furr of Eldorado and the latter plans to leave this weekend to visit the family. Oren expects to return to Eldorado soon to make his home and will move his family here in a few weeks.

## Burnham Construction Gets Highway Contract

Burnham Construction Co. of Georgetown has been awarded contract for the remaining 14.5 mile strip of Eldorado-Menard Highway, work orders for which will probably be released soon.

Bids for this strip were opened June 25 in Austin, successful bidder being Burnham Construction Co. with a low figure of \$162,607.55. It is assumed that work will start soon.

Where the company will make their headquarters has not been announced — if in Eldorado, construction will start on the west end, and if in Menard, on the East; a construction road marks the right-of-way and the new route and equipment will move over a newly completed strip in either case.

## COLLINS FINISHES JOB

Collins Construction Company completed a "turnkey" job last week on fourteen miles of new road west of Menard, joining seven miles previously completed. This now provides twenty-one miles of good highway leading toward Eldorado from Menard city limits.

## BAND PARENTS PLAN PARTY TO RAISE FUNDS

At a meeting of the Band Parents Club last Thursday evening, it was decided to have a benefit party on Friday evening, Aug. 1 for the purpose of raising money to buy a majorette's uniform and hats for the twirlers.

The party will be held on the West Texas Utilities lawn at 8:00 p. m. and games of 42 will be played with tickets selling at 50 cents each. An advance sale of tickets will be made, and a large crowd is expected to turn out for this occasion which if enough money is raised, will complete supply of uniforms for the Eldorado school band and pep squad. Band uniforms recently ordered to replace those bought at the beginning of the year, are expected to arrive for the opening of school.

## BOYER MOVES ELECTRIC SHOP TO NEW QUARTERS

Ray Boyer, proprietor of Boyer's Electric Shop, has moved to remodeled quarters in the main part of the Eldorado business district, and is now open for business in his new location.

He remodeled the Patton building this month before moving his stock, completely renovating the interior of the building.

His opening in new quarters coincides with his first anniversary as an Eldorado businessman, as it has been just one year since he opened his electric shop. During his year in business he has added several standard lines of electrical goods.

## CONSTRUCTION CO. LEAVES CITY, WORK COMPLETED

Stovall Construction Co., left today after a several-weeks project rebuilding the West Texas Utility Co., lines in Eldorado. In addition to working over the old lines they ran a new line to the negro district, where there are now eight customers—the church, the school and six other places.

## WATER SYSTEM IS TIED IN WITH NEW LINES

City Water Works superintendent Burks has been making the change this week in the city water system by tying the new six inch lines in with the old system. The new lines go to Keeney addition and the Mexican community.

The Fire Department answered a call to help put out a grass fire Wednesday afternoon near the Cramer Sofge place. No damage was done and the blaze was quickly extinguished.

## Youth of County to Organize Saturday For Recreation

### Lions' Club

The regular Lions' club meeting was held Wednesday noon at the Eldo Hotel with the Lions and eight guests present. Mr. and Mrs. James Faust presented a program of six songs, accompanied by Mrs. James Page at the piano. Bob McWhorter was accepted as a new member.

A committee reported on the slow signs to be put at the school zone and at the T. K. Jones highway curve north of town.

Lion Reynolds reported on a proposed recreation program here. He stated that a steering committee had been appointed at the Tuesday night meeting. There will be a meeting Saturday evening at 7:30 at the school to organize classes, he announced.

H. T. Finley reported on the progress of the Memorial Building, for which \$50,000 bond issue was passed a year ago. He stated that priority had not been granted, and urged Schleicherites to write letters giving reasons for our need of this building, such as oil activity, increased population, activities of organizations, lack of other recreational facilities, etc. The inside address should be as follows:

Mr. Perry N. Moore  
Regional Dir., Compliance Div.  
Office of the Housing Expediter  
2001 McKinney Avenue  
Dallas 1, Texas

The envelopes should be mailed, however, to  
Mr. D. C. Maddux  
1004 South Oakes Street  
San Angelo, Texas

Mr. Maddux is the architect of the building and will send all of the letters in a group to Mr. Moore. Finley said that these letters would undoubtedly speed granting of the priority.

## ELDO BEATS ANGELO DODGERS HERE SUNDAY

Jack Griffin's home run in the ninth inning tied Eldorado and the Dodgers, preparing the way for a thirteen to twelve score in favor of Eldorado, here, last Sunday.

This was not a League game, but the two teams will meet Sunday in a conference bout at Lakeview Diamond in San Angelo.

Last Sunday's game was pitched by J. A. Griffin through the seventh inning, and completed by Jack Griffin. There was one home run by J. Griffin, three three-base hits by Parks, Griffin and Bridgeman; thirteen one-base hits by Martin, two; James A. Griffin, four; Upton, two; Halbert, Alexander, Parks, J. Griffin and Scott, one each. There were eight strike-outs, five walks and five errors.

In the ninth inning, Eldo's great man of baseball, Jack Griffin, tied the score with his home run; Scott got on, Upton got a safe hit, scored Scott, then was out on a steal to second base.

The Dodgers had one home run, one second base, three third bases, and ten first bases. Watley as pitcher had four strikeouts, four walks, five errors, and a total score of 12, as opposed to Eldo's 13, at the close of the game.

A crowd is expecting to accompany the team to San Angelo next Sunday, when the same teams will compete for conference rating.

## FAUSTS HONORED WITH POUNDING TUESDAY NIGHT

Honoring Rev. and Mrs. F. B. Faust, members of the Methodist Church attended a dinner in the church dining room Tuesday night, concluding the evening with a "pounding."

During the evening a number of musical selections were given by Mr. and Mrs. James Faust, with Mrs. Charlie Trigg and Mrs. F. B. Faust alternating at the piano, and the singers responding several times with encores. Announcements concerning opening of the revival were made, and plans outlined for the Rudd and Eldorado meetings.

Children and young people from six years of age up are asked to meet at the schoolhouse Saturday night at 7:30, to indicate preferences for types of activity to be carried out in Schleicher County's summer recreation program, now being launched.

The meeting Saturday night will probably result in actual launching of the project, which has been under discussion for some time.

An expression of opinion will be asked for, concerning the type of recreation desired, and an effort will be made to concentrate on a few activities for the more efficient handling of the various sports.

Interested parents met on the Utility Company lawn Tuesday night, to make preliminary plans to select a date for the organization meeting. Committees now on the job include:

Policy making committee: Mrs. S. D. Harper, Mrs. Carroll Ratliff, W. R. Bearce, W. C. Doyle, and C. A. Reynolds.

Crafts committee: Billy Frank Blaylock, E. W. Perry, Perry Pennington, and E. W. Mund.

Canteen and gym: Mrs. S. D. Harper, Mrs. Arthur Mund, Mrs. E. W. Mund, Mrs. Carroll Ratliff, Mrs. Jerry Pennington, and Mrs. Leslie Baker.

Finance: Shorty Doyle and W. R. Bearce.

It is tentatively planned to group the children and young people into two main sections, ages six to high school and high school and older, each age group to have two nights recreation per week.

The program may consist of two main divisions: Crafts, composed of leather work, wood work, etc., and Recreation, consisting of tennis, croquet, archery, badminton, table tennis, softball, volley ball, football, swimming and skating, and directed games.

Lighting of the tennis courts and other preliminary preparations will be made soon so that the program can get underway at once.

## TRUCK OVERTURNS

Considerable damage was reported done to Ernest Finnegan's Gulf truck when it overturned out in the country Monday afternoon. O. B. Johnson, who was driving the truck, which turned over twice, escaped injury. The vehicle, which was badly damaged, was taken in to San Angelo Tuesday for repairs.

This is the second accident for the truck, which met with a similar wreck a few months ago.

## EXAMINATION ANNOUNCED

The Civil Service Commission announces an open competitive examination for probational appointment to the position of substitute clerk at the post office at Eldorado.

Applicants must actually reside within the delivery of the Eldorado post office.

Applications must be filed not later than July 24, 1947.

Further information, and necessary blanks may be secured at the local post office.

## MRS. STIGLER ILL

Mrs. John Stigler, who became ill while visiting at Hico with her parents, Mr. and Mrs. G. C. Wright, is improving at her parents' home following a week at the hospital in Hico. She was removed from the hospital Tuesday. Mr. Stigler took his wife and baby to Hico the week end of July 4, and he returned here while his family remained for a visit. Mrs. Stigler will be confined to bed for about two more weeks before she will be able to return home, it was reported.

## NEW SON

A son weighing 8½ pounds was born in a Mineral Wells hospital Saturday, July 12, to Mr. and Mrs. James Kimbro. Mrs. Kimbro is the former Maxine Rampey of Eldorado.

Grandparents are Mr. and Mrs. Clarence Rampey of Christoval, and Mr. and Mrs. Kimbro of Weatherford. Mrs. Rutha Boyer of Eldorado is the great-grandmother.

## SIX DAUGHTERS HAVE REUNION AT SAN ANGELO

An enjoyable day was spent July 12 at the home of Mr. and Mrs. R. W. King, 71 East 19th Street in San Angelo, when six daughters and the youngest son of the late Stephen and Amanda Alexander, pioneers of Burnet and Lampasas got together accidentally.

Those present were Mrs. Dena White of Eldorado, eldest of the group; Mrs. R. W. Bennett of Kenedy; Mrs. Lyda Marrs of Beaumont, California; Mrs. Laura Wooten and daughter, Kay, of Seattle, Washington; Mrs. Paul Cox of Corpus Christi; Mrs. Jack Berry of Lampasas, and Frank Alexander of Marble Falls. Another brother, Sam Alexander of Lake Victor, was unable to be present.

A picnic dinner was served in the park to the above mentioned and to Everett Wooten, brother of Mrs. King, and family of Abilene; a sister, Mrs. Jack Smith and son of San Antonio, and Mr. and Mrs. King. The afternoon was spent in eating watermelon and taking pictures.

## R. E. A. WEEK IS PROCLAIMED BY GOVERNOR

Commemorating twelve years of progress in the electrification of rural areas, the week of July 13 to 19 has been proclaimed by Governor Beauford Jester as Rural Electrification Week in Texas. A copy of Governor Jester's proclamation was received this week by Don McCormick, Manager of the Southwest Texas Electric Cooperative, which serves 215 rural families in this area with electric lights and power.

The governor's proclamation, issued in Austin, points out that the percentage of rural homes in Texas having electric service has increased from 2.3% to 55% during the past twelve years.

"More than 160,000 farm and ranch families of Texas now enjoy the benefits of electric lights and power through cooperatives which they, themselves, own and operate," the proclamation stated.

"Each of the 75 rural electric cooperatives operating in Texas is a free and independent, tax-paying business enterprise, owned and controlled by the farmers who receive service along its lines," the governor pointed out.

"The money to build rural power lines is loaned, not given, to the cooperatives by the Federal government and is being repaid with interest on or ahead of schedule, thus representing no cost to the tax-payer. Not a single electric cooperative in Texas is delinquent in the repayment of its loan to the Government, while more than a million dollars has been repaid in advance of date due."

"Electricity has brought about a wholesome revolution in farm methods, production and living standards; has lightened the drudgery of farm tasks and increased farm output and profits; has been instrumental in keeping young people on the land; and has promoted the general welfare not only of rural people but of urban residents as well, whose prosperity and well-being depend upon a sound and prosperous agriculture," the proclamation stated.

Rural electric cooperatives of Texas will hold their annual statewide meeting in Austin July 18 and 19th. The Southwest Texas Electric Cooperative will be represented at the state meeting by Don McCormick of Eldorado, manager.

## SEWING CLUB MEETS

The Eldorado Sewing Club met Wednesday, July 9 at 3:00 p. m. in the home of Mrs. Palmer West for an afternoon of sewing and visiting. Refreshments were served during the social hour to fifteen women and nine children. The next meeting will be held on July 14 in the home of Mrs. N. E. Britton.

## WEDNESDAY BRIDGE

Mrs. Carrol Rathiff won high score when the Wednesday Bridge Club met last week in the home of Mrs. C. A. Reynolds. Other prizes were awarded Mrs. Horace Linthicum, bingo, and Mrs. Jimmie West, cut. Those present were Mmes. Leslie Baker, W. R. Bearce, Edward Meador, Pat Finley, Rathiff, Carrol White, and Linthicum.

## Washington News Letter

By Cong. O. C. Fisher

### Fuel for Inflation

The cockiest man in Washington these days is old John L. Lewis. A reporter who was present when Lewis signed the new contracts with the coal operators told me the mine workers' Dictator beamed and boasted of his power.

As you know, the new agreement ups hourly wages of miners from an average of \$1.47 to almost \$2.00. In addition, the direct royalty tax imposed on each ton of coal is doubled to ten cents. The total take in this fund will now approximate \$35 million a year, perhaps a little more.

The impact of this increase will be reflected in the increased cost of living to the American people. The price of coal will jump about 75 cents a ton to the consumer. Industry will, of course, pass the increased cost on to the consumer of manufactured foods. And so it goes.

The new contract was made under pressure from the steel industry. It was that industry that in February of last year yielded to CIO's Phil Murray's demands after the big strike, and resulted in the Government's wage stabilization program being discarded. Then followed the upsurge of wages and prices, and the cost of living boomed. So from the standpoint of the welfare of the worker, Murray's paper victory was of little value.

Indeed, in August of 1946, the AFL, smarting from the sting of the increased cost of living, put the blame squarely on the tactics of the CIO in breaking the wage line. Here is what AFL said about it: "Practically the entire living-cost rise occurred since the steel workers forced the price-ceiling break in February, and as a direct result of that break."

It follows that the Lewis victory may be a paper victory, as was that of Phil Murray. It will mean the miners' dollar will not buy quite as much, and other workers will make similar demands. Wage levels will advance, and so will the cost of what the worker buys. The family budget for all people will have to be worked up.

In forcing the big concessions from the coal operators, Lewis snarled and roared defiance at Congress. He boasted that he would beat every member who voted for the Taft-Hartley bill.

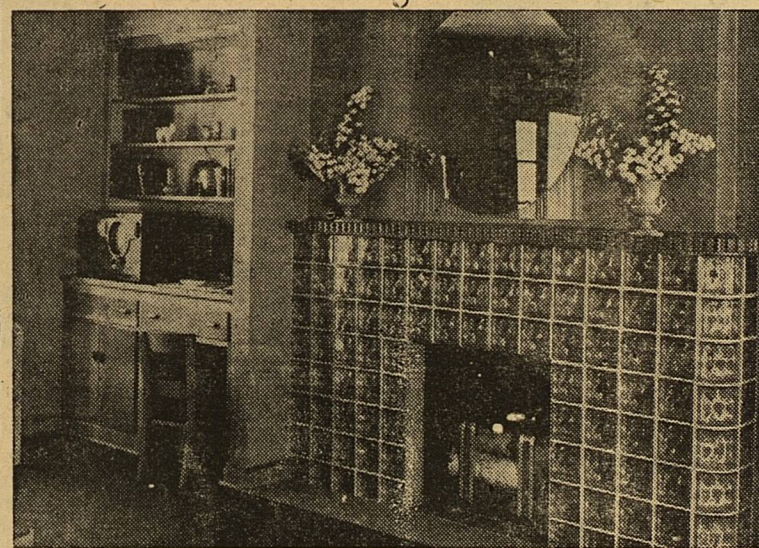

The coal miner's had good reason for not liking the bill. Among other curbs, it requires that welfare funds such as those for the miners, must be under a joint control of industry and the union. That means that Lewis cannot dictate the spending of that \$35 million a year, and he doesn't like it. In the past he has used sizeable sums of miners' funds in political campaigns, and that authority will be curbed in the future.

Another labor czar who was in the news last week was Ceasar Petrillo, President of the American Federation of musicians. As such he rules with an iron hand over what music can be recorded, what bands can broadcast, etc. It is said his monopoly control over the professional musicians of the country equals or perhaps exceeds that of John Lewis over the coal miners.

As a member of a House Labor sub-committee, I questioned Petrillo at length regarding his future plans. He said he will not make new contracts with any recording companies after present ones expire in December, and that beginning on next February 1st, no big-time bands will be permitted to broadcast over the networks.

The Music Dictator admitted the Taft-Hartley law has curbed much of his power, such as requiring stand-by orchestras to be paid when amateurs are broadcasting. He said if permitted by anti-trust laws, his union may become the exclusive makers of records in the future. The committee is probing all angles of Petrillo's ruthless power, and plans to recommend needed laws to further protect music lovers and the American people from his abuses.

## Decorative Glass Streamlines Modern Room

Glass blocks around a fireplace surmounted by a mirror add sparkle to large, modern living rooms.

"WHETHER you're planning to build or remodel, you'll be interested in the new ways glass can bring beauty into your home," says Betty Swan in an article in Capper's Farmer, a leading farm magazine.

"Glass blocks and decorative flat glass, now so popular, may be used to streamline any room," she declares.

### Plastic Diaper Cover Cuts Baby's Washing

HOME-MADE plastic diaper covers fashioned out of the same kind of material used in shower curtains can save young mothers an endless amount of washing, Mrs. Robert C. Miller points out in Capper's Farmer, a leading farm magazine.

Mrs. Miller says that before she thought of this idea, that everything in her young son Cleo's bed had to be changed almost as often as his diaper.

"I tried rubber pants," she writes, "but they cut his fat little legs."

"So I bought three-fourths yard of plastic material. The 40 inch fabric was cut in half lengthwise. Each 20 x 27 inch piece was doubled

to a 20 x 13 1/2 size and sewed together at the edge opposite the fold. The narrow seam was turned to the inside. Then a three-quarter inch hem was stitched at each end. Through these turn-downs I threaded cotton tape.

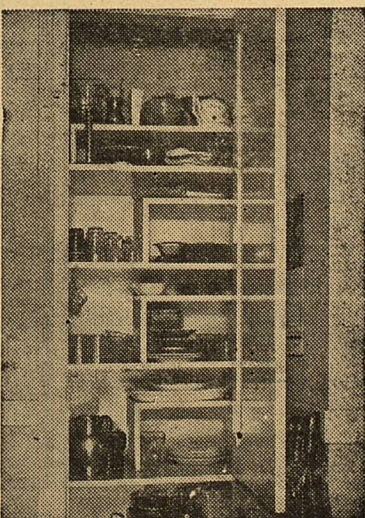

"Each of the two finished articles measured about 13 inches wide and 18 1/2 inches long. After I pin the diaper on the baby, I put the cover on and tie at each side. The material is soft and folds between the legs. The extra width is gathered in at the top by the drawstrings. The covering is no more binding than the diaper; yet it keeps his sleepers and bed dry at night and his rompers clean during the day."

This simple device, writes Mrs. Miller, has greatly reduced washing.

"As windows, doors, partitions or partial screens they are practical as well as ornamental. They let in light from outdoors, or another room but cannot be seen through readily. They are easy to clean.

"Used as a semipartition or in archways, glass blocks give a modern touch and reflect light."

### Step Shelves Save Space in Cupboards

"PROBLEM CUPBOARDS" with deep shelves are wasteful of space," writes Rose S. Florea, in nationally-circulated Capper's Farmer.

"A section of step shelves or narrow straight shelves between wide ones gives more space," she writes in the magazine read by 1,300,000 farm families. "Little stacking is necessary. Such shelves use the space between articles on a shelf and the shelf above. They are easily constructed to fit any cabinet and can be made from scrap lumber."

### Making Toy Shelves

An old set of bookshelves painted to harmonize with the surroundings makes a convenient place for children to store toys, according to the Rural Home editor of nationally-circulated Capper's Farmer. The playthings are kept in better condition than if thrown helter-skelter in a box.

### Clear Wine

To clear wine that is cloudy add one cup of sweet milk to one gallon of wine. Let stand 10 days or two weeks. Then siphon the liquid into another vessel.

### Entered Wyoming

The first white man known to have entered the country that is now Wyoming was John Colter, a member of the Lewis and Clark expedition.

Part it in the middle?

**ALL RIGHT,**

maybe Bert the Barber doesn't know a kilowatt from a cable, but that does not stop him from being one of our bosses, just the same.

Surprised? Didn't you know your electric light and power company is owned by Bert, and a lot of people like him—and like you, too?

People from all walks of life—doctors and industrial workers, teachers and farmers, mechanics and milkmen—have put some of their savings into our company. Those people are direct owners.

But there are countless indirect owners, too—many (like Bert the Barber) who haven't an idea that they have a stake in the electric industry. Those are the people who have savings accounts or life insurance policies. Nowadays, that means practically everybody!

Here's how it works: When banks and insurance companies accept your money, they must invest it wisely—and soundly. And because business-managed electric companies have a long record of faithful service, much of this money is invested in their securities.

So you, too—like Bert the Barber—are very likely to be one of our bosses.

**FORMER MGR. OF TELEPHONE DIES ON MONDAY**

Fred O. Green, 67, former telephone company manager here from 1922 until 1930, died at his home in Robert Lee at 5:15 p. m. Monday after a long illness which became critical June 27. He had resigned his position as city secretary and manager of the Robert Lee water works which he had held since 1934, on July 3.

Funeral services were held at 4:00 o'clock Tuesday afternoon from the Robert Lee Methodist Church with the Rev. J. Howard Estes, officiating, assisted by the Rev. Fred D. Blake, pastor of the Robert Lee Baptist Church. Burial was in the city cemetery with the Clift Funeral Home in charge.

A son of the late Mr. and Mrs. G. C. Green, Mr. Green moved to Robert Lee from Merton, where he was connected with the San Angelo Telephone Co. He was manager of the Robert Lee branch until 1922 when he came to Eldorado to manage the office, here holding that position until 1930. He was well known in Eldorado, having been active in church and civic affairs.

Mr. Green returned to Robert Lee in 1934 holding the position of city secretary and water works manager until his recent resignation.

Mr. Green was married to Mrs. Sammie Smith Turney at Robert Lee on Dec. 31, 1916. He was a member of the Robert Lee Methodist Church, and held a life membership in the Masonic Lodge in Eldorado.

Survivors include the widow; two children, Mrs. John Maxwell of Alexandria, La., and Fred O. Green, Jr. of Texarkana; a stepdaughter, Miss Mozelle Turney of New London; two brothers, M. M. Green of Yerma, California, and G. C. Green of Long Beach, California; a sister, Mrs. Frank Anderson of New Laguna, N. M., and two grandchildren.

**Halls Return**

Mr. and Mrs. Wyndall Hall and family returned last Thursday from an extended vacation trip to points in Texas, Oklahoma, Arkansas and California. Included in their trip was a visit to Ft. Worth, where they spent three days with Mr. Hall's sister and took the children to the zoo. From there, the family went on to Benton, Ark., where they spent eight days visiting with Mr. Hall's parents and relatives of Mrs. Halls at points in Oklahoma.

Leaving there on June 18, they went on to points west and enjoyed an interesting trip across the desert and through Arizona, New Mexico, and on into California where they visited with Mrs. Hall's parents, Mr. and Mrs. J. W. Romine. The return trip was made through Oklahoma where they again stopped for a visit with relatives. They were accompanied by Oklahoma by Mr. and Mrs. Romine, who after a visit with their daughter in Okla., will come to Eldorado some time in August for a visit here.

**On Eastern Trip**

Mrs. D. E. DeLong and her granddaughter, Emily Ann Harper, and Mrs. H. H. Morehouse of Dallas left Sunday morning by car for Chicago, Ill. where they will spend one day before taking the train for New York City, and from there will go to Westerly, R. I. for a visit with Mr. and Mrs. Julian Morehouse and family. They expect to be away about three weeks.

Mrs. S. D. Harper and Jane Mund accompanied Mrs. DeLong to Santa Anna last Friday where she met Emily Ann, who has been spending the past six weeks there studying music. Mrs. DeLong and Emily spent Saturday night in Grand Prairie with Mr. and Mrs. Sidney Morehouse, before going on to Dallas where they joined the Morehouses.

Julian Morehouse is a son of Mr. and Mrs. H. H. Morehouse, and his wife, the former Jetty DeLong, is a daughter of Mr. and Mrs. D. E. DeLong.

Toby Donaldson is the owner of a new Pontiac car.

Because of the recent death of Harry Coupe, owner of a ranch north of Eldorado, the present renters, the Springstuns, will remain on the ranch. Mr. Coupe and his wife had planned to move here soon.

**From where I sit ... by Joe Marsh**

**Sam Helps with the Dishwashing**

Dropped in at the Abernathy's just the other evening—and there was Sam, out in the kitchen with an apron on, helping his missus wash the supper dishes. (And then I learned later he'd helped cook the supper, too.)

Of course, Sam could have settled into his favorite chair, enjoyed his evening glass of beer, and left all the messy kitchenwork to Dixie. But he kind of likes her company—and she in turn certainly appreciates his help.

In fact, sharing the housework and the mealtime chores is sort of a bond between them . . . like sharing that friendly glass of beer together, when the work is done. It's one of those little all-important things in marriage.

From where I sit, the time that a man and wife can spend with each other in this busy world today is all too precious. And the more things they can do together, the better.

*Joe Marsh*

**Antelope Hunt Set For October**

Four controlled antelope hunts have been scheduled for October by the Game, Fish and Oyster Commission. The first hunt is slated for Brewster, Jeff Davis, Pecos and Reeves Counties on October 2, 3, and 4. The second hunt is set for October 6, 7, and 8 in Presidio County, south of the Southern Pacific Railroad tracks. Jeff Davis County gets the third hunt October 9, 10, and 11. The final hunt will be in Hudspeth and Culberson Counties on October 13, 14, and 15.

Present plans call for the issuance of 600 antelope hunting permits. This number may be increased or decreased after a count

of the antelope is made in August. Application forms for antelope hunting permits may be obtained from the Austin office of the Game, Fish, and Oyster Commission. The hunting permits will cost \$5.00. If more than 600 applications are received, the lucky 600 hunters will be determined through a drawing.

Under the rules promulgated by the Game Commission at its meeting last week, 1946 hunt alternates and those who withdrew from the hunt after obtaining a hunting permit will be given priority this year. Next in line for the special permits will be those who did not participate in the 1946 hunt. And if there are any permits left they will be rationed out to those who did participate in last year's hunt but who want to hunt antelope again this year.

Owners of the land on which the antelope are to be hunted are authorized to charge each hunter not more than \$40.00 for the privilege of hunting on his premises.

Rules of the hunt are the same as they were in 1946. Antelope may be stalked, but not chased by an automobile, nor can a hunter take a shot at a pronghorn from an automobile, or shoot blindly into a herd of antelope. Only antelope bucks may be shot and one buck is the bag limit.

**Washday for Lamp Shades Makes Rooms Brighter**

ROOMS will look brighter when you establish a washday for the lamp shades and light bulbs, the Rural Home editor of nationally-circulated Capper's Farmer advises housewives.

"In the days of kerosene lamps it was part of the weekly housecleaning to wash lamp chimneys," she points out in the farm magazine read by 1,300,000 farm families. "But not everyone realizes that electric lighting calls for a regular cleaning program.

"Your lamp shades will give better service and look much better if they are kept clean."

Here are her directions for giving lamp shades a real soap and water treatment:

Remove a parchment or paper shade from lamp; go over it with a cloth rung quite dry from rich suds. Then go over the shade with a cloth wrung out of clear water. Finish by wiping it with a dry cloth. Examine the shade to see if bindings are glued or sewed on and if there are ornaments that might not be wash-

able. These should be cut off before washing.

Make up a tub of good rich, lukewarm suds. Plunge the shade up and down in the suds. Rub obstinate spots gently with two well-soaped fingers. After the shade is bright and fresh looking, give it several rinses of the same even lukewarm temperature.

Stand the shade to dry on a bath towel, away from sunlight or direct heat. You can hasten drying by blotting the shade between the palms of your hands with another bath towel. When the shade is partially dry, reverse its position.

Don't forget, too, that electric bulbs should be cleaned regularly. Do not try to wash the electric bulbs in their sockets. The best way is to remove the bulb from the socket and wipe with a soft cloth wrung out of soapy water. Hold the bulb by the metal end while wiping the glass with the soapy cloth. This minimizes the risk of wetting the metal part. If the metal part of the bulb does get wet, be sure not to screw it back into its socket until it is completely dry.

Mrs. W. T. Parker and daughters, Ruth and Mary Jo spent several days last week visiting in Iraan with Mrs. Parker's sister-in-law, Mrs. A. D. Dorris and Mr. Dorris. They were accompanied home Saturday by Mr. and Mrs. Dorris, who spent the week end visiting here with relatives.

Mr. and Mrs. J. D. Ashmore are expecting their son, J. D., Jr., home on furlough this week. Junior is a tech sergeant in the air corps.

E. H. Topliffe has moved his wholesale storage tank and supplies from the depot to a location near the J. H. Wagley place on the San Angelo and Eldorado highway.

Patsy Jo Locklin of Menard visited this week in the home of her uncle and aunt, Mr. and Mrs. Edwin Jackson.

Mrs. Lon Abernathy of Aspermont visited Monday with Mrs. Bert Page and family.

Miss Edith Clark of Richmond, Va., who is assisting with the Presbyterian bible school, is a guest in the home of Mr. and Mrs. Edwin Jackson.
