Stop! Look! Listen!

If you are planning to build a modern home or any other building, it will pay you to investigate our "featherlight" building units.

You can build a better home! A more beautiful home! And save money, too.

Here's the answer to the post war building question: "Featherlight" Building Units, "Vibrapac"—Oil treated—Steam cured.

Builds everything from modest garage to skyscraper.

"Featherlight" concrete blocks has attracted the universal attention of engineers and architects, because it has solved one of the severest problems of building construction.

"Featherlight" unit walls weigh approximately 20% less than hollow clay tile, 45% less than ordinary concrete blocks, and 60% less than common clay brick.

"Featherlight" unit construction does not merely give you a versatile wall, a lighter weight wall, a lower cost wall; it makes a better wall. The units are uniform in strength, and accurate in size and shape, so the trueness and structural soundness of the wall are assured.

When you build, demand the best—BESSER "VIBRAPAC" "Featherlight" building units.

- Immediate delivery.
- Fireproof.
- Safety against dampness.
- Lighter weight.
- Great Strength.
- Sound Insulation.

NOTICE! Dog Owners

A committee of sheep men met with the city council Tuesday and related their loss of sheep from stray dogs and asked the city to help eliminate this trouble.

The Council passed an ordinance placing a tax of \$5.00 on all dogs within the city limits — to go into effect Sept. 27th.

After that date all dogs without license tags will be placed in pound for three days, and if not redeemed, will be destroyed.

Owners are asked to call at the city hall and register and pay tax on their dogs now, or before Sept. 27.

SCHOOL OPENING ATTENDED BY RECORD CROWD

Marking the first anniversary of the new school program, a record breaking crowd attended the opening of the Eldorado school Monday morning at which Supt. C. A. Reynolds introduced seven new teachers to the audience.

The morning's program opened with a song "America" led by Wyndall Hall, a prayer by the Rev. F. E. King, Presbyterian pastor, and two numbers, "Activity" and "Project" by the Eldorado school band, led by C. F. Jones.

Supt. Reynolds made a short welcome address, expressing his appreciation for the splendid response and interest shown in the new school set-up which was launched one year ago. He expressed himself as pleased at the co-operation shown, which has proved that parents are particularly interested in the program and in their children.

The Rev. J. M. Hays, pastor of the First Baptist Church, on behalf of the churches of the town, welcomed the new faculty members and extended them an invitation to attend the church of their choice. He expressed his happiness in noting the progress, development and achievement in the Eldorado school since he came here more than seven years ago.

In introducing Mrs. Carroll Ratliff, president of the PTA, Supt. Reynolds stated that the very active Eldorado organization was 100% in supporting the school. Mrs. Ratliff extended a welcome to the parents and teachers, asking their support in the organization which has as its prime purpose the uniting of the forces of the home, the school, church and community.

Don McCormick, manager of the Southwest Electric Co-Op., spoke in the interest of safety, urging all school students to use the sidewalks from town which were built especially for that purpose by the Lions Club and Highway Dept. six years ago. "You may help save a life by using the sidewalk," stated Mr. McCormick in his message.

In connection with this, Reynolds

asked that no cars park in front of the school building so that a clear vision might be had on this street, and stated that the Lions Club were cooperating in putting up warning signs on the highway in order to help prevent accidents.

Mrs. E. C. Hill, on behalf of the faculty, extended a welcome to new teachers and patrons, asking their confidence and support in making this the very best of schools. She urged that parents visit the school and talk over problems with the teachers.

Following the introduction of new teachers, Supt. Reynolds made announcements concerning an all school program similar to the one held last year, which is being planned for the near future; bus, school time, and football schedules; and lunchroom prices which are, through necessity, being raised to 30 cents this year.

C. F. Jones, band director, made announcements concerning the band, and stated that no new students below the sixth grade would be entered in the band this year. He also asked to meet parents of new students some time this week.

The program closed with the school song, "Hail Eldorado" led by Mr. Jones, and played by the school band.

FRED SMITH IMPROVED

Fred Smith, Schleicher County ranchman, who was seriously injured several weeks ago when kicked in the chest by a horse, and who spent some time in a San Angelo hospital, is able to be up some, although it will be quite awhile before he is entirely well.

Injuries received included several broken ribs, a chest injury, and a partly collapsed lung.

Mr. and Mrs. Smith were shopping and visiting in Eldorado Monday.

FAMILIES MOVE

E. F. Baker has moved from the Will Davis East Ranch to the Virge Tisdale Ranch. The Bakers have one son who rides the school bus to Eldorado.

Ray Doyle, who has been at Tisdales, is moving to the Schooley house in Eldorado and expects to work in the oil field. The Houston Thigzpens, who have been occupying the Schooley house, have made plans to move soon to the Victor Kent place, leased recently by Truett Stanford.

Mr. and Mrs. Charles Frieble and daughter, Marianne, who moved here recently from San Angelo, moved Friday into the Ray Jones rent house, a renovated army barracks located across the street from the Ray Jones house. Mr. Frieble is employed with the Petty Co. Iris Brooks, who is employed in

San Angelo, spent the weekend in the home of her brother-in-law and sister, Mr. and Mrs. Albert McGinnes.

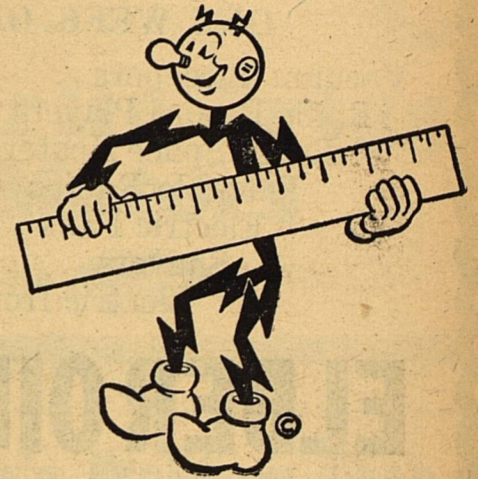

The Will Doyle's son-in-law, Richard Bihartz of San Antonio, who was operated on recently, is still improving, according to word from his wife.

Mrs. A. O. Marsh, who has been spending the summer here with her daughter, Mrs. E. E. Newlin, returned to her home at Temple last week, accompanied by Mrs. Newlin, who spent the night there and then went on to Austin for a visit with her son, Willard Newlin. She returned home last Thursday.

Can Your Home "Measure Up"

to modern standards of Convenience and Comfort?

MODERN people don't want old-fashioned transportation—they want 1947 automobiles. Modern people are like that, too, about their homes. They want them to "measure up" to 1947 standards of convenience and comfort. But many a lovely-looking home has grown "old before its time."

Does your home measure up? Only the all-electric home can meet today's standards. With electric appliances, the last word in cleanliness, convenience, and safety, you can make your home "measure up." A modern home deserves modern electric living.

Electric service is a bargain! Living costs continue to increase, yet the cost of a kilowatt hour of service to residential users has **decreased one-third** in the last 14 years.

Four out of every 10 youths leave school for lack of money. Most of them want—and need—all the education they can get.

Now, Let's See... Where Shall I Go to College?

WHERE I go to College will be my biggest problem about 15 years from now—not *whether* I go, but *where*.

You see, Daddy and Mother have already determined that I *am* going. They assured that with a Southwestern Life Educational Policy. It guarantees that I'll get to finish High School, as far as money is concerned, and then go on to a College of my choice.

It provides funds for my College tuition; for my College books; for my clothing, room, food, and incidental expenses, too. Every bit of that is taken care of in my Southwestern Life Educational Policy. So I don't have to worry about *that*. All I have to worry about is *where* I shall go to College...

College training prepares a boy or girl to think... equips them with the *know-how* they will need in business, in a profession, or in the home... gives them a chance in the future. Through Southwestern Life Insurance, you can guarantee your youngster a real opportunity in life. Whatever your income, there's a Southwestern Life plan to fit your needs. This is the architect's plan for the main recreational building, which Schleicher County residents had hoped to build before bids were opened at a recent meeting of the commissioners' court. The original

plan called also for swimming pool and other recreational facilities, high, low bid being \$84,240. The completed park to be financed by a bond issue of \$50,000, and what they will do: whether they to be called Schleicher Co. Memorial Park. The bids were rejected as too

There is a possibility that they they may do the work locally—a plan which might be a subject for discussion at the next meeting of Commissioners' Court.

PTA TO HOLD GET-TOGETHER NEXT TUESDAY

"The More We Get Together" is the theme for the first meeting of the Parent Teachers Association Tuesday evening, Sept. 16 in the school gymnasium at 8:00 o'clock. New teachers and new residents of the community are especially invited to this "get acquainted" meeting of the organization which will include a welcome to teachers and patrons, a recreation period and a social hour with the executive committee as hostesses.

"Living and Working Together" is the subject for the year's program and outstanding speakers from time to time on the monthly programs. Four night meetings have been planned for the year, including the initial meeting, providing an opportunity for fathers as well as mothers to attend.

The outstanding purpose of the PTA is to promote the welfare of children and youth in home, school, church and community, and it is with this purpose in mind, that members of the program committee have planned an interesting and worthwhile series of programs.

An outstanding feature of the program will be the appearance of the school band, who will play several numbers, and the majorettes and twirlers, who will perform during the musical program.

Mrs. F. B. Faust is on the sick list.

New Traffic Law Bad For Road Hogs

The new Texas traffic law, going into effect Sept. 5, will make things rough for those people who think they are the only ones on the road.

The person who drives up in the middle of the road, or wanders from one side to the other, will now be liable to arrest. So will the person who passes one vehicle when another is coming to meet him.

A driver must stay on the right except when passing, when driving on a one-way thoroughfare, or when the right side of the road is blocked.

The middle lane of a three-lane highway is to be used for passing and for making left turns, and then only when nobody is using it from the other direction.

One vehicle may not pass another when they are at, or approaching an intersection or railroad crossing; when approaching a bridge, viaduct or tunnel; or when in a designated No Passing zone, marked by a broken stripe or any other means.

The question of right-of-way is clearly defined in the new law. The vehicle that gets into an intersection first has the right-of-way. If two vehicles get there at the same time, the one on the right has the right-of-way. In other words, if the other car is on your right, you must let it go ahead. If it is on your left, it should let you go ahead.

When you are making a left turn at an intersection, you must not cut in front of other vehicles so as to

create a hazard. But you may turn ahead of opposing traffic after you have signalled for your turn and let the cars by that are in, or right at, the intersection.

Observance of rural stop signs—whether on highways or county roads—has never been enforced, because the old law did not actually make it a violation to run a rural stop sign. But it's a different story under the new law. Those signs now mean STOP. Furthermore, after stopping, you must be careful not to start up again in such a way as to interfere with other traffic, thereby creating a hazard.

Hay-wagon turns are outlawed. To make a left turn, you must start the turn from the position nearest the center of the street or road. A right turn must be made only from

the lane nearest the right side of the street or road. Turns should be short, not on a wide angle such as one must make when he's driving a hay-wagon with a double span of horses.

Mrs. J. A. Whitten, accompanied by her niece, Mrs. E. B. Patterson of Midland, left Wednesday for California where they will visit with relatives. The trip was made by train.

The Floyd Farringtons have leased their ranch northeast of town and are moving to Girvin where Mr. Farrington will work for the utility company where he was formerly employed.

Mrs. G. A. Neill is visiting in San Angelo with her sister this week.

Big engines... long trains

mean lower cost to you!

But union leaders want "half-trains" - double crews!

Big locomotives are built to do a big job in the big country which is America—a big job in peacetime as in wartime. They are built to pull long trains.

Long freight trains can handle more goods at less cost—to you—than short trains.

Long trains mean fewer trains—fewer chances for accidents—fewer interruptions to traffic.

But a few railroad union leaders oppose long trains—among their current 44 demands for changes in rules is one limiting the length of freight trains to 57 average cars. Why do they demand this?

For "safety," they say. But is it? Government figures show definitely that long trains mean greater safety to railroad employes and public alike.

Then, if safety is not the real reason—what is the reason behind this demand? It is to make more jobs which are not needed—to get more pay! This "made work" would be sheer waste. Think of big, modern locomotives using only half their power.

For this waste, you—the public—would have to pay. Higher costs mean a lower standard of living for everybody. Nobody wants that!

Here's the record...

In the quarter century... 1921-1946...

Average length of freight trains has gone up.....	39%
Average speed of freight trains has gone up..	39%
The rate of injuries to railroad employes has gone down.....	60%
