## Empire of the Ones for the Mighty Eagle Marching Band

**11111111111111111111**  
Eldorado earns 15th consecutive Division "1" rating

by Randy Mankin

It was the worst sort of day to hold a marching contest. Rain, rain and more rain pelted Bulldog Stadium in Brady last Saturday, but the Mighty Eagle Marching Band feasted on the pressure. Taking the field between cloudbursts, the Eldorado Band turned in a near perfect performance to win its 15th consecutive Division "1" rating.

The Eagle Band wowed the judges with "Aztech Fire" and selections from "Empire of the Sun" as it performed intricate maneuvers on the field. Band Director Gina Muela said after the contest, "It was their best performance yet! It was fun to watch and I know the band felt good about the performance."

With 91 students marching, this year's Eagle Band is the largest in recent memory. Also competing were bands from Bangs, Coleman, Junction, Mason, Ozona, Reagan County, Sonora, Wall and Winters High Schools.

Judging the contest were Daryl Trent of Frisco, Louis Thornton of Abilene and James Streit of Vernon. In critiques handed out to the bands after the contest, Daryl Trent praised the Eagle Band for "some very pretty work today" he went on to mention the band's opening and complemented the Flag Corps' work in "adding to the impressiveness of your fine band."

Louis Thornton said the band's routine was a "very good show" employing a "good use of color guard." He congratulated the band on their "overall good marching".

James Streit noted the music was "very spirited" and "well played".

Leading the Eagle Band on the field this year was Drum Major Hillary Hodges. Individual band members are listed below.

### For Your Information

#### Fall Back..Fall Back..Fall Back

Say good-bye to Daylight Savings time this weekend as Americans set their clocks back one hour. Those wishing to be precise about it will wait until 2:00 a.m. on Sunday morning to perform the task. The rest of us, however, will simply turn the clock back before we go to bed on Saturday night.

#### Early Voting

Early voting by personal appearance began Monday morning and continues in the County Clerk's office as the election season goes down to the wire. County Clerk Peggy Williams reported 69 had voted by personal appearance as of the close of business on Tuesday.

#### Odds & Ends

Everyone in the Middle Ages believed - as Aristotle had - that the heart was the seat of intelligence.

#### On This Date

On this date in 1797 the world's first recorded parachute jump was made by Andre-Jacques Garnerin from a hot air balloon 2,300 feet above Parc Monceau in Paris, France. In 1934 notorious gangster Charles "Pretty Boy" Floyd was killed by Federal agents near a farm in East Liverpool, Ohio. In 1975 Air Force Technical Sergeant Leonard Matlovich, was given a "general" discharge by the Air Force after publicly declaring his homosexuality with a photo on the cover of *Time* magazine. After a court battle, his discharge was upgraded to "honorable". In 1979 the Shah of Iran arrived in New York after being overthrown by followers of the Ayatollah Khomeini and other Moslem clerics.

Birthdays of note include: 1811 composer Franz Liszt; 1844 actress Sara Bernhardt; 1907 baseball Hall of Famer Jimmie Foxx; 1938 actor Christopher Lloyd; 1942 actress/singer Annette Funicello 1943; actress Catherine Deneuve; 1963 figure skater and Olympic gold medalist Brian Boitano.

## USF&WS offers \$2,500 reward in Eagle's death

A prank which appeared to involve a football rivalry between Eldorado and Sonora escalated into a federal case last week. Special Agent Curtis Graves with the U.S. Fish & Wildlife Service was called in to investigate the killing of a Bald Eagle. The dead bird was left near the EHS football field last week along with a sign denigrating the Eldorado Eagles football squad and proclaiming that "Broncos Rule".

"Some may view this as a prank but the Bald Eagle is a protected species. We view this as a very serious matter," Graves said.

To emphasize just how seriously the Fish & Wildlife Service views the matter, Graves announced a \$2,500 reward for information leading to the arrest and conviction of the person or persons responsible for the bird's death. Anyone with information is

asked to contact Graves by phone at 830-703-2000 or 210-681-8419.

The dead Eagle was found hanging from a pole between the EHS fieldhouse and the football field on Wednesday, Oct. 14th. Schleicher County Chief Deputy George Arispe investigated and notified Texas Parks & Wildlife investigators who in turn contacted the U.S. Fish & Wildlife Service.

The bird was immediately identified as an Eagle but further study by USF&WS officials determined it to have been an "immature" Bald Eagle.

Graves noted that while he suspected school rivalry played a part in the case he could not and would not rule out that adults were involved. "I will follow this case where it leads," Graves said.

TP&W Game Wardens in Schleicher and Sutton counties are cooperating with the investigation.

## Dinner & Movie deadline Friday

Sign up before noon of Friday, October 23 if you are 55 or older and interested in going to San Angelo on the Eagle Buses for dinner at Luby's and a movie on October 26, 1998. To sign up contact Debbie or Cindy at 853-2514 ext. 230 and get your name on the list. You will get to choose from several movies and get a 10% discount off your meal at Luby's Cafeteria. Remember, the movie tickets are compliments of Schleicher County I.S.D.

The buses will be leaving from the courthouse square at 3 p.m. on Monday, October 26 and returning at 9:00 p.m.

## SCMC ends Boarder Program

Schleicher County Medical Center will discontinue its Boarder Program in its hospital almost immediately. That news came Monday night after the Hospital District's board of trustees voted unanimously to end the long running program.

Present for the meeting were trustees Ricky Fuessel, Delia Pina, Judy Christian, Randy Mankin, Tom Enochs and Lanis Mikeska. Trustee Brian Edmiston was absent.

The move became necessary when it was learned that Medicare regulators would require boarder patients to be seen by a physician at least once per day.

The board had resisted the move since boarder patients are

"private pay" and are not funded by Medicare. But, when regulators failed to back away from the requirement the board decided the added expense of a daily doctor's visit would make the program too expensive for its "private pay" boarders.

"I regret this, I really do," said board president Ricky Fuessel after the meeting. "I wish there was something else we could have done."

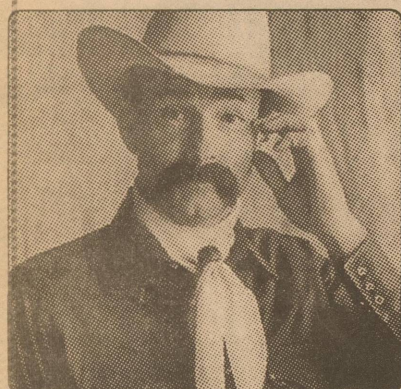

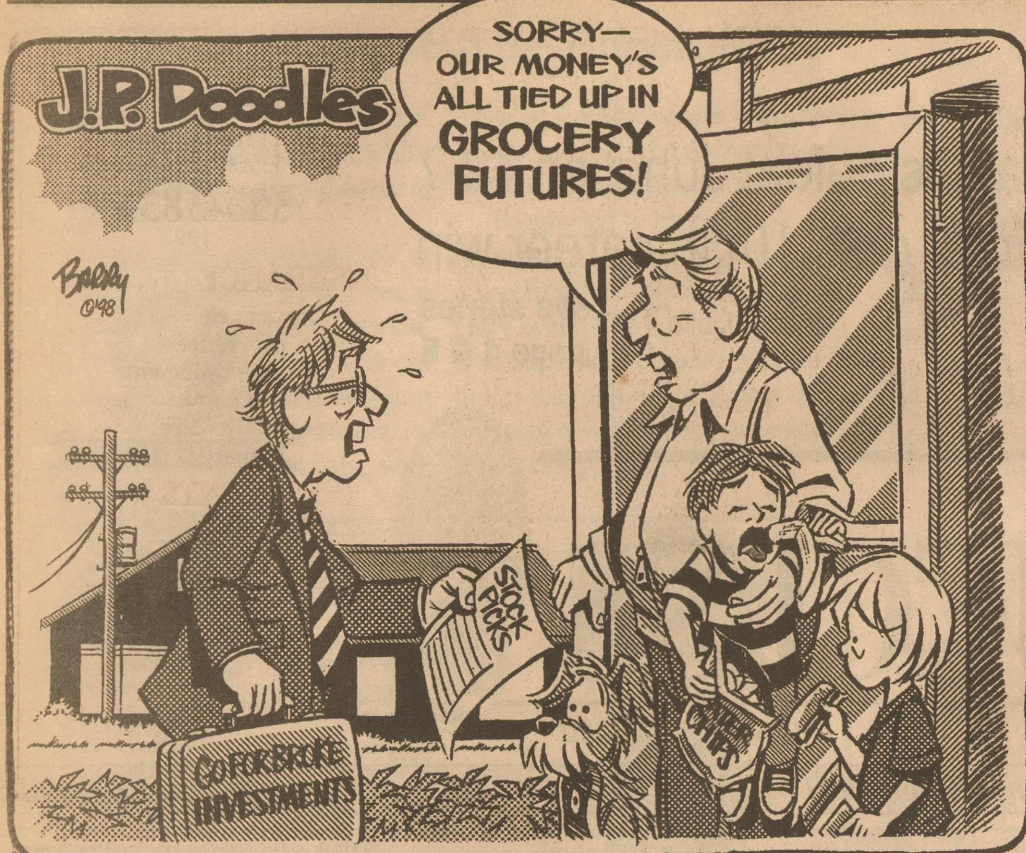

Patients currently in the Boarder Program will be offered beds in SCMC's nursing home. Attempts will be made to place patients in other facilities if they decline to move to the nursing home, it was explained.

## BAXTER BLACK

ON THE EDGE OF COMMON SENSE

### My Cattle Feedin' Partner

"I just bought us a new set of feeders," exclaimed my Texas cattle feeding partner last January. I could hear the excitement in his voice. It was like he had just cashed a twenty dollar check and stepped up to the craps table.

It got me fired up, too. "What are they like?" I asked.

He paused for effect, "They're weighin' 256, they're outta Florida and they're bullet proof!"

I can't remember how I reacted to such an enthusiastic description. Maybe that was when I sold all my mutual funds and bought stock in the Afghanistan tourism industry, or put a down payment on the ranch of my dreams, or told my wife to quit her job.

Anyway, we were in it again.

Early spring he wrote to say, "They're knockin' em dead in the growin' yard."

I guess how you interpret that comment would depend on what you did for a living. I knew he didn't work for a packin' house, so I took it as a positive sign.

The summer 'Goin' to Grass' report cited only 3 deeds with a note that any tailenders, cripples, chronics, pore doers or rat-tailed BVD lungers will be sorted off and sold as team roping steers. The long range forecast was for

rain. "We're counting on El Nino," were his exact words.

If you followed the drought in Texas last summer you might not be surprised to hear that we started protein cubes immediately, with the plan to continue until the "grass gets lush". It was a long summer.

Now we're lookin' at wheat-grass or the feedlot. My partner continues to be optimistic and it's like talking to a Sunrise Rotarian. "We're still okay," is the by word, "grain's cheap."

Well, your guess is as good as mine as to how we'll come out on the deal. I'd like to make a little on the steers but either way I think I'll be disappointed when the ride ends.

It's more fun than the stock market and no broker could be near as entertaining as my partner.

So, when he calls next spring and says, "I've got the perfect deal. They're weighin' 485, they're Holstein cross outta Puerto Rico and they're just like money in the bank."

I'll say, "Count me in. Should I go ahead and get the Corvette now?"

Quote from a Nebraska cattle feeder last summer, "The ones that made the most are the ones that died of sickness early."

Bobby Freeman was in Brady last Saturday. Although I've never met him, I know he was there and I can tell you a lot about him.

First of all, Mr. Freeman bought gas while he was in Brady. 23.964 gallons, to be exact. He purchased the gas at the Texaco Travel Center at 2340 S. Bridge St. in Brady where he paid \$1.169 per gallon for the fuel. By the way, it was "Unleaded Plus".

There's something else I know about Mr. Freeman... his Texaco credit card number and its authorization code number.

All this information I gleaned from the receipt which he, or someone who was using his card, failed to take from the pump at the gas station.

When I pulled up to the pump the receipt was hanging there for the world to see. Judging from the time stamp on the receipt, I barely missed Mr. Freeman. If I had seen him I would have reminded him not to leave this important portion of his credit history. Instead, I came along two minutes too late...and now I know more about him and his business than I should.

I've noticed this problem at other pay at the pump stations around the

## OVER THE BACK FENCE

by Randy Mankin

area. Fortunately, the ones in Eldorado omit enough of the customer's information to render the data which is printed on the receipt useless to anyone but the authorized card holder.

The pumps at Eldorado's Texaco Star Stop, for example, will print a receipt for you but you must request it. Even then the name of the card holder is left off the receipt. That's a good safeguard and I appreciate John Phillips and his employees looking out for my best interest.

Other dealers haven't given the matter that much thought, however.

I have a Shell credit card which doubles as a Mastercard. In the wrong hands, my name and account number might cost me dearly. So I try to be careful not to leave my receipts. But the day to day distractions of life make it difficult to always remember. Who knows, Mr. Freeman may be careful about his credit cards, too.

Changing the subject, I want to

mention a couple of milestones. Kathy and I were in Brady to watch the Mighty Eagle Marching Band notch up their 15th consecutive Division One rating at the Region VII U.I.L. Marching Contest. Think of it, the last time the Eagle Band didn't receive a Division One rating was in 1983. Amazing!

The EHS Band, its Director Gina Muela, Assistant Director Thomas Hollingsworth and Flag Corps sponsor Kara Sue Garlitz did us proud...again.

The night before, I was honored to be on the sidelines as Eagles head coach Jim Fryar tallied his 100th career victory. I'm sure he will try to divert the credit for this achievement away from himself and toward his present and former players and coaching staffs. But his record speaks for itself.

Take this season, for example. Coach Fryar asked the Eagle fans at the beginning of the year to be patient. He said this young team would improve and they have. Now, with only three weeks remaining in the season, the Eagles are in the hunt for their 5th straight playoff berth.

Eldorado is a town that has grown accustomed to winning...whether it's the band, the football team or a U.I.L. speech competition. And, when you expect to win, you often do.

### Is Life Fair?

I spoke to a fifth grade class the other day. I had a good time. I was impressed with how smart the kids were. They answered questions, asked a few and were attentive. After doing some yo-yo tricks and telling them about some of my fifth grade experiences (like when I misspelled the word crochet and thereby missed being the champion speller of the school), I got down to the main topic of the day: truth, fairness and building goodwill.

We got into some pretty deep discussions, especially for a fifth grade class. One youngster seemed so very bright. His hand shot up every time I asked a question. I could tell right away he was the best student in the class.

At one point when we were discussing fairness in dealing with people and situations, that bright student raised his hand. When I called on him, he said three words that I was surprised to hear. He said "Life is unfair."

#### Rolling Along With

Tumbleweed Smith

I told him he had probably read that somewhere or heard it from someone. I thought surely he had not lived long enough to come up with that conclusion about life. It was painful to me to hear an eleven year old boy, especially one who showed so much promise, utter what I personally consider to be a negative comment. I may be in the minority here.

I noticed the class got fairly quiet when he said those words. Everybody seemed to withdraw a little. The youngsters became rather pensive. There was a sadness in the room. We spent the next few minutes discussing the comment. After awhile things got back on track and the class lightened up. I was in front of the kids for some forty five minutes, then sat down, feeling that at least the kids had something to think about the rest of the day.

It has been a few days since I spoke at the school. I have told some adults about the comment the youngster made. Most of them agree that life is unfair. Now these are healthy people, above average in every way, able to have everything they want and do exactly what they want to do. And they think life is unfair.

I know that bad things happen to good people. Most of the bad things that have happened in my life I have brought on myself. I take

full responsibility. I don't consider life to be unfair. I think life is what you make it.

Some of the happiest people I have known have horrible, crippling diseases. Their eyes shine and they have positive outlooks. They are thankful for every moment of life and appreciate being alive.

I have talked with successful people who started out in large, poor families living on scraps of food and sleeping in one room. They were fortunate to get an education and build a good life. They don't think life is unfair.

I think life is a gift to be opened daily, and the person opening it should be thrilled with anticipation of what the gift might be. That fifth grader sure got me thinking. I wish him well. I hope he finds some beauty in life and has experiences that will make him realize his potential.

He is worthwhile and full of promise.

I want him to know that.

### Air pollution emitters cutting back, agency reports

AUSTIN — Industrial emissions released into the skies of Texas, including so-called "grandfathered" emissions, have decreased, according to a new study by the Texas Natural Resource Conservation Commission.

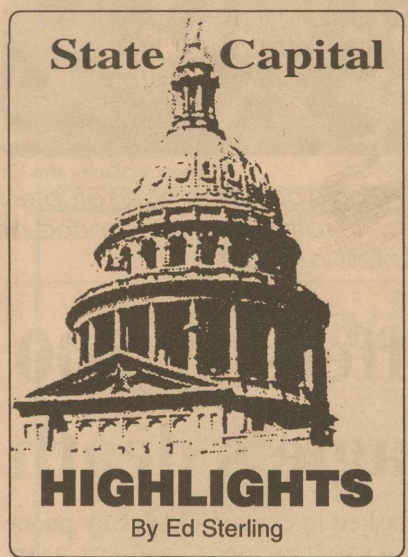

TNRCC's 1997 inventory of air emissions from more than 1,600 sources shows 2.5 million tons of pollutants were released. Nine-hundred thousand of those tons were grandfathered. In 1986, about 3 million tons of emissions were released, with 1.6 million of those tons grandfathered.

Grandfathered emissions are those from factories and power plants that were in operation or under construction before 1971, the year Texas launched its air quality permitting program. Those facilities are not required to have an air quality permit.

"The reductions in emissions are even more significant when you consider the growth of the Texas economy during this period (from 1986 to 1997)," TNRCC Commissioner Ralph Marquez said.

Inventory results will be provided to the Texas Legislature along with a plan by the TNRCC to move more sources of grandfathered emissions into its air quality permitting program, Clean Air Responsibility Enterprise, or "CARE."

TU Electric, a power company

#### State Capital HIGHLIGHTS

By Ed Sterling

that releases grandfathered emissions from its facilities in Free-stone, McLennan, Ward and Titus counties, announced earlier this month it would voluntarily reduce emissions by about one-third.

#### State Fines Hole-In-One Firm

A Reno, Nev., corporation agreed Oct. 9 to pay a \$25,000 fine for selling coverage for hole-in-one golf contests without a Texas insurance license.

In a consent order signed by Insurance Commissioner Elton Bomer, Hole-In-One International Inc. voluntarily ceased operating in Texas.

The order said that since 1992, the company or its representatives solicited and accepted at least 949 applications from sponsoring

groups for insurance that would pay the prize money to winners of such competitions.

In this type of arrangement, a group — often a charity — holds a contest offering big prizes to people who pay to attempt feats of skill, such as hole-in-one golf or a basket made at a great distance on a basketball court, the Department of Insurance said.

#### Distance Learning Spreads

More and more Texas colleges and universities are offering college- and graduate-level studies through the Internet and other electronic means.

At last count, 31 Texas colleges and universities offer 149 degree programs through distance learning.

The long-distance learning trend is detailed in the October issue of Fiscal Notes, a publication of the Texas Comptroller of Public Accounts.

"Some students never show up on campus," said Comptroller John Sharp. "Some never see their fellow students or instructors. And some never visit a library, but they're still getting an education, thanks to the online accessibility of library materials."

Long-distance students typically are adults who work full time and are too busy paying bills to drive to a campus, find a place to

park and attend night classes, Sharp said.

#### Texas Rankings Released

Texas continues to rank No. 1 in cattle, crude oil and natural gas production, according to "Texas, Where We Stand," an annual ranking compiled since 1994 by the Texas Comptroller's Research Division.

The ranking covers state economic, demographic and fiscal measures to show where Texas stands among the 50 states.

Texas is second after California in population, No. 3 in gross state product and No. 4 in Fortune 500 companies.

Since the release of the 1997 rankings, Texas has dropped from fifth place to 11th place in the number of food-stamp recipients.

"We've also reduced our business-failure rate, going from seventh-highest nationally in our last report to 11th place in 1998," said Comptroller John Sharp.

#### Other Capital Highlights

• Enrollment at the University of Texas is the highest in the nation, with 48,917 full-time students. Second-highest is Ohio State University, with 48,169, followed by Arizona State-Tempe (43,732), Texas A&M University (43,389) and Michigan State University-East Lansing (43,200).

## Letters to the Editor

Letters to the Editor express the opinions of the author. They do not necessarily reflect the views or opinions of the staff, management or ownership of the Eldorado Success.

Dear Editor,

Due to changes in the interpretation of Medicare guidelines Schleicher County Medical Center is discontinuing the Boarder Program at the hospital.

The board of directors regrets the necessity to end this popular program, however the complexity of the current regulations forced this action.

Arrangements are being made to move our boarder patients into the nursing home or relocate them into other, appropriate facilities.

As always, we will continue to look for ways to serve our community and fulfill our charter to provide health care services to the citizens of Schleicher County.

Sincerely,  
Ricky Fuessel, President  
Schleicher County Hospital

# Nixon leads Eagles to 42-7 win over Junction

by David Hill

Eldorado traveled to Junction last Friday night and won big! How big? 42 to 7. The Eagles clearly dominated on both sides of the ball as well as the kicking game and the half time show. It was the Eagles that we've all been waiting to see on Friday nights.

The icing on the cake for Coach Jim Fryar was he finally reached that 100th career victory. Fryar's comment on the game, "We want everyone to know that the Eagles are still alive and we are going to fly again." Fryar's comments were perhaps eluding to the happenings during the week as well as the game Friday night.

Eldorado not only won big on the score board but in the stats as well. EHS amassed 394 total yards on offense and gave up only 88 yards on defense. Austin Nixon rushed for a whopping 175 yards for the night accounting for over half of the total yardage for the Eagles. Fryar said of Nixon's night, "Austin had a great night running the ball and the offensive line put in it's best performance of the year."

Junction won the toss and received the kick off and started deep in their own territory. On the third play of the drive Dusty Nolen recovered a Junction fumble giving Eldorado a first down on the JHS 18 yard line. EHS moved the ball down to the Junction 3 yard line and stalled with an incomplete pass in the end zone. EHS stopped Junction on 3 plays forcing one of six punts and started their first scoring drive on the JHS 33. After a good dose of Austin Nixon, Lance Mitchel punched it in from the 5 yard line with 4:34 left in the 1st quarter. Jess Martin added the PAT. EHS 7 JHS 0. On the ensuing kick off Junction fumbled and the Eagles took over on the JHS 29

yard line. This time Mitchel took the lead and after a 14 yard reception from quarterback Joey Bullard took a pitch from 7 yards out for the touchdown with 2:32 left. Martin tacked on the PAT. EHS 14 JHS 0. The Eagles stopped Junction on their last possession of the quarter.

The Eagles started their third scoring drive from the JHS 25 yard line. The drive included Bullard passes of 7 yards to Casey Poynor, 22 yards to Mitchel, and finally a Nixon 10 yard gallop to pay dirt with 10:13 left in the second. Martin's PAT was blocked. EHS 20 JHS 0. The two teams traded possessions several times before the

Eagles last scoring drive of the half. Junction punted to the Eagles and Mitchel had an excellent return then JHS committed a personal foul adding another 15 yards to the play. Bullard found Poynor for 11 yards then threaded the needle to William Robledo in the end zone with 14 seconds remaining in the half. Nixon went in for the two point conversion. EHS 28 JHS 0.

The first drive of the third quarter saw the Eagles only sluggish offensive series ending with a punt. Again the defensive unit stuffed JHS forcing a punt. EHS took over on their own 30 yard line and on the first play from scrimmage Austin Nixon busted loose for 60 yards. The offensive line had everyone either on the ground or shielded on the play. Mitchel then did the work getting the Eagles to the 1 yard line where Nixon then got the TD with 4:26 left. Martin made the PAT. EHS 35 JHS 0. JHS could not convert on a crucial fourth down turning the ball over to the Eagles at the Junction 24 yard line.

The Eagles next drive ate up most of the clock in the fourth quarter. The offense moved the ball well with Mitchel, Chad Williams, Louis Santellano on the ground. The drive ended with an EHS turnover with 4:26 left in the ball game. The Eagle defense held Junction to another three and out and started

their last scoring drive on their own 48 yard line. On the first play from scrimmage, Santellano burst into the Junction secondary leaving everyone in his dust and scrambled 52 yards to the end zone with 2:06 left in the game. Martin tacked on the PAT. EHS 42 JHS 0. The Eagles kicked off to Junction and had a 55 yard return with Andrew Sauer making the touchdown saving tackle. Two plays later Junction found the end zone with 1:26 left. The PAT was good. EHS 42 JHS 7. The Eagles then ran out the clock for the victory.

Eldorado plays host to Ozona tomorrow night in a crucial district contest. The Eagles are still in the district race and each week becomes very important for post season. Wall lost last Friday and if the War Birds win out they control their own destiny. The game is scheduled for an 8 PM kick off at Eagle Stadium. Lets show the Eagles our support tomorrow night, BE LOUD and WEAR YOUR GREEN!

## EHS boys C-Country competes at ASU

The high school boys cross country team traveled to Abilene the last two weeks competing at Abilene Christian University invitational then The Big Country Jamboree. In both meets the boys ran short-handed but were able to beat Winters, the number 3 ranked team by Texas Track and Field News. The Eagles are ranked 7th in the state.

The Eagles finished 3rd at ACU meet, running without two of their top runners. Daniel Mata lead the charge by finishing 3rd, followed by Joseph Wink 6th, Anthony Pina

9th, Johnny Lee Arispe 28th, Aaron Fuentes 85th and Jimmy Aguilar 87th.

At The Big Country Jamboree the Eagles won the meet over Winters by 27 points. Eldorado scored 51 while Winters scored 78. District rival Wall was a distance 5th with 156 points. Eldorado had four individuals medal this week. Daniel Mata 2nd (18:97); Joseph Wink 4th (18:27); Anthony Pina 6th (18:34); and Johnny Lee Arispe 11th (19:02). Joey Bullard was 28th (20:13) and Jimmy Aguilar was 55th in a time of

22:07. Coach Wink said the boys ran extremely hard and should be ready for the District Meet Monday, October 26th. The meet will be held at the Texas Tech Center in Junction. The competition will begin at 1:00 p.m. with the Junior Varsity girls followed by the Junior Varsity Boys, Varsity Girls and Varsity Boys. The Junior Girls run at 4:00 p.m. and the Junior Boys will run at 4:30 p.m. There will be a one dollar gate fee to enter the Texas Tech property to cover insurance cost.

## Eagles JV defeats Junction 38-8

The Eagles JV handed the Junction JV a 38-8 whipping last Thursday after furious second half surge in which the Eagles scored 30 unanswered points.

The teams played to an 8-8 tie at halftime but the tide turned in the second half when the Eagles came out and scored twice on defense. The Eagles offense also caught fire and Eldorado dominated the second half of play.

Running Back Luis Enriquez had several long runs in the game and scored a TD on a 5 yard run. On defense, Enriquez tallied two fumble recoveries, one of which he returned 35 yards for a TD, and caused another fumble.

Ben Edmiston was credited with two tackles in the Junction backfield and a fumble recovery for a touchdown.

Quarterback Johnny Herrera scored a TD, scored a 2-point conversion and completed 4 passes for 120 yards.

Other Eagles turning in outstanding performances included: Ramon Ramirez who made 3 tack-

les and caught 1 pass for 10 yards; Jason Brock who returned an interception for a TD and completed two passes for 25 yards; John Ray Espinosa forced a fumble and added a pass reception for 35 yards and batted away an attempted pass on defense; and Kenny Covarrubiaz caught a pass for 5 yards.

Fine blocking by the Eagles opened some gaping holes and provided good pass protection. Those drawing praise from Coach Alan

Gillespie after the game included Rocky Robles, Jeff Stafford, Matt Curtis, Benji Gonzalez and Jimmy Joe Rodriguez.

The Eagles JV will travel to Ozona tonight where they will take on the Lions JV at 6:30 p.m. Bryan Sproul is questionable to play this week due to a deep bruise. Jason Holley with a possible broken finger and Michael Ramirez who is recuperating from an illness may see some action in the contest.

### Let's Re-elect James C. Doyle

as Schleicher County Justice of the Peace

Remember to **VOTE** November 3rd  
Early voting is underway **NOW!**

Experience you can count on... judgement you can trust!

Citizens of Schleicher County,  
I am asking for your continued support in my bid for the office of Justice of the Peace. I have served you since November, 1994, and you have invested your tax money in my 100 hours of Justice of the Peace training provided by Southwest Texas State University. I have handled many court cases both criminal and civil. I feel I am very qualified and I have a very efficient and competent staff. Our office turns in approximately \$12,000.00 to \$18,000.00 per month to the County Treasurer. Our county gets to keep approximately 60%, to be used in the Road and Bridge fund and this helps to keep our taxes down. A large number of the fines are paid by "Out of County Residents" since the citizens of Schleicher County violate very few traffic laws.

I have worked with the school in every way possible to enforce the laws requiring parents to send their children to school and enforcing laws that will ensure their safety while attending class. The Schleicher County School System has a Zero Tolerance Policy against fighting on school property and that might seem very harsh, but the law has to be enforced. My Oath of Office states that I will obey all of the laws of this state and of the United States of America so I cannot choose to enforce just some of the laws.

I have served as an Eldorado City Councilman and served on term as Mayor of Eldorado.

I feel I have made myself available in every way to work with the Schleicher County Sheriff's Department, the Schleicher County Commissioners Court, and many citizens of Schleicher County. If you have any questions concerning my job performance, you could ask any member of the Commissioners Court or the Sheriff's department to verify my statement.

Again, I would appreciate your continued support at the polls on November 3, 1998.

Sincerely

# Jim Fryar's teams never, never, never give up

by Randy Mankin

Eagles head coach Jim Fryar loves to quote Winston Churchill. His favorite saying... "Never, never, never give up."

That tenacity has been evident in Fryar's coaching career. A career which reached a milestone in Junction last Friday night. That's when the Eldorado Eagles won a 42-7 victory and Jim Fryar got his 100th career win.

He will tell you the former is much more important than the latter. But, a milestone is a milestone and as such it shouldn't be passed without notice.

The winning tradition which Fryar brought to Eldorado began 14 years ago. That's when, in 1984, he took over as Head Coach at Howe and immediately took his Bulldogs to the playoffs. Since then Fryar has amassed his 100 wins at the helm of three different programs. Over the ensuing years, he has built winning programs and his teams have become a fixture in the state playoffs.

In 1984, Fryar's Howe Bulldogs won a District Championship, not a bad start for a rookie head coach. The following season, he proved it wasn't a fluke when he took his team three games deep into the playoffs before losing a game. That squad finished the season as District, Bi-District and Area Champs and Fryar was named District 17-2A Coach of the Year and All Area Super Team Coach of the Year.

In 1986 the Howe Bulldogs were the District Runner Up and in 1987 they finished 8-2, just missing the playoffs.

1988 saw the team back in postseason play when they again finished as District Runner Up. Then in 1989 the Bulldogs captured the District, Bi-District and Area Championships and Fryar was named District 11-2A Coach of the Year.

In 1990 Fryar took over as head coach of the Jacksboro Tigers. That team claimed the District title and Fryar was selected as District 10-2A Coach of the Year.

In 1991 the Tigers repeated as District Champs and won the Bi-District title as well. Again, Fryar was the pick for District 10-2A Coach of the Year.

In 1993 his team reclaimed the District and Bi-District crowns and for the third time in four years Fryar was named District 10-2A Coach

It's called coaching — Eagles head coach Jim Fryar is pictured going over blocking assignments during a time out at the Menard game earlier this season.

of the Year.

The 1994 the U.I.L. realignment moved Jacksboro up from Class 2-A into Class 3-A. As the fourth smallest 3-A team in the state, the Jacksboro Tigers found the going tough but still managed to finish the season with an impressive 8-2 record. Fryar was named Red River Twenty-Two Coach of the Year.

In 1995 the Tigers again went 8-2 but finished just out of the playoffs. That's when Fryar moved to Eldorado.

The Eagles squad Fryar took over in 1996 was coming off it's second straight playoff year. But the team was young and rebuilding. Few expected a first year coach to meet with much success. Besides, the Class 1-A State Champion Roscoe Plowboys had just moved up to Class 2-A and elbowed their way into District 5-2A with Eldorado, Winters, Wall, Forsan and Ozona.

When the 1996 regular season ended, the Roscoe Plowboys won the District title, just as most had predicted, but standing in second place with a 6-4 season record were Jim Fryar's Eldorado Eagles. The scrappy team had defied the odds and proved to all that a team which never, never, never gives up is mighty hard to beat.

Fryar's 1997 Eagles team plowed their way through the season, finishing 9-0 on the year. The Eagles made their fourth straight trip to the playoffs and Jim Fryar had his 98th career victory.

The 1998 Eagles gave Fryar his 99th win in week one of the season by upsetting the Bangs Dragon 33-24. His 100th win didn't come until last Friday against Junction.

As the game clock wound down his players began preparing for the celebration, an NFL style bucket of water over the coach's head.

Almost as tribute to Fryar's coaching ability is the fact that the 1998 team which won that elusive 100th victory is --- with a record of 2-5 --- still in the hunt for yet another playoff berth.

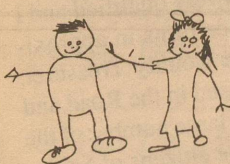

With three games remaining in the season, not only are the Eagles still in the playoff picture, they could still win the District Championship. What would be more fitting than for the arch rival Sonora Broncos to come to town for the last game of the season with a district title on the line.

If that scenario develops, I must say that I like the Eagles chances. After all, they have a coach that never, never, never gives up. And, I'm quite sure he has one or two tricks left up his sleeve.

Why does the early bird always get the worm? Because he reads about it in

Fellow Schleicher County Citizens,

For those of you that don't know me, I grew up in Eldorado and graduated in 1962. Judy and I moved back to Eldorado in 1993 (bringing Judy's parents with us) so that we could take care of my parents. I attended college after leaving Eldorado and have degrees in Physics and Engineering.

I was in the Air Force for 8 years and as an officer I was immediately placed in a position where I was responsible for budget preparation, supervision of others, and other tasks which taught me the necessary skills needed for a successful civilian career. After leaving the Air Force, I went to work for an electronics company in Oklahoma and stayed with them until 1982, at which time I was their Chief Engineer and had 50 other engineers and technicians working for me.

For the next ten years, I had my own electronics company (in partnership with three other friends), selling it in 1992. I currently divide my time between computer work and ranching.

I feel that my experience has provided me with the necessary skills to be an effective Commissioner. I'm not a politician, so don't expect me to make any promises that I can't keep. I will promise, however, to do everything I can to insure that our tax dollars are wisely spent. As a landowner, I am very concerned about the decreasing tax base and increasing expenditures. I hope that we can attract more industry to the area, but we have to be ready to handle the tax problem in any event. Another promise that I can make is that I will be present for the regular Commissioner's Court meetings as well as meeting with anyone in the precinct that has a problem or question.

I am looking forward to visiting with each of you in the coming weeks. Please feel free to contact me at home if you have any particular concerns or questions.

## Eagles 8th grade squad comes from behind to beat Junction

A defensive stand with time running out preserved a 40-32 victory last week for the Eagles 8th grade football team. Eldorado trailed on the score board almost the entire game. Then, late in the 4th quarter the Eagles took the lead and put its defense on the field. Junction rallied and drove the ball to Eldorado's 15 yard line where the Eagles defense dug in and held. Rogelio Rodriguez led scoring for the Eagles with two TDs and two 2-point conversions. Quisto Gonzalez scored a TD and two 2-point conversions while Philip Martinez and Nathanael Wolfe each scored a TD.

Other offensive standouts included Sergio Garcia, Pedro Hernandez, J.L. Mankin, Ross Hodges, Miguel Segura, Matt Greenwood and Heath Andrew.

The defensive charge featured led by Timmy Martinez, Quisto

Gonzalez, Sergio Garcia, Bobby Phillips, Nathanael Wolfe, Ross Hodges, Miguel Segura, Matt Greenwood, Alex Sanchez, Rogelio Rodriguez and Philip Martinez.

The 8th grade Eagles have been hampered this year by a series of injuries which sidelined 5 starters. The team's manager, Luis Munoz, even took the field and started at offensive tackle this week.

"The kids have had to change positions and they've stepped up and played well," said Coach Bob Wanoreck after the game.

"I am so proud of the effort they have given this year. We have already exceeded expectations and we still have three games left," Wanoreck continued.

This week the Eagles 8th grade will face the Ozona Lions here in Eagle Stadium. The game will begin tonight, immediately following the 7th grade game.

The students were requested to nominate teachers who "made a difference in their lives" by helping to shape their values, inspiring interest in particular subject and/or challenging them to strive for excellence. Many of the students commented about the enthusiasm and knowledge their teachers demonstrated in the

classroom, and may praised their teachers for their ability to relate to youngsters on a personal as well as a professional level.

Eldorado High School Teacher's Teresa Baker and Matt Rutherford are among the 130,000 teachers selected by their former students who themselves are currently listed in Who's Who Among American High School Students, or The National Dean's List, publications which recognize 5% of our nation's high school and college students respectively.

## Beta Sigma Phi report

by Barbara Jackson

Beta Sigma Phi met for a business meeting with six members in attendance.

The main item of discussion was the upcoming Halloween Carnival on October 31, 1998. It was reported that because the County Commissioners Court had waived the fee for use of the Memorial Building there would be no charge to organizations wishing to have a booth at the carnival. They requested help with clean up of the building. The sorority will have canned drinks, cookies, and cup cakes. Other booths are: Cotton Candy, Basketball Throw, Fishing Pond, Horse Shoes and a Haunted House. The Lions Club, Middle School Cheer Leaders, Ladies Fire Auxiliary, TAFE are the Art Class are sponsoring these booths. Any other organization wishing to sponsor a booth are ask to contact any sorority member.

The Chapter also made plans for their family Thanksgiving dinner on November 16, 1998 in the home of Delmer and Barbara Jackson.

The Chapter welcomed Mary Leigh Dunagan and Mary Jenkins back into the sorority. They are former members who have been on a leave of absence.

Drinks, sandwiches, and cake were served by the hostess Flora Hubble. The next meeting will be on October 26 with Barbara Jackson as hostess.

## Who Should Get A Flu Shot?

Individuals in the following high-risk groups and their close contacts should consider receiving a flu shot:

- Persons 65 years of age or older
- Residents of nursing homes and other chronic-care facilities that house people of any age with chronic medical conditions.
- Adults and children with chronic disorders of the pulmonary or cardiovascular systems, including children with asthma.
- Adults and children who have required regular medical follow-up or hospitalization during the preceding year because of chronic metabolic dis-

eases (such as diabetes), renal dysfunction, hemoglobinopathies or immunosuppression, regardless of cause.

- Children and teenagers, aged six months to 18 years, who are receiving long-term aspirin therapy and may be at risk of developing Reye syndrome after influenza
- Women who will be in the second or third trimester of pregnancy during the influenza season.

For more information call The Health Care Clinic of Eldorado at 853-3153 or the Schleicher County Family Clinic at 853-3137. They both are currently offering flu shots for \$5.00.

**Myrtlewood Estates is JUST RIGHT for me.**

Okay, so I have a little trouble climbing a flight of stairs, and when my arthritis flares up, buttoning a blouse can be a bit of a problem. Still, I'm an active person, so when I heard about Myrtlewood Estates I had to see for myself. It was perfect. Someone's always here to help me when I need it, giving me the freedom to do as I choose.

**Assisted Living at its VERY BEST.**

From the moment I walked into Myrtlewood Estates I felt right at home. Everyone is so friendly.

The list of activities is endless. What I like most is that the choice is mine to do as I please. My apartment is bright and airy. I have all the privacy I need and the companionship I want. I didn't expect all this, but I'm sure glad I have it!

Visit Myrtlewood Estates today, and see for yourself!

**FBC Senior Ambassador News**

First Baptist Senior Ambassadors met Monday, October 19, 1998 during the evening for their regular meeting. Everyone added a can of their choice ingredient for a big pot of stone soup. A prayer circle was formed and Pastor Anderson offered thanks. After stone soup and crackers and cornbread, everyone enjoyed pumpkin pie and peach cobbler.

Mary B. Robinson showed slides of the next trip planned for Yellowstone, in May 1999. It will include five National Parks.

There were 16 in attendance and the pictures were beautiful. Minutes were read and approved, in the absence of President Jim Robinson.

**Steer Children Away From Violent Entertainment**

**QUESTION:** I'm concerned about the violent content of some children's cartoon shows and the toys and other products connected with them. My husband thinks they're harmless. What's your point of view?

**DR. DOBSON:** I share your misgivings. There's a trend toward a brand of violence in some of today's cartoons and toys that I see as a dangerous departure from the more traditional combat-type games in which boys have always engaged. For one thing, the characters tend to be adults involved in adult activities, some of which are highly questionable. I don't think they are appropriate role models for impressionable young children. The settings are mythical or futuristic, and the action often revolves around superstition, sorcery and magic. For these reasons they concern me for spiritual as well as psychological reasons.

The electronic media have incredible power to "sell" these dubious heroes and their exploits to our children. Studies have measured actual psychological changes that occur when kids are watching a violent television program or movie: the pulse rate quickens, the eyes dilate, the hands sweat, the mouth goes dry and breathing accelerates. It should be obvious that this kind of "entertainment" has a dramatic emotional impact — especially if it's repeated often enough. And the toys that are marketed as "spin-offs" from such programs serve only to reinforce or extend those negative effects. What's more, there's no balancing positive, healthy or educational component to these products.

That's why our organization, Focus on the Family, and others have made major investments in

high-quality videos and other materials for children. We must provide alternatives for families that want their kids to have wholesome entertainment but are determined to protect them from popular culture. We will continue to do what we can to meet that need.

**QUESTION:** I don't believe kids are as easily influenced by the media and entertainment industry as you say. What they see does not necessarily determine how they behave.

**DR. DOBSON:** Well, look at it this way. Back in the early '80s, the most popular movie was a science fiction film, "E.T." It included a brief scene where the little creature from outer space was given a few pieces of the candy Reese's Pieces. The brand was not named, but children recognized it during its few seconds on the screen. In the months that followed, the sale of Reese's Pieces went through the ceiling. Isn't that a clear example of a movie's influence on children's thinking?

Why do advertisers spend billions of dollars to put their products before people if what we see and hear does not influence our behavior? Why do schools and colleges purchase textbooks for children and young adults if what they read does not translate into influence of one form or another? Of course children are vulnerable to what they witness! We all are. How much greater impact is made by dramatic, sexually oriented, no-holds-barred musical and theatrical presentations that are aimed at the hearts and soul of our kids? Who are we kidding when we say they are not harmed by the worst of it?

**QUESTION:** My family and I have been in France for four years, but I'm told I still have a

strong accent. My 9-year-old daughter, however, speaks perfect French. How come children can learn a language so much more easily than adults?

**DR. DOBSON:** It is true that children can learn to speak perfect Russian, Chinese, Spanish or any other language used around the world, yet 15 or 20 years later, most of them will have a much harder time trying to make those same sounds. Researchers now know why this is true. It's explained by a process known as "phoneme contraction." The larynx of a young child assumes a shape necessary to make any sounds that he or she learning to use at that time. It then solidifies or hardens in those positions, making it impossible or very difficult to make other sounds later in life. In other words, there's a window of opportunity when anything is possible linguistically, but it closes very quickly.

Keep working on your French, even though you'll probably never get rid of your accent.

## Monday is SCISD staff development day

There will be no classes Monday, Oct. 26th as SCISD faculty and staff will be in the classroom themselves.

It's "Staff Development Day" at the school. Registration will begin at 8:30 a.m. The morning session will focus on sexual harassment awareness training. Bradley Scott will discuss sexual harassment issues within a school setting with

those in attendance. He will cover teacher-student relationships as well as student-peer relationships.

Following a lunch break, the afternoon session will feature gang awareness. Edward Sanchez and Gary Smith of the San Angelo Police Dept. will present a variety of topics useful to the educator in increasing awareness of gang activities on campus.

## Area youth invited to Menard Youth Rodeo Oct. 24

Events will include barrels, poles, ribbon roping, goat roping, tiedown roping, mutton busting, goat scramble, novice calf riding, junior and senior bull riding.

For more information call 915-396-2213 days or 915-396-2594 evenings.

## '51 & '52 Eagles reunion set for weekend

During two of the best football years Eldorado has ever seen the '50 and '51 Eagles put together a winning streak of 19 games. A reunion of the two teams is planned for Saturday, Oct. 24 at the Schleicher County Memorial Building. The teams head coach Ted Kirby is scheduled to be in attendance.

The former Eagles will relive the 19-0 run of the Black and Gold Eagles of the '50 season and the Green and White Eagles of the '51 season. In '50 the team went undefeated and untied and captured the

Regional Title, which was as far as a Class B team could advance in those days. The Eagles defeated Marfa 28-0 in the Bi-District game and upended Eden 27-24 in the Regional championship game.

A partial list of the players include: Lynn Griffin, Billy Cheek, Jimmy Doyle, Pinkney Craig, Jimmy Perry, Durward Rutland, Jack Mund, David Powell, Glenn Biggs, McDale Farrington, E.H. Nixon, John Phillips, Joe Ed Spencer, Gerald Hicks, Roger Sofge, James Logan, Truett Stanford, Billy Young, Bill

Bearce, Winfield Fry, Jerry Perry, Wilson Humphrey, Buddy Estes, Jack Stanford, Billy Etheridge, S.E. Etheridge, Jackie Wade, Vernon Phillips, James Alexander, Billy Ray Jones, Lance Blanchard and Earl Clark.

Herbert Tree and Arturo Espinoza were managers of the 1950 team John Waldrum was the line coach.

The public is invited to stop by and visit with former gridiron stars. Anyone with old photos is encouraged to stop by and share them with the group.

## Nikolauk joins other mayors in endorsing Bush

AUSTIN - Governor George W. Bush announced the endorsements of more than 500 Texas mayors, including that of Eldorado Mayor John Nikolauk, at a rally upon his arrival in El Paso for the gubernatorial debate. Governor Bush was welcomed by El Paso Mayor Carlos Ramirez and several other mayors from around the state who were invited by the Bush campaign to travel to El Paso for the debate.

An unprecedented 506 mayors from 192 counties have given their support to Governor Bush. The highest number of mayors to endorse a statewide candidate previously in Texas is believed to be around 250.

## Sheep & Goat predator management board biennial ballots mailed

Ballots for the Sheep & Goat Predator Management Board Biennial Election were mailed to over 6,000 known producers with the hope of increased interest and participation. The list was compiled with the help of county extension agents, but may have missed some producers. In this instance a small supply of postage paid return envelopes and ballots are being sent to each county agent in the 111 county referendum area.

The district of residence determines the district to vote in. A map on the back of the ballot should answer any questions regarding the district an individual county is in. Should the producer's production be in more than one district he will vote in the district of the county of residence based on the production in both districts (the total production).

The postmark deadline for ballots is midnight, October 29, 1998. Candidates are:

District 1 - Robert Sol Mayer (Sutton County), Carl Schlinke, Jr. (Irion County), Eugene Vinson (Reagan County);

District 2 - J.A. "Jim" Davis (Menard County), J.R. Evans (Menard County);

District 3 - Chad Anderson (Mills County), Dan W. Crenwelge (Gillespie County), Joel Dennis (Borden County)

To be considered valid section "A" or "B" or the Verification Of Production portion of each ballot must be signed, must include your complete physical address, the number of the District that you qualify to vote in, and your inventory of sheep and goats for 1998 if section "A" applies. Failure to do so will cause the ballot to be judged invalid.

The postmark deadline for ballots is midnight, October 29, 1998. Any ballot which is postmarked af-

ter that date will be judged invalid. Official canvassing of the ballots will take place on November 12, 1998. The canvassing committee will consist of a representative of the Tom Green County Judge's office, the District 7 Texas Agricultural Extension Service Director's office, the Texas Department of Agriculture, and S&GPMB President William Edmiston, DVM.

## Shannon accepting scholarship applications

Shannon Health System is accepting applications for the Margaret Shannon academic scholarship to be awarded in December.

The scholarship program was initiated earlier this year. Two \$500 scholarships are awarded annually, one in the fall and another in the spring.

"These scholarships are designed to provide educational funding for students pursuing careers in health care. They honor our benefactor, Margaret Shannon, who with her husband, J.M., were ardent supporters of higher education and who were committed to providing health care for the citizens of this area," said Jo Vaughan, Shannon Health System marketing director.

To qualify, students will be enrolled in one of the following educational efforts:

- as juniors or seniors in a college-level allied health science degree, such as a bachelor of science in nursing or pharmacy;
- in an accredited technical or vocational school leading to certification in an allied health field, such as LVN, medical records, radiography or respiratory therapy;
- in graduate studies, such as medical doctor, doctor of osteopathy, physician assistant or health administration.

Students need to be enrolled for at least nine semester hours, maintain a 2.5 grade point average overall and 3.0 in major courses, and be residents of Shannon's 19 county service area, which includes Schleicher County. Additionally, applicants will be required to provide a college or technical school transcript and write an essay describing their perceived role in the medical field, why they chose such training and other pertinent information.

Deadline for entry is December 15. The scholarship winner will be named December 30. For more information or an application, call Shannon Marketing at 915/657-5064.
