GRAIN HARVEST IS UNDER WAY ON LOCAL FARMS

Grain harvesting and cotton chopping are keeping Schleicher County farmers busy. Combines are out in the oat fields, threshing out what looks like a fair crop, of etter-than-average quality. Wheat will be ready for harvest soon, and a few fields are already being harvested.

Cotton growers, with drastically reduced acreage, are chopping cotton, which is reported to be in good condition for this time of the year.

CANDIDATE HERE

Mr. Herbert J. Antoine of Kerrville was in town yesterday working on his campaign. He is a candidate for the Legislature form the 86th District. Mr. Antonine said, "I am one man who hates taxesunnecessary taxes-and I will oppose any sales tax or other increase in taxes if I am elected. According to the record, the bill for running the state government of Texas, in 1949 was 120 million dollars more than in 1948 and the last Legislature warned us to ex pect another big increase in 1951 "As I go along in my campaign I will quote from the RECORD of the most generous legislature in the history of Texas. The voters in my district will be surprised to learn how lightly some state representatives value their constituents hard earned tax dollars."

FOR TELEPHONES

In spite of the relatively small attendance at the county-wide Rural Telephone Co-Op meeting Thursday night, opinion was favorable toward getting the system for this county for this county.

W. G. Godwin presided over the meeting and explained the workings of the proposed plan, whereby this county would secure a place in the proposed 12-county system, or work out some other plan.

Present at the meeting were 23 residents of Schleicher County. Most of these expressed themselves as being in favor of the plan.

Though Schleicher County, with its county-wide dial system, is receiving much better service than is the average West Texas county, there are some who do not have phones, and those who do have could become part of the rural system. The co-op would pay for the present installations and would also keep up the phones.

The temporary committee, composed of J. Forrest Runge, Gene Edmiston, and Vernal Lux, will attend a meeting soon in San Angelo, to receive further information on the question, and W. G. Godwin and possibly others may also attend. Another meeting is planned for Eldorado before July 1.

As the proposition is still in the planning stage, many details have to be worked out and explained to the general public. The project works similar to REA—it would be a co-op, with loan from the government, and ownership in the local organization.

Eddie Brown and his office force mailed out cards notifying Schlei-cher County residents of last Thursday's meeting, and asking for an expression of opinion on the proposition.

Electric Cooking

has advantages for all!

Better for you

. electric "speed-units" now cook faster than any other method. They bring food to cooking temperature with unbelievable speed, and cook it at just the right temperature for the most flavorsome and nutritious results.

COOL . . . the heat goes directly into the food and not into the air and kitchen. The days of hot, stuffy kitchens are over when you use flameless, clean electric cooking.

SIMPLE . . . as turning on your kitchen light. A flick of the switch and you're ready to cook. Baking, broiling, roasting, surface, deep-well, and pressure cooking are all equally simple.

AUTOMATIC . . . you've got a thrill coming when you can take the afternoon off, and have your supper ready for serving when you return. Electric cooking's automatic timing will "chef" for you, turning your oven on and off at just the right time, while you are enjoying a game of Bridge or Canasta.

Better for your home

CONVENIENT ... once you cook electrically, you'll wonder why you stayed so long with horse-and-buggy methods, as old-fashioned as

MODERN . . . electricity is as dependable a servant for cooking as it is for lighting your home. Yes, today, the modern way to cook is

LONG LIFE . . . your electric range is built to be a permanent part of your home. You have a right to expect-and you will get-many, many long years of cooking pleasure.

Better for your family

cook in their own juices, retain garden-fresh flavor and food values which are so often lost and carried off with the fumes of combustion in other methods of cooking. ECONOMICAL . . . there's no wasted heat with electricity. Faster

than ever, electric cooking gets the job done quicker and low-cost

electric cooking rates bring operating costs way down. MORE FREEDOM . . . your electric range requires less attention from you in the kitchen; its automatic features free you to devote more time to your family, more time to the pleasures of life. Its gleaming porcelain is so easy to keep clean...you'll be out of your kitchen in a jiffy after mealtime.

You can haul more loads . . . more miles . . . for less . . . with Chevrolet Trucks

Take time out to talk to some Chevrolet truck users. You'll find it revealing. You'll discover that Chevrolet trucks pay their way by hauling more loads-more milesfor less! And you'll find that this extra measure of value is even more apparent in the new Chevrolet models. Definitely, they're America's first-choice trucks. Heavy-duty units feature a brand-new 105-h.p. Valve-in-Head engine with the power to pull heavy loads and conquer steep grades. They offer new Power-Jet carburetion for smoother, quicker operation. They bring you the fast, safe shifting of Chevrolet's

SURE, we know—a car is a "necessity" these days. A modern family "couldn't get along without one." Or so you tell yourself.

Come, come, sir! We know, and so do you, the real reason you got the new-car fever-and the kind of car you are hankering for.

You want a car with some fun in it, don't you?

A car you'll get a big bang out of every time you see it parked in front of your house-every time you slip into its front seat-every sweet and easy mile you travel in it.
