

Schleicher County Oil News

Special from James C. Watson
Midland, Texas

Hiawatha Oil & Gas Company No. 1 Forrest Runge, North-Central Schleicher County Strawn lime discovery, two and three-quarters miles from the opener of the Huldale-Strawn field, flowed from three to four barrels of new oil per hour natural from perforated section in the lime at 5,614-22 feet. The flow was through a one-quarter-inch tubing choke. Gas-oil ratio was 1,000 to 1.

Operator cored the project from 5,624-43 feet. Recovery was 19 feet of dark gray lime with shale partings. The core had a good oil odor and stain, but no porosity. Operator was preparing to core 15 feet deeper at last report. Exact location is 660 feet from south and west lines of section 66, block M, GH&SA survey.

In the Central-South portion of Schleicher County, R. B. Farris of Fort Worth is to drill his No. 1 H. A. Thomson estate as a shallow wildcat. Location is 330 feet out of the southeast corner of section 89, block A, HE&WT survey. Cable tools will be used to drill to 1,500 feet, beginning at once.

Drill site is 10 miles south and slightly west of Eldorado and one-quarter of a mile north of the Sutton County line.

Westbrook Oil Corporation has reported completion for its No. 1-A A. L. Baugh, Strawn gas discovery six miles northeast of Eldorado in North-Central Schleicher County. The gas well was potentiated for 3,180,000 cubic feet of gas per day. Production was through a one and one-half-inch choke and perforations from 5,728 to 5,758 feet. Five and one-half-inch casing is cemented on bottom at 5,790 feet.

The new gas producer is 467 feet from north and east lines of the northwest quarter of section 8, block M, GH&SA survey. It is one-half mile south and one mile east of Ohio No. 1-A Baugh, small Strawn lime discovery now on the pump, and four miles north of the Page-Strawn field.

Bobby Manziel No. 1-53 University, wildcat failure in the Ellenburger of Northwest Schleicher County, is plugged back to 2,140 feet in an unidentified lime. It is understood that operator will test the section from 1,400 feet to plugged back total depth. The prospector drilled to 7,901 feet in the Ellenburger and tested salt water from 7,831 to total depth.

On a drillstem test of that interval, tool was open two hours and 20 minutes. Recovery was 2,070 feet of salt water. The Ellenburger was topped at 7,832 feet, elevation 2,553 feet. Location of the exploration is 2,060 feet from south and 660 feet from west lines of section 17, block 53, University survey.

J. Ralph Stewart and W. C. Daniel No. 1 Will Lovelace, shallow wildcat in Central Schleicher County eight miles east of Eldorado, is at total depth of 868 feet in lime. Operator is preparing to drill plug on seven-inch casing cemented at 808 feet with 100 sacks of cement.

The 1,500-foot prospector is 760 feet from south and 660 feet from west lines of section 4, block M, GH&SA survey.

The Ohio Oil Company No. 1 P. McIntosh, 7,200-foot Ellenburger wildcat in South-Central Schleicher County, is drilling in shale and lime below 3,501 feet. The drillsite is 660 feet from north and 1,980 feet from west lines of section 22, block 9, TW&NG survey and 10 miles southeast of Eldorado.

In the Huldale-Strawn area of North-Central Schleicher County, Ohio No. 1 Thomson, is progressing below 1,624 feet in shale and lime. It is a one-location east offset to production in the field. It is being dug 330 feet from south and west lines of section 81, block TT, TCRR survey.

Pan American Production Company No. 1 H. F. Thomson, another Huldale exploration, is drilling below 879 feet in lime. The Strawn prospector is 1,401 feet south of Delta Gulf Drilling Company No. 1 Thomson, the discovery well of the field. Exact location is 467 feet from north and east lines of the south half of section 71, block TT, TCRR survey, abstract 580.

American Republics Corporation No. 1 H. F. Thomson, also in the Huldale area, is drilling below 3,180 feet in lime and shale. The diagonal southeast offset to the discovery is 467 feet from north and west lines of section 82, block TT, TCRR survey.

4-H Club Stages Successful Lamb Show Here Saturday

Officials report a good turnout and much interest shown last Saturday when the 4-H Livestock show was held in the feed barns at the football field.

J. A. Gray of the extension service of Texas was judge. Gus Love was show superintendent and ring master was Truett Stanford. Others in general charge were Edwin Jackson, Jess Koy, and John Williams.

In the Men's Division of the show which was held in the morning, John Williams' entries placed high in the Rambouillet classes. Truett K. Stanford's Corriedales made equally good showing in their classes.

Judging in the boys' division was done in the afternoon, and prizes for showmanship and cooperativeness were awarded, as well as cash prizes for the various livestock classes. Joe Ed Spencer's Rambouillet entries won the championship and reserve championship.

Merchandise and cash were donated by Eldorado and San Angelo businessmen for special awards, and winners of these were as follows:

Showmanship, David Powell, spurclip donated by Lions Club. Truett Kent Stanford, watch, Nathan's. Champion Lamb, Joe Ed Spencer, spurclip, National Farm Loan, Western Hat, Coulter's. Reserve champion, Joe Ed Spencer, \$5, Toplife Gas Co. Pair Lewis, Coulter's. First Place Southdown, Billy Gene Edmiston, spurclip, John Stigler. Best Fitted Lamb, Jack Mund, National Farm Loan. Fattest Lamb other than first place lamb, Kenneth Love, belt buckle award, Holland Jewelry.

County Agent W. G. Godwin reported the following results and awards according to classes:

Class No. 1
Fat Fine Wool Lambs weighing over 105 lbs.:
Joe Ed Spencer, first prize of \$10, and second prize of \$8; John T. Alexander, third, \$6; Billy Gene Edmiston, fourth, \$4; Jack Mund, fifth, \$3;

Sixth through ninth, \$2 each: Bubba Alexander, John Thomas Alexander, Frank Otto Prochaska, and Tony Kerr;
Tenth through nineteenth, \$1 each: Mike Moore, Jack Mund, Frank O. Prochaska, Jimmy Morgan, Mike Moore, Kenneth Love, Jimmy Morgan, Billy Gene Edmiston, Kenneth Love, Derl Griffin.

Class No. 2
Fat Fine Wool Lambs weighing under 105 lbs.:
Jack Mund, first, \$10; Jack Stanford, second, \$8; Bill Cheek, third, \$6; James Alexander, fourth, \$4; Jack Steward, fifth, \$3;
Sixth through ninth, \$2 each: Tony Kerr, Bill Cheek, Jack Mund, Bob Stewart;

Tenth through twentieth, \$1 each: David Powell, Jack Stanford, Jack Steward, Ronnie Mittel, Jimmy Morgan, Ronnie Kerr, John T. Alexander, Truett K. Stanford, John T. Alexander, Bob Stewart, James Alexander.

Class 3
Fat Cross-bred Lambs under 110 lbs.:
Jack Steward, first, \$10; Bubba Alexander, second, \$8; Jimmy Morgan, third, \$6; Bob Stewart, fourth, \$4; Ronnie Mittel, fifth, \$3;
Sixth through ninth, \$2 each: John T. Alexander, Tony Kerr, Truett K. Stanford, Joe Ed Spencer;

Tenth through twentieth, \$1 each: Jack Mund, Ronnie Kerr, David Powell, Billy Gene Edmiston, Ronnie Mittel, David Powell, Mike Moore, Bubba Alexander, Kenneth Love, John T. Alexander, Jack Mund.

Class 4
Heavy Cross-breds:
Jack Mund, first; David Powell, second; Jack Stanford, third; Ronnie Mittel, fourth; Jimmy Morgan, fifth; David Powell, sixth; Derl Griffin, Jack Mund, James Alexander.

northeast quarter of section 71, block TT, TCRR survey.

Cooper Gas Company and Shell Oil Company No. 1 Will Lovelace, 6,000-foot Strawn lime wildcat in Central Schleicher County, is at total depth of 453 feet in lime rigging up rotary. The prospector was drilled to 453 feet with cable tool. Ten and three-quarter-inch casing is cemented at that point.

Location is 2,463 feet from west and 1,980 feet from north lines of section 5, block EEE, T. J. Cartwright survey.

Republic Making Pipe Line Survey

Marshall Chrestman of Taft, near Corpus Christi, superintendent of Republic Pipe Line, is here making survey for a pipe line which the company expects to build, to provide a gathering system for wells in the new Huldale field. The oil will be piped into the Republic line near Huldale. While the survey is under way under Mr. Chrestman's direction, he is staying with his parents, Mr. and Mrs. Lige Chrestman. Father and son are working for the same company.

Low Temperatures Are Still Recorded As Cold Wave Continues

Eldoradoans emerged this morning to find the thermometer standing at the coldest point in the past four cold days. On Monday, Tuesday and Wednesday mornings the readings were around 8 to 12 degrees—this morning the reports from various thermometers were from 2 below zero to 2 above.

The sun is shining brightly today as the paper goes to press, but the wind is still from the north and still cold. Weather reports indicate that relief will come by the end of the week.

Eagles Down Sonora, To Meet Junction, Rio

The Eagles won their fifth straight district basketball game Tuesday night by defeating Sonora 61-32. This leaves only one more district game for the Eagles before the play-offs. The Ozona Lions will come here next Tuesday night.

In last Tuesday night's game Hicks led the scoring for Eldorado with 17 points, followed by Spencer with 14. Baldwin of Sonora was the game's heading scorer with 22 points.

In the "B" team game the Eagles won by a score of 45-21. Cheek led the scoring with 10 points. This Thursday night the Junction Eagles will come here for a non-conference ball game. The "B" game will start at 7:00, and the "A" game at 8:00.

Ralph Waldron Gets Call Back to Navy

Ralph Waldron, Shell employee, has been called back into service as a naval reservist, and left Tuesday to report for duty. He flew from San Angelo to Houston, and from there to San Diego where he is to be given his assignment.

Reared in Shreveport, La., he went into service from there, serving in the Navy three years as a motor machinist first class, and was in the South Pacific part of that time. He has been working for Shell several years, coming to Eldorado a year ago after starting with the company in Kilgore. His orders to report for duty came from New Orleans; he had been expecting to receive his call for some time.

Last weekend, shortly after he received his call, the family went to Shreveport to visit their parents, and also visited friends in Longview.

While Mrs. Waldron can make no plans until she learns the nature of Ralph's assignment, she plans to remain here for the time. The couple's son, Robby, will remain in school here, and Mrs. Waldron's mother, Mrs. Sadie Holland of Shreveport, is here for an indefinite stay with the family.

MEETING CLOSSES

M. J. Cunningham closed out a successful meeting Sunday, and added two names to the church roll during the week the revival was in progress. Attendance was good throughout the week, and dinner was served at the close of the services on Sunday noon.

EDMISTON PLANS TO BUILD

Gene Edmiston, who has been living on the Roach place north of town, has completed a barn on his place near Schuller's, near the highway, and it is understood that he expects to build a residence there in the spring.

Guests at the Forrest Runge home this past week end were their daughter, Anita, and eight of her sorority friends from the University of Texas. Included in the group was Svetlana Pawlitschew, a displaced person from Belgrade, Yugoslavia, who is being sponsored at the University by Kappa Kappa Gamma sorority.

POLIO DRIVE IS SUCCESS

About six times last year's total is reported today as Schleicher County's March of Dimes committee assembles information from those in charge of the advance solicitations and the Mothers' March. The committee reported today at 10:30 that the total to date is \$735.71—as compared with \$137 last year.

The organization responsible for the success of the polio drive included Palmer West, as county chairman, the Rev. Roy Shilling, Leslie Baker, Treas., and a large number of Marching Mothers who covered the city of Eldorado in a one-hour concentrated drive.

Included in the advance drive was a total of \$208.25. The Mothers took in \$455.46 Wednesday night. This makes a total of \$735.71 by this morning, with enough more expected to bring the grand total up to about \$800.

The thanks of the organization is extended to the general public for one of the most successful drives the county has had.

Half of the money will go to the national fund and half will remain here for use in local cases.

Frankel Erects Shell Station Storage Tank

Frankel et al have erected a 1,000-barrel tank at the Shell Station, for storage of oil from their producer near Mertzon, on the Williams place in this county. Paul Haley is trucking the oil from the well to the storage tank. This test had an allowable of 7,000 barrels in January but did not quite make it.

With the exception of the loss of an employee, Ralph Waldron, who was called back into the Navy, the Shell Station is operating about as usual.

Mr. Waldron will be absent from his work during his period of service in the Navy, and while away will be paid by the company a sufficient amount to bring his pay up to a designated percentage of his normal Shell pay, then he will return to his job when he is released.

Practically a year of work has been required to complete the working over of the Shell Station's electrical system. Flood lighting of the entire plant, and revamping of the complete lighting system has been in charge of J. T. Davis of Austin, an electrical supervisor. Work was delayed by shortages of material, and other conditions but the entire project is now completed and in working order.

TO BUILD NEW HOUSE

The Nolen McDonalds are buying a small three-room new house at Robert Lee, and are moving it to a lot adjoining their own residence in the south part of town. Work will start soon on the foundation, and the house will be moved here as soon as the preliminary work has been done. It will be of frame material, and contains three rooms and bath.

Lions To Sponsor Musical Program

Members of the Lions Club started their advance ticket sale this week for the concert they are sponsoring Feb. 23 in the high school auditorium. Eric Sorantin, violinist, and Joe Kreklow, pianist, will be featured in a program of classical, semi-classical, and popular selections.

As an aid to stimulating sale of tickets, Lion C. C. McLaughlin, chairman of the ticket committee, divided the club into two competing teams at yesterday's meeting. All Lions under 40 years of age are in the first group; all over 40 are in the second.

Each Lion has six adult tickets, which will sell for \$1.80 each, and three student tickets for 50c each. Both prices include tax.

Money taken in from this project will go into the Lions Club general fund to be used for public benefit, it was pointed out by President J. H. Mace. Lion Mace urged everyone to buy a ticket for the Feb. 23 concert.

1950 PMA Program Benefitted 97 In Co.

According to an annual report prepared by D. Wilson Smith, Administrative Officer of the Schleicher County Production and Marketing Administration, ACP funds totaling \$70,703.88 were used by 97 farmers and ranchers of this county during 1950.

Pricklypear elimination was the leading practice in the county. Some 55 ranchers cleared 37,386.7 acres of the plants for a total government payment of \$40,602.62 which probably paid about one-half of the expense of the work.

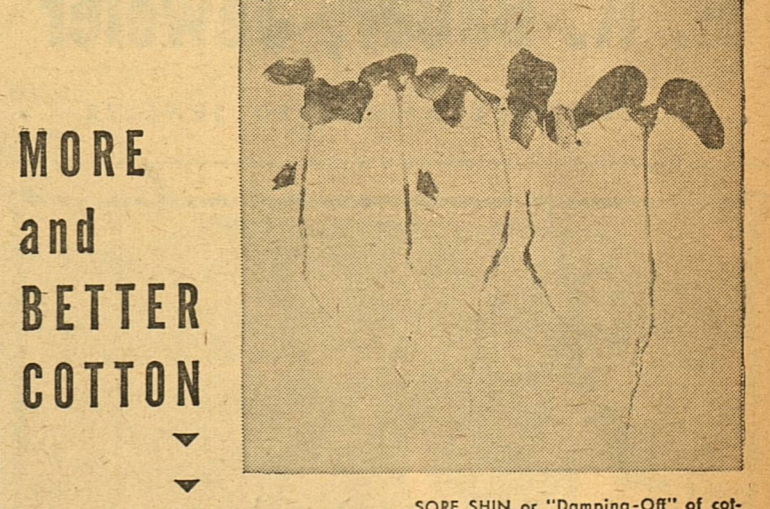

Other practices and payments were as follows: Eliminating mesquite on 1515.8 acres, \$6,377.46; bulldozing cedar on 3,806.7 acres, \$16,997.93; Controlling brush and shrubs on 213.3 acres of oak pastures, \$639.90; deferring grazing on 948 acres range land, \$113.76; Constructing 200,374 feet of large ridge-type terraces, \$3,005.57; constructing diversion terraces on 4 farms, \$464.64; and drilling 4 wells for livestock water, \$2,502.

Mr. Smith also reports that the 1951 ACP Program is well under way with some 60 farmers and ranchers already participating in the various land improvement practices. The 1951 County Allocation for assistance in carrying out the much needed improvement practices is \$67,700.

CHURCH IMPROVEMENTS NOW BEING MADE

Members of the Fundamental Baptist Church are making some improvements recently in their church property. Painting of the entire interior is nearly completed. When the weather is more favorable, the exterior of the building will be painted, and venetian blinds will be put up.

Fred L. Speck returned to his schoolwork Wednesday at the University, Austin, accompanied by Miss Sue Chilton, a house guest in the Henry Speck home during the between-semester weekend.

SORE SHIN or "Damping-Off" of cotton can be controlled

Sore shin or "Damping-off" is a touchy subject with many a cotton grower. It is hard to understand why your small seedlings should partly or completely die soon after they have come up. And it seems strange that this should happen in what ought to be your better soils—the heavy soils and those rich in organic content.

Because it happens most often in cool, damp weather, you may blame the bad weather when sore shin attacks your seedlings. Actually this is caused by fungi or bacteria that live in your soil, or in or on your seed. Cold and moisture cause these fungi to thrive at your expense.

A change to warm, sunny weather sometimes stops an attack of sore shin. It's much better, however, to prevent this disease before you plant your crop. Treatment of cotton seed with an organic mercury disinfectant has been proved to stop most losses from sore shin as well as losses from seed rot. This treatment kills the disease fungi on and in the seeds and protects both seeds and seedlings as they come up.

You can treat your seeds yourself, or have the job done for you. In either case the chemical costs less than 10¢ per acre, which is about one-fiftieth the cost of replanting. The County Agent can tell you more about the value of seed treatment and where you can get treated cotton or your own cotton treated for you.

News From Our Neighbors

Reactivation South For Air Field

Public officials, prospective bidders, and citizens of Fort Stockton have been busy within the last week to take advantage of the new training plan of the Air Forces to return to contract training of pilots—as successfully carried out during World War II. Gibbs Field, owned by Pecos County, is being pushed as a site for a contract-operated flying school, and the Pecos County Chamber of Commerce is serving as the clearing house for information and effort on the part of various interested groups.

Earle McKaughan, president of Trans-Texas Airways, and a successful contract trainee at Sweetwater during World War II, is definitely interested in negotiating a contract at Gibbs Field, and plans to be in Fort Stockton within the next two to four weeks to study the matter further. —Fort Stockton Pioneer.

Big Bend Livestock Show

Final arrangements for the seventh annual Big Bend Livestock show to be held at Alpine Feb. 10 have been made, according to show officials headed by H. L. Kokernot, Alpine ranchman. Approximately one hundred boys and girls, all members of either the 4-H clubs of Brewster and Jeff Davis counties or the FFA chapters at Alpine and Marathon, will be competing for the \$441 premium list.

The show will again be held in the Big Bend Wool and Mohair large warehouse. The one-day show program will see the judging of the lambs starting at 9:30 a.m. followed by the steer judging at 1 p.m. At 2:30 p.m. an auction sale of the livestock fed by the junior feeders will be held. —Alpine Avalanche.

Pasture Fire at Bronte

A grass fire, probably started on the highway, burned for several hours last Friday on the Earl Box pasture northwest of town. Before the fire was brought under control, some 200 acres of rangeland and about 400 yards of fence were destroyed.

The fire was first noticed about 11 a.m. Members of the Bronte

Volunteer Fire Department and other men of the community helped fight the blaze. Box was in San Angelo at the time the fire was discovered.

It is believed that the fire started from a match or cigarette thrown out by some careless motorist along the highway. —Bronte Enterprise.

New Parking Meters

The plunking of pennies into the downtown parking meters installed by the City of Junction during the past two weeks becomes effective today, January 25th, upon publication of an ordinance passed by the City Council on January 16th.

All laws pertaining to the use of the meters is contained in the ordinance which appears in this issue of the Eagle. The penalty for violation of any of the provisions of the ordinance is not less than \$1 and not more than \$100. —Junction Eagle.

Council Tours Power Plants

Officials of the City of Brady this week have been touring various power plants over the state, inspecting generating units of the types bid in by manufacturers for addition to the local plant. The City Council moved recently to purchase a new generating unit after recommendations given by engineers who made a thorough survey of the the power needs of Brady.

The Brady group returned Wednesday from a two-day tour that took them to plants at Hearne, Garland, Denton and Sanger. —Brady Standard.

St. Ann's To Build

At a special meeting on Sunday afternoon, Jan. 21, it was unanimously decided to make definite plans to replace the present St. Ann's Church with a larger and more modern structure.

Originally, it was merely intended to enlarge the present structure by extending it in length. This proposal encountered a number of objections, principally that of crowding the present buildings. It was then unanimously decided to solicit funds for a new church. —Devil's River News.

—White Onion Skin second sheets imprinted "COPY". Packs of 100 and 1,000 sheets. Eldorado Success.

Oil Strike Near Eden

Oil excitement hit a new high pitch Tuesday when an apparently unexpected strike was made in the Jack D. Collins No. 1 Walter & Raymond Pfluger well, five miles southwest of town. The sand, tentatively identified as a Pennsylvanian, was encountered Monday night, but no intimation of it was learned until the drill pipe was picked up Tuesday around 2 p.m. and gas pressure blew oil to a height of about 30 feet above the derrick floor and covered the nearby area.

Reports of considerable bidding for close-in royalty were heard, and a huge block of territory east and southeast of town is in process of being blocked up by what are said to be major company representatives. —Eden Echo.

Five Businesses Burglarized

Five Menard business establishments were broken into and burglarized early Wednesday morning with a total loss of approximately \$289.85 in cash.

Moser Motor Company suffered the largest loss with about \$267.30 in cash being taken. Entry into the motor firm was made by breaking a back window.

The burglaries probably took place around 3 or 3:30 a.m. Wednesday, January 23, according to Deputy Sheriff Jim Wyatt. A fingerprint expert from San Angelo was here Wednesday, but failed to find any usable prints.

At this time no arrests have been made, and the local authorities have no leads to work on, stated Jim Wyatt. —Menard News.

Mrs. Ruby Meek of Lampasas, sister of Mrs. L. B. Kerr, and Mr. and Mrs. Louis Carlyle and daughter Mrs. Merle Spivy of Lometa, her brother-in-law, sister, and niece, visited recently in the L. B. Kerr home.

Mr. and Mrs. Elton Faught of San Saba, Mrs. Desmond King's brother and sister-in-law, visited in the King home last weekend.

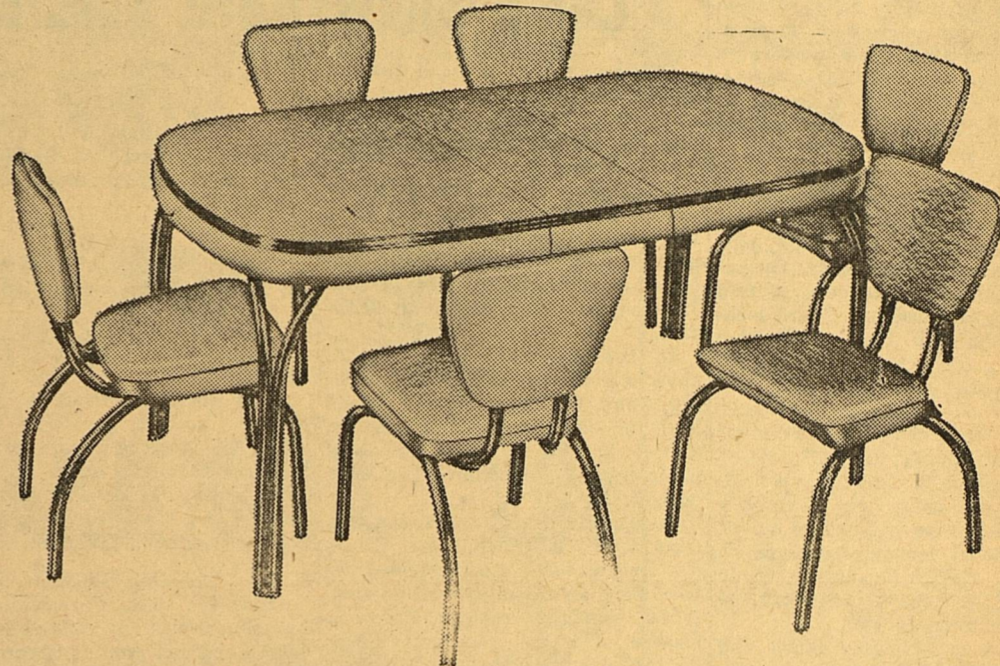

Mr. and Mrs. L. V. Newport left Friday for Fletcher where they spent the weekend with Mr. Newport's mother. They returned home Sunday.

Mrs. Mary Davis Coupe has been staying in San Angelo part of the time because of the illness of her mother, Mrs. John Davis.

Mrs. L. R. Damron, Mrs. Bob Faught, and Mrs. Will Doyle, attended the funeral of Mrs. J. M. King at Crews Thursday.

Mrs. Herman Carter has been visiting her aunt, Mrs. Tom Johnson, Mrs. Jim Hoover, and Mrs. E. W. Brooks.

Nixons Celebrate Golden Wedding With Open House

Having been married Jan. 27, 1901, in Doss, Texas, Mr. and Mrs. A. M. Nixon celebrated their golden wedding anniversary Sunday, Jan. 28. They were honored with an open house in the home of their daughter and son-in-law, Mr. and Mrs. Ray Jones.

In the receiving line with the couple were their three children, Mrs. Ray Jones of Eldorado, Rev. A. T. Nixon, Enochs, Texas, and J. S. Nixon of El Campo, Texas.

The table, laid with a crocheted cloth over a gold spread, was centered with an arrangement of white gladiolas with golden bells and white tapers. A wedding cake topped by a miniature bride and groom was served by Mrs. J. C. Ratliff and Mrs. F. B. Calcote. Mrs. Jim Hays and Miss John Alexander served coffee and tea. Mrs. Roy Davidson and Mrs. Ruth Gourley presided at the register.

"Silver Threads Among the Gold" was sung by Lavelle Meckel preceding a golden wedding ceremony performed by Rev. J. M. Hays. The 23rd Psalm was read by Rev. A. T. Nixon and was followed by a prayer.

Throughout the afternoon Mrs. John Stigler played traditional wedding music, and the Eldorado Quartet, Nolan McDonald, Ervin Mund, Mrs. Gus Love and C. F. Jones, sang favorite songs of the couple. C. F. Jones sang a request of his grandmother, "Is Your All On The Altar?"

Gifts were received by Mrs. Claude Galbreath who also assisted with the program. Other members of the house party were Mrs. Roy Andrews, Mrs. Winfred Schuller, Mrs. Marvin McDonald, Mrs. Delbert Taylor and Mrs. E. W. Perry.

One hundred and thirty-seven friends and relatives attended the celebration. All of Mr. and Mrs. Nixon's children and grandchildren were present with the exception of one granddaughter, Mrs. Elmer Hitt of Post, Texas.

In recognition of their fifty years of wedded life the couple received a large number of gifts from relatives and friends.

Party At Reynolds For Home Ec Class

On the school calendar during the past week was a ninth grade party Saturday night at the Reynolds school, which about 15 couples attended. Sponsors were Mr. and Mrs. Charles Gary, Mrs. Virginia Howard and Miss Sikes. Room mothers who furnished the refreshments were Mrs. Forrest Runge and Mrs. Buck Davis, who also attended, Mrs. John R. Jones and Mrs. Edmiston.

Games were played, and refreshments, consisting of cookies, cakes, cocoa and punch were served.

TO PRESENT RECITAL

Mrs. Edith Clary and Mrs. Rondyl Davenport of San Angelo will present a recital February 13, at 2:30 p.m. at the Methodist Church, under auspices of the Woman's Club. This will be open to the public and everyone is invited to attend. A tea hour will follow the program.

DAR TO MEET

The Eldorado Chapter of Daughters of the American Revolution will meet Tuesday, Feb. 6, at 3 p.m. at the home of Mrs. C. M. McWhorter, it was announced this week.

—The Eldorado Success, \$2.00 year.

Mr. and Mrs. Jimmie Bracken, and three children have moved to San Antonio, vacating the garage apartment at the home of Mrs. Bracken's parents, Mr. and Mrs. Skeet Griffin. Mr. Bracken is carpentering and painting in San Antonio.

Mr. and Mrs. David Griffin have moved to San Angelo, where they are making their home in an apartment. Mrs. Griffin, who is the former Maxine Doyle, clerked in a local store. Mr. Griffin is employed by Delta Gulf on the Robert Lee road.

Mr. and Mrs. S. A. Douglas of El Paso visited here this week with her cousin, Mrs. D. E. DeLong and other relatives. The Douglases were on their way to Corpus Christi to attend the convention of the Painting and Decorating Contractors of America. Mrs. Douglas is president of the ladies' auxiliary of that organization. Mr. Douglas is in the painting and decorating business in El Paso.

Nice shipment of the famous Sherrill electric lawn mowers. Cost me more, but will sell at last year's price—\$19.95. City Variety.

Mrs. Bob Page has returned from San Angelo where she has been undergoing treatment, and is convalescing at her home here. Her sister, Mrs. Harry Hipp of Louisiana is staying with her until she recovers.

Charlie McLaughlin and son Junior spent Thursday and Friday in Ft. Stockton visiting Mr. and Mrs. Max Henry.

Mrs. Pauline Hallcomb and Mrs. Hunt of Ozona spent the day recently at the Jess Koy Ranch.

Teena McMullen returned Monday to her school work at Texas Tech, Lubbock.

Mrs. Grace O'Harrow has been visiting recently with Mrs. Luke Robinson in San Angelo.

Mr. and Mrs. Davis Sides and children of Menard spent the day Sunday with Mr. and Mrs. Sam McGinnes. The women are sisters.

For the kiddies we have baseballs, baseball bats, baseball gloves galore. Priced at 49c up at City Variety Store.

ESTERBROOK fountain pens, \$2. —At the Success office.

Recipe of the Week

Orange Waldorf Salad
1 large seedless orange
5 lettuce leaves
1 cup peeled and diced apples
1 cup chopped celery
¼ cup chopped peanuts
Salt to suit taste
3 tablespoons mayonnaise.
Peel orange, cut into 5 slices and place on lettuce leaves. Combine other ingredients, tossing lightly together, and pile on orange slices. 5 servings.

Mrs. T. F. Green had as weekend guests her two college sons, Tommy, a Senior at A&M, and O'Dell, a sophomore at Mardin-Simmons, Abilene.

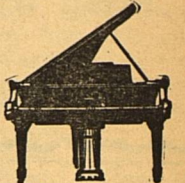

Weekend guests in the home of Mr. and Mrs. Albert Nixon and Mr. and Mrs. Ray Jones were Rev. and Mrs. A. T. Nixon and son of Enochs, who also visited in the home of Mrs. Nixon's mother, Mrs. Hattie Blaylock, Mr. and Mrs. J. S. Nixon and three children of El Campo, and C. F. Jones and his family of San Angelo.

Friends sponsored a layette shower recently for Mrs. Ted Kirby.

Mr. and Mrs. Seth Ramsey have been spending several days in Snyder on business. Herin Ramsey of San Angelo visited recently with his mother, Mrs. J. D. Ramsey.

Reddy for ANYTHING!

Whom does your government turn to for leadership in time of WAR? To business men, of course. Because they know how to deliver the goods. Their "know-how" plus plenty of Reddy Kilowatt power helped win World War II... Reddy Kilowatt power was "never too little, never too late". Now, he's ready again. Your Reddy Kilowatt is always READY... on TIME... and at the lowest wages in his history.

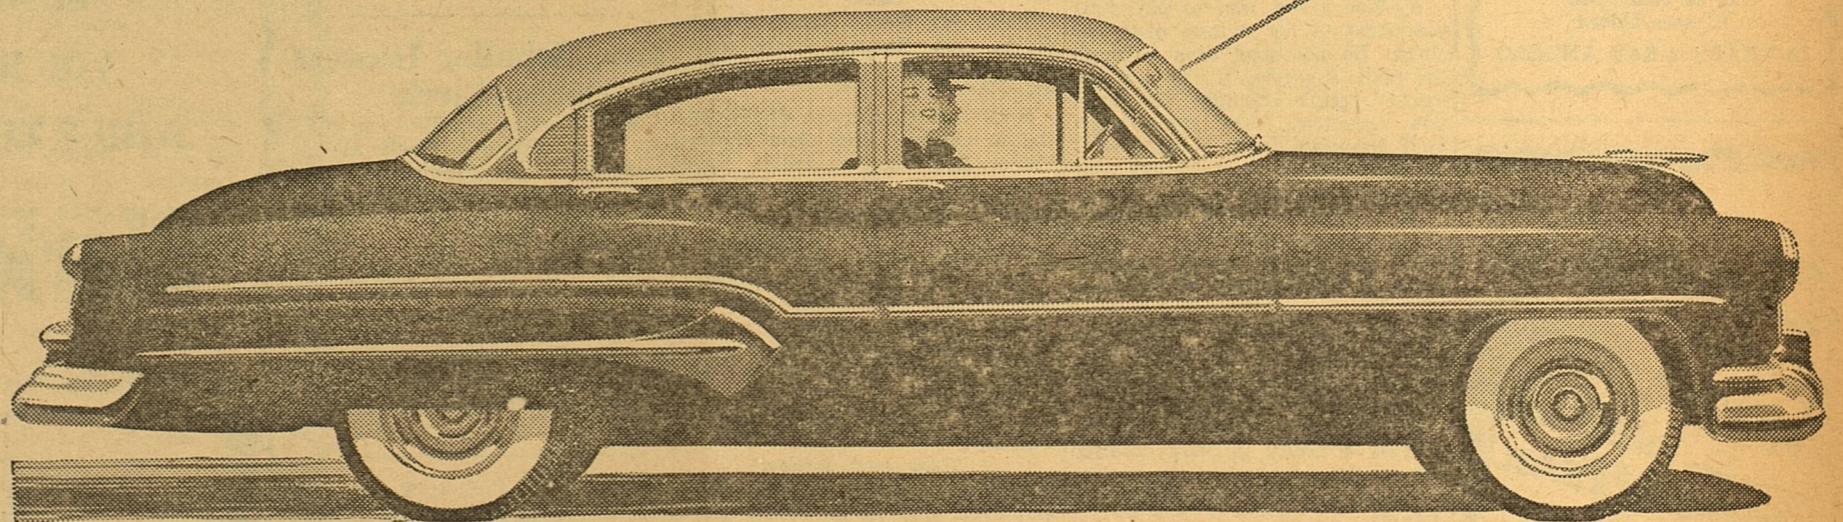

• The business-managed electric industry is the one industry that has doubled its capacity, and reduced the cost.

Veteran Questions

Q—My husband, a World War I veteran, is drawing a VA pension for nonservice-connected total disability. He has a yearly income of \$2,000, while I have a personal income of around \$600. When he reports his annual income to VA, does he include my \$600 along with his, or does he just mention his own money?

A—He reports only his own income to VA. Your income has no bearing on his rights.

Q—A friend of mine served in World War II and received an honorable discharge. After the war he reenlisted and was later discharged dishonorably. Will he be entitled to GI Bill benefits?

A—Yes, on the basis of the military service for which he obtained an honorable discharge.

Q—I have just been discharged from service, and I want to keep my National Service Life Insurance in good shape. I would like some tips on the best way to handle premium payments.

A—The safest way to pay your premiums is by money order or check. Do not send cash through the mail. Also, be sure to use the printed return envelope VA sends you regularly; then you'll know your premium won't be misdirected. Most important of all, pay your premiums on time.

Q—I obtained a GI home loan, and authorized the lender to apply VA's four percent gratuity toward reducing the principal of the loan. Now I find myself unable to meet my payments. May the lender reapply the gratuity toward the payments I can't meet, and thus prevent a possible foreclosure?

A—Yes. It is legally proper to reapply gratuity initially credited toward the principal, if it's for the purpose of preventing or curing a default.

Mrs. Ellis Carter of Sanatorium spent the weekend here with her sister-in-law, Mrs. Jerome Mitchell.

Soil Conservation District News

Recent checks made with Edgar and A. B. Thomerson on their ranches 17 miles southeast of Christoval showed that their range-land made definite improvement during the past growing season.

Range Conservationist assigned to the Eldorado Divide Soil Conservation District, in checking pastures with the Thomerson brothers last week found palatable grasses such as sideoats grama, hairy grama and the bluestems in a vigorous condition with light to moderate use on them at this time. This is encouraging at this time of the year for it assures the operator that he has sufficient high quality feed on the ground to take care of his stock until the new growing season starts in the spring. By grazing half of last year's forage production and leaving half they are working with nature in such a way that nature can do her best work under favorable conditions. That is, by having a good cover of mulch (dead grass) on the ground, the grasses will stay green longer in the winter, green up earlier in the spring and help hold moisture and get it into the soil when the rains do come.

Edgar and A. B. are proud of the range improvement they received during the past year. By their system of management they know they had something to do with getting range improvement outside of depending on rainfall alone. In other words they managed their pastures in such a way as to take advantage of what rain they did receive. They are looking forward to the time when their ranges will be made up almost entirely of the most palatable higher producing grasses. They received and plan to continue to receive range improvement by doing such range management practices as deferred grazing, proper numbers of stock, and proper seasons of use.

The Thomersons realize it takes time to get a good conservation job on their land. They are looking ahead and trying to plan conservation jobs ahead as they can get to them. For this year they are planning to construct all of the terraces planned for their cultivated land. Edgar sees the need for fencing one of his pastures for better grazing distribution, but fencing at this time is too expensive. He plans to make use of salt distribution to get this job done until he can construct the necessary fence.

The objective of their conservation plans is to get every acre to produce its maximum and maintain that productivity which means more pounds produced and increased dollars and cents in the bank.

Shower Honors Mrs. Hazelwood

Mrs. Liburn Hazelwood was honored with a layette shower Friday, Jan. 26, at 2:30 p.m., in the home of Mrs. Vernon Hazelwood. Hostesses were Mrs. Houston Thigpen, Mrs. Marvin McDonald, Mrs. Tom Carroll and Mrs. Laymon Hazelwood. Mrs. Gordon McDonald presided at the guest register. Mrs. Glenn McDonald served cake as Mrs. H. C. Lawson Jr. served coffee and hot chocolate.

Decorations were carried out in the traditional colors of pink and blue with a large stork as centerpiece.

Readings were given by Barbara Lynn Johnson, Dwight McDonald, and Vicky Lou Carroll. Several games were played and afterward Vicky Lou Carroll and Barbara Lynn Johnson presented the gifts, which were brought into the room in a miniature baby buggy.

Refreshments were served to about 35. About 125 gifts were received.

Mrs. Schuller Hostess To Dorcas Circle

Mrs. Winfred Schuller was hostess to the Dorcas Circle at her home last week. Present were eleven members, three visitors, Mrs. Ralph Pauley, Mrs. Jack Black and Mrs. Roy Shilling, and 13 children.

Mrs. Wyatt brought the devotionals, and Mrs. Delbert Taylor and Mrs. Albert McGinnes were in charge of the program, which consisted of two chapters from the mission study book, "We Seek Him Together." Refreshments were served.

Winona Sudduth of Texas Tech left this week for Lubbock to start her last semester in college. She arrived home Friday.

POST - SCRIPT

The heaviest demand for gas, and the largest single month the Eldorado gas system has ever had is reported by Palmer West, superintendent of the city gas distribution system.

Last year's expenditures in line improvements paid off during the current cold wave, when pressure remained good throughout the several-day freeze, and living units could be kept warm.

People reporting uncomfortable living conditions during the freeze were of the opinion that their houses were too open to take the extreme cold, or their stoves were not large enough.

"This is the heaviest drain we have ever had on the gas system," says West, "and January was the biggest month we have ever had."

He explains that fact by mentioning the unusually low temperatures, the larger number of meters listed, and heavier demands from businesses and institutions, such as the school which is serving a larger plant than it has ever maintained.

Quite a little trouble from frozen pipes is expected with the coming of warmer temperatures. Better gas facilities will keep these at a minimum, but exposed pipes and faucets froze, and in melting may cause trouble.

Water has been one of the ranchers' main problems, also.

A motor in use in the old part of the grade school—retained in the renovated building—caused enough trouble Monday night to cause dismissal of school Tuesday. It was put back in operation in time for Wednesday morning's school sessions.

Attendance at school was somewhat cut Wednesday, especially in the grades among the younger children—parents evidently fearing that the building might not yet be comfortable.

Garage men report the usual cold weather car ailments, and the anticipated number of trouble calls on stalled motors.

In this county, there was only a flurry of snow—if it had fallen in sufficient amounts to produce some moisture it would have been generally welcomed.

Today, the skies are clear and the sun shining, promising a steady rise in the early morning temperature of two degrees above zero. Eaves were dripping at 10:00 a.m.

If this continues, it is expected that the groundhog will definitely see his shadow tomorrow, Friday, Feb. 2—Groundhog Day.

"There go the profits," sigh the ranchers, as they step up their feeding. Quantities of home-grown bundle feed, cottonseed cake, and alfalfa bought from out-of-county truckers all help to keep the stock going.

At the best there will be loss from shrinkage.

Ranchers are busy these days with their pickups taking feed to their cattle and sheep. Because of winter weather and the drouth, everyone was feeding when the norther struck last Sunday, and it is generally reported that practically all of the stock is drawn to a certain extent, depending on the physical condition of the animals.

Some of the ranchers out in the brushy country who are in the midst of lambing are kept busy during these cold days. This weather is not their order, we understand. Others over the county also are lambing during this cold week.

At the Matthews and Bledsoe Ranch lambing went on during the cold weather, but the stock started out in good condition due to heavy feeding and shelter which was provided for the mothers and their young helped to get the animals through with a minimum of loss.

The spell of weather caught the Henry Mittels just at the start of the lambing season, but by separating the animals, and giving special attention to those about to lamb, it looks like they will get through fine.

Leonard Wilson, who is drilling in Concho County, spent several days here, due to the cold weather which slowed down his work. He states that he is working five miles from the new producer—Concho County's first, brought in at a fairly shallow depth recently.

While the cold weather has been most unwelcome as hazardous to the well-being of the stock, many state that while the animals may be a little drawn, there is little actual loss of the animals.

Typical are these little items (there's a sameness about ranching news this week): Lambing started at A. J. Stevens' this week, and only a few lambs were lost; J. H. Wagley reports all stock doing fine, including some young calves; lambing is under way at Dan Adams', Sam Henderson's, and Virgil Powell's, and others out that way; a few scattered lambs were born at J. Tom Williams', but the main

lambing is next week; Edgar Spencer reports some lambs born Monday night, and doing all right—that's the way the reports from the ranchers run.

Truett Stanford has returned from Fort Worth where he attended the Fat Stock Show several days. On Monday night he attended the Pure Bred Sheep Breeders' Association's annual meeting, as Corriedale director in that group.

YOUNG BABY DIES

Michael, age 22½ hours, born the preceding day to Mr. and Mrs. Travis Perry, died on the morning of January 21, 1951, in San Angelo. The baby weighed three pounds and three ounces.

Graveside rites were held that afternoon at 4:00, in Babyland at Fairmount Cemetery. The couple's pastor, Rev. Vernon Shaw, of Park Heights Baptist church, officiated, assisted by the Rev. Jim Hays, pastor of the First Baptist church of Eldorado.

Grandparents are the Fred Watsons of Eldorado and the Perrys of near Brownwood.

Among those attending the funeral from here were Rev. and Mrs. Jim Hays, Mr. and Mrs. Joe Wagley and Mrs. Sadie Davidson, in addition to the family.

DAUGHTER FOR SHUGARTS

Born, January 16, a daughter to the Jack Shugarts at San Angelo, named Jane Susai, and weighing seven pounds and two ounces. The infant has one grandparent, Mrs. Bertha Shugart, who is staying here at present with the family. The Shugarts have two other children, Jackie, age 5, and Jerry, 4.

BAILEY RANCH WMU

The Bailey Ranch WMU met for Bible study at the church. The lesson from the mission book was led by Mrs. Archie Mittel. Seven adults and four children attended.

SINGING SUNDAY

Singing Sunday at the Memorial Building. Everyone invited.

Chester Wheeler, now a resident of San Angelo, his headquarters as a grocery drummer, stopped here a short time Saturday evening on his way home from Eagle Pass and Sanderson, part of his territory.

Ann Williams entertained Thursday night with a slumber party at the home of her parents, Mr. and Mrs. J. Tom Williams, with Ruth and Nell Williams, Ann Rogers and Wanda McAngus attending.

Mr. and Mrs. L. T. Barber and son Bobby of San Angelo visited Sunday with Mrs. Barber's parents, Mr. and Mrs. Archie Wright.

Mrs. Fred Watson joined her sister, Mrs. Gene Otis of Fredericksburg, last weekend, on a trip to Houston. Mr. Watson left Wednesday to spend about two days there and bring them home.

★ **The Military** ★

Albert Ray Thigpen and Billy Dan McAngus of Eldorado will be among 13 selectees leaving for induction on February 6, it was announced recently by Mrs. Jessie V. Truden, clerk of Local Board 110, Sonora.

Other towns will furnish selectees for that same date as follows: Ozona, 3; Junction, 3; Rocksprings, 2, and Sonora, 3.

Office hours of the draft board office in Sonora were announced by Mrs. Jessie Truden, clerk. The office will be open Monday, Tuesday, and Wednesday from 8 a.m. to 5 p.m., and will be closed the remainder of the week.

★ **AL - TRUISMS**

—By Al G.

The T. J. Koguts are here from Detroit, and Mr. Kogut started work today at the post office, as the result of a deal in which he and Arthur Tree switched jobs.

They are living in a trailer until they make a deal for a house, and the children have entered the local grade school.

Mr. Kogut, who arrived here during this week's big freeze, relates that he was here only once before—"and the weather was cold THEN! And Tree tells me the winters are mild here," he says.

A postal employee in the claims adjustment department of the Detroit post office, Kogut will do the general type of work which Tree did in the Eldorado office. In turn, Tree will probably be assigned to some special job in Detroit.

Mr. Kogut has been active in Scout work and was a Scout commissioner in Detroit. The family sold a house in Detroit before moving here to make their home.

The women folks in the J. C. McCoy family must have been an inspiration to each other recently. Four of them have had mumps.

Beginning on the 10th the four took mumps one by one—until Mrs. McCoy and three daughters, Naomi, Peggy and Betty all had them. The girls have returned to school at last and Mrs. McCoy reports that the household is about back to normal.

These grandparents!

Rhonda Sproul, little daughter of Mr. and Mrs. Carrol Sproul of Menard, has been the cause of hard feelings between grandfathers Bob Sproul and Dick Bearce—she's learned to say "Bob"—but not "Dick"!

Most welcome new-old residents of Eldorado are a number of Western Drilling families, who lived here quite awhile during the drilling of many of the Page and Koy wells, and who have been away from here for some time.

Among these returning families are the C. W. Schulzes—they have taken up residence in the Fay Point house, and arrived here just in time to make an Eldoradoan out of their fourth child, born the day after their arrival here.

The Amon Justices—they live in the Walter Taylor home, the Taylors having moved out into the apartment in the rear of their business building. Mr. Justice is now tool pusher and daylight driller.

The Cleo R. Mixons—they live in the Pomp Watson apartment.

Another returning employee is young Hubble, who left here a single boy, married a girl from Grandfalls, and returns with a family of four, himself, his wife, and their infant twins.

Among others are several who are new in the city; including the Pyatts, who live in a trailer at Hal-

berts, the Jimmie Cannadays, who live in an Humphrey apartment, Rogers, who has the evening tower, and possibly others whose names we did not learn.

The returning families have quite a few friends in the city who are glad to see them back!

—al—

A change of weather does something to business, naturally. While the filling stations are selling lots of anti-freeze in this cold snap, and the Topliffes, who sell Butane over a wide area and the city, which sells natural gas, are doing a heavy volume of business, the Paul Philippses, who operate the ice house, remark good-naturedly that business is dull!

—al—

The T. H. Alexanders have just returned from Snyder, where they visited the R. J. Alexanders, who recently moved there from Eldorado. They report that they live in a fine new house on the Skelly lease eight miles out from Snyder, on the Lamesa highway, that the children ride a school bus which they must meet two miles from the lease, and that they have joined the church and Margie already has a Sunday School class to teach. R. J. takes care of seven wells, six of which are flowing. The parents stayed from Friday to Monday, and returned with the report that they were well pleased with the young folks' set-up, and that they seemed happy and well satisfied.

Wendell Yates and his family of San Angelo spent a few hours Sunday evening with the H. W. Scotts,

Mrs. Marvin Logan returned home Tuesday from Holcomb Clinic where she underwent treatment for several days. She is reported to be better, after being quite sick two or three days.

Gertrude Sauer of San Angelo visited during the weekend here with her parents, Mr. and Mrs. Otto Sauer, and other relatives in this county. She returned home Sunday afternoon with her brother Bill Sauer and Mrs. Sauer, who were on their way back to Brownfield.

The C. C. McLaughlins spent the day Sunday in San Angelo with the R. R. McCulloughs. Promotion came recently to Mr. McCullough when he was made manager of the San Angelo Telephone Co. Mrs. McCullough, who is Mrs. McLaughlin's sister, is chief operator. The couple are well known in Eldorado.

Carol Lynn Dickens spent the weekend with her sister, Mrs. John Barrows, at San Angelo.

The Bob Sprouls visited their son Carrol and his wife Joan and baby Rhonda at Menard Sunday.

W. E. Turnbow of Welch, an oil field worker, has bought the Trotter house in the Keel addition, and plans to move here.

In response to a demand
from local breeders, we have

SUCCESS OFFICE

Personal News Items

Mr. and Mrs. George S. Robinson and children Donald, Wanda, Edward and Dannel of Ballinger visited during the weekend with Mrs. Robinson's mother, Mrs. L. R. Damron.

The Howard C. Derrieks visited Sunday with friends on a ranch near Menard.

Mrs. Buster Dickens drove to Christoval recently with her father-in-law, George Dickens, who will visit a daughter, Mrs. Sam Cahoun and her family and expects to take the baths in Christoval.

Merlyn Gail, three-year-old daughter of Mr. and Mrs. O. V. Doty, has been on the sick list this week.

Fred Case has gone to Fort Worth where he is showing some Case Ranch Stock at the Fat Stock Show.

Richard Cheatham's son Tony, who is in the sixth grade of the public school, missed all of last week and part of this week because of illness.

Patricia Elder of Sul Ross, Alpine, has returned to her schoolwork after spending the holidays with her parents, Mr. and Mrs. Jack Elder.

Grandmother Whitten is undergoing treatment for a heart ailment in a San Angelo hospital.

Joyce Burk of SAC returned to San Angelo Tuesday morning after spending the weekend with her parents, Mr. and Mrs. Lum Burk.

Mr. and Mrs. L. W. Henshaw of Odessa spent Saturday and Sunday with their daughter, Mrs. Billy Green, Mr. Green and the couple's young son, David William.

Mrs. H. T. Bird underwent major surgery in a San Angelo hospital Friday and is reported doing well. Mr. and Mrs. A. J. Atkins visited her one day this week. Mrs. Bird has been in poor health for several years.

Marshall Bailey of Midland spent the weekend here with his mother Mrs. A. K. Bailey. He works for an oil company in Midland.

C. W. Collins has been sick with a severe cold.

H. A. Belk and his family have returned from Miles where they visited Mr. and Mrs. J. B. Belk. Guests in the home were Mr. and Mrs. Artie Martin and children and Mr. and Mrs. Jack Parker of Roby.

Mr. and Mrs. Billy Frank Blaylock and three children of Comfort arrived here Friday and visited with Mr. and Mrs. W. A. Blaylock.

Mrs. F. B. Calcote visited last week in Midland with her daughter Mrs. J. H. Minyard and her family. Melba and daughter Celia Ann accompanied her home and Celia remained for a longer visit in the Calcote home.

Mr. and Mrs. Ollie Alexander spent several days recently with their son Ollie Jr. in the hospital in Houston.

Mr. and Mrs. William Sauer of Brownfield spent Saturday and Sunday in Schleicher County visiting the Otto Sauer family and the Fred Gunsteads.

Mr. and Mrs. Ben Ewing of Austin spent the past weekend with the Josh Ewings on their ranch in Schleicher County. Mr. Ewing teaches in the State University.

Gerald Harris, student at NTSC, Denton, spent the weekend at home with his parents, Mr. and Mrs. Rance McDonald.

Mr. and Mrs. Steve Douglas arrived here Sunday night from El Paso, to visit Mrs. D. E. DeLong, Mr. and Mrs. Ralph Fowler and other Schleicher County relatives. He is a cousin of the DeLongs.

Mr. and Mrs. Herbert Graf and Mrs. H. L. Galbraith spent the weekend in San Antonio. They visited a brother, Charlie Graf, and his family, and also went out to the field to visit George, who is in service.

Mr. and Mrs. C. C. Henderson visited Thursday in Abilene with Mrs. Henderson's father, J. M. Willis, who is ill and makes his home with his son W. C. Willis and his family.

Mr. and Mrs. C. W. Turner of Kimbell arrived here Saturday to spend several days with Mr. and W. H. Joiner.

Bill Jones of Howard Payne was one of the college students who was at home for the between-semester holidays.

Albert Fore, who is working for Leonard Wilson, moved recently from Eldorado to Eden where the rig is now employed.

Pat Joiner and Howard Belcher made a business trip recently to Childress.

R. K. Bradley of Midland visited here during the past weekend with his wife, who is staying here until he finds living quarters, and his mother, Mrs. Frank Bradley and other relatives.

We are fortunate in receiving large showing of toys to sell for 10c, 15c, 20c, and 25c. City Variety.

Mr. and Mrs. George W. DeLong of Mertzon were hosts Sunday to Mr. and Mrs. R. B. Austin and Miss Susan Miles of the Tom Green County Historical Society, and Mrs. D. E. DeLong of Eldorado. Miss Miles is interested in the early history of the DeLong family in Texas.

Mr. and Mrs. Wilson Page, Mr. and Mrs. Joe Ed Hill, and Mr. and Mrs. Jack Jones, spent Sunday at Orient on the Oscar Brown Ranch.

Mr. and Mrs. O. H. Reeves of Greenville and their son Joe D. Reeves of Cleburne spent the weekend in the Edgar Sauer home. The men returned home, and Mrs. Reeves remained for a longer visit with her daughter and new baby.

Jackie Henderson has returned to San Antonio, where she attends school at St. Mary's. A house guest in the Henderson home during the weekend was Tommy Sasser of San Angelo.

Laundering a Sweater

COLLEGE STATION—Laundering a sweater is an art that any girl can acquire, says Dorothy Dixon, Sherman county home demonstration agent.

She recommends collecting all the material needed to wash a sweater before starting the job. This includes a dish pan, mild soap flakes, a towel, a large piece of paper, a pencil, and lukewarm water.

Miss Dixon advises using the following procedure:

Place all necessary materials within easy reach. Draw an outline of the sweater on the piece of paper before wetting it. This will save considerable time in shaping the garment after it has been laundered.

Use both hands in the washing process. Cup the hands and squeeze the suds through the garment. Mild soap and lukewarm water are the best agents for cleaning a sweater.

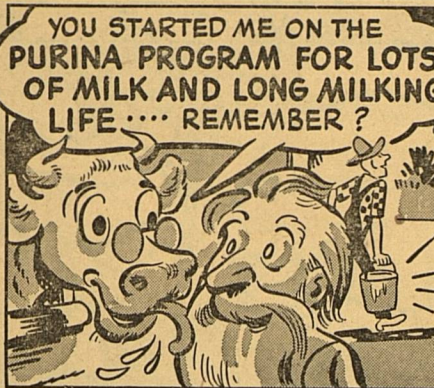

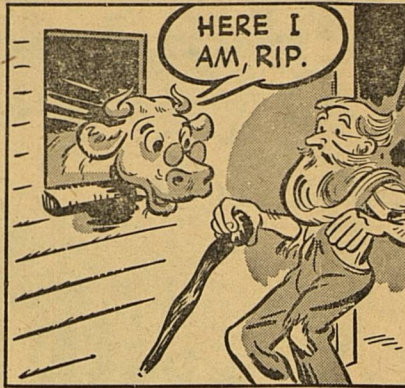

Rinse the sweater in water that is the same temperature as used for washing. After the sweater is rinsed, remove the excess water by gentle squeezing—rather than by wringing.

Spread the sweater on the paper and shape it on the outline. Spread a towel on the sweater, and turn the whole works—towel, sweater, and paper—over. The sweater will be left on the towel in perfect shape.

Leave the sweater on the towel while it dries. Allow it to dry in a moderate temperature. Do not dry it in hot air or before an open fire. An electric fan may be used for drying if one is available.

Press the sweater lightly after it dries to give it a new look. Miss Dixon cautions that the usual sliding motion for pressing will stretch the knitted material. To prevent this, pick the iron up and set it down gently to press the sweater.

CHECKERBOARD CHUCKLES • From Your Purina Dealer

EXAGGERATED—BUT A GOOD POINT!
Long cow life really pays off—for example, Cow No. 611 at the Research Farm is now in her 11th lactation. She has produced over 156,000 lbs. of milk. Has made more than \$3,000 over feed cost. Come in for the new Purina Dairy Booklet.

Supplemental Forage Needed In Winter

COLLEGE STATION—The unfavorable weather conditions existing over most of Texas this winter can hardly be considered beneficial to the livestock man. However, the situation may be a blessing in disguise—if it makes the farmer and livestock producer realize the necessity for having a reserve supply of feed.

A. W. Crain, associate pasture specialist for the Texas A&M College Extension Service, points out that farmers can learn a valuable lesson from the present situation. He advises them to plan a "complete" forage program.

Regardless of how good a permanent pasture is, for adequate forage to be provided at all times, it must be supplemented—with stored roughage and supplemental pastures.

By properly planning his supplemental pastures, a farmer can usually provide ample forage during the seasons when grazing from permanent pastures is inadequate. Crain observes, however, that this past winter is an example of the

"unusual season" for which the livestock man must always be prepared. Neither permanent nor supplemental pastures will furnish grazing under very adverse weather conditions.

Crain suggests that the farmer provide at least one ton of hay and three tons of silage for each cow on his farm. Without silage, at least two tons of hay are needed. He says that forage retains more of its nutritive value when stored than when stored as hay.

Another Prisoner Escapes

History repeated itself at the Garza county jail when a prisoner crawled through the roof and escaped last Thursday night. It was the second time in two weeks this had occurred.

Sheriff Carl Rains reported Tuesday that no trace had been found of the escapee, a 23-year-old Negro, suspected as a car thief. A 25-year-old burglary suspect took the same route Jan. 5. He too, still is at large.

The latest prisoner to leave had finished his evening meal and was in the jail runaround temporarily, about 8 o'clock, when he crawled through the faulty ceiling. Officers could not tell which way he went. —Post Dispatch.

March of Dimes Huckleberry Finn

Larry McKenzie, 1951 March of Dimes Poster Child, sits in a wheat field and forgets he has polio—a smiling symbol of the thousands of children and adults who look to the March of Dimes for aid when polio strikes. The wheat field is on a farm near Larry's home on the shores of Lake Ontario. Twelve-year-old Larry was hit by polio in August of 1949 and was aided by Orleans County (N. Y.) Chapter of National Foundation for Infantile Paralysis. His picture will be seen on thousands of posters throughout the nation during the 1951 March of Dimes against polio this January.

Long-term Investment that pays daily dividends

THESE days thoughtful people turn their minds to the durability of things they purchase.

But it's rare when doing your duty turns out to be the best way to satisfy your heart's desire.

That's what's so marvelous about this '51 Buick.

If you picked a car just for the lift it gives you—your pride in its power—or its generous comfort—you couldn't make a better choice.

But make note of this:

That gleaming new push-bar forefront, which greets your eye with flashing beauty, contains 25 grille bars made of stamped steel, individually mounted to "give" and come back unharmed. Combined with a massive, wrap-around bumper, fortified by two stalwart "bumper bombs" and two added uprights, it gives unsurpassed protection.

Springs of stout spiraled steel on all four wheels let your wheels curtsy over bumps, while you ride level as a lance. But they also need no servicing, and breakage is virtually unknown.

Buick's great-powered engine is a Fireball, wondrously lively and eager at the mere touch of your toe—but it also wrings extra power from every drop of fuel, and has the mechanical perfection

that comes only from years of experience with this basic design.

Dynaflow Drive gives you effortless smoothness of control—but it also eliminates clutch repair bills, saves tires, eases strain on the whole driving mechanism, from engine to differential.

The road-steady gait of a Buick assures relaxed security—and is also evidence that you have a durable, deep-silled, X-braced frame beneath you.

However you check it, you'll discover this: *The things that make you yearn for a Buick on first acquaintance, are the very same things that make Buick such a smart long-time buy.*

Better see your Buick dealer—soon.

Standard equipment, accessories and trim illustrated are subject to change without notice.

No other car provides all this:

- DYNAFLOW DRIVE* • FIREBALL POWER
- 4-WHEEL COIL SPRINGING • DUAL VENTILATION
- PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE
- WHITE-GLOW INSTRUMENTS • DREAMLINE STYLING
- BODY BY FISHER

*Standard on ROADMASTER, optional at extra cost on other Series

RECIPE OF THE WEEK

By Mary Lee Taylor

Pancakes with Sausage Patties

Broadcast: February 3, 1951

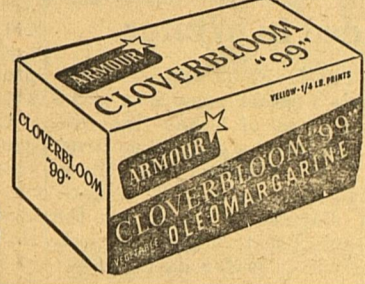

1 1/2 cups plain pan-
cake mix 1/4 cup rolled oats
1/2 cup Pet Milk 1/4 cup Pet Milk
1/2 cup water 1 teaspoon grated
1/2 lb. bulk pork 1/2 teaspoon dry
sausage mustard

Put the mix into bowl. Stir in mixture of 1/2 cup milk and water. Do not beat until smooth, as overbeating toughens pancakes. Bake on hot, slightly greased griddle or in heavy skillet, until bubbles appear and edges are cooked, then turn and brown other side. Makes eighteen 4-in. cakes. Meanwhile, mix sausage with rolled oats, the 1/4 cup milk, onion and mustard. Shape in 8 flat patties. Brown slowly on both sides in hot, greased skillet. Serve with pancakes and syrup. Makes 4 servings.

You Will Need:

Pet Milk, Pancake Mix, Bulk Pork Sausage, Syrup.
