The Cotton Situation

By W. G. GODWIN
County Agent

Efforts to get farmers to reduce cotton acreage voluntarily this year may appear questionable to some, nevertheless it comes within the scope of the county agent work to keep facts and situations before producers and let them make their own decisions. I realize that you have produced less than 1000 bales in the county due to drouth the last two years. I feel sure you still want the facts.

Why the Secretary of Agriculture is asking a reduction from the 15 million bale crops in 1951 and 1952:

1. The 15 million bale crops of the last two years have supplied our domestic and export markets and in addition has built reserves (carryover) from a low of 2 million bales to over 4 million bales.
2. Our domestic needs are 9½ million bales; export markets have declined sharply in the last 12-18 months; only about 4 million bales will be exported during 1952-53.
3. The above two factors have acted to reduce cotton 25% and more.
4. A 1953 crop much in excess of 12¼ million bales will have a

depressing effect on cotton prices and bring production controls in 1954 and thereafter.

It is suggested that cotton producers plant less than 5 acres for each six planted in 1952. The 1953 acreage goal for grain sorghums is almost double last year's planting support price is \$2.43 per 100 pounds.

Some advantages that might result from having only 12½ million bale crop are:

1. The average price might be higher.
2. Less burdensome stocks likely would be placed under CCC loan, to depress prices in the future.
3. Less restrictions to growers planting in 1954 and subsequent seasons.
4. Labor supplies for harvesting the crop would be more nearly adequate, lessening harvesting risks and costs.

What are some of the "unknown" factors that will affect the outlook for cotton?

The greatest unknown factor is the present war. Which way is the Korean war going? Will it spread into a much larger war? Will the Korean war continue in the present pattern or will we have peace? The answers to these questions are unknown.

However, if the international situation should become more critical there would be a large demand for cotton and more generous buying for stock piling causing prices to rise.

Another unknown factor is the amount of grants and loans that will be made available by U. S. to foreign countries to buy cotton in the years ahead.

To what extent would foreign countries use available dollars to buy cotton in the U. S.? That is also an unknown factor.

The carry over of cotton in non-Communist countries will be about six hundred thousand bales that at this date in 1952.

There is a tendency for foreign cotton production to increase in 1953-54.

If the international situation becomes less critical there will be less demand for cotton, which will bring about larger supplies and lower prices.

Furthermore, laws governing acreage allotments, marketing quotas and price supports may be changed at any time if Congress deems it necessary.

Leave For Egypt

Mrs. Howard H. Hanson and children, Terry, Toni and Harrie, will leave next week by plane for their new home in Cairo, Egypt. Mr. Hanson, former local vocational agriculture teacher, left several weeks ago to begin his duties with the agriculture department to improve the livestock in that country.

The Hansons will start the first lap of their journey from Midland Wednesday morning. Arriving in New York City late that day, they will begin their trans-Atlantic flight on Thursday, reaching Rome on Friday. They are due to leave Rome Saturday night, arriving in Cairo six hours later. —Big Lake Wildcat.

Watershed Studied

Work has started on the Upper San Saba River watershed to determine the feasibility of an upstream Flood Prevention program. The program consists of building detention type reservoirs on the major tributaries of the San Saba river to retard floodwater temporarily and release it at a controlled rate so that flooding of valuable bottomland may be prevented.

Several people from this district have seen this type of work already constructed on the Deep Creek watershed near Mercury in the San Saba-Brady Soil Conservation district. —Menard News.

Time Quotes Copeland

In the sports section of today's edition of TIME, the weekly news magazine, an article about a cutting horse contest in Tucson quotes Gay Copeland, president of the National Cutting Horse Association.

The article describes the victory of a Texas horse, Marion's Girl, in the cutting contest, and calls on Copeland to sum up the requirements of a good cutting horse. Copeland's summation: "He has to be light on his feet, like a dancer. He has to be easy to turn, and a quick thinker. He has to know which way a calf intends to turn, then outsmart him." —Devil's River News.

Car Is Wrecked

An estimated \$1,200 damage was done to a Ford sedan late Saturday night when the driver, Thomas Horace New, 28, Ballinger truck driver, went to sleep while rounding a curve five miles north of Sonora.

The car struck the right shoulder of the road, swerved back to the left, then back to the right and overturned. New was uninjured.

The accident happened at 11:30 o'clock. —Devil's River News.

Juneteenth Celebrated

Members of the Ozona Roping Club are shaping plans for the 5th annual All-Colored Rodeo in Ozona set for June 18 and 19. The Roping Club sponsors the annual show which is open to colored cowboys throughout the West Texas area.

Events being planned include calf roping, goat roping, goat hair pulling, bronc riding, bull riding and staged foot races. The event is match dat night at the fair-ground arena here.

Adding to the festivities for the colored celebration of Juneteenth, the roping club has planned a big all-colored dance on the fair-grounds dance pavilion the night of June 19 to close out the two-day show. —Ozona Stockman.

Lots of Lambs!

While we have heard of lamb crops all the way from 100 on up to 122 per cent, the top of all highs reported this year was reported last week end. Roy Woodruss out Millersview way, reports a 166 per cent lamb crop from 89 ewes in one pasture. From these 89 ewes, Roy reports 149 lambs—or a 166 per cent crop. Out of 520 ewes, he reported 535 lambs—and still lambing. —Eden Echo.

AUSTIN — House and Senate wrestled this week with a new kind of appropriation bill—one that undertook to budget not only the states general revenue fund, but also the all other sources such as federal aid and direct income such as highway taxes and college fees.

Last week a joint conference committee agreed on the total of expenditures for the next two years: \$1,194,266,221. It was higher than the amount set by either House or Senate in their appropriation bills.

—tpa—

The general revenue figure was put at \$166,569,347. Previous appropriation bills have dealt only with this fund.

Appropriations as set by the committee were estimated to be within the revenue that the state will receive during the coming biennium, thus it would call for no new taxation.

The bill provides \$180 a year pay increase for state employees and up to \$300 a year pay hikes for university and college teachers.

—tpa—

The House has backed up Representative Max C. Smith of San Marcos, chairman of the appropriations committee, in his statement that under House rules no other appropriation bill may be acted upon until the general appropriation measure is passed by both houses.

That rule stymied public school teachers, who have been pressing hard for action on a measure that would give them salary increases of \$600 per year.

Charles Tennyson, secretary of Texas State Teachers' Association, says that no smaller amount will be acceptable to the teachers. It is provided in a bill by Representative Lamar Zivley of Temple.

The administration is supporting a measure by Representative Joe

Kilgore of McAllen to up the teachers' salaries by \$450 per year. In an attempt to woo the teachers, Kilgore changed the figure in his bill from \$240.

A third bill by Representative Floyd Bradshaw of Weatherford would raise the salaries of beginning teachers by \$600 per year, but the increases of older and more experienced teachers would be lower.

Twelve hundred teachers were in the gallery when the House appropriations committee held a hearing on the teacher pay bills.

At the hearing, R. L. Proffer of Denison, president of the teachers association, said, "If we don't do something constructive for the teachers in the immediate future, our whole education system is going to pot."

Kilgore warned the House that "it will require the biggest tax bill in the history of this Legislature if the school folks get a \$600 per year general raise with state funds."

—tpa—

The Legislature, meanwhile, has seemed little inclined to pass new tax bills.

Hearings continued on a proposal to raise \$84 million a year by increased taxes on oil, gas, beer, and various natural resources, and by placing new taxes on chemical industries and presently untaxed resources.

Passage of this omnibus bill is considered very doubtful.

Other tax propositions are dead or dying. The House revenue and taxation committee killed a two per cent levy on merchandise sales.

A new tax bill on natural gas pipelines is comatose in the committee, with no hearing set. A one-cent increase in the gasoline tax is in the same condition.

—tpa—

Letting bills die in committee is the way the Legislature gets rid of most of them.

At every session, more bills are introduced than the members can possibly consider, much less debate and either pass or defeat.

Thus it was that a house committee gave an overdose of sleeping powders to a bill by Representative Maury Maverick of San Antonio to regulate lobbyists.

The bill would force members of the "third house" to register, tell whom they represent and how, and list their expenses.

The committee heard arguments for and against the bill, then sent it to a subcommittee, from whence it is not likely to emerge.

A fight was promised by labor organizations against a bill by Representative W. H. Abington to rewrite the workmen's compensation laws.

The Texas Federation of Labor, the Texas CIO and the rail brotherhoods contend that the bill would reduce partial disability benefits for many workers and exclude others from benefits for which they are now eligible.

Industry spokesmen said they might not support the bill in its present revised form, although they favored it as originally written.

The bill has been passed by a committee.

LOCAL CHAIRMAN FOR CAR DEALERS TELLS OF DRIVE

Charlie Trigg, area membership chairman for the National and State Automobile Dealers Associations, today announced plans for the annual membership round-up of the two associations.

Known as "Give A Day," May 1 will find more than 200 area chairmen in Texas devoting a single day's efforts to bringing membership in the two associations to full strength.

Mr. Trigg, local Ford dealer, has been a member of the two business groups for five years.

Authorized car and truck dealers are eligible to become members of the two business associations.

Mrs. Way King has gone for a several months' visit in Tulsa with her daughter Mrs. A. J. Burk and family. The Burks recently moved there from Stratford.

Facts and Figures On Trends In Beef Cattle Prices In 1953

The outlook for beef cattle can be appraised best from a knowledge of present trends as viewed from past experience. I hope the facts and figures viewed here will help cattle men see fairly accurately the developments expected in the future.

Beef cattle prices rose from \$21.50 per hundred pounds in May, 1950, to \$28.90 per hundred pounds in April, 1951. This represented a 34.4% increase over the twelve-month period.

In May 1950 cattle producers were getting 135% of parity. Twelve months later, in April, 1951, this had increased to 152% of parity.

On June 4, 1951, price restrictions went into effect. Prices pressed hard against the ceilings during the summer of 1951. As marketings increased seasonally during the fall some of the price strength was lost.

Favorable supplies of grain and forage crops during 1950, producers added about 4 million head to inventories, and in 1951, with price controls serving as another stimulus to hold on to animals, cattle slaughter was reduced to a 10-year low and calf slaughter dropped to the lowest in 18 years. Number of cattle increased 5 to 6 million head in 1951, reaching a record on January 1, 1952.

The stage was set for increased marketing in the future and to speed this up came the drought.

Prices of beef cattle in 1952 dropped because of increased numbers of cattle going to market.

During 1952 the demand for beef remained high. For the time being, cattle producers have seen their day of high prices. Yes, a lot of dollars have gone down the drain since the \$28.90 per one hundred pounds back in April, 1951.

Let's take a brief look at what has happened since then to prices.

Table with columns: Date, Price per 100. Rows include dates from 4-15-51 to 2-15-53 and corresponding prices ranging from 23.70 to 27.00.

From April, 1951, to February, 1953, cattle prices dropped 39.8%. On February 15, 1953, the farmers and ranchers were receiving 89% of parity for beef cattle as compared to 152% in April, 1951.

Beef Cattle Prices In 1953 There seems to be a great deal of uncertainty in the minds of livestock producers. The lack of confidence has brought about scarce marketings of livestock because of the drought and drop in prices. During the week of January 19, 1953, the federal slaughter of cattle was the highest since 1947.

On February 6, 1953, the office of price stabilization revoked the remaining price controls and other regulations on sale of livestock and meat.

More price stability than in 1952 is expected unless drought or other weather hazards speed marketings as happened in the summer and fall of 1952.

Slaughter is expected to increase about 15% over last year. Even with this increase in slaughter there will be a further build up on farms.

There may be some stabilizing of cattle prices the rest of this year, there is little reason to expect cattle prices to regain much loss of the last year until the crest has passed present cycle of cattle numbers and slaughter.

Because cattle numbers have increased so fast the last two or three years, a considerable adjust-

ment in the price of cattle relative to other livestock prices can be expected.

Excessive marketing in 1953 may result in further declines in prices received for cattle.

Imports Of Beef Into The United States

Imports of beef have had very little effect upon prices received by producers in the United States. In 1952, when cattle prices fell off, we imported 18% less beef and veal than we did in 1951 when cattle prices were high.

In 1952 we imported 321 million pounds of meat and this was only 2% of the U. S. production.

The export quota from the Mexican Government is 400,000 head. This less than the normal movement.

Cattle exports from Canada in 1953 is expected to be about the same as 1951. New Zealand will send all its beef to Great Britain.

At the present time, we should be more concerned about what is happening to numbers and supplies in the country.

Ft. Worth.—A record run of cattle appeared at the nation's major markets for mid-April on Monday when an estimated 112,700 cattle and 9,000 calves were reported. This compared with 94,700 cattle and 9,500 calves a week earlier, and only 44,000 cattle and 3,000 calves on the same date a year ago.

Immediate effect was to slow trade on fed cattle at Fort Worth and other points around the country. Here fed cattle closed 50 cents to \$1 below last week's close, and some points in the North reported more severe slumps before trade was completed. Cows at Ft Worth were fully steady and bulls closed 50 cents to \$1 lower to hit the lowest level for that class in over a year.

Killing calves were 50 cents or more lower. Stocker trade was bearish throughout, prices \$1 under last week's best. Hogs advanced 25 cents to sell up to \$22 and \$22.25, and sows and pigs were steady. Sows drew \$17 to \$19. Pigs sold from \$15 to \$17.

Lambs were weak to 50 cents lower, both the new and old crop lambs finding that kind of market. Best milk fat lambs topped at \$24 and \$24.50, with most of the better ones from \$22 to \$23.50. Shorn fat lambs drew \$17 to \$19, and shorn feeder lambs sold from \$14 to \$18. Yearlings and two's sold for \$13 to \$16, and old wethers sold around \$12 down. Old ewes cashed at \$7.50 to \$10.50. Woolled fat lambs were virtually lacking, quotable around \$22 or under.

Good and choice fed steers and yearlings cashed at \$19 to \$22.25, and common, plain and medium to good fat cattle sold from \$13 to \$18. Butcher cows drew \$12.50 to \$14, and canners and cutters sold from \$9 to \$12.50. Bulls cashed at \$10 to \$15.50.

Good and choice stocker calves and yearlings sold from \$18 to \$22, and stocker cows cashed at \$12 to \$17.50.

The Military

The O. L. Woodwards have received word that Jimmie, who is with the Navy, was in Japan after seven months in Korea, and expected to be back in the States by April 20.

Pvt. Aaron K. (Kumler) Mund spent the weekend with his parents Mr. and Mrs. Arthur Mund. He is stationed at Fort Bliss.

John Lee Jones, eldest son of Mr. and Mrs. John R. Jones, left Friday for Alexandria, Virginia, for military training. Completing his work from Tech College, Lubbock, he will return in May for graduation exercises.

AM3 Donald (Rusty) Dannheim, who has been stationed at Alameda, California, for 19 months, is at home, visiting his parents Mr. and Mrs. E. H. Dannheim before reporting on his new assignment. Rusty, who is with the Navy, still has 1 1/2 years to serve. He will be with an air transport squadron, serving in Pacific Island areas. With him is his wife, who will remain at Stockton, California, while he reports at Treasure Island on the 23rd, and may join him later if accommodations can be provided.

Jesse Carroll has returned to the States from Germany, and is now visiting his brother Tom in Ozona before coming in to Eldorado to visit another brother, Vernon Carroll. He was unable to reach home in time to attend the funeral of his father J. W. Carroll at Junction.

Captain R. N. McDonald Jr., and his family will leave Tampa, Fla., on the 18th, and move to Tucson, where he will be stationed. On their way they will stop in Eldorado to visit his parents, Mr. and Mrs. R. N. McDonald and other local relatives, arriving here about Tuesday.

Woman's Club Meets With Mrs. W. N. Ramsay

Mrs. W. N. Ramsay was hostess to the Woman's Club Tuesday at her home. Mrs. Edwin Jackson was in charge of the program. During the business session \$14 was collected for "Help for Holland." It was voted to keep the service record compiled by Mrs. Bert Page as a part of the club history. Roll call was amusing incidents in rural school life. Mrs. Bert Page gave her report as chairman of education, and Mrs. L. D. Christian for defense; and Mrs. Christian led a panel discussion on civil defense, assisted by Mrs. Jess Walston, Mrs. James Page, Mrs. E. C. Hill and Mrs. Palmer West. Mrs. Ernest Nimitz led a discussion and drill on parliamentary procedure, in which she was assisted by a number of members. Refreshments were served to 15 members. A silver tea and book review is scheduled to take place at the Presbyterian Church parlors April 28, to which the public is invited. The executive board announces appointment of a committee to administer the scholarship fund which was discontinued during the war. Money in this fund was spent for defense bonds which have now matured.

Last Meeting This Year For P-TA Next Tuesday

The last meeting for this school year of the Eldorado Parent-Teacher association, set for next Tuesday night at 7:30 in the school auditorium, will feature a style show by the home ec girls of the school. Miss Frances Barton will have charge of this part. Mrs. Oliver Teele's Latin-American first grade pupils will also be on the program. A social hour will follow the meeting.

Fundamental Baptist

We are rejoicing over the wonderful service that we had in the Youth Fellowship meeting Friday night. I know that every one present can truly say that he received a blessing by being present in this service. There were many out of town visitors, also many visitors from Eldorado. We praise God for the many that were present.

The Lord gave us another great day in both services last Lord's day. There was increase in our Bible school and we had a good attendance for both preaching services. Our young people were greatly blessed with the message Gene Early brought Sunday night to them; also the testimonial service that followed. We praise God for N. L. Wilson who surrendered to the call of God to do missionary work. May every one of us pray earnestly for our young people; that they will continue to stay humble and that they might be used of God in a mighty way to lead others to Christ.

Let us all remember in our prayers those that followed the Lord in baptism last Lord's day. Romans 6:3-5. That they might grow in grace and knowledge of our Lord and Saviour Jesus Christ. II Peter 3:18.

You have a cordial invitation to come and worship with us every Lord's day. Not forsaking the assembling ourselves together: Hebrews 10:25.

BLAYLOCK FAMILY REUNION IS HELD HERE SUNDAY

The home of Mrs. Hattie Blaylock was the gathering place for the family on Sunday, when the group held a miscellaneous shower honoring Mrs. Blaylock's granddaughter, the former Wanda Jane Lackey, who was married recently to Corp. Harry Franklin, at Goodfellow Field.

Attending were Mr. and Mrs. Aubrey Lackey and family, San Angelo; Bert Blaylock and family, Robert Lee; Jack Heffernon and family, Eldorado; Mrs. R. H. Blaylock Jr., of San Angelo; Mr. and Mrs. W. A. Blaylock and Judy and Billy Frank Blaylock and his family of Eldorado.

Some of the out of town group were here for dinner, and later in the afternoon coffee and cake was served. A nice assortment of gifts was presented to the newlyweds.

Mrs. B. F. Jones whose family had their reunion every year until five years ago, were together again Sunday at the ranch home of Mr. and Mrs. W. A. Schuller, where a buffet dinner was served. Present were Mr. and Mrs. T. Jones, and Mr. and Mrs. Raymond Ratliff of Mertzton and Darrel Jones of Norman Navy Base, Norman, Okla.; Mrs. V. Courmier and daughter Reeba Zimmerman of Vinton, La.; Mr. and Mrs. Marvin McDonald, Mr. and Mrs. Glenn McDonald, Mr. and Mrs. G. McDonald and son Dwight, Mr. and Mrs. John R. Jones and daughter Esther Pauline, Mr. and Mrs. James Smith, Ray Jones, Lois West, Jim and Jack Steward, also Mrs. B. F. Jones and Mr. and Mrs. W. A. Schuller and son Butch and daughter Susie of Eldorado.

We were grateful for our increase in training union attendance Sunday evening. We had 90. Our Sunday School attendance was 223. The orchids went to the Intermediate department with a grade of 75. The onions to the adults with a grade of 58. Our goal in Sunday school for this Sunday is 303. The goal for training union is 150. We trust that every department superintendent will work to attain the goal set and accepted by their department so we will reach this banner attendance for Sunday.

If you haven't been attending the services of the youth revival you are missing a great blessing. There are yet services left, so why you are missing a great blessing. Services have been conducted at 7:00 a.m. and 7:00 p.m. every day this week. The services will close this Sunday evening. The messages are being brought by Bubba Woods. Wayne Philpot is leading the music, and R. B. Cooper Jr. is playing the piano. We are grateful for the many visitors that we have had, and for the decisions that have been made for Christ.

Don't forget that Tuesday morning at 10:00 at First Baptist church of San Angelo we will have our associational wide Vacation Bible School workshop. We are anxious that every worker in our school will be present. The church will have nursery open. Lunch will be served by the host church. It will be a profitable day for us. We are asking 50 of our workers to attend. This meeting will take the place of our regular Associational Workers Conference for April. The W. M. S. and executive board will meet after the Bible School sessions. Plan now to go and take your car. Phone 23331 and let Brother Welsh or Nelson know that you are going and if you are to take your car.

April 28th will be the time for our Sunday School workers' conference in our church. The arrangements will be in charge of the general officers. We trust that we will have a wonderful group to attend. A covered dish lunch will be served in the fellowship room at 7:30. A good program of inspiration and planning will follow. Important visitation plans and Vacation Bible school plans will be discussed. This is the meeting that

will build our Sunday school if we will support it. Still a great number of our teachers do not attend. We feel that teaching the Word of God to people is of enough importance for a teacher and officer to take time out one evening a month to plan and learn how to better do the work.

We are above the 250 mark in average attendance in Sunday school for April. We have been dreaming and planning for the month when we would have 250 average in our Sunday school. April is the month. It will take only a minimum effort on the part of us all to attain this goal. But it will take an effort. We will reach the goal if each departmental superintendent and teacher decides they want to. We have two more Sundays to go. Let us reach the 303 this Sunday and then go on to our greatest month of the glory of God.

If you will work in Vacation Bible School and haven't turned in your name to Brother Welsh please do so at once. We would like to completely set up each of our departments as soon as possible and begin concrete planning and gathering of material. We still need about twenty workers. Our goal for enrollment this year is 300. Give prayerful attention to this plea and let Brother Welsh know soon that you will be willing to help in this fine work with our boys and girls. This is the most profitable two weeks we have each year. It is for your boys and girls. Won't you help us?

Presbyterian News

The first Monday after school closes will be the opening day of the Vacation Bible school at the Presbyterian Church. While more complete plans will be worked out and announced later, it is agreed that there will be two vacation Bible schools, one for the Presbyterian and other children at the church, and the other for the negro children at the church in the negro community. Mrs. Joe Edens will be in charge of the latter, and Mrs. Edwin Jackson, director of Christian education, will probably have charge of lining up the workers at the other.

Circle three of the Women of the church met Monday with Mrs. Wilson Page, and Circles one and two met at the church. All are studying the book of Mark.

Presbyterial at Hillsboro, in session Thursday and Friday, will be attended by two board members from Eldorado, Mrs. Joe Edens and Mrs. Charles Bruce, also by Mrs. Edwin Jackson.

P-R-O-G-R-E-S-S

Progress in finding and producing oil is an old story to the oil country. Nearly everybody has heard about the oil industry's day-to-day miracles in exploration and production.

Now we all have a new series of miracles to wonder at — the transformation of petroleum hydrocarbons into chemical products of astonishing variety. These chemicals from petroleum have even added a new word to the American vocabulary — *petrochemical*.

Progress in the field has been amazing. The capital investment in new industries based on the petrochemicals has mounted to hundreds of millions. The new plants have created thousands of new jobs. And petrochemicals, as an industry, have provided a wider, a more complete, use of the country's oil resources.

Butadiene and butyl for synthetic rubber, toluene for TNT, solvents, aldehydes, and many other petrochemicals — even alcohols — are now produced in oil refineries. For example, the Humble Company, at its Baytown, Texas, refinery, is building facilities to manufacture paraxylene, the raw material for the new fabric called *dacron*.

The day may come, and very quickly, when you can be clothed from tip to toe in synthetic fabrics derived from petroleum; when petrochemicals provide the rubber for your tires, the plastics for your car's interior fittings, the fabric for the seat covers, the vehicle for body paint and polish.

The petrochemicals spell *progress* . . . progress to which the oil industry contributes research, capital, manufacturing facilities and, most importantly, an enterprising spirit.
