## Eden 51, Eldorado 13

Friday night brought to a close the long and dismal football season for the Eldorado boys. Although the Eagles started this year with a loss, it looked at times as though a late season would bring improvements from the boys, as well as wins. As the season went on, all the Eagles could gain was more losses in players from injuries, as well as games.

Friday night's game was no different in that the Eagles started strong but the first quarter again found injuries taking their toll and the Eagles were forced to play the remainder of the game without their quarterback, Billy Jack Etheredge. As far as the offense was concerned, the Eagles moved well between the 20 yard lines but when nearing the goal, they just didn't have the punch. Bright spots which give hope for the future were the passing of Bill Holcomb, the receiving of Curtis Stockton and the excellent running of a freshman back, Harris.

The Eldorado scores were made by Carey Frisby who intercepted an Eden pass and ran it back for 50 yards and a TD. Harris got the other score on short off-tackle plunge.

Also looking good at an offensive back position while playing his last game was Ramedo Minor. Other Seniors playing their last game for the green and white were Jack Steward, end; Lynn Griffin, tackle; Jimmy Doyle, guard; Carey Frisby, center; Jerry Donaldson, tackle; Billy Gene Edmiston, guard; Billy Jack Etheredge, back. Other boys in their Senior year who were unable to play due to injuries were Jerry Perry and Robert Townsend.

## Mystery Ship Came From Arc Light Saloon Closed By Prohibition

The Arc Light Saloon in San Angelo seems to have been the original home of the mystery model ship, on which history is being sought in Eldorado.

Committee members who are working on the project of putting in another kitchen on the main floor of the Memorial building have wondered what to do with the ship, which has been stored there.

According to information available today, a sailor sold the ship to McClosky's Arc Light Saloon in San Angelo, and it was a part of the place until the business closed with the coming of prohibition in 1919. The saloon had been located across from the Naylor Hotel.

The ship may have passed thru other hands before it became the property of the Douglas family, old timers in Eldorado.

Eventually Grandmother Douglas brought it to the business district and put it on display in a little shop she operated in a small building near Dr. Patton's.

What disposition will be made of it is not known at this time—a few private parties have offered to take it, the school has expressed some interest, and some have suggested that it be given to the Memorial Museum in San Angelo.

Anyone with other information concerning this ship is asked to call the Eldorado Success. Complete information helps those concerned to make satisfactory decision concerning its future.

Test was from 4988 to 5014 feet. Tool was open two hours. Gas surfaced in 50 minutes, with no gauge or estimate reported on volume. Recovery was 30 feet of clean oil, 230 feet of oil and gas-cut mud and 90 feet of salt water. A subsequent test was taken from 5092 to 5154 feet. Tool was open one hour. ## Post Script

The State of Texas seems to be doing OK in spite of drouth. Texas retail buying figures for the last 13 years (1939-52) are far ahead of the national average and that buying power still is growing, the University of Texas Bureau of Business Research reports.

Texans were able to buy two and one-fifth times as much in 1952 as they could in 1939, according to the bureau. Basic reason for the buying-power rise is the sharp upswing in U. S. living standards despite inflation.

Thanksgiving marks the official beginning of the Christmas season. From now on, it isn't exactly early for that Christmas shopping. Local merchants are already decorating their stores and have Christmas gift goods on display.

A minor change in the business district (maybe he won't consider it minor) is announced in C. N. Shaw's ad this week. He is discontinuing his gasoline business to devote all of his time and building space to groceries. He is well located at the junction of the Big Lake and Sonora highways.

This is the morning the churches of the city unite in their Thanksgiving service at the High school auditorium at 8:00. Rev. J. C. Hancock is speaker and the school chorus is furnishing the music. A good crowd is expected.

Sheriff E. H. Sweatt was one of the county officers called out Monday evening to aid in the search for a missing child in the Toenail community.

The missing boy was Clark Butts, 2½, son of Mr. and Mrs. V. L. Butts. He left home at about 11:00 Monday morning, and wandered around for seven hours across the Butts Ranch to the ranch home of his uncle, J. D. Lock.

Planes from Goodfellow Field, three highway patrol cars, and many others aided in the search. He was spotted from the air as he and his two dogs neared the gate separating the Lock place from E. A. Thomerson's in the Toenail community.

Described as a child who likes to run away, the boy seemed none the worse for his experience.

The Delbert Edmiston, proprietors of the Eagle Drive-In theatre, are issuing passes to members of the school band who would like to see the picture "Stars and Stripes" when it is shown Tuesday and Wednesday.

Guests in the Sam McGinnis home were Mr. and Mrs. Felton Spinks of Almond, Arkansas, Mrs. Sam Lowe of Menard, and Lexie Wells of Hico.

## W. H. Joiners to be Honored With Open House at Perry Mittel's Celebrating Golden Wedding

The girl who called a young man a smart aleck when she first saw him, has lived to eat those words—the couple will celebrate their fiftieth wedding anniversary as guests of honor at an open house, Sunday afternoon, November 29, at the home of their daughter, from 2:00 to 4:00 p. m., the three children sponsoring the affair.

The couple are Mr. and Mrs. W. H. Joiner, farm people, who were married November 29, 1903. To celebrate the event properly they want their friends with them, and the entire family extend a cordial invitation to everyone to attend. The Open House will be held at the Perry Mittel home just west of the city limits.

## They Wed At Church

The wedding took place at the Baptist Church in the Wallace Creek Community, the Rev. Polk Burke, a missionary Baptist, officiating. The hour of 7:00 p. m. Sunday, had been set to enable the community to attend—people gathered for the wedding at 7:00 and all of them, including the newlyweds, remained for the church service which followed.

The bride was Kathleen Turner, whom everyone called Kate. Her wedding dress was a cashmere cream wool, made with fitted waist and high choker collar, and large heavy lace bertha, trimmed with a bias fold of self material. Her sweeping skirt was trimmed with three bias folds, the long skirt practically covering her dressy black buttoned oxfords.

She wore her hair with the fashionable pompadour at the front, and biscuit roll at the back. Her gloves were white kid.

The groom wore a wool suit of navy blue widepead, made with the tight pants and the medium short coat of the period. The trousers were made empire style (fitted at the waistline and extending several inches above it) and were held up with suspenders.

## Their Early Life

Kathleen Turner was born to Mr. and Mrs. W. E. Turner in Bastrop County, near Smithville, 68 years ago last June. At the time of her birth, her future husband, Wm. Harrison (Buck) Joiner, son of Mr. and Mrs. H. H. Joiner was a little over ten years old, and living with his parents who were Llano County farmers near Valley Springs. Their common agricultural background has been of great help to them as they have spent most of their life farming and ranching.

Kate lived for a time as a child in Williamson County, but was mainly reared in San Saba County, near the school and church known as Wallace Creek. Buck lived near Valley Springs, then only a store, school, post office and church.

This is how the couple met: Joiner was calling a set at a dance when Kate and her date, came in. She turned to her companion and asked who that smart aleck was—and he scolded her for talking that way because the "smart aleck" happened to be his best friend, and he

Mr. and Mrs. W. H. Joiner

later introduced the couple. A few weeks later Joiner asked her to a community singing, and she went.

## They Start Housekeeping

She had lost her mother two years before the wedding, so when she married, her father was minus a housekeeper. He was generous with his daughter, and according to the custom of the day, gave the couple their bedding—sheets, feather bed and mattress, quilts, pillow cases and two pillows. "And we've done the same with our own when they married," she says.

The couple visited around among relatives for ten days before they had their housekeeping set-up ready on the rented San Saba farm which was their first home.

The couple first joined a Primitive Baptist Church at Valley Springs, and have reared their children to attend church and take part in its activities.

## They Move To Schleicher

After periods of residence at Harkeysville, San Saba, and other places, they moved to Schleicher County in 1924, operating a store and filling station south of Eldorado, which they bought, and leasing land at various times in the county. They moved to Coke County for a five-year period, returning to this county, and in 1939 purchasing the 70-acre place on which they still live, putting through the deal with Mrs. Rutha Boyer.

The Joiners have three children, Mrs. Perry Mittel, and twin sons, Pat and Wallace of Eldorado. Mr. Joiner has kept his membership in the Primitive Baptist Church, but Mrs. Joiner and the sons and daughter are all members of the First Baptist Church of this city. There is one grandson, Gail Mittel, age 18.

## Drouth Is Really Bad

The couple agree that this pro-

longed drouth is the worst experience they have ever had in the way of hard luck. Mr. Joiner hopefully gets out occasionally with his tractor, but crops are almost non-existent.

"Let them I'm a retired farmer—retired until it rains," he says, and he confidently expects to put in many more crops before his active life is over—that is, if it ever rains again!

Both agree that they have been unusually lucky in the really important things—they have their health, their place is clear, and they have a good home in which to live during these lean years. Mrs. Joiner does all of her own housework and also does church work, though she wants only humble jobs—she thinks she is not fitted for places of leadership.

## Picture Taken During War

The above picture was taken of the couple to send to their twin sons, who entered service in 1941. They wrote, telling the boys they had had the picture taken—but both boys advised them not to send it—Pat was a ground mechanic with the air corps in Africa, and Wallace was a ground mechanic with the coast artillery in Italy, and those days were so grim that the young men had no good place to keep it.

This is still a good picture of the couple, though both have aged a little since it was taken.

## Please Come!

"We want you to come to our celebration, and we especially want you to register in the 'bride's book,'" states Mrs. Joiner; she remembers the full house at that wedding fifty years ago, and has wished so many times that she had a register of names of those many friends who had helped them start off on their half century (and more to go) of married life.

## Several From Eldorado At Funeral Service For La Feria Woman

Mrs. S. A. McDonald, 71, mother of Rance McDonald and Mrs. Lum Davis of this city, died at 4:00 Wednesday morning at her home in LaFeria after a long illness.

The family were called there last week when she suffered another stroke and was reported to be in serious condition. Rance McDonald and his wife, and Mrs. Lum Davis had visited her; Mrs. McDonald returning to Eldorado Tuesday and the others remaining. On Wednesday morning Lum Davis and daughter Jan left for LaFeria upon receiving word of the mother's death.

Mrs. S. A. McDonald is survived by her husband, eight sons and daughters, Darrell of Springfield, Oregon; Rance of Eldorado, John of LaFeria, Homer of Corpus Christi, Mrs. Clyde Moses of Gonzales, Mrs. Louetta Anderson of San Antonio, Mrs. Roy Wyland of LaFeria and Mrs. Lum Davis of Eldorado; and a number of grandchildren and other relatives. Burial is to be made in LaFeria.

Mrs. McDonald had her first stroke about two years ago and has been confined to her wheelchair much of the time since then.

Mr. and Mrs. P. S. Dudley of Gainesville are here for a holiday visit with their daughter Mrs. Edward Meador and her family.

Jones of Eldorado, will be playing his last football game for the Howard Payne College Yellow Jackets when they meet the Abilene Christian College Wildcats Thanksgiving Day in Brownwood to climax the annual HPC Homecoming activities. Jones, a 180 pound senior letterman end, will be starting the game at left end. He is a member of the H Club, campus letterman's group.

A. R. Parker attended a conference of Democrats Friday night at San Angelo, and is taking part in the sale of \$10 tickets for the Democrats' dinner, to be held probably December 8.

It is understood that the money will be used toward meeting expenses of the U. S. Congressmen and Senators' races in 1954, for which the 25th district has been assessed \$2500.00.

What party developments there will be within the divided Democratic party during the coming election period is not known at this time, but it is expected that there will be increasing interest as the campaign year starts.

### The Missus Keeps Posted

Ever since our electricity was cut off last year on account of me forgetting to mail in the payment, the Missus has been sort of leery about giving me letters to mail.

At first she'd ask if I mailed them, then double-check my coat pocket at night. She stopped that, and I figured she was convinced I'd learned my lesson.

Then yesterday, I got a postcard at the office in a familiar handwriting. I turned it over and by golly it was from the Missus herself! It read: "Thanks, Joe, for mailing my letters." Well!

Looks like she figured I still needed some checking-up and slipped that postcard in the last batch of letters.

From where I sit, an occasional check-up is a good thing. Check-ups on just how tolerant we are of other people's preferences and tastes, for example. I like a glass of beer with supper, you may prefer cider—but if I ever try to switch you to my choice, simply "address" me with a reminder of your rights.

Cox Jr., and Mrs. Tom Owens as co-hostesses. Mrs. John Luedicke, Regent, presided and the chaplain, Mrs. Bert Page, opened the chapter by reading a Thanksgiving Psalm. The flag salute was given by the group. Mrs. J. E. Tisdale gave a report on Schleicher County Library for October, stating that five memorial books had been donated. Mrs. Mary Coupe reported on the library meeting of District 3 held in San Angelo recently.

Mrs. Bailey Montgomery explained the contests which this chapter is sponsoring in the history classes of the 6th, 7th and 8th grades in the Eldorado school. Mrs. Mabel Parker reported that she has completed the abstracting of all wills probated in Schleicher County. Mrs. Horace Linthicum invited the Chapter to the Christmas meeting at her home and passed out small red stockings for the offerings for the welfare fund for the needy at Christmas. The tree will be decorated in her home during the meeting, and the decorations and offerings will be handled by a committee. The message of the President General was read by the Regent; and Mrs. V. G. Tisdale gave her national defense report.

Mrs. Elizabeth Powell was leader of the program which followed. She introduced Judge Houston Smith, formerly of Eldorado, who was the guest speaker. His subject was American Heritages and he brought a timely message on the many privileges and opportunities which Americans have, that have been given to them through the centuries past and expressed the idea that this generation should ever be on the alert to keep alive the great fundamentals which are laid down in the American Constitution. He emphasized freedom of religion, separation of church and state and paid tribute to the Bible and its place in the lives of a nation. Mrs. W. O. Alexander spoke on "What the Daughters Do," stressing the three objectives of the society as educational, patriotic and historical.

Refreshments were served to Mrs. Coralie Meinecke, Mrs. Paul Perner, Mrs. Sherman Taylor, Mrs. Bud Cox, Mrs. Lee Childress, Mrs. W. D. When you can trust the dealer who sold you a used car, you can trust the car.

The next question, then, is: *Who can you trust most?*

We Ford Dealers are established business men with large investments at stake. Our business reputation depends on every business transaction—whether it is a new car sale, a used car sale or a service operation.

We want your used car business, and some day we

hope to sell you a new car or another used car. And we want your service business, too!

"But," you say, "granted that you Ford Dealers have reputations to uphold, granted that your mechanics and service facilities make it easier to put your used cars in good shape—how do you compare in price?"

Let us give you some facts and the answer will be obvious. Ford Dealers handle used cars and trucks as a service to customers who trade them for new cars. When we get overloaded with trade-ins, our capital is tied up. Like everyone else, we have to pay our bills. So we must always offer used cars at rock-bottom prices to keep things moving.

Eldorado Lodge No. 890 - A. F. & A. M. Stated Meeting 2nd Thursday in each month. Visiting Brethren Welcome.

Fundamental Baptist

Since this is Thanksgiving week many will be thinking and giving thanks for the many blessings that have been theirs over the past year. We are not only to be thankful at this time but God's word says that we are to be thankful at all times for the things that God has given us.

Eph. 5:20 "Giving thanks always for all things unto God and the Father in the name of our Lord Jesus Christ."

We could not express in words our thanks unto God for the blessings that were ours this past Lord's day. Truly this was because of much prayer and work. James in his Epistle tells us: "Even so faith, if it hath not works is dead, being alone." James 2:17. May we all continue to work and pray and stay humble before Him.

If you are not attending church already, you will be welcome in any or all of our services. A warm welcome is extended to all.

Young people, will you come and take part in our young people's meeting every Sunday night at 6:30? You will be missing a blessing if you fail to do this. Since football season is over we will be taking our young people to the monthly Fellowship meetings we have at the different churches. A blessing is received by everyone that attends.

Sunday school 10 a. m. A class for everyone. Bring your Bible and study God's word with us.

Morning worship 11:15. The pastor will bring God's message on "The Great Commandments."

Young people's meeting at 6:30 p. m.

Evening Evangelistic 7:30. Subject, "The Lamps Without Oil."

Wednesday, prayer meeting and Bible study 7:30 p. m.

Thursday, teachers and workers meeting at 7:30 p. m.

"The end of your search for a friendly church."—Cliff McDougal, pastor.

Conservation farming paid good dividends in terms of increased production in the Eldorado Divide Soil Conservation District this year. The Schleicher County part of the district received approximately 5 inches of rain up to July 15. Most crops planted in the spring were already dead or most of the stand lost when the big rain of July 15 came. The rain and hail which covered only a small area west of Eldorado, was reported to be from 4 to 8 inches.

In spite of the drouth and being so late in the year when the rain came, Aaron Steward, district co-operator, who lives 4 miles west of Eldorado on the Hugh McAngus place, made a good crop of hegari on an area benefited by terraces and in lakes. Steward planted the hegari after the rain in July of this year.

Steward plows to his terraces each year to maintain the proper height, width, and end closures. By doing this the terraces are maintained at the needed height to hold the maximum amount of water, and the base is made wider which makes them easier to work with any kind of farming equipment. Steward spent a considerable amount of time in the summer of 1952 adding more height, width and end closures to his terraces. Since the terraces were in good condition none of them were broken by the big rain. All the water was held on the land above the terraces with the exception of what spilled above end closures.

Yield checks made by Steward and Soil Conservation Service technicians showed that the hegari produced 504 bundles per acre on the areas actually covered by water

backed up by the terraces. The bundles averages 16 lbs. per bundle when hauled from the field, making a total of 8,064 lbs. per acre. The area just above the good feed that was not benefitted by water backed up by the terraces, did not make good enough feed to cut with a binder.

Calculated on the basis of \$25.00 per ton, the price at which Steward sold part of the hegari, this totals \$100.80 per acre. Steward estimates that about one-third of the 101 acre field produced 504 bundles of feed per acre.

Steward stated "the terraces meant the difference of a good crop and no crop. If I had not had terraces all the water from the July rain would have gone to lakes and they would have had water in them so long I would not have been able to plant in time to make a crop."

### First Baptist News

Monday night, November 30, we will start our Stewardship study. We hope to enroll all our people in this week of preparation. There will be a class for everyone. Remember: Monday night, Tuesday night, Thursday night, and Friday night. Time 7:00 p. m.

Thanksgiving week brings many things to remembrance. We have so many things to be thankful for, and should express our appreciation for them. God has been better to us than we deserve and possibly has given us more than we expected. To Him we express our heartfelt gratitude for all His abundant blessings.

This week the young people and some of the adults are going to Ft. Worth to the Music and Training Union Convention. We will enter in many of the contests which are designed to help us build better music and training work in our churches. Mr. Christy is directing this work and is with the groups now in Ft. Worth. We expect a good report from them when they return.

We are thrilled over the response to our new mission. Bro. Dossett is beginning to realize the actual fruits of the matter that has been on his heart heavily these past few months. We will give our best to the support of this work. Thanks to everyone who have given our encouragement in any way. We wish the best of everything to those who will attend the mission. Congratulations to those who attended the first Sunday services. It is for YOU. Mission services next Sunday at 10:00, and at night at 7:00.

Success, \$2 year — anywhere.

## Another HIDDEN TAX

The toll of the highways may reach 40,000 killed and 2,000,000 injured. These are stark statistics in themselves. *But there's another toll, too!*

Every American family of four, whether they have had an accident or not—or even if they don't own an automobile—will pay an average of \$100 a year in hidden costs as the result of speeding, reckless driving. This is the nation's highway accident bill, to be paid through increased taxes, wage losses, mounting insurance costs, medical and hospital bills, property damage and other charges. The total will run to nearly \$4,000,000,000—enough to build a city of 200,000 homes costing \$20,000 each. Believe it or not, there is an average economic loss of about \$95,000 for every person killed.

This stupendous waste can be curbed only when the American public becomes sufficiently aroused to demand concerted, nation-wide action—*more law enforcement, more highway patrols, and more teeth in penalties*—to rid the highways of devil-may-care drivers and moronic accident repeaters. Get back of any safety movement in your community. Think and talk safety.

When death, maiming and destruction take over the highways, someone pays—and that someone is you—it's all of us.

COST OF 1 BROKEN INSULATOR **\$225**

Seems like a high price to pay for a pound or so of porcelain, doesn't it? Yet that's just what it cost one co-op recently to replace an insulator broken by a very thoughtless fellow with a rifle and nothing else to shoot at. It took over 75 man-hours and 180 miles of line inspection to locate and repair the insulator

The man who fired the shot just couldn't realize that he would cause all that trouble and expense. More important, he probably couldn't realize that the outage his stupidity caused would work a real hardship on many consumers on that line.

And "hardship" doesn't just mean that those folks wouldn't have any lights. In the present emergency, farmers and ranchmen are depending more and more on electricity to help them do the job of producing the food and fiber that is needed.

Our job is to keep the farmers and ranchmen supplied with that electricity, and to extend service to farms not yet electrified. Please don't make us take time from that job to repair equipment that wouldn't be damaged except for thoughtless shooting.

We would like to ask every member of this community to do one thing: When you use a gun, use your head. Don't sabotage vital electrical equipment.
