Leonard Kents to Celebrate Golden Anniversary With Open House at Their Farm Home Sunday

A quarter-section farm in Schleicher County purchased 39 years ago is still the home of Mr. and Mrs. L. Kent, who will celebrate their Golden Wedding anniversary next Sunday, October 25.

They are opening their farm home to any friends who would be interested in calling and extending congratulations to the couple. The calling hours have been set for 2.00 to 5.00.

The Wedding

Leonard Kent and Linnie Clark were married in Houston County in the home of the bride's parents, Mr. and Mrs. T. J. Clark, Rev. Whitescarver officiating at the ceremony, which was performed at 8:00 p. m., October 25, 1903. According to tradition, the newlyweds are lucky if their name starts with the same letter—their did.

At the wedding the Clark family home was filled to capacity with neighbors and friends, and supper was served to all.

Elaborate plans were made for the wedding. The bride wore a white voile dress with high collar up to her ears. Ruffles covered the entire dress. She wore her hair rolled over a rat, with a front part which was filled in with rosebuds picked fresh from rose bushes she herself had rooted on the farm. The groom wore a gray suit, with the tight pants which were high style at that time.

Their Homes

They could not establish their own home for a month. The groom's father was in the midst of his annual autumn job of making huge quantities of ribbon cane syrup for sale, and the couple moved in with the bride's in-laws while her husband helped his father complete the project of working up the cane into syrup which was run into barrels for commercial purposes.

In December they were able to get away, and they left for Comanche County for two years' residence, then to Mitchell County where they lived nine years, returning to Houston County for another two years of farming.

In 1914 they moved to Schleicher County to make their home on a farm which they bought from Vernie Humphrey, and have lived here since that time.

Otis, the older of their two sons, was born in 1905. The other two children are Marguerite, now Mrs. Fred Gillaspie, and Victor, both of this county. The Kents have four grandsons and two grand daughters. Mrs. Kent is associated with the Rock Church of Christ and Mr. Kent is a member of the First Baptist Church.

Earlier Life

In this age of travel it may seem incredible that two young people could be born and reared four miles apart and not have met until they were grown—but such was the case with Leonard Kent and Linnie Clark. Leonard lived on Big Elkheart Creek and Linnie on Little Elkheart Creek—and whereas these little streams might have converged somewhere in the neighborhood, the paths of these young people did not cross for many years.

The explanation is simple. Each community had its own rural school and rural church. With the slower methods of travel of that day (mostly horseback) people did not move far from their home communities, and Mrs. Kent recalls that there were four school and church communities within a four-mile radius of her parents' home! She also recalls that when the rural courses had been completed she went to the town of Grapeland and stayed with her grandmother.

NEW OIL TESTS

Location was made Monday morning for a wildcat on Henry Moore's ranch, 2 1/2 miles north of a dry hole drilled over a year ago. It is in the northeast corner of the southwest quarter of section 14, block A, GC&SF RR survey, and is scheduled to go to 8,000 feet or 300 feet into the Ellenburger. It is understood that rig will be moved in a few days.

Ira Glasscock's efforts to bring in oil in paying quantities on the shallow test on Thomson Brothers southwest of Eldorado proved to be futile as the production dropped from seven barrels a day to one, in a week's test. The hole has been plugged and abandoned.

Two more shallow tests near this failure are being staked, one to be drilled by Glasscock et al, of Eldorado, and the other by Oeden of Fort Worth. One is to start in ten days and the other in about 15.

Mr. and Mrs. Leonard Kent

while she attended high school. She vividly remembers the old blue-back speller, the geography, and arithmetic which she studied. Her future husband was studying similar courses in other schools.

Ups and Downs

Farming in Schleicher County has had its ups and downs, but the couple have never experienced anything as severe as the current drouth. A previous low point was the drouth of 1917 followed by grasshoppers of 1918 and 1919, but they did not devastate the county, state the Kents, as the present drouth has done. "We had only one year when we couldn't get a crop up," state the couple.

Roads were always a problem. The rural roads were impassable after heavy rains, and the family went without needed store-bought food sometimes because they could not get to town. Almost worse than the shopping problem was getting the children to school, a problem which could not be solved until the county began its extensive road-building program. "That all-weather road still looks pretty good," they say.

A Good Life

There have been many events over the years which have made the couple happy. After the years of cooking with coal oil, and lighting their house with coal oil lamps, electricity was brought in. The deep freeze helps to preserve food better and cheaper. Things like that have been welcomed and are still appreciated.

With 110 acres of their quarter section normally in cultivation, the drouth years have cut production to the point where a few sheep constitute the sum total of their livestock; yet the couple have always managed to make a living

with garden produce, and eggs, milk and butter, some of which they sell.

While it has been six years since they have had a really good crop, they can look back with pleasure to some years, such as 1920, when they made good money, and they are hoping for a return of rain and farm prosperity.

The couple are not old by modern standards—Mr. Kent was 73 on March 17, and Mrs. Kent was 70 on July 27. They are active and are still doing their own work. Mr. Kent working as usual around the farm, and Mrs. Kent doing her housework and cooking. Mrs. Kent has always cooked (her mother taught her that) but she has never learned to sew well as she never had it to do at home when she was younger. Her friends here remember Mrs. Kent especially for her cookies, which she has always enjoyed making. With their three children gone from home, they have been living alone on the farm for 13 years.

They have watched the Eldorado business district grow from a handful of businesses to the several blocks of business establishments, with much more complete service to the public, and have rejoiced over that. They have also been interested in the growth of the school system, as well as the churches and other places which help to make life more enjoyable for all. These things, they say, more than compensate for loss of the rural community gatherings, serenades, and other rural happenings of an earlier day.

In speaking of the Open House next Sunday they say, "Be sure to tell everyone to come!" The farm is located on the Bailey Ranch road just north of Mrs. F. B. Gunn's ranch, and is 4 1/2 miles from Eldorado.

Cub Pack Meeting Is Set For Tonight

There will be a Cub pack meeting tonight, Thursday, at the Memorial building. All dens and cub parents are urged to meet with Cubmaster Dick Preston and other Cub officials that night, at 7:30, to discuss some important plans concerning community-wide entertainment. (Watch for announcement.)

The collecting of rags which the Cubs have had as a money-raising project is going well, state leaders of the pack. Those who have rags to donate to this worthy cause are urged to call one of the den mothers, Mrs. Hollis McCormick, Mrs. Forrest Runge and Mrs. Edward Meador, the Cubmaster or any of the Cubs.

Lions Club

The Lions Club had two out of town men, Joe Mims and Tom Kirkham of Weatherford as guests at the regular meeting Wednesday noon.

Mr. Kirkham, who is a representative of Lions International, talked on the meaning of Lionism to the members, and related unique projects which some of the smaller clubs have sponsored and carried out under adverse conditions.

It is planned to send ten delegates to district 2A convention at Corpus Christi in May.

Announcement was made of a turkey shoot to be sponsored by the firemen Nov. 7, and of the Cub pack meeting tonight at 7:30 at the Memorial building, at which time some awards will be made.

Post Script

The county tax collector's office reports that they have used up their allotment of license tags for the present year and have had to secure a supplementary supply.

On passenger cars this county was furnished with numbers from FP-10 to FP-1199. These have all been used up, and the new supply carries a number starting WM-875. Lots of new cars are being registered, according to the collector's office.

The office also had to get a supplementary supply of tags for pick-ups and trucks.

Robert Sproul sold a carload of calves for Jim O'Harrow at 14 cents.

Work on the blue prints for the new First Baptist parsonage is under way—which is all there is to report on this building project this week.

News stand sales of the Eldorado Success hit a new high last week with delivery to the News Stand of 120 copies of the Oil Progress edition. They were all sold out early this week. In addition there were a considerable number sold over the counter at the Success office.

JAMES C. WATSON

Midland, Texas

Schleicher County this gained location for a 6,000-foot rotary wildcat and a new producer in a recently opened Strawn field.

The wildcat which has been spudded will be drilled as J. B. Randel and T. W. Murray and others of San Angelo No. 1 Mrs. C. R. Judkins. Location is 2,173 feet from north and east lines of section 16, block A, GH&SA survey. Projected depth is 6,000 feet. Drillsite is 15 miles east of Eldorado and 1 1/2 miles southwest of a 5900-foot Ellenburger failure.

Edwin L. Cox No. 2 Runge has been completed as the second well in a recently opened Strawn reef lime field in north central Schleicher County. Operator reported a daily flowing potential of 192 barrels of 42-gravity oil through a 3/4 inch choke and perforations in casing from 5550-5566 feet.

L. E. (Lou) Scherck No. 1A D. C. O. Wilson, wildcat in southeast Schleicher County, lost circulation last week at 1546 feet, regained it in approximately 15 minutes, then started heading and covered the pit with live oil. The project, which had been drilling with clear water, was killed with mud. Operator then ran a 45-minute drillstem test between 1442 and 1468 feet in a Permian lime. There was a strong blow for 20 minutes. This blow decreased to a weak blow at the end of the 45 minutes the tool was open. Recovery was 1378 feet of fluid, 450 feet of oil-cut mud and brackish water and 928 feet of salt water. The project is drilling ahead.

Water drillstem test has been reported from Atlantic No. 1 Roberts in southwest Schleicher and about 10 miles southwest of Eldorado. The test was in the Cambrian sand from 7233 to 7287 feet. Tool was open one hour. Recovery was 165 feet of slightly salty mud and 300 feet of salt water. More hole was being made below 7322 feet.

G. L. Reasor has quit his No. 1 Bvd at 5603 feet. It was 1939 feet from south and 660 feet from east lines of section 19, block 8, TW&NG survey and 26 miles east and slightly north of Eldorado.

The Texas Co. No. 1-A P. K.

McIntosh is a new prospector just south of the Schleicher County line and in north central Sutton County. Location is approximately 700 feet south of the Schleicher County line and eight miles north west of the Allison field.

Mayfair Minerals, Inc., of San Angelo will drill No. 1A Jeff Harkey one location south of production in the Butler field of NW Schleicher. Drillsite was staked 83 feet from south and 990 feet from west lines of the northeast quarter of section 77, block H, GH&SA, and is to go to 5200 feet.

Superior will drill No. 3-65A Thomerson 1/2 mile west of production and one location north of production in the Toenail field. Site is 660 feet from north and 1980 feet from west lines of section 65, block H, GH&SA survey. It is to go to 6500 feet.

Applications have been filed to drill two stepouts to production in the Huldale field.

Ohio No. 21 T. W. Thompson will be dug to 5900 feet 1216 feet from south and 1810 feet from east lines of section 80.

Pan American No. 3 McWhorter will be drilled to 6000 feet, 664 feet from south and 3000 feet from east lines of section 70 and three miles southeast of Huldale.

Mayfair Minerals No. 1 Jess Koy is to be drilled as a new project in the Page field southeast of Eldorado. Location for this 6000-ft. project is 1980 feet from north and 660 feet from west lines of section 38, block L, GH&SA survey and eight miles southeast of Eldorado.

Shell Oil Company No. 1A Harkey is to be drilled as a 5400-foot rotary project in the Toenail field 11 miles northeast of Eldorado.

Pan American also spotted location for No. 2 Mrs. Viola McWhorter in the Huldale area. This 6000 foot test is to be dug 664 feet from south and 2198 feet from west lines of section 70.

The Huldale field gained a new oiler with the completion of Skelly No. 8 W. A. Davis. The well was finished for a daily flow of 228 barrels of 40.3 gravity oil and no water, from perforations at 5687-5725 feet. Gas-oil ratio was 810-1.

Menard 42; Eldorado 13

The Eldorado Eagles lost their opening game of conference play, here to the strong Menard eleven Friday night. The Yellowjackets started fast and had a 21-0 lead before the Eagles woke up and started playing ball. The second half brought about the big change in the play of the Eldorado boys. They began to match the hard play and hustle of Menard. The Eagles got their first score off of the throwing arm of B. J. Etheridge who passed to Curtis Stockton for 30 yards and T. D. The extra point was kicked by Ramiro Minz.

The Yellowjackets scored again shortly after the Eagles and on the following kickoff, Kenneth Love, a converted center, took the kickoff and made 80 yards up the field for the T. D. The long run was made possible by the exceptionally good blocking Eagles — particularly Bill Holcomb and Jack Steward who knocked down the last men to have a chance at Love.

This was the last scoring for the Eagles. Although playing a losing battle, two big linemen, Jimmy Doyle and Jerry Donaldson looked very good on the defense. These men along with Lloyd at the end position were consistently giving the Menard backs trouble.

The Eagles will play their next game tomorrow night in Junction.

Juniors

In the only home game for this week, the Eldorado grade team is seeking revenge for the early season loss to Sonora. Game time will be around 7:15 tonight at the Eagle field. Probable starting lineup for the Eaglettes:

Left End — Barry McHalek
Left Tackle — John Dickens
Left Guard — Jerry Doyle
Center — Johnny Ohlenburg
Right Guard — Kyle Donaldson
Right Tackle — Domingo Pena
Right End — Dick Runge
Quarterback — Cecil MacWalston
Left Half — Royce Robledq
Full Back — Buster Brock
Right Half — Ferris Nixon

ORDERS TAKEN ON EMERGENCY FEED AT PMA OFFICE

Following receiving of a total of 136 cars of drouth emergency feed in Schleicher County to date, the fourth orders are now being received in the office of the PMA.

To be eligible for the feed, a rancher must have not over a 30-day supply on hand. Mutton sheep and goats are not eligible for drouth emergency feed.

Railroad Rates Cut
Chicago. — Western railroads last week agreed to extend further aid to the drouth stricken livestock industry of the southwest. Harry C. Barron, chairman of the executive committee of the Western Traffic Association, announced that the western lines would:

1. Reduce freight rates 50 per cent on hay shipped from western territory to the drouth areas of Missouri and other south western states;

2. Grant a further extension, to November 16, of the 50 per cent reduction made effective last July 1 on livestock feed in general from western territory to the drouth areas.

Barron said these actions were taken at the urgent request of Secretary of Agriculture Benson and officials of the drouth states.

He explained that while hay was included in the commodities granted half rates since July 1, it developed that modification of billing regulations was advisable to enable hay shipments to take advantage of the reductions as readily as shipments of other feed stuffs.

Odessa Girl Wins \$1000 First Prize On Subject Of Oil

Dorothy Fowler of Odessa, Donald K. McCarty of Big Spring, and Stewart Hollingsworth of Midland last week were named winners of the \$1,000 essay contest sponsored by the West Texas Area Oil Industry Information Committee. First prize, a \$500 scholarship at an accredited college, was won by Miss Fowler, who resides at 515 West Ada Street, Odessa. Mr. Donald McCarty of 435 Dallas Street, Big Spring, was awarded the second prize, a \$300 scholarship; and Mr. Stewart Hollingsworth of 512 West Kansas Street, Midland, took third prize, a \$200 scholarship.

Announcement of the awards was made by Joe T. Dickerson, Midland Area Vice President of Shell Oil Company and West Texas OIIC Chairman. The scholarships were presented at a luncheon in Midland Friday, October 16.

More than 150 essays from 15 schools were submitted for the contest, which was open to senior high school students only. Subject of the contest was, "What the Oil Industry Means to West Texas." Prize money was contributed by the Permian Basin Oil Show of Odessa.

The committee which judged the essays consisted of Dr. Murray Fly, President of Odessa College; W. E. Lane of Midland, President of the Permian Basin Oil Show; and Tom Smith, Editor of Drill Bit Magazine. All essays submitted for the contest were identified by number only to insure complete impartiality in the judging.

The essay contest committee which prepared the rules, included J. M. Sappington of Big Lake, chairman; C. E. Pritchard, Midland; Roy Carter, Kernit; and Smith.

Miss Fowler's winning essay pointed out that, "Today in West Texas the industry has grown until it is the heart of a great nation's defenses," and added that, "It is the livelihood of an enormous group of people. It is the creator, the protector, the stabilizer of the economy of our part of the country."

In describing the role of the industry in this region, Miss Fowler wrote, "The oil industry now

means hard-topped roads and super highways . . . it means fine hospitals, good medical care, adequate law enforcement and educational facilities far beyond the scope of many richer communities."

When announcing the awards, Mr. Dickerson complimented the schools of West Texas for their assistance in making a success of the essay contest and thanked local Oil Industry Information committee volunteers who contributed their time and energy in promoting the event.

Eldorado high school was one of the schools entering essays in this contest.

Hensel Reunion Held Near Austin

Mrs. C. C. West and members of her family here were among the 100 people who attended a family reunion at the century-old Hensel homestead near Travis Peak, not far from Austin, Sunday.

Only three of the Hensels' children are still living, Mrs. J. O. Prowse of Austin, Mrs. Augusta West of Eldorado, and Mrs. Anna Matthews of Hutto.

The Hensel homestead is owned and operated by Mrs. Harvey P. Hensel, a sister-in-law. She and the late Mr. Hensel purchased the homestead from the Hensel heirs and she continues to live there.

The place has a stream running through it, fed by five springs, and the hundreds of pecan trees yield a good crop each year. On the place is located the Travis Peak postoffice and a grocery and filling station. Many Austin people visit the place.

Mrs. West is the oldest of the three living children.

Attending the reunion from here in addition to Mrs. West were Mr. and Mrs. Carson West, Mr. and Mrs. Jimmie West and Mr. and Mrs. Palmer West and families.

She is one of our missionaries to South America, therefore, it is a joy and privilege to have this name for Circle 2.

After the completion of officers, Mrs. Ruth Finnigan was in charge of the program "WMU Work."

As a project for the year, Circle 2 realized the needs in the nursery and they have decided to try to work toward improving the conditions there.

Hears Address By
Boys Ranch Leader**

The Parent-Teacher Association met Tuesday, October 20, at 7:30 in regular session. Mrs. Gus Love, president presided. Mrs. Jess Wainston served as secretary in the absence of Mrs. Ethel Etheredge who was ill. John Christy offered the invocation.

Mrs. Edwin Jackson presented the budget for the year—\$499.20 as planned; others on the budget committee are Mrs. George Cales, Mrs. Horace Linthicum, and Mrs. Lum Davis.

Carroll Ratliff introduced the Boys Ranch councillor, Henry Stipes, who has been there for ten months, and who described the work done by the Ranch; also the history, and operating procedure. He mentioned the fact that it serves, and is kept up by, 35 counties in West Texas.

He stated that there are 22 boys there at present, from ages 9 through 15. These come from welfare offices, juvenile court, and other authorities, many of the boys coming from broken homes. He also stated that it operates on a voluntary basis.

The organization recognized the Texas Congress birthday with a contribution. Mrs. J. E. Spencer, speaking for the PTA of the Bailey Ranch school which was annexed to Eldorado several years ago, announced transferring of remaining funds from that unit (\$84.74)

to the Eldorado unit. The Eldorado PTA now has a total of 273 members, according to report by Mrs. James Williams, membership chairman.

A school of instruction was announced for October 29, beginning at 10:00 a. m., with Mrs. H. C. Green of Water Valley as instructor. Lunch will be served in the school cafeteria. The board, the members, and the Sonora PTA are invited.

Plans are being made for a number to attend the 45th annual convention in San Antonio, Nov. 17-20. Plans for the Hallowe'en Carnival October 31 were announced.

Room attendance awards were made to Mrs. Oliver Teele's first grade, Mrs. Irene Thornton's sixth grade, Miss Waldine Midgett's 7th grade, and Coach McAllister's 11th.

The next meeting will be Nov. 17, at 7:30, with Mrs. Joe Muller Christian as leader.

Mr. and Mrs. W. R. Bearce were out of town from Friday to Monday. At Fort Worth they met their son Bill of A&M and visited in the home of Mrs. Bearce's sister; they also attended the A&M-TCU game, and all went over to Dallas to attend the State Fair. On their way home they stopped over night in Abilene with Mr. Bearce's niece.

Mr. and Mrs. Van O'Harrow spent Saturday night in San Angelo with their daughter and her family and attended the Oil Show.

From 75 to 100 Presbyterians from churches in 6th district will be here Monday for an all-day conference at the Presbyterian Church in Eldorado. Included among those attending will be Women of the Church members from Sweetwater, San Angelo, Sterling City, Roscoe, Eldorado and probably other places.

Quarter-Century Pin Awarded To Local Cameron Manager

A Quarter-Century pin has been awarded to W. M. Patterson in recognition of his 25 years of service with Wm. Cameron and Co. The award was made recently at a district meeting in Menard, 40 company employees attending.

Patterson has been manager of the Cameron lumber yard in Eldorado since 1941, promotion having come to him after years of service to the company.

He was born in Brandon, in Hill County. He was graduated from Hillsboro high school, and received his BA, with major in history and science, from Austin College, Sherman, in 1927.

In 1928 he started to work for Cameron's at Richland Springs, as yard man and book keeper. In 1931 he was transferred to McGregor, then to Brownwood where he bought a home and worked for the company 3 1/2 years. When he was moved to Eldorado he became manager of the local yard.

Here he has been active in a number of organizations. A prominent Lion, he is past president and former deputy district governor of that club. He has been on the city council for ten years, is an elder in the Presbyterian Church, is local director for the West Texas Chamber of Commerce, heads the Red Cross, and has served on the Scout troop committee.

A major interest is flying. He arrived here at the time the city airport was being completed, and he at once became interested in that project. He owns his own plane and has a pilot's license. Upkeep of the airport, flying of his own plane and encouraging others to become air-minded, taking part in the air activities which concern defense—these are his major interests outside of his duties as Cameron manager.

He and his wife, the former Elaine Mason, have one daughter, Mrs. Neville Pressley Clarke of College Station, and the Pattersons are among the many business people in this city who own their own home here.

Completion of 25 years of service with Cameron's makes him a member of the company's Quarter-Century Club, with the privilege of wearing the coveted loyalty pin, which is studded with three diamonds and is awarded for loyalty and service.

School News

The resignation of H. L. Brod, shop and math teacher for the past year, was announced this week by Supt. T. E. Holcomb. Mr. Brod has accepted a position in the post office at San Angelo. The school regrets losing Mr. Brod and wish him success in his new job. To fill the vacancy Mr. Holcomb announced that L. A. Davis of Sherman, Texas, had been employed. Mr. Davis is an August graduate of North Texas State College. He began his teaching here Tuesday.

Monday night, October 12, the PHA girls met at the school at 7:00 o'clock. After roll call the Junior and Senior girls drew for the name of their FHA sister who was to become a new member. The initiation was held at the roadside park. Everyone had lots of fun. Roasted marshmallows were served as refreshments.

The bus going to the State Fair at Dallas left Eldorado at 3:00 a. m. October 17. Mrs. Ray Boyer, Mrs. Ruby Dickens, the bus driver, Miss Joan Fudge, and Mrs. Billy Evans were chaperons.

The girls who went to Dallas were: Sherry Atkinson, Shannon Barclay, Ila Jean Boyer, Delores Calcote, Melba Dewey, Gainell Belk, Kaye Dossett, Barbara Faught, Linda Jeffrey, Jorgi Lagow, Marilyn Moore, Frances Parker, Linda Posey, Frances Reynolds, Patsy Taylor, Mary Tisdale, Bobbie Wilkerson, Ann Williams, and Nell Williams.

The group attended the ice show, the exhibits and the Midway. They returned home Sunday night at 10:00 p. m. Everyone had a good time, but were tired and glad to be home.

The FHA yearbooks have been completed and handed to the members. The next meeting will be October 26th at the school.

With the first six-weeks tests over, the Juniors are now well under way in their studies, preparing for the second six-weeks.

Since the class was in charge of the concession stand last Friday night, they would like to take this opportunity of thanking all for being so co-operative. Especially do they thank the room mothers.

With Halloween not far off, the Junior class elected as carnival queen nominee Pat Higgins, and ask that you remember her when you cast your vote.—Reporters.

Mr. and Mrs. Robert Nixon were out of the county five days visiting relatives in Lubbock, Littlefield, Bowina, Plainview and other places and with their daughter Mrs. Allen J. Hinton at Hobbs, New Mexico.

Automobile Inspection Stations Reporting Public Response Slow

Automobile inspection stations in this area are going to be jammed unless motorists begin having their vehicles inspected within the next few weeks.

This warning was issued this week in Austin by G. C. Morris, executive director of the Highway Safety Council. He said a cross-section survey of inspection stations, including those in this area, indicated only four cars of every hundred had been inspected.

The inspection period, under the new law, began Sept. 15 and will end April 15.

There are more than 3,000,000 vehicles to be inspected, and during the first 30 days of the seven-month period only a fraction of that number, roughly 125,000, have been checked, Morris said. The proportion of cars inspected in this area is about the same as statewide, he said.

"There is almost certain to be a last-minute rush unless there is a speed-up in inspections," he said, urging motorists in this section to avoid the rush by having their cars examined now.

Morris said there was also the safety precaution to be considered. "Most cars have not been inspected in more than a year and may have developed some mechanical defect," he said. "You may be gambling with your life if you are operating a mechanically unsound vehicle. Accident figures show that one traffic death in every ten in Texas is caused by faulty mechanism."

The new law, Morris said, calls for the inspection of brakes, light-

ing equipment, horns, rear view mirror and windshield wipers.

He urged motorists, however, to request that steering parts be also included in this inspection.

Safety experts agree that automobiles should be inspected at least once a year as insurance against mechanical defects. Morris said that if motorists wait until near the spring deadline to have their cars examined, it will mean that many cars will not have been inspected for 18 months, three times longer than practical.

LOCAL SOIL CONSERVATION DISTRICT BUYS ROCK PICKER

Supervisors of the Eldorado-Divide Soil Conservation District have recently purchased a rock picker for landowners in the district to use in clearing their fields of rocks.

The rock picker is a machine designed to pick up surface rocks and dump them into a hopper to be carried from the field. The machine also has a dirt moving blade attachment which can be used for making terrace fills and cleaning out pens. The machine operates from the power take-off of the tractor, is mounted on rubber, and

works hydraulically. The machine can be used by all makes of tractors as the district has the necessary parts to make the hook-ups. For the machine's upkeep the supervisors decided to charge 50c per hour or \$5 a day for the use of the machine.

Other equipment, owned by the district is available for the use of farmers and ranchers at the following rate per acre:

Land Leveler (Everman) --- 25c
Stalk Cutters (3) --- 35c

Fertilize And Graze

College Station.—There is a lot more to growing a good small grain pasture for fall and winter grazing than putting seed into the ground. M. K. Thornton, extension agricultural chemist, says plenty of the right kind of fertilizer and early planting will materially increase a pasture's value.

Oats, rye, barley and wheat contain scarce feed nutrients not found in many other winter rations, says Thornton. These grains contain over 20 percent protein at their peak grazing stage. Rye grass and rescue also supply efficient winter grazing in areas where adapted.

Early seeded small grains offer the best possibilities for successful fall grazing. The use of fertilizers improve the chances, says Thornton.

Soil tests accurately determine the fertilizer needs of a particular block of land. The testing of soil is a wise practice regardless of the season, but, says Thornton, it's extremely beneficial as the season of fall and winter pastures approaches. County agricultural agents have additional information on the methods of obtaining a soil test.

Mrs. Sam Oglesby was hostess to the Episcopal Guild at an all-day meeting Monday in the Memorial building. The ten members who attended worked on their bazaar articles.

Fern Shaw Pierce Gets Press Award

Fern Shaw Pierce of Victoria has been awarded top honors by the Texas Women's Press Association for an editorial on the recent Korean truce signing. The Scroll was presented during the Press group's 60th anniversary convention which was held in Corpus Christi October 16-18. She was also elected treasurer of the organization.

Mrs. Pierce is the daughter of the late Mattie and Jim Shaw of the Locker community, and is a sister of C. N. Shaw, an Eldorado business man.

The newspaper game is not a new one to Mrs. Pierce. In 1949 she walked off with top awards in TWPA for publishing and editing a weekly paper and also for features in the same category. She has been editing a weekly paper for the past six years. Her first paper, which she published in conjunction with her husband, was the Menard News. Three years ago she and her husband purchased the Victoria County Mirror in Victoria, Texas.

The Foster Comet, an unofficial Air Force paper published for Foster Air Force Base, Victoria, and one which she also edits, came into being a year ago upon the reactivation of the base. It is believed that she is the only woman civilian editor of an Air Force paper in the state. Both papers are printed in the Victoria Mirror shop. Mrs. Pierce states that although editing two papers, running a home, and rearing a child keeps a persons jumping, it is also interesting. She is also on twenty-four hour call as a correspondent for the Hearst chain of newspapers.

Mrs. Pierce is the wife of Edgar Pierce, formerly of Menard. She has one child, a girl named Candy, of whom she is extremely proud.

First Baptist News

This week is State Convention week for the General Convention of Texas Baptists. These meetings have throughout the years been a source of power for all of our work. We come home filled with new and renewed zeal for the work of Christianity. You will be hearing much of the work done at San Antonio this week. It is always a joy for the pastor to attend these meetings.

We are grateful for the work being started by our educational director. He is to begin work with the Junior Choir this Saturday morning, Oct. 24 at 10:30 to 12:00. All young people under the age of thirteen are invited to be members of this fine group of singers. The youth choir meets on Sunday afternoon at 5:00 p. m. The sextet and other groups have set times of meeting and practice. It is the desire of Mr. Christy to give as much individual attention as possible to each member. We believe that before long we will be seeing grand results.

The pastor's class had twelve enrolled at this time. This is the same number that the Lord had in his group. From his twelve many came to know the Way. It is hoped that the same will result from this class. This class will be repeated as often as it is needed. Plan to enroll at the next session.

There is much to do in this old world of ours. Go to some church next Sunday, both services, and on Wednesday night and learn how you can help and be happy. Go to church somewhere.—Pastor.

Mr. and Mrs. Leslie Baker and Mrs. Ben Isaacs were among those who attended the State Fair.

Driving is **NOT** a right ---

You Can Be RULED OFF THE ROAD

When you put the plates on your car and the driver's license in your wallet, you have met your state's requirements to drive. Without these, your time on the highway would be short-lived. It is the Motor Vehicle Department's way of saying, "So far as we can tell, you should be permitted to drive."

But from then on it is up to you. Respect the law and the rules of the road, drive so as not to endanger your life or the lives of others, and you may continue to drive. But—

Those licenses are not a right—they are merely *qualified permission*. They do not say you can weave over the highways intoxicated; that you can drive at dangerous speeds; or that you can commit *any* act that may endanger the public safety. You can't get away with it. Continued bad driving habits, sooner or later, will rule you off the road.

In one year 600,000 drivers had their licenses suspended or revoked—every third one for intoxication. Speeding and recklessness were also high on the list.

Remember—driving is not a right; it is a license which if abused can be withdrawn. Respect it and continue to drive—safely, sanely.

SLOW DOWN—LIVES ARE IN YOUR HANDS!
