Interest Increases As Date For Homecoming Draws Near

August 13-14 is the time.

Mrs. Gus Love, president, and a strong list of committees are getting their work lined up, in an effort to make this the biggest Homecoming the town has ever staged. Committee lists and other organizational work will be announced as this information is available.

Prizes for the floats will be wide open—no one needs to be an expert to compete for any of these prizes. Mrs. Billy Oglesby is heading the committee for the queen's race.

Mrs. Carson West is painting a picture which she will donate to the Homecoming, to be sold. This will be enclosed in a \$25 frame which will be the gift of a local picture framer, Clifford Schooley.

Publicity, which Eldorado rooters put out all year in the way of reminders to old timers whom they see, is well in hand, and as Mrs. Gus Love, president, puts it, "If they don't come it isn't because they don't know about it."

General plans for the parade, the dance and other features of the Homecoming will be announced at an early date.

WHEAT GROWERS WILL VOTE ON ACREAGE CONTROL

July 23 is the date when Schleicher county wheat growers will join other wheat growers through out the nation to determine whether or not the wheat marketing quota program will continue in operation for the 1955 wheat crop. This in effect is the decision which wheat growers will make in the coming wheat referendum, says Perry Mittel, chairman of the County Agricultural Stabilization and Conservation Committee.

Mr. Mittel points out that in compliance with the law Secretary of Agriculture Ezra Taft Benson has proclaimed marketing quotas for the 1955 wheat crop. The marketing quota program will be in effect if it is approved by at least two-thirds of the wheat growers voting in the July 23 referendum. If the quota program is approved, growers who plant within their 1955 acreage allotment will be eligible to market their 1955 wheat free of a marketing penalty.

Mr. Mittel also explains that if the vote in the referendum is favorable growers who exceed their allotment will be subject to a 45% of parity penalty on their excess wheat. If the vote is unfavorable there will be no penalty.

To be eligible for price support on any crop produced on the farm in 1955 the producer must comply with all acreage allotments established for his farm for that year. On farms where the crop allotments call for a diverted acreage of more than 10 acres, a total acreage allotment will be established for the farm and, in that case, the farmer must stay within that total as well as individual crop allotments to be eligible for price support.

In making his allotment proclamation, Sec. Benson stated that: "The long range interest of agriculture and the national economy will be best served when we can have less—and not more—government regulation and control." He added, however, that under present conditions "we have no immediate choice. With approximately a two-year supply of wheat expected to be on hand when this year's crop is harvested, there is no question at all about the requirement for marketing quotas and the establishment of a national wheat acreage allotment at the level prescribed by law."

Referring to the "cross-compliance" requirement, making it necessary for the farmer to stay within all acreage allotments established for his farm to be eligible for price support, the Secretary said: "Neither is there any question about the need to require cross-compliance with established acreage allotments. It does not make sense to encourage the building of new problems through the unwise shifting of acres from one surplus crop to another."

The referendum will be held in the County ASC office and polls will remain open until 7:00 p. m.

In the referendum conducted a year ago, for the crop now being harvested, the vote was 390,221 to 57,536. By special act of Congress the acreage allotment for the 1954 crop was set at 62 million acres. The allotment for the 1955 crop is 55 million, the minimum acreage permitted under the law.

Success, \$2 year—anywhere.

Seven Occupants in Wrecked Car

Seven occupants of a car miraculously escaped serious injury when the car struck a train in the east part of town Tuesday.

The driver of the car was Charles K. Norris, 18, of Snyder, who paid a fine here Wednesday morning for expired driver's license. He was uninjured.

Other occupants of the car were Mrs. Sammie Maxine Norris, 44, of Corsicana, the driver's mother, C. L. Norris, 16, of Corsicana, Doris Poulter, 21, of Kilgore, and her 17-months-old baby, Sheridan, Juanita Norris, 17, of Snyder, and Ruby Pepper, 11, of Eldorado.

The group had been visiting the W. D. Pepper family when they decided to go on a fishing trip to Fort McKavett.

The automobile rammed into a southbound train, demolishing the car, and slightly damaging the first freight car of the train. Highway Patrolman Herman E. Moore investigated the accident.

Norris was an employee of a well serving company of Snyder. All of the occupants of the car received first aid at the Eldorado Clinic Hospital but none were found to be seriously injured.

Candidate Rally Tomorrow Night At Reynolds School

Plans now seem to be complete for the candidate rally at Reynolds school tomorrow night, Friday, July 9, starting at 7:30. The rally is a regular political event, sponsored by the entire community.

All candidates are invited to attend and bring a cake. All others are invited also and may also bring cakes. Punch and coffee will be served free during the evening.

Those who would like to play table games during the evening are asked to bring card tables and dominoes.

Rambouillet Sale Set For July 17

The 18th Annual San Angelo Registered Rambouillet Ram Sale will be held July 15th through 17th at the San Angelo Fairgrounds. Twenty-four registered breeders have assigned 302 head of top quality rams to this sale sponsored by the American Rambouillet Sheep Breeders Assn.

All rams must be in the barns by Thursday at 8 a. m., when a committee of five breeders will begin the difficult task of selecting the stud rams from the best two rams of each consignor. This committee will also pass on the A-B-C pens of three, which are sold with the breeder privileged to take all or any part of the pen at the winning bid. The quality of the rams will determine the number of studs and A-B-C pens selected; however, the rules limit these pens to not over 10.

Among breeders who have assigned rams are three from Eldorado: O. Sudduth, A. W. Keys and John Williams.

WAN WANTED AT OZONA PICKED UP WEDNESDAY

Local officials lodged Charles Calvin Boling, 27, in jail Wednesday morning in Eldorado, for Ozona officials, and the man was turned over to them during the afternoon. He is from Waco, according to report.

LIONS SPEAKER

Through the Oil Industry Information Committee and its area chairman, R. L. Dickey, and Frank Stringer, chairman of Tom Green County Oil Industry Information Committee and cooperation of Standard Oil Company of Texas the Lions had as speaker yesterday Mr. C. C. Stacy of San Angelo. Mr. Stacy is a member of Standard's exploration department and talked on various trends in Schleicher and Sutton Counties. He pointed out the possibilities of completions in the Cambrian zone in these two counties.

NEW CLASSIFICATIONS

The Sonora Draft board Tuesday met and made a number of new classifications, among which are four from Schleicher County.

Lonnne Spears and Rinaldo C. Robledo are classified I-A. Claude M. Alexander Jr., is I-C (enlisted). Jackie Clinton Heffernan is I-S (H).

PECOS PETE THE SLIP UP

SOFTBALL GAMES ON SCHEDULE: TWO NIGHTS A WEEK

Softball games last week resulted in a 11 to 2 victory for the Dodgers over the Raggedy Ones, and a 2 to 0 win for Eagles over the Firebugs Friday night.

On the preceding Thursday night, Eagles beat the Dodgers 8 to 2 and Firebugs beat the Raggedy Ones 7 to 5.

The schedule worked out last week has been changed, so there will hereafter be only one game each night.

Thursday night, July 8, Eagles will play Raggedy Ones, and on Friday night, July 9, the Dodgers play the Firebugs. Next week's Thursday and Friday games include Raggedy Ones vs. Eagles Thursday night, and Firebugs vs. Dodgers Friday night.

Monday night the boys from ages of 8 to 13 were organized into two teams to play each other. At the close of the five-inning games, the score was 16 to 10, with Lupe Flores the winning pitcher and Earnest Maya the losing one. A squad of 28 boys played in this game.

The same two teams will play again next Monday night, beginning at 7:45.

Mayor Announces That Flood Supplies Will Go To Mexico

Eldon Calk, mayor of the city of Eldorado, announces that flood victims from Ozona who now live here may come to the city hall and help themselves to supplies which have been left there by local residents.

Those who moved to Eldorado after the flood are given first choice on these items. All unused goods at the end of a week will be shipped to Mexican cities which have had heavy flood damage, and where the need is greatest.

MISSION REVIVAL UNDER WAY THIS WEEK

Several hundred people in cars and outdoor pews are attending the First Baptist Mission Revival, which will continue on through the 11th. Meetings are being held on the First Mission lots just east of the West Texas Utilities Co.

Rev. O. Byron Richardson is preaching and Clyde Biggs is leading the song services. Both of these revival leaders are from Park Heights Baptist Church, San Angelo. The general public is invited to attend.

CALVARY BAPTISTS TO OPEN REVIVAL NEXT WEEK

The Calvary Baptist Church announces the opening of a Youth Revival at the church July 16-25 and invite the general public to be present.

Church leaders announce that Rev. John Paul Griggs of Berkeley, Calif., will do the preaching, and Ross Dickson of San Angelo will be the song leader. Rev. Robert Griggs, the pastor, invites everyone who is interested in good evangelistic services to attend.

HARTGRAVES BUYS ANGUS

Gerald B. Hartgraves of Eldorado recently bought thirteen purebred Aberdeen Angus cows and four registered bulls from R. H. Jackson of Christoval.

CoOp Counts Its Damage In Recent Johnson's Draw Flood

Austin, Texas—Texas' campaign trails are sizzling as figures in the quest for the state's top political job enter the speech-making home stretch.

Governor Allan Shivers' bid for re-election was boosted by the announcement of State Senator A. M. Aiken that he would support the governor. Aiken, champion of public education and co-author of the Gilmer-Aiken laws, said he has never doubted the sincerity, integrity, or ability of the governor.

Yarborough Busy

Candidate Yarborough continued his campaign, aided by a chartered airplane that shuttled him to more than 30 towns for brief speeches. He promised to "clean out" the Texas Insurance Commission if elected. He also demanded an audit of the books of John Van Cronkhite, a former Shivers campaign manager whose name came up in the bankruptcy case of Lloyd's of North America.

Yarborough declared against 3rd terms, saying that "when politicians become fixtures their cronies become fixers." The candidate promised an administration dedicated to quick aid for farmers and ranchers, better roads and highways, better schools, and expanded veterans land, health and state welfare programs.

Holmes Is Active

Covering the crossroads is J. J. Holmes of Austin. He is making a grassroots search for votes, spending little time in the big cities. It is his first race for Governor.

State Courts

One state court has wound up business for a summer vacation and two more will soon follow suit. The Court of Criminal Appeals finished its nine-month term and recessed until October 1. Expected to shut up shop soon were the Supreme Court and the Third Court of Criminal Appeals.

A new associate justice for the Supreme Court is to be appointed by the governor before the court resumes business in the fall. The new justice will replace the late Judge Graham B. Smedley.

Lyerly Leaves

Hugh Lyerly, executive assistant attorney general, resigned July 1 to enter the private practice of law in Dallas. He joined the firm of Coke and Coke.

Insurance Business

Texas insurance companies' charter amendment applications are receiving close examination before being approved, says Attorney General John Ben Shepperd. He announced that his office has returned 10 of 27 applications in the last two months because of failure to meet insurance law requirements.

Draft Call

Letters calling for 2,416 Texans to be examined in August for military duty have gone out to state draft boards, according to Brigadier General Paul L. Wakefield, state selective service director.

Texas boards will induct 1,092 men during the month who have received previous examinations. Wakefield said that draft calls for both July and August are running above previous months. The August call asked for men or older, but authorized boards to call men below 20 if necessary to fill quotas.

Toll Road

Moving ahead are plans for the state's first toll road. After a month of consultation, the Texas Turnpike Authority voted to employ Howard, Needles, Tammen & Bergendoff, consulting engineers, to work out plans for the Fort Worth-Dallas thoroughfare, cost of which will be an estimated \$31 million.

Mrs. J. N. Early and son Gene spent the Fourth at Brady, and on Sunday attended church there. Lester Early writes that he has had to be put in a cast again, at Nicks Hospital, San Antonio, and that it cannot be removed until August 16. He was badly injured in a fall while at work many months ago.

The Ozona flood on Johnson's Draw caused damage to Southwest Texas Electric CoOp poles and lines estimated at \$10,000.00, according to Don McCormick, manager of the CoOp. The crew, members of which have been exploring the damaged areas ever since the flood struck, are now at work on the slow job of salvaging old materials and rebuilding lines in that area.

On the Juno line, beginning in South Val Verde and going on down the Devils River and Johnson's Draw, the Co-Op lost 128 poles and ten miles of wire, the Johnson's Draw taking the bigger share. Poles and line have been washed so completely away that much of the material may never be found.

That the Co-Op is not the only loser in the locality is clear to linemen, who report that ranchers are working on badly damaged roads, with fences completely gone.

The ranchers have lost a great deal of livestock through flood or straying away from fenceless pastures, but there will be no way of knowing the extent of the loss until round-up time next fall, when ownership of remaining stock can be unscrambled.

Lines to Ozona sub-station were operating Tuesday following the flood, and Juno, fed from the Sonora sub-station, got energy two days ago.

Much work remains to be done, with the major part of the Co-Op rebuilding program lying ahead. The largest continuous stretch of lost lines and poles is on Johnsons Draw, where poles and lines are completely wiped out on one single strip two and a half miles long!

As this flood damage occasions the largest repair order ever given the Co-Op crew, it will be some time before the project is completed. Meanwhile people are getting along as best they can without electricity—often better than expected.

The story is told that at Massie West's a deep freeze well-filled mainly with meat, was without current for 80 hours, and the meat was unharmed when they got it to a commercial locker.

There may be some salvageable material found down the creeks and sorted out by the Co-Op crew, and if there is this will be used as far as it will go on rebuilding the lines—the Co-Op has available plenty of new material to use in completing the job.

One other trouble area was on Live Oaks, where three poles were lost.

Old-timers state that never in the history of the area has there been anything to compare with the Johnson Draw flood of last week.

Oil News

In Sutton County, Sinclair Oil and Gas Co., 1 Christina Mitttel, Sutton County Canyon sand gas discovery has been completed for daily flowing potential of 29,000 cubic feet of dry gas. Location is in 121-A-HE&WT, seven miles north of Sonora. The nearest Canyon sand gas production is the Steen field 4½ miles southeast of the new discovery.

Two and a half miles west of the Huldale field, Moore & Gilmore at No. 1 Ben Meckel, sec. 67, block TT, TC survey, was abandoned at 7062 feet in Ellenburger.

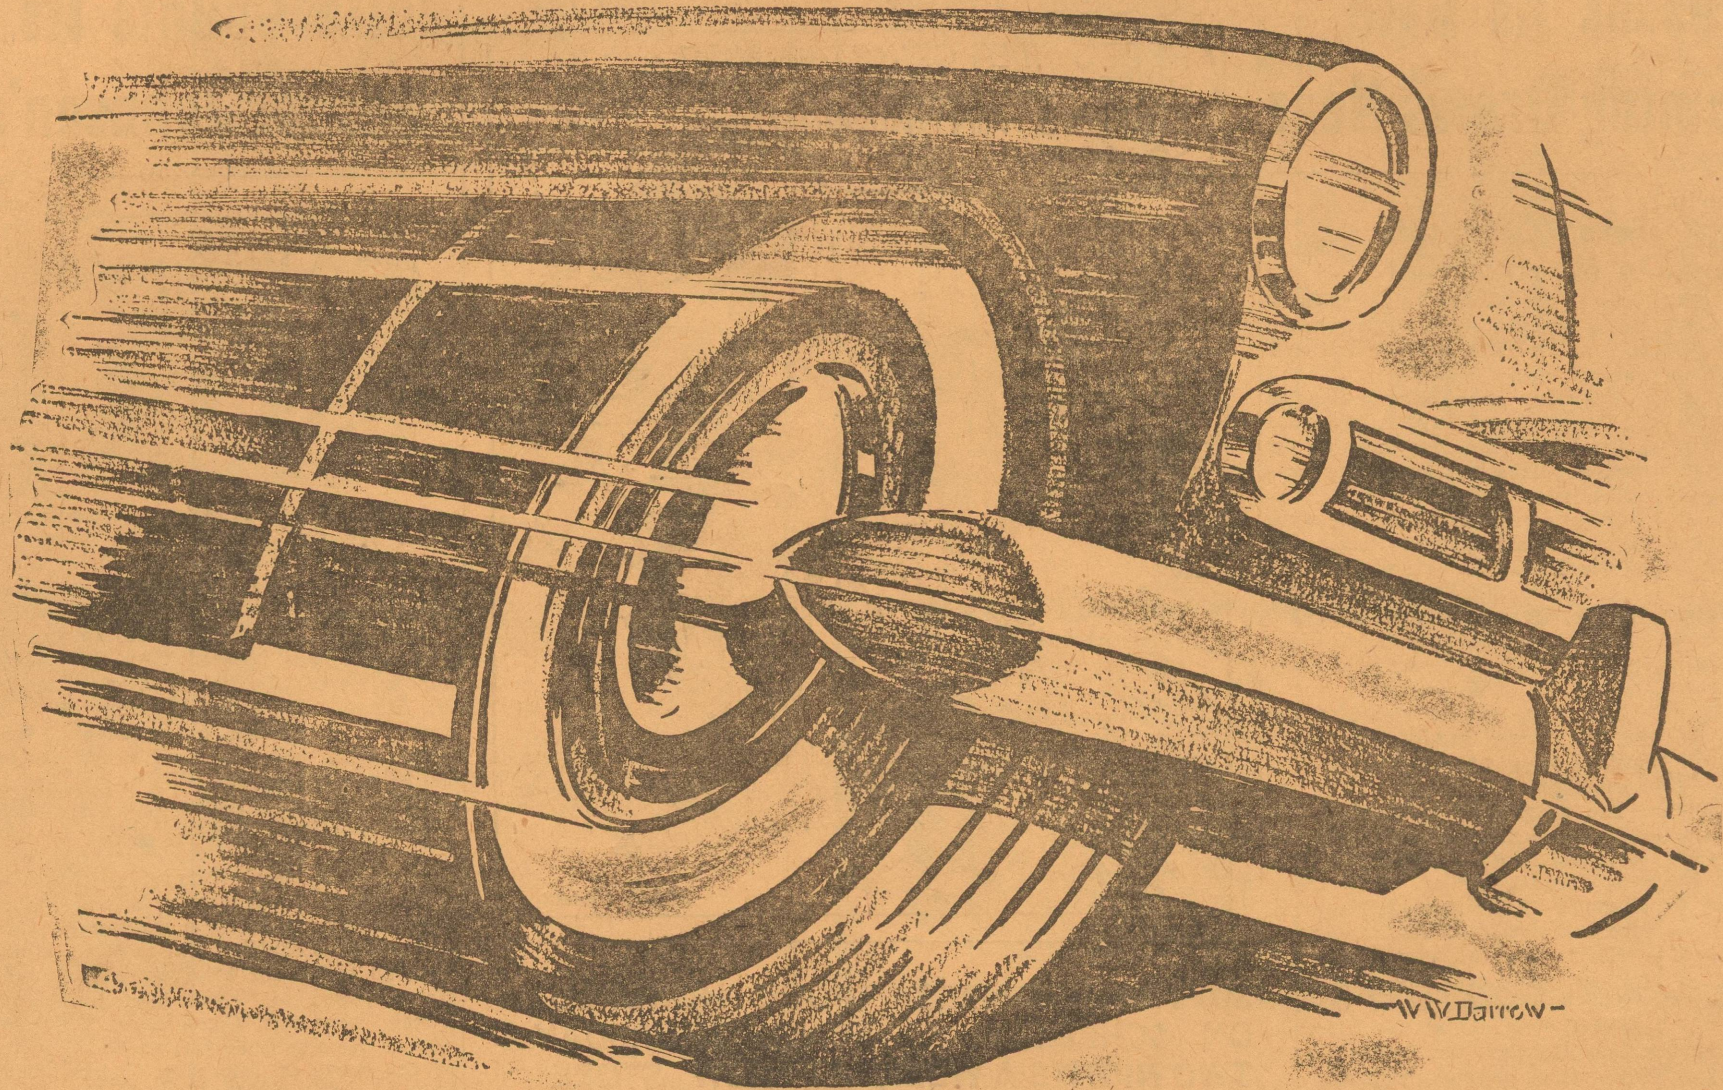

Evans Production Co., has moved rotary equipment away from the C. C. West test and nothing concerning their future plans is known except that they expect to be back. They encountered a gas and oil showing last week at 1800 feet, but were forced to abandon the project due to the condition of the hole.

Guests of Mr. and Mrs. Jerry Pennington during the week end of the Fourth were Pennington's mother Mrs. B. L. Pennington and his brother and wife Mr. and Mrs. Irvin Pennington of San Angelo.

Post Script

The city is spraying alleys and other trouble spots in the city, and urge householders to go on with the job and see about their homes, especially under the house and around doors.

Mosquitoes and flies are reported to be bad in parts of town, for which cooperation of everyone is needed if they are to be eradicated.

WHAT PRICE **SPEED?**

Speed—excessive, reckless speed is the greatest killer stalking the Nation's highways today.

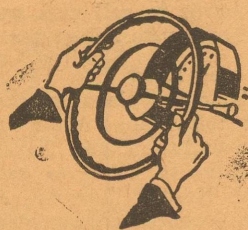

In one out of every two driver accidents resulting in deaths and injuries, speed is directly responsible for this carnage on the highways. Other lethal causes, such as cutting in and out, passing on curves and hills, driving off the roadway, are indirectly the result of quick bursts of speed.

And the speed death toll is climbing! Faster roads, super-powered cars urge drivers beyond their human limitations to a quicker and more frequent rendezvous with Death.

Rural highway fatalities due mainly to speed soared from 22,000 in 1949 to 28,200 in 1952 and over 31,000 in 1953. Those are the dead—and for every death count fifty injured, maimed, crippled for life.

Is this the price you and others are ready to pay for the momentary thrill and the ever-present danger of death from speed? It takes only a split second to change speed exhilaration into speed, tragedy.

The decision is in your hands—be sane, be sensible, slow down and live!

SLOW DOWN—LIVES ARE IN YOUR HANDS!

Lon Callison of Bizbee, Arizona, was an overnight guest Friday night in the home of cousins, Mr. and Mrs. Ken Ogdin. He had been visiting at Donna.

On the Bob Oglesby ranch, Bobby and his wife had as guests Mr. and Mrs. Earl Wakefield, who have returned to their home at Fort Worth.

Schleicher Benefits By Road Program

Austin.—During the last five years, 22.12 miles of roads have been built in Schleicher County. It was Texas greatest period of road construction history, Highway Department files show.

The breakdown by counties as well as state totals prepared by the department showed that \$430,907.08 was spent in the county for maintenance of present roads and for the construction program.

The report showed that 14,926 miles of roads added to the state highway system over the period covered, cost \$575,158,572.82, more money spent for construction than in any other comparable period.

Figures also showed that Farm-to-Market roads came in for a lion's share of the total. The roads were named a priority because they give farmers needed routes to markets and access to towns surrounding rural areas, a highway official said.

GIRL SCOUTS MEET THIS AFTERNOON

Meeting in regular session, the Girl Scouts who are in the 7th and 8th grades will gather this afternoon at 4:15 at the Memorial building, with Mrs. Gene McCalla as troop leader.

Four Girl Scouts are spending the week at Camp Sol Mayer; these are Pam Calk, Prissy Linthicum, Genelle Edmiston and Martha Ellen Topliffe. The following parents accompanied them: Mr. and Mrs. Eldon Calk, Mrs. Horace Linthicum, Mr. and Mrs. E. H. Topliffe, and Mr. and Mrs. Delbert Edmiston.

Mr. and Mrs. W. O. Alexander spent July 4 and 5 at San Saba.

Mrs. W. W. Sudduth of Dexter, New Mexico, who with her four children have been visiting this summer with the O. Sudduths, left Monday for Santa Anna to spend ten days with her parents Rosanne and Mike accompanied her.

Comments On Flood:

Such a disaster is a terrible price to pay to break a drought, and certainly points up a need for two things—an adequate and workable civil defense organization in every small town, and a series of small control dams in areas susceptible to flash floods. Sonora is extremely vulnerable, particularly if both draws should come down at the same time. And there is no assurance it won't happen.—Devils River News. ---

New Highway Damaged

A stream of tourists was moving through Mertzton this week following the destructive rains to highways in the southern area of West Texas. Highways 90 and 277 were impassable due to the flood waters that destroyed bridges and culverts. Considerable damage was done to the new highway from Mertzton to Eldorado. This particular farm to market road had not had an opportunity to settle since it was built. A crew of highway men have been busy most all of the week getting the road back into some kind of shape. The new bridge across Spring Creek suffered some damage, but did not go out.—Mertzton Weekly Star.

Water Problems

"Public interest in water problems in Texas is at an all-time high," H. N. Smith, state conservationist of the Soil Conservation Service, at Temple, said today.

Many articles on water resources and water needs are appearing in newspapers and magazines, and Federal and State agencies, committees, and many cities are making water studies.

"This widespread concern about water supplies," Smith pointed out, "emphasizes the importance of taking needed steps without delay to prevent rapid filling of reservoirs with sediment with accompanying loss of valuable water storage capacity."

Mr. Smith referred to the four major reservoirs: Benbrook, Grapevine, Garza-Little Elm, and Lavon—which are being completed by the Corps of Engineers above Dallas and Fort Worth. These reservoirs, he said would give flood protection to Dallas and Fort Worth and to levee districts and farmland along the river below them. The dams also will serve the very important purposes of storing water for municipal and industrial use, recreation, navigation of the Trinity, and streamflow regulation. Foreseeing even greater needs for water in the future as Texas develops, we need to do everything that can be done to protect and increase the useful life of these reservoirs, he continued.

Mr. Smith estimated that at the present rate of erosion, and soil movement in the watershed the sediment pools of the four reservoirs would be filled with sediment in 27 to 36 years.

"But this doesn't need to happen" he said. "If the needed soil conservation measures and practices were being used throughout the watershed of Grapevine reservoir—as an example—the life of the sediment pool would be increased to 50 years and the storage capacity of the reservoir maintained correspondingly. And if the proposed system of upstream flood prevention dams, which has been planned by the Soil Conservation Service above Grapevine reservoir, were built immediately the sediment pool life would be lengthened to

116 years because of the sediment deposition which would be prevented.

"The Trinity River watershed isn't the only place in Texas where rapid filling of reservoirs by sediment is occurring," Mr. Smith continued. "The same thing is happening in other parts of the state, and people are becoming concerned at seeing mud replace water. We have had requests from many cities and towns for help in finding out the rate of sedimentation in their water supply reservoirs, and what can be done to protect them.

"During recent years we have cooperated with the cities of Corpus Christi, San Angelo, Waco and Abilene in making sedimentation surveys of their water supply reservoirs," said Smith, "and with the Bexar-Medina-Atascosa district in a survey of Medina Lake. We are right now cooperating with the cities of Graham and Throckmorton in surveys of their reservoirs."

Smith pointed out that good sites for reservoirs are scarce, and the best ones already have been used. "When replacement dams have to be built at other locations it is going to cost a lot of money," he said. "That's why we must do everything we can to make our reservoirs last as long as possible."

Mr. and Mrs. Solon Boothe have vacated the Nolan McDonald rent house and moved Friday to the new Shugart-built house which they recently bought.

In a fishing party at Buchanan were Mr. and Mrs. Gus Love and family, Mr. and Mrs. Marvin McDonald, Mrs. Clyde Galbraith, Mr. and Mrs. Roy Andrews and Mr. and Mrs. Bobby Oliver and Phyllis.

A guest of Mr. and Mrs. John Bledso was their nephew Carl Matthews of Odessa, formerly of Potwin, Kansas. Other visitors in the home were Mr. and Mrs. E. Parker of Odessa, Bledsoe's sister and brother-in-law.

Mr. and Mrs. Fred L. Speck and family of Rocksprings were guests of Fred's parents Mr. and Mrs. Henry Speck.

Presbyterians Hostesses At Gift Tea Friday Honoring Newlyweds

Presbyterian Women of the Church were hostesses at a gift tea honoring Mr. and Mrs. Stuart Williams, Friday afternoon in the Presbyterian Church parlors.

Receiving guests were Mrs. Jim Williams, mother of the groom, the honored couple, Mr. and Mrs. Stuart Williams, Mrs. C. Gardner Franks of Rocksprings, mother of the bride, and Mrs. Nona Franks, her aunt, of San Angelo.

At the register were Martha Dell Williams, the groom's sister, and May Runge. Piano music was rendered by Mrs. Horace Linthicum, Miss Dale West and Mrs. John Stigler.

Mrs. A. G. McCormack, Mrs. Bill Oglesby and Mrs. George Stanley Finley, accompanied by Mrs. Wilson Page, sang Summer Time, and Mickie and Terry Phelps accompanied by their mother Mrs. Roy Phelps, sang Honey and My Romance. Mrs. Wilson Page, accompanied by Mrs. John Stigler, sang Indian-Love Call and With a Song in My Heart.

The blue and white color scheme was carried out in the cake, which was iced in white with blue trim, and in the centerpiece of carnations and baby mums. Serving the first hour were Mrs. A. G. McCormack, Suzie Linthicum and Monetta Bradshaw, and Mrs. Gerald Hartgraves and Mrs. Geo. Stanley Finley the second.

The couple are living at Lubbock where Williams is a Junior at Texas Tech and Mrs. Williams is working on her Master's. The groom is a veteran, and the bride is a former teacher in the Sonora school system.

Guests were present from this county and several other places.

Recipe of the Week

Crunchy Lemon Ice Cream
 3/4 cup evaporated milk
 1 tablespoon butter or margarine (melted)
 1/4 cup dry cereal crumbs
 1/4 cup chopped unsalted nuts
 2 tablespoons brown sugar
 6 tablespoons frozen lemonade or limeade concentrate (thawed)
 1/4 cup sugar.
 1/8 teaspoon salt

Mix butter or margarine, corn flakes, nuts and brown sugar. Mix frozen juice concentrate, sugar and salt. Let stand until ready to use. Whip the evaporated milk (follow directions for whipping evaporated milk). Add frozen juice mixture to whipped milk. Beat until stiff. Place in ice cube tray. Sprinkle crumb and nut mixture over top. Freeze quickly without stirring. Serves 4 to 6.

Mrs. B. C. Thornton had as guests her brothers John I. Smith of Marathon, and Mr. and Mrs. Tom Smith of San Angelo.

Mr. and Mrs. Houston Thigpen and family visited the Tom Carrolls Sunday at Ozona.

Two children of the Doc Sofges have returned home after visiting a week with their brother and sister-in-law Mr. and Mrs. Roger Sofge at San Angelo.

Fay Davis returned recently from a visit in Corpus Christi and Austin with relatives, and has gone to Fort Worth, where she has office employment for the summer with the Texas Electric Company.

MORE MONEY FOR ROADS

During Allan Shivers' Administration more money has been spent for roads than in any other comparable period in Texas history.

For that money Texas added 14,926.10 miles of smooth roads to the state highway system and maintained all roads to keep them safe and sound for you.

Allan Shivers knows the importance of good roads to you. Whether trade-routes that speed goods to market or modern super-highways that make your driving a pleasure, good roads save you time and money.

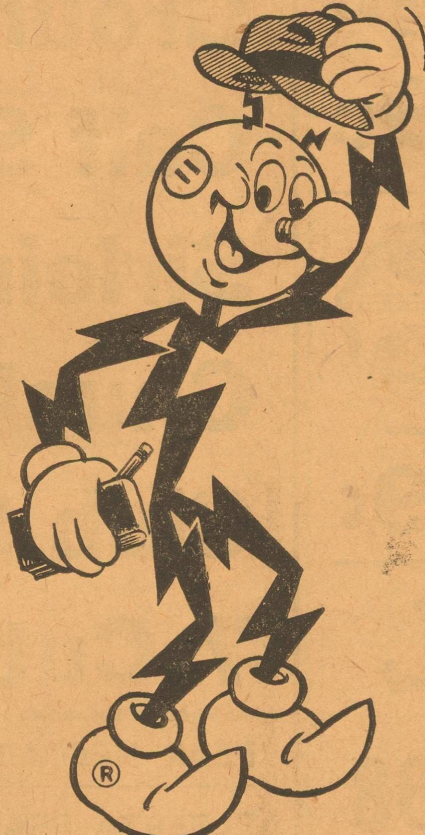

IN SCHLEICHER COUNTY \$436,907.08, has been spent on roads for you during Allan Shivers' Administration.

You have 22.12 more miles of roads today than when he became your governor.

This means better Farm-to-Market roads, so important to farmers and citizens of small towns.

It means modern, safe highways that make your trips enjoyable and inexpensive.

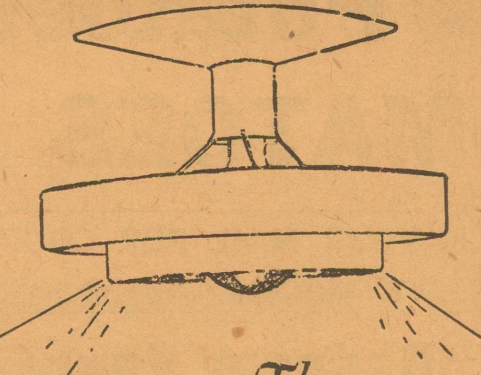

Texas comes first with Allan Shivers.

Yes, ma'am—we can deliver your **WONDERLIGHTS** now! How many please? They're only \$4.95

Complete with Silver Bowl Reflector Lamp

Gleaming white enamel baked on steel—the Wonderlight is both practical and pretty... and if you wish, you can paint it to match your decorations.

The Wonderlight

Designed for our customers who want glare-free, shadowless illumination, the Wonderlight provides style, beauty and adequate lighting at a minimum price. Constructed so it cannot collect dust or bugs, the Wonderlight, designed by our own Lighting Department, is presented as another "first" in our service to customers.

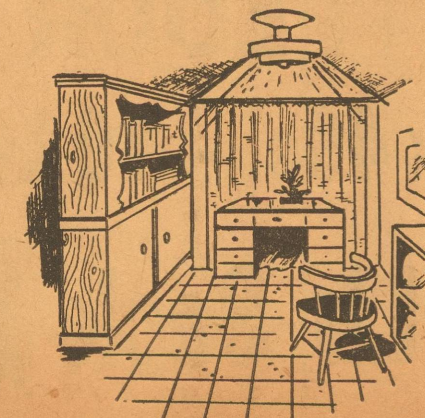

Easily installed—as a complete fixture, or as an adaptor—you can use it anywhere—
