ELDORADO— SCHLEICHER COUNTY, TEXAS

THURSDAY, MARCH 4, 1954

NUMBER 9

MANUEL GARZA MURDER VICTIM, BURIED HERE

Funeral services for Manuel Garza, a Mexican found dead late Wednesday afternoon of last week on the Tom Henderson ranch, were held Saturday in Our Lady of Guadalupe Catholic Church in Eldorado, conducted by a mission priest from Sonora. The services started at 1:30 that afternoon, and interment was made in the Eldorado Cemetery. The deceased had lived on Henderson's ranch seven months.

He was born in August 1931 in Muzquiz, Coahuila, Mexico, the son of Mr. and Mrs. Alberto Garza, and was reared there. The town is located 60 miles from Eagle Pass.

Arriving in Eldorado to attend the funeral were his father, his wife, and a friend. Ratliff was in charge of arrangements.

Search continues for Jesus Armenta, who had been working with Garza on the Henderson ranch, and whose disappearance after Garza's death caused the sheriff's department to swear out a warrant for his arrest.

Henderson had paid off the men and told the sheriff that Garza had probably had \$200 to \$250 on his person and the other about \$50 or \$60.

When the men failed to show up for their feeding duties on the ranch, a search was started. Bloody clothing was discovered in the men's shack, and the body of Garza was found in a thicket with the head badly battered. It is thought that Garza had been slain at the shack, then hidden in the thicket nearly a mile away; the victim's money belt was missing.

World Day Of Prayer Scheduled For Friday; Attendance Is Urged

Tomorrow afternoon, Friday, March 5, will be regular meeting time for the World Day of Prayer, to be held under auspices of the United Church Women, beginning at 4:00 in the Presbyterian Church of this city. These meetings, which are being held over the world, have been scheduled in Eldorado since the beginning of the movement here several years ago. All are urged to attend.

The History

World Day of Prayer first began in 1887 when Mrs. Darwin R. James, president of the women's board of home missions of the Presbyterian church, called on all Presbyterian women in the United States to gather in their own communities on a specified date to pray for home missions. The response was so great that a day was set apart annually.

In the early nineties, under the leadership of two outstanding Baptist women, a day was designated for united prayer for foreign missions. For many years home and foreign mission groups observed days of prayer separately, but in 1919 they came together.

In 1920, the women of Canada joined them when the first Friday in Lent was chosen as the day of prayer for missions, home and foreign, and promoted by the Council of Women for Home Missions and the Foreign Missions conference of North America jointly. Missionaries spread the idea of a day of prayer and it became world-wide in 1927. The idea was observed in more than 17,000 communities last year.

The Set-Up

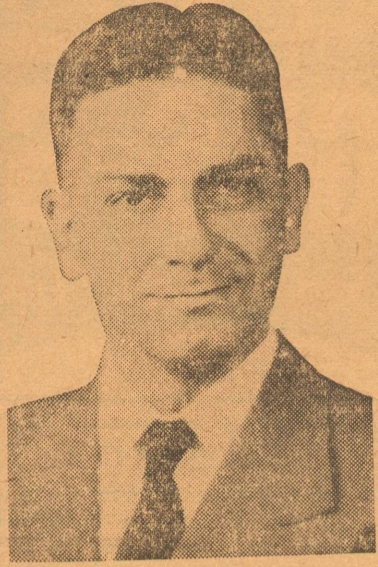

Mrs. Bert Page is the secretary of the organization here, with Mrs. Forrest Runge as president and Mrs. Edwin Jackson as program chairman.

Mrs. Hardy, pianist and organist at the Episcopal Church in Sonora, will play the organ for the congregational hymns. Three ministers, Rev. Doyle Morton, Methodist, Rev. Charles Bruce, Presbyterian, and Rev. John Winslow, Episcopalian, will have part on the program. There are three church representatives, Mrs. Walter McGregor, Episcopal, Mrs. Ray Tisdale, Methodist, and Mrs. Edwin Jackson, Presbyterian.

The organization is set up for the purpose of uniting Christians around the world in prayer, and in the United States to raise funds for interdenominational mission work at home and abroad.

The liturgy for this year's program was written by Sarah Chalko of India, who recently died at the age of 49. The program which she worked out will be presented in communities beginning almost a day before it reaches Eldorado, on the Tonga Islands, and closing with observance on St. Lawrence Island, Alaska.

—Pencil style erasers 10c and 20c at the Success Office.

JOE BURKETT ANNOUNCES FOR RE-ELECTION

State representative Joe Burkett, Jr., announced the Eldorado success to announce his candidacy for re-election to the office of state representative of the 78th Representative District, subject to the action of the Democratic Primary.

The Kerrville man is seeking his second full elective term to the Legislature, having completed an unexpired term, and having served as your representative in the 63rd Legislative session.

Mr. Burkett is a native Texan, born and reared in Eastland County. He attended public school at Eastland and graduated from the San Antonio schools. He was admitted to the bar in 1934.

Mr. Burkett launched his public life in Kerr County where he served two terms as Justice of the Peace. His talents as a fair and energetic public servant were recognized and he was appointed Kerr County Attorney to fill an unexpired term. This was followed by two elective terms to the office, from which he resigned in 1949. His services were once again desired by the citizens of Kerr County who recalled him by appointment to fill the vacated office of County Judge, January 1, 1950. Mr. Burkett retired to private law practice at the completion of that term of office.

Mr. Burkett is cognizant of and sympathetic to the needs and problems of the war veterans. He served four years as field artilleryman in World War II, eighteen months of which were spent overseas in the European Theatre of Operations under the late Gen. George S. Patton, where he earned two major campaign ribbons: Battle of Central Germany and Battle of the Rhine.

Mr. Burkett is married and the father of two children.

A sound believer in the principles of Democratic government, Mr. Burkett no less is a firm adherent to local self-government. He is convinced that State taxes should not be increased for any purpose except as the people of the state voluntarily authorize tax levies upon themselves for a specific purpose. He has lived in the Hill Country for twenty three years, and feels he can properly and sympathetically represent the people of the Hill Country and the entire district in an integrated legislative program.

During Mr. Burkett's freshman term of office, he served with distinction as a member of the following legislative committees:—State affairs, Game and Fish, Labor, Insurance and Livestock and Stock Raising.

Mr. Burkett hopes to make a personal solicitation of the vote of each constituent during the campaign, and he earnestly solicits the influence and support of every many and woman in the district, who believe in economical State Government.

L. D. CHRISTIAN'S FATHER DIES; ONCE LIVED HERE

Funeral services were held in Hamilton, Texas, Feb. 22 for Loomis Christian, age 78, who lived here in the Bailey Ranch community from 1929 to 1938.

Survivors include his wife and four children and one brother, Sam Christian, age 90; two sons, L. D. Christian of Eldorado and L. W. Christian of San Antonio, and two daughters, Mrs. J. W. McCann of Georgetown and Mrs. Walter D. Newman of Austin.

Attending the funeral from here were Mr. and Mrs. Maurice Christian, J. M. Christian, Mrs. E. W. Brooks, L. E. McCalla, and Mr. and Mrs. L. D. Christian.

Ray and Lula May Alexander spent last week with the Higgins children while their parents were away.

Presbyterians Appoint Pulpit Committee

At a congregational meeting of the Presbyterian members Sunday morning, a pulpit committee was selected to find a pastor to succeed Rev. Charles Bruce, who will leave for Fort Worth April 1, to become an associate pastor of St. Stephen Presbyterian Church.

Heading the committee is W. M. Patterson, who will also see to filling the pulpit each Sunday until a regular pastor is secured. Others on the committee are James Page, Lum Burk, Mrs. Edwin Jackson, Mrs. Joe Edens and Mrs. A. G. McCormack.

GLADYS PATTON PASSES AWAY AT SAN ANTONIO

Miss Gladys Patton, an Eldoradoan during her girlhood, daughter of the late Dr. and Mrs. W. D. Patton, and teacher in the San Angelo school system many years, died in Santa Rosa Hospital in San Antonio Saturday evening at 8:00 o'clock, age 59.

Funeral services were held Tuesday morning at a funeral home in San Antonio, and interment was made in a San Antonio cemetery.

She was born in Grayson County May 27, 1894, and moved to this county with her parents when she was a young child. She attended the schools of the city, was graduated from TSCW, (then called CIA) and for many years made a career of teaching, much of the time being spent in San Angelo, where she taught in Thomas Edison Junior High. She also had some college work at San Marcos.

About five years ago she left the teaching profession, and moved to San Antonio where she was employed.

She maintained close ties with Eldorado for many years, putting in her first few teaching years here, and later, when she was on the faculty at San Angelo, returning here every week to look after her parents. After the death of her father, she moved her mother to San Angelo, and the two lived at a hotel there until the mother's death. She was an active member of the Mias Amigas until recent years when her health began to fail.

Her parents and a grown brother, Walter, preceded her in death, and were buried in the Eldorado Cemetery. She is survived by her sister, Mrs. Chester Cochran of El Cajon, California, and two brothers, Jim of McCamey and Joe of Los Angeles, Calif. She was a member of the Methodist Church and of the Eldorado chapter of the Eastern Star.

Mr. and Mrs. Jim Patton of McCamey who attended the funeral, stopped here Wednesday on their way home for a brief visit in the Green home.

Short Cut To Iraan Suggested By Boosters

At last week's meeting of the Lions' Club the principal business was entertaining a delegation from Iraan and Pecos Counties, seeking aid of Schleicher County in extending FM Road 33 to give Iraan an eastern outlet. The project would involve building of about 20 miles of highway in Crockett and half a bridge in Pecos. No estimate was announced on the cost.

Here to enlist Schleicher's aid and interest were Paul Counts, judge of Pecos County; G. Reynolds, Iraan Lions' Club president; Jimmie Jacobsen, city secretary of Iraan, and Ollie Garland, county commissioner in the Iraan precinct. Iraan hopes to build mile to the Pecos River and half the bridge there, then get Crockett to build 20 miles of highway and the other half of the bridge.

Eldorado's aid has been sought, as the new road would give shorter mileage to Iraan. Crockett would have to provide right of way for the construction, some of which would be over a hill.

The Eldorado Lions appointed a committee to investigate the project further and make recommendations to the club. Other business at last week's meeting included making of plans for the Womanless Wedding Friday, and the joint meeting with Sonora the following Tuesday. A Halliburton film concluded the program.

LOOKING GOOD

Sinclair University No. 100 recovered about 190 feet of heavily oil cut mud on a drillstem test yesterday from total depth of 8040. This well, located about 2 miles west of the old Reynolds school house, is an east offset to Sinclair University No. 101, which has been producing for about a year.

Post Script

The tax assessor and collector's office lists 250 new license tags for vehicles for 1954, these figures having been obtained at noon on Saturday. Officials seem to think they are off to a slow start and that folks had better come in and take care of this matter—and avoid the rush.

—ps—
Maybe an explanation of our policy in regard to subscriptions is in order again.

We never remove a name from our list without mailing out two cards—one around the 20th and the other around the 1st—ahead of expiration date. Then if we possibly can we correct our list the week end after the 1st—putting on new names, marking up subs which have been paid—removing names of those who haven't sent in their renewals.

This is the system we've worked out as most satisfactory. There's nothing personal about removing a name—we just have to have some kind of system or our mailing list would never be straight.

—ps—
Someone asked us if we sent our drama circle to the Lions' Club Womanless Wedding Friday night. We did, and the rest of the crew all went too.

It was a good show, and the audience appreciated the opportunity of seeing all of those bostomy gals with their dress-up finery, and their gallant escorts in their Sunday best. Best of all, gate receipts were \$165—which means that the club can make some needed improvements on the Scout hut.

—ps—
Something new in vandalism in these parts; someone had a good time recently pushing down some road markers with car bumpers between Eldorado and Sonora.

From the looks of the damage, the drivers had evidently driven the cars up against the signs, then pushed until the signs were broken off. Some of the metal markers seem to have stood the pressure, but the speed limit markers at the curves didn't.

Such vandalism is inexcusable—guess it's the result of boredom, idleness, recklessness or what have you—but it costs the state money to make the repairs and it could cost a life too!

See Free Pictures Here Saturday Night

Bring in your pictures, right away!

That is the plea of Mrs. Jack Elder and Mrs. Palmer West, who are sponsoring the showing of local pictures and films at a free program at the school auditorium Saturday night, beginning at 7:30.

They are especially anxious to get pictures and films of events of civic interest. With these will be shown also humorous pictures with a local slant.

A projector and screen will be on hand for the showing of the moving pictures and the snapshots. This is strictly a good will project, to be presented free—there will be nothing to sell! All are urged to attend this evening of free entertainment.

The L. D. Oehsners had as week end guests their sons of Texas Tech, John and George, also another Tech student, Lena Schmidt of Slaton.

Eldorado, Sonora Lions At Banquet Here Tuesday Night

Eldorado and Sonora Lions and their ladies heard District Gov. James Atgird of Carrizo Springs deliver an address of encouragement and commendation at the joint meeting of the two groups in the memorial building Tuesday night.

Musician for the evening was Lewis Jordan, who directed group singing and played the piano. Ray Tisdale was in charge of the showing of a film on the crippled children's camp, a project of Lionism, at Kerrville. Rev. J. C. Hancock delivered the invocation and Rev. Marshall of Sonora the benediction.

Joe Mueller Christian presided during opening ceremonies and introduced the visitors. District Deputy J. W. Jones of San Angelo introduced the district governor. Rev. Hancock was master of ceremonies and Supt. Brodhead was speaker for the Sonora group.

In his talk, Mr. Mogford commended all officials who had helped

to carry out the work of the clubs in the district. He especially praised the clubs for their work in establishing the camp for crippled children, a project which he termed Lionism's most dramatic accomplishment. He also stressed other similar projects which Lions have sponsored for the underprivileged in the past, and mentioned the fact that this work is characteristic of the spirit of Lionism.

He spent some time describing the work which the camp does for crippled children, and stressed the importance of giving as much money as possible toward this important cause. He compared this type of work with the routine job of the lamplighter, who leaves behind him as he goes on his way—light designated for use of someone else. "That which we give away we take with us," he said.

Dinner was served to a full house preceding the program.

OIL NEWS

The oil spotlight was on the extreme north-central portion of Schleicher Co., and southern Tom Green County this week following the discovery of an indicated prolific Strawn lime discovery in Tom Green, only 1½ miles north of the Schleicher County line and 3½ miles north of the Cox-Brown field of northern Schleicher County.

This indicated discovery, Stanolind Oil & Gas Company's No. 1 Hoblet-Jacobs, flowed oil on two drillstem tests in the Strawn lime and was running extremely high to nearby dry holes. It had logged 37 feet of indicated effective pay at last report.

It is thought possible by informed oilmen that the Cox-Brown production might be extended to the Stanolind discovery location. Bidding for royalty in the area was reported brisk.

Meanwhile, the Cox-Brown field was extended one location north with completion of the Richardson-McCarriek of San Antonio No. 2 L. Wilson unit, located in 79-M-GH&SA, for a daily pumping potential of 86.67 barrels of 43 gravity oil, no water. Gas-oil ratio was 212-1. Production was through perforations between 5492-5502 feet. Ton of pay was picked at 5492 feet on ground elevation of 2122 feet.

In the Tillery (Pennsylvanian) field of southeastern Schleicher County, Warren Petroleum Corp. started its No. 2 Virgil Powell, a 4300-foot rotary project. Location is 1263 feet from south and 330 feet from west lines of 1A-AR&M survivor, five miles northwest of Fort McKavett. Drilling will start immediately.

In the area 10 miles southwest of Eldorado, Atlantic Refining No. 1 Teale, C SW NE 190-A-HE&WT, recovered 105 feet of drilling mud on a one-hour drillstem test between 7274-7325 feet and was drilling ahead.

American Trading & Production

No. 1 Otto Sauer, located in C NE 191-A-HE&WT, 10 miles south west of Eldorado, recovered 95 feet of slightly gas-cut mud on a two-hour drillstem test between 7154-7215 feet. Another drillstem test Tuesday was unproductive. Yesterday the operation was drilling ahead at 7330 feet.

Drilling depths of other Schleicher projects: Edwin L. Cox No. 1 O'Harrow, 12 miles of Huldale, below 5200 feet in shale and lime; Sinclair No. 1 Powell, Tillery field, below 2492 feet, shale and lime; Sinclair No. 1 Felix Smith, 10 miles southwest of Eldorado, below 6375 feet; Taylor Oil & Gas Co., No. 1 Isaacs, below 4315 feet, lime and shale.

50,000 WATT KGBS BEGINNING MARCH 1

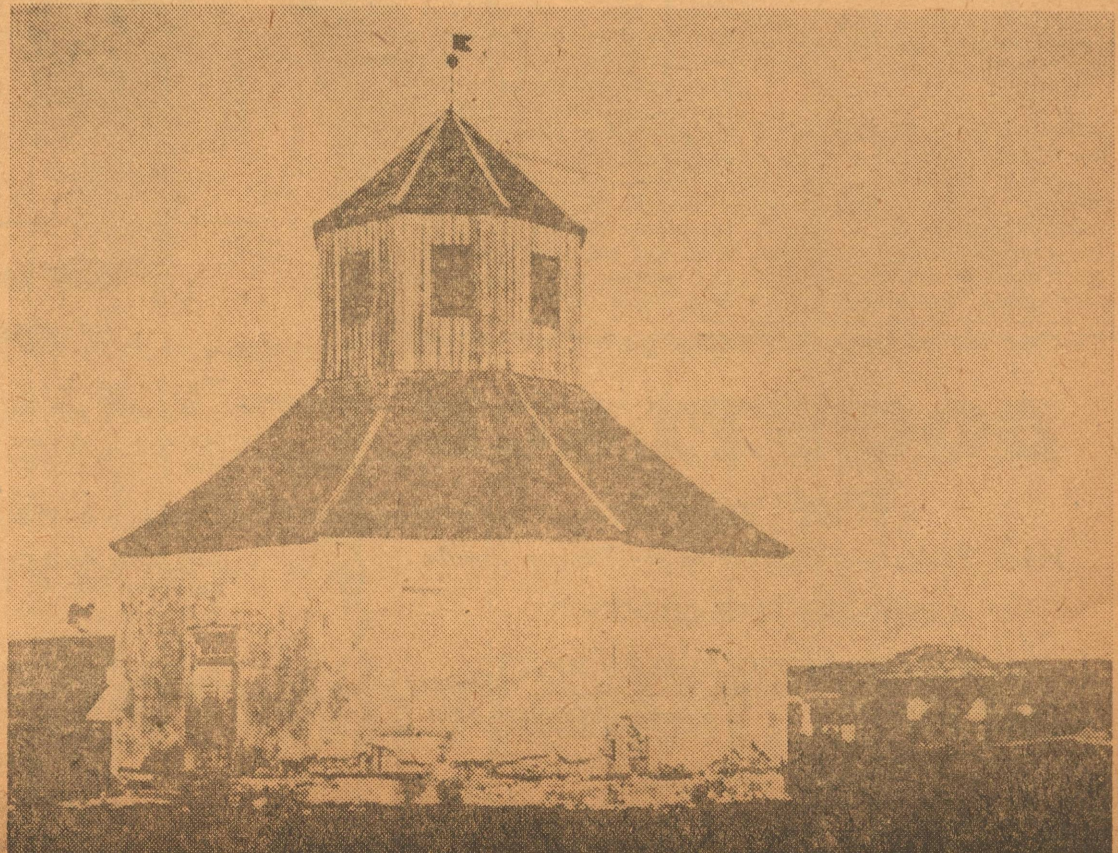

San Antonio.—Radio listeners in and around Eldorado will find their favorite Columbia Broadcasting System network programs at a different spot on their dials, beginning Monday, March 1, when 50,000-watt KGBS-680 (formerly San Antonio's KABC) became a CBS Radio affiliate.

The programming change-over means new listening pleasure for thousands of Central and South Texans—in their homes and cars—as the well-known programs and personalities of America's No. 1 network reach them with greater clarity, backed by the maximum allowed power.

MILITARY PARACHUTE IS FOUND IN COUNTY ON THE STEVENS RANCH

A military parachute from Holloman Air Force Base in New Mexico was found recently ten miles from Eldorado by Alfred Stevens, Schleicher County rancher on his ranch. A plane from Holloman Base was dispatched immediately, after notification of the event, and officials turned the chute over to military personnel.

C. N. Shaw spent the day Monday in Dallas.

The old school house at Fredericksburg, which still stands and attracts many tourists. It was built by the German settlers of the region in 1847 and was used continuously for school purposes until 1861.

JACK HODGES, MARTHA NICHOLS WED IN AUSTIN

Jack Hodges, son of Mr. and Mrs. Norman Hodges of this city, and Martha Nichols, daughter of Mrs. Jewel Nichols of Quanah, were married February 27 at 8:00 p. m. at the home of the groom's aunt, Mrs. John Clark, in Austin. Present for the wedding were a few close relatives and friends.

The bride wore a light blue wool suit, with corsage of white carnations. Her attendant was Earlean McCleska of Austin, and best man was Henry Mittel, Jr., of Eldorado, who is stationed at Austin. A reception in the Clark home followed the wedding.

The bride was reared in Quanah, was graduated from Quanah High School, attended Junior College, and for three years has been employed in Austin as long distance telephone operator.

Jack was reared here, graduated from Eldorado High School in 1948 and was in service two years, 11 months of which was spent in Korea. He is now living in Austin. The couple will make their home at 403½ West Live Oak St., Austin, and the bride will continue with her work as telephone operator. The couple will visit in Eldorado during the coming week end.

FIRST BAPTIST WMU CIRCLES

Circle No. 1 met at the church with Mrs. Fred Blunt as hostess. Mrs. Weldon Davis presided at the business meeting. Plans and food preparation were made for the Senior banquet which will be Friday night, March 5.

Mrs. T. P. Robinson Jr., reviewed the last two chapters of the mission book, "In Evangelines Country." The book tells of the lives and work of our missionaries among the French people in southern Louisiana.

Refreshments were served to eight members and two visitors. Mrs. Jeffrey had twelve children in the nursery.

The MayBelle Taylor circle met in the home of Mrs. W. G. McAlpine. Mrs. Kenneth Cheek presided at the business meeting.

Mrs. E. W. Perry reported to the circle about the community mission work done during the past month. Mrs. W. O. Alexander was appointed as Stewardship chairman. Several of the ladies volunteered to prepare chicken and other food for the Senior banquet.

Those assisting with the program on community missions were: Mrs. Edgar Spencer, Mrs. J. S. Hudson, Mrs. Kenneth Cheek and Mrs. Ed Finnigan. Refreshments were served to 16 members and one visitor. This circle will meet in the home of Mrs. E. W. Perry the next time.

Circle No. 3 met in the home of Mrs. W. H. Joiner. Mrs. Archie Mittel presided at the business in the absence of Mrs. Richard Cheatham. Members agreed to bring cookies and candy at the next meeting and these will be packed for service men and college students.

Mrs. Archie Mittel reviewed the last two chapters of the Mission book. Refreshments were served to nine members and one visitor.

BIRTHDAY PARTY

Mrs. Richard Thurman honored her son, Doyle, with a birthday party on his 4th birthday February 26th at the Memorial building.

Cokes and ice cream were served to the 22 children-attending. Story books and balloons were favors. Colors of green and pink were used. There were about 12 mothers present.

NIGHT BRIDGE CLUB

Mrs. Jack Shugart entertained the night bridge club Monday night, three tables of players attending. The games followed the supper. Winners of high were Mr. and Mrs. A G McCormack, guests, Charlie Trigg, men's bingo, Dick Bearce, traveling, and Mrs. Leslie Baker, women's bingo.

MCDUGAL IN SAN ANGELO

Rev. Cliff McDougal will be in San Angelo Sunday filling the pulpit at Bethel Fundamental Baptist Church for M. M. Griggs. In his absence Sunday night, Rev. Edgar Tatum of San Angelo Baptist Tabernacle, will preach here.

School News

This is Public School Week throughout Texas. It is a week designated each year especially for you, the friends and patrons to visit your schools. If you have not visited the schools do so today. We have a good school in Eldorado but even the best schools need improvement. Find out from the P. T. A. and other local groups working to improve school conditions what you can do to help. Helping to improve our schools is helping America fight for freedom. Every effort we make to improve our school conditions, to raise and maintain our educational standards, is helping our country to stay strong and secure. We cannot afford to let our educational standards slip because education molds the future of your children. You will find a rich reward in this work because "Better schools build a stronger America."

The Eldorado Chapter of National Honor Society will be installed in assembly Friday morning, March 5th at 9:00 o'clock. The public is invited.

At the regular meeting March 1st the Board of Trustees accepted the resignation of L. A. Davis as shop teacher. The board elected Mr. Homer McEuin to fill the vacancy. Mr. McEuin is a January graduate of North Texas State College with a major in Industrial Arts.

The board also read and accepted a letter of resignation submitted by Frank Benham, math teacher for the past two years. Mr. Benham asked that his resignation become effective at the end of this year.

The board approved the paying of current bills.

The Student Council of Eldorado High School sent Billy Jack Ethieredge, Harold Lloyd, and Jerry Doyle as representatives to the Youth For Traffic Safety Conference held at Ozona High School March 1. The conference was sponsored by the Sixth District of Texas Congress of Parents and Teachers. This conference was an outgrowth of a conference held last fall in Austin, Texas. The purpose of the district conference was an endeavor to organize safety programs in each school.

A report on the Austin conference was given by J. T. Walker, a senior student from Ft. Stockton, and Gregg Lea, a senior student from San Angelo High School. Mr. Herbert La Grone, a principal in the Austin public schools, gave a very worthwhile and interesting talk on "Safety Means Survival." The delegation was divided into five work groups to discuss and give solutions to traffic problems. Reports were given by each group at the end of the conference. The conference was a great success and we feel that the students profited greatly by the work. Frank Benham, Student Council sponsor, accompanied the group.

UTILITIES COOKING SCHOOL SCHEDULED FOR TODAY

Today, Thursday, at 2:30 at the Memorial building is the scheduled time for the annual West Texas Utilities cooking school, which will be held with Mrs. Abbie Andrews as cooking demonstrator. Included in the demonstration is cooking of foods which will be given away as premiums, and featuring of new Frigidaire appliances. Jerry Pennington, manager of the local office, will be in general charge of the demonstration, assisted by others.

SUSAN IS FOUR

Honoring her daughter Susan on her fourth birthday, Mrs. Jo Ed Hill entertained 34 children with a birthday party at the Methodist Church on the afternoon of the 26th (her birthday was the preceding day.)

The four-layer birthday cake was baked in the shape of a doll, the skirt of which was decorated with pink and white ruffles of frosting, a china doll head topping the cake. Mrs. Wilson Page assisted Mrs. Hill with the games.

Mrs. E. H. Coulter entertained the Merry Makers 42 Club at the Memorial building last Thursday, and served refreshments at the West Texas Cafe.

Fundamental Baptist

Sunday the Lord was good to us and there was an increase in attendance in all services. May we continue to pray and stay humble before Him. Gal. 6:9 "And let us not be weary in well doing for in due season we shall reap, if we faint not."

Sunday, March 7 in the absence of the pastor, there will be two speakers at the church. Rev. Joe Kegans will preach at the morning service and Rev. Edgar Tatum, pastor of the San Angelo Baptist Tabernacle, will bring the message Sunday night. Services begin at 7:30 Sunday night. You have a cordial invitation to attend all of these services.

We are indeed thankful for our young people and their willingness to take part in all services. Let's pray for them.

Sunday Bible school 10:00. All classes studying the first chapter Exodus. Come, and bring your Bibles and study God's word with us.

Preaching service 11:15. Rev. Joe Kegans will bring the message. Young peoples Bible study 6:30

p. m. All young people are invited to this service.

Evening service 7:30. Rev. Edgar Tatum will bring the message.

Wednesday prayer meeting and Bible study 7:30 p. m. A prayer meeting for all ages.

Thursday, teachers and workers meeting at 7:30 p. m.

The end of your search for a friendly church.

Cliff McDougal, pastor.

Success, \$2 year — anywhere.

COURSES TAUGHT AND TEACHER PAY IN EARLY SCHOOLS

Educators who operated private schools during Texas' early days, to judge from their newspaper advertisements, must have lived virtually on learning alone as they got little other reward for their services, and, of course, the controversial subject is still before us today.

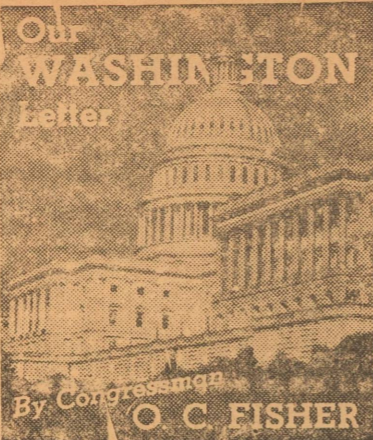

A sample curriculum was advertised as follows by D. B. Edward preceptor of Gonzales Academy, in the Texas Gazette of San Felipe on Oct. 16, 1830:

- “Terms:
“Orthography (spelling), ortho- ephy (pronunciation) and reading, \$1 per month in good trade.
“Writing, composition and definition, \$1.00 half cash, half good trade.
“Arithmetic, elocution and grammar, \$1.50 one third cash, two thirds good trade.
“Astronomy, modern and ancient geography, \$2, half cash, half good trade.
“Chronology, general and particular history, \$2.50, two thirds cash, one third good trade.
“Ethics, natural and moral philosophy, \$3.
“Belles Lettres, rhetoric and

logic, \$4.”
Thus you could get all that a little over \$8 per month, with a cash outlay of less than \$3.75, the rest being made up in meat and potatoes.
Today when teachers usually specialize in one or two subjects our modern teen-age sophisticates might point out, however, that the price was out of line, that a teacher claiming to know that much must have been a fraud.

PLASTICS CAUGHT ON IN THE LAND OF COTTON
Plastics seem to have caught on in the cotton-growing industry. Latest case of the use of vinyl plastics to improve industry's products and methods is as a coating for 9-foot-long cotton fabric bags which are dragged between rows and filled by cotton pickers.
The company which developed the plastic resin says tests with bags loaded with 65 pounds of cotton showed that a coated bag could be dragged 21 miles at 4 miles an hour before the bottom wore through. An uncoated bag lasted only 7½ miles under the same conditions, the company says.

Bob Skurlock has a hand injury as the result of an accident on the ranch.

Of interest to wool growers is a recommendation recently sent to the White House by the United States Tariff Commission. It deals with the imposition of import fees on imported wools that sell BELOW the government's support level applied to domestic wool. If carried out, such import fees would force all foreign wool to sell for at least as much as the government supports our own wool at—which is 90% of parity.

At President Eisenhower's request, the Tariff Commission held a hearing on the effect on the loan program of excessive imports selling under 90% of parity. That was last September. The Department of Agriculture strongly supported the levying of import fees. The Government has accumulated a stockpile of 100 million pounds of wool because that wool would not bring 90% of parity on the open market. By now imposing import fees on imports to make foreign wool bring at least as much as domestic wool, the CCC could dispose of its stockpile with little if any loss and the current domestic market would undoubtedly be considerably stabilized. What President Eisenhower will do is anybody's guess.

Up here in Washington you can hear anything. The most fantastic arguments are sometimes urged by partisans in support of or against an issue. A good example has been the contention that because some communists are said to have crossed the Rio Grande, we should not permit Mexican agricultural workers to be processed and allowed to work in fields on a legal basis where no American labor is available.

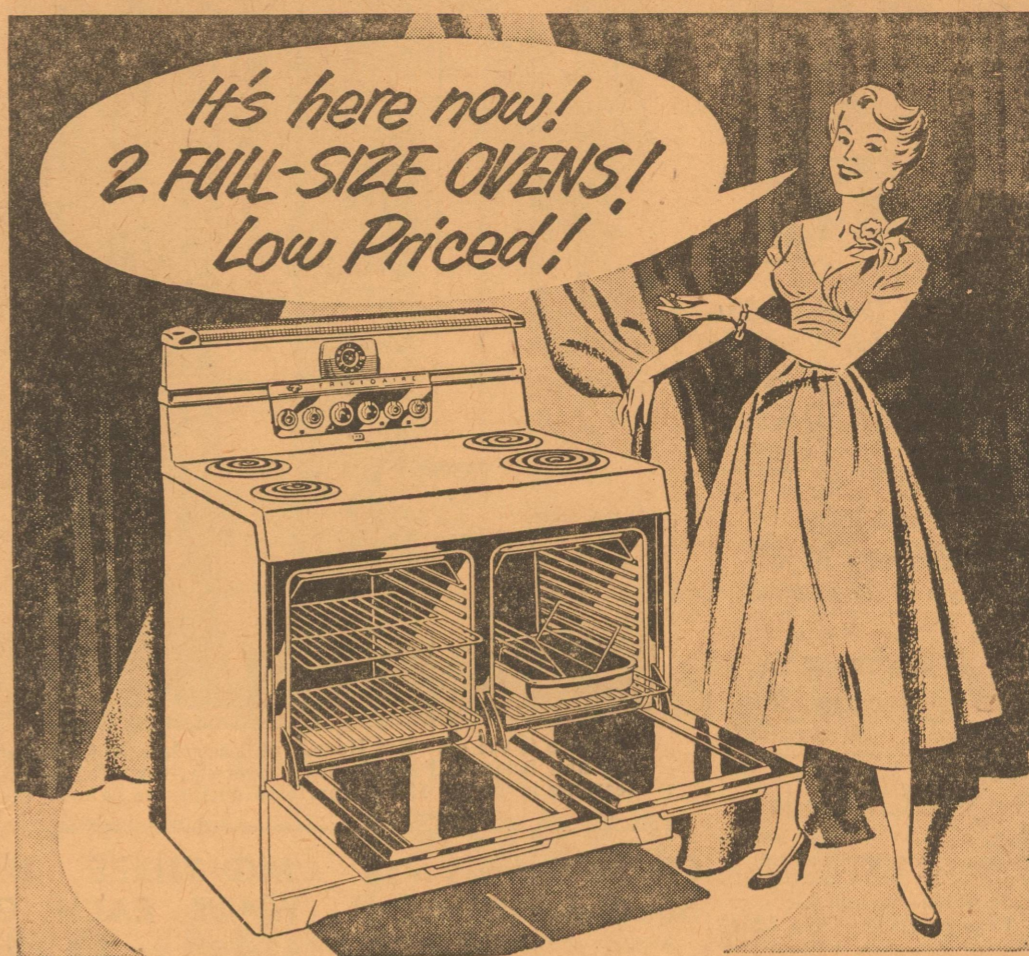

Robert Bruce, son of Rev. and Mrs. Charles G. Bruce, was recently promoted to the rank of corporal in the Schreiner Institute cadet corps, reports Col. Raymond Orr, professor of military science and tactics.

Jimmie Danford was involved in an accident recently in which he sustained a broken leg. After hospitalization in San Antonio he returned home this week and is convalescing at his home.

Mr. and Mrs. Gerald Nicks and children of Marfa visited relatives here over the week end.

Mrs. Gene Horton, who has been visiting the Ed Hills two weeks, left Wednesday for her home in

Fort Worth, accompanied by Mrs. Hill and children, who expected to spend about ten days in Ft. Worth.

New 1954 FRIGIDAIRE Electric Range

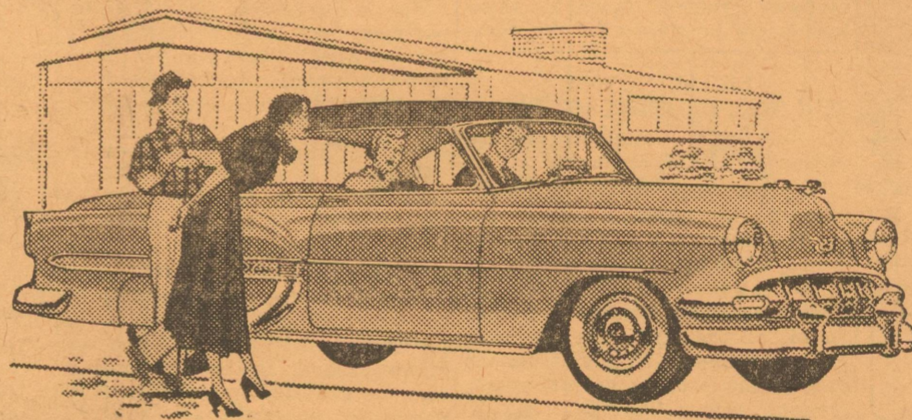

Here's a new Frigidaire Electric Range with 2 big ovens... at a price you'd expect to pay for many single-oven models! Each oven is full size and separately controlled. And each oven, as well as cabinet and top, is finished in Lifetime Porcelain to stay new-looking for years.

It's the "Buy" of the year — with all these features!

- New, full-width fluorescent lamp
 - Full-width Storage Drawer
 - Cook-Master Oven Clock Control
 - Electric Time Signal
 - 2 High-Speed Broilers, waist-high
 - New interior oven lights
 - New, surface unit signal lights
 - Temperature control for both ovens
 - Fast, sure Radiantube Surface Units
 - Automatic Appliance Outlet
- All this wonderful value for only **\$344⁹⁵**
INSTALLED! Budget Terms

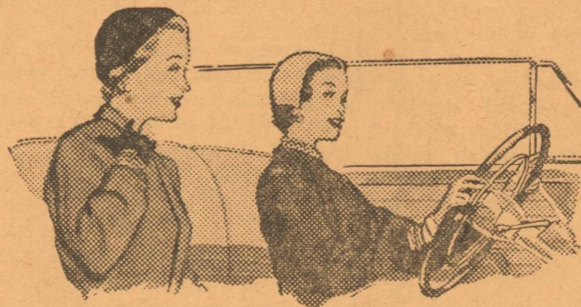

Be Modern — Cook Electrically

West Texas Utilities Company

(Isn't this why more people want — and buy — Chevrolets than any other car?)

What you want most Chevrolet gives you first

See how Chevrolet stays ahead of other low-priced cars in all the things that mean the most to you. See how much less Chevrolet costs you—it's the lowest-priced line of them all. Come on in and let us show you how you can have the things you want and be a good many dollars ahead with a new Chevrolet. That's promising a lot, but we welcome the chance to prove it!

OUT AHEAD with that bigger, lower look. Only Chevrolet and leading higher-priced cars have Body by Fisher with that big, smooth, low-slung look.

OUT AHEAD with the highest-compression overhead valve engines. Chevrolet's great engines have the highest compression ratio of any leading low-priced car.

OUT AHEAD with that smooth and solid big-car ride. Chevrolet's the only low-priced car with Unitized Knee-Action — one reason for its finer road-smoothing, road-hugging ride.

OUT AHEAD with zippy, thrifty Powerglide. It's the first and most advanced automatic transmission in the low-price field. Acceleration is instantly responsive and as smooth as silk. Optional on all models at extra cost.

OUT AHEAD with bigger brakes. Chevrolet brakes are largest in the low-price field for smoother, safer stops!

OUT AHEAD with automatic power controls. Chevrolet is the first low-priced car to bring you all the latest automatic power features and controls as extra-cost options.

R. W. (Bob) REYNOLDS

Above is the old "Red House" at Nacogdoches, formerly used to quarter Texas troops, which was the first home of Nacogdoches University, regarded as the first non-sectarian institution of higher learning in Texas. It was chartered during the days of the Republic, on Feb. 3, 1845.

Official Highway Map Now Being Distributed

Austin.—Publication of the Official Highway Travel Map for 1954 was announced in Austin this week by D. C. Greer, state highway engineer, and it is now available for free distribution.

Incorporating many changes and new features, it is believed that this is one of the best travel maps the Highway department has published, Greer stated. For the first time this year type has been used for all names and symbols appearing on the map, instead of the hand lettering previously used. This greatly improves legibility of all names.

A different size and type face was selected for the various categories of names that appear on the map; counties appear in one type, cities of similar population density will have the same size type; mountains will have their own lettering style, while rivers will appear in still another size and type face, Greer stated. In all, thirty-three different styles and sizes of type were ordered for the new map.

Over 1300 villages, towns, and cities are to be shown on the new guide. Each of these falls into one of the five population categories—towns of less than 1,000 persons, towns up to 5,000, those with 25,000 and cities with populations up to 100,000. After a city's population passes this mark, Greer said, it will be shown as a stippled outline of the city limits. Thirteen insets of Texas' largest towns showing highway routes through these towns are continued in the margins of the map again this year.

LEGAL NOTICE

THE STATE OF TEXAS

To Charles S. Patterson and his unknown heirs, defendants:

You and each of you are commanded to appear before the District Court of Schleicher County Texas, to be held at the courthouse of said County in the City of Eldorado, at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of the issuance hereof, to-wit, Monday, April 19, 1954, at 10 o'clock A. M., by filing written answer to plaintiff, J. L. Cheek's amended motion filed on the 3rd day of March, 1954, in Cause No. 630, styled J. L. Cheek vs. Charles S. Patterson et al, in said Court. Plaintiff's motion states that in said cause on April 6, 1942, the Court actually pronounced judgment that plaintiff recover judgment against the defendants Charles S. Patterson and his unknown heirs for the title and possession of Section 70, Block LL, Certificate 2344, G. C. & S. F. Ry. Co. lands, situated in Schleicher County, Texas, and to cancel defendants' claims of title as clouds on his title, but that through inadvertence or clerical error the judgment as entered in the minutes of said Court make it appear that judgment was entered against the defendant Charles S. Patterson only, and plaintiff moves the Court to correct its minutes by entering its judgment nunc' pro tunc in accordance with the judgment actually pronounced.

Witness my official hand and seal of this the 3rd day of March, 1954, on which date this notice is issued.

J. P. ENOCHS,
District Clerk, Schleicher County, Texas.

'BIG THREE' IN TEXAS EDUCATION AND WHAT EACH OF THEM ACCOMPLISHED

The "big three" of Texas education are Mirabeau B. Lamar, second president of the Republic; E. M. Pease, governor from 1853 to 1857, and Oran M. Roberts, governor from 1879 to 1883.

Here is what each accomplished: Lamar—Crusaded actively for a public free school system, including a university, and recommended that Congress endow such a system with land appropriations from the public domain. Claimed land grants would support the system; that taxes would never be required. Congress agreed, appropriated in 1839 and 1840 four leagues (17,712 acres) of land to each county for common schools and 50 leagues (231,400 acres) for the establishment and maintenance of "two colleges or universities." Net results: meager, only semi-public San Augustine University established under the act. But Lamar's vision earned him the title of "Father of Education in Texas."

Pease—Second only to Lamar crusading for education. Secured passage in 1854 of Pease common school law which set aside \$2,000,000 as state's first permanent public school fund. Income from fund to be distributed on per capita scholastic basis. Law also provided for creation within each county of school districts, each of which was to elect trustees to set up and supervise local school system. Net results: creation of first public

school system in Texas. Its opening in 1854-55 was an humble one, first per capita distribution amounting to 62 cents and total enrollment being only 65,453. In 1953 per capita distribution was \$68, total enrollment had increased to more than 1,633,911 and permanent school fund has increased to \$192,779,112, exclusive of landed endowment.

Roberts—Rallied public's moral and financial support for public schools, which almost went under as result of Reconstruction period policies. Lengthened school term from average of three and a half months per year to average of five months, with some city schools keeping open nine months. Increased teachers' pay and provided better school houses and equipment. Did this principally by encouraging taxation for school purposes in local school districts and by increasing permanent school fund from \$1,629,000 to \$5,361,000 during his administration, chiefly by stepping up sales of school lands. In 1879 Roberts reorganized Texas A&M College, established Sam Houston Normal Institute (now Sam Houston State College), and established Prairie View State Normal School (now Prairie View Agricultural and Mechanical College). In 1881-'83 led the drive which culminated in the establishment of the University of Texas, which opened Sept. 15, 1883.

to the owner or driver of the other vehicle for your damages. Upon his becoming liable to pay those damages to you, then he in turn looks to the insurance company to make the settlement for him, or to reimburse him for the settlement which he has made.

If the case goes to trial before the jury, even though you may know that the other party carries insurance, if there arises any discussion of the fact that insurance is carried by the other party, then the courts have held that it is the duty of the trial judge to declare a mistrial.

This means that you will have to start all over again and try your case from the beginning before the jury, at a later date. Your case is not dismissed, and you do not lose your rights to be heard on your case because of the word "insurance" coming into the case, but it does mean that the trial then in progress must be dismissed and you must start all over again before a new and different jury.

Insurance Questions Answered

One of the most familiar types of contracts is the insurance policy, as nearly everyone carries some sort of insurance protection. Yet, few people take the trouble to read their policies and lawyers have to answer many questions regarding insurance generally.

Here is a problem frequently presented: "I have a hospitalization insurance policy. Will the company pay all my hospital bills if I become ill?"

It may or may not. Insurance is a contract between the insurance company and the policy holder. In the usual contract the policy holder agrees to pay a certain sum of money for the policy of insurance, and the insurance company agrees that should the policy holder incur hospital expenses that the insurance company will make payment to the policy holder of stated sums, as set out in the policy of insurance.

The insurance policy itself must state the complete contract between the parties. The oral statements of agents not in harmony with the policy are not binding on the company. The company is bound to pay only such sums as are specifically set forth in the policy of insurance.

Practically all policies have a section called exceptions and exclusions. The policy holder should particularly read this section before purchasing a policy of any kind of insurance. It would be possible for a policy of insurance to have so many exceptions and exclusions as to practically nullify any benefits under the policy.

Another question often asked is: "Can I sue the insurance company which issued a liability policy covering the car of someone who runs into and damages my car?"

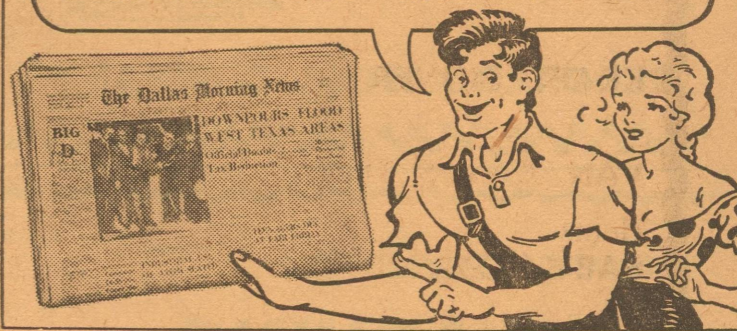

For all practical purposes you may sue the insurance company which carries insurance on the other fellows car. You must look

More Light From Same Power

College Station.—Thrifty minded families are finding that it's the "little things" around home that help trim the rough edges from their tightening budgets.

With this in mind, Bernice Claytor, extension home management specialist, offers home makers tips on how to get more light from the same amount of electric power.

Mrs. Claytor points out that colored electric bulbs absorb up to one-third of the light they produce and should not be used, except for decorating purposes.

Replace dark or dingy lamp shades with white or some other

light colored shade. Dark colors absorb light; light colors reflect.

Use one high-wattage bulb, Mrs. Claytor says, instead of several smaller ones. For example, she adds, a 100-watt bulb furnishes 50 percent more light than four 25-watt bulbs, yet uses the same power.

She also recommends flared lamp shades over the drum type. Flared shades spread light over a larger area.

Lastly, the specialist says, keep the light source as near your work as possible. However, there should be no glare, direct or indirect, in the eyes.

Mrs. A. H. Green, and her daughter Ethelene, went to Brownwood to attend the 80th birthday celebration of Mrs. Green's sister, Mrs. W. B. Humcatt, who was honored with an Open House. They also visited in the home of Mrs. Green's daughter Mrs. T. E. Parson. Other daughters present were Mrs. Charles Hendrix of Crane and Mrs. Jim Patton of McCamey.

RUBBER STAMPS with the words "Past Due" etc., carried in stock at Success office, price \$1.00. Other rubber stamps ordered custom made.

Recipe of the Week

Apple Crumble

- 1/2 cup sifted flour
 - 3/4 cup nonfat dry milk solids
 - 1/4 to 1/2 cup sugar.
 - 1/4 teaspoon nutmeg.
 - 1/4 teaspoon salt.
 - 1 teaspoon cinnamon
 - 1/4 cup butter
 - 3 cups sliced apples.
- Mix flour, nonfat dry milk solids, sugar, nutmeg, salt and cinnamon. Cut in butter with pastry blender until mixture is crumbly. Arrange apples in a shallow well greased covered baking dish. Sprinkle apples with dry mixture. Bake at 350 degrees F. for about 30 minutes or until apples are tender. Remove cover and bake for a few more minutes until crumbs are brown. Serve with cream or whipped topping. Six servings.

Mr. and Mrs. Kenneth Clark of Rotan and their two children were week end visitors in the home of Mr. Clark's parents, Mr. and Mrs. Kenneth Clark, here with Delta Gulf. On Sunday all drove to Sonora to visit the Clarks' daughter, Mrs. Maxine Sorrelle, who is employed at the hospital there.

Operation Heartbreak -

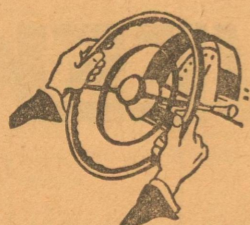

"What can I do to help?"

Hardened highway authorities choked as they read this desperate appeal in a grieving mother's letter. It was about a new plan to reduce traffic accidents she had just read in her newspaper. Her son, riding with a 15-year-old licensed driver, had been killed in 1952. In her anguish and sorrow and the aching void in her family circle, her first thought was for other mothers. She felt she must do something to save others from that endless heartbreak which strikes into some 40,000 homes every year.

"What can I do?" she pleaded. "As a citizen I feel that such a plan is most worthy of everyone's consideration. As a mother whose boy was one of 38,000 Americans who lost their lives, I will whole-heartedly enlist to recruit others—to put such a plan into effect."

Must other mothers and fathers be so tragically shocked into a life-saving crusade to stop this killing on the highways? Not if you do your part in the way you drive. And you can join community projects to make streets and highways safer, too. A citizenry sick and ashamed of this reckless, heedless, unnecessary killing could contribute much to saving thousands of lives.

Think safety—talk safety—drive safely!

SLOW DOWN—LIVES ARE IN YOUR HANDS!

News From Our Neighbors

Absences To Be Costly

Unauthorized absences of children from school may become costly for the parents of Menard youngsters in the future. Eight complaints have been filed with County Judge Jas. W. Scruggs in the past few days. All were filed by Henry Davis, school attendance officer.

Judge Scruggs said the parents of the children involved will be tried unless the youngsters begin attending classes promptly. Upon conviction, parents are subject to the following fines: First offense \$5; Second offense \$10; Third offense \$25.—Menard News.

Explore For Minerals

A truckload of black ore, which may contain a heavy content of manganese, has been shipped from Mason County to Deming, N. M., where it will be ground and assayed for commercial possibilities. The rock was taken from the Pat Rogers ranch, being located in a creek bed by Dr. Douglas Rowe who has been exploring for minerals in Mason County. . . . Dr. Douglas Rowe, who has been exploring for minerals in Mason County, was injured in an explosion yesterday which resulted in the loss of his right eye. The accident occurred on the Carlos and Dayton Capps ranch near Pontotoc about 11 a. m., a delayed blast being responsible for the accident, according to reports.—Mason County News.

More Cotton Allotted

In a telephone call received here Wednesday it was learned that cotton acreage for Concho County had been increased 7,098 acres, thus allotting some 36,000 acres for the planting of cotton in the county this year.—Eden Echo.

Snakes for a Cafe

Fresh rattlesnake steaks for a San Antonio restaurant are being provided by a snake-catching crew which has been working on ranches near Mertzon for the last few days.

Three brothers, C. E. Jelly and Raymond Caulder, and R. D. Ross, all of Robert Lee, caught 200 rattlesnakes during three day's work. The reptiles were driven from caves with chemicals and then captured alive. The snakes will be delivered alive to the San Antonio restaurant man.—Robert Lee Observer.

yesterday visited Permian Basin Pipeline Company's \$3,000,000 carbon dioxide removal plant in Pecos County, which is now on the line.

This marks the completion of the entire \$42,000,000 construction program of Permian Basin Pipeline Company which kicked off in June of 1952. Permian's pipeline system, built in the Permian Basin of New Mexico and Texas, includes four compressor stations, one located in Lea County, New Mexico, and three in the Sprayberry Trend of Texas, two dehydration plants, one sulphur removal plant, gasoline plant, carbon-dioxide removal plant and 234 miles of pipeline.—Fort Stockton Pioneer.

Shooting At Junction

Tragedy struck quickly Tuesday at the close of a calm day, leaving two dead from gunshot wounds in this little town once noted for its gunplay.

Rafael Castillo, 29, put a .45 automatic shot through the chest of Mrs. Diane Lopez, 29, and then turned the gun on himself, eye witnesses said. He died instantly. Mrs. Lopez died about two hours later in the Kerrville hospital. The shooting occurred at the OK Cafe on North Main Street near the city limits, about 5:45 p. m.—Junction Eagle.

Scholastics Up

Ozona's scholastic census showed a gain of 23 over last year's total, according to a final report made by Mrs. H. W. Chandler, who recently completed the annual count. This year's scholastics total 910 against 887 last year. On the basis of this year's per capita allotment from state school funds, the increase will mean a gain of \$1,564 to local school funds. — Ozona Stockman.

Water For McCamey

The City Council of McCamey met in special session on Feb. 19 for the purpose of publicly opening and reading bids submitted for the drilling of the new water wells for the City water department. All bidders were present with the exception of Clyde Ash and James Cooper.—McCamey News.

Students Injured

Bill Baldwin, University of Texas student and son of Mr. and Mrs. J. A. Letsinger, and two companions from Eldorado escaped serious injury Saturday night in an auto accident near Taylor.

Baldwin was treated for face lacerations and a sprained arm, and was able to return to school Monday. Frank Edmiston of Eldorado was cut about the face and Truman Biggs, also of Eldorado, escaped uninjured. Edmiston and Biggs are also students at the university.

The accident happened when Baldwin, in whose car the three young men were riding, drove into a ditch to avoid collision with a truck. Damage to the car was estimated at \$200.—Devils River News

Dr. and Mrs. M. G. Holcomb and daughters Sandra and Ronda Ann of El Paso were here during the week end conducting business and visiting friends. They are former Eldorado residents.

Mr. and Mrs. Jess Koy have gone to Monahans and Odessa with their horses, and expect to spend several days there visiting and conducting business.

A new resident of Eldorado is Jack Ball, of Tulsa, who has been transferred here with Hewgley Drilling Co.

First Baptist News

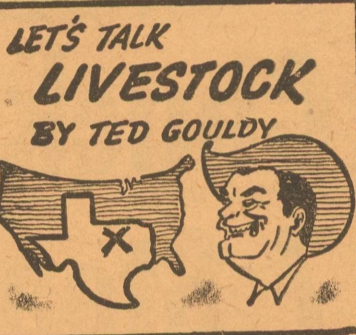

The program presented by the young people Sunday evening was an inspiration to all of those present. We have been hearing from them at different activities lately. It makes us want to hear more.

The Senior Banquet will be held at the church Friday night at 7:00 o'clock. A good program has been planned by those working toward the evening's entertainment. Dr. Frank Royal of Abilene will be the principal speaker.

This next Sunday evening, Mar. 7, the pastor will start a session of the pastor's class at the mission. The study will consist of "What Baptists Believe and Why." It will continue for several Sunday evenings.

From all indications, dust storms and church attendance do not go together. But, then those who remember the time it rained in Eldorado (1400 B.C.) say that rain and church attendance do not go together.

Sunday school attendance:
First Baptist 216
First Mission 49
Mexican Mission 17
Go to church somewhere next Sunday.

The thundering hooves of cattle going to market again reached beyond the hundred thousand marker Monday. Twelve major markets reported over 120 thousands cattle and calves, this was 34,000 above the same date a year ago.

It was enough to weaken prices on virtually all cattle and calves. The continued dry conditions in much of the West and the Southwest was putting a damper on the stocker trade, too.

Fed steers and yearlings and stocker cattle and calves wound up around \$1 lower, some sales off more and some off less, at Fort Worth. Cows were largely steady due to good shipper and small

packer demand, but some late sales were 25 to 50c off. Bulls averaged 50c lower. Killing calves ruled steady until later in the day and they weakened somewhat in line with other kinds.

At Ft. Worth good and choice fed cattle drew \$17 to \$22.50, while common and medium kinds drew \$12 to \$17. Fat cows mostly \$10 to \$11.50, a few smooth heiferish kinds higher. Cannors and cutters \$8 to \$10.50, some above and some

blewo that. Bulls mostly \$10 to \$13.50.

Good and choice fat calves drew \$16 to \$20, and lower grades \$10 to \$15. Stocker calves and yearlings of desirable kinds \$15 to \$19 and stock cows \$10 to \$12, a few higher.

Hog trade at Fort Worth Monday followed another of those weird patterns, where opening sales were just steady and trade picked up and butcher hogs closed

50c higher. Top Monday was \$27 and \$27.25. Sows drew \$21 and \$24.

The run of 7,300 sheep and lambs was largest of the season at Fort Worth. New top price on new crop milk lambs was \$24.50. Good and choice milk lambs at \$23 to \$24.50, and the lower grades \$15 to \$21. Good and choice shorn lambs, drew \$18 to \$20.25, the latter figure a new high for the season on clipped lambs. Woolled fat lambs topped at \$22.
