

BERLIN GIVES HITLER ROARING WELCOME

Populace Lays Flower Carpet For Fuehrer

BERLIN, July 6 (AP)—Adolf Hitler came back from his conquests today to ride across a vast carpet of flowers and hear the tumult of a welcome such as Berlin had never seen before.

The proportions of this homecoming were Napoleonic—the press, in fact, in an article written by Hitler's own press chief, Dr. Otto Dietrich, compared the Fuehrer to both Napoleon and Caesar.

I have hidden behind many times—at Nurnberg party conventions, when he entered Danzig last September, when he returned victorious from the Austrian Anschluss. The distinguishing feature was the complete abandon with which the population cheered, waved flags and cried "heil."

I had a feeling that those hundreds of thousands who lined the streets were happy, at long last, to have a chance to blow off steam. No one, unless he happened to stand before the chancellery when Hitler got there and saw the wounded veterans of Hitler's campaigns, lined up in a place of honor below his balcony, would have thought Germany still was fighting a war.

Thousands had brought flowers, despite the order that they must not throw them in the Fuehrer's car. The police had them piled in the streets and, a few minutes before Hitler's train pulled into the station from the west, uniformed Hitler boys and Hitler girls scattered them eagerly from curb to curb.

Cabinet ministers, military and naval and party leaders rode in the triumphal parade, headed by the Fuehrer.

There even was Dr. Hjalmar Schacht, who once plotted Germany's financial collapse, and the most philosophic Alfred Rosenberg. Hitler did not speak, either at the station or at the chancellery. He made two silent, smiling appearances on the chancellery balcony.

There was this other outstanding impression of my drive: The realization that Germany still has enormous reserves of manpower for her fight on England.

RUSSIA MASSES TROOPS FOR POSSIBLE DARDANELLES DRIVE

BUDAPEST, July 6 (AP)—Reports of continued Russian troop movements in Bessarabia and along the Persian frontier reached Balkan capitals tonight, leading military circles to wonder if Russia is considering an eventual drive on the Dardanelles, with a diverting move from Persia.

Hungarian reports said engineers of the Red army have been hurriedly converting Rumania's former Bessarabian railways to the wide Russian gauge in order to facilitate troop transport southward.

New French Naval Losses Reported

GRENOBLE, France, July 6 (AP)—The French government assembled every weapon at its command today to defend the last remnants of its fleet from the unceasing British pursuit, and a period of a strange, unequal naval warfare between the bitterly estranged former allies seemed clearly foreshadowed.

Both Germany and Italy freed France temporarily from the armistice obligation to disarm in the Mediterranean—so she could fight the British navy—and even as this decision was taken it was acknowledged that two more French warships had gone to the bottom.

The 1,968-ton gunboat Rigault de Genouilly was torpedoed without warning, the French said—off Algiers, and the 1,267-ton destroyer Frondeur was sunk by two British cruisers in a two-hour engagement off the island of Crete.

On the other side of the ledger of violence between ancient friends now turned enemies, however, was a report that the 26,500-ton French battleship Strasbourg had run the British guntlet and arrived safely at Toulon.

James E. Ferguson will speak in behalf of Mrs. Ferguson at Corsicana Friday and Cleburne Saturday. Last week Ferguson took pot-shots at Mrs. Ferguson's opponents, particularly O'Daniel.

Jerry Sadler scheduled five speeches every day next week. He plunged into his campaign last week, storming East Texas with his hillbilly band and a denunciation of the transactions tax once proposed by O'Daniel, and a presentation of his own plan for natural resources taxes.

At Waco Friday night, Ernest O. Thompson was applauded when he said he would veto sales tax legislation every time it came to his desk as governor. He assailed O'Daniel's record in office and his war record.

Both Thompson and Harry Hines have stressed the need for strong leadership in Texas because of the troubled world situation. Hines criticized O'Daniel for "reducing the effectiveness of the state police, highway patrol and rangers by cutting their appropriation."

O'Daniel severely criticized the system of overlapping boards and commissions in the state government, referring to it as a system of "oligarchies" without responsibility. He assailed the "ding dong daddies" feasting at the state political pie counter, and said financing of social security is still the paramount problem before the state.

Casual Slaughters

Chapter One—MORNING RIDE
A quail, followed by a brood of little ones, scurried across the bridge path ahead of us and disappeared in a thicket of scrub oak. Adams' black mare danced and tossed her graceful head, flinging her bit in a purely feminine flutter. Birds were beginning to call brightly back and forth about the state of the August morning.

Army Asks Compulsory Training

(By The Associated Press)
WASHINGTON, July 6—The war department has decided to urge compulsory military training, it was authoritatively reported today, but will recommend changes in legislation now pending in congress.

The army high command is to give its opinions to a senate committee next Tuesday and at that time, authoritative sources said, will approve in principle the Burke-Wadsworth bill providing for registration and selective training of all men from 18 to 45.

One change, it is understood, will be a suggestion that those in training receive \$21 a month—the initial pay of volunteer professional soldiers—rather than a nominal stipend of \$5 a month or so.

Word of the high command's attitude on this major armament issue shared attention among defense developments with reports that the navy was organizing a sea-going version of Germany's "Panzer" divisions.

Congressional sources said the nucleus of this division would be three merchant ships, for which the navy is negotiating with the maritime commission, to be used as marine troop ships.

The plan is, informed legislators said, to keep these ships fully equipped with tanks, artillery and other armament at all times—"like a fire engine," one congressman put it—so that they could sail just as soon as the marines could be marched aboard. The time usually consumed in assembling and loading heavy equipment necessary for an expeditionary force thus would be saved.

The ships for the proposed marine corps "minutemen" would be stationed in the Caribbean, probably at Guantanamo, Cuba, where they would be within easy striking distance of Latin America, it was explained.

A high-ranking house democrat said privately that the secretary of the United States to be ready and able to act swiftly if its enforcement.

Among other defense developments, Maj. Gen. John F. Williams, chief of the national guard bureau, reported to the war department that the guard was better equipped than it had been in the peacetime history, and it "stands ready."

Secretary Hopkins announced that the census bureau was compiling data on three principal ingredients of defense—manpower, industrial capacity and natural resources.

Col. F. C. Harrington, WPA commissioner said that the Works Progress Administration expected to have from 800,000 to 900,000 persons employed on national defense projects by fall.

Aluminum covered steel reinforced conductors have been selected, and plans for the project are up for approval. Cooperation of land owners was urged so that the engineer may start in line to be soon as specifications are received, consumers may start wiring their homes.

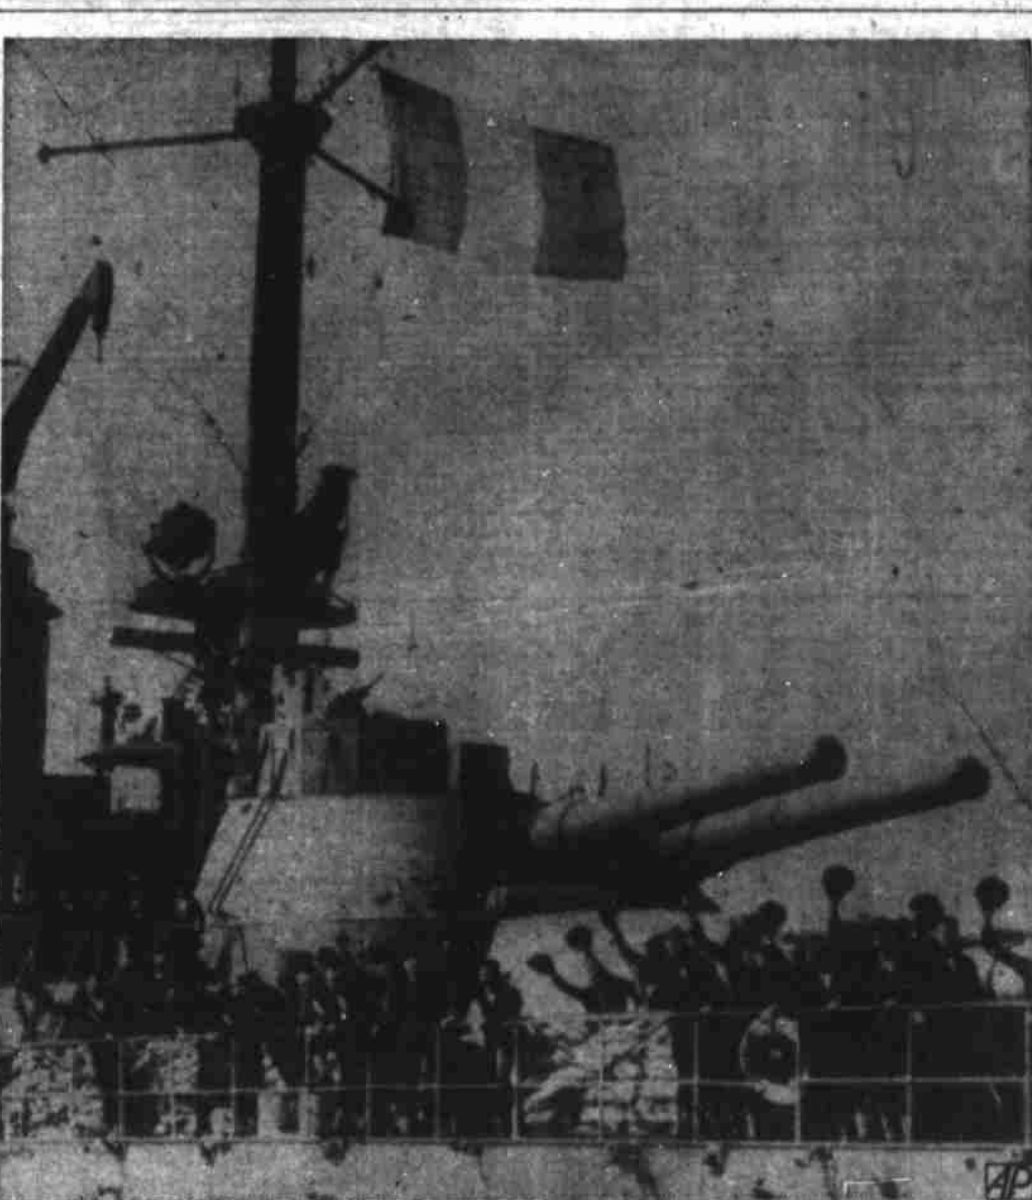

Immigration officials on the Mexican side of the International line said American tourists and race fans would be permitted to cross the border as usual.

Bars and night clubs, police indicated, would be closed at midnight and remain closed until Monday.

WEST TEXAS—Partly cloudy Sunday and Monday with showers over northern portion Sunday night and Monday. Warmer Sunday.

EAST TEXAS—Partly cloudy Sunday and Monday. Gentle to moderate northerly to easterly winds on the coast.

BRITAIN HAMMERS TWIN BLOWS AT FRENCH, ITALIAN FLEETS

BRITISH SALORS ABOARD FRENCH BATTLESHIP—This picture, sent by cable from London to New York, shows, according to the English caption, British sailors aboard a French battleship in a southern port. Note the French flag still flying.

English Army Swelled By New Draft

(By The Associated Press)
LONDON, July 6—British warplanes hammered a double blow at Italian and French seapower today in far-ranging attacks.

At home, she enrolled another 300,000 men in her constantly expanding armed manpower, poised now for invasion.

"Successful action" by naval and Royal Airforce planes against Italian warships in Tobruk, Libya, was announced by the admiralty.

Naval mop-up planes made sure that the damaged French battleship Dunkerque was out of the war for good.

They revisited Oran, Algiers, where the British attack on the French fleet Wednesday crippled the Dunkerque and forced her aground, and scored six bomb hits on the 8,500-ton dreadnaught.

"It was considered essential," the admiralty explained, "that the ship should be in no condition to take part in the war in case she should fall under enemy control."

The foundation of British hopes for successful resistance against invasion, now regarded as inevitable and imminent, is in the vast army she is training.

Dipping into her reservoir of men in their 20's, Britain called her 1909 class—30-year-olds—and before the end of the month three more groups will have registered.

The 1908 class next Saturday, the 1907 class a week later and the 1906 class two weeks later.

Potentially, this is an army of 4,000,000 men, which Britain expects will be stronger than the Maginot Line which failed France.

"You can't buy safety with bricks and mortar," Prime Minister Churchill put it today. "You can buy it only with men."

Blow and counter-blow in the air continued as the apparent curtain-raiser to the battle of Britain while their former French allies kept vigilant guard to prevent them from falling into German or Italian hands.

Bombing planes struck today at Gibraltar, attacking Britain's Mediterranean "rock" for the second time, and made day and night raids over Britain.

The air ministry, however, disclosed that British fliers also had scored, attacking the German naval bases of Kiel and Wilhelmshaven, the ports of Cuxhaven and Hamburg, the railway junction city of Cologne, and two airbases in German-held Holland.

Clement R. Attlee, deputy government leader, cautioned that nation tonight that it soon will face the "full onslaught of our enemies but declared: "I believe we shall meet it with courage and defeat it in whatever form it may come."

The government announced "big new orders for war materials" have been placed in the United States and Canada amounting to "many millions of pounds" and "by far the largest ever sent to America and Canada by the ministry."

Destroyer Sunk, Other Ships Escape Trap

GRENOBLE, France, July 6 (AP)—The French government assembled every weapon at its command today to defend the last remnants of its fleet from the unceasing British pursuit, and a period of a strange, unequal naval warfare between the bitterly estranged former allies seemed clearly foreshadowed.

REA Names Stanton Man

O. B. Bryan, Stanton, was named Saturday by the Caprock Electric Cooperative (Howard-Martin county REA unit) as supervisor of the projected concern which will shortly furnish power to rural sections in this area.

At the same time, the board indicated that headquarters for the REA would be set in Big Spring as soon as office quarters are acquired.

Riggs Shepherd, Courtaey, announced that he had received formal notification from Washington of a \$144,000 allotment for the original 155-mile project which will serve 260 people with an additional 40 potential users in line to be served by minor extensions on a second job.

Funds for a second project, which would be set up for as much as 175 miles, are in light and it was considered possible that they would be earmarked and held until Oct. 1 for the Caprock Cooperative by the REA.

Already 20 additional miles have been signed and satisfactory progress has been made on a 35-mile spur through southern Howard county to serve Elbow and possibly Lomax. Shepherd said that the original line would cut through the northern half of Howard county and the eastern half of Martin county.

Aluminum covered steel reinforced conductors have been selected, and plans for the project are up for approval. Cooperation of land owners was urged so that the engineer may start in line to be soon as specifications are received, consumers may start wiring their homes.

Immigration officials on the Mexican side of the International line said American tourists and race fans would be permitted to cross the border as usual.

Jews Disloyal, Says Rumanian

(By The Associated Press)
BUCHAREST, July 7 (Sunday) (AP)—"Minor incidents" which have been ended were disclosed officially today to have occurred in connection with the transfer of Jews and other minority groups to Russian-occupied Bessarabia.

The announcement by the interior ministry followed the accusation last night of Premier Ion Gurguta, head of Rumania's new pro-Nazi government, that Jews had been disloyal in the country's "last hour of trial."

"Thecession of Bessarabia and, in particular, the transfer across the Prut river into Bessarabia of the Jewish minority and certain communist elements was effected with some minor incidents," the ministry's communique said.

"These were, however, liquidated through energetic measures and the tact of our officials."

Of the alleged Jewish disloyalty Gurguta declared: "We will never forget..."

Iron Guard leader Horia Sima, minister of culture in the new government, forbade Jewish actors and musicians to perform in public and prohibited the playing of Jewish songs and music.

REVIEWING THE
BIG SPRING WEEK
BY JOE PICKLE
It has long since been demonstrated that Big Spring's park system is one of its greatest assets. Certainly the remarkable turnout Thursday for all-day activities and the amphitheatre program confirmed this. Scores of people from surrounding towns came over to picnic and to remain for the entertainment. Big Spring hopes they enjoyed their stay and will soon pay another neighborhood visit.

FD ADVANCES TERRITORY PLAN

American Idea Is Suggested

HYDE PARK, N. Y., July 6 (AP)—President Roosevelt suggested today that Europe and Asia apply the principles of the Monroe Doctrine as a means of reaching an agreement on the disposition of possessions of conquered nations.

He took the position that European, Asiatic and American nations should get together in their respective spheres and settle problems involving territorial possessions among themselves, instead of allowing a conquering power to make the decisions.

The president relayed his views to reporters through his secretary, Stephen Early, following a 30-minute talk with Secretary Hull last night on the implication of the exchange of notes, involving the interpretation of the Monroe Doctrine, between Germany and the United States.

Backing up Hull's pronouncement that the United States would continue to enforce the doctrine, Mr. Roosevelt let it be known through Early that should Germany lay claim to any French, British or Dutch possessions in this hemisphere, the United States would make no effort to take them over.

Rather, all the American nations would be asked to decide whether they should be placed under a mandate or held in trust in some manner until they could be returned to their present owners.

The president thought European and Asiatic nations should make similar joint arrangements. The views advanced today by the president threw no direct light on his attitude toward a Japanese Monroe Doctrine for Asia. Presumably, however, the position of the United States on that score was covered by Secretary Hull when he said yesterday that the Monroe Doctrine did not resemble those in other areas which are alleged to be similar, but which seem to be only the pretext for conquest.

ROOSEVELT TO CONFER WITH FARLEY ON CONCLAVE PLANS

HYDE PARK, July 6 (AP)—Franklin D. Roosevelt and James A. Farley are to face one another across a library desk at the temporary White House tomorrow in a conference of top-rank political importance.

It will bring together two men whose names will be placed in nomination at the democratic national convention.

White House officials said that "Big Jim," the democratic national chairman, merely wanted to talk over with "the boss" plans for the opening of the convention in Chicago July 15.

But persons who know Farley well had little doubt he was sitting also at a showdown on the third term issue.

The president already has more than two-thirds of the convention delegates pledged or semi-pledged to vote for his renomination, and many politicians have predicted that he would be drafted.

Farley has a handful of delegates pledged to support him for first place on the democratic ticket and has insisted that his name will be presented to the convention.

N'east England Is Nazi Bomb Target

LONDON, July 7. (Sunday) (AP)—German planes flew in relays over a northernmost area of England today after an undetermined number of civilians had been killed in two German air raids late yesterday.

Several of the latest wave of raiders were spotted by searchlights, and anti-aircraft fire drove them back seaward.

OLD STATE BAR ASSOCIATION REPLACED BY MODERN UNIT

FORT WORTH, July 6. (AP)—The 50-year old Texas Bar Association passed into history tonight and the new State Bar of Texas rose to its place as more than 2,000 lawyers brought their three-day convention here to a close with a banquet.

A series of talks calling the lawyers to new responsibilities during the present world crisis was addressed during the afternoon by an address by Congressman Mattson Sumners.

"The problems of this hour have not come to give us a great president or a great congress, but a great people," Sumners declared. "This is a high peak of history, one of those rare times when people and governments stand at the judgment seat."

"This will be the greatest generation which ever stood on this earth or else we shall sink into oblivion for ages. The hope of the ages is centered on you people to see that men shall remain free as God intended they should."

Sumners, who spoke with deep emotion, was accorded a two-minute standing ovation at the close of his remarks.

Earlier, the lawyers had assembled in five separate luncheon groups.

In an address which followed the ceremony dissolving the old association and setting up the new, Associate Justice W. O. Douglas of the U. S. supreme court urged lawyers to return to public life and public service and thus resume their "traditional role of leadership in public affairs."

THREE ARE HURT IN PARK CRASH

A head-on collision with a city park culvert, after their car had been crowded from the road, left three local youths in a Big Spring hospital Saturday.

Injured were Ruth Ann Dempsey, who suffered severe lacerations about the neck, face and hand; Jack Graves, who sustained a slashed wrist and cut tendon as well as head bruises; and Percy Salony, who had scalp cuts and bruises. Osborn Newton, fourth occupant of the car, escaped with minor hurts. The injured were taken to the Malone & Hogan Clinic-Hospital.

Accounts of the mishap, given by those in the car, said that they were crowded from the road at the intersection of the road and the culvert, throwing the car into the ditch. Others managed to free themselves, but were discovered later by James Cain in the ditch. Police were seeking the other car.

Market Shows Upward Trend

NEW YORK, July 6 (AP)—Leading stocks today ended a typically apathetic Fourth of July holiday market week with the majority pointing slightly upward.

As in yesterday's session, most traders elected to continue their outting until Monday in view of scant speculative inspiration to be found in either domestic or foreign news.

Turnover for the two hours totaled 131,870 shares, smallest since the brief post-Independence Day.

The Associated Press average of 60 stocks held an advance of 1 of a point at 49.3 on the day, but was unchanged on the week.

Among the day's modest share gains were U. S. Steel, Bethlehem, General Motors, Chrysler, United Aircraft, Lockheed, Anaconda, Southern Pacific, Loft, Brooklyn-Manhattan Transit, Montgomery Ward, Sears Roebuck and N. Y. Omnibus. A shade off were Douglas Aircraft, Westinghouse, Allied Chemical, Johns-Manville and U. S. Gypsum.

Railway bonds scored further improvement in the loans department. Commodities were uneven.

New Hospital Adds To City's Position As Medical Center For Mid-West Texas Area

Cowper Clinic To Observe Open House

Another institution which will play its part in the pattern that is rapidly making this city a medical center for the area will observe open house from 2 p. m. to 6 p. m. today.

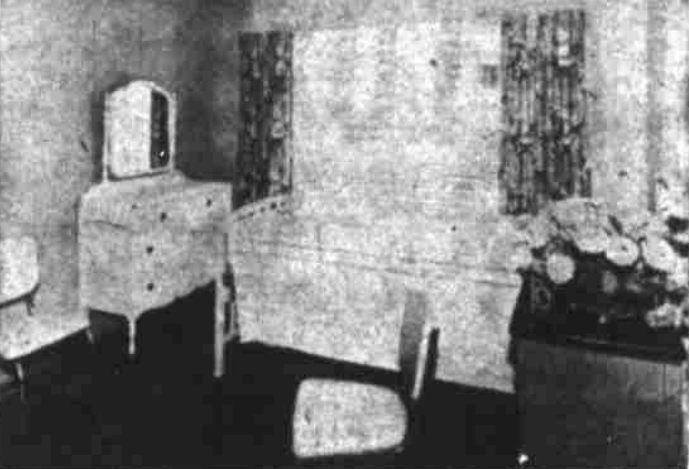

It is the Cowper Clinic and Hospital, located at 15th and Gregg streets.

Built along modern designs, the structure carries a white stucco finish on brick tile, is newly furnished throughout, has linoleum floors, Temlock (semi-soundproof) walls, and bright appointments.

The building has a spacious reception room, flanked by two doctor's suites and a treatment room. At one end of a projecting hallway is the operating room, with sterilizing room and doctor's dressing quarters adjacent. Next to the ambulance entrance is the emergency treatment room. At the other end of the hallway is the physiotherapy room with units for basal metabolism, shortwave diathermy, surgical intothermy, infra-

OBSERVING FORMAL OPENING TODAY is the Cowper Clinic and Hospital, located at 15th and Gregg streets. In the upper view is shown the hospital front. Center, left, is Dr. R. B. G. red and ultra violet rays, oxygen therapy and trial eye lens tester.

Off the main hallway are the nursery with five bassinets, eight patient's rooms, a nurse station, kitchen and restrooms. At the head of the hallway is the X-ray and fluoroscope room, adjacent to the complete laboratory.

Head of the hospital is Dr. R. B. G. Cowper, a graduate of the University of North Carolina and the University of Pennsylvania Medical school. He interned at the Philadelphia General hospital (oldest in the nation) for two years on a rotating assignment.

Coming to Big Spring in July of 1934, he was associated with Dr. C. E. Bivings until September of the following year when he opened his own office in the Petroleum building. Now his offices will be at the hospital building.

On the staff, still incomplete, are Frances Douglass, daughter of Mr. and Mrs. J. C. Douglass, laboratory technician; Mrs. Josephine Fuller and Mrs. A. W. Hunka, nurses; Mrs. Pearl Bruton, bookkeeper and receptionist. Cook and porter are Matthew and Mae Butler. The hospital is a member of the group hospitalization unit and is listed by the American Medical association.

NYA COUNSELOR TO BE HERE MONDAY

Rod B. Merritt, NYA youth counselor, will be in Big Spring Monday for two and a half hours beginning at 10 a. m. to discuss NYA employment with Howard county youths.

He will open his conference at 10 a. m. All youths interested in the program are urged to see him. Others interested in making application for NYA placements may do so at the city hall or at the concessions building at Moss Creek lake.

Dr. A. A. Berg, said her condition was "good."

No End In Sight In East's War

SHANGHAI, July 7. (Sunday)

The Chinese-Japanese war went into its fourth year today, with the end not yet in sight.

Chiang Kai-Shek, Chinese generalissimo, says that if the war is ending, it is ending in Japan's defeat.

Japanese military sources say "this remnant government at Chungking is collapsing. The war already is over."

Best available estimates place the total dead and wounded in the three-year war at three millions—about two million Chinese and one million Japanese. China now has about 2,000,000 soldiers on the Asiatic mainland, and Japan has about 1,000,000.

Declaration Of War Advocated By Texas Prof

AUSTIN, July 6 (AP)—Immediate declaration of war on Germany and Italy by the United States was seriously advocated today by Professor J. L. Mechem of the University of Texas.

In an interview, the husky 46-year-old student of international affairs pointed to the French-English naval action at Oran and observed that:

"If defeated, England may deliver its fleet to Germany. British chances hinge on large scale American aid and only by full mobilization under a declaration of war can aid be sent in time."

Mechem, who directed the state school's recent "western hemisphere war problems conference," is a native of California, a graduate of the University of California and a former instructor at Columbia university. He came to the University of Texas, where he teaches government subjects, 15 years ago.

Ships and planes, not troops, should be rushed to England, he stated, adding he regarded the landing of forces in Europe an impossibility.

Culberson Campaign In Basin Pushed By Former Resident

Campaign for Olin Culberson for railroad commissioner is being pushed in the Permian Basin area by John Rose Williamson, former Big Spring resident, who worked here Saturday in behalf of the Austin man.

Culberson, said Williamson, is a man who came up from the ranks as a county clerk in Hill county where he uncovered and finally got indictments which put two men in prison and returned the county \$285,000 lost in road bond graft. He was elevated to county judge but retired undefeated, only to be drafted into service by the state

gas utilities division, earned \$100,000 in refunds and annual savings of \$572,000 to gas consumers in addition to launching cases that could eventually dwarf previous accomplishments.

Subsequently, continued Williamson, he was called by the railroad commission to smash the hot oil racket in East Texas, got two convictions and eased the situation at Conroe while earning the reputation of complete honesty.

His hobby as a volunteer fireman interested him in insurance rates, and it has estimated that his work in this direction resulted in \$2,000,000 annual savings to policy holders. Many of the larger state papers have given him unqualified editorial support, added Williamson.

Martin County Old Settlers Meet July 9

STANTON, July 6.—The Martin County Old Settlers reunion is looming to inject new activity into the slack summer season here. The event is scheduled for July 9.

On this occasion each year local citizens who have resided in the county for 20 years or more get together and "welcome home" those who lived here a score of years ago.

It is usually a gala occasion that produces many old tales lifted from their shelves in the minds of pioneers, dusted and polished for a new parade. Many are the anecdotes, but they lose none of their fascinating interest.

This year will be a memorable one for the reunion, old timers believe, since it will be the first meeting of the organization in the new city park. A new custom also in order is that of having a big

barbecue rather than the usual picnic baskets.

All food, including the meat, will be bought by a committee and will be financed by contributions from members of the pioneers organization. This, housewives will avoid spending a day in the kitchen in order to spend another at the reunion.

Invitations already have been mailed to some 250 out-of-county persons, and a varied program is

being arranged. This happens to be the 11th annual reunion, the association having been organized in 1929 by the old timers.

Demos Meet At Birthplace Of The New Deal

CHICAGO (UP)—Sentiment overhangs the Chicago Stadium where democrats hold their national convention, for the deliberations are being held in the same hall where the new deal was born eight years ago.

The phrase "New Deal" was heard for the first time when Franklin D. Roosevelt shattered precedent and flew from Albany, N. Y., to accept the nomination after he had won it on the fourth ballot.

Here, too, occurred the dramatic night balloting while James A. Farley battled to put Mr. Roosevelt over the hump of the new de-funct two-third rule.

Many of the delegates and party leaders who were present in June, 1932, will be back on the convention floor this year, again prepared to shout for Mr. Roosevelt.

But of the candidates who opposed him for the nomination eight years ago, most have dropped from prominence in the party. Most prominent among them were Alfred E. Smith, Vice-President John N. Garner, George White, Melvin Traylor, Harry F. Byrd, James A. Reed, "Alfalfa" Bill Murray of Oklahoma, Newton D. Baker and Gov. Albert Ritchie of Maryland.

Balloting began late on June 30 and continued throughout the night. Mr. Roosevelt had a commanding lead but could not gather the necessary two-thirds vote. After the third ballot the convention recessed to 9 a. m. the next day.

The Roosevelt backers worked feverishly during the intervening hours before the next session. They had their reward when California was called on the fourth ballot.

Sen. William G. McAdoo stepped to the rostrum and announced to a wildly cheering crowd that California was switching its votes from

Garner to Roosevelt. The nomination was assured.

The next day Garner was nominated for vice president by acclamation.

Mr. Roosevelt had been waiting in the governor's mansion at Albany. When word of his nomination was flashed, he and his wife and two sons boarded an airplane for Chicago to accept the nomination. Always before the nominee had awaited formal notification by a committee.

In his triumphant appearance before the convention, millions of voters as well as many delegates heard his voice for the first time as he proclaimed "a new deal."

Uptrend Noted In Southwest Bank Survey

DALLAS, July 6 & — Increased employment and payrolls, enlarged distribution of merchandise, and improved outlook for the livestock and agricultural industries are recorded in the monthly business review of the Federal Reserve bank of Dallas, released today.

Department store trade in the principal cities of the eleventh district was very active, but consumer buying slackened in the latter part of the month. Nevertheless, aggregate sales increased 11 per cent from April to May, which was more than the average seasonal gain, and slightly above those in the corresponding month last year, the review says.

During the first five months of 1940, distribution of merchandise averaged three per cent higher than in the corresponding period of 1939.

Employment and payrolls in Texas, which had shown an upward trend the preceding three months, expanded further in May and continued at higher levels than a year ago. The bureau of business research of the University of Texas reports the number employed in May was two per cent higher than a year earlier and payrolls were up four per cent. The most pronounced gains have occurred at manufacturing establishments producing food, forest and iron and steel products.

The outlook for the agricultural and livestock industries in the district was improved further by heavy general rain in May and the first half of June. Cool nights has retarded growth of summer crops and washing rains in some areas caused crop damage and will necessitate considerable replanting. Cotton is in fair to good condition, but insect damage is apparent in South and south-central Texas. Damage to plants and bolls has been light thus far.

The review quotes the department of agriculture that the wheat crop in Texas showed further improvement in May, but in New Mexico the estimated yield was reduced. Indicated production of wheat in Texas June 1 was placed at 26,463,000 bushels, nearly 300,000 bushels higher than the May 1 forecast, but still 1,200,000 bushels under the 1939 crop.

The Texas oat crop showed further improvement in May and June 1 conditions were considerably higher than on the corresponding date last year. Texas corn is in fairly good condition, but warm, dry weather is needed to stimulate growth.

June 1 conditions of livestock and ranges were substantially above those a year ago and higher than the ten-year average for that date. Prospects for summer grazing are favorable in virtually all areas except in portions of South Texas and in local areas elsewhere. This June 1 this year, shipments of cattle have averaged nearly one-fourth smaller than in the corresponding period of 1939. Movements of cattle and calves to northern feed lots and pastures have also been small, reflecting the favorable range condition.

Montgomery Ward

Savage Shuts Out Wardmen, 10 To 0

Standard's Oilers trounced Montgomery Ward, 10-0, behind the four-hit pitching of Bobby Savage Friday evening at the city park to keep in the thick of the fight for second half Major-City softball league honors.

Savage struck out 11 of the Red-tails and allowed only one man to get as far as third base, beating Lonnie Evans in what started out to be a pitchers' duel.

Too, he did his part in the Oilers' offense, collecting a brace of hits in three tries and scoring a fifth inning run.

Evans held the Oilers well in hand through three rounds but Hart, Morgan and Doyle found him for hits in the fourth when he gave up a total of four runs.

In the evening's opener, Anderson's Devils rapped the Carnetti's Sportsmen, 11-1.

Jimmy Daylong, youthful Anderson hurler, surrendered but four base hits, two of them by McDonald.

Newsom Wins 12th In Row

DETROIT, July 6 (AP)—The Detroit Tigers continued storming after the American League pennant today by whipping the St. Louis Browns twice, 11 to 2 and 2 to 0, as Buck Newsom pitched his twelfth straight victory in the opener and Johnny Gorsica hurled a five-hitter in the night cap.

Dick Bartell aided the cause along in the opener with a home run while Billy Sullivan's triple and two singles produced three runs.

The Tigers were limited to four blows in the aftermath by John Niggeling but was afforded poor support by his mates, who committed four misplays.

Red Kress, filling in at third base for Pinky Higgins, and Pete Fox drove in the Bengals' runs.

Oilers Seek Win Over Abilene Aces Today

Debate To Get Underway At Baron Park; Patrons' Tax 30, 15 Cents

Trying to snap a losing streak that has extended over three games, the Big Spring Standard Oilers line up this afternoon, 3 o'clock, at Baron park against the Abilene Aces.

The Oilers opened their season last week, losing a 6-1 decision to the Hamlin General Crude line in Hamlin, since have lost two other games played on the local diamond to the mighty Hamlin outfit.

The Aces in four tries have never succeeded in decloaking the Hamlin.

Howard Green leads the Abilene team into action. He brings a well respected lineup to town.

The Abilene battery will be composed of either Jennings or Reeves in the box and Bud Dixon behind the plate. Carly Hays will be at first, Barney Barahall at second, Albert Dameron at short, Boots Beatty at third and Norris Anderson, Burns McKinney and Harold Persky in the gardens.

Reds Bridle Cubs Behind Derringer

BOSTON, July 6 (AP)—Tot Pressnell stretched the Brooklyn Dodgers' winning streak to seven games today with a superb three hit performance that tamed the Boston Bees, 2-0.

Chet Ross, with a double and single, and Sebastian Sisti were the only Bees to touch Pressnell for hits.

Paul Erickson hurled eight hit ball for the Bees, giving up his only runs in the eighth on singles by Pee-Wee Reese and Dixie Walker.

Brooklyn . . . 000 000 020-2 8 1
Boston . . . 000 000 000-0 3 0

Jones Beaten In S'Finals At Abilene

DOUG JONES

ABILENE, July 6 (AP)—Iverson Martin of Fort Worth will defend his Abilene Country club invitation golf title Sunday against Russell Crownover of Stamford for the second straight year.

Martin took out J. P. Bohannon of Abilene, 3 and 2, in the semifinals after blistering the course in the morning with a five-under-par round to eliminate J. T. Mammert of Breckridge, 3 and 2.

Crownover beat Doug Jones of Big Spring by the same margin in the semifinals. In the morning round, Crownover defeated T. J. Willis, one up, while Jones finally subdued Frank Kimbrough of Abilene, one up on the 20th hole.

Report Farley To Head Yanx

NEW YORK, July 6 (AP)—The New York Times says that Postmaster General James A. Farley will retire from national politics shortly after the democratic national convention to become head of the New York baseball team and its affiliated clubs.

Farley will not accept re-election as chairman of the democratic national committee and also will resign soon as postmaster general, the newspaper says.

Former Governor James M. Cox of Ohio was named as Farley's principal backer in a projected purchase of the Yankee baseball empire from the estate of the late Jacob Rupert. The newspaper said the price was said to be between \$3,500,000 and \$4,000,000.

The Times said it had "definite knowledge" of Farley's intention to retire from leadership of his party and forego the running of another national campaign. The information did not come directly from the cabinet member, the paper added.

A spokesman for the Jacob Rupert estate said today no person in a position to buy the Yankee club had set down and talked business with him.

(Farley himself, who returned today from Chicago, was not available for comment.)

The postmaster general was represented as probably intending to retain his post as democratic state chairman for New York.

The report also said that Edward Barry, now head of the Yankees, would be retained to perform his present duties with the title of vice president.

Yanks Again Lose, 8 To 7

PHILADELPHIA, July 6 (AP)—Frank Hayes hit a double off the left field screen to score teammate Benny McCoy with the winning run for an 8-7 victory over the New York Yankees here Saturday.

The blow came in the tenth inning with one out.

Red Ruffing opened on the hill for the Yankees but retired in favor of Bump Hadley after four innings in which the A's collected five runs. Hadley was charged with the defeat.

Babe Dahlgren hit two homers for the Yankees. Charley Keller also hit for the circuit.

Hayes, in addition to his double, had three singles.

Giants Bow To Philadelphia

NEW YORK, July 6 (AP)—The New York Giants slipped six games off the pace today by bowing to the bottom place Philadelphia Phillies 8-2 while the Brooklyn Dodgers and the Cincinnati Reds were improving their positions with shut-out victories.

The Phillies' big inning was the seventh when they chased across four runs at the expense of Paul Dean.

Mickey Witke and Tony Cucinello drove in New York's runs.

Jordan, Elrod To Clash In Net S'finals

Merry Jordan and J. W. Elrod were scheduled to meet this afternoon in the remaining semi-final match of the ladder tournament of the Big Spring Tennis association at the city park.

Jordan earned the right into the next to last round by maneuvering past J. H. Brown, 6-4, 6-4, while Elrod was slapping a 6-1, 6-2 reversal on Jimmy Myers.

In the other bracket Jo-Jo Elrod, heavy favorite to cop the honors, has moved all the way into the finals. He routed George Tillingshat, last year's No. one man, 6-1, 6-1, Friday.

Jo-Jo previously had humbled Avery Falkner, 6-0, 6-0, while Tillingshat was routing Marvin House, Jr., 6-3, 7-5.

Adolph Kiefer Smashes Mark

SANTA BARBARA, Calif., July 6 (AP)—Adolph Kiefer of Chicago won on a record breaking romp today, bettering four marks in one race as he swam to an easy victory in the 110-yard backstroke event in the National A.A.U. men's outdoor swimming and diving championships.

Kiefer swam the 110-yard in one minute, 4 7/10 seconds. Two days ago he established the record over this distance at one minute 5 8/10 seconds.

He was officially clocked at the 100 yard mark at 58 1/10 seconds. His American record, set in 1939 at Columbus, O., was 58 5/10 seconds for a short course. The world's long course record, set by Al Vandeweghe in 1935, was one minute, 2 seconds. Kiefer's time for the 100 meters today was one minute, 4 7/10 seconds. He held the world's record for 100 meters at one minute 4 8/10 seconds. It was made in a short pool at Detroit in 1935.

TO RECOGNIZE FIGHT WINNER AS CHAMPION

AUSTIN, July 7 (AP)—The Texas boxing and wrestling commission today followed its established policy in announcing it would recognize the winner of the Henry Armstrong-Lew Jenkins bout in New York July 17 as world welterweight champion.

Jenkins, a Texan, was recognized by the state commission as world lightweight champion after scoring his third-round technical knockout over Lou Ambers in New York May 10. The National Boxing Association of which Texas is a member does not recognize Jenkins as the titleholder.

ERRORS COST SENS VICTORY

WASHINGTON, July 6 (AP)—Capitalizing on three Washington errors, Boston produced four runs after two were out in the ninth inning today and defeated the Senators 5-3.

Dom DiMaggio figured very prominently in the attack, collecting a triple and single and driving in two runs.

The rally came at the expense of Ken Chase, who gave up pineapples, one less than his team got off two Boston hurriers.

Carl Travis accounted for the first two Washington runs in the initial round.

The Sports Parade

By Hank Hart

The 1940 edition of a Foran semi-pro baseball team will appear soon, according to Tommy Yarbko, who is ramrodding the nine. The aggregation will be backed by a Foran oil company. . . Yarbko is lining up some of the finest semi-pro ball players in this neck of the woods and will have the outfit ready to play in about ten days. . . They open drills Monday afternoon on the Foran diamond. . . An early test with the Big Spring Standard Oilers is being talked. . . Two new tennis nets have been purchased by the city and are available at the swimming pool. . . Officials of the Big Spring Tennis association are now planning toward an August invitational tournament. . .

Cecil Smyly, the Clovis Pioneers' new second sacker who led the WT-NM league in hitting three years ago, talked contract with Jodie Tate at Lamesa before signing to Howard Taylor's preferred terms. . . Smyly has been in the East Texas league but wasn't able to hit. . . He's in the cleanup spot for the Pioneers. . . Snooks Carroll, the former Baron who came back to the WT-NM league to try to catch on with several teams, among them Midland, has gone to Abilene of the Cactus league for a tryout. . . Snooks would like to try his luck with a league franchise here in 1941. . . The Lamesa Lobos apparently miss Al Bernot, little backstop who was with Big Spring in 1938-39. . . Al went out of the lineup with a broken finger June 14 and the Lobos have won but seven games since that time. . . Incidentally, AP's all-star southern team for the big July 20 battle in Amarillo would be Ben Drake, Lubbock, first base; Steve Niedziela, Lubbock, second; Don Wynn, Odessa, short; Joe Becker, Lamesa, third; Mal Stevens, Lamesa, Ed Schweda, Lubbock, and Sam Scalling, Midland, outfielders; Lefty Lucas, Midland, Pat Patterson, Lamesa, Will Ramsdell, Odessa, and Gene Stack, Lubbock, pitchers; Eldon Muratore, Odessa, catcher; and Jodie Tate, Lamesa, manager. . . Jay Hancy, an outfielder with Lamesa the first part of the season, has returned to Lamesa and will fit into Tate's plans again. . .

Collier Parris, Lubbock scribe, submits his idea of WT-NM league all-star southern team, viz: pitchers, Lloyd Patterson, Lamesa, Gene Stack, Lubbock, Will Ramsdell, Odessa, and Red Hay, Midland, catchers, Vince Castillo, Lubbock, and Ross Moore, Midland; first base, Tom Wagner, Lamesa; second, Eddie Guynes, Lamesa; short, Don Woin, Odessa; third, Carl Cox, Odessa; outfielders, Red Hood, Lamesa, Rube Naranjo, Midland, and Ed Schweda, Lubbock; utility infielder, Steve Niedziela, Lubbock. . . Wagner probably won't play in the game if chosen. . . He's been released by Tate. . . Too many experienced men. . . Ben Bernot, who tried out here as a first sacker the first part of the year, is playing semi-pro ball at his home in Yakima, Wash., along with John Sodian, ex-Big Spring hurler. . . Durwood Horner, former Texas Christian university football and baseball star, has caught on with Midland as a pitcher. . .

T. Rego Sells Interests To Odessa Sportsmen

ODESSA, July 6 (AP)—Tony Rego sold his West Texas-New Mexico league franchise, team and equipment to a group of Odessa sportsmen for an unannounced sum today.

Leftfielder Stanley Bolton was named Oiler manager.

The sportsmen said they intended to purchase new players for the seventh-place club.

WITT LOOKS TO A TOUGH RACE

CLEVELAND, July 6 (AP)—Oly Witt trudled out of the Cleveland Indians' wigwam today with his book of superstitions and opined:

1—"I was a 'good' omen, all right," for the Tribe to lead the American league at the season's halfway mark;

2—"The Detroit Tigers are his biggest worry in trying to pilot Cleveland to its first pennant in 20 years; and

3—"I look for this race not to be decided until the last week of the season."

"I'm superstitious, all right," declared the talkative Mr. Witt, familiarly known to the fans—and sometimes to himself—as "Oly."

"It's a good omen to be in first place July 4 and I'm not ashamed to admit that."

"I believe in almost every superstition in the book. When I see a white butterfly, I just know that means good luck, that we're going to win. But that black butterfly—how I hate to see that one come around."

When a lady bug lights on men, I know we're going to win, and 90 per cent of the time it comes out just as I thought.

"Why, I've seen a guy eat white fish at noon," continued Oscar. He'd win that afternoon, and decide it was the white fish. And he'd order white fish for a month without stopping."

And how, sir, about that pennant race?"

"The club I really fear more than any is Detroit. If Gehring and Bartell can hold up all year they're going to be pretty tough. They have plenty of power and good pitching."

GLIATTO HURLS REBELS TO WIN

DALLAS, July 6 (AP)—Sal Gliatto returned to the Dallas line-up tonight and hurled the Rebels to a 4 to 1 victory over the Beaumont Exporters, although the little leaguer pulled a muscle in his shoulder in the sixth and was forced to give way to Earl Overman.

Tribe Rallies To Clip The Chisox, 7-3

CLEVELAND, July 6 (AP)—Helo for four frames by respected Bill Dietrich, the Cleveland Indians drove him from the mound in the fifth with a six-run attack today and coasted to a 7 to 3 victory over the White Sox to keep their grip on first place.

A total of eight double plays were executed during the two hour bout, four by each team.

Dietrich gave up only three hits during the fifth but he was wild and the Tribe grasped all opportunities to score.

Mel Harder, starting Cleveland hurler, pitched shutout ball until the ninth when he was driven from the hill by Johnny Allen finished.

Has "Two Chicks In Every Pot" Given Way To A New Theory?

By AMY PORTER
AP Fashion Writer

The slogan for prosperity used to be "A chicken in every pot," but now it's "A fur coat on every back"—every feminine back, that is.

Some furriers double their aspirations, making it "Two fur coats for every woman; one for sports, one for dress."

In a gloomy world, the hopeful furriers are little rays of sunshine. Visit the August fur sales and you'll understand why. Furs are cheaper, more plentiful and more attractive than ever before.

Federal reserve figures for the six months beginning last August show that fur sales in many stores increased from 40 to 70 per cent. The national increase for the entire year was 28 per cent. This spring fur sales held their gain with a 40 per cent increase over last year, and forecasters say furs will do even better this fall.

The rising tide of sales has wiped out price barriers. Very cheap furs are selling in unprecedented quantity. And so are very expensive ones. The girl with her first job feels abused if she, too, can't have a fur coat. She can have, at from \$50 to \$100, a choice of coney, muskrat, kid, caracul paw, mouton, and many others. The mink-and-sable ladies wear an extra fur coat for sports wear.

Three big reasons for the success furs are having a better styling technical improvement in the manufacturing processes, and the development of controlled breeding of fur-bearing animals.

A few years back, the standard style for all fur coats was a boxy wrap-around with a clumsy shawl collar. Now every clothing style trend is made up in fur-fitted raincoats, pleats, bow-tie collars, yokes, puffy sleeves, hooped backs, squared shoulders.

This new styling is possible because improved processing of skins has made furs lighter, more pliable. Raccoon, beaver and seal are three heavy furs they've sheared down for lightness.

Improved processing, in turn, makes many cheaper furs available. Louisiana muskrat, for instance, is poor in color, but it wears well. Now it can be dyed to fashionable colors. "Backyard" pelts—guano, mouton, even dog—are lifted into smartness through new processing.

If, for the first time, you find a luxury fur within your price range, you can thank the breeding farmers. They now produce heavily silvered foxes, once a rarity, at low prices. Dark mink, too, is easier to come by, now that it's bred to color.

Still another factor in fur success is the sudden popularity of short fur jackets. Women love them because they're wearable with day and with evening clothes. And they cost less than long coats.

This fall, furriers expect every girl who hasn't one to buy a short jacket. And the girls who bought jackets last year should be in the market for a long fur coat, they think.

Finally, installment plan selling has spread even to the best shops, inviting you to spread the price of purchase over several months.

Don Hutto Gives A Dutch Supper For Vance Lebkowsky

And bright flowers, ping-pong tables, a putting green and horse-shoe stakes on a cool lawn, Mr. and Mrs. Vance Lebkowsky were honored with a Dutch supper by Don Hutto in the home of Mrs. Obie Briaw.

Local Farmers Due Saving On Interest Cut

A saving of approximately \$28,300 per annum as the result of legislation just enacted by congress affecting interest rates on federal land bank and land bank commissioner loans was foreseen here Saturday by Ira J. Driver, secretary-treasurer of the Big Spring National Farm Loan association.

The savings to farmers and ranchers, results in the continuance of the 3-1-2 per cent temporary interest rate on first mortgage land bank loans for two years ending June 30, 1942. During the period the interest rate on first and second mortgage land bank commissioner loans will be reduced from four to three and a half per cent. Both type loans originally were written at rates averaging about five per cent.

At the present there are about 487 Howard county farmers holding land bank and commissioner loans aggregating \$1,288,628. Thus, on an amount as large as this, considerable saving results through shaved interest charges.

The view that the saving will amount to an addition to the farmer's net income was expressed in Washington by A. G. Black, governor of the farm credit administration.

"The ultimate purpose of the reduced interest rate on land bank and commissioner loans is to help farmers keep down their fixed charges and thus leave more income for the retirement of debt principal, or to meet necessary operating and living expenses," said Black. Result of this, he ventured, would tantamount to increased purchasing power with all its beneficial ramifications.

Hub Harper and grandson, James Sims, are expected to return from Cleo Sunday where they have been visiting Harper's parents, Mr. and Mrs. J. R. Harper, for a week.

Thunder Is Injurious, Kansas Woman Finds

WICHITA, Kas. (UP)—There is an old saying that lightning may be dangerous, but that thunder never hurts anybody. But, like all axioms, it is not always true. If you don't believe it, just ask Mrs. Floyd Foster.

Mrs. Foster was lying in her bed asleep when a violent thunder storm struck the city. The claps of thunder were so sharp that the reverberations rattled windows and shook the walls of houses.

When the storm struck, Mrs. Foster woke up, but she thought there was no danger. She was about to go back to sleep again when a large chunk of plaster, shaken loose by the thunder, struck her in the face.

She suffered cuts on the face and had to be treated by a physician. Her baby, asleep in a crib near by, was not injured.

Georgia, Source Of "Two Square" Daily, Popular At County Jail

There's one thing about being in the Howard county jail—the food here is varied and substantial and not the traditional beans, bread and water.

Charged with the responsibility of preparing two meals daily—breakfast and supper only because doctors prescribe only two meals for inactive persons—is Georgia Mae Collins, buxom and jovial negress who is proud of her record of having never had a late meal in the 17 years she has been on the job.

Prisoners prudently hold back a little food from their two meals for odd-time snacks, warning them on a makeshift stove they rigged up. Sometimes they get food from friends on the outside.

The ration is balanced but not fancy, lest someone anticipate getting in jail just for the eats. Eggs are served thrice weekly along with salt pork bacon, coffee, cream, occasionally doughnuts, rice and oatmeal. Georgia alternates from stew meat, baked potatoes, Pinto beans, potatoes, etc., to similar diets which come in a blue moon include steak. Syrup and bread are standards.

It was a red letter day last week when inmates of the bastille got steak, hot biscuits, gravy and creamed potatoes. Sunday usually brings veal loaf and potatoes with a good dessert. Invariably, stewed dried fruit is on the menu.

Prisoners appear to do well on the food, and what with the regular cleanings and literal disinfectant baths the place receives, stay healthy. There has been no record of a contagious disease in eleven years, says Georgia, but if one of the prisoners is ailing, she gives him special attention for a time.

Because Georgia never saw a man that didn't like sour pickles, she dishes them up liberally. The same goes for onions. Sauerkraut and Wieners are in popular demand and baked meat hits the spot better than the stewed variety.

Most of the food is bought in wholesale lots, but items needed in smaller quantities are bought from first one and then another retail store. Last year the county jail food bill was \$1,688.67 which averaged about 35 cents per prisoner per day.

Motorists in the United States have paid more than \$18,000,000 in gasoline and other automobile taxes since 1912.

Bothering Man's Means Of Income

AF Feature Service

INDIANAPOLIS—Way Bother, Inc., makes money by doing just that for customers who don't want to.

Richard T. Miskimen, 38, president, secretary-treasurer and all the vice presidents call the new business a "thoroughly diversified personal service."

His prospectus, on the kind of fine bond paper ordinarily reserved for wedding invitations, tells just how diversified. Why Bother offers, for a price, to:

- Shop, mail Christmas cards, sit up with baby, put the out cut or mow the grass;
- Answer the telephone, remind you of a luncheon date, meet a train or hold your place in line outside a crowded moving picture theatre;
- Get you a servant, an errand boy, a ticket to a show, a ticket to Oklahoma, publicity, flowers or a drink; and
- Plan a party or write you a speech.

"We will be happy to do, and will do," the latter sweepingly sums up, "anything for you at any time."

Miskimen, a University of Illinois man and an oneword newspaper reporter, says his friends forced him into business.

"I got tired of doing things for people and not getting paid for it," he explains. He has a one-room office, a full-time stenographer, an errand boy, three unemployed college men and some 20 servants on call.

Miskimen's biggest job was rubbing out a woodpecker that was waking up a suburban neighborhood every daybreak. A man with a shotgun went out three mornings before he killed the bird. The fee was \$2.

How does he like his work? "I'm havin' a riot!" Miskimen chortles.

Pioneer Bridge Club Meets For A Party

STANTON, July 6 (Sp) — The Pioneer Bridge club met recently in the home of Mrs. Ernest Epley. Miss Guyrene Mott served as hostess in the absence of Mrs. J. C. Mott.

Those present were Mrs. A. H. Houston, Mrs. E. A. Houston, Mrs. Fillmore Epley, Mrs. George Bond, Mrs. Bertha Boyd, Mrs. Sam Wilkinson, Mrs. Ernest Epley, Miss Lela Boyd and Miss Mott.

YI-YI, BUT GOLDBERG HAD A REAL DISPLAY FOR SHOP WINDOW

LOUISVILLE, Ky. (UP)—It was fortunate the morning was a holiday and downtown Louisville was almost deserted.

Abel Goldberg, clothing, greeted two customers. The first selected a suit of clothes. Goldberg, pointing to a dressing room, told him to try on the trousers.

Then Goldberg turned to the other customer. A few minutes later, he saw the first man emerge in new trousers from store front.

"Where did you change?" he asked. The customer pointed to the open door leading to the street show window.

It was openly predicted that there would be many "minor incidents," but government officials said again that there would be no revolution.

General Almazan and President Lazaro Cardenas, who is backing General Manuel Avila Camacho as his successor, exchanged recriminations in newspaper statements. Saloons were ordered closed and a complete shutdown of street car, bus and taxiab service is expected tomorrow—a shutdown which Almazan people asserted was ordered by the unions to keep Almazanists from reaching the polls.

Almazan has promised a "fair deal" to labor, protection of employers from "unscrupulous" labor leaders, and cooperation with United States capital.

Avila Camacho's platform is a continuation of Cardenas policies, which have included the seizure of land estates for communal operation by peasants.

Population Up

FORT WORTH, July 7. (AP)—Fort Worth's 1940 census was tentatively set at 177,748 in a preliminary report today by W. O. Gatton, district census supervisor. The figure, subject to revision and expected to be increased when enumeration of absentee residents is completed, represents a gain of 8.75 per cent over the city's 1930 census total of 163,447.

The Week

(Continued From Page 1)

ment and took the American flag display to be the last word. But two youngsters (caught returning for their cache) had lifted the

article that was due to zoom into the air, circle, and then burst in a mighty array that spelled "Happy Fourth of July—Good Night."

Long one of the most air-minded cities in the state, Big Spring now is really air conscious. Starting of a CAA advanced unit helped the cause along. Aviation enthusiasts then were treated to the sight of 18 planes stopping overnight on a flight to the west coast. Out for more development, E. V. Spence, city manager, and J. H. Greene, chamber of commerce manager, left Saturday for Washington to seek a new WPA allotment for the port.

If you think you have worries, you ought to be a candidate. Already the poor fellows have paid out \$4,500 in campaign expenses, eaten a ton of pies, have tried every corn plaster, shaken countless hands, and still wonder if they're among the one of five who will make it to the promised land.

With water in Moss Creek lake have come many questions about private campsites. Last week city officials, declaring they were swamped with paving, water-works, airport, garbage collection and many other problems, indicated they could not promise that any sites would be leased before next year. Of course, too much popular demand might change that.

This city has been made headquarters for the Caprock Electric Cooperative (Howard-Martin county REA unit) and work is due to start soon on stringing 158 miles of lines through the rural section. This will cost \$144,000, no small amount within itself. But it is reliably reported that an even greater amount has been earmarked for an additional 175 miles of line if signed by Oct. 1. Business, as well as farmers, should feel immediate benefits from the project.

Local school leaders are hoping that the \$22.50 scholastic apportionment will stick. It represents a 50 cent increase, which means little more than \$1,700 additional for Big Spring alone. It is shameful to admit it, but this would pay salaries of two teachers in the lower brackets here.

"God" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 7.
The Golden Text is: "Blessing, and glory, and wisdom, and thanksgiving, and honour, and

power, and might, be unto our God for ever and ever. Amen" (Revelation 7:12).

Among the citations which comprise the lesson-sermon is the following from the Bible: "Who shall ascend into the hill of the Lord? or who shall stand in His holy place? He that hath clean hands, and a pure heart... He shall receive the blessing from the Lord, and righteousness from the God of his salvation" (Psalms 24: 3, 4, 5).
The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "God's being is infinity, freedom, harmony, and a boundless bliss. Where the spirit of the Lord is, there is liberty. Like the architects of yore, man is free to enter into the holiest,—the realm of God" (page 481).

Detachment On Display Today

A demonstration unit of the United States army, a Fort Clark, Tex., detachment on an extended tour of West Texas points, goes on public exhibition at its camp site in the rodeo grounds today.
The unit, to take part in a Preparedness Day parade here Monday evening, arrived in Big Spring Saturday afternoon and will remain over until Tuesday morning.
The public is invited to review the detachment during its stay. The 5th cavalry band, traveling with the group, will give a concert beginning at 7 o'clock this evening on the courthouse lawn.
The Monday parade will begin promptly at 6 p. m. The contingent will be officially greeted by Mayor C. C. Dunham. Judge James V. Allred, former governor, is scheduled to speak on the courthouse lawn as a part of the program.
Officials of the American Legion and Veterans of Foreign Wars organization have cooperated in planning toward the program along with Sgt. Troy Gibson, local recruiting officer who headquarters in El Paso. R. E. McEwen will serve as master of ceremonies.
The detachment is composed of 46 men, including 26 members of the band, and six cars, two of them modernized scout cars. A third scout car was to join the group today.
The unit is equipped with the most modern weapons, including 50-calibre anti-tank and anti-aircraft guns, 30-calibre guns, sub-machine guns and automatic rifles.
The contingent, in charge of Lt. J. J. Caurson and W. T. Robinson, will pay visits to Lubbock, Plainview, Amarillo, Pampa, Childress, Sweetwater and Odessa before returning to its base.

Most RAF Raids Are Ineffective, Germans Declare

BERLIN, July 6. (AP)—DNE, official German news agency, said tonight that of 191 British air raids on Holland, 90 per cent of them were on cities and villages "where no military objectives are located."
(In Amsterdam earlier, Air Corps Gen. Friedrich Christiansen, German military commander in Holland, had charged that the character of British bombing attacks proved that Britain was obtaining information from Dutch territory.)
DNE's statistics showed the raids had killed 103 persons, injured 47, destroyed 83 homes, two schools and three hospitals and damaged two churches and 176 dwellings.
In seven cases, the agency said, British fliers bombed and machine-gunned trains with civilian passengers.
