The board of education meets tonight in call session and will probably consider other applications at that time.

Workmen are running cement for curbs around the new cinder track surrounding the football field. Contract has been let for a new 420-capacity grand stand on the north side of the field. Workmen have started the foundation for the new extension to the negro school building. These are projects okayed recently by the board of education, to be financed from funds on hand.

ARRIVES IN STATES

Wayne Dickens landed on the West Coast recently after having been with the Marines 10 months overseas. He has been in service since January, 1954. He called relatives shortly after he landed in the States.

Post Script

Some Schleicher County farmers have been dry planting cotton and grain sorghums, in the hope that there will be more moisture soon. If the cotton growers didn't turn their cotton allotment back by the 10th they have to plant.

Bernard Carr left a "teaser" ad for this week's issue, when he left, with Mrs. Carr, on an extended vacation trip to the northwest recently. He is expected home in a week or two.

This paper is now carrying an ad from the Corral in Sonora. Capitalizing on the crossroads location of the town, the owner is opening a store specializing in a complete line of hunting and fishing equipment. It is expected that the store will pick up quite a lot of business from residents of the area as well as from motorists headed for river and lake fishing spots.

Jesse Robinett, a member of the Groesbeck graduating class of '55, is now on the job as new employe at Cameron's. He was reared in Groesbeck and comes to Eldorado to learn the Cameron lumber business—so his work to date has been of a general nature.

Coffee drinkers were inconvenienced a day or two recently while Eldon Calk installed an entire new fountain in his drug store. As is usual in such a case, moving out of the old fountain, with counter and stools, and moving in of the new, was a major undertaking. Eldon has had a lot of compliments on the swanky appearance of the new layout, and fountain business continues to be brisk.

The annual date for requalifying as a notary public closed on June 10th, and a check at the county clerk's office shows that 29 renewals and two new applications were handled in this county.

New applications for notary public can be handled at any time, according to the county clerk.

City Passes Resolution On Sale Of Block If Voters Approve

At the regular City Council meeting Tuesday night a resolution was passed ordering an election to be held July 5 at the City Hall pertaining to the closing of Hill Avenue from Highway 277 one block north west to the first intersection, a block already fenced in. The city proposes to sell this portion of this street to the school with the city retaining easement for utilities. This action has been taken to give the school control of the street for expansion of school facilities and for the safety of the school children.

The city council authorized L. B. Burk to attend a Tax school sponsored by Texas League of Municipality and the University of Texas to be held at Texas Tech at Lubbock June 20-21 and 22.

TWO WILDCATS ABANDONED AS FAILURES IN COUNTY

Ellenburger wildcat tests in southeastern and northern Schleicher County have been plugged and abandoned.

The southeastern Schleicher prospect, Southern Minerals Corp., No. 1 D. C. O. Wilson, four miles southwest of Fort McKavett, has been plugged and abandoned after recovering no shows on a drillstem test in the Ellenburger.

A drillstem test in the Ellenburger between 5,035-55 feet for an unreported time recovered 10 feet of drilling mud, no shows of oil, gas or water.

Operator then deepened to 5,088 feet and ran electric logs. No test was taken at total depth.

Earlier the project had unloaded 860 feet of oil on a two-hour drillstem test between 4,895-902 feet in the Ellenburger. Recovery was three feet of oil and 20 feet of muddy salt water.

Top of the Ellenburger was picked at 4,880 feet, minus datum point of 2,733 feet.

Location is in 6-A-Indianola Railway survey, Abst. 923.

Standard Oil Co. No. 1 Sarah Jane Hall, Schleicher County wildcat five miles north of Huldale and 3/4-mile north and slightly east of the Huldale, North (Pennsylvania) field, has been plugged and abandoned. It had no shows in tests in the Strawn and the Ellenburger. It was bottomed at 6,930 feet in the Ellenburger, which had been topped at 6,860 feet, minus datum point of 4,512 feet.

Lloyds Get Water!

Leonard Lloyd now has water production for irrigation purposes in paying amounts on his place, and is busy watering 40 acres of cotton, much to the surprise, envy and admiration of the entire community.

The well came in at a depth of 580 feet, and was immediately equipped with a butane engine. To date production is around 300 gallons a minute, but the Lloyds hope to improve the flow up to 500 gallons. Dirt ditches lead the water to the furrows in the field.

The 40 irrigated acres are all in cotton which is up to a good stand.

The Lloyds consider the project an experiment and will not know how profitable the system can be until they have put in an entire growing and harvesting season.

This is the second well for that locality—Nick Jurecek brought in the first one last year.

Others who are toying with the idea of irrigation include Clyde Keeney and Glen and W. T. Parker.

Keeney is having a well drilled on his place just south west of town and it will be watched with interest as work progresses. Parker Brothers had a well dug on their place in Bailey Ranch last spring, but the volume of water recovered on test was not considered large enough for irrigation.

First Baptists Close Vacation Bible School With Friday Program

A program and presentation of certificates Friday night concluded the Vacation Bible School at the First Baptist Church. A large number of adults were present to see the program and the children's work.

The total enrollment was 115, with an average attendance of 83.8. There were 31 faculty members who assisted in some capacity with holding of the school, with the pastor, Rev. J. C. Hancock, serving as principal of the school.

A good vacation Bible school, with excellent cooperation from faculty and pupils is reported.

Mile-A-Minute Road Connects West Texas With Gulf Coast Area

Austin. — A brand new mile-a-minute highway has just been completed connecting the dry lands of West Texas to the blue waters of the Gulf Coast, D. C. Greer, state highway engineer, announced this week.

The latest link of this route to be completed is a scenic road connecting Austin and Llano which has been designated as Ranch-to-Market Road 93, he said. This new section skirts the Highland Lakes and cuts through the heart of the picturesque hilly ranch lands. Motorists are given a glimpse of Lake Travis and Granite Shoals with connections to each of these lakes. Roadside parks and turnout facilities are provided for picnicking and viewing points of interest, Greer continued.

This route, which is the longest ranch-to-market road in the state, begins at Llano and traverses 65 miles southeasterly, connecting with U. S. 290 at Oak Hill, eight miles west of Austin. This shortens the distance from the Gulf to north west Texas by approximately 11 miles. The route should prove popular for short recreational drives into the "hill country" and provide another scenic loop for recreational tours. It opens another avenue for ranchers to quickly and economically transport their produce to market and will contribute to both the rural and urban economy in Central Texas, he said.

R. M. 93 has a wide, smooth pavement and very few sharp curves. It was completed and opened to traffic in May at a cost of \$2.7 million, Greer concluded.

The Texas View

By PRICE DANIEL
U. S. Senator

The Texas City disaster of 1947 is being related and relived before the Judiciary Committees of the Congress as they consider legislation to compensate the families of 570 persons who were killed and the 3500 who suffered injuries. Senator Johnson and I and Congressman Clark Thompson of Galveston have introduced bills for this purpose. Our bills were passed by the House and Senate last year, but the two Houses did not agree upon the final form of the legislation before Congress adjourned.

The United States Government has a responsibility in this matter because the ammonium nitrate fertilizer which exploded in Texas City harbor was manufactured and shipped according to government specifications and under the supervision of our government as part of our foreign aid program. This particular fertilizer was destined for France. Both the House and the Senate committees last year were convinced that the government officials were negligent in not warning those who handled this fertilizer of its explosive characteristics.

Citizens of foreign nations injured in their person or property by reason of the acts of agents of our country are immediately compensated for their damages. The most recent example of this is the payment made to Japanese citizens injured as a result of the hydrogen bomb tests in the Marshall Islands on March 1, 1954. The United States on January 4, 1955, paid \$2,000,000 in damages to the Japanese government for the persons who suffered injuries as well as for the fishing interests which suffered damage as a result of many tons of fish proclaimed unfit for consumption because of radioactive content. We can do no less for our own people.

Roy Smith of Killeen and 14 other members of the Central Texas Military Affairs Committee were in Washington last week to discuss with the Secretary of the Army methods for the payment of damages to owners of land used in connection with maneuvers held at Fort Hood. Sometime ago Operation Longhorn, one of the largest maneuvers ever held, was conducted at Fort Hood and the surrounding territory. Many of the farmers in the area suffered damages to their land as a result of this activity and payment of damages was very involved and took too much time. At present representatives of the landowners in the area are trying to work out a way which will make it easier for the Defense Department to use this valuable Texas land for conducting the most important practice warfare which is necessary for the training program.

Mr. and Mrs. F. L. Powers and family of Alpine visited last week with Mr. and Mrs. Lum Davis and Mr. and Mrs. W. C. Doyle.

Mr. and Mrs. Wallace Long of San Angelo and Mr. and Mrs. Louie Smith and children of Sonora visited Saturday night with Mr. and Mrs. Russell Donaldson.

Mr. and Mrs. T. E. Donaldson of Calf Creek bought the Wilkerson house and moved into it last weekend. Their son, Sandy Donaldson helped them with the move.

Mr. and Mrs. Russell Turnbow of Barnhart spent the weekend with Mr. and Mrs. W. E. Turnbow.

Eldorado-Divide
Soil Conservation District

"I'm certainly proud of the progress my pasture has made the past year," states Bill Hixson, a co-operator with the Eldorado-Divide Soil Conservation District. Bill has set getting his ranch covered with a stand of good grasses as his main objective. He reseeded some of the bare areas with KR bluestem and sideoats grama. It is really something to see how these young seedlings have come along during the drought. His rangeland has really responded to deferment and proper stocking. Sideoats grama, Texas wintergrass, silver bluestem and many of the other better grasses are showing up in good stands.

Let's not forget that there is still time to plant Guar. This drought-hardy legume will grow during the hot summer months and under adverse moisture conditions. This is just what soil needs to increase fertility. The earlier it's planted the better the results.

Cy Richmond, Area Conservationist, Soil Conservation Service of San Angelo and Yaaqov Orev, Soil Conservation Division, Ministry of Agriculture, New State of Israel, visited the Eldorado-Divide Soil Conservation District supervisors at their monthly meeting on June 3. Mr. Richmond was recently assigned to this area as Area Conservationist and Mr. Orev is in this country studying the soil conservation program. Orev discussed many problems with the board. He has been in this country about a year studying the program in different parts of the country.

Ezra Taft Benson, secretary of the Department of Agriculture, has proclaimed the week of July 24-30 as "Farm Safety Week." Setting aside this week serves to bring to our attention that farming constitutes one of the most hazardous of occupations. The accident rate of farm workers is among the highest of all occupations. Each farmer should give thought to safety measures as the peak work load of the year is rapidly approaching.

Mr. and Mrs. C. A. Pope and son of Andrews and Mr. and Mrs. Clifford Schooley and children of Eldorado are spending their vacation with the women's parents, Mr. and Mrs. Grat Edmiston, at their ranch home in Schleicher County.

Mr. and Mrs. Joe Griffin and boys returned Friday night from Wynn, Arkansas, where they visited her parents, Mr. and Mrs. Yancy.

Mr. and Mrs. Don Strigler of Corpus Christi are visiting Miss Mae Ellington this week. Misses Norene and Thelma Ellington were home for the weekend from Alpine where they are attending summer school.

Mr. and Mrs. Mike Rasmussen of Seattle, Washington, were guests in the home of Mr. and Mrs. L. P. Haynes Thursday night.

George Ochsner, Joe Ed Spencer, Ovid Wade Jr., and Jackie Wade, all employed by a geophysical company at Big Lake, visited home folks Monday.

Judy and Randy Nall of Corpus Christi are spending the week with their grandparents, Mr. and Mrs. M. L. Potter.

Relatives report that Mrs. Daisy Ford is much improved and has been dismissed from the hospital and is staying with her daughter at Lampasas.

Mrs. C. M. McWhorter, Miss Kitty Buchanan and Tom Buchanan are expected home this weekend from College Station where they have been staying with their brother who was seriously ill but is much improved.

Eight Tables of Players Attend "42" Party At Ruth Williams Home

Mrs. Ruth Williams and Mr. and Mrs. Richard Cheatham entertained with a "42" party at the Williams home near Eldorado Friday night. There were eight tables of players and several other guests. After the games refreshments were served. Guests then participated in winding of the 400-day clock on the mantel, after which they signed the guest register. Playing of a record concluded the evening's entertainment.

McGill Is Honored

Tom McGill, resident of Eldorado, a Shell employee since 1929, was honored with a watch and diamond-studded tie pin as gifts at a banquet held recently at the Hotel Cactus.

McGill's first service to the company was as a ditching machine operator on the McCamey-Houston line in 1929. Later he was line rider at Hobbs, New Mexico, then a truck driver at Kinsloe Station. There he became a gauger and engineer.

He has been station engineer here since 1945 moving to the Rancho when it opened.

He has a son Wayne, at Portales, N. M., and a daughter Mrs. Helen Spurgers of Edna.

Guests of Mr. and Mrs. S. W. Frisby were Mr. and Mrs. Paul Brummett, Mrs. Frisby's parents, and Myrtle Brummett, her sister, of Eldorado, Arkansas, who will accompany the Frisbys to Arkansas Friday. They expect to return to Eldorado the following Tuesday after a several-day visit in Arkansas. Another guest in the Frisby home was their son Carey, who is working in Midland this summer.

Sandra Hall, age 13, is at Kerrville for a six weeks' summer term at Kickapoo Kamp.

Recent guests in the home of Mr. and Mrs. D. C. O. Wilson include Mr. and Mrs. Leonard Orymski of Dallas, Mr. and Mrs. Joe Wurzbach and Miss Ruby Kettler of San Antonio, and their son, Duncan Wilson of Fort Worth.

A. T. Tiller, who has been visiting his mother, Mrs. B. F. Gunn, for two weeks, was met here by his wife and her sister, Mrs. Arch Beasley, and daughter Gayle of Dallas last week. They left Saturday morning by car for Dallas where Mr. and Mrs. Tiller will continue their trip to their home in New Jersey by plane.

Kay Granville of Dallas is spending this weekend with Mrs. Ebba Finley.

Weekend guests in the home of Mr. and Mrs. Aaron Steward included Mr. and Mrs. W. J. Steward of San Angelo, Mrs. F. W. Haver Jr. of Colorado, Mrs. Alfred Steward and Mrs. John Austin of Rocksprings.

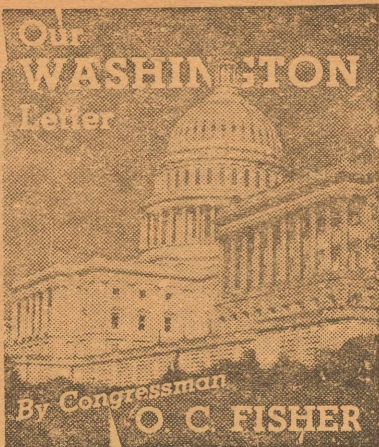

Ann Morris of Lubbock is spending the week with her grandparents, Mr. and Mrs. George Cales.

Mrs. Frank Clarke had surgery in Sonora Hospital Monday.

Mr. and Mrs. Charlie Trigg returned home Friday night from Minnesota where they have been staying with her brother, Jack Hughes, who was under treatment at Mayo Clinic. Mr. and Mrs. Hughes returned home Sunday.

Mr. and Mrs. Howard Derrick returned home Monday from Dallas where they visited all last week.

Mr. and Mrs. R. T. McDaniels and girls of Andrews are visiting in the home of Mr. and Mrs. Delbert Edmiston this week.

NATURAL gas, housing, minimum wage, and postal pay figured in legislative news on Capitol Hill last week, as the Congress turned down the home stretch of a rather mild and docile session. It looks like the session will end about August 1, maybe a little later.

The House committee finally reported out a watered-down Natural Gas bill which outlaws Federal price control of gas before it is sold into interstate commerce. The bill seeks to correct a rather tortuous decision of the Supreme Court in the Phillips case. The bill will have tough sailing, though, and its ultimate enactment is in doubt.

The House and Senate passed a pay raise for postal workers, and the Senate struck a blow at home ownership in this country by pushing through a socialized housing bill calling for Uncle Sam to build 540,000 units and then rent them at nominal rentals. This Senate move conforms with a demand by the Americans for Democratic Action and the CIO Political Action Committee. Public Housers are gushing over the Senate victory, seeing eventual possible victory for their dream for up to 10 million government-owned rent houses.

The Senate also figured on minimum wage, upping the present 75¢ per hour figure to \$1. The House committee has not yet acted. The CIO wants \$1.25. The other day Governor Harriman of New York had a conference with Congressmen from that state, following which the Governor reported: "It was the consensus that this minimum of \$1.25 was necessary to protect the state's industries from unfair wage competition in other states."

The trouble has been, in many areas, that during the past ten years labor has virtually priced itself out of the market, causing industry to move south where they could obtain advantages not available to them up north. This included lower wages. Now, to offset some of this, the unions are in a mammoth drive to push minimum wages upward, and the New York governor very frankly admits the reason for it.

AMONG recent guests from our district have been Mrs. Don McCormick and Donna Beth, of Eldorado.

Mr. and Mrs. Archie Mittel attended funeral services for R. A. Perry at Miles Saturday.

Mr. and Mrs. Roger Luckenbach attended the Luckenbach family reunion at Fredericksburg last Sunday. Mrs. Ben Luckenbach of Hext returned home with them for a visit.

Mrs. Paul Johnson of Brady visited from Sunday to Tuesday with Mrs. C. W. Galbreath and Mrs. H. L. Galbreath.

Billy Galbreath of Sonora visited Monday with his mother, Mrs. H. L. Galbreath.

Bobby Galbreath of Mertzon visited Friday night with his mother, Mrs. H. L. Galbreath.

Mrs. R. C. Edmiston and Babs of Rankin visited relatives here last week.

Telling Off On the Preacher

The following item recently appeared in the Corpus Christi Caller:

The Rev. M. C. Stearns, who has been pastor of the First Methodist Church here for the past four years, and the Rev. Doyle Morton, pastor at Eldorado, have exchanged charges. The Bishop News.

We predict, Editor Newton, that the tales recounted by Methodist brethren in your community are going to grow taller and more colorful in the months ahead. During the past four years, while the Rev. M. Stearns was shepherding his flock in Bishop, the gentlemen of his congregation labored under distressing inhibitions in relating accounts of their forays with pole and line, hound and gun. Their veracity, or the lack of it, had to pass the test of pastoral eyes and ears; for the gentleman and scholar who occupied the pulpit was a week-day disciple of Izaak Walton and a nimrod of no mean ability, himself. Indeed, it was not unusual for the reverend to shed the cloth and take to field and stream like a dedicated Davy Crockett, sans coonskin cap. This first-hand experience gave him a keen and indisputable knowledge of the capabilities of the fishermen among his flock; and they undoubtedly felt constrained to tone down

their stories and reduce their measurements, lest not only St. Peter himself but the near-at-hand, hometown preacher also put a question mark in close juxtaposition to their names. Of course, the reverend, by profession and natural inclination, never displayed any inclination to indulge in hyperbolic stories anent his own alluring ways with catfish, trout, perch, and other members of the piscatorial population. He stayed religiously with accurate measurements and fishing laws; and his fine command of words was evident in his sermons rather than in adjectival accounts of the big one that got away or the sea monster that danced before his eyes. Such scrupulous and tenacious adherence to the truth on the part of the learned pastor placed a terrific obligation upon the shoulders of his flock to do likewise; and consequently, the normally Brobdignagian stories that one might expect to hear from the lips of a Bishop Methodist were painfully and ruthlessly expurated. Indeed, the truest and most modest fishing stories in the world were those related by the Sons of John Wesley during Rev. Stearns' four-year sojourn in Bishop. He had a steady influence on potential Munchausens.

HERE'S HOW . . .

MAKE A SAFETY SWING

A strong safety swing for the baby uses 3/4-inch lumber.

First cut the pieces as shown in the drawing. Exposed edges should be smoothed with a plane.

Waterproof glue should be used at all joints, in addition to screws or nails.

The front seat slat is nailed to the side runners; then add the rear seat slat, allowing enough space for the back rest to fit between the runners. The center slats are then equally spaced.

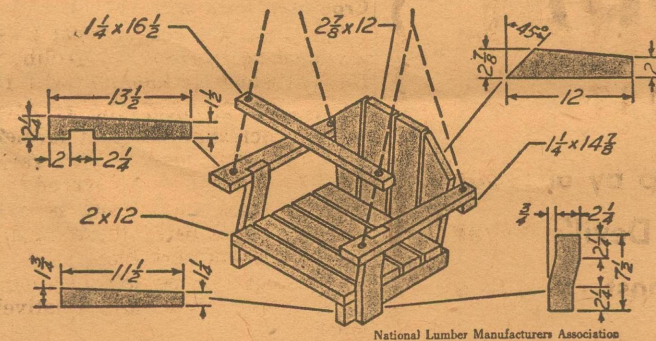

The arm rests and supports and back rest support are then assembled, using screws. The front edge is beveled so that

the back rest will slope about 2 inches backward at the top. Then the arm rest supports are fastened to the runners with No. 4 wood screws, 1 1/2 inches long.

A 1 1/4 by 10 1/2-inch supporting piece, not shown in the drawing, is fitted beneath the rear seat slat and between the runners to support the back rest.

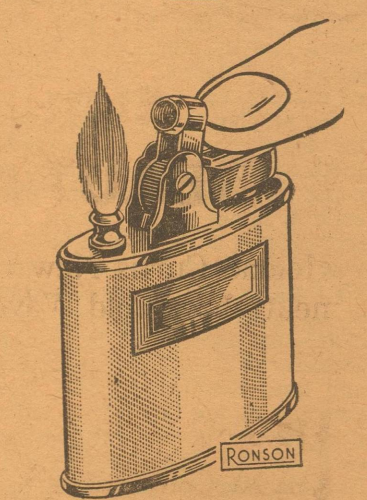

One-half inch holes for the ropes are bored in the arm rests as shown.

The front ropes are threaded through the sliding safety bar. Knots beneath the arm rests will prevent the rope slipping through the holes.

LET'S TALK LIVESTOCK BY TED GOULDY

Cool Weather Helps Prices
FORT WORTH—The rains and cooler weather that are helping parched and blasted Texas ranges recover have put a firm prop under cattle prices in this part of the country. Abnormally cool weather in the Eastern United States has kept consumption of meat at high levels in that area.

So the cool, cool opening weeks of June have been doubly delightful for livestock folks.

Usually on a mid-June Monday the market reporter is about as cheerful as a professional pall bearer. It is the normal thing for us to use words like "weak," or "dull demand," "prices sharply lower," and movement "sluggish."

However, Monday at Fort Worth cattle started moving to the scales early and prices were fully steady. In fact, some cows were 25 to 50 cents higher. Stocker calves and yearlings of high quality were stronger, and very scarce. Slaughter calves were steady. Bulls drew fully steady prices.

Prices included: good or choice fed steers and yearlings \$19-22.50; medium and lower grade yearlings and heifers \$12-18. Fat cows \$11-14, a few higher; canners and cutters \$7-11.50. Bulls \$10-14.25. Good and choice slaughter calves \$16.50-20.50; cull, common and medium slaughter calves \$9-16. Stocker steer calves \$16-23; steer yearlings \$14-21; stocker cows \$8-13. Heifer calves and yearlings in stocker flesh usually sold \$2 to \$3 under comparable steers.

Spring Lambs Weaken; Other Sheep Steady
Spring lambs opened steady to 50 cents lower Monday at Fort Worth. Top was again \$22 on the best milk fat lambs, but the price was paid sparingly. Old crop yearling lambs were steady at \$16 down. Stocker shorn wether lambs sold from \$13.50 down, but straight bunches of yearling ewes again reached \$15 to \$16. Feeder type spring lambs sold from \$15 down.

Livestock Best Cash Crop For Farmers
Speakers at a recent meat packers meeting stressed the likelihood that livestock production will remain high all over the country. Their conclusion was that farmers who once depended on dirt farming for a living had discovered that livestock was their most reliable cash crop and listed these advantages which farmers like:

- Livestock can be sold any day.
- Equipment costs are relatively small.
- Harvesting the crop requires little labor cost.
- Livestock converts soil building crops into cash.
- Dependence on weather is less critical.
- Crop rotation increases row crop yields without too much income loss, where livestock is pastured on the resting acres.
- Sounds to us like those packers are, as usual, just as right as a fox!

NOW SETTLED

IT'S THE LAW in Texas
A public service feature of the State Bar of Texas

Defense Lawyers Brave Undue Criticism

One of the cardinal principles of American law is that a man is considered innocent until proven guilty by proper legal proceedings. Practically everyone pays lip service to this ideal, but many fail to realize that the right to be represented by counsel is a logical and essential corollary of that theory of justice. There is a good deal of criticism of attorneys representing defendants in criminal cases. Much of this criticism is unjust.

Should lawyers defend in court persons whom they know or have good reason to believe are guilty of the crimes charged against them? A recent scientific sampling of the attitude of the public in Texas toward lawyers and law problems shows that more than half of all persons interviewed thought it was wrong for a lawyer to defend such a person.

Such an attitude is rather startling to thinking citizens and members of the Bar. Surely the guiltiest criminal has a right to a fair trial by the law of the land. Such a trial he cannot have without a competent attorney to see that a fair jury is selected and that only lawful evidence is introduced against him.

With reference to this feeling on the part of a sizeable portion of the public, a certain District judge who tries many criminal cases, and who served eighteen years as a prosecuting attorney before his election to the Bench, recently offered the following comments: "The result of this survey is no surprise to me, in that during my eighteen years of prosecuting, this feeling has been made known to me by hundreds of persons.

"The feeling on the part of the general public in this regard is brought about to a great extent by the sincere efforts on the part of the defense counsel to see that his client receives the benefit of every legal safeguard to which he is entitled. These legal maneuvers are often misunderstood by the laymen as an unethical effort to defeat justice, by delay of the trial, and by taking advantage of certain defenses that to the layman appear to be trivial technicalities.

"Attorneys are the only ones who can correct the erroneous feeling of the general public regarding the defense of one who appears to be guilty as charged. We attorneys should emphatically state to the inquiring person that it is one of the cardinal rights of the individual in a democratic society to be considered innocent until his guilt is established beyond a reasonable doubt by legal and competent evidence.

"The public must be brought to the realization that all who are charged with crime are entitled to the expert counsel and aid of an attorney, and that the sworn duty of such attorney is to see that each protective legal right, to which the accused is entitled, is afforded him."

Now and then a lawyer will overstep the bounds of his duty in defending those charged with crime. When that happens, the legal profession is even more indignant than the public generally, and appropriate disciplinary proceedings are instituted where warranted.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the interpretation of the law.)

AUSTIN—Now that the legislature has adjourned—all eyes are turned to the next political campaign. It is anyone's guess who will be in the 1956 races, but many are guessing.

Hardly had the gavels of Lt. Gov. Ben Ramsey and House Speaker Jim Lindsey sounded the end of the 54th legislative session, when one widely known political figure took the adjournment as the starting signal for the 1956 races. He is former Speaker of the House Reuben Senterfitt, of San Saba.

Senterfitt was the first announced candidate for Governor in 1954. But he withdrew when his father passed away, and Governor Allan Shivers announced for re-election. He took no sides in the bitterly contested campaign last year, nor in the presidential campaign of 1952.

Senterfitt's announced intention to run in 1956 set tongues wagging about other possible contenders for the Governorship. Mentioned were Lt. Gov. Ben Ramsey of San Augustine; Atty. Gen. John Ben Shepherd of Gladewater; U. S. Senator Price Daniel of Liberty; Associate Justice of the Texas Supreme Court Will Wilson of Dallas; Commissioner of Agriculture John C. White of Wichita Falls; and State Senators Otis Lock of Lufkin, Jimmy Phillips of Angleton, and Jerry Sadler of Perella.

Labor publications have said that Ralph Yarborough of Austin will make a third attempt to land the job. He campaigned against Shivers in 1952 and 1954.

Others talked as "possibles" include Mrs. Oveta Culp Hobby of Houston, wife of Ex-Governor W. P. Hobby, and present Secretary of Health, Education and Welfare; Roy Hofheinz, mayor of Houston; Robert B. Anderson of Vernon, U. S. Secretary of Defense; and County Judge Jim Sewell of Corsicana.

Prospects appear strong that State Senator A. M. Aikin Jr. of Paris will run for lieutenant governor of Ramsey does not seek re-election. Probably in the running for that same office will be Sen. Searcy Bracewell of Houston.

Mentioned frequently as a candidate for Attorney General is House Speaker Jim Lindsey of Texarkana.

Capitol talk continues on the subject that Governor Shivers may step out of office before the end of his present term to accept a high federal appointment. This rumor cropped up again after Shivers' first assistant, Maurice Acers, was appointed by the Governor to serve on the Texas Employment Commission.

Should Shivers resign, Ramsey would become governor automatically. He then would have the inside track in the 1956 campaign.

Waggoner Carr of Lubbock, third-term member of the House, emerged as the un-contested prospect for Speaker of the 55th Legislature. When the 54th session adjourned, Representative Carr held signed pledges of support from more than 100 members of the present legislature. No opponent had announced.

Sen. Neville Colson of Navasota, only woman in the Texas Senate, was elected President Pro Tem of the upper chamber for the period between sessions. This means that she will have an opportunity, under precedent, to sit in as acting Governor for a day. When this happens, she will become the second woman in Texas history to serve as chief executive.

Session adjournment meant that the new tax law and hundreds of other statutes will go into effect on Sept. 6, or 90 days after adjournment.

Completed as one of the session's final acts was a law bringing 30,000 state employees under Federal Social Security as well as the state retirement system.

Another bill permitted college faculty members to enter Federal Social Security coverage.

Laws correcting and tightening up state regulation of insurance, increasing capital and surplus requirements of insurance companies, and subjecting insurance securities to state regulation, were termed probably the session's top achievements.

Louis H. Runge from Galveston is visiting in the home of his brother Forrest Runge. On Monday Mr. and Mrs. Forrest Runge and Louis attended the funeral in Menard for Mr. Speck.

Barbara Rutland is visiting in Llano with her grandmother, Mrs. H. C. Rutland, and helping with bible school there.

Mr. and Mrs. Pat Joiner are moving this week to Abilene, vacating their new residence in the Glendale Addition. They have rented their house to Mr. and Mrs. Paris Burnham, who are moving there from the Otto Mund house. Mr. Burnham is manager of Cameron's.

Mr. and Mrs. Ray Tisdale and children moved Tuesday to their new home in San Angelo which is located at 1122 Shiloh.

Guests in the home of Mrs. A. E. Kent last week from Thursday to Monday included Capt. and Mrs. Mayo B. Sulser and daughters, Linda Connie and Terry, of Alabama; Mr. and Mrs. Milton Harper and daughters, Georgia, Kay, and Patty, and Mrs. R. Alsop, all of San Antonio and Mr. and Mrs. A. P. Waldrup of Melvin.

Ralph Taylor, who is employed in Abilene, spent the weekend with his parents, Mr. and Mrs. Delbert Taylor.

Mrs. Bertha Shugart and her grandchildren, Jackie, Janie and Jerry, are visiting in Dallas for several weeks.

Mrs. J. B. Granville and granddaughter Georgann Granville of Brady and Mrs. J. B. Granville Jr. and children Patsy and Granville III of Dallas are spending the week with Mrs. R. A. King.

Handle With Care

Tractors are like horses—or mules—in more ways than one. They can be pretty tricky if you don't handle them right.

Too many tractor accidents happen because of carelessness. The day grows hot and drowsy, the job grows monotonous—and bingo! Someone forgets to throttle down when making a turn, or something, and there's a bad spill.

Credit Slim Hartman's missus for the fact that there's never been tractor trouble on their place. Midway through every morning and afternoon she brings him snacks. "He'll stay on

the alert," she says, "if I get him off the tractor for ten minutes."

From where I sit, carelessness can cause plenty of harm in our off-the-job personal lives, too. For instance, suppose a neighbor prefers a glass of beer with supper. You might not share this particular preference with him—but if you're careless about protecting his right to choose, your own freedom of choice is in danger of being "plowed under."
