

Area Solons Favor Higher Load Limit

Herald Austin Bureau
AUSTIN, Feb. 21.—Representatives from the West Texas area overwhelmingly favored increasing the state's truck load limit to 35,000 pounds gross limit, a check of votes showed today.

The house of representatives Wednesday passed the 35,000 pound limit bill after two days of discussion and attempted amendment. The bill as originally drafted provided for a scientific formula to govern the load to be hauled, with a top limit of 36,000 pounds.

Opponents of the bill then offered an amendment cutting the load limit down to 14,000 pounds net load.

Those voting for the 14,000 pound limit were Representatives Lester Clark of Breckenridge, Temple Dickson of Sweetwater, A. H. King of Throckmorton, Grady Roberts of Munday, C. P. Spangler of Uvalde, and Taylor White of Odessa.

Those voting against (for a higher limit than 14,000 pounds) were: Pat Bullock of Snyder, Omar Burkett of Cisco, W. R. Chambers of May, P. L. Crossley of Eastland, L. L. Eruhl of Llano, Dorsey Hardeman of San Angelo, H. F. Howington of Commerce, Cal Huffman of Eagle Pass, Joe Humphrey of Abilene, W. H. Ramey of Winters, and R. E. Senterfitt of San Saba.

The next vote was on cutting the top limit from 35,000 to 33,000 pounds. This move was supported by friends of the bill, and those voting for the 35,000 pound amendment were Representatives Bullock, Burkett, Chambers, Crossley, Bruhl, Hardeman, Howington, Humphrey, King, Ramey, Senterfitt, and White.

Opposing the amendment were Representatives Dickson, Huffman, Roberts, and Spangler.

The vote to pass the bill as amended found the same lineup as existed in the vote on the 35,000 pound amendment except that Rep. Cal Huffman of Eagle Pass, who favored the bill from the beginning but who did not wish to cut the maximum to 33,000 pounds, voted for the bill on the final vote.

Rep. H. S. Fitzgerald of Stamford was absent on all three votes. Rep. Lester Clark of Breckenridge was absent on the last two votes.

The United States has approximately 21,000 printing and publishing establishments.

TANK—IN THE ROUGH!—Chrysler engineers, working on a defense order for U. S. army tanks, to be built outside Detroit in a new tank plant, made this preliminary wooden work-up model which is, however, not the model from which the tanks are to be built. Some 5,000 persons probably will be working by late summer producing five 25-ton tanks in one shift per day at the plant.

Texans In Washington—

Lone Star Men Tops With Administration

WASHINGTON, Feb. 21 (AP)—At the forefront in the administration's fight for enactment of the lend-lease British aid bill have been Senator Connally and Representative Luther Johnson, Texas democrats.

Senator Johnson, republican and opponent of the bill, criticized each other's handling of the witness. Chairman George D-Ga) admonished both and suggested they exchange their views after the hearing adjourned. Connally replied:

Rarely does a new and young member of congress receive the distinction accorded Representative Gene Worley of Shamrock, when, during debate on the lend lease bill, he was called to the chair by Speaker Rayburn and presided over the house for more than an hour.

Strong black coffee brewed in their offices is popular with Texas congressmen, particularly in the mornings shortly before the house goes into session.
