NUMBER 37

Eagles Defeat Rocksprings 14-8; First Home Game With Sonora Friday

The Eldorado Eagles journeyed to Rocksprings last Friday, accompanied by a large delegation of fans, and gave a good account of themselves by winning the first game of the season 14-8.

The teams were evenly matched and the game was hard fought all the way—the first quarter ending without a score for either side.

In the second quarter Farris Nixon of Eldorado ran a quarterback sneak to score following a 55-yard drive by the Eagles. Reyes Robledo ran the Eagle conversion. Soon afterward the game was tied up again when Rutherford ran 60 yards for Rocksprings for a TD and then converted.

The game remained tied up through the third quarter, and it was not until well into the fourth that Eldorado ground out a 60-yard TD.

Jerry Doyle will be out of play indefinitely on account of a knee injury he sustained in the game. He is on crutches.

Neighboring Scores

Football games among neighboring schools last Friday night resulted in the following scores:

Ozona 12	McCamey 24
Menard 2	Llano 6
Junction 20	Eden 14
Sonora 44	Blanco 6
Rankin 44	Iraan 8

SONORA TOMORROW

For their second game of the season and their first one on home ground, the Eagles meet their old long-time rivals, the Sonora Broncos.

Always heretofore the two teams have been in the same district, but with Eldorado now in the B class, the game tomorrow night will be of non-district classification.

However, this will not lessen the interest in the contest and will only serve to make the Eagles more determined than ever to take the high stepping Broncos into camp.

In Sonora's game last week with Blanco, Alfred Sykes was the high scoring man for the Broncos, making a total of 22 points in the game. Sonora won 44 to 6. The Broncos have a big, rough line this year; their average weight is 180.

With favorable weather, one of the biggest crowds of the season can be expected to assemble here tomorrow night from the two-county area.

Parking

The entrance gate to the parking area of the football field will be opened at 2:00 o'clock in the afternoon to accommodate those patrons who would like to park their cars early. If you do park early, please park behind the signs marking the parking area and in the acceptable practice of parking beside other cars and leaving an alley in front and behind each car.

Parking attendants will be available to help park cars for this game. With your cooperation, it will not be necessary to have them park cars for the other home games.

The ticket booths will be opened at 6:45 p.m. and fans may purchase

Chamber of Commerce Cites Urban Renewal Advantages

On Tuesday, September 30, you, the people, will go to the polls and vote for or against URBAN RENEWAL for Eldorado.

This act of Congress has been in effect since 1949 for cities with a population of 25,000 or more. In June, 1957, the Act was amended to include cities and towns below that population mark. Actually we have been paying for larger cities to pave, gutter and improve their city all of this time. Now we can get our part if we want it, or we can keep paying and let other cities get our part.

This program actually is very broad and only parts of it are adaptable to our purposes. That part will be decided by a nine-man board approved by those citizens who are interested enough to come out to the public meetings.

The part of the program that the city officials are interested in is the part that will give the taxpayers what they want—that being more pavement, more sewers, more parks and more improvements of all kinds and LESS TAXES. All city officials have wondered how this would ever be possible. Urban Renewal is that answer. We were too proud to take advantage of

their tickets and enter the grandstand. The advance sale of tickets will be conducted as usual at the Eldorado Drug all day Friday.

Schleicher Job Is Part Of Large Contract Letting In Highway Department

One of the largest contract lettings in the history of the Texas Highway Department is scheduled in Austin Sept. 16-17, and includes grading and surfacing the Sonora highway from Eldorado south to the Sutton county line.

The Schleicher county job, which consists of 11.1 miles, is a part of the 433.6 miles of construction work estimated to cost more than \$30 million over the state.

"In number of miles under construction as well as in number of highway miles completed within the last two years, the September bids will keep Texas at the top nationally in highway leadership," said State Highway Engineer D. C. Greer.

The September contract lettings will make a total of \$224 million of highway work placed under contract in 1958—about equal to the total 1957, volume which was a record year.

Neighboring counties involved include Val Verde, Coke, and Crane counties.

Bids on about 74 miles of farm to market roads and 360 miles of U. S. and state highways will be received by the Highway Dept. next Tuesday and Wednesday.

In recent months the state has been securing the right of way here in Schleicher county for the new Sonora highway. Fencing of the route is about complete.

The new highway will come into Eldorado on South Divide street, which is one block west of the present South Main street route.

Miss Carolyn Hammons spent the week with her grand parents, Mr. and Mrs. Sam Frazier in Big Spring.

DR. WELDON GIBSON IS APPOINTED TO INTERNATIONAL C. OF C. COMMITTEE

DR. WELDON B. GIBSON

WPA back in the 'thirties. Sonora and Christoval paved all of their streets with WPA labor and funds and we paid our pro-rate part.

Urban Renewal works in this manner: Any tax dollar spent by the city, the state, the county or the school for the improvement of our city facilities will be matched 2 for 1 by the Federal Government, as a gift—not as a loan.

Had we entered this program as much as three years ago we would already have received from the Federal Government \$1,056,000 to go with the \$528,000 we have spent. That would have been a total of \$1,584,000 which would pave a lot of streets, run a lot of sewer and build a park or two.

These figures were as follows: \$150,000 High School Gym \$268,000 City Bond for Sewer \$50,000 Swimming Pool \$60,000 Right of way, etc., for Sonora Highway that passes through the Town of Eldorado.

These are not exact figures but are being used as examples. Also, any Farm to Market roads that lead into town will count as a credit toward receiving the Federal Grant—or gift.

Completes 25 Years With Ohio Oil Company

C. O. DEWEY

Clarence O. Dewey, production foreman of the Eldorado District, was awarded a 25-year service pin by the Ohio Oil Company, having completed 25 years of service with that company on September 1, 1958.

Mr. Dewey's employment with the company includes service at Iraan, Goldsmith, and Seminole, in Texas. He was moved to Eldorado in February, 1951, when the Huldale oil field boom was getting under way, and has been production foreman here since that time.

Mr. Dewey is a member of the Schleicher County school board, and is a past chairman of the Schleicher County Oil Industry Information Committee. Mr. and Mrs. Dewey are members of the First Baptist Church and reside at 105 Northeast Avenue in a home which they purchased several years ago from Cameron.

The Deweys have two daughters, Mrs. John E. Wilkinson of Orla, Texas, and Mrs. Jim Earl Wilkinson of Christoval; and two grandchildren.

Menlo Park, Calif.—Dr. Weldon B. Gibson, associate director of Stanford Research Institute, has been appointed to the Committee on Foreign Investment and Economic Development of the International Chamber of Commerce.

As a committee member, Dr. Gibson joins a group of distinguished business leaders whose purpose is to encourage private foreign investment and to stimulate the expansion of international trade through policy recommendations to businesses and governments throughout the world.

Dr. Gibson has had broad experience in the fields of economic development. During the past few years he has traveled throughout the world in connection with SRI's international activities. In October 1957, he was co-director of the International Industrial Development Conference, which brought together 550 of the world's business leaders in San Francisco to consider the problems and prospects of private international investment.

Dr. Gibson was born in Eldorado and attended schools here. Mrs. E. H. Coulter has returned from a vacation trip to Waterloo, Iowa, where she visited with her son, B. R. Matteson and family, also in Richland, Washington, where she was with her daughter, Mrs. Ray Sherrard and family.

RECEIVES SAFETY AWARD AT COMPANY PICNIC

Mr. and Mrs. C. N. Clark attended the Delta Drilling Company's West Texas division 4th annual picnic held Saturday at Fort Stockton. It was an all-day affair and included for recreation such things as soft ball, swimming, volley ball,

Plans Are Made For First Annual C of C Banquet

At a meeting Monday night of the directors of the Schleicher County Chamber of Commerce, the annual meeting of the organization was discussed.

It was agreed that the annual meeting would be a banquet to be held in the early part of November. Three new directors will be elected at that time. Nine directors are elected for a three-year term on a rotation basis.

The terms of the following expire this fall: Ed Hill, T. P. Robinson, Jr., and Jo Ed Hill.

Post Script

Mr. and Mrs. J. D. Tom have moved here from Austin and he has gone to work as a mechanic at the Eagle Chevrolet Co.

Other information picked up at the new dealership Monday was that a stock of new cars and pickups was arriving early this week. These are new '58 models, of course, as it will be some time yet before the '59's make their appearance.

Work is to start soon on new houses in the Sunset Acres addition for Wilson Page and Jo Ed Hill.

Construction is continuing on the three-bedroom brick home for Carroll Ratliff.

Many Texans fear their state is "developing too fast, outrunning itself, losing touch more and more every year with its own traditional values." So writes the famed Irish novelist Sean O'Faolain in the October issue of Holiday, which devotes its cover and lead article to the Lone Star State.

A classic, full-color photo of a working cowboy on the huge 6666 ranch at Guthrie serves as the cover, while the article is illustrated with a portfolio of color and black-and-white pictures of the living past that "glow with beauty and nostalgia."

Edgar Spencer is serving as mayor pro tem of the City of Eldorado, during this period that Rance McDonald is in the hospital.

Youth Files Application For International Scout Jamboree

Filing application recently for the International Jamboree of Boy Scouts to be held next summer in the Philippine Islands was Tom Meador, son of Mr. and Mrs. Cecil Meador of Schleicher county.

His application is being processed through the headquarters office of the Concho Valley Council in San Angelo, and executives reported this week that so far his was the only application that had been received from this area. The Concho Valley Council takes in an area of 23½ counties.

Tom Meador is an Eagle Scout in Troop 34 in Ballinger where he attends school. He has been with his unit to long term camp at Camp Sol Mayer several times, and last year attended the Fourth National Jamboree at Valley Forge, Pa. He is a member of the Order of the Arrow, the national honorary camping organization of Boy Scouts. He recently received his Brotherhood honor in the Order of the Arrow.

Contingents of Scouts from all countries of the Free World are expected to gather for this coming year's International Jamboree, which is set for July of 1959. The event will last for 11 days at a site near Manila in the Philippines.

Plans are under way for the American contingent to make an around the world tour by air after the International Jamboree itself ends, although these plans are still

tug-of-war, and bingo. Mr. Clark was presented with a safety award for operating without loss of time from accidents to himself or his crew in the Huldale field, where he is field foreman.

MIMEOGRAPH PAPERS: Six colors in stock. —Success Office.

Pan-Am Well Blows Out

The Pan American No. B-1 Mittel, an offset to Standard of Texas in the Neva West field, about 12 miles north of Eldorado—blew out unexpectedly with gas at 10:00 o'clock last night at a depth of 4502 feet. Operations were shut down at 11:00 p.m., waiting for gas to blow down.

Workmen estimated the gas at 2 million cubic feet.

This is the first occurrence of this kind in the field.

Reports at 8:00 a.m. today (Thursday) were that Halliburton was sending equipment to the well, but the gas flow had not been killed at that time.

Cotton Harvest Delayed By Rain; 30 Bales Here

Rains over the past week, which dropped a total of nearly an inch of moisture in most places, slowed down the gathering of the cotton crop, and at 9:30 yesterday morning the Mikeska Gin here reported a season's total of 30 bales.

W. E. Bruton, who got a head

start with his first bale over two weeks ago, was credited with 14 bales as of yesterday. Victor Sauer had sent in 4 bales, Hazelwood Bros., one; while C. H. Clark and R. W. Reynolds accounted for two bales each.

All of the above cotton was pulled by local hands.

Henry Moore, in the meantime went down to the border and processed out 30 braceros and has put them to work picking in his dryland acres. As of yesterday he had delivered 7 bales of picked cotton to the gin, and reported that he was about to leave for the border to bring back thirty more hands.

We learn from the farmers that the Mexican nationals are willing to "pick" dryland cotton, while local laborers refuse to do anything but "pull."

A spell of clear, dry weather would start the cotton coming in with a rush. An experienced observer has estimated this year's crop at 4,000 bales in this county.

Mr. and Mrs. B. J. Etheredge are visiting their parents, Mr. and Mrs. Jack Etheredge and Mr. and Mrs. Claude Doyle. They will return to their home in Lubbock Friday, where Billy Jack is going to Tech and Bernell is secretary for a lumber company.

Gasoline Dump To Be Installed At Airport

Plans for installing an aviation gasoline fuel dump at the airport for the use of local and out-of-town aircraft were worked out Monday in a joint meeting of the Schleicher County commissioners and the city council.

The city and county pay the lease jointly each year on the airport which is located on C. C. West estate land on the west edge of Eldorado.

Installation of the fuel dump will be another of many improvements which have been going on by stages this past year to give Eldorado a first-class airport.

Humble is to install a 2,000-gallon capacity tank, with a pump, and the initial stock of 1500 gallons of aviation gasoline is to be paid for by the city and county. Profits from the sale of gas will be used to pay operating expenses of the airport.

Other work going on at the airport includes the building of a hangar building which will be large enough to house three planes. On contract with the city, John I. Smith is building a fence along the north-south runway. The county furnished the materials for the fence.

The north-south runway was caliche some time back, and is to be black-topped as soon as the contractor can get to it. The same runway will have lights installed along it for the night-time landings of aircraft.

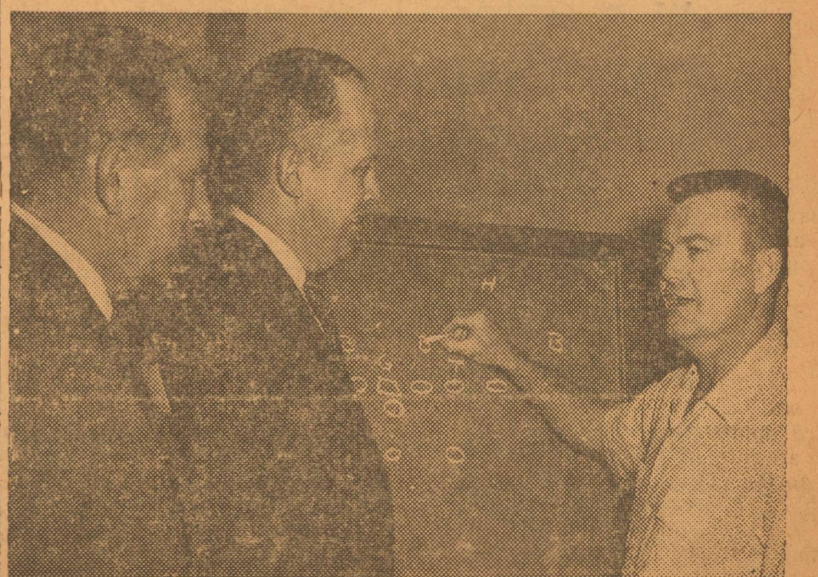

The Civil Aeronautics Administration is being notified of the improvements being made at the airport. The improvements will be incorporated into CAA maps, so that pilots throughout the state and nation will know about Eldorado's improved airport.

Local flyers include E. H. Topliffe and Howard Derrick. If the airport has increased use, as expected, a pay telephone and other facilities may be added at a later time.

A. J. Atkins was taken back to the hospital yesterday, Wednesday.

JOEL TOM MEADOR

It won't be long before Southwest Conference football broadcasts will fill the air in Texas for the 25th year. Here two of Humble's top announcers, Kern Tips (left) and

Alec Chesser, are being brought up-to-date on formations and plays by The University of Texas' Head Coach, Darrell Royal.

SOIL CONVERSATION

"Poor Old Fellow, He Outlived His Farm"

Scarcely a tree for the crows! Like all wildlife—and humans too—they find the habitat and environment on conservation farms makes for improved living conditions. Instead of leaving a neglected farm for your heirs, leave them a farm in better condition than when you obtained it. Such is possible. See your local soil conservation district today.

J. FORREST RUNGE CHAIRMAN, CHRISTOVAL
 E. E. FOSTER SECRETARY, KNICKERBOCKER
 B. E. MOORE MEMBER, ELDORADO
 FORD BOULWARE MEMBER, CHRISTOVAL
 BEN HEXT MEMBER, ELDORADO

The district supervisors wish to express their thanks to The First National Bank for the above cartoon and to The Eldorado Success for providing the space in the paper.

Supervisors of the district in their regular monthly meeting Friday, Sept. 5, voted to buy a one-year subscription to "Soil and Water" magazine for each member of the local vocational agriculture class and make two copies available to the class for one year.

The supervisors also voted to sponsor the local essay contest again this year in conjunction with the Fort Worth Press Save the Soil and Save Texas program. The

essay topic for 1959 will be "Conservation and Citizenship."

Supervisor Election

Land owners in Zone Five of the district are reminded that a supervisor election is to be held in their zone on Tuesday, October 7th. J. Forrest Runge is the present supervisor of this zone. This zone begins at E limit of Eldorado thence SE along Eldorado-Fort McKavett road to its junction with Sonora-McKavett road; then SW to Sutton-Schleicher county line; thence E along county line to SE corner of Schleicher county; thence N to NE corner of Schleicher county; thence W to State Hwy 30, thence S along

Hwy 30 to place of beginning. More definite plans in regard to the election will be forthcoming.

Cover Crop Time

What are your plans for planting a cover crop this fall? For several years we have been discouraged on planting cover crops on dryland because of our recent drought. With our moisture conditions looking so much better, we should consider planting some legumes this fall to increase the water intake, organic matter and nitrogen of our soils. John Miller for the past two years has had good success with planting madrid clover with oats.

Deferred Grazing

Have you picked out that pasture for fall deferment? With favorable moisture conditions as we have now, a deferred pasture could make lots of good seed and grow lots of good forage between now and frost. Every rancher if at all possible should plan to defer at least one pasture.

Green Sprangletop

This is the pretty green grass that is now showing up on our barrow ditches along the highways. Large amounts of this grass is only found in well managed pastures. Green sprangletop is a good, warm season perennial which is native to this section of the country. It is a bunchgrass with fibrous roots, very highly nutritious, relished by all classes of livestock, volunteers aggressively and is extremely drought resistant. This grass is easy to establish from seed, and should be included in pasture mixtures used to reseed depleted or cleared rangeland in areas where it is adapted.

This grass is well adapted to this area as it resists frost in the fall, and produces new growth during warm periods in winter. This good native grass is especially adapted to the rocky, gravelly sites and does well on heavier soils when introduced there.

For information in regard to planting rates, time of planting, method and management of this grass, see your local Soil Conservation Service technician.

CIRCLE MEETS TODAY

The Dora Lee Circle of the WSCS will meet this afternoon (Thursday) at 3:30. The study, "The Middle East" led by Mrs. Heaner, will be started. The special speaker this afternoon will be Mrs. G. M. Boswell of First Methodist Church in San Angelo. She visited the Holy Land two years ago and has just returned from another trip to Hawaii. She is a former conference officer of the WSCS. All ladies are invited to attend.

Mrs. Mabel Doose and son Kit and Mrs. Agnes Crosby were guests in the home of their parents Mr. and Mrs. A. T. Wright over the week end.

East Side Baptist

Tuesday WMU met at the home of Mrs. J. T. Ottaberry. Mrs. Eldon Turnbow brought the study, Fruit of the Vine. There were 11 present. Watermelon was served to the group.

All Brotherhood members are urged to be present for the regular meeting Monday, Sept. 15. Bring your families for a good time of fellowship. J. E. Bunyard of San Angelo will be the guest speaker.

Methodist News

The Official Board will meet Monday evening at 7:30. W. H. Hale is chairman of the Board.

The Quarterly conference will be held at Sonora next Wednesday evening at 7:30, with Dr. L. Eugene Harris presiding. This will be a "group" quarterly conference, with several churches meeting together to plan the year's work. Every commission chairman in our church is asked to submit in writing the plans for each commission for the year.

Our Sunday school attendance last Sunday was 125. Next Sunday will be Higher Education Sunday, and we will honor our young people who are about to leave for college.

Our evening services now begin at 7:30. We had 35 present at our evening service last Sunday. The Commission on Christian Social Relations was held Monday night, with the chairman, Mrs. Lawrence V. Newport, presiding. Mrs. R. E. Preston was elected vice chairman and Mrs. E. C. Peters was elected secretary.

The Commission on Stewardship and Finance met last night in the educational building with the chairman, Charles H. Trigg, presiding. The Commission on Membership and Evangelism will meet tonight at 7:30 at the church.

The Commission on Education met last Thursday night at the church and plans were made for the year, including the annual Christmas program and the White Gift Service, which will be directed this year to the Aymara Girls School on Lake Titicaca in Bolivia.

The Commission on Missions met Monday afternoon, with the chairman, Mrs. Ed Meador, presiding. Mrs. Robert H. Milligan was elected vice-chairman, and Mrs. Howard Derrick was elected secretary.

Ministerial Alliance To Sponsor Town Choir

The Eldorado Ministerial Alliance met last Monday morning at the First Presbyterian church, with the Rev. James Sharp of the Fundamental Baptist church, presiding.

The alliance voted unanimously to sponsor a community choir, composed of singers from all the churches, with Paul Goodwin as director and Mrs. James Page as associate director. The choir will present a cantata at Christmas in the high school auditorium and it is possible that the choir may present another cantata at Easter. Also, it is planned that the cantata will sing an anthem at the annual community Thanksgiving service, which is always sponsored by the Alliance.

It was decided that the community Thanksgiving service will be held at the First Baptist Church again this year, because the attendance was so large last year that the congregation could not have been accommodated by any other church in town. The Rev. James Sharp will preside and further plans for the service will be announced in the near future.

The Alliance voted to ask the P-TA to sponsor a "trick or treat" for CROP (Christian Rural Overseas Program) this year.

For the third or fourth time, the Ministerial Alliance discussed the Urban Renewal Plan and the need for slum clearance in "Little Mexico." It was agreed that the Alliance endorse the Urban Renewal Plan and urge all qualified voters to vote for the plan at the special city election on Tuesday, Sept. 30.

Plans were made for the annual observance of Universal Bible Sunday.

The next meeting of the Ministerial Alliance will be at the Fundamental Baptist church on Monday morning, October 6, at 9:30. All ordained ministers of Schleicher county are cordially invited to attend and to join the alliance.

Consumers Protected Under New Legislation

College Station.—Health protection for the consumer is the objective of the new Poultry Products Inspection Act. The federal law was effective on a voluntary basis last May but becomes mandatory on January 1. It provides that all ready-to-cook poultry shipped across state lines must be inspected for wholesomeness by the U. S. Department of Agriculture.

According to Dr. Kenneth McEnroe, area supervisor of USDA's Agricultural Marketing Service

that handles the inspection program, Dallas, more than half of the 100 eligible poultry processing plants in the Southwest have qualified under the Act. All plants have been reminded of the January 1 deadline. He also points out that inspectors are being trained and will be available when needed.

If plants apply for the service before November 1, the change over in January should cause no hardship for anyone, McEnroe said. The law requires USDA approval of the plant, premises, blueprints, inspection labels, water and chemicals used by the processors. Sanitation is especially important.

Under the program, routine services of the USDA inspectors are provided without charge. The Act brings poultry and poultry products under inspection requirements similar to those in effect for 50 years for red meats. Consumers will know the ready-to-cook poultry they buy has been processed in an approved plant if it carries the USDA's "Inspected for Wholesomeness" label.

Mrs. Joe Burger of Sonora was a guest in the home of Mrs. Carl Stevens for a day this week.

Presbyterian Notes Calendar For The Week

Sunday
 10:00 Sunday School
 11:00 Morning Worship
 5:00 Senior Hi Fellowship
 5:30 Pioneer Fellowship
 7:30 Evening Worship

Monday
 3:15 Women of the Church Executive Board
 7:00 District Stewardship Meeting First Presb. Church, San Angelo

Wednesday
 4:00 Choir Rehearsal
 4:00 Crusaders
 7:30 Evening Circle meets with Mrs. Lum Burk

Thursday
 7:30 Board of Deacons meeting

The Presbytery of the Southwest meets in Westminster Presbyterian Church of Midland this P. M. at 2:00. Rev. Spencer is in attendance at this meeting.

The Men's Club, scheduled for next Monday night, will be postponed to Monday, the 22nd, because of the Presbytery's district Stewardship meeting in San Angelo this Monday night. The speaker of the Men's Club will be the Rev. Joe Orena, pastor of the Mexican Baptist church. The cooks for the occasion will be John Mayo and Sammy Jones.

Early Destruction Of Cotton Stalks Advised

College Station.—Destroy those cotton stalks to prevent pink bollworm winter carryover!

This is the advice of F. M. Fuller and C. F. Garner, extension entomologists, who remind that deadline dates for stalk destruction are fast approaching.

They say in areas of Texas where stalk destruction is recommended, it is one of the most economical and effective methods of controlling the pink bollworm. The use of stalk shredders is highly recommended, since they kill many of the pink bollworms left in the field after the harvest. Although it is not legally required, they advise plowing under the shredded residues to a depth of six inches within five days after cutting.

In Northwest Texas, the entomologists recommend that the stalks be left standing in the field until after a hard freeze because the low temperatures will kill the pink bollworms in exposed bolls. Stripper harvesting aids in reducing numbers of pink bollworms in areas where it can be used. A large amount of the infested materials is stripped from the stalk and carried to the gin where the pink bollworms are destroyed.

The entomologists encourage farmers to avoid irrigating too late in the season because insects are attracted in large numbers to late irrigated fields of cotton. The sooner harvest is completed and stalks destroyed, the better the chance of preventing a heavy winter carryover of bollweevils and pink bollworms. It is expensive to produce a late fall crop because in most instances, this practice encourages a large buildup of pink bollworms and bollweevils to go through the winter.

For more information on pink bollworm control and regulations, they advise asking local county agents for L-219 "Ways to Fight the Pink Bollworm in Texas."

SUNDAY VISITORS

Mr. and Mrs. Jack Whiteley of Brady were here Sunday and visited in the home of his parents, Mr. and Mrs. J. C. Whiteley and other relatives.

Visiting in the Tom Carroll home in Ozona Sunday afternoon were those named above and also Mr. and Mrs. Vernon Carroll and Shirley, Mr. and Mrs. Lamont Hazelwood and Mr. and Mrs. Vernon Hazelwood. Also Shirley Carroll and LaNell Reynolds.

Mrs. A. L. Jones is in San Angelo this week visiting with her daughter.

BOB AND PAT DUNNING'S DREAM CAR COMES TRUE IN PLYMOUTH'S END-OF-MODEL CLEARANCE SALE

Canny young local couple takes advantage of year's lowest prices

Bob and Pat Dunning had put off buying a car. Budget. Wanted to see what would happen.

Last week as Bob, a commercial artist, was driving to work he noted a sign in a Plymouth dealership reading, "End-of-Model Clearance Sale. Lowest Prices of the Year." . . . "Just," as he says, "for the fun of it," he stopped his car and went in. Chatted with a Plymouth salesman. Couldn't believe his ears.

Bob and Pat own their new Plymouth

now—made the best deal of their lives.

You can, too, if you hurry. This End-of-Model Clearance Sale will be on at your Plymouth dealer's until the last 1953 is sold. All models included, and all at the year's lowest prices. All come equipped with Plymouth's luxurious Torsion-Aire Ride at no extra cost. All feature sleek Silver Dart Styling, Total-Contact Brakes, thrilling sports-car "feel," other Plymouth exclusives. Engine options even include the breath-taking Golden Commando V-8.

Better stop in at your Plymouth dealer's today. If you've been waiting to "see what happens" . . . it's happening right now!

Don't miss LAWRENCE WELK in TV's newest and brightest musical hour THE PLYMOUTH SHOW every week on ABC-TV. See TV section for time and channel.

Mrs. Ochsner Is Hostess To The Woman's Club

The initial meeting of The Woman's Club for the new club year was held in the home of Mrs. L. D. Ochsner, with 20 members present.

Officers for the ensuing year are: Mrs. Edwin Jackson, president; Mrs. Ernest C. Hill, first vice president; Mrs. Keno Ogden, second vice president; Mrs. Archie Mittel, secretary; Mrs. L. D. Ochsner, treasurer; Mrs. L. L. Watson, parliamentarian; Mrs. C. H. Clark, historian; Mrs. Joe Edens, club counselor.

Decorations in the living room and dining room consisted of pot plants, bouquets of roses and other cut flowers. When the guests had arrived they were served refreshments of coffee, rolls and fresh fruit.

Mrs. L. L. Watson was leader of the meeting. She read a scripture from John 8:33-36, and spoke on the subject of Spiritual Freedom, after which the club sang a stanza of America, repeated the Lord's Prayer in unison and gave the Flag Salute.

Mrs. Jackson stated that the Junior Woman's Club had extended an invitation to The Woman's Club to attend a brunch at the home of Mrs. Fred Case next Saturday morning at 9:30 o'clock.

Mrs. Jackson, the president, gave a very inspiring message to the club. She talked on the subject of hobbies. She stated that of the many kinds of hobbies, mental hobbies are most satisfying, that some people make a hobby of collecting beautiful thoughts, others of doing kind deeds, others search for beauty in all things, while still others practice appreciation of other people, and still others look for lofty ideals.

Mrs. Archie Mittel read a list of rules and regulations of the club, and Mrs. John Lueddecke gave a paper on The Price of Freedom. The meeting adjourned by repeating the Club Collect in unison.—Club Reporter.

Sponsors and Officers Announced at School

Sponsors and officers of the Junior High and High School grades were announced this week by the school superintendent's office:

7th Grade

Sponsors: Mr. Clayton, Mr. Burk. Officers: Pres: Karen Kemble, V. Pres: Danny Clayton; Secretary, Marion McAnus.

Room Mothers: Mrs. H. McCormick, chairman; Mrs. Delbert Edmiston, Mrs. W. Jarrett, Mrs. A. W. Williams.

Student Council: Karen Kemble and Lynn Meador.

8th Grade

Sponsors: Mr. Bowen and Mrs. Preston.

Officers: Pres. Ray Lewis Ballew, V. Pres., John Lawrence; Sec. Jan Davis; Treas., Linda Nixon.

Room Mothers: Mrs. Lum Davis, chairman; Mrs. Lionel Ballew, Mrs. W. A. Van Dusen, Mrs. Bill Lester. Student Council: Linda Sauer, John McGregor.

9th Grade

Sponsors: Mr. Barnett, and Miss Owens.

Officers: Pres., Mike Phillips, V. Pres., Frank Williams; Secretary, Leonard Kent; Treas., Jim Runge.

Room Mothers: Mrs. Forrest Runge, chairman; Mrs. Jack Hext, Mrs. Owen Fry, Mrs. Byrl Clayton. Student Council: Mike Jurecek, Martha Topliffe.

Sophomores

Sponsors: Mr. Whitaker and Mr. Steed.

Officers: Pres., Judge Whitten V. Pres., Carl Parker; Secretary, Sammy Mayo; Treas., Mary Ann Nixon.

Room Mothers: Mrs. John Mayo, chairman; Mrs. Walter McGregor, Mrs. Jimmie West, Mrs. Orval Edmiston.

Student Council: Vera Powell, Carl Parker.

Juniors

Sponsors: Jim Herridge and Bob Martin.

Officers: Pres., Eddie Etheredge, V. Pres., Walter Donaldson; Sec., Martha Graham; Treasurer, June Williams.

Room Mothers: Mrs. James Williams, Mrs. Sarah Hall, Mrs. E. M. Graham, Mrs. Ethel Etheredge, chairman.

Student Council: Sandra Hall and Billy Van Dusen.

Seniors

Sponsors: Mr. Beach and Miss Fudge.

Officers: Pres., Jerry Doyle; V. Pres., Joe Ray Stanford; Secretary, Nancy Jo Jackson; Treas., Myrta Ann Topliffe.

Room Mothers: Mrs. Arch Mittel, chairman; Mrs. Cecil Mackey, Mrs. Claude Doyle, Mrs. L. D. Mund.

Student Council: Margo Mittel, Dan Mittel.

Mr. and Mrs. Fred Thomas Gillaspay and children of San Angelo were guests in the home of his parents, Mr. and Mrs. Fred Gillaspay the past week end. They took home one of their daughters who had been visiting in the home of her grandparents.

Mr. and Mrs. Lloyd Hammons had guests Sunday from Big Springs—Mr. and Mrs. Sam Frazier and Mr. and Mrs. Raymond Frazier.

Oil News

Two Gassers Finaled

The Toenail (Harkey sand) gas field of Schleicher county, 20 miles northeast of Eldorado, gained its fifth and sixth producers with dual completion of two projects by Tucker Drilling Co., of San Angelo.

The No. 2-B Thomerson, a 1/2 mile southeast extension, was finaled for a calculated, absolute open flow of 17,000,000 cubic feet of gas per day through perforations between 4639-465 feet. Location is 1440 feet from the south and 467 feet from the west lines of 5-GC&FC.

The No. 2 K. L. Harris, a 3/8-mile southwest extension, was finaled for a calculated, absolute open flow of 12,000,000 cubic feet of gas per day through perforations between 4606-616. Location is 1400 feet from the south and 467 feet from the east lines of the Harris Tract in the 4-J. N. Cobb survey.

Both projects were completed earlier as Strawn oil producers in the field.

Garden Club Meets

The regular meeting of the Eldorado Garden Club was held at the Memorial building Wednesday morning with 18 members and two visitors present, Mr. and Mrs. Charlie Trigg.

Roll call was answered by naming some work for the town that members thought should be done. One member said she thought the town should have the weeds cut on vacant lots in the town. The club voted this to be the best suggestion.

The club voted to have three social meetings each year, one at Thanksgiving, one at Christmas and one in May.

Mrs. Edwin Jackson was leader of the program. Charlie Trigg spoke to the club on different types of roses and their culture.

He stated that the rose was probably the most popular of all flowers, that it is the national flower of England and the state flower of New York, that he had visited many famous gardens, but that the rose is as lovely here as anywhere, and easy of arrangement, from a single flower to a large bouquet. Mr. Trigg's talk was informative and much appreciated. Mrs. Robert Milligan also spoke on rose culture. She stated that the Pink Peace rose was probably the most perfect of all roses. She also stated that roses may be grown from seed, and different varieties produced in this way.

At the October meeting Mrs. Forrest Runge will be guest speaker. She will discuss various varieties of native wild flowers. Roll call will be answered by naming a wild flower which survives the summer.

Thought For The Week

Ministerial Alliance

"Emptied, To Be Filled"

So often we have to be emptied to be filled. Moses spent 40 years in the court of Pharaoh being filled with the wisdom and the ways of the world. The Lord needed Moses but couldn't use him as he was. He placed him in the wilderness as a shepherd for 40 more years before he was able to empty him of the stuff that he had been filled with, then filled with the Holy Spirit he went forward to do the impossible. Let us every one check our own lives. Are we not filled to overflowing with stuff that doesn't really matter? Isn't it true that the Lord cannot use us because we are so filled with our importance, or worldly wisdom, or selfish desires—many things that count for so little. We need to listen to the Psalmist as he says, (91) "He that dwells in the secret place of the most high shall abide under the shadow of the Almighty." Yes, we need to do a little emptying, like the Lord did to Moses, and to do it we must get into the secret places of life. We must be emptied of the rubbish so that we may be able to furnish room for the Spirit of God.—James Spencer.

SUL ROSS TO ORGANIZE EXTENSION CENTER AT SAC

Alpine, Texas.—In order to meet the needs of junior, senior and graduate students, Sul Ross State College will meet interested students, Saturday morning, Sept. 13, at 9:30 at San Angelo College to organize an extension center. The courses offered will be determined by those present. Demands for such a center comes from all over the San Angelo area.

New Babies

Born to Mr. and Mrs. Jim Earl Wilkinson of Christoval, at the Clinic hospital in San Angelo, a daughter on Monday, Sept. 1st. Her weight was 6 pounds and 8 oz., and she has been named Rebecca Sue. This is the couple's first child.

Grandparents are Mr. and Mrs. C. O. Dewey of Eldorado, and Mr. and Mrs. Jess Wilkinson of Christoval.

Guard Against 'Killers' Around Your Home

College Station.—If you made a list of the "killers" around your home, you would be amazed. Insecticides and other poisonous chemicals stored within a child's reach can bring tragedy. Statistics prove this point. Two out of every 100 persons died each year from accidental poisoning. Of this number, every fourth person is between the age of 1 and 5 years.

Check your home now to make sure that all "killers" are stored well out of reach of the children. Extension home management specialists suggest some important check points:

Start with the medicine chest. Keep it locked or make certain that it is high enough to keep children out. Label all bottles and materials stored there.

Keep cosmetics, soaps, bleaches, polishes and cleaning agents out of reach of small children.

Avoid throwing partially filled containers into wastebaskets or trash barrels where children could test for taste.

Keep matches and all inflammable materials well out of reach.

Roger Sofge, wife, and two children, have returned to Baroil, Wyoming, after visiting in Eldorado with his parents, Mr. and Mrs. Cramer Sofge and friends for the past week.

News From Our Neighbors

Enrollment Loss At Big Lake

Local schools opened Tuesday of this week with an enrollment of 1003, a slightly lower figure than that on opening day last year, it was learned from Supt. C. O. McKinney's office. The Davenport School is the only one of the four showing an increase in enrollment.—Big Lake Wildcat.

Serves On Staff Of Billy Graham During Summer

Miss Lola Mae Daniel, first grade teacher in the North Elementary school here, had another interesting summer as a member of the staff of Evangelist Billy Graham during his summer meetings in San Francisco and Sacramento, California and in final meeting at San Antonio, she reported on her return for the opening of schools this week.—The Ozona Stockman.

Youths Rescued After Ordeal On River

Three youths were rescued after a five-day ordeal on the Rio Grande after their boat turned over during a trip down the river. The youths were from the Fort Worth area.

A group of fishermen from this area found the boys stranded on a ledge, where they had been for five days, they said. The youths were brought to Sanderson and fed before they left to go back to the park to get their car.—The Sanderson Times.

Mertzon Editor Praises Schleicher County Cotton

In a few weeks now Schleicher County will be busy harvesting one of the largest crops in history. Sunday afternoon the editor and wife visited at the home of Mrs. C. M. Reynolds and son, Bob, and went over one of the most beautiful crops we have ever seen in this section of the country. The cotton is about 4 1/2 to 5 feet tall and loaded with bolls from top to bottom. In fact the bolls are so thick it is weighing the cotton stalks down and one can hardly tell where the middles are.—Mertzon Weekly Star.

CD Hospital Arrives

A 200-bed mobile hospital with equipment and supplies was stored Friday under the steps of the main building of Sul Ross State College.

The unit is the third in Texas to be provided by the Federal Civil Defense Administration through the Texas State Civil Defense Administration.

Although the equipment can be installed in a room, 10x15x8, it can be placed in complete operations in eight hours and capable of handling 200 casualties.—The Alpine Avalanche.

Memorials Sought

A hospital memorials committee, under sponsorship of Perry Hartgraves, has held its first meeting and is seeking persons who are willing to make memorial gifts to provide some of the needs of Menard Hospital.

Following the initial meeting in the hospital lobby, Tuesday, Aug. 26, the committee announced that memorial furnishings of rooms will range in price from \$250 to \$550 and that bronze plates will be placed on the door of each room.—The Menard News.

Petitioning For Vote On Separate Offices

Petitions are now being circulated requesting the Commissioners Court of Coke county to call an election to vote on the proposition of separating the sheriff and tax-assessor-collector office.

A law passed four years ago provides that counties under 10,000 population may vote to set up separate offices for the sheriff and tax departments. At present the duties are combined under one official.—Robert Lee Observer.

Canoe Trip Program Is Given At Lions Club

Five Explorer Scouts from the Eldorado Boy Scout troop, who attended the Canadian canoe trip this past summer, were guests at yesterday's meeting of the Lions club. The club is the long-time sponsor of Scouting here. The five were Jim Runge, David Meador, Charles West, Herman Walker and Joe Charles Christian.

Herbert Fields, Scoutmaster of the Sonora troop and one of the leaders of this year's canoe trip, showed a movie film which he took on the trip. Other guests present were Eldorado Scoutmaster Billy Frank Blaylock and Assistant Scout Executive J. B. Morris.

Committee Chairman Oliver Burk reported some statistics in regard to the local unit, which included: 25 Scouts and Explorers had advanced at least one rank during the year; 99 merit badges had been given out; 21 from here attended Camp Fawcett, and five attended the Canadian canoe trip; and membership had risen from 15 to 34 members since last fall.

An award for his outstanding work in Scouting was presented to Mr. Blaylock.

Mr. Morris cited this past year as one of the finest the Eldorado troop had ever had. He gave the troop the National Camping award for having had 64% of the members in long-term camp.

Club Business Session

In the business session, at which Ed Meador presided, the club voted to furnish a \$25 savings bond as a prize in the local high school for the essay contest in connection with Oil Progress Week, coming up in October.

John Stigler, Gus Love and L. V. Newport were appointed as a committee to work with the Legion on county park improvements.

More Students Are Leaving For Colleges

Several other Schleicher county students are leaving for colleges, in addition to those reported in last week's Success. These include:

Ronnie Mittel, son of Mr. and Mrs. Archie Mittel, and Billy Sam Hale, son of Mr. and Mrs. W. H. Hale, will be returning to their studies at Texas Tech.

Betty Sedberry is returning this week to McMurry college at Abilene, where she is a Junior majoring in elementary education. She is the daughter of Mr. and Mrs. John Sedberry.

Junior McLaughlin, son of Mr. and Mrs. C. C. McLaughlin, will return to Texas University.

Jim Steward, son of Mr. and Mrs. Aaron Steward, will be a Sophomore at San Angelo College.

Billy Jack Etheredge is continuing his course at Texas Tech.

Myrl Sudduth, son of Mr. and Mrs. V. G. Sudduth, is starting his Senior year at Texas Tech, where he is majoring in electrical engineering.

Miss Miltia Hill returned to Alpine after spending part of the summer here, Miss Hill is on faculty of Sul Ross State College.

Miss Katherine Hill and her sister, Mrs. John J. Robertson of Shawnee, Oklahoma, spent part of the summer visiting relatives in Mississippi and Alabama.

Mr. and Mrs. Lee Walker spent the week end in Snyder.

ELDORADO LODGE

No. 890 — A. F. & A. M. Stated meeting 2nd Thursday in each month, at 7:00 p. m. from Oct. 1 to April 1, and at 8:00 from April 1 to October 1. Visiting brethren welcome.

Schleicher County Agricultural Agent

All sheep owned by the Schleicher 4-H club boys, placed in the Sears District Show held at Menard on September 6th.

Ewe lambs placing were 3rd, 4th, 5th and 6th, owned by Ernest K. Nimitz, Charles West, Jimmie Whitten and John McGregor, in the order of placing.

Jimmie Whitten placed 3rd and 4th in the ram lamb class, while Joe Stanford placed 5th and Ernest Nimitz placed 8th.

Premium money of \$52.00 was won on the ewe lambs and \$46.00 on the ram lambs. The show was sponsored by Sears-Roebuck.

Judge was J. A. Gray, sheep and goat specialist, from the Extension Service at College Station.

The latest wonder drug is reported to be so popular that you can't take it unless you are in perfect health.

If you buy small grain seed, don't let the small extra cost stop you from buying certified seed. Lee Coffey, in charge of the Foundation seed program at Texas A&M says you can save your own planting seed of good varieties, however there is always the danger of mechanical mixing in the combine or drill. So the rule Coffey suggests to follow is: When you buy small grain seed, buy certified seed. That small extra cost is good insurance of the origin of the seed, that they have been inspected by the State Department of Agriculture and that they are the variety you want. Another advantage, certified seed must come up to high germination standards as well as be free of weeds and disease. So, examine the tag on the seed you buy, and if you buy seed, buy certified seed.

Varieties of oats that are acceptable and should be planted in Schleicher county are New Hortex, Broncho, and Mustang. The best variety to sow in the spring is the Alamo oat. Alamo being a spring oat and is most rust resistant of all oats. Never plant the Alamo oat on land planted to oats the previous year as it is highly susceptible to helminthosporium blight.

Bronco and Mustang are considerably more resistant to winter killing than New Hortex. New Hortex is favored for grain production because of the red kernel and many bring a premium over Mustang.

It is important that the right variety is planted as adapted to

your soil and climate. Your small grain committee working with specialists have made the recommendation.

"Watch for the little ones" is the advice of the Texas Farm and Ranch Safety Council now that schools are in session again. Children, they point out, often do the unexpected when crossing busy streets or highways, and unless the motorist is on guard, a serious or even fatal accident may occur.

A recent test completed involving the use of a tranquilizer, hydroxyzene, gave only slightly improved gains when fed 84 days to heifers and bulls. Temperament, however, was improved noticeably. The tranquilizer was fed at low levels, 5-10 mg per head per day by research workers of the Texas Experiment Station.

Defoliant, dusts or sprays should be applied at least 35 days after the period of maximum flower load on cotton. This permits maximum staple length development. Another way to time the application of defoliant would be 30 days after cotton quits making "cut out" or when the young bolls expected to make cotton are 30 days old. When 50 or more of bolls are open it is safe to apply defoliant. Desiccant applications should be made when 60% of the bolls are open.

Applications should be made with low pressures and plenty of water, insuring large droplets for best results. The most common error is using too little water.

The thoughts of others are only valuable to us when they cause us to think for ourselves. It is our own thoughts that guide us to failure or success.

STRENGTHEN AMERICA'S PEACE POWER

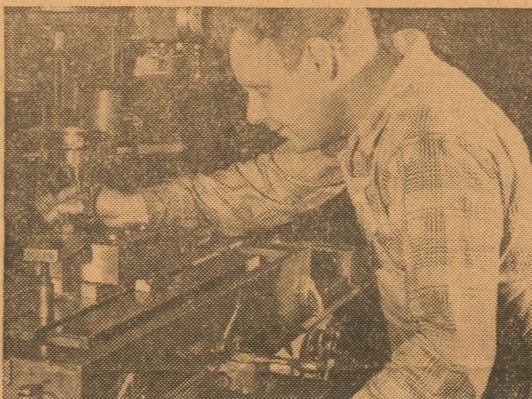

FOR DEFENSE

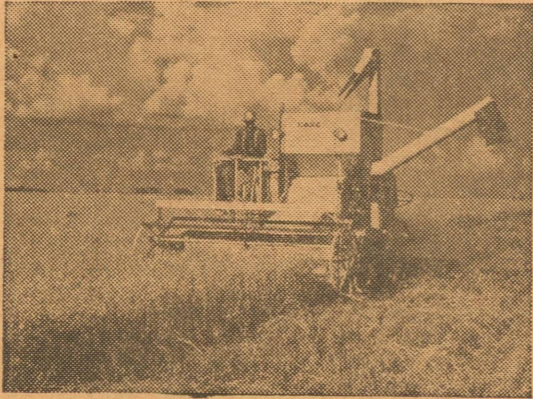

IN THE SCHOOL

IN THE LABORATORY

IN THE FACTORY

ON THE FARM

AND AT THE CONFERENCE TABLE

You don't need anyone to tell you our country needs to strengthen its Peace Power. You're reminded of it every time you open your newspaper. And just looking at the children brings it home to you all the more.

But maybe you think... "I'm just one person. How could I possibly strengthen the country?" You *can* help. And help yourself at the same time... by *saving* with U.S. Savings Bonds. You see, *peace costs money*. Money for many

different things: To help us keep the peace, through industrial and military strength. To make it *lasting* for the future, through science and education. And, most important, it takes money saved by individuals. Your Savings Bonds, as a direct investment in your country, make *you* a partner in the job of strengthening America's Peace Power.

Think it over. Are you buying as many as you *might*?

Humble Football Broadcasts Now In 25th Year

This year Humble Oil & Refining Co., will celebrate its 25th year as a sponsor of football broadcasts featuring teams of the Southwest Conference. And to celebrate this Silver Anniversary, Humble will bring football fans one of the most comprehensive schedules of radio and television coverage the Company has undertaken to date.

Some 70 games will be beamed out over 130 Texas and New Mexico radio stations. Four Southwest Conference contests will be televised, and viewers will also be able to see a 45-minute videotaped version of the week's top game each Sunday afternoon on the new "Game of the Week" TV program.

That schedule contrasts sharply with the program in 1934 when three Rice Institute games were broadcast as a public service.

It began this way. Rice had a good football team that season and was scheduled to play Texas in the old Rice Stadium. Interest was high and the limited seats were soon sold out, so broadcast rights were granted in order that more people might follow the game.

This first broadcast proved so successful that a second one was promptly planned. Humble sent a crew to Fayetteville this time to broadcast the Rice-Arkansas game.

It was in 1935 that the Southwest Conference adopted a uniform broadcasting policy. The Conference was unusually strong that

year and both SMU and TCU were undefeated until they met at Fort Worth. The winner, SMU, went to the Rose Bowl, the only Southwest Conference team ever to appear there.

It was also in 1935 that Kern Tips joined Humble's announcing staff. Tips' first broadcast was the Rice-St. Mary's game and his success was instantaneous.

By 1938 standards, the first few broadcasts were somewhat primitive. A good many early games were broadcast from the press box proper (engineers had learned to

suppress the disturbance of telegraphic instruments); booths, at best, offered few conveniences and no modern luxuries such as air-conditioning and sound proofing. By the end of 1935 techniques had been refined, football was at fever heat, and surveys showed that the broadcasts were the most popular radio programs on the Texas air.

Coverage gradually increased and broadcast crews started following Southwest Conference teams to both coasts, to the Middle West, to the deep South, to wherever a Conference team traveled.

In Those Days

ONE YEAR AGO

Sept. 12, 1957—Wm. Cameron & Co. announced the closing of their Eldorado yard, effective Sept. 15th. The manager, F. V. Everett, was to stay on awhile to completely close out the company's business. Tom Springstun's funeral was held.

County officials reported that the county swimming pool about broke even financially the first season it was operated.

12 YEARS AGO

Sept. 12, 1946.—The Eldorado Eagles were all set for the first game of the season with Christoval. The probable starting lineup consisted of: Bill Lewis Humphrey, Frank Doty, Ray Long, Tommie Green, Carroll Sproul, David Allen, B. D. McAngus, Jack Hodges, Arthur Mund, Billy Whitley, and John Ochsner.

Others in football training included: Floyd McGinnes, Kumier Mund, Jimmy Martin, Henry Speck, Wayne Davis, L. D. Doty, George Graf, Marion Wade, Bill Jones, John Jones, Walter Jones, V. Baker, Sonny Stanford, Howard Mittel, Joe Chan Whitten, Henry Mittel, Gerald Harris, Donald Rhea, Mackie Edmiston, Tart Mund, Earl Dean Clark, Floyce Turner, and Bill Edmiston.

Dr. A. C. Donath was in charge of a revival opening at the First Baptist church.

Richard Bruton, son of Mr. and Mrs. C. O. Bruton, was discharged from service.

A daughter, Mary Lynn, was born Sept. 9 in a San Angelo hospital to Mr. and Mrs. Albert McGinnes.

J. D. Yardley, son of Mr. and Mrs. Freeman Yardley, enlisted in the Marines.

35 YEARS AGO

Sept. 14, 1923.—Dave Smith and Carl Brown leased the mechanical department of the El Dorado Garage.

W. F. Hauser opened a new blacksmith shop.

Hoover Hall was lined up for the coming Fall County Fair, and further chairmen were announced: Junior department, R. P. Hinyard; floral department, Mrs. C. M. McWhorter; and advertising and publicity, W. O. Alexander and A. F. Wright.

Funeral services for R. E. Twilley and R. J. Flowers were held.

Senior class officers were announced as: president, Hubert Graves; secretary, Mary Alice Stewardson; and the annual staff consisted of Lizbeth Hinyard, editor in chief; Lelah Bell Davis, associate; Ruth DeLong, business manager; Kenneth Cheek, assistant business manager; Herman Jones, athletic editor; Katherine Hill, photo editor.

50 YEARS AGO

Sept. 11, 1908.—John White has finished the S. I. Nicks residence and has gone to build Brice Dabney a house on his ranch.

Mr. and Mrs. Green Chaney were in shopping and trading.

School was under way with five teachers and 155 pupils. The teachers were: Miss Fannie Johnson, 1st and 2nd; Miss May McCormick, 3rd and 4th; A. O. Beavers, 5th and 6th; J. O. Conner, 7th and 8th; J. B. Smith, 9th and 10th grades.

J. B. Christian, cashier of The First National Bank, left Friday for Evant to visit his mother.

Churches included: Methodist, Rev. Robert Payne, pastor; Christian, Rev. F. R. Keele; Baptist, Rev. C. E. Clem; Presbyterian, Rev. F. A. Barnes.

MIMEOGRAPH PAPERS: Six colors in stock. —Success Office.

Miss Kuykendall Marries Mr. Henderson, Sept. 6th

MRS. R. F. HENDERSON

Miss Jean Kuykendall became the bride of S/Sgt. Raymond Franklin Henderson at noon, Saturday, the 6th of September. Vows were said in the chapel of Goodfellow Air Force Base.

Mrs. Henderson is the daughter of Mrs. Allen Kuykendall of Eldorado and the late Mr. Kuykendall. Her husband is the son of Mr. and Mrs. T. F. Henderson of Maysville, Oklahoma.

The Rev. Gregory Robertson of Lake View Methodist church heard the vows.

Allen David Kuykendall, Jr., of Eldorado, brother of the bride, gave her in marriage. She wore a beige wool and dacorn modified sheath with fullness in back. Her matching beige hat was trimmed with feathers. She carried a cascade bouquet of feathered bronze mums.

Mrs. Elmer C. Simpson was organist. Maid of honor was Miss Dolores Kellenberger of San Angelo. Miss Kellenberger wore a pale green wool sheath dress with matching hat and beige accessories. She carried a bronze mum centered in a colonial bouquet. Best man was A/1c Jack Beavers of Goodfellow Air Force Base.

The couple will be at home at 1414 S. Van Buren until October 2, when they will go to Laredo, where S/Sgt. Henderson will be stationed.

A rehearsal dinner was held at Fred Woods Seafood Restaurant in San Angelo, on Friday night, September 5th. The centerpiece featured gilded oleander leaves and tall white candles in star shaped gilded candle holders. Members of the wedding party and the families attended. The bride's mother and sister Louise were co-hostesses.

Mrs. Raymond Henderson was honored recently with a miscellaneous kitchen shower at the home of Miss Dolores Kellenberger, of 1206 S. Abe, San Angelo. Punch and cookies were served to about 17 guests.

Mr. and Mrs. Wayne Land of Sterling City spent the week end here in the James Alexander home

HOW MANY HORSES IN YOUR HOME?

... in terms of the amount of work you give electricity to do, perhaps 5 or 6. The electricity an average American family uses actually equals the work of a half-dozen powerful horses.

Hard to believe? Stop for a minute and think of all the ways you put electricity to work — and how often. Cooling, heating, cooking, cleaning, lighting, even entertaining.

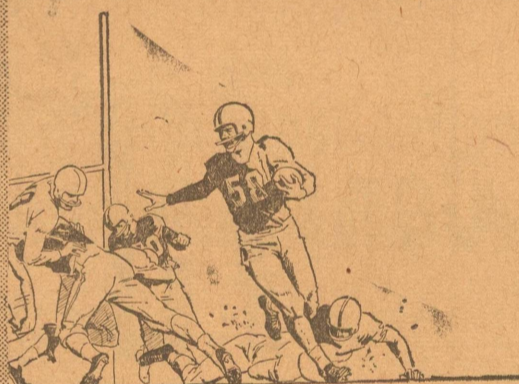

Yet how little all this electricity costs! Nothing else your family buys adds up to such a value.

The horsepower, equivalent in electric energy, used for electric cooking costs the average W.T.U. family less than 3¢ a meal — about \$2.34 a month.

Electricity costs so little — you can afford to use more of it!
