## Girls Bi-District Clash To Be Held at Ozona Monday

GAYLE WOODWARD

MARY ANN NIXON

These two Senior captains will lead the girls' basketball team as they face Sanderson in a Bi-district contest for the right to attend the Regional Tournament, Monday night in Ozona.

Gayle Woodward is the district's leading scorer with 77 points in four district games, an average of 19 points per game. Gayle missed the first 10 games due to illness but since her return to the starting line-up she has averaged 15 points per game.

Mary Ann Nixon has been an outstanding guard all season with an average of some 18 rebounds per game. She has been Most Valuable Player in one tournament and All-Tournament Guard in two meets.

The Bi-District clash will be held in Ozona, Monday, February 27 at 7:30 p.m. Admission will be 75c and 50c.

### Perry F. Johnson Dies

Funeral services were held Saturday afternoon at 2:00 in the West Side Church of Christ for Perry F. Johnson, 86. Mr. Johnson died at 6:00 a.m. Thursday in a Big Spring hospital.

Interment was made in the Eldorado cemetery under direction of Ratliff-Kerbow Funeral Home.

Mr. Johnson lived in Eldorado 30 years before he was hospitalized several years ago.

Mr. Johnson was born April 7, 1874, in Missouri. He came to Texas with his family when he was one year old. On December 27, 1893, he was married in Youngsport to Laura McBride.

The couple set up housekeeping in Bell county and Mr. Johnson ranched and farmed there until 1896, when he took part in a land run in Indian Territory.

In 1899 they moved to Concho county, settling there in November, and remaining there until 1928, when they moved to Schleicher and bought a half section of land in the Reynolds community.

They later sold their place and in 1929 moved to Eldorado, where Mr. Johnson operated a feed store. He subsequently retired.

Survivors include three daughters, Mrs. Irene Hallmark of Garden Grove, Calif., Mrs. Emma Boyce of Torrance, Calif., and Mrs. E. R. Peel of Abilene; three brothers, O. M. Johnson of Corpus Christi, Sam Johnson of Whittier, Calif., and Arch Johnson of Porterfield, Calif.; two sisters, Mrs. Leona Rodman of Whittier and Mrs. Minnie Bergeron of Long Beach, Calif.; six grandchildren, 13 greats and three great-greats.

Mr. Johnson was preceded in death by Mrs. Johnson who died December 12, 1954. Also, Don Ray, the third child born to the couple, died in Concho county in 1910 at the age of 10, and Woody (Mrs. John Whitehurst) second child, died in 1918 in Arizona at the age of 22.

### Post Script

With our subscribers: Mrs. E. N. Edmiston has subscribed for Mrs. R. L. Bridgeman of 3203 Sycamore, Midland, Texas. Mrs. James E. Hogg reports a new address in Odessa: 2907 Park Blvd.

Mr. and Mrs. Clemens Sauer have entered a subscription for their daughter, Christabel, Mrs. Lawrence Hutson of 1509 Upson, El Paso.

Benigno Castillegh has purchased a 3-room house in the Keeney addition and will move it to Sonora. The deal was made by Williams Real Estate.

Another deal from the same office involves Clarence Fish of San Angelo who has contracted to buy the Mrs. Carson West house and three lots, on approval of abstract.

Lee Halbert announces in this paper that she is reopening her drive-in next Monday, after a winter vacation. She has always operated a popular snack bar and her former customers will all be glad to know that she will soon be back on the job.

All four of the puppies which we advertised found new homes last week. Then the mother dog up and left us—guess she was disgusted. Anyway we seem to be completely out of the dog business.

### Ohio Employee Found Dead In Pickup

Two Northern (Permian) employees, Lynn Griffin and Ken Love, on their way north on Highway 277 Tuesday, came upon a wrecked pickup about five miles south of Christoval about 10:00 a.m., with a dead man in the driver's seat.

Investigation revealed that the victim was Arnold Otto Nail, an Ohio employee, whose home was in Christoval. He was a gauger for Ohio, and apparently had suffered a heart attack while on his way to work.

Funeral services are being held today (Thursday) in the Robert Massie Funeral Chapel with Rev. Arthur Aly, Christoval Baptist pastor, officiating. Burial will be Saturday in Fort Smith, Ark.

Mr. Nail was born Nov. 25, 1898, in Denton.

Survivors include his wife; his father, N. C. Nail of Krum; one son, Ted Nail of California; one daughter, Mrs. Kenneth Vaughan of Houston; one brother, O. E. Nail of Oklahoma City; three sisters, Mrs. Aura Blackwell of Odessa and Mrs. Charles Harris and Mrs. Albert Vondiest, both of Fort Worth; and five grandchildren.

## SALE ANNOUNCED OF ELDORADO HARDWARE

### VETERAN HARDWARE MAN RETIRES

E. C. HILL

Mr. and Mrs. Ernest C. Hill announced this week that they are selling the 54-year-old Eldorado Hardware to Tom J. (Bubba) Sammons.

The transfer is to take place March 1st. On that day, the store will close for inventory, and it will subsequently open under the new ownership. Mr. Sammons has announced plans for painting and re-arranging the interior of the store before he opens it.

Mr. Sammons is the son of Mrs. Jess Koy and grandson of Mr. and Mrs. T. K. Jones.

Mr. and Mrs. Hill state that they will retire with the sale of their establishment. They are retaining ownership of the building housing the Hardware and will lease it to Mr. Sammons.

Their retirement will bring to a close a half-century of operation of the Eldorado Hardware by the Hill family.

It was back in 1907 that Harry McClain established the store. Later he acquired a partner and the firm became Wilson & McClain.

In 1911 the late D. C. Hill and V. H. Humphrey purchased it, with Ernest C. Hill acquiring it in the late 'twenties.

Plans call for Bethel Jeffrey and Mrs. N. G. Hodges to remain as employees in the store.

Mr. and Mrs. Sammons and their daughter, Bernice Lee, 4, and son, Tom, Jr., 21 months, will continue to make their home on the old Douglas place a mile and a half from Eldorado on the Rudd road. The place is now owned by Clyde Vinson of San Angelo and is leased by Jess Koy.

Eldorado Hardware is the dealership here for Zenith radios, G. E. small appliances, R.C.A. Whirlpool appliances, Jensen Jacks, and Kuhn paints. It is the oldest dealer in the state of Texas for Fairbanks-Morse water well equipment.

### Candidates Announce For City Ballot Recently

The ballot for the upcoming city election now has a full slate of candidates—but no more.

Scheduled to be held on Tuesday, April 4th, the notice of election calls for the election of a mayor and three aldermen to succeed Mayor E. T. Calk, and Aldermen Grover Johnson, Jack Halbert Jr., and B. L. Blakeway.

On Tuesday of this week the city secretary reported that E. T. Calk had announced for re-election and that Jack Halbert, L. D. Mund, and E. C. Peters have announced for the three alderman places.

Grover Johnson has moved to Rankin and B. L. Blakeway has declined to run for re-election. Mund and Peters will be newcomers to the city governing body.

If anyone else aspires to run for any of these offices, their names must be filed with the city secretary not later than March 5.

## Parents Encouraged To Visit School March 6-9

The week of March 5 through March 10 has been designated as Public School Week. All parents and citizens of Schleicher county are invited and encouraged to visit their school.

As in the past the school has designated certain days to visit in order to have seats for the visitors and to facilitate the meals in the lunch room. Mimeographed sheets have gone out to all parents for lunchroom reservations. Parents may use students' cafeteria tickets. School will not be in session March 10 as the district TSTA will be meeting in Brownwood.

There will be a hobby show in the elementary school gym, and a science exhibit in the high school building.

Tom Dempsey has been heading the committee for school visitation.

If you have more than one child in school, visit on any day you choose. If this schedule does not fit your plans, you are invited to come any day you choose.

Schedule:

Grade	Monday, March 6	Lunch Time
Seniors	-----	12:10
Juniors	-----	12:10
First Grade	-----	11:10
Tuesday, March 7		
Sophomores	-----	12:10
Second Grade	-----	11:20
Wednesday, March 8		
Freshmen	-----	12:15
Third Grade	-----	11:25
Fourth Grade	-----	11:30
Thursday, March 9		
Fifth Grade	-----	11:35
Sixth Grade	-----	11:40
Seventh Grade	-----	12:20
Eighth Grade	-----	12:30

### Bloomer Game For Park Improvements

A men's bloomer basketball game tomorrow night at 7:00 is being promoted and sponsored by the Eldorado Study club and proceeds from the game will provide for more improvements at the county park in western Eldorado.

The game will be held in the school gym.

Already, the Study club has been instrumental in setting out trees, putting up swing sets, and erecting picnic tables in the park.

Tomorrow night's game will be the Study club's only money-raising project this year. Admission will be 50c and 25c.

### No Additions To Trustee Candidates

As reported last week, two candidates have announced for school trustee for the two vacancies to be filled on an election on Saturday, March 1st.

Henry Speck has announced for re-election and Vernon Rogers has announced for the place to be vacated by C. O. Dewey.

Candidates may file their names with County Judge W. R. Bearce—the deadline for filing being March 1st.

As of yesterday no further names had been presented.

### F.F.A. Week In Texas—February 18-25—Is Now Under Way

HERE ARE this year's officers of the local chapter of the Future Farmers of America. Left to right are Oliver Burk, advisor; H. A. Belk, Judge Whitten, Mikel Jurecek,

Brian Edmiston, Herman Walker, Jim Runge, and Leonard Kent, president. More FFA news elsewhere in this Success issue. (Staff Photo)

### Water Tower Removed From Rancho Station

MEN FROM the A. J. Curtis Co. of Denver, Colorado, are shown maneuvering their crane into position for removal of the water tower at the Eldorado station of the Rancho Pipe Line, just south of town. The tower formerly served the camp at the station, and was the first of 11 such towers over a large area purchased for removal by the Curtis company. (Staff Photo)

**Future Farmers Practice Foundations Of Freedom**

By E. C. Weekley, Exec. Secretary Texas Association, FFA

The key to the success of our nation might well be the key to the success of the Future Farmers of America. Liberty, or freedom has been called the great secret ingredient of the American success formula. Yet, it is only an ingredient. Its combination with other necessary and interdependent elements is what has provided vigor, productivity, abundance, and happiness in our matchless United States.

One of the basic ingredients which has earned our allegiance is the importance of the individual. Freedom has no meaning except as it applies to the individual person. The individual is the first source of progress. In the FFA each individual has a part in developing a local program of work. Correct parliamentary procedure is followed by the FFA giving each individual member an opportunity to express himself. There are four degrees in the FFA and each member may progress commensurate with his own ability and ambition.

Another of the basic ingredients is the profit motive. The true significance of the profit motive is seen in the fact that man works for the hope of reward. In the FFA this might mean the attainment of a higher degree or it might imply a profit on one of the self-owned projects, such as a beef cow and five acres of cotton. A free man is motivated by the hope of rewards.

To receive rewards, an individual must apply his energy to God given resources. The importance of the dignity of work is recognized in the FFA opening ceremonies: "The plow is the symbol of labor and tillage of the soil. Without labor, neither knowledge nor wisdom can accomplish much." Further emphasis is placed in the dignity of work in the FFA Creed—Learning To Do, Doing To Learn, Earning To Live, Living To Serve.

One of the requirements in the FFA program is that each member must own and have managerial responsibility for livestock and/or crop projects. The private ownership of property, one of the founding principles of our nation is also considered as the foundation of the Future Farmer program. Future Farmers believe that if the right of private ownership of property is destroyed, liberty goes with it just as it has gone in the Communist countries where the state owns and controls property and services.

An important principle upon which our country has thrived is free competition. Competition causes a man to work harder, to think more, to improve, to invent, and to expand. These fundamentals are put into practice in the FFA through judging contests, stock shows, and through awards and scholarship programs. Through competition, Future Farmers are learning to serve better and thus to progress as individuals and as a nation.

Future Farmers believe in the government as a protector and not a provider. The FFA organization is a non-profit, non-political, non-sectarian, farm youth organization of voluntary membership. Future Farmers believe that our government does not owe us a living but protects us in our freedom to earn a living.

The basic principle upon which this country was built is, "We believe and trust in God as we understand Him," the first sentences of the Mayflower Compact. Without a God-centered conscience to guide us, freedom becomes license; the profit motive degenerates to avarice and lust for power; property becomes rewards only for the mighty or the unscrupulous; and the individual returns to his prior status of slave of the state. Future Farmers are proud of their heritage. They are proud they live in a country where they are free to worship God for they know that in many countries the government refuses to recognize the right of an individual to worship God. In these Communist countries there is no freedom.

Week end guests of Mrs. J. B. Montgomery and Jack Montgomery were Mr. and Mrs. Joe Bailey Montgomery and family from Boerne and Mr. and Mrs. Billy Edmiston and family from Midland, and Mr. and Mrs. A. W. Hedlund from San Antonio and 2nd Lt. Mary Le-nore Hedlund from Ft. Sam Houston.

May Runge spent the week end in San Antonio visiting Mr. and Mrs. Ned Nilsson and family.

Dick Runge was home over the week end visiting his parents, the Forrest Runiges.

Mr. and Mrs. B. E. Moore spent the week end at Blanket visiting Mr. and Mrs. Lindsey Thomas. Mrs. Moore was honored there with a birthday dinner.

Mrs. Russell Heaner and Sarah and John, and Mrs. B. T. Heaner, stopped to visit friends here Friday while on their way to Victoria. Mrs. B. T. Heaner makes her home at Victoria, and the Russell Heaner family are now at McCamey.

Austin.—Legislature moved toward early showdowns as the House Revenue and Taxation committee scheduled controversial bills in swift one-two-three order.

Coming up early on the committee calendar were three of the four measures in Gov. Price Daniel's special deficit erasing program. Each renews controversies of last session. They are:

1. A new two-factor formula for figuring the franchise tax owed by interstate corporations based in Texas. At present the franchise tax is computed on the basis of receipts from sales in Texas.

"A firm which sells all its output in Texas," the governor points out, "pays at a 100% rate. A Texas-based company selling all its products outside Texas pays none."

New formula would hit these interstate corporations. Governor Daniel calls it "closing a loophole." Industry spokesmen contend it would drive business from Texas.

2. A measure providing for enforcement of the escheat law. This is known as the abandoned property act, which was defeated in 1959 despite the governor's vigorous efforts.

Governor Daniel says he will call a special session if the bill isn't passed in regular session.

3. A temporary increase for one year of from 7 to 10% on natural gas production. Governor Daniel says this is to fill the revenue gap while the natural gas severance beneficiary tax is being thrashed out in court.

A new tax bill introduced in the House would levy a 2% tax on all real estate transactions. It is by Rep. George Hinson of Mineola.

**Referendum Stalls**

House members refused to take a beat-the-clock short cut toward getting a tax referendum on the ballot at the April 4 special election.

Rep. Wesley Roberts of Lamesa, sponsor of the bill, asked the House to instruct the State Affairs committee to consider the bill immediately and report to the House.

Proposal was defeated 81-65, with the vote dividing approximately on the same line as the one which Speaker James Turman was elected.

Referendum would, in effect, have given the public an opportunity to say which of three possible broad-based taxes they would prefer—payroll, income or sales. Bill would have to have final passage before the end of February for the question to be printed on the ballot. Without hurry-up procedures the schedule will not be met.

Now the matter is left entirely to the legislators to determine. As most ran on platforms that called for no sales or income tax, these two taxing methods doubtless can be eliminated from further consideration.

**Horse Racing Argued**

Legalized horse racing is still a live issue after a committee hearing that ran into the small hours of the morning.

Rep. V. E. (Red) Berry of San Antonio is sponsor of the proposed constitutional amendment that would allow race tracks and pari-mutuel betting on a local option basis.

Opponents, mostly ministers and lay church leaders, called gambling a parasite on the economy, and a producer of fewer jobs for the money spent than is possible in any other business.

Supporters called it a clean, popular sport to which Texas climate is ideally suited. And, they declared, a painless revenue raiser.

**Re-Cutting the Pie**

Two congressional re-districting bills have been introduced, one of which could cause anguished howls from the neighborhood of the Potomac.

Rep. Ben Lewis of Dallas has introduced a proposal to give Dallas county the extra congressman due Texas and leave other districts as they are.

Rep. Malcolm McGregor has introduced a bill which gives Dallas two congressmen and re-carves all the other districts.

McGregor's proposal is based strictly on population, with no thought to personalities or politics.

In some instances it would result in two congressmen being put in one district. Some districts would be enlarged, some reduced.

**Raise Proposal Axed**

County school superintendents are a touchy subject with the Legislature.

County Superintendent George Corse has come back this session to work for a bill to abolish the

county superintendent's office in counties with few or no pupils in county schools. Under this year's plan, abolishment would be on a local option vote. Supporters say it could save the state \$1,500,000 to \$2,000,000.

In this atmosphere is a bill by Rep. R. A. Bartram of New Braunfels. However it would raise the salaries of assistant county superintendents. Money-hurling House members killed the bill.

**FFA Boys Practice Thrift**

By Howard T. Cox, President The Capital National Bank Austin, Texas

A written aim and purpose of the Future Farmer of America is "To encourage and practice thrift."

But, before discussing Future Farmers and their practice of thrift; let us first look at the meaning of the word "thrift." Possibly, some may look upon thriftiness as being unpleasantly frugal. This is not at all the case—the primary dictionary definition describes thrift as being the "economical or careful management of one's money or other resources." Thrift is just good business practice.

What better description than of FFA teaching and activities than a program of learning and practicing the "economical and careful management" of our agricultural resources for their own interest and future livelihood, as well as the continued well being of their communities and our country itself.

Two of the three state Future Farmer Degrees require the youngster to earn and then deposit in a bank, or otherwise invest set sums of money from their own agricultural program. To be eligible for consideration for the coveted American Farmer degree an FFA member must earn from his efforts in a field of agriculture \$1,000 during the period of his application. Certainly a young person still in high school must know and practice thrift in its best and fullest meaning to meet these standards.

Worlds are well; but in the final analysis a question must be answered. Are these things done? It is a pleasure to answer this question with an emphatic "YES." Our city has been honored as a Texas Future Farmers convention site and opportunity fortunately afforded to seek an answer from observation of most representative sample of young Texans. From review of their outstanding accomplishments, discussion of plans and future goals, witnessing programs and conduct of business affairs in an orderly and democratic manner; there can be no doubt of the validity of their knowledge, citizenship—and thriftiness.

**NOTICE of School Trustee Election**

Notice is hereby given that the annual Trustee Election of the Schleicher County Rural High School District will be held Saturday, April 1, 1961.

The present law requires that candidates must file at least thirty days before the date of Election, in this case being March 1.

Ballots will be printed 20 days prior to the election date, permitting absentee voting as in other elections.

Candidates may file their names in the office of the County Judge or the names may be placed in nomination by petition.

Two trustees are to be chosen at the April 1 election. Terms of C. O. Dewey and Henry Speck expire.

The term of office is for three years.

**SCHLEICHER COUNTY RURAL HIGH SCHOOL DIST OF SCHLEICHER COUNTY, TEXAS**

Your Car...

...or a '61 Ford Fairlane?

Compare your operating costs with the car that costs least to buy\* and drive!

Get your free copy of this "savings" folder now! See how you can save plenty in operating costs on America's lowest-priced,\* full-size 6-passenger car... equipped as most people want it!

Costs least...saves most—that's the '61 Ford! And here's why. Fact: The '61 Ford Fairlane, equipped as you like it, is America's lowest-priced, full-size 6-passenger car. Fact: You can enjoy all this full-size room, ride and zoom for less than some "new name" compacts. Fact: This stunning Ford saves hundreds of dollars in operating costs while you own it because it's beautifully built to take care of itself. Come in and figure it out with our free folder, "Here's Proof—" and you'll see you can't afford not to own a '61 Ford. And our Winter SAVE-MOST DEAL will be the clincher! Hurry!

\*Based on a comparison of manufacturers' suggested retail delivery prices, including radio, heater, automatic transmission and whitewall tires.

**HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF**  
Lubricates itself—You'll go 30,000 miles between chassis lubrications (which cost only about \$4.00 and take about 20 minutes) because Ford has replaced conventional grease fittings with a sealed-in lubrication system.  
Clean: its own oil—You'll go 4,000 miles between oil changes because Ford's Full-Flow oil filter gives you filtration through fibers... trapping more dirt than any other type of filter made.  
Adjusts its own brakes—New Truck Size brakes adjust themselves automatically.  
Guards its own muffler—Ford mufflers are double-wrapped and aluminumized to last three times as long as ordinary mufflers.  
Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.  
Takes care of its own finish—Just wash and clean Ford's new Diamond Lustre Finish to make it glisten like new. It never needs waxing.

The '61 Ford Fairlane gives and saves the most for the least!

Get our Winter SAVE-MOST DEAL on a '61 FORD FAIRLANE!  
**George Humphrey Motors, Eldorado, Texas**

**Educational Opportunity In The FFA Discussed**

By J. W. Edgar

**State Commissioner of Education**  
When Texas Future Farmers observe national FFA Week February 18-25, educators of the state will share their pride of accomplishment.

The FFA has become an important part of the educational scene. Vocational agriculture in the public schools of our Nation, though national in scope, is tailored to specific community needs. With farms and ranches of the nation as their laboratories, students in this rapidly changing segment of our economy have earned the respect of our entire citizenry, rural and urban.

Traditionally, Future Farmers learn by doing. Their study of agriculture is based upon both biological and physical sciences as they are applied to practical agriculture. Their study is enriched through ownership of livestock and crops. The American system of free enterprise is alive and meaningful as these students buy their seed and animals, invest time and money, sell the completed product and compute their profits.

Profits made by FFA members contribute much to the economy of Texas. The nearly one hundred thousand head of livestock owned by forty thousand Texas Future Farmers last year earned for these young FFA owners nearly three million dollars. They produced nearly one million units of poultry and earned a profit of nearly a million dollars on more than forty thousand acres of crops.

Because of the rapid movement to mechanized agriculture, many vocational agriculture departments are equipped with farm mechanics installations in order to allow Future Farmers to acquire the new skills they need.

Of even greater importance is the development of leadership abilities through experiences in the FFA. Through their own organization these young men compete with one another in public speaking, conducting meetings, and in other contests requiring leadership ability of a high order.

These young men are aware that agriculture is a huge intricate business, requiring services of many who must be familiar with farm problems. Professional workers in conservation and research, in communications and in business are essential to agricultural progress. Knowing that our rapidly expanding population will require a 50% increase in food production during the next 15 years, these young men realize that many of our most capable individuals must work in the field of agricultural science. Vocational agriculture and the FFA provides them with a solid background for college training in this field. Those responsible for agricultural training in the colleges tell us that three-fourths of all college agricultural students were stimulated to continue the study of agricultural science by FFA experience in high school.

The job of feeding America in the future is a big one. It demands the best efforts of well-trained people in research, communications, and production in the field of agriculture. The public schools of Texas know that the Future Farmers of today will play an important part in the job of feeding America tomorrow.

Mrs. Otto Sauer is visiting her daughter, Mrs. Cora DeLongue, in San Antonio this week.

Mr. and Mrs. L. E. McCalla and family spent Sunday in Abilene with Genelle, who is a student at Abilene Christian College.

**Progressive Agricultural Training In The FFA**

By John C. White, Commissioner Texas Department of Agriculture

It is highly encouraging to me to be given a part in preparing for the observance of Future Farmers of America Week, February 18-25, dedicated to the recognition and support of our young people in agriculture.

Programs such as the progressive agricultural training carried on by the Future Farmers of America are soundly constructive in plan and design—an investment in the future of American agriculture and a renewed demonstration of confidence in this most basic of all American industries.

It is up to those of us who know the facts to give these young people of ours the proper perspective on our broad agricultural picture—to encourage them in the firm knowledge that assuredly there is a place and a bright future for them in the agricultural way of life. What happens in American agriculture must depend in large part upon youth in agriculture. It is our best investment and our top money crop.

Changes in American farming and ranching have taken place so rapidly in the post-war years that it has been difficult to see the whole picture at times. Agriculture has entered the age of technology along with many other of our nation's activities. Many of the traditional limitations of agriculture have been removed, particularly in the field of production. This, of course, has given rise to new problems, mainly in the areas of distribution and marketing.

The agricultural climate of the past several years has given rise to a number of absurdities, and among them is a lurking suspicion—even on the part of some people who ought to know better—that farming in America is a "dying" industry.

But the facts and figures say otherwise: The total investment in the business of American agriculture today exceeds \$203 billion. This is almost three-fourths of the market value of all corporation stocks on the New York Stock Exchange, or four-fifths of the value of current asset of all corporations in the United States. The agricultural industry employs six million people to supply farmers and another 10 million to store, transport, process and merchandise agricultural products, as well as the seven and a half million workers on farms and ranches.

What of the future? Our rapidly increasing total population, along with the growing per capita demand for agricultural products, could in the course of the next 20 years place us in the position of being a nation of scarcity rather than one of abundance. This is one of the great challenges facing our young people in agriculture.

Population experts are now projecting the growth in population to forecast a total of some 230 million people in the United States by 1975, nearly double the population of 1930.

Authoritative estimates of food requirements for 230 million people show that prodigious increases in farm production are going to be necessary if our people are to continue to eat as well as they do today. These projected essential increases will call for 22 billion quarts more of milk, 20 billion more eggs, 17.3 billion pounds more of red meats, 1.1 billion pounds more of chicken meat, 20.7 million tons more of fruits and vegetables every year.

There will always be frontiers, and these are the new frontiers in American agriculture. These are the new frontiers challenging our youth in agriculture.

**Citizenship Training In The FFA**

By Attorney General Will Wilson

The FFA is an intra-curricular activity having its origin and root in a definite part of the school curriculum—vocational agriculture.

The organization embodies the fundamentals of a true democracy. Each member has a voice in setting up policies and in making rules and regulations by which he is governed. Each member has individual responsibility resting on his shoulders. Each member learns by experience that teamwork is essential to lasting accomplishment.

The FFA is self-supporting. In an age of subsidy this is a refreshing approach which encourages young people to develop their own initiative. The study route they are taking is showing them the importance of the individual and the dignity of work. It is proving to them at an early age that the government should be a protector and not a provider.

One of the purposes of the FFA is to develop character, to train for useful citizenship, to foster patriotism, and thereby to develop competent, aggressive rural and agricultural leadership. By conducting the activities of their chapters through democratic processes, they enlarge their understanding and appreciation for the ideals and principles of democracy.

In addition to their study in the science of agricultural production, they receive training in marketing and other problems of farm economics. Considerable emphasis is given to farm mechanics training involving the care, maintenance, and operation of modern farm machinery.

Legal size Mimeo in white, pink and canary.

**The ELDORADO SUCCESS**

**Notice of Sale**

**Eldorado Hardware**

**Changing Hands**

As of March 1st, the Eldorado Hardware will become the property of Tom J. (Bubba) Sammons, who will assume management of the property at that time.

All those owing accounts to the present business are asked to make settlement on or before March 10th. We will retain ownership of accounts owed to the firm during our ownership.

Also, those having accounts AGAINST the store are asked to present their bills immediately.

The store will close Wednesday, March 1, for inventory and re-open later under the new ownership.

**MR. AND MRS. ERNEST C. HILL.**

The FFA is training in a vital industry. The value of Texas farm and ranch production is nearly 2 billion dollars annually. The retail value of these food and fiber products is about 4 1/2 billion dollars. The Agricultural industry contributes about one-third of the total annual income for the State of Texas.

These young men are freshmen in a rapidly changing industry, which is made up of three closely related segments: producers of agricultural products; suppliers of equipment and other items used by farmers and ranchmen; and processors and distributors of farm and ranch commodities.

Many activities once performed on the farm and ranch are being handled today by suppliers, processors and distributors. Farmers and ranchmen now purchase most of their power in the form of machines and fuel instead of raising the work animals and feed as they did a few years ago. Modern broiler production depends entirely upon an up-to-date farm supply, processing and distribution system.

This shifting of jobs from farm and ranch producers to other segments of the agricultural industry, along with more use of improved techniques, help explain the rapid decline in Texas farm and ranch production from 34% in 1940 to 11% today. However, 40% of Texans derive their living from the total agricultural industry.

Most of the major changes in agriculture in recent years have been taking place within the agricultural industry itself—not between the agricultural industry and the rest of the economy. Present trends indicate that by 1975 about 40% of Texans still will continue to make their living in the agricultural industry, although the number of people actually engaged in farming and ranching will decline to 8%.

The importance of the agricultural industry is something we need to sell to the metropolitan areas of our state and nation. Future Farmers are performing their first duty as a citizen and a livestock raiser now. But, in the future we must have a unified voice which presents the problems of those who derive their livelihood from the land.

Farms have been pictured as an albatross around the neck of the nation, responsible for surplus and subsidy, with no consideration given to the real heart of the problem which is federal control over much of our production. And, production is our major bootstrap to pull ourselves up and to help ourselves.

I invite you to take a substantial look at what farmers, ranchmen and livestock people are doing for the economy of this state. Then I urge Future Farmers to plan now to make the real facts of the agricultural industry known to those outside it.

Future Farmers are students in the industry that is the foundation of Texas.

**New '61 Chevy with Jet-smooth ride!**

*Impala 4-Door Sedan—Jet-smooth traveler that rivals the luxury cars in everything but price*

The '61 Chevy loves to go because it goes so well. Purrs along pavements like a happy tabby. Takes rough roads in stride and all roads in style.

Just why does a Jet-smooth Chevy treat riders as royally as the high-priced luxury cars? It all came about through a delightful blend of Full Coil suspension, precision-balanced wheels, unique chassis cushioning, and a superb Body by Fisher insulated to hush away road sounds. All this adds up to less sway, less jounce, less dip, less dive, less tilt, less noise, less . . . well you name it.

Now combine this Jet-smooth ride with conveniences to pamper you and roominess to relax in. Add a full measure of quiet good looks. Voila, you've got Chevy's formula.

And the proof is in the riding. When you sample a Jet-smooth Chevy at your Chevrolet dealer's we think you'll find it just to your taste.

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

**In Those Days**

Compiled From Success Files

**ONE YEAR AGO**

Feb. 25, 1960—George Humphrey received his private pilot's license.

Mrs. Sybil Kinser was heading the Heart Fund drive.

Earl Barnett was elected head coach of the Eldorado Eagles, to succeed Jim Herridge.

Martha Ellen Wheeler became the bride of Roland Wade Kirk, in a church ceremony in San Angelo.

Basketball lettermen named as the season closed were Billy Van Dusen, Jim Runge, Larry Reesor, Jerry Johnson, Dean Williams, Lenvil Dunn, John McGregor, Mikel Jurecek, and Pete Logan.

**FIVE YEARS AGO**

Feb. 23, 1956—Jack Halbert, Jr., opened a Magnolia service station on South Main.

Frank Clarke died at the age of 57.

Dr. Eugene Harris of San Angelo was speaker at the Blue and Gold banquet of the Cub Scouts.

Elton O. Harris arrived home from Army duty in Japan and was visiting here with his parents, Mr. and Mrs. Odis Harris.

Mr. and Mrs. Bob Evans, Jr., were honored with a surprise house warming in their newly-remodeled home.

**12 YEARS AGO**

Feb. 24, 1949—A trio of Lola Beth Ballew, Myra Mae Farrington, and Gail Childers, sang at a banquet honoring the Senior class, given by the First Baptist W.M.U.

The Ratliff Funeral Home in Ozona was closed.

Orland Harris was undergoing treatment in a San Antonio hospital.

Frances Williams was selected DAR Good Citizen.

A son, their fifth child, was born at Kilgore to Mr. and Mrs. Irl Breedlove, former publishers of the Success.

Mrs. Paul Page, a recent bride, was honored with a gift tea in the home of Mrs. John Williams.

**35 YEARS AGO**

Feb. 23, 1926—There have been 752 poll taxes paid this year in Sheriff Luedeck's office.

J. Tom Green has announced candidacy for public weigher in Precinct 1, subject to the Democratic Primary.

W. A. Powers of the Eldorado Garage informs the Success that the Enochs-Powers Motor Co. have secured the agency for Chevrolet cars, and will receive their first car load about March first.

The Junior class organized October 29 with Floyd Young, president; Bernice Jones, sec.-treas.; and Lucille Page, chairman of the social committee.

Ruth DeLong, Lizbeth Hinyard, Earl Calhoun, Kenneth Cheek, Hubert Graves, Walter Ramsay, and Edwin Johnson, who are attending Abilene colleges, were home for the week end visiting.

Joe Jackson is new deputy sheriff, under Sheriff Luedeck.

A serious accident came near happening Tuesday evening when a Ford driven by Ruth Edens struck and knocked down Mr. Jeffries, an aged man, while he was crossing the street near the hotel. Mr. Jeffries was dragged a short distance but was not hurt.

A daughter was born Feb. 14 to Mr. and Mrs. Henry Speck.

Voy J. Mitchell, son of Jerome Mitchell, arrived home this week after a tour of duty in Japan with the Air Force. His next assignment will be in Europe.

**Home Demonstration Agent's Column**  
By MRS. VIDA KREKUCW

More advance in textiles has been made in the last 10 years than in the past 2000. Much of this, as you would guess, is in the field of wash and wear fabrics.

Your own experience will verify what the testers have found out. If the garment is well made and the manufacturer's instructions for washing and drying are followed carefully—clothes do keep their shape, size and crease. But most

wash and wear fabrics demand special handling. Automatic washers and dryers give the best results. However, these appliances must be set right on the dot; a short spin time; slow speeds in washing; low temperatures and a cool-off period in dryers all combine for the best looking cleaning jobs.

If you want to enjoy the freedom which wash and wear clothes will give you, do remember these points:

1. Wash garments often. Some stains will never come out if left too long.
2. Take it easy! Big washer loads crowd and wrinkle; wash and dry in small loads.
3. Touch up with a low temperature iron.

Have you ever wondered about who gets the fine toothed comb treatment on income tax returns? This seems to be roughly how things go and I am aware that it is rougher on some than others at times.

All returns are checked for errors in arithmetic. You will be notified of any errors, either for or against you.

About one out of 25 get a full-scale going over. There are no set rules but in general if any of the below listed facts show in your return it is more likely that you will be checked than for another person who does not show—

An income of over \$25,000.

A difference between the income you report and what your boss tells the tax man that he paid you.

Big amounts of income on which taxes are not withheld. Deductions running far above average for your income bracket.

Unusual transactions or unexplained items.

A large refund claim, especially anything over \$200.

It's a good practice to study your returns before and after they have been sent in. This is the best picture of just how you got along from a financial standpoint that you can possibly have. And by the way—do you remember when we used to pay taxes a year behind?

It took World War II and Beardsley Rommel to put us on a pay-as-you-go income tax plan. Mr. Rommel has since died but more credit is due his memory than is ever expressed.

**Blakley Campaign Here Headed By Jackson**

Austin.—Appointment of Edwin Jackson of Eldorado as Schleicher county campaign manager was announced recently by United States Senator William A. Blakley's headquarters.

Blakley, candidate to succeed himself in hte special Senate election April 4th, is serving his second interim term in the Senate. First appointed by then Governor Allen Shivers in 1957, Blakley was appointed in January of this year by Governor Price Daniel to serve in Vice President Lyndon Johnson's vacated seat until the special election is held.

**Announce Engagement**

**JUDY WEBB**

Mr. and Mrs. John F. Webb of Houston announce the engagement and approaching marriage of their daughter, Judy, to Gary Dan Griffin of Eldorado.

The ceremony will take place on March 31, 1961, in the First Baptist church of Eldorado.

Gary Dan is the son of Mr. and Mrs. Jack Griffin.

**D.A.R. Meeting Held**

The El Dorado Chapter of the Daughters of the American Revolution of Eldorado met Feb. 16 in the club room of the Memorial Building. Regent Mrs. J. B. Montgomery presided over the meeting.

Mrs. Duard Archer, chairman of the D.A.R. Good Citizen Committee, presented the Good Citizenship awards to Barbara Johnson of Mertzon, daughter of Mr. and Mrs. Perry Johnson; Barbara Gatlin of Sonora, daughter of Mr. and Mrs. Gatlin. Sammy Mayo, daughter of Mr. and Mrs. John F. Mayo, and winner from here, was unable to be present.

W. G. Godwin gave an interesting talk on National Defense. Mrs. L. M. Hoover was program leader and she gave an interesting talk on "Highlights of the White House."

Hostesses were Meses. Charles Wimer, Clyde Keeney, and Wm. Gunstead. They served cherry pie with whipped cream and coffee and tea.

Members present were Meses. L. M. Hoover, John H. Luedecke, Elizabeth Powell, J. B. Montgomery, Ernest C. Hill, W. F. Meador, Sr., Luke Thompson, Sr., Josh Ewing, Duard Archer (non-resident member from Sonora), the hostesses; and the four guests, Barbara Johnson and Mrs. Perry Johnson of Mertzon and Barbara Gatlin and Mrs. Gatlin of Sonora.

**Miss Pomeroy Bride Of Mr. McLaughlin Feb. 17**

**Mrs. Charles McLaughlin, Jr.**

Mr. and Mrs. G. S. Pomeroy of San Antonio announce the marriage of their daughter, Olivia, to Mr. Charles McLaughlin, Jr., son of Mr. and Mrs. C. C. McLaughlin of Eldorado.

The couple were married Feb. 17 in the First Methodist church in San Marcos, with Rev. Raymond Wilson officiating.

Attendants were Miss Dorene Nehr of D'Hanis and James S. Clark of San Angelo.

The couple are at home at Apt. A-6, Riverside Apts., San Marcos, Texas. Both are students at Southwest Texas State college.

Mrs. McLaughlin is a Junior speech major, president of Zeta Sigma Chi, and is listed in Who's Who in American Colleges and Universities.

Mr. McLaughlin is a Junior speech therapy major and was a member of the 1956 graduating class of Eldorado High school.

Mrs. L. T. Wilson is back here after visiting her daughters in California.

**BROWNIE TROOP 6 MEETS**

Brownie Troop 6 met Feb. 20 at the First Methodist church. The president, Carolyn Hanusch, called the meeting to order. The vice president, Letha Parks, called the roll with 18 present and two absent.

Minutes of the last meeting were read by the secretary, Kathy Meador. The treasurer, Gail Robinson, collected the dues.

Treats were served by Shelia Hanusch and Claudia Meador. — Sue Ann Morris, rep.

**BAND FESTIVAL SET FEB. 24-25**

Denton.—176 high school girl musicians have been selected to participate in the All-Girl Band Festival at Texas Woman's University Feb. 24-25.

The winners were named from several hundred applicants for the fifth of these annual music workshops. They represent 100 different high schools. Two 80-piece concert bands and a smaller stage band will be formed, and the girls will spend two days in rehearsal for a concert in the University Auditorium at 8:00 p.m., Saturday, Feb. 25.

Scheduled to attend from Eldorado is Judy Hext.

**Heads Heart Fund Drive**

**TOM RATLIFF**

In charge of the Heart Fund drive now under way in Schleicher county is Tom Ratliff.

February is Heart Month, and Mr. Ratliff is making plans for a drive to raise this county's quota of \$302.

Contributions may be mailed to him here in Eldorado.

At yesterday's meeting of the Eldorado Lions club Mr. Ratliff introduced Mrs. Homef Jordan, Jr., who presented a program on the Heart Clinic in San Angelo, which she has been directing for the past 42 years.

**Future Farmers Hold Barbecue Saturday**

Members of the FFA Chapter in the local high school, and their parents and other guests, turned out Saturday night for their annual parent-son barbecue in the basement of the Memorial Building.

The menu consisted of barbecue chicken, beans, potato salad, pickles, onions, tea, coffee, and ice cream. It was prepared by Orland Harris.

The Chapter officers opened and closed the meeting in regular FFA form. Brian Edmiston introduced guests and Leonard Kent gave the welcome. Orval Edmiston gave the response for the parents.

Speaker was Don McDonald.

**Bride-Elect Honored With Gift Tea Saturday**

The C. C. McLaughlin home was the scene Saturday afternoon from 3:00 to 5:00 for a gift tea honoring Ila Jean Boyer, bride-elect of M. E. Carothers, Jr. Hostesses were women of the West Side Church of Christ.

Receiving guests with Miss Boyer were her mother, Mrs. Ray Boyer, and Mrs. M. E. Carothers, Sr., of Anson.

Also attending were Mrs. R. B. Carothers of Rule, and her daughter.

Miss Boyer and Mr. Carothers plan to be married March 3 in Abilene.

**CIRCLE MEETS MONDAY**

The Emma Campbell circle of the First Baptist church met Monday at 2 p.m. in the home of Mrs. Bascom Hartgraves. Mrs. Morris Whilten, chairman, presided.

Mrs. E. W. Brooks reviewed two chapters of the mission book, "The Dreamer Cometh."

Refreshments were served to six members.

**Eldorado Downs Wall**

Friday night the Eldorado girls defeated the Wall girls 44-41. Jan Davis scored 21 points as the Eagles led the way. Wall managed to tie the score 32-32 in the third period; however, Eldorado pulled away and was never behind.

Gayle Woodward contributed 15 points and Verna Lux and Kathy Sauer had 4 and 5.

Guards Linda Nixon, Tissie Enochs, Judy McGregor and Joan Griffin led the defensive effort. The Eldorado girls will return the game with Wall, there. The game is scheduled for Thursday, 6:00 p.m. Both teams are preparing for bi-district games.

**Citizen Of Year**

Mr. J. W. Walker was named Plainview's Citizen of the Year for 1960 at the annual Chamber of Commerce banquet held Thursday night in Plainview.

Mrs. Walker, active in civic and religious affairs, was chairman of the 1960 United Fund drive there which exceeded its goal.

She is the daughter of the late Mr. and Mrs. D. C. Hill of Eldorado, and is the former Lucille Hill.

**CYNTHIA LYNN IS 1**

Mr. and Mrs. James Raibourn honored their daughter, Cynthia Lynn on her first birthday with a party Saturday in their home.

Four little children and their parents were on hand to help Cynthia celebrate. Favors were story books. Ice cream cup cakes and punch and coffee were served.

Mrs. Charles Stinson and children from Midland are here spending the week in the W. G. Godwin home.

**News From Our Neighbors**

**Hospital Expansion Set**

Menard County Commissioners Court Monday transferred \$45,000 in surplus road and bridge funds to the hospital fund, preparatory to carrying out the proposed expansion of Menard Hospital.

This was the first step toward the project since voters of the county last Nov. 4 approved in an opinion poll the \$120,000 expansion program for the hospital, which was contingent on the availability of funds without a tax increase or a bond issue.

The remainder of the money is expected to be available during the year. —Menard News.

**Country Club Plans Pool**

W. R. Yates, president of the McCamey Country Club, announced that the club planned to start construction of the club's swimming pool about March 15. Also, it is planned to make some minor repairs to the existing club house, he added.

Yates said that this is being done in an effort to create an atmosphere in which members, their families and friends would feel free to come, relax and enjoy the facilities which the country club could offer. —McCamey News.

**Chest Drive Short At Brady**

The McCulloch County Community Chest ended its 1960-61 campaign \$1,910 short of its goal, a report Tuesday to the directors shows.

The report was made by Charles Samuelson as the directors met at the Chamber of Commerce office.

The goal was \$14,197.44, and the pledges totaled \$12,286.56. Expenses for the drive were \$672.71. —Brady Standard.

**Two Bronte Firms Burglarized**

Two business firms in Bronte were broken into sometime Monday night or early Tuesday morning. Tidwell's cafe and the Coffee Shop cafe were burglarized and money was taken from cigarette machines and juke boxes, and cigarettes were removed from the machines.

Sheriff Melvin Childres and Deputy Jesse Parker investigated the burglaries, but Parker said Tuesday that clues leading to the discovery of the burglars were scarce. —Bronte Enterprise.

**Dr. Browne Heads C of C**

Dr. Charles F. Browne was named Tuesday night to the presidency of the Sonora Chamber of Commerce. Dr. Browne, formerly vice-president of the organization, succeeds Carl J. Cahill. Named by the board of directors to serve with Dr. Browne are Thomas L.

**Details For Dam Site Released**

The final agreement for joint construction by the United States and Mexico of Amistad Dam on the Rio Grande near Del Rio, has now been concluded by the governments of the two countries, according to a statement released for publication by the International Boundary and Water Commission. The dam is the second major international dam on the Rio Grande provided for by the Water Treaty of 1944.

The first, Falcon, about 75 miles downstream from Laredo, was completed in 1953. Upon completion of Amistad Dam, scheduled for late 1966, the combined capacity of the two will be approximately 9,745,000 acre-feet. —Sander-son Times.

Governor Price Daniel proclaims FFA Week in Texas, February 18-25. L-R are: Dick Weekley, Executive Secretary, Texas Association FFA; Governor Daniel; Joe Penn, President of the Texas Association FFA; and George Hurt, State Director, Vocational Agriculture.

### What Is The Future For The FFA In Texas?

By George Hurt, State Director Vocational Agriculture Education

We are living in a critical period where we find ourselves involved in a world-wide conflict of fundamental processes that have meant so much to our American way of life. These require a combination of sound leadership and a well-informed citizenship, both endowed with a capacity of eternal vigilance and a willingness for all-out effort to preserve the heritage and future of our nation.

Never before have so many people recognized the need to strengthen and perpetuate the fundamental processes in our country by which each generation of youth develops to its maximum ability, and out of which emerge the leaders in the many fields of endeavor.

The Texas Association of Future Farmers of America is an integral part of the vocational agriculture

program of the public secondary schools. It provides for its members, learning experiences essential in working with others, and encourages strong incentive for developing talents and initiative characteristic of outstanding leaders. The program is a planned, continuous approach to strengthen rural youth's opportunity and to bridge the gap between rural and urban accomplishments.

The members of the Texas Association of Future Farmers of America furnish outstanding leadership in activities that involve problems, concerns, and ambitions of youth. They are a vital part of their school community & church. They take the lead in molding opinions which contribute to the dignity, stature, and capability of today's youth.

Many outstanding leaders in business, industry, commerce, politics, education, and other professions received basic training in citizenship, leadership, thrift, and cooper-

ation as members of the Association of Future Farmer of America. The Association demands the interest, cooperation, and support of the adult leaders of the community, state and nation.

In a day when search for talent among our youth is a major pursuit, it is encouraging to know that over 400,000 farm boys in our nation are proceeding in an orderly manner to reach their potential through an organized framework of the Future Farmers of America that has been thoroughly tested over a period of years and proven to be sound. Such an organization is not available to the youth of any other nation. Therefore, the future is bright for this segment of education that contributes so much toward stimulating rural youth in developing their latent abilities to the fullest extent.

Mrs. W. A. Van Dusen is visiting this week with Mr. and Mrs. David Lawrence at Hobbs, N.M.

### Why Study Agriculture?

By Teddy Carruth, Nat'l V. Pres. FFA — Tuila, Texas

"Why study agriculture? Only about 10 per cent of our people are farming."

This is one of the many comments that have been voiced in America since the beginning of the great exodus from the farm to urban areas. Yes, only about 10 per cent of our working force is engaged in the actual production of feed, food, and fiber. In fact 90 per cent of our agricultural production is accomplished by only 2.1 million farmers.

However, agricultural education and the vocational agriculture training program in 9,000 American high schools includes an even broader concept of the agricultural industry than production alone. This concept envelopes three main segments: (1) suppliers of production resources to farmers, (2) processors and distributors of farm products, and (3) the actual farm producer. This combination of functions is a new term in our vocabularies—agribusiness. It is America's largest industry, employing not 10 but 37 per cent of the U. S. working population!

It is essential that recognition in education be given all three of these major segments of the agricultural industry. One should also realize that agriculture is becoming more closely tied to other important industries of the nation. Farmers alone are a 14 billion dollar customer of labor and industry each year. In many areas agriculture is the largest industrial customer. For example, in Texas the largest user of petroleum products is the agricultural industry.

With these facts in mind we cannot easily push agricultural education aside. The tremendous studies that have been made in the field of agriculture are a result of effective programs of research and education. But before research progress could be of any economic value to the farmer, he had to be informed on such improvement.

In past years farmers obtained needed information through a process that passed from farmer to farmer. Twelve years passed before the benefits of hybrid corn trickled down to the mass of all farmer. Under modern conditions, the agribusinessman cannot afford such delays. This slow remote process had to be replaced with a more effective educational system. Today's farmer consults newspapers, magazines, experiment station and colleges on the latest developments. And among the farmer's greatest direct source of information is the vocational agriculture student who receives daily instruction on more effective methods and practices. Besides assisting the established farmer in accepting better practices and devices, the agriculture training programs in high schools and colleges teach young men to be successful farmers, processors, or suppliers of tomorrow.

Although America has a constant supply of young farmers to replace those who leave the farm either by death or retirement, the nation is not as fortunate in supplying sufficient workers in many of the other agricultural occupations. And many of those who do not enter the agriculture professions do not have the educational backgrounds that are prerequisites for success under modern conditions. Vocational agriculture and the Future Farmers of America is the most effective programs yet devised to train boys to be good citizens and leaders in the ever-changing American agriculture.

Agricultural education should not be passed over lightly. It is essential in the twentieth century. It is a necessary ingredient for continued progress and prosperity.

EATON'S Corrasame Bond paper, also carbon paper, in stock at the Success office.

### The FFA Challenge

By Wilbert Meischen, President V.A. Teachers' Assn. Of Texas Raymondville, Texas

Future Farmers what will your responsibility for tomorrow be? I am sure, then as now, your assigned task will demand the best that you have to give to a profession that has made America great. Agriculture has and will always continue to attract outstanding young men. In this time of outer space development we must continue to produce the food and fiber that is the very backbone of all the free world. Don't take any part of our American agriculture for granted, as E. M. Tirany, the writer of our FFA Creed, so ably wrote it and I quote, "I believe in the future of farming, with a faith born not of words but of deeds." May we always remember this Future Farmer Creed because it is filled with many blessings when put into actual practice.

In Webster's dictionary the word "challenge" is defined as "a call to engage in a contest of skill and strength." Our Future Farmer activities are filled with this kind of sound guidance. I like the challenge that agriculture places before us. Each year you realize you are a little older and a little wiser. Your education must continue for there is always something more to learn.

The most significant thing about today's world is that it is a world of change. Things material and spiritual, economic and social are being olded and reshaped, destroyed and recreated to an extent never before witnessed in a single generation. Around the world things, that have been, are on trial for their lives before the bar of things that are.

The trend is toward greater specialization. Students enrolled in agriculture at colleges and universities do not take a general agriculture course. Rather, they specialize and receive intensive training in such areas as animal husbandry, bacteriology, soils, horticulture, or agriculture engineering.

Science and technology have provided us with a tremendous power potential. Throughout much of his long struggle for existence, man has had to work hard because of lack of sufficient power. Today we have learned how to harness the almost limitless power of the atom. Now, we have tremendous sources of power at our disposal.

We must never lose sight of the fact that besides having physical needs, people have intellectual needs, emotional needs, and spiritual needs. Whether we stand or fall will not be determined by "how well we have kept up with the Smiths," by the number of automobiles, tractors, refrigerators, dishwashers, or other gadgets we have in our homes and on our farms and ranches. The deciding factor will be how well we have met all of the needs of our own people and how much we have helped to meet similar needs for people in other parts of the world.

Morally and intellectually the world is now divided into many small parts. Science and technology have brought all of the people of the world relatively close together. Physically speaking, because of the speed of travel and communication, we are one world.

To succeed in our own personal lives, and to help make our country and world a better place in which to live and work, we must be fully prepared to meet the requirements of this complex and uncertain age. Your training in agriculture leadership will help carry you through the problems of tomorrow.

In Future Farmer activities you are given the ability to think and speak clearly and logically so that people will know precisely what you mean when you have something to say.

Our span of life is so very short when we compare it to the passing

of time. As you enter these eventful years of our future never forget that the only security you can ever have is the security within yourself. Security, like happiness, can neither be bought nor given. Each of us has to earn our own.

Character is what you do when nobody but God is looking. The older you get the more you will realize that the things which really count in life are effort, service, and character.

Each of us, rich or poor, educated or uneducated, capable and incapable, have a sacred obligation on this earth; to do the best we can, and to make the land we live on, the land we live in, and the world we live with, a better place because we are a part of it.

### Voc. Agriculture Plays Important Role In School

By M. A. Browning, As. Commis. for Vocational Education, Texas Education Agency

The program of vocational agriculture is an important and integral part of total program of public school education. As an integral part of the school program, administered by local boards of education and school officials, vocational agriculture makes significant contributions to preparation of students for adult responsibilities.

Vocational agriculture students are enrolled also in the social studies, language arts, sciences and other areas fundamental to development of the individual as an educated person and as a worthy citizen of our society. Vocational agriculture contributes significantly to this development also, as exemplified in the splendid leadership training students receive in the Future Farmers of America organization.

A significantly important role of public education, in addition to developing individuals as educated persons, is the preparation of students for competency in occupational life. In fact, such competency is an invaluable part of responsible citizenship. For over 40 years, vocational agriculture has functioned in this role of preparing high school students and young farmers for efficiency in producing food and fiber for our rapidly growing population. This program conducted by dedicated teachers of vocational agriculture has contributed abundantly to the increasingly higher standards of living in Texas, all Americans and peoples of other nations.

The role of vocational agriculture in the public school program is an important one as it joins with other areas of education in preparation of young people for adult life as responsible citizens, including the obligation of being occupationally competent in our American agricultural economy so basically important to standards of living of people, both at home and in nations throughout the world.

### School Menus

Monday, Feb. 27: Baked ham, pinto beans, mixed greens, fruit salad, buttered rolls, milk, canned fruit.

Tues., Feb. 28: Roast and gravy, creamed potatoes, frozen lima beans, tossed salad, buttered rolls, milk, apple brown betty.

Wed., March 1: Stew with vegetables, cole slaw, cheese slices, buttered rolls, milk, fruit cup and peanut butter cookies.

Thursday, March 2: Chicken fried steak, creamed potatoes and gravy, green beans, mushroom sauce, creamed carrots, buttered rolls, milk, chocolate cake.

Friday, March 3: Barbecued beef on bun, tuna sandwich, potato chips, deviled eggs, orange slices, ice cream.

# F. F. A. WEEK

## FEBRUARY 18-25

WE WISH TO OFFER OUR SINCERE CONGRATULATIONS TO ALL THE MEMBERS AND ADVISOR OF THE LOCAL FFA CHAPTER. YOUR ACCOMPLISHMENTS OVER THE YEARS HAVE BEEN AN INSPIRATION TO ALL OF US WHO SEEK TO DO A BETTER JOB IN OUR OWN OCCUPATIONS — WHO STRIVE TO BE BETTER CITIZENS.

YOUR CONTRIBUTIONS TO THE PROGRESS OF OUR COMMUNITY TEND TO CARRY OUT THE FFA MOTTO: "LEARNING TO DO, DOING TO LEARN; EARNING TO LIVE, LIVING TO SERVE."

## The First National Bank

Serving Schleicher County Since 1907

**RIDDLE:** What costs less the more you use it?

**ANSWER:** The electricity

that serves you in your home. The more of it you use, the bigger the bargain... the less you pay per kilowatt-hour for it. In fact, in homes served by WTU the average cost of electricity is 22% less than it was 10 years ago.

Think how many new uses you have for electricity these days... from your TV to your work-saving appliances for cleaning and washing. This is why your over-all bill may be a little higher than in the old days.

But what else in your home can give you so much value yet cost so little?

West Texas Utilities Company

an investor owned company

Electricity COSTS SO LITTLE—YOU CAN USE LOTS OF IT!

## COUNTY AGENT'S COLUMN

by Tiny Godwin

Schleicher County Agricultural Agent

Taking advantage of all income tax laws to save every dollar, legally, is important to the producer and to all wage earners. Most producers that I have talked to have never fully realized that a dollar saved on income tax is equal to a \$1.50 earned, on the minimum of the 20% bracket. Here are the reasons why:

Figures provided by the Tax Foundation, Inc., show how much taxpayers pay yearly on the average directly and indirectly to the federal, state, and local governments. This includes an allowance for such levies, corporate income, Social Security taxes, paid by employers and passed on to you as part of the price you pay for goods and service.

Suppose the family has an income as in first column, the federal tax follows, then state and local, with total in the extreme right column:

\$2,000-4,000	595	391	966
\$4,000-6,000	972	563	1535
\$6,000-8,000	1,407	690	2097
\$8,000-10,000	1,656	793	2454
10,000-15,000	2,382	950	3332

The dollar you saved on income tax by taking advantage of the income tax laws legally, has already been levied on by federal, state and local governments and withholding tax taken out in case of the wage earner. The dollar you earn today has yet to go through all the levies for 1961. Take any commodity off the grocery shelf; say the staff of life, bread, or gasoline or machinery. Then you begin to see just how important a good record becomes at income tax time.

The last place to look for hints on dieting would be in a county

agent's column. I have nothing to say about dieting from the food standpoint. But from the mental side of dieting—yes.

If you are overweight, stop worrying about it and try to find out the reason why.

Medically speaking, obesity can be divided into three classes: the endocrine type has its origin in faulty glands and is comparatively rare; second, those with large appetites and small wills; and third, psychosomatic fat.

Man is the only animal who eats without hunger and drinks without thirst. Most other animals know instinctively how to select their food. Man is the only animal who can develop proper habit of eating. He can select and maintain a proper figure.

There is one rule for diet. Reducing is individual. What is pleasant for one is difficult for the other. Take into consideration your tastes and temperament.

Those who have aversions of following set menus have been very successful at eating everything but only one-half the quantity. Others have been successful in cutting down on starches, fried foods, and sweets. Some can reduce by merely omitting in-between snacks. Others take off weight with a high protein diet of steaks and lean meat, with salads and vegetables. Find other methods. Find one that appeals.

Psychosomatic fat includes those who eat from psychic hunger. Just as some people are driven by internal emotions to drink, others escape from life's problems by over-eating. If your overweight problem is from a state of mind, look for the cause. Ask yourself if your appetite is the result of unhappiness or a release from

extreme nervous tension. Before any diet will work check the mental side of dieting. With new eating habits, cultivate a new point of view for life. If you can't go it alone, get professional assistance. Your doctor can help.

If we can't be satisfied with what we receive, at least be thankful for what we escape.

Farmers who have mesquite trees growing on or near the fence line can increase the yield per acre of the crop grown. Frill treating the base of mesquite with 2-4-5-T low volatile herbicide. All mesquite within 40 feet of a growing crop should be treated. To frill, overlapping ax-cuts near the ground and treat until the solution bubbles from the freshly made ax cuts. Cost should run about 1 1/2 cents per tree. This is the only effective method that can be used this time of year.

4-H boys and girls exhibiting livestock at the San Angelo Fat Stock Show are: Sue Edmiston, 2 baby beefs, one registered heifer, a group of 3 range ewes and a registered Rambouillet ewe. Verna Lux, 2 fine wool lambs; D. Lux, 2 fine wool lambs; Jerry Burleson, one baby beef, Jimmie Belk, two fine wool lambs; Jimmie O'Harrow, four registered heifers; Corky and Buddy Hodges, crossbred lambs.

The team of Charles West, John McGregor, Buz McCormick and Gary Whitten have been entered in the grass judging contest.

Jerry Burleson and Jimmie Belk will be the 4-H boys to participate in the calf scramble.

The most successful physicians are those who mix hope and faith with the medicines they prescribe.

### Boys Like The FFA

By Joe Penn, President Texas Association, FFA

Before I became a member of the FFA organization, I often wondered why my older brothers were so wrapped up in this all-boy organization. After becoming a member five years ago, I learned why. It is an association of the boys for the boys. It helps to build them into well-rounded dependable agricultural leaders. Many other fields are also opened to boys with FFA training. They can go into the work of journalism, teaching, shopwork, public relations, science, or even politics. The boys realize the importance of selecting a career and the training they are receiving; therefore, they work laboriously to achieve the most from their four years in FFA work.

From the time they first enter their first class of "Ag" until they graduate they realize that this is to be their work. As Green Hands they learn to plan and initiate those plans. Dependability is one of the first lessons learned. After they pass the Green Hand test they begin to eagerly work for themselves and the organization.

No boy is ever forced to carry any project or participate in any contest. All work is done on a completely voluntary basis. They are encouraged by their advisor to select projects which they like and enter contests which will bring out the best in them.

The field trips are not only educational, but are fun as well. A certain amount of freedom is given the boys on these trips, yet their activities are constrained to give the proper significance to the trip. The boys respect the restraint placed on them because they are aware of the advantage of learning by doing.

Everyone is interested in becoming a leader. Probably each boy dreams of being the leader of his chapter, district, area, or state. He is allowed and encouraged to develop his talents, but he is never pushed into the limelight. He realizes that what he accomplishes must be done by his own hard work.

The planning of all chapter meetings, banquets and other entertainments is done by the boys. Since it is the organization of the boys, they are responsible for the success of the event and each boy gladly assumes his responsibility. The boys really appreciate the confidence their advisor has in them.

The art of carrying on a meeting is stressed in FFA work. Parliamentary procedure is a must in an FFA meeting. This is an accomplishment that is greatly appreciated in future meetings that may be attended by some of these FFA boys. A person well-versed in parliamentary procedure is always welcome at civic meetings, business meetings, or any other type of meeting where lack of parliamentary procedure results in confusion and a waste of time.

Yes, the FFA is truly an organization of boys for boys, but we might go even further and say "The FFA is an organization of the boys and for the men they will be one day."

Mr. and Mrs. R. N. McDonald spent the week end at their lake cabin at Granite Shoals. Mr. and Mrs. James William McDonald and family from San Antonio spent the week end with them.
