Former Resident, Ted Hoss, Dies

Ted Hoss, 70, retired production foreman for Sinclair and one time resident of Eldorado, died at Clinic Hospital in San Angelo early Friday morning, January 13.

Services were held at 2 p.m. Monday in Robert Massie chapel and burial was in Lawnhaven cemetery. Survivors include his wife of Kingsland; one daughter, Mrs. Victor J. Friesen of San Angelo; three grandchildren and seven great-

grandchildren. Mr. Hoss was a resident of Eldorado for several years starting in 1957. Recently he made his home in Kingsland.

Eldorado Sweeps Eden Tournament

The Eldorado boys and girls brought home championship trophies from the Eden Tournament this past week end and the boys also received the traveling trophy which is a beautiful gold basketball awarded to the boys' champion. It returns to the tournament next year. A team must win it three consecutive years to keep permanent possession of it.

Both teams met and defeated Junction and Water Valley in their march into the finals. The boys then took out a tough Paint Rock team in the finals 49-38, and the Eaglettes took the title from the host Eden girls, 58-43.

DOCTOR COMES AND LOOKS OVER ELDORADO

The Success for the past four months, answers and who has been corresponding, too, in here Saturday with his wife, to look over the situation.

His visit seemed to be an eye-opener for Eldorado. He seemed to see a much greater future for Eldorado than what we had expected or hoped.

A bill will be before the Texas State Legislature authorizing establishment of a Schleicher County Hospital District. This bill is expected to be passed without opposition some time in part of February.

This is the first part of the hospital program. Passage of the bill by the Legislature does not set up a hospital district all by itself. To make it official the whole proposition will have to be submitted to the voters of the county.

When it is brought to a county vote the proposition will submit a number of things-

- (1) Plans and specifications for a hospital and nursing home.
 - (2) Approximate cost.
 - (3) How large a bond issue.

Architects and contractors will have to be consulted in order to obtain facts and figures before bringing this proposition to a county-wide vote.

As all of these problems were tossed around Saturday we found that Dr. Brame was well informed and extremely articulate, that he had answers for most of the questions and he had some questions of his own.

Dr. Brame was definitely interested in this project—he didn't come all the way up here just for curiosity. He explained that he had an associate in Pasadena who was also interested with him in Eldorado. He said further that the Eldorado facility, if voted by the people here, would require not one but TWO doctors, and that as team they were definitely interested in it.

Dr. J. B. Brame of Pasadena, who from first one person and then another. has been reading the hospital articles in We picked up a number of his specific

 - (5) Eldorado would definitely be a two-doctor job.
 - (6) If Eldorado should offer such service as he outlined it would draw business from all nearby counties.

The doctor's wife was not present the near future—probably the latter at the "men only" meeting at the CoOp Saturday, but during the remainder of his stay there were several social meetings. There was lunch at the home of Mr. and Mrs. E. C. Peters Saturday with Mr. and Mrs. Ed Meador as guests.

Jo Ed Spencer showed them thru El Dorado Woolens after noon.

At 3:30 Saturday a coffee and getacquainted session was held at the band hall where people could meet the doctor and his wife—some 200 attended.

Dinner at Calk's Saturday evening and they spent the night at Judge Ratliff's. Before leaving Sunday morning they were served breakfast by Ed and Martha Lee Meador.

We only hope that Dr. and Mrs. Brame were as favorably impressed with their recention here in Eldorado as the people here were with them. Several citizens here were heard to remark, "We'd sure be lucky to get a doctor like him."

So there is the situation at this time—a team of highly qualified physicians and surgeons are interested in locating in Eldorado if-----

First National Gets Two New Directors

At the regular annual meeting held January 12th, the stockholders of the First National Bank of Eldorado elected the following to serve as directors for the year of 1967:

Leslie L. Baker Jo Ed Hill Ed Meador James A. Page Paul Page James L. Powell.

Ed Meador and James A. Page were added as new directors, replacing W. O. Alexander and George R. Long who had served for many years. Both Mr. Alexander and Mr. Long requested that they not be re-elected due to advanced age and poor health.

The new directors are both lifelong residents of Schleicher county and each has been active in ranching operations. Ed Meador, in addition to ranching, has interests in insurance agency, abstract company, and oil and gas operations.

City Bond Election Coming Up Tuesday

Property tax-paying voters in the City of Eldorado will go to the polls next Tuesday to vote on a bond issue for \$65,000 in reve-

nue bonds. As listed in the official legal notice on page 4, the bonds will be issued for the purpose of purchasing facilities and equipment for, and making extension and improve-

ments to the city's gas system. Election will be held at the Fire Station with John Hodges and T. R. Spence acting as election

Voters will be those owning property rendered for taxes and who possess a poll tax or registration for the past year, plus those over 61 who are exempt from a poll tax. A good turn-out of voters is

expected On page 3 of this issue the city dads present their case and why it will be to the advantage of our citizens to vote for the bonds.

Official Vote Rule By Attorney General

Austin, Tex., Jan. 17-Attorney General Crawford C. Martin said today that persons over 60 years old who live in a city of less than 10,000 inhabitants, or in a rural area in any county except Bexar county, will not have to register in order to vote in elections held during the year 1967, regardless of the outcome of the pending lawsuit on the constitutional amendment which would require all voters to register. Martin said that House Joint Resolution No. 13, which proposed the constitutional amendment, expressly fixes the effective date of the amendment as February 1, 1968, and consequently it does not apply to elections held before that date.

Local Girl In State Finals

CONNIE SUE SPECK

Connie Sue Speck, daughter of Mr. and Mrs. Henry Speck Jr., was one of the nine finalists in the state's Sew It Yourself with Wool Contest which was held January 7, 1967, in Rosebud Theater, Campus of Texas Woman's University. She was entered in the junior division and placed second at the district contest in Ozona, December 10.

Connie modeled a fitted dress with a jewel neckline. She created it from a citrus yellow, handloomed 100% wool by the El Dorado Woolens. She modeled a matching scialle of coordinated plaid. Her accessories were avacado leather shoes and beige kid gloves to repeat the off white in the plaid of her scialle.

The remarks written by the judges verified that Connie Sue was in the finals because standing presentation of wool that has atmosphere of freshness, smartness, and simplicity with a spark

of imagination.' The winner of this division was Sue Francis Cox of Comanche. She won a \$50 U.S. Savings Bond and a trip to the national contest which is next week-end in Las Vegas, Nevada. The Senior winner was from Denton: Martha Carol Mott who won a \$300 scholarship and a trip to the national contest.

This contest is sponsored by the Woman's Auxiliary of the Texas Sheep and Goat Raisers Associa-

Other local girls who entered the district contest in Ozona were Kathy Carlman, Nancy Lux and Nan Sauer. Nan tied for third place in the sub-deb division.

Ozona Tournament To Open Today

The Eldorado Eagles, champions of the Eden Tournament, will jump head long into the tough competition of the Ozona Tournament to-day (Thurs.) at 6:00 p.m. The Eldorado boys will take on always tough Abilene Christian High Sch. This school does not operate under interscholastic league rules and therefore plays more games per season than most area schools. However, the Eagles have been steadily improving as the season has progressed and will give any team a battle.

Their thoughts are trained on winning and their fine team play has proved it. If the Eagles can tame A.C.H.S. then Friday at 6:00 they will take on the winner of the Mertzon and Sonora contest. If they should lose the opener then they play the Mertzon-Sonora loser at 1:00 Friday.

If the Eagles can come through with two wins then they will play at 1:00 Saturday with the third place game at 7:30 and the champonship game at 9:00 p.m.

There are 14 teams in the tournament and in the upper bracket there are such teams as Norton, Big Lake, Barnhart, Rocksprings, Iraan and Junction. Norton or Big Lake is favored to make it to the finals. The lower bracket includes Eldorado, A.C.H.S., Mertzon, Sonora, Miles, Christoval, Wall, and

Game time will be posted at the Post Office each day so all of Eldorado can back the Eagles as they try for their second championship.

To The Citizens of Eldorado

Your City Council has called for an election on January 24 for the purpose of approving the issuance of \$65,000.00 in municipal revenue bonds for the proposed purchase by the City of the existing gas transmission system which is presently owned by Eldorado Pipeline Company, an independent concern whose owners are not residents of the City. The primary objective in bringing this issue before the public is the Council's sincere desire to provide the people of our city with the best possible gas service at the lowest possible cost.

In 1960, James A. Weig, representing Cities Service Oil Company, estimated the Page Field gas reserves at thirteen billion cubic feet of gas. From 1960 through 1965, only three thousand, six hundred million cubic feet of gas was sold. Gas from the Page Field will be available far in excess of the time needed to pay for the system through savings obtained by municipal ownership of the system.

Revenues from the purchase of the existing facility and new construction contemplated will more than pay for the system. It is estimated that approximately \$4,500.00 per year in additional revenues can be allocated to retirement of bonds sold. There will be no need for, nor will there be any increase in taxes since these bonds will be retired solely by revenues received from the sale of gas to consumers.

If this bond issue does not pass, and the City is forced to purchase gas through private sources, a 10% increase over present rates can be anticipated immediately. There has already been one rate increase absorbed by the City which was not passed on to consumers.

Under the proposed purchase of existing facilities, a reduction from 21 cents per 1000 cubic feet of gas in cost to the City to a cost of 13 cents per 1000 cubic feet of gas can be anticipated. It is planned that additional gas—to be used in emergencies such as unusually severe weather—can be purchased at a proposed rate of 20 cents per 1000 cubic feet of gas from new sources of production that have recently been completed.

During the year of 1966 the City used 145,346,000 cubic feet of gas. If this rate of use is maintained, the revenue from the sale of gas under the present rate structure could retire the proposed bond issue in six years.

Should the City's present supply remain in private hands, and should present sources of gas supply fail, all future supplies of gas would by necessity have to be purchased through private ownership. Estimated cost to the City through "middle-man" purchases under those conditions has been projected to a price of 32 cents per 1000 cubic feet of gas.

The following represents an accurate picture of the profits realized by Eldorado Pipeline Company through gas sales to the City for the years indicated:

1963		\$10,999.15
1964		_11,784.06
1965	This would see be speak	_11,290.90
1966	The backs of a set since	_11,349.30

It is the Council's intention to pass the benefits of municipal ownership of the present gas transmission system to the consumers in the form of better, more reliable service at the least possible cost.

We earnestly solicit your consideration of the above information, and your support for increased benefits to your community.

Respectfully submitted,

Jr. High Tourney Held

The fans of Eldorado got to see well balanced team of Junior High boys in action here this past week-end as McCamey dominated the teams they faced in the Jr. High tournament here. Every team found it hard to score on them and at the same time they managed to score quite well. They were very deserving of the 1st place trophy which they won. Sterling City did not overwhelm anyone as they had to go into overtime to beat Sonora in the semi-finals to get the honor to play McCamey and win the second place trophy. Big Lake hung on for a two point win from a surging Eldorado team in

the consolation finals. The local teams did not win but one game, but showed great desire on defense and just could not find the basket on offense. The 7th grade boys did real well for the competition they faced. They played good defense in losing to Sterling City 21-12, and stayed within in the 60-county Episcopal Diocese range of Big Lake until the 4th of West Texas will assemble at quarter. Angoras Fall To **Eagleties Tuesday**

The Eldorado girls didn't burn the nets off the baskets Tuesday night but they did have a good second half to down the Angoras

The game started off with a 13-9 first quarter but a cold second quarter saw Eldorado with only a 19-17 half-time score. The first half had the three Eldorado forwards hitting 6, 6, and 7 points with 5 free throws missed.

The second half began with Libby Preston leading the way with 7 points and a 30-27 lead. After a few minutes of the fourth quarter had elapsed the green went into a control game in which they feel confident. It paid off as Chris Edmiston sank 5 of 6 free shots, Susan Hill 2, Stella Hubble 2, and Libby Preston was wide open for a lay-up.

Nancy Jurecek did an outstanding job on the Angora post girl in allowing her but one point. Sherry Yates, Shirley Hubble and Chris Edmiston played their usual fine defensive game and Jacque Davis, Shane Henderson, Jan Wagley, and Billie Gayl Blaylock contributed good defense.

This is always a game the Eaglettes like to win because the competition is keen between the

The first session of the 90th Congress started off with a bang, and set the stage for restraint and prudence in the months ahead.

In the first order of business the flamboyant Harlem Congressman, Adam Clayton Powell, was stripped of chairmanship of the House Committee on Labor, and was then ordered to step aside and not take the oath until a select committee investigates the many charges against his official conduct.

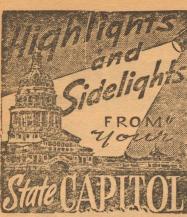

The vote to have Powell step aside was overwhelming-364 to 64, with the majority including all from Texas but two-one member from San Antonio and one from Houston dissenting.

The President's State of the Union message was typical of such addresses, with one new recommendation—a raise in income and Social Security taxes to help finance additional welfare programs. Despite the prediction that the federal deficit this year will be about \$10 billion, the President called for a substantial increase in the vast complex of welfare aids.

As I see it, we should concentrate on financing the war in Vietnam and combatting inflation, and reduce non-military outlays instead of saddling an additional tax load on the American people at this time. The income tax proposal would raise about \$4.8 billion a year. It would be no problem at all to cut nondefense spending by \$5 billion, or even more.

Moreover, the President's recommendation for a 20% increase in Social Security benefits would cost about \$4.5 billion a year, which presumably will have to be financed by an increase in the social security tax. Thus, the overall jump in taxes would be the equivalent of about 12% in income

taxes. The President's message pleases Labor by not sugesting any new strike control Legislation to better protect the public interest. And it offended the militant professionals in the civil rights movement because the speech did not give more emphasis to their demanda

This included Speaker Ben Barnes' proposal to Jones' ruling will be appealed adjusting differences in bills passed by the two houses, rather than writing new legislation.

Another major provision calls for joint committees to hear budget requests and perform some housekeeping functions.

Still another would require that conference committee meetings be open to the press and the public.

Lt. Gov. Preston Smith turned a cold shoulder to the conference committee restriction, long advocated by Barnes. Smith said the than twice as many persons each Legislature has too many more important things to do than squabble over rules.

According to some House lieutenants, Barnes feels that a majority of the Senators favor his proposals. Smith pointed out that rules can be approved or amended only by a two-thirds vote.

So, the House version on joint rules is expected to spend an extended cooling-off period in a Senate committee.

If the House recommendations are not accepted, Barnes made it clear that he will regard his own conference committee appointees as duty bound to adjust differences only. If Senate conferees are not so restricted, he readily admitted an impasse may be reached when the first controversial piece of legislation goes to a conference

Col. Homer Garrison Jr., director of the Department of Public Safety, has warned Texas motorists that the 1967 vehicle inspection period is two-thirds over and only about one-third of the vehicles have been inspected.

"This means that during the 12 weeks remaining before the April 15 deadline for inspections, more week must have their car inspected to avoid long lines forming at the

end of the period," Garrison said. Garrison also got in a recruiting plug for the department, pointing out that accepted applicants for the Highway Patrol may enter employment immediately without waiting until the next patroltraining school begins, as has been the practice.

There are jobs available immediately for men 20 to 25 years old. Applicants may sign up for written exams at any of the regional, district or sub-district DPS offices.
