# Ford

THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3 1/2-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

**STOP, THINK, AGT.**

If sinners did but know how God  
Did love and care for them,  
They'd surely quit the down  
ward road,  
And in return love him.  
For God so loved the world  
that He,  
Did give his only son,  
To die for them upon the tree  
He died for every one.  
But if his love, you do resist  
His offered mercy scorn  
His Holy Spirit will desist  
And leave you Lone Forlorn.

If man could see with natural  
eye  
The awfulness of hell,  
And hear the imates fruitless  
cry  
Where they are doomed to dwell,  
'Twould surely break the hard-  
est heart  
And cause them to repent  
And then God's love he would  
impart  
Through Christ, from whom  
he sent.  
And now dear sinner stop and  
think  
Before you futher go,  
For you are walking on the brink  
Of an eternal woe.

**WHERE WAS HE WORKING?**

Somewhere in the ranching  
country of southwest Texas,  
possibly in this county, during  
the past winter, beleived to  
have been in December or Jan-  
uary, a well driller was engaged  
in drilling a deep water well for  
a ranch owner.

He became ill of the "flu" or  
pneumonia, became unconcious  
and died within a few days.

I have information that will be  
valuable to this mans family. I  
want to know his name, the ad-  
dress of his family, the name  
and address of the party for  
whom he was drilling the well  
and any other information avail-

the above, write me in detail. I

**Only a Cold.**  
Are you ill? is often answered  
"Oh! it's only a cold," as if a cold  
was a matter of little conseque-  
nce. but people are beginning to  
learn that a common cold is a  
matter not to be trifled with,  
that some of the most serious  
diseases start with a cold. As  
soon as the first indication of a  
cold appears take Chamberlain's  
Cough Remedy. Remember  
that the sooner you get rid of  
your cold the less the danger,  
and this remedy will help you to  
shrow it off.

Every druggist in town—your druggist and everybody's drug-  
gist has noticed a great falling off in the sale of calomel. They  
all give the same reason. Dodson's Liver Tone is taking its  
place.

"Calomel is dangerous and people know it, while Dodson's  
Liver Tone is perfectly safe and gives better results," said a  
prominent local druggist.

**Take "Dodson's Liver Tone" Instead!**

Dodson's Liver Tone is personally  
guaranteed by every druggist who  
sells it. A large bottle costs but a  
few cents, and if it fails to give easy  
relief in every case of liver sluggish-  
ness and constipation, you have only  
to ask for your money back.

Dodson's Liver Tone is a pleasant-  
tasting, purely vegetable remedy,  
harmless to both children and adults.

Take a spoonful at night and wake  
up feeling fine; no biliousness, sick  
headache, acid stomach or constipated  
bowels. It doesn't gripe or cause in-  
convenience all the next day like vio-  
lent calomel. Take a dose of calomel  
today and tomorrow you will feel  
weak, sick and nauseated. Don't lose  
a day's work! Take Dodson's Liver  
Tone instead and feel fine, full of  
vigor and ambition.

**INSPECTORS REPORT ON ELDORADO HIGH SCHOOL.**

Below is the report of the State School Inspector who recently visited our school, and shows the need of the present bond issue and proposed improvement the school is submitting to the people.

Eldorado High School, M. F. Hurst, Superintendent. Visited February 9, 1920.

By Chas. M. Rogers.

Eldorado High School with the elementary grades is housed in a two-story brick building, which is well lighted, heated and ventilated with the Smith System, and kept in sanitary condition. However, the building is not adequate for present needs. Another room is needed for the elementary grades, and more room is needed in the high school for library and laboratory. There is also a great need for a good auditorium. Some plans have been made toward erecting another building to take care of some of the grades.

There has been commendable improvement in library in the last two years. Every grade room has a good book case, and a good selection of books, meeting the minimum requirement for grade libraries in classified schools. The high school library has good book cases and a good selection of books. These are kept in the superintendent's office, and arrangement which is not satisfactory nor conducive to the best results. As soon as space is available, a room should be set aside for library purposes.

Part of one of the class rooms is used as a laboratory for all the sciences taught. There is hardly adequate space in this room for sufficient equipment. Two demonstration tables serve very well for physics and general science, but there is only one for chemistry. Another is needed, add more individual locker space should be provided. The apparatus is adequate for these sciences.

On account of the short duration of the supervisor's visit, only a limited amount of class room work was seen. There seemed to be a good spirit and attitude toward the work, and apparently standard work is being done. A good deal of attention is devoted to note-books, and these show evidence of careful preparation and correction.

The tenth grade English class had a short recitation on an assignment in the History of

American Literature. Pupils revealed only a moderate degree of familiarity with the text. The remainder of the period could have been used advantageously in reading some of the poems of the author studied. The teacher informed the supervisor that this plan is sometimes used, but on this particular day, on account of doing part of the work of an absent teacher, he had not been able to make preparation for it.

The general science and chemistry classes were doing laboratory work. Individual work was done in the preparation of apparatus and in performing experiments. Apparently, a standard quality of work is being done. The notebooks are being prepared entirely within the laboratory.

In the American History class, there was no assignment in the text due to the fact that the time was allowed for the preparation of some papers. Part of the class period was quite effectively used in giving suggestions for the preparation of the next lesson.

The civics recitation was fairly well conducted. Pupils are interested, enthusiastic, and well prepared on the lesson.

**RECOMMENDATIONS:**

1. That the proposed new building, be erected as soon as possible.
2. That upon the erection of the new building, better library and laboratory facilities be provided.
3. That map work in history be more emphasized.
4. That the quality of English in the school be strengthened by requiring correct English in all the work.
5. That affiliation be granted as follows, providing the specimens of work submitted meet the approval of the examiners; English, 3 units, Physics, 1 unit, General Science, 1 unit. If you have read the above report you can see the need of voting the bonds on April 10, so we can meet the recommendations of the State Inspector.

**RACING HORSE-SHOE TIRES**

ALL new tires look much the same on the outside, but experience has proven them to be mighty different on the inside.

That is why many corporations are today buying tires only on performance. The makes of tire that gives the most miles per dollar get the business.

Horse-Shoe Tires are today specified exclusively by some states as well as by many of the world's largest corporations.

Thus they have "proven" their comparative merit under the severest test that could be given an automobile tire.

Remember the Horse-Shoe Tread.

**EIGHT HUNDRED LEADING DIVINES**  
PLACE STAMP OF APPROVAL AT  
DALLAS CONFERENCE BY UNANI-  
MOUS ACTION ON FINDINGS OF  
COMMITTEE REPORT. URGE THAT  
ALL CHURCHES CO-OPERATE IN  
GREAT CHRISTIAN MOVEMENT.

In a message of acknowledgement and  
gratitude, the Findings Committee ap-  
pointed at the recent Pastors' Conference  
of the Interchurch World Movement held  
in Dallas issued a statement which was  
unanimously adopted by the Conference.  
This is the message to the church people  
of Texas, as sent by more than eight  
hundred active ministers, representing  
twenty one denominations from fully two  
hundred counties in the State of Texas.

We acknowledge with gratitude the  
gracious leadings of Gods Providence in  
all things. We thank with reverent  
hearts the profound conviction that this  
movement is of God.

It has been a session of spiritual fel-  
lowship when more than eight hun-  
dred pastors of our Protestant Churches  
of Texas have been sitting together for  
three days thinking about and praying  
about the common interests of the king-  
dom of our common Lord and Master.  
Our hearts have been moved with this  
earnest of the fellowship that is to be  
ours after the victory is won.

The Interchurch World Movement is  
not a scheme for organic union but a  
plan whereby the Protestant Churches of  
America may co-operate in carrying on  
their educational, missionary and benevo-  
lent programs, at home and abroad. It  
is first of all an effort to survey the needs  
of the whole world, and measure the  
whole responsibility of the church. This  
is the first time in history that the  
Christian churches of North America  
have ever attempted to study the con-  
dition of the whole world. "These sur-  
veys stand before the Christian church  
as the greatest challenge that has ever  
faced since it received the great com-  
mission," and they have revealed the  
magnitude of the unfinished task and the  
inadequacy of the efforts which the  
church has as yet put forth.

We further propose a program by which  
the churches may unitedly attack their  
common task. That task is fourfold:  
To bring the whole church to a recogni-  
tion and acknowledgement of the stew-  
ardship of life and possessions, to en-  
large the scope and improve the methods  
of missionary education, to win souls;  
the chief business of the church; and to  
enlist the whole life of the church for  
Christian service.

We approve the spirit and progress of  
the movement since the World Survey  
Conference was presented to us by the  
Interchurch leaders at the Texas Pastors'  
Conference. We feel that this is a pro-  
gram in which all the churches of Christ  
could co-operate and venture to hope  
that the day may soon come when they  
will be found in such fellowship of ser-  
vice.

We recommend the approval of the  
findings of the Atlantic City Conference.  
We urge that our pastors in their re-  
spective ecclesiastical fellowships use  
every influence to secure adequate sup-  
port for the ministry and an adequate  
provision for the care of the aged and in-  
firm ministers and their dependents, and  
we are persuaded that the realization of  
this program will make this possible.

We recommend that all pastors co-  
operate in the holding of the county mass  
meetings in order that this program and  
the fellowship of its service may be  
brought to all local churches.

We urge that every minister sympa-  
thetically study this movement, and  
humbly and earnestly pray that God may  
guide in all things and give us the grace  
to follow where He leads.

Respectfully submitted, Rev. Brooks I.
