CHAFFIN-CRAWFORD.

The Christoval Observer announces the marriage of Miss Steele Chaffin to Paul E. Crawford, on May 15.

The groom is well known to many Success readers who join us is wishing he and his bride many happy moons.

Frank Meador was in the city Saturday afternoon and advanced his subscription to The Success to April 1921.

Geo. McIntyre was in the city Monday enjoying the wet weather.

ANOTHER RAIN SATURDAY AND SUNDAY.

Schleicher County was visited again Saturday and Sunday by another good slow rain, which amounted to almost an inch for the two days, a few warm days of sunshine will now make king cotton come a jumping. The grass is greening up again and the country in getting back to normal conditions again.

Our friend Clarence Johnson can smile again now, it has rained.

PRESIDENT CARRANZA

KILLED BY OWN MEN.

Last Thursday, while trying to make his way to the coast, to make his escape from Mexico, Venustiano Carranza, President of Mexico, was assassinated by his own men.

Carranza became President when the Huerta government was overthrown, he was elected President in March 1917 by the largest vote ever cast for President in that country, but like others who have served in this capacity he has gone the route of death.

During the late world war his sympathy was with Germany and her Allies.

The body of the murdered President was shipped to Mexico for burial.

Carranza was offered safe passage out of Mexico if he would surrender, but he choose to make his own get a way and he met his fate May 20.

Miss Dell Bearce entertained at the School Auditorium Friday with a recital by her music class, Miss Bearce has had a large class, which she has faithfully instructed and her work has been very gratifying to her patrons. She spent several years in preparation for the work at the Kid Kay College and Eldorado is fortunate in having so competent an instructor.

Miss Lillie Richardson, who has been teaching the primary room for the past 4 years in the Eldorado High school, left Saturday for Ennis Texas to spend her vacation. Miss Richardson has won the love of and admiration of the Eldorado people by the splendid work she has been doing in our school and all are delighted to know that she will remain with us another year. Miss Richardson is one teacher that has served the people here for 4 years and as far as the writer knows has never been complained of a single time, may her vacation be a pleasant one and when the school bell rings again in September may she be among the happy group that will gather there.

Mrs. Taylor Silliman, of Odessa, Texas, is here this week visiting old friends and relatives, she came to attend the closing exercises of our school.

Ford

THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3 1/2-inch tires front and rear, is a family car of class and comfort, both in summer and in winter. For touring it is a most comfortable car. The large plate glass windows make it an open car when desired, while in case of rain and all inclement weather, it can be made a most delightful closed car in a few minutes. Rain-proof, dust-proof, fine upholstery, broad, roomy seats. Simple in operation. Anybody can safely drive it. While it has all the distinctive and economical merits of the Ford car in operation and maintenance. Won't you come in, and look it over?

"HOW EUROPE CAN ESCAPE COLLAPSE"

"We Must Aid By Extending Credits," Says Davison.

"GRAVE MENACE TO U. S. A."

"European Ruin Would Involve America—Starvation and Disease Rampant."

Des Moines, Ia.—Speaking before the general conference of the Methodist Episcopal Church, Henry P. Davison, chairman of the board of governors of the league of Red Cross societies, said:

As chairman of the convention of Red Cross societies, composed of representatives of twenty seven nations that met recently in Geneva, I am custodian of authoritative reports recording appalling conditions among millions of people living in eastern Europe.

One of the most terrible tragedies in the history of the human race is being enacted within the broad belt of territory lying between the Baltic and the Black and Adriatic seas.

This area includes the New Baltic states—Poland, Czechoslovakia, the Ukraine, Austria, Hungary, Roumania, Montenegro, Albania and Serbia.

The reports which come to us make it clear that in these war ravaged lands civilization has broken down. Disease, bereavement and suffering are present in practically every household, while food and clothing are insufficient to make life tolerable.

Men, women and children are dying by thousands, and over vast once-civilized areas there are to be found neither medicinal appliances nor medical skill sufficient to cope with the devastating plagues.

Wholesale starvation is threatened in Poland this summer unless she can procure food supplies in large quantities. There are now approximately 250,000 cases of typhus in Poland and in the area occupied by Polish troops.

"Worst Typhus Epidemic in History"

This is already one of the worst typhus epidemics in the world's history. In Galicia whole towns are crippled and business suspended. In some districts there is but one doctor to each 150,000 people.

In the Ukraine, we were told, typhus and influenza have affected most of the population.

A report from Vienna, dated February 12, said: "There are rations for three weeks. Death stalks through the streets of Vienna and takes unhindered toll."

Budapest, according to our information, is one vast city of misery and suffering, the number of deaths is double that of births. Of the 160,000 children in the schools, 100,000 are dependent on public charity. There are 150,000 workers idle.

Typhus and smallpox have invaded the four countries composing Czechoslovakia, and there is lack of medicines, soap and physicians.

In Serbia, typhus has broken out again, and there are but 200 physicians to minister to the needs of that entire country.

In Montenegro, where food is running short, there are but five physicians for a population of 950,000.

Returning to the United States a few weeks ago with all these stories ringing in my ears I found myself once more in a land whose granaries were overflowing, where health and plenty abounded and where life and activity and eager enterprise were in the full flood.

I asked myself: "What if this plague and famine were here in the great territory between the Atlantic seaboard and the Mississippi valley which fairly parallels the extent of these ravaged countries and that 65,000,000 of our own people condemned to idleness by lack of raw material and whose fields had been devastated by invasion and rapine were racked by starvation and pestilence and if we had lifted up our voices and invoked the attention of our brothers in happier Europe to our own deep miseries and our cries had fallen on deaf ears, would we not in our despair exclaim against their heartlessness?"

"Only Three Ways to Help Europe."

There are three ways by which these stricken lands can secure supplies from the outside world. One is by payment, one by credit, and the third is by exchange of commodities. If these peoples tried to buy materials and supplies in America at the present market value of their currencies, Austria would have to pay forty times the original cost, Germany thirteen times, Greece just double, Czechoslovakia fourteen times and Poland fifty times. These figures are official and are a true index of the economic plight of these countries.

It is clear, therefore, that they cannot give us gold for the things they must have nor have they either products or securities to offer in return for credit. If only they could obtain raw material which these idle millions of people could convert into manufactured products they would have something to tender the world in return for its raw material, food and medicine. But if they have neither money nor credit, how are they to take this first step towards redemption?

One half the world may eat while the other half starves. How long do you believe the plague of typhus that is taking a hideous death toll in Estonia and Poland and the Ukraine and eating along the fringes of Ger-

many and Czechoslovakia will consume itself to these remote lands?

Only last Saturday our health commissioner of New York, Dr. Copeland, called for the other side just to measure the danger and take precaution against such an invasion.

This is one menace at our threshold. The other, more threatening, more terrible, is the menace of the world's ill will. We can afford to die, but to be despised forever as a greedy and pharisaical nation is a fate that we must not incur.

The French government has many serious problems to solve, but the French peasant is working and the French artisan, while still sadly in need of raw materials, has not lost his habit of industry and thrift. The most encouraging fact about France today is that her people are alive to the seriousness of France's problem and they are going forward bravely to solve that problem.

Italy, despite her great shortage of raw material, is looking forward and not backward. Italy can be relied upon to do her part.

England is meeting the problems of reconstruction just as those who know her past should have expected her to meet them.

"Plan to Aid Central Europe."

It is not for me, perhaps, to give in detail a form for solution, for the world's ill, but as I have been asked many times, "what would you do?" I am glad to give my own answer. Accordingly, I would ask:

1. That congress immediately pass a bill appropriating a sum not to exceed \$500,000,000 for the use of central and eastern Europe.

2. That congress call upon the president to appoint a non-political commission of three Americans, distinguished for their character and executive ability, and commanding the respect of the American people. Such a commission should include men of the type of General Pershing, Mr. Hoover of ex Secretary Lane. I would invest that commission with complete power.

3. I would have the commission instructed to proceed at once, accompanied by proper personnel, to survey conditions in Oriental and eastern Europe, and then act for the restoration of those countries under such conditions and upon such terms as the commission itself may decide to be practicable and effective. Among the conditions should be provided that there should be no local interference with the free and untrammelled exercise by the commission of its own prerogative of allocating materials.

Governmental politics should be eliminated; unreasonable and prejudicial barriers between the various countries should be removed, and such substantial guarantees as may be available should be exacted in order that the conditions imposed should be fulfilled. As to financial terms, I should make them liberal. I would charge no interest for the first three years; for the next three years, 6 per cent, with provision that such interest might be refunded if the economic conditions of the country were not approaching normal, or if its exchange conditions were so adverse as to make payment unduly burdensome. I should make the maturity of the obligation 15 years from its date, and I should have no doubt as to its final payment.

5. Immediately the plan was adopted I would have our government invite other governments in a position to assist to participate in the undertaking.

6. To set forth, in my opinion, I should add that in the final instruction the American people through their government, should say to the commission:

"We want you to go and do this job in such a manner as, after study, you think it should be done. This is no ordinary undertaking. The American people trust you to see that it is done right."

I would also say to the commission: "Use so much of this money as is needed." Personally, I am confident that with the assistance and cooperation which would come from other parts of the world the sum of \$500,000,000 from the United States would be more than enough to start these countries on their way to self-support and the restoration of normal conditions.

The whole plan, of course, involves many practical considerations, the most serious of which is that of obtaining the money, whether by issuing additional Liberty bonds, an increase in the floating debt or by taxation. But I think we could properly say to the treasury department:

"We know how serious financial problems are. We know the difficulties which are immediately confronting you; we know the importance of deflation and we know that the government must economize and that individuals must economize, but we also know that the American government advanced \$10,000,000,000 to its allies to attain victory and peace. Certainly it is worth making the additional advance in order to realize the peace for which we have already struggled, for nothing is more certain than that until normal conditions are restored in Europe there can be no peace."

Above all things, I would say that whatever action is taken should be taken immediately. The crisis is so acute that the situation does not admit of delay, except with the probability of consequences one hardly dares contemplate.

The situation that I have spread out here is far beyond the scope of individual charity. Only by the action of governments, our own and others whose resources enable them to cooperate, can aid be given in sufficient volume. I am also confident that our action would be followed by the governments of Great Britain, of Holland, of the Scandinavian countries, of Spain and Japan, and that France and Belgium and Italy, notwithstanding all of their losses, would help to the best of their ability.

COMMENT ON SCHOOL AND MINISTRY

Editor of the Success:

Because the large majority of the people of Schleicher County did not have the pleasure of being present, I think it is not improper for one who was there, in a measure, what they missed by not having been at the commencement exercises Monday night. And I take a great deal of pride in saying that there was enough inspiration in the addresses of the students, and in the commencement address, and in the encouraging talk of Prof. Hurst afterwards, to cause us to determine to not only hold what we have, but to merely make that a foundation for greater merit. We realize that the three boys and the girl who graduated last night, are not educated; but we realize that they have in them the material out of which to build and train strong minds and sound characters, and that Mr. Hurst and those who have assisted him have done good, thorough work in training them thus far, not only from the viewpoint of strengthening their mental faculties, but in quickening in their minds that courageous and solid spirit of fair play, which is agreed by all sound thinkers to be the first necessity in the education of a youth and which will always enable them to judge and to reason impartially, clearly accurately, and quickly to the truth of matters they consider.

I, for one, consider Mr. Hurst thoroughly and ably equipped, mentally and morally, for the leading instructor of our most important school. I believe there are none to be found in advance of him in those essential respects most vital to the earliest training of our county. And I believe that when we shall come to see, as we shall the advanced conception of our graded and high school which his experience has caused to grow up in his mind, become a real, existing institution, where the little ones and larger ones from our County may have its training, then, when they go out from our school, there will be none who can look upon them justly in scorn. If there is anything I resent it is a slight or a slur from some one somewhere upon the merits of our county, its institutions, folks. Like the rest of the folks in Schleicher County, I am proud when any one and anything from Schleicher County shows class. And we are likewise, at the time, impatient, when any one or anything fails to show class.

And, in this connection, I frankly believe as I am sure does every one else who heard it, that the address of Rev. Clark Monday night showed class. And firmly, simply, and positively, from him there must have come into the hearts of all, that which he sought to deliver, "Inspiration." Mr. Clark is an educated man; his abilities have been developed. In business, doubtless his place would be important, and his independence assured. He has come, as has Rev. Davis, who is an able and sterling gentleman, out to a small community, to work. In them we have great, good fortune, for as a rule, such men would have accepted more remunerative charges. It cannot be denied that we are much more fortunate in having them, than they are, in being with us.

They are moving forward; they have liberal views, and clean motives. With such men as Mr. Hurst, Mr. Davis and Mr. Clark, I think we can not but march with them, and hold out the invitation strong to as many more of their class as we can induce to come to Schleicher County. If we do not value good men, then what do we value? If we will not step along with

MRS. G. W. SMITH DEAD.

Mrs. G. W. Smith, mother of Fred and Delma Smith, of our city, passed away at Sonora last Thursday after a lingering illness.

Mrs. Smith made Eldorado her home for some two years but moved back to Sonora last winter, she was in her 58th year and the mother of 11 children, those that survive her Ota of Del Rio, Jeff of Temple, Will of San Angelo, Roy of Denton, George of Sonora, and Fred and Delma, of Eldorado, daughters, Misses Torah and Dorothy Smith, Mrs. Nellie Holman and Mrs. Manila Trainer of Sonora.

The Success joins the sorrowing loved ones in this their great sorrow.

The funeral services were conducted by Rev. W. E. Hawthorn of the Baptist church, of which church the deceased was a life member.

Interments were made in the Sonora cemetery.

them, with whom shall we proceed? They come from the outside. Are people who live on the outside more classy than we, and have they a right to look with contempt upon us? Not by a darn sight! Schleicher county, the people of Schleicher County have the country, the brains, the character. All they need is to stir, to think of the whole community, some times, as we did Monday Night, at Commencement, and to look away, momentarily, from our own individual businesses. These are my sentiments, what are yours?

M. E. Sedberry.

RACING HORSE-SHOE TIRES

—have no "special features," save their distinctive efficient tread. They are just so good that several of the world's largest corporations use no other tires for their fleets of service cars. Note this, bearing in mind that such corporations buy tires on a strict miles-per-dollar basis.

Good for far more than the ordinary number of real service miles.

Let us put one Horse-Shoe on your car—you will soon want four there.

For Weak Women

In use for over 40 years! Thousands of voluntary letters from women, telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

TAKE

CARDUI
The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women. It should help. "I was taken sick, seemed to be . . ." writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Constipation.

Most laxatives and cathartics afford only temporary relief and should be used only for that purpose. When you want permanent relief take Chamberlain's Tablets and be careful to observe the directions with each package. These tablets not only move the bowels but improve the appetite and strengthen the digestion.

What Would You Do?

In case of burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and every one should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without leaving a scar.

A Good Cough Medicine for Children.

Mrs. J. W. Phillips, Redon, Ga. phoned to J. M. Floyd, the merchant there, for a bottle of Chamberlain's Cough Remedy and said she had bought a bottle of it at his store recently and that it was doing her children so much good that she wanted to keep up the treatment. You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expectoration easy and soon frees the system from the cold.
