LAW IS QUOTED IN KLAN OPINION

The Attorney General issues request.

"All efforts of persons under W.O. Alexander andwife went any name they may have assumed to better the moral conditions of the country through the med. ium of threats fear, intimidation and personal violence is violate of the spirit and letter of the Constitution and laws of Texas and each and every act done and performed by them carrying out or futhering any Hegal purpose or which has for it object the doing of any act forbidden by law would involve the guilt of all participants hav ing knowledge of a general pur pose to do illegal acts or actual knowledge of the doing of an

illegal act.

"If any order, organization or body or individuals agree and confererate among themselves to which would be in violation of the laws of the country and every act of every indi vidual comprising the conspiraby would be illegal. This applies to the masked parades where such parade is a part of and in furtherance of a purpose to do some act which would be in vio lation of the law."

Mr. L. J. Murray and family of San Angelo, brother to R. M. Murray of our city, was here Friday and Saturday visiting.

Mr. Murray is an employe of the Orient Railroad and he believes that the Del Rio Branch will soon be built. He also says that Eldorado had the brightest future of any town on the entire Orient system in this section of Texas. From the dispatches that he has seen sent through by officials and the amount of bridge material being unloaded in San Angelo, leads him to think that work will soon be under way, he says that the man sent to Del Rio to make sound. ings for bridge piers, found a rock base at 15 feet, this was yery gratifying to the Orient officials and that the site for the bridge had been settled, Mr. Murray was very optimistic for the future of our city.

Rev. F. G. Clark, postor of the Methodist Church, winds up the the conference years work and has a splendid report for the annual conference

The Stewards here met with the Presiding last week and requested him to return him to this charge another year and heve the assurance of him that it will be done if possible.

Rev. Clark is one of the most learned ministers that ever came this way, and to hear him expound the gospel is a real 'treat to any one who loves the word of God. His messages are a feast to the congregation both spirit ual and mintally.

We trust that his return here will be made at Conference this

FISHER-MCCORMICK.

Ren McCormick and Miss Leno Fisher were married Wednesday evening, Oct. 12, in San Angelo. Mr. McCormick was reared in Eldorado and is a son of our townsman, P. H. McCormick, and is a former service boy. The bride is unknown here but the many friends of the groom all join in extending con gratulations to the newely wed and wish them much joy and happiness as they journey through life as one.

A good deal of sport was had at the school grounds Saturday when a town team was rigged up and played the Eldorado High School Girl term, a fast and furious game of Basket Ball, but the High's were victorious in the end.

Labor Urges Interested Parties te Write.

Assured that revolutionary conditions in Mexico have been adjusted and that the country is entering upon an era of prosperity and rehabilitation business in the Southern Republic has been showing an enormous increase and all trains running to principal points in Mexico have been crowded for months. Credit ratings have been adjusted

and freight congestion has been so enormous that in past months as many as two thousand cars of freight have been waiting at the border for movement. Enormous lines of credit have been extended to the Government and rolling stock, engines, etc., purchased in large numbers for the

Fereigners Acquire Land

Notwithstanding the persistently circulated statements that the laws of Mexico forbid any foreigner to acquire title to lands without first becoming a Mexican citizen, some 2,023 citizens of other countries as a matter of fact bought lands in various portions of

the Republic in the year 1920.

The only requirement as a condition precedent to the acquisition of lands in Mexico by foreigners, is that they shall first sign a pledge to abide by the laws of Mexico, and in all matters pertaining to the lands in question shall be considered as on the same basis as Mexican citizens. the tacit requirement of all foreigners acquiring real property in the United States, the only difference being that in this country a foreigner naturally abides by the laws, and no written pledge is exacted while in Mexico many foreigners, presuming upon its position in the family of nations, have the presumption to de-mand extra consideration and extra privileges as against the native of the contrary. Hence the necessity for the law in question.

Mexico Not Distant

Many persons when they think of Mexico, believe it to be an untold distance away. To Mexico means the same distance to many as Europe. or Asia or Africa and certainly many feel that South America is closer than Mexico. Yet, compared on the basis of the mileage over the National Lines of Mexico we find that Mexico is not remote or in any sense inconvenient of access. The least rail distance between New York and Portland, Ore., is 390 miles greater than the least rail distance between New York and Mexico City. Between New York and Los Angeles, 326 miles greater than between New York and Mexico City. Between Chicago and Portland 168 miles greater than between Chicago and Mexico City. Between St. Louis and Portland, Ore., 435 miles greater than between St. Louis and Mexico City. Between St. Louis and Los Angeles, 213 miles greater than be-tween St. Louis and Mexico City. Be-

479 miles greater than between San Antonio and Mexico City. The demand for offices and buildings for stores and shops is becoming so great in Mexico City that rents ar going up in the business district and there are few vacant stores or offices on any of the principal streets.

tween San Antonio and Lost Angeles,

A decree recently issued provides that all doctors and dentiets entering Mexico must pass an examination, but those who have been practicing for three years in the country may continue by registering their diplomas, if they are from foreign institutions of high standing.

Railroads in Good Condition Mr. Manuel M. Vauclain, President of the Baldwin Locomotive Works, in commenting on conditions in Mexico

"The railroads of Mexico are in good condition physically, the road bed is in good shape. The roads are short of equipment, cars and engines have been shot to pieces. Mexico is full of business and the people are travelling. Good order prevails in Mexico City and in the country outside so far as I could see. You can't do things in Mexico City that you could do here, if you did they would put you in jail quicker than a wink. The shops seem to be busy and finan cial conditions are sound."

The Mexican parcels post business

with the United States, as well as the money order business, is increasing very fast. It is a very good indication of the growth of commerce between the two countries. The United States Postoffice Department has just notified the Mexican Postoffice Deaprement that \$100,000 has been placed at the disposition of the Mexican Department, which is due to the Mexican service in the balancing of accounts. This is parcels post busi-ness. The United States Postoffice Department, also owes the Mexican Department money on money order business which they intend to remit.

During the last three months the number of postal packages from the United States received in Mexican postoffices were more than 95.006 packages, which is ten times the

number received during an average period of three months during the pear 1912. Carbon paper for drawing at The Success office.
