NOVEMBER 11 CELEBRATED AT ELDORADO.

The people of Eldorado and Schleicher County enjoyed the holiday November eleventh, with the following entertainments or amusements. At 10 o'clock a. m. 92 of the 2,000 souls of Schleicher County attended religious worship at the Methodist Church, this being the only worship of the day in Schleicher County. After some very appropriate songs were sang Rev. Clark delivered a fine lecture on what it would take to bring peace to the earth, the lecture was very impressive and well received.

In the afternoon a basket ball game was played between the Sonora High School girls and the Eldorado High School girls, a large crowd attended, and the home girls won an easy victory over the visitors by a score of 11 to 18, a little unpleasantness arose during the game which is to be regretted, but it seemed unavoidable.

The day's events was closed with a big dance at the Bush-Smith Co. Garage which was well attended by people from every nook and corner of the County, others from San Angelo, Merton, McKavett and Sonora were here to participate in and tip the light fantastic toe, until the wee hours of the night, another regrettable feature of this event is that some intoxicating drink was in evidence. Most every one enjoyed the occasion and another is to be had Dec. 23rd.

BALLEW-MCCORMICK.

On Thursday Nov. 10, late in the afternoon, Mr. Van McCormick and Miss Jimmie Ballew were quietly united in marriage by Judge C. A. Womaek, after the ceremony they motored to the home of the bride, Mr. and Mrs. J. T. Ballew, two miles east of Eldorado, thence to the Tom Henderson ranch where they will make their future home.

These popular young people are well and favorably known here and have the best wishes of our city and community in their future journey of life, the groom being a son of P. H. McCormick and is a worthy young christian man. The bride is a daughter of Mr. and Mrs. J. T. Ballew of our city and is held in the highest esteem by all who know her. The Success joins the many friends in extending congratulations.

The big world conference for disarmament is now in session at Washington and the work is getting along nicely with a splendid beginning.

People have winked at violating the law, until some of our best citizens show their approval and even encourage same.

If you are going to clean house and put the town and County in a state of cleanliness begin at the top and sweep down, poker playing, shooting dice and selling goods on Sunday are not the only law violations in Texas.

The Success indorses the action of the present grand jury, but they did not dig deep enough.

Even Careful Calomel Users are Salivated

Very Next Dose of Treacherous Drug may Start Trouble

Calomel is dangerous. It may salivate you and make you suffer fearfully from soreness of gums, tenderness of jaws and teeth, swollen tongue, and excessive saliva dribbling from the mouth. Don't trust calomel. It is mercury, quicksilver. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

We have sold 22,785 gallons of Gasoline, out of the 25,000 gallons, that are being sold in which we will give a New Ford Touring Car away. Buy your Gas, for cash at Bush-Smith Co.

GIVE IT A TRIAL ADVISES BRANCON

Oklahoma City Man Believes Tanlac Will Help Anybody Suffering As He Did.

"Give Tanlac a trial. That's my advice to anybody who is bothered with stomach trouble," said Kit Brandon, 17 West Reno, Oklahoma City, warehouseman for the Ridenour-Baker Merc, Co.

"Tanlac has fixed me up in fine shape and I believe it will do the same thing for anybody else. I was in a bad fix and was bothered day in and day out with my stomach. I didn't have to give up my job, but I had reached the point where I could hardly do any work. Nearly everything I ate turned against me and I suffered terribly from gas and bloating and heartburn. My heart palpitated awfully and I had pains and cramps that were awful. My nerves were unstrung; in fact my general health was all broken up. I couldn't sleep to do any good and of mornings my legs felt cramped up and pained me terribly. I was run-down and felt weak and played out all day long.

A good neighbor of mine told me about Tanlac, and he couldn't have done me a better turn. I commenced to mend in just a few days and in a few weeks I was feeling just like I had been wanting to feel. That indigestion left me, as well as all my other troubles, and to this day I have been in the best of health. It has been many a day since I felt so fine. Tanlac is without an equal." Tanlac is sold in Eldorado by L. M. Hoover. (Adv.)

The Story of Our States

By JONATHAN BRACE

XXXVIII.—COLORADO

COLORADO is the most precious of our states, for in the mining of gold and silver it surpasses all other States, producing about one-third of the total output of the entire country. In fact, its real history starts in 1858, when gold was first discovered.

Prior to that time there had been but little settling in this region. Spanish explorers had traversed the country in the latter part of the Eighteenth century, and laid claim to it. As a part of the Louisiana Purchase it came into the possession of the United States in 1803. Officers of the United States army were sent out to explore this wilderness among whom were Lieutenant Pike in 1806, and it was after him that Pikes Peak was named. In 1819 Colonel Long made extensive explorations and he was followed in 1842 by Fremont, whose activities in the Mexican war brought him into much prominence. At the close of the Mexican war, Mexico ceded her rights to this territory to the United States, but it was considered a barren waste and unattractive for settlers.

Then in 1858 came the discovery of gold in the bed of Dry Creek, a few miles south of where Denver now stands. The following spring tens of thousands of men flocked into what was then called the Pikes Peak country. In 1859 Denver became a town of one thousand inhabitants, and by the next year had grown into a big city with newspapers, theaters, and a government mint.

In 1861 the Territory of Colorado was created and in 1876 Colorado was admitted as the thirty-eighth state of the Union. Its area is 103,948 square miles and its population entitles the state to six presidential electors.

The name is taken from the Colorado river, and is a Spanish adjective meaning "colored red." Colorado is often called the Centennial State, as it was admitted to the Union just one hundred years after the Declaration of Independence. (© by McClure Newspaper Syndicate.)

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

MARRY IN HASTE

"SAM OWLEY brought his bride home last evening," announced the horse doctor, "and they're going to begin housekeeping right away. Sam says he married the girl three days after first seeing her, and seems to think he did something pretty clever, but there's an old saying about marrying in haste and repenting at leisure."

"It's worth just about as much as the rest of the old sayings," said the village patriarch. "They're all cheap goods, and you don't get a chrome with any of them. Most married women repent at leisure, whether they married in haste or took their time about it."

"I sometimes think that the longer an unmarried woman contemplates the man she is going to marry, the less she knows about him. If there is a protracted courtship, the man has every opportunity to work up a reputation that doesn't belong to him."

"Just this morning my present wife was telling me that if she had known what sort of a man I really was she'd never have married me. Yet she had six months to study me before the wedding bells rang out their glad chimes, and she thought I was an exemplary man. I'm naturally of a sleazy disposition. I never did take much pride in my appearance, even when I was a young man, and as I waxed older I became downright careless. I considered it a waste of money and effort to have my clothes pressed, and having my shoes blacked seemed merely vanity and vexation of spirit."

"Yet when I began courting the excellent woman who is my wife, I raced up in the most surprising way. I always did that when I went courting. And the surprising thing is that I never seemed a dishonest procee... It never struck me, until my wife called my attention to the matter, long afterwards, that I was obtaining money under false pretenses, so to speak, when I created the impression that I was the glass of fashion and the mold of form."

"I'd go to see that woman all togged out like a young man who is billed to sing a tenor solo. I'd have my whiskers and hair trimmed, and my shoes shined, and my teeth manicured, and I'd be wearing a collar as white as the driven snow, and a handkerchief in keeping. It seemed the natural and proper thing to do, yet I was working a flimflam game with the best intentions in the world."

"The more Arabella considered me, the more she was convinced that I was a marvelously neat and tidy man, and she was so impressed that she married me without the slightest hesitation. No sooner were the last sad rites performed, however, than I lost all interest in the task of dolling myself up, and I've been a sort of scarecrow ever since."

"My wife has to remind me when it's time to change shirts or have my hair cut, and she's completely disheartened. I don't blame her in the least for I realize now, since she has explained the matter ten thousand times, that she married a counterfeit."

"It would have been far better had she caught me when I was running wild, and married me without taking time to think the matter over. But she studied me for several months, and you see what sort of a prize package she drew."

"I believe a woman, or a man, either, will do well to trust to luck in matrimonial matters."

"Millions for Defense."

Charles C. Pinckney was one of three envoys sent by the United States to France in 1797 to settle disputes which had arisen between France and the United States. The American grievance was caused by the seizure of American vessels by France. The French grievance was that commercial privileges had been granted to England. Talleyrand, the French foreign minister, refused to receive the envoys, but it had been conveyed to them by secret agents that, before any settlement could be reached it would be necessary for the United States to pay a large sum of money, which was, in fact, little more than a bribe. It was then that Pinckney made his famous declaration that the United States had "millions for defense, but not one cent for tribute."

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.
