HITTING THE CAMPAIGN TRAIL ... Nelson Wolff, left, Orland Harris, Earl Baker

Nelson Wolff Campaigns Locally Over Coffee In Eldorado Tuesday

for the U.S. Congress, spent quite a while in Eldorado Tuesday morning, visiting and campaigning in the El

Dorado Restaurant. Differing from the usual quick campaign stops, Wolff visited extensively with several farmers, ranchers, businessmen and county officials who attended the coffee

given in his honor. One of the biggest issues presented to Wolff was that of excessive federal spending. The candidate replied that we would see a continnous squeeze on the federal budget.

Wolff himself has released a three year tax cut plan last week which calls for a \$104 billion tax cut phased in over three years. "You have to

By NELL EDMISTON

How many times do you think you will need an ambulance in your lifetime? Once, twice or three times is the most anyone usually needs an ambulance. But one time, the kind of ambulance service you get may mean the difference between life and death. Your life and death.

Eldorado finally got an ambulance service a couple of years ago, thanks to Phil Olson who organized the service and rounded a list of volunteers. Phil died two weeks ago, and now the ambulance service may go

His wife Marylue plans to keep on doing the bookwork for the service and the list of volunteers for drivers. She tells me that when she and Phil first got the ambulance service started, there was a list of about 15 volunteers. But as time went by, the list got slimmer because the volunteers could never be found when someone needed an ambulance. Now there are only about five dependable drivers. And at that, it seemed Phil was the only one who ended up driving the ambulance.

Now that he is gone, there is only a handfull of men who are giving up their time, sleep and work to driving the ambulance.

Admittedly, volunteer work of any kind requires a lot of time away from one's job, family and own personnal interests. But wouldn't you think this would be one of the most worthy of all volunteer jobs?

If you have an office job here in town or are in town most of the time, you might think about volunteering to drive the ambulance. Volunteers would have to be available at almost

all times, morning, noon or night. There's another problem, too. A large insurance premium will come due in January and there is not enough money in the ambulance fund to pay for it. Without a fund raising drive, or a lot of donations sometime soon, there won't be an ambulance service because it has to be covered by insurance.

And we really can't afford to be without it — the next accident, illness or heart attack may be yours.

have a long range view of taxes and then plan your spending program,' he said, adding, "For a long time, Congress set the spending program and then set taxes accordingly.

He said he was pleased with the bill passed by the Senate Monday, which he said is along the same lines

Wolff said his tax cut plan offered incentives to the businessman while it helped individuals with their tax problems. "You have to talk about both sides," he said, explaining that if businessmen had more incentive, they would make more capital invest-

Wolff's tax cut plan calls for decreased waste, ineffeciency and fraud by reducing the number of federal regulations. Tuesday morning he said one way to reduce waste was by sunset legislation which would "test the proof" of agencies and programs as to their effective-

One large area of waste, he noted was in the welfare department, where "it would take a million auditors" to keep track of the many programs. "We might be better off if we devised a simple program for those who could not work such as the crippled, the blind and the aged, write them a check and not determine how they spend the money. This was done in California and they saved \$20 million in administrative costs alone. There's a lot of welfare that's not reaching the persons who

need help," he noted. When asked about the issue of

Jerry "Porky" Jackson is now in the intensive care unit at Hendrick Memorial Hospital after suffering a broken neck when a 5½ inch pipe fell from the rig he was working on and struck him on the neck. The rig was near Sonora.

Jackson was taken to Lillian Hudspeth Hospital in Sonora, then to Shannon Hospital in San Angelo and then to Abilene.

He is the son of Mr. and Mrs. Delmar Jackson of Eldorado.

Children See Close Calls

There have been a few close calls for some school children the past two weeks. The close calls happened when a school bus stopped to let children off after school. The children attempted to cross the road to get to their homes and were almost hit by vehicles that did not stop

behind the bus. This has happened several times, according to bus drivers and school superintendent Guy Whitaker.

A state law states that vehicles must stop behind a bus that is flashing lights and must not go back in motion until the lights quit school property tax, Wolff replied that Texas relied on the property tax too heavily. "There are other types of taxes other than property taxes,' he said, "such as extraction taxes on uranium and lignite.

"We are giving our minerals away," he said. "More and more of them will be leaving the state and we are not getting our fair share of the production." He said he preferred to see the use of other taxes such as an extraction tax on minerals rather than pushing the property tax farther.

In a later discussion, the candidate said if elected, he would ask to be put on the education and labor committees, as Texas does not have a representative on either com-

Wolff said the nation would see a change in the balance of power after the 1980 census, because of a shift in the population. He said Texas would gain two representatives, and New York would lose two, thus giving this part of the country a sense of power it has never had.

Even though he is a Democrat, he says he doesn't always agree with the president, especially on the new energy policy. He also doesn't agree with President Carter on the labor relations act because he feels that "employers are more responsible now than they were during the 40's and 50's and therefore there is no need for such a law.'

He also said that congressmen and the Congress as a whole is more independent today, which is healthy. "I can run a campaign and not owe allegiance to anyone but myself," he said. "Congressmen are not split along party lines like they used to be. This is good, but it may mean it takes longer to accomplish things." Wolff said he visited with the president and made it clear to him that if a certain policy was good for the area, he would "bust a gut trying to help him," but if it was bad for his area, he would "bust a gut to oppose

When it comes to national security, Wolff feels that the country's leaders made some bad judgements in the past two decades when they "neglected NATO and now we're outnumbered." The trend, he said is that the Soviets are moving ahead and this is not good. He said military might is the only thing the Soviets have to influence world events and they have to keep up militarily. There will be a tough transiston in the future, he believes, as American weapons will have to be more mobile, lighter and have better technology. This will give us more flexibility and numbers, he said, and be cheaper to fund.

The San Antonio native says he still has a good lead over his opponent, Tom Loeffler, but will continue to canvass the large district the last few days before the election. One of the places he will concentrate on is northern San Antonio, which he admits has traditionally gone Repub-

He says he "won't have a lead on money, but it won't be a huge difference," at the end of the race.

He is tentatively scheduled to debate with Loeffler in San Angelo in

Board Okays Requests

Members of the Eldorado In-dependent School Board met Monday to decide on a number of items.

They granted permission to Mrs. Geneva Leifester, Talon staff sponsor, to get advertisements for the Talon and also to include pictures of grade school students. The Talon has never relied on advertisements to pay for expenses, and in recent years, the annual funds have been in the red, according to school superintendent Guy Whitaker. The decision to use advertising was made in hopes of making the book pay for itself.

De Lux, representing the Jaycees, met with the board and asked that the Jaycees lease the land around the old 4-H building next to the that the first step is to determine who is responsible for the property and then pursue negotiations for the

Ray Ballew, school tax assessor, requested a typewriter, checkwriter and additional storage space for tax records. The board granted the typewriter and checkwriter, and is looking for more storage space.

A bid was accepted from Griffin Oil Company for gasoline to be used in the 1978-79 school year by the school buses. The board approved an application

for Foundation Funds. Foundation funds will come to about \$360,000 from the state to defray the cost of the school program. A final application will be sent to the state later.

The board approved a list of nine substitute teachers for the school year. Whitaker said six of the nine teachers were certified.

The board also hired Susan Stark as elementary music teacher. She will replace Denise Smith who has moved. Because of increased enrollment

in the first grade and kindergarten,

the board hired two aides for these two grades. They are Karen Boatright and Twila Richardson. The board delayed action on the purchase of a house close to the school because it is doubtful that the

surrounding property can also be purchased. Gary Donaldson, San Angelo architect, presented a contract to draw up a master building plan to the board

and it was approved. School board members present were Lynn Meador, Dr. Jim Brame, Mort Mertz, Frankie Hardy, Delia

Card Of Thanks

The family of Phil Olson would like to express their sincere thanks and appreciation to the people of Schleicher County and Eldorado for your many kindnesses at our loss of Phil.

When we came here Phil had to leave us in your care while he went to Vietnam. You proved faithful to that trust and when he came back to Eldorado to join us, he tried in his own way to show his appreciation. You took him into your hearts and made him a happy man.

Phil left us doing what he wanted to do and we, as his family, request that if you want to express your sympathy, please help the Emergency Ambulance Service. In going through Phil's papers concerning the ambulance service, a large insurance premium is due in January. I have decided to offer my services to do the book work in helping to carry on this service to the community.

I would like to thank each and everyone who came by the house, sent cards, flowers, food and prayed for us. It really helps and I would like to close this "Thank You" by sharing with you the legacy Phil left his

Commissioners Court Holds Brief Meeting On Monday

Schleicher County Commissioners met in one of their briefest meetings Monday

During the brief meeting, the court renewed a five year lease to A.W. Menix and his son, C.E. Menix for public school land in Gaines County. The lease is for 177.12 acres of land which Menix will lease for \$1.50 an acre, or \$265.68 a year. They will have a five year option for renewal. Menix and his son appeared in court to ask for the lease.

County sheriff Orval Edmiston met with the court and asked commissioners to request a progress report from architects hired to draw

reminded the court that the architects were hired in July and they have been in touch with the sheriff only twice since that time. The court agreed to ask for the progress report.

Edmiston also asked the court to increase payments for prisoners' meals. At the present, Mrs. Edmiston serves all prisoners three meals per day and is reimbursed three dollars per day. Edmiston told the court it was difficult to feed three meals a day for three dollars, especially if the prisoner was there over a long period of time. The court agreed to reimburse the sheriff four

dollars per day per prisoner. The court also agreed to advertise for bids on gasoline and diesel for county equipment. The bids will be

County extension agent Nancy Lester told members of the court they were invited to a County Commissioners Appreciation Luncheon Oct. 23. This is an annual event sponsored by the four Home Demonstration clubs in the county.

Present were County Judge Bob McWhorter and commissioners

Steers Kick Eagles, 22-7

The Eldorado Eagles took a quick 7-0 lead over the visiting Robert Lee Steers here Friday night but couldn't corral the speeding herd, as Robert Lee left town with a 22-7 victory.

Mickey Nixon returned the opening kickoff to the Eagle 31 yard line where the Eagle offense set up

On the first play from scrimmage Sam Whitten took a pitchout from quarterback Randy Morrison and swept his right end for the 69 yard touchdown with only 33 seconds gone off the clock. John Cheatham toed the ball through the uprights to give the Eagles a 7-0 lead.

The Eagles played tough defense for almost two quarters before the Steers put together a 13 play 67 yard drive with quarterback Kerry Gartman reaching paydirt with only 11 seconds left in the first half of play. Brett Clark added the two point conversion to give the Steers an 8-7 lead going into the dressing room.

The Eagles came out after intermission and Cheatham's kick went through the end zone to start second half of play.

Robert Lee fumbled on the first play from the 20 yard line where Charley Bradley pounced on the loose ball to give the Eagles good field position.

Bradley picked up a first down for the Eagles to the nine yard line, but three straight drives by Michael Mertz netted only four yards down to the five. Cheathams field goal try from here went wide to the right and Steers took over on their 20 yard line.

With 16 seconds left in the third quarter Clark scored from the 45 yard and the PAT was good to pad the Steers lead to 15-7.

The Eagles never got their offense untracked in the second half, as they managed only one first down, three yards rushing and six yards passing.

The Steers closed out the scoring with Clark again scoring from the four yard line with only 37 seconds left in the game. The PAT kick was true to give Robert Lee a 22-7

dale of Eldorado announced today that he has joined the Mayors for Clements Statewide Steering Committee, a non-partisan group of Democrats, Independents and Republicans supporting Bill Clements in his campaign to be the next Governor of Texas.

Mayor Ragsdale joined mayors from more than 20 other communities across Texas in forming the committee to actively support Clements' campaign. Ragsdale and Dan Brown

will be serving as the Schleicher County chairmen for the Bill Clements for Governor campaign. Mayor Jerry Hodge of Amarillo, who will co-chair the committee with Mayor Ernest Angelo of Midland,

announced the formation of

the group and said: 'As Mayors from all parts of Texas we feel this governor's race is of paramount importance to the communities of Texas because so much of what is done in Austin directly affects our economies, our

budgets and our taxes." Mayor Hodge went on to 'Texas needs leadership that leads with purpose, reason and direction. Our Mayors for Clements committee strongly believes that what happens in Texas in the next four years will set the direction of our state for the rest of the century. Texas can continue and further the prosperity our state has always known or it can go the way of the many over-taxed and over-regulated states in the Northeast.

"We feel that the choice in the governor's race this year is dramatically clear. A look at each candidate's

"For all of his adult life Bill Clements has been a free enterpriser — a proven successful businessman. His outstanding management and leadership abilities were recognized when he was appointed to manage one of the most unbureaucracies in Washington, the Department of Defense. His work there - praised by Democrats and Republicans alike - proves that he is qualified and capable of managing our state government in

Austin. "His opponent's record shows a totally different philosophy toward governby the 300 percent increase in the size of his staff and the 600 percent increase in his budget during his six years as attorney general. He even requested an additional 2.5 million dollars that the Texas Legislature refused to give him. This is not responsible management of the taxpavers' dollars and we don't believe we can expect him to do any better with the rest

of state government. "If overall state spending had increased as fast, Texas would have had to enact both a corporate and a personal income tax to pay the bills. More government spending leads to more taxation and inflation — a vicious cycle which ultimately will destroy our healthy business climate, a climate that now is attracting more and more new industry and jobs to our Texas communities.

"Bill Clements has proposed a Taxpayer's Bill of Rights, a set of Constitutional amendments designed to give the people a direct voice in controlling excessive government

spending and taxation." The first 25 mayors on the committee include: Jerry Hodge, Amarillo; Ernest Angelo, Midland; George Arrington, Canadian; Bob M. Nall, Tyler; Othal Brand, McAllen; Jerry McClure, Borger; Gene Cummings, Fort Stockton; John Carlson, Wharton; Bob Youker, Harlingen; John Colquitt, Dalhart; Paul Daniels, Liberty; Tom Dunn, Waxahachie; and Jim Hoffpauir, Lampasas.

Also included are R.D. Wilkerson, Pampa; Leslie Clayton, Brenham; Giles McCrary, Post; homer Bower, Rockdale; J.D. Harper, Goldthwaite; Ben Pate, Plains; Mike Salin,

Letters to the Editor

Dear Editor. During the Democratic Primary this spring, I strongly supported Governor Dolph Briscoe because he best represented my conservative philosphy. In fact. I served as the Governor's regional coordinator in 49 counties, including your own. This fall, I am actively working for Bill Clements for Governor because he is the only candidate that represents the same conservative philosophy of the vast majority of Texans, people like Governor Briscoe and myself.

I can't speak for Governor Briscoe, but I can point out that his daughter and son-in-law have publicly endorsed Bill Clements, as have Red Nunley of Sabinal. the Governor's close friend and longtime business partner; Dr. Sterling Fly of Uvalde, a member of the University of Texas Board of Regents and the Governor's personal physician; Ross Watkins of Uvalde, a member of the Texas A&M Board of Regents and a close friend of the Governor; and Lewis Bracy of Uvalde, President of the Governor's bank and one of his close friends. The list of well-identified Briscoe backers now supporting Bill Clements goes on and

behind him now. Six of Governor Briscoe's 12 regional coordinators, including myself, already have publicly endorsed Bill Clements, as have more than 70 county coordinators. In more than 170 counties, Briscoe regional or county coordinators are publicly supporting and

working for Bill Clements. We are supporting Bill Clements this year because the race for the Governor's office is not a case of Democrats versus Republicans, rather it is a case of conservatives versus liberals. Bill Clements is the conservative and John Hill is the liberal.

This is the first time Bill Clements has run for public office and he is doing so now because, like a lot of us, he wants less government and less federal interference in our lives. Bill Clements is a proven manager and administrator, a free enterpriser - not a professional politician like his opponent, who has been running for the office for the past 10 years.

Conservatives around the state know John Hill and they know they can't trust him. Mr. Hill engineered the liberal take-over of the State Democratic Party the first time this ever happened in Texas history

The check that I signed my name to, not being in a mental state to cause me to know what I was doing, came back to the bank here in Eldorado the first of last week. I didn't see the check. The bank officials were watching for it, and they got back of the check, and the

Of course this bank here refused to cash it and returned it to the bank in Dallas. We have heard nothing in regard to the other check that he tore out of my check book. I do hope that all persons or companies who were involved in that transaction can be "tracked down" and punished to the full extent of the law. The Christoval Cougars went on a Touchdown rampage here Friday night, to celebrate their homelcoming, to down the Talpa Rams 53-26.

Joe Jacquez lead the assault against the visiting Rams to open the scoring in the first quarter of play on a 27 yard run to give the Cougars a 6-0 lead. Pete Morado split the uprights for the two point con-

Jacquez added his second touchdown from the three vard line and later Frank Arango added another six pointer on an end around that covered 19 yards to give Christoval a 20-0 lead.

Marcus Herrera added another score on a two yard plunge and Corkey Solomon added the two point conversion to pad Christoval's lead to 28-0.

Ram running back Alan Maedger hit paydirt from 13 yards out to bring the score to 28-6 at halftime.

In the third quarter Jacquez took a 27 yard pass from Arango for a TD and also was on the receiving end of a pass from Pete Morado for the PAT.

Maedger put the Rams on the scoreboard again in the third quarter on a two yard plunge, but the Cougars held a 35-12 lead.

The Cougars added three more touchdowns in fourth quarter action. A 19 yard pass from Arango to Hererra, a 33 yard run by Roy Fava and a 35 yard burst by Jacquez gave the Cougars a 53-12 lead.

Talpa also added a 12 yard TD run by Gragg Murff and Maedger scampered 11 yards for another six pointer. Shelby Lewis booted the PAT to finish the scoring but the Cougars had their fourth win of the season 53-26.

This week was very, very hectic — getting ready for homecoming! Thursday night the pep rally was held, which turned out to be very successful. It involved black light posters, a drill team routine, skits from each class and our usual cheerleaders performance. Afterwards the annual bon fire was held which for some strange reason was smaller than expected! The story behind this is Wednesday night someone decided to burn our first attempt. Well, determined as we all are, we worked all day as much as possible to rebuild the bon fire. So if the person who did burn it down is reading this — Sorry, Charlie, it didn't work!

To top all of the excitement off the Christoval Cougars had another exciting victory.

The homecoming nominees were Kelly Baker, escorted by Frank Arrango; Barbara Herrera escorted by Danny Duke; Lisa Green, escorted by Byron Sawyer and Lenise Sullivan, escorted by Cary Tomerlin. Lisa Green was named Football Sweetheart and Danny Duke was named Football hero. We are very proud of them

This week's neighbor, Andrew Louis Sawyer, was born in Christoval June 14, 1918 to Andrew Louis and Annie Sawyer. His parents lived on a ranch between Mertzon and Arden so his mother went to her sister's home for the birth. Her sister was Mable Kaiser of Christoval.

Just this past year Andrew Sawyer bought the Bud Upton place south of Christoval and came full circle back to his birth

Andrew remembers that there were two rooms to the teacher at the school in Mertzon where he attended school until fourth grade. He then attended the Green School between Mertzon and Eldorado.

He recalls that it was at this time when he and classmate A.J. Roach started smoking at age nine. They each swiped a sack of Bull Durham from their parents and rolled their own. "There was 24 sacks to the carton and a carton cost 80 cents. You could get

the sacks six for a quarter. His father ranched and farmed and he recalls one year when the jumbo grasshoppers were so bad that they mixed arsenic and molasses and bran and plowed a furrow around the field with it, but still had to take paddles to kill the ones that got across to the

cotton.

For entertainment they used to put blood around the water troughs and climb trees to watch the bulls fight when they came to water and smelled the blood. They also had a mexican family on the ranch who cooked great chili out of cottontail rabbits so they stayed busy rabbit hunting. In the spring they would gather bird eggs and cook and eat them. They were different than hen eggs but it took a lot of them to fill you up. They mostly got Mockingbird, Scissortail, Roadrunner and Quail eggs. He was about eleven then and lived on the Cathy ranch in

Irion county. A.L. moved to McCamey in 1933 and played on the football team as full back on the eleven man team. They played San Angelo and Midland, and beat them too. In fact, they won District when A.L. was in the ninth grade. Some of

the teammates were: Homer and Lee Barnett, Leon Belcher, Ray Ivy, and Orville, Arville, and John Meador.

'We lived in a tent in Crossett just outside the city limits of McCamey," A.L. reminised. "Me, my dad and John Clark herded sheep for nine months at 30 dollars a month for

'I remember the rattlesnake derbys they used to have down at Brownies pool hall then, too.'

In 1935 A.L. became yard boy at Cameron Lumber Co. in McCamey and earned 25 cents per hour. During the time he was

herding sheep he foung a wagon load of corn whiskey. His horse stepped on the lid of the box where it was buried and he went back and found 48 half gallon fruit jars full of it. He hurried home, got two bales of hay and he, his dad and his uncle, John Clark, went back and collected it. It took them two years to drink it all up, A.L. re-

In 1936 he transferred to Cameron Roofing in Odessa

The following year he met his future bride, Billie Louise Byler, back in Mertzon, his old stomping grounds. She was living in Mertzon and walking three miles to school in Sherwood, a thriving community then. They were married July 31, 1938 and have three girls, two boys and a number of grandchildren.

After the first three children he went into the combat engineers for two years during World War II and served in England, France, Belgium, Holland and Germany. The 38th company built bridges over the Rhine River for the infantry to cross in 1945 and was there when it fell. Only 15 percent of his company lived to return

home.
"One night me and a buddy was in a foxhole and we heard these footsteps coming closer and closer. We just knew it was the enemy. Finally we couldn't stand it any longer so we shot at the sound in the dark only to find out at daylight we had killed and

BILLCLEMEN WILL CUT TAXES AND GOVERNMENT **SPENDING**

Texas was built by men with the vision to look ahead and the grit to get things done. Bill Clements is the man to keep this tradition alive for the future of Texas.

Bill Clements will bring a strong, fresh and tough approach to our government in Austin. He is a businessman, not a politician.

Bill Clements started with nothing and built a successful, worldwide company with hard work and the skill to manage men and money. And now Bill Clements wants to preserve the future of our state and he wants the working people of Texas to have the same opportunities he had.

With his proposed "Taxpayers' Bill of Rights," Bill Clements is committed to protecting Texans from excessive taxation and runaway government spending. He is pledged to cutting taxes and returning that money directly to the taxpayers.

As former Chairman of the Southern Methodist University Board of Governors, Bill Clements knows how to make education in Texas the best in the Nation. He's for discipline in the classroom and "back to basics" quality education.

As the son and grandson of farmers, Bill Clements knows the frustrations that an indifferent government can cause people who make their living off the land. He will use the strength of the State Government to fight burdensome Federal restrictions.

"I believe that Texas has always had more promise than problems,

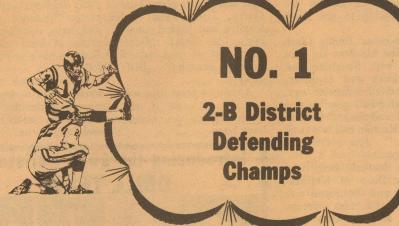

but the balance is more delicate each year. We need to get to work now."

BILL CLEMENTS A GREAT GOVERNOR **FOR TEXAS**

Texans Need Tetanus Shots

Texans need a "booster" in tetanus immunization.

For the last several years, reports reflect a drop in the incidence of tetanus nationwide, reports a health education specialist.

However, Texas reports don't echo this drop, says Carla Shearer with the Texas Agricultural Extension Service, The Texas A&M University System. In 1975, 102 cases of

tetanus were reported in the United States; 16 of those were in Texas. The reports for 1976 and

1977 show a nationwide decrease to 75 and 77 cases respectively.

However, for these same

Tetanus, also known as lockjaw, can be fatal. It is caused by spores of bacteria which can enter the body through a wound, the

specialist explains. Because the tetanus germ cannot grow in the presence of air, deep puncture wounds or cuts are favorite growing environments for the germs.

There is no natural immunity to the tetanus toxin, therefore, immunization against this disease is needed regardless of age, she points out.

Tetanus immunization is recommended every 10 years for the general popyears, Texas reported 12

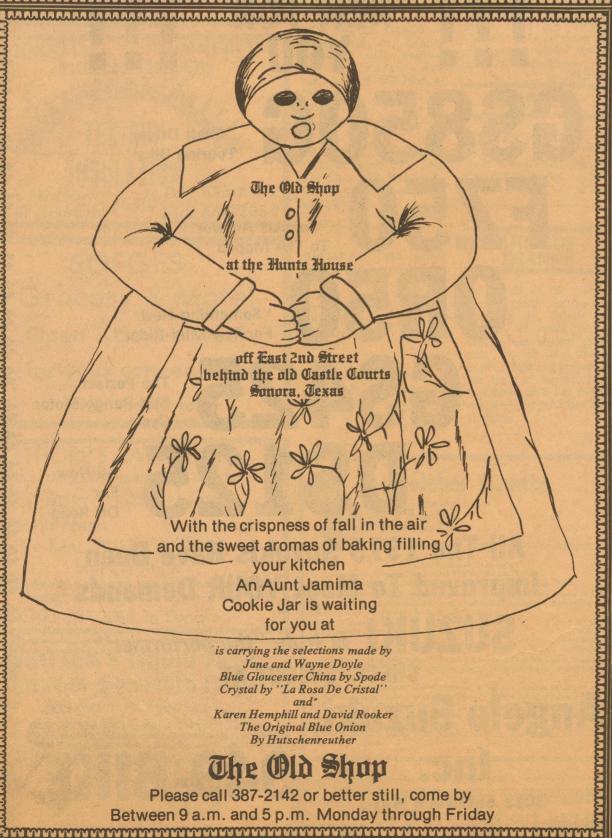

stantly exposed to the possibility of getting tetanus may need more frequent booster. Or, an accident may necessitate immediate tetanus immunization, Ms.

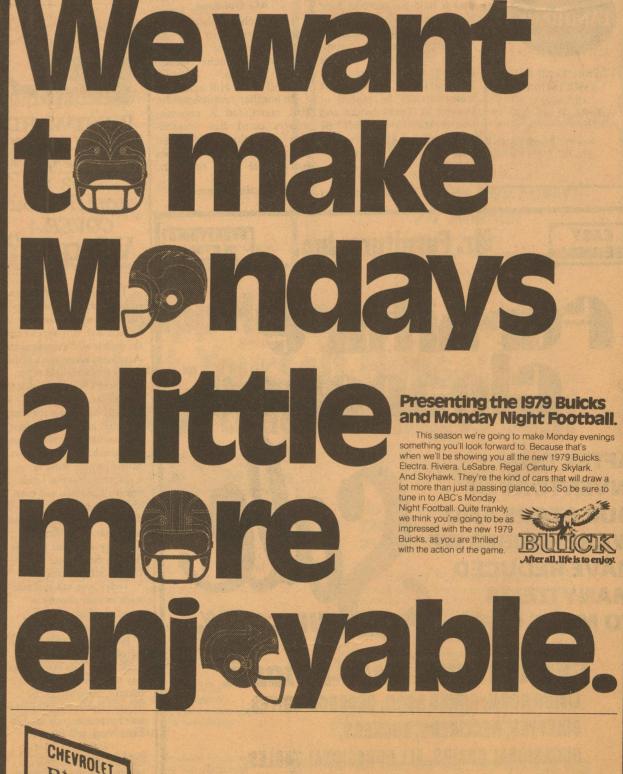

Shearer suggests. Children are usually protected against tetanus because they receive the immunization along with immunization for diphteria and pertussis.
