No. 13

Honor Roll For Elementary Grades Of Eldorado Grammar School

7th Month

FIRST GRADE

Earl Bryant, 5 A's
Dimple Causey, 4 A's and 1 B

SECOND GRADE

Genevieve Ramsey, 6 A and 2 B
Mary Beth Bullock, 4 A and 4 B
Jack Rounds, 6 A and 2 B
Hazel Outlaw, 4 A and 4 B
Wanda B. Rape, 7 A and 1 B
Venet Morgan, 6 A and 2 B

THIRD GRADE

Marshal Bailey, 7 A and 1 B
Ray Bruton, 5 A and 3 B
W. A. Wall, 5 A and 3 B

FOURTH GRADE

Jennie Louise Page, 5 A and 4 B
Vernie Logan, 5 A and 4 B
Dan McWhorter, 6 A and 3 B

FIFTH GRADE

None

SIXTH GRADE

Margaret Hill, 7 A's
Jack Rape, 5 A and 2 B

SEVENTH GRADE

W. B. Gibson, 6 A and 1 B

Stephen L. Wright

Stephen L. Wright was born in Seguin, Texas, August, 20, 1875, and when five years of age moved to Benfield, Texas, then County seat of Tom Green County, with his widowed mother and his grand parents, Mr. and Mrs. John L. Cochran. His mother after living in Benfield for a while married George M. Holland and moved to the South Concho where Christoval later became its post office. Around Christoval he grew into manhood and received only a limited education as schools were scarce and short terms while he was growing up, consequently his chances were only limited, his early life was spent in ranching and at odd times he assisted his step father while carpentering. He moved into Schleicher County in 1902 and has practically made this home continuously since, and has engaged in several kinds of business in our city during the past.

He united with the Methodist Church about 20 years ago and has been on the official board of the church for almost the entire time and was District lay leader of the Church, he was faithful to the duties of the church and lived the best he knew how, he made many friends with whom he came in contact, which was demonstrated by the large floral offering at his funeral.

He was united in marriage in 1925 to Miss Louise Branch of Sherwood who survives him and who greatly assisted him in his church work during his last few years.

The funeral services were held at the First Methodist Church where he had been a familiar character for the past twenty years, the Pastor Rev. L. D. Hardt conducting the service, friends and relatives came from Mertzon, San Angelo, Christoval and Brady, the active pall bearers were C. M. McWhorter, E. C. Hill, J. H. Rodgers, F. H. Watson, O. E. Conner, and W. N. Ramsey. The remains were laid to rest in the Eldorado Cemetery Wednesday afternoon witnessed by a long concourse of friends who wished to pay their last respects to their friend and neighbor, who had spent his entire life in the West watching and assisting it to be transformed into useful land with a useful people, besides his wife he is survived by A. T. Wright of Eldorado, A. D. Wright of Brady, Texas brothers and George W. Holland, J. A. Holland, J. L. Holland, Dewitt P. Holland, and R. L. Holland of Christoval, and T. J. Holland of Stanley New Mexico, and Mrs

Ina Hudgens of San Angelo are half brothers and sister, he was the oldest of eleven children and was the second to die, being preceded in death by Ula Holland a sister in 1906. May the good deeds of his life stand out greater than his imperfections, and may the christian life that he tried to live become the ideal of the majority of our citizenship.

League County Meet For Schleicher

The first attempt at holding a county meet in the Interscholastic League for Schleicher County was made last Friday afternoon at Eldorado. Four schools were represented at the meet and were Adams, Bailey Ranch, Reynolds and Eldorado Grammar School. The attendance at the meet was small due to sickness and other causes. Seven schools in the county were members of the League this year, this being the first time any of the schools except Eldorado had shown interest in the movement.

The winners in the literary events on last Friday afternoon were as follows:

Junior Girl's Declamation—rural division, Aletha Faught, Reynolds school, first place
Bina Sue Martin, Adams School, second.

Senior Girls' Declamation—rural division, Mary Dell Williams Adams School, first. Roberta Milligan Adams school second

Junior Spelling, rural division Mary Dell Williams, Adams school, first
Sub-Junior Spelling, rural School division, Team of Leola Sauer and Norman Faught, Reynolds school, winners.

Arithmetic Contest; W. B. Gibson and R. L. Sample, Eldorado Grammar School winning team. John E. Rodgers and W. B. Parks, Bailey Ranch, School, second team.

Highest score by individual, John E. Rodgers, Bailey Ranch.

3—R Contest: Louise O'Harrow, Adams School, first place.
Picture Memory Contest: Eldorado Grammar School teams winners of first, second and third places. Represented by Carmen Hardt, Margaret Hill, Sammie Cloud, Josephine Clayton, Florine Outlaw and Marguerite Chick. Adams School, winner of fourth place, represented by

Total points won by each school in literary events were: Adams School, 25 points. Eldorado Grammar School, 45, Reynolds School, 25; Bailey Ranch, none.

G. D. Hines Dies In New Mexico

G. D. Hines former County Judge of Schleicher County, died in New Mexico Monday. Judge Hines made his home in Eldorado eight years, being county Surveyor and was serving his second term as county judge when he resigned to engage in the stock business at Roswell New Mexico, he was about 73 years of age.

Mr. Hines made many friends while he lived in Eldorado, who learn with regret at his sudden demise. He leaves three sons, who were interested in the stock business with him.

Farmer Jim, on entering the Governor's race said that he was not going to do any mud slinging in this campaign. The only thing that will keep him from it is that it will not rain on his black land farm in Bell County. He might have thrown enough in the last campaign, but if we were to wager on this we would say that there is not as much black dirt on Jim's farm when the race is over as there was when it started.

Ina Hudgens of San Angelo are half brothers and sister, he was the oldest of eleven children and was the second to die, being preceded in death by Ula Holland a sister in 1906.

May the good deeds of his life stand out greater than his imperfections, and may the christian life that he tried to live become the ideal of the majority of our citizenship.

ANOTHER OIL TEST

To Spud In April 4th

H. M. Freund was in the city Monday and reports that, the Tease & Jones Co., have made their location in the center of the Southwest quarter of Section 37. The test is on the Kirk Allison land in the Sam Jones pasture. The contract calls for the well to be spudded in by April 4th, the rig and timber is being put on the ground and put up and all indications are that the new test will be started on scheduled time. They will drill 5,000 or more feet before they quit unless production is found sooner. Mr. Freund has considerable acreage near the test.

Crowded House Hears Dr. Morrow Monday Night

A crowded house heard Dr. Morrow as he told of the virtue of prohibition and the great need of the continued fight against the liquor interest. His talk was one of the best ever made in our city on this subject, his pleasing manner and humor, kept the attention of both young and old. The three reel picture was to the point and brought out what good citizenship could accomplish with only an effort on their part and how utterly the law would fail when the citizens neglected their duty.

THOMAS RICHARD JONES OPERATED ON FOR APPENDICITIS

Thomas Richard Jones, son of Mr. and Mrs. T. K. Jones, was carried to Temple last week end, suffering from an attack of appendicitis. He was operated on Saturday and reported doing nicely. He was accompanied by his mother and father. Mr. Jones returned home Tuesday.

F. M. Bradley Census Enumeration For Schleicher

F. M. Bradley, has been appointed census enumerator for Schleicher County and will likely soon call upon every person in Schleicher County to earn who you are. His Uncle Sam always wants this information every ten years, and it will be best to answer Mr. Bradley promptly and courteous, as he will propound only questions that must be answered. We are certainly glad that a good natured fellow like Frank has the job, but then there is only a few ladies now that don't mind telling how old Ann is.

CARD OF THANKS

We wish to express our sincere thanks for the many kind words of sympathy and assistance given us during the death and burial of our loved one, also for the beautiful floral offering that expressed your token of love.

Mrs. Louise Wright
Mrs. Ollie Nowlin
A. T. Wright, and Relatives

J. Frank Norfleet Speaks In Eldorado

Large Crowd Enjoys Experience of Noted Detective

J. Frank Norfleet, Texas' most interesting detective spoke before a large audience last Tuesday at the Court House. Although Mr. Norfleet is not gifted with the usual oratorical art that most speakers that travel over the country, his actual experience of bringing into custody some of the United States' most noted sooth-tongued swindlers. The work as a detective started several years ago, when he was swindled out of about sixty thousand dollars, by what was supposed to be stock exchange men, but turned out to be just a bunch of real smart smooth-tongued swindlers that were making their fortune off of the suckers that wished to try the stock exchange and get rich quick but often the case was found to be the opposite, and the get-rich quick scheme reversed and the participant was swindled out of all his money and the supposed brokers were gone for good. But not so with Mr. Norfleet. He was not the kind to give up. He took the trail and has succeeded in placing the men that swindled him in prison and many more that swindled his friends. He is traveling the country over, doing his part, trying to place before the public the picture of the smooth swindlers so as to warn them to stay as far away from them as possible.

The main object of his lecture here was to inform the people that he was having made into sound picture, the book that he has written. The picture will be the exact happenings that Mr. Norfleet has experienced in all of his man chasing. The picture is already half completed and the author of this book has run out of funds and is selling stock in the picture so as to place before the chance taking Americans, the exact description of the way that these swindlers worked. Mr. Norfleet says that he believes in doing good if you can and this is one way that he believes will be doing good.

A New York concern has offered to buy a controlling interest in the picture and have it completed but the wonder detective has refused to sell this interest as he wants to control it himself and thereby make his fortune and at the same time be of service to the people. This picture will be distributed all over the United States, as is already contracted by a large film company in Hollywood, California. Several thousand dollars worth of stock has already been sold in this picture corporation but there remains several more thousand to be sold and the maker of this picture is offering those who care to take stock in this picture a chance to buy any amount of shares that they care for.

During the time that Mr. Norfleet has been doing the work of a detective he has placed in the penitentiary 80 out of 83 that he has captured and three remaining ones are now in jail. He was the main factor in the capture of Robert Blake who was sent to the electric chair recently. He was present when the noted bank robber and bandit, Underhill was shot to death but this was just accidentally, as he was on the trail of Blake at the time that the robber was shot to death in a supposed to be eating joint. During these years as a secret service man or detective Mr. Norfleet states that he has never killed a man.

Schleicher County almost received a rain last week end. It sprinkled a few drops and then it was replaced immediately by a norther and the usual March West Texas rain of dust.

Miss Bernice Jones Becomes Bride of J. Blaine Sammons

Representative Of Star-Telegram Visits Eldo

Much Attention Obtained Over Schleicher Winning at Fort Worth Stock Show

Mr. Frank Reeves representative of the Fort Worth Star-Telegram was in Eldorado last Friday and Saturday securing pictures and information about the town and country. The winnings made at the Fat Stock Show has gained some recognition of the Telegram, a paper that believes in giving every body what is due them, regardless of the location.

Mr. Reeves arrived in Eldorado Friday morning and was taken over the little city where he took snap shots of the new homes that are being built and some of the larger homes that are in evidence of progressive home-builders in Schleicher county. The homes now being built in the Glendale Addition were taken and Mr. Reeves was much surprised at the many modern homes that are being erected here, and of the new Glendale Addition.

The representative spent all of Friday in town, gathering information and enough pictures for two large layouts that will be run in the Telegram in the near future. He was seen in information on the stock industry in the county in the mind of the representative but found that farming was rapidly gaining recognition in the eyes of many people that have heard of the possibilities offered in the Schleicher County soil.

When told that Mr. L. T. Wilson one of Schleicher County's most successful farmers, raised a quarter of a bale of cotton per acre on just five inches of rainfall after the cotton was planted, Mr. Reeves expressed a great deal of astonishment at the quality of the Schleicher soil.

Mr. Reeves has been in Schleicher County before, but at a very different time, a time when there had been ample amount of rainfall and the range and stock were in better condition.

The first two opening games of the baseball season on the high school diamond, spelled disaster for the home team. Although the boys played a fairly good game of ball but were unable to hit the apple when hits counted and were not able to handle the ball when the sure catch meant put outs and saving scores. Costly errors led to the downfall of the home boys in the first game with Reksprings. The two teams battled on even terms until the sixth inning, the Eagles were leading by a one score margin but were unable to hold it, as the visitors uncorked a batting attack, coupled with several costly errors, which netted eight runs. The home boys, however, gave their best efforts to overcome this wide margin but failed by five runs, the game ending 14 to 9 for the visitors.

The Eagles hit safely in every inning but were unable to bunch their hits enough to push over enough runs for a victory.

Eldorado Eagles Lose Two Openers, Reksprings-Sonora

Second Game, Sonora, 20 Eldorado 17

The Sonora Bronchos were the winners of the second game. Coming to Eldorado Saturday and shook off a jinx that has been hovering over them for several weeks.

(Continued on page 6)

A beautiful wedding of much interest was solemnized at the ranch home of Mr. and Mrs. T. K. Jones on Thursday evening, March 20th, when their oldest daughter became the bride of Mr. Jas. Blaine Sammons, of Eldorado.

Mrs. W. N. Ramsey sang "O Promise Me", accompanied at the piano by Miss Lucile Oglesby after which Miss Oglesby played Mendelssohn's wedding march and Miss Vivian Reagan accompanied on the Violin the ushers, Mr. Ed Hill and B. B. Britain entered and marked an aisle with white satin ribbon, which led to the improvised altar in the spacious living room of the Jones home. The altar was beautifully decorated with lilacs, redbud and ferns.

The maid of honor, Miss Ouita Mosley, and the matron of honor, Mrs. Jim Willoughby by sister of the groom, next entered. Miss Mosley was attired in an organdie and net evening dress of pale green and Mrs. Willoughby's dress was of yellow organdie and net. Both carried lovely arm bouquets of white snap-dragons. Miss Victoria Jones, sister of the bride, was dressed in an orchid organdie and she carried a bouquet of white snap-dragons. Mr. Bert Page, of Eldorado, uncle of the bride led her to the altar. The bride was beautiful in a white wedding gown of silk chiffon crepe with a silk net veil held in place with an array of orange blossoms. Her bouquet was lilies of the valley tied with white silk net. The bride was met at the altar by Mr. Sammons, who was accompanied by his brother Mr. Clayton Sammons, as best man. The Reverend Guy Davis of San Angelo, performed the ring ceremony in a very impressive manner.

The ring bearer, Master George Stanley Finley, cousin of the bride, was dressed in a white satin suit and entered bearing the ring on a white satin pillow which was covered with orange blossoms. Little Miss Pauline Jones, sister of the bride, as flower girl, was dressed in orchid organdie and held a lavender basket filled with uowers.

After the ceremony Mr. and Mrs. Sammons were congratulated by their relatives and friends and left immediately on an extended honeymoon trip to Roswell, New Mexico. The bride's going away dress was a pimento wool crepe coat suit with contrasting accessories.

During the reception following the ceremony the guests were served with punch by Mrs. B. B. Britain and Mrs. Jim Hoover.

More than a hundred guests attended the ceremony. Among the out-of-town guests were the following: Mr. and Mrs. Sid Esby and Miss Ouita Mosely, all of Brady; Mr. and Mrs. Cleve Jones and Mr and Mrs S. E. McKnight, of Sonora; Mr. and Mrs. Ewell McKnight, Odessa; Mrs. F. N. Hardin, sister of Mr. Sammons, of Harlingen; Mrs. Clayton Sammons, brother of the groom, of Harlingen; Mrs. Britain, mother of Mr. B. B. Britain, of Dallas; Messrs. Paul Ray and Edward Willoughby, all of San Angelo; and Mrs. Guy Davis, of San Angelo.

After the honeymoon trip, Mr and Mrs. Sammons will be at home on a ranch near Eldorado.

Frank Bradley was back on the job as "Blind Tom" last Saturday afternoon, when he was umpiring the game between Sonora and Eldorado. Frank said that he was wearing his glasses and could see better than ever before. T. J. Bailey certainly would have enjoyed that game be will wager.

Harold Isaacs was home last week end from Schreiner Institute.

GUNMAN'S BLUFF

BY *Edgar Wallace*

COPYRIGHT BY EDGAR WALLACE

TENTH INSTALMENT

Luke finds out by telephone that his old bachelor apartment is still untenanted, and enters it by the fire escape. The police become suspicious and call on Margaret for the key to the flat. She accompanies a detective to the place. Luke hears her voice outside and locks himself in an inner room. The detectives and Margaret away before they burst in the door and seize Luke. They find a gun and a license in his pockets and immediately suspect him of being concerned in the jewel robbery, although they do not recognize him as Maddison. He manages to escape down the fire ladder and jumps into a passing taxi.

Maddison goes to his old bachelor quarters, is taken for a burglar, escapes from the police and tries to get in touch with detective Bird. The Connor gang learn of this, sandbag and imprison him in an underground near the river where he is to be drowned when the tide rises. Meantime Margaret visits Luke's old rooms, finds a sheet of paper on which Luke had begun a letter to his friend and lawyer saying that he is in a desperate trouble. Margaret's joy over the discovery that Luke is alive and in London is tempered by the statement of Detective Bird that the man concerned in the jewel robbery, whom she recognized as Luke, had been in London for two years with the woman whose accomplice he was.

Now Go On With The Story
She was stunned, bewildered; she could only shake her head in feeble protest.

"It couldn't have been the same man," she said at last.

"Do you know him—the fellow who was here?" The detective looked at her keenly.

"No, no," she said hastily. "I only thought . . . it would be such an extraordinary coincidence."

"I've got an idea Mr. Gorton knows him." The detective shut the door behind her as she walked out of the room. "I heard him telling the sergeant that he might be the fellow who was killed the night a man named Lewing was killed. If that's the case, he's only been out of hospital a few days."

She offered the officer some money; he refused it with great firmness and escorted her to a taxi. She was reminded by the fare, when she reached her house, that she had been two hours absent.

She was not shocked; it was too tremendous a discovery to produce emotional phenomena of the commonplace kind. She accepted Luke Maddison, banker, burglar, hold-up man, companion of questionable ladies, with the calmness of a scientist who had happened upon a new and interesting discovery.

Here was an immense happening. To display anger or humiliation would be absurd. One has no regard for a sense of decency when fleeing from an earth quake and its tumbling walls.

She went to bed; and such is the serenity of a resolute mind that she slept dreamlessly. In the morning while she was sitting at breakfast came Inspector Gorton; she listened calmly to his confession of failure.

"The fellow ran like a hare. He must have been a trained athlete," he said. "I'm pretty sure now that he is the fellow who was knifed in a gang fight in South London. Lewing was killed."

"Who was Lewing?" she asked.

Gorton shrugged his broad shoulders. "Nobody in particular, although he gave his name to a gang. The real leader of that crowd is a gentleman named Danty Morell—though he hasn't taken any very active . . ."

She had put down her cup. He saw how white her face was.

"Danty Morell? You don't mean Mr. Danton Morell who lives in Half Moan Street?"

Gorton smiled.

"Perhaps I oughtn't to have

said that, but I thought Mr. Bird had told you. You know know Mr. Morell!"

"I know him very well," she said; her voice was steady and she was smiling. "But you may rely on my discretion, Inspector—I feel almost like a Scotland Yard officer myself."

She had her hands folded in her lap so that he could not see how they were trembling.

"He may, of course, have turned over a new leaf," said Gorton uneasily conscious that he had said the wrong thing. "Some of these fellows do. I know there's been no complaint against him at the Yard for a very long time. Morell isn't his name, of course—I forget what it is, but the Sparrow—I mean Mr. Bird know Wonderful fellow, Danty! He can talk the hind leg off a donkey. They say he's the cleverest confidence man that ever operated in Europe. Perhaps he's made enough money to retire."

Danton Morell! How had she come to know him? She tried to trace back the friendship. Of course, it was her brother—her poor brother—who had introduced him. Rex knew so many queer people. She trusted him—she had trusted Danty. She had believed him implicitly, believed him when he told her that Luke had hounded her brother to his death, believed him when he had produced that pitiable not written on two small sheets of notepaper—that at east was genuine, for she knew her brother's writing.

She was viewing a new world, but none knew better than the livid man on the other side of the table how quickly the Gunner could draw, with what devilish accuracy he could shoot.

"What's the fuss?" he growled. "This bird doesn't mean a thing to you."

"Unlace him," smiled the Gunner. "I'm sorry to oblige you, as I said before."

"What did you come here for, anyway?" asked the other savagely.

The Gunner looked up at the ceiling. "I forget exactly," he said untruthfully. And then: "Who is this man?"

"Man named Smith. He squealed on me to-night, and then tried to carry it off with a tale about being a banker—he's got a nerve! Luke something or other."

Gunner Haynes bent down and peered into Luke's face. He recognized the sleeping man instantly.

"Luke something or other, eh? Where did you pick him up?"

As he spoke he beckoned one of the men. "Take that chain off," he said.

The man glanced uneasily at his chief but Connor nodded.

"The trouble with you, Gunner, is that you will interfere with other people's graft. If you want to know who he is, did that job to-day in Bond Street."

He related "Smith's" biography; Gunner Haynes knew that he was speaking the truth. He was puzzled, but not greatly. He had lived to long on the seamy and shadowy side of life to be surprised at anything. Men had lived double lives before but this was the kind of double life which Haynes thought belonged to the realm of imaginative novelists. A banker who amused himself in smash-and-grab raids was wildly fictional—but possible.

There might be, he thought, a woman somewhere in the background. Where women touched life, the inexplicable became almost daylight-clear.

"What are you going to do with him?" asked Connor, as the man stooped and with scarcely an effort lifted the unconscious Lue into the chair.

The Gunner did not answer the question. Instead, he post-pounded on of his own.

"Have you any sush in this place?" he asked and saw a look of alarm come into the imperturbable face of the other.

"Slush?" said Connor quickly. "No—why should we? I don't deal in that kind of stuff. No forged French banknotes. The Gunner shook his head in anticipation of the answer.

"What do you mean, Gunner? A smile lit up the saturnine face.

"You asked me why I came here, and I'm telling you. They're raiding your place to-night. I only got to know it an hour ago. I thought I'd come along and tell you. I don't know why, but that's my nature—helping the poor crooks!"

He saw the three men glance at one another, and the alarm in Connor's face was patent.

"We had a parcel over from Paris the other day," he said un- easily. "Harry, get it up."

He looked at the huddled figure of Luke.

"You're meaning a big mistake about this bird," he said. "You let him get into the hands of the police and I'll put up a squeal that'll make you deaf!"

Stopping the Gunner put his arm about Luke Maddison and lifted him bodily. He turned and strode through the narrow passage, and into the untidy yard. He had already located Connor's van, and he was on the point of hoisting his burden into its interior when he heard a stealthy scrapping against wood. It was the sound that a man makes when he is climbing somebody getting over the gate.

He sat Luke on the ground, propped him against a wall, and went noiselessly toward the entrance of the yard. Stooping to get a skyline, he saw the head and shoulders of two men above the gate. It was enough; he need see no more.

the hospital."

The Gunner nodded. "I thought you might be picking him," he said, shook his head and repeated: "Ingenious but not original. No marks of violence on the body nothing to show that he didn't drown, as people do drown, by accident. I'm sorry to have spoiled your amusement, but you'll have to let him go."

"Why?" asked Connor. "Because," said the Gunner deliberately, "I'm in it! You do not catch me as accessory before after, or in the fact of murder. It's not my graft, Connor. Remove that interesting apparatus."

Connor smiled. His hand dropped quite naturally out of sight below the level of the table. "If you pull a gun on me," said the Gunner, not a muscle of his lean body moving, "I shall shoot you through the stomach. It'll take you five days to die, and it's a very painful death by all accounts. I shall the ngo out and explain to the police why I shot you, and there will be no flowers from Scotland Yard."

One of Connor's assistants moved a step forward toward him.

Look here, Gunner—" he began, mildly enough.

Haynes's fist shot out so swiftly that the man could not counter the blow. He went down with a crash. The Gunner stood motionless, watching.

"Both hands in sight," said Haynes. "Lay 'em on the table, Connor."

He had no weapon in his hand, but none knew better than the livid man on the other side of the table how quickly the Gunner could draw, with what devilish accuracy he could shoot.

"What's the fuss?" he growled. "This bird doesn't mean a thing to you."

"Unlace him," smiled the Gunner. "I'm sorry to oblige you, as I said before."

"You asked me why I came here, and I'm telling you. They're raiding your place to-night. I only got to know it an hour ago. I thought I'd come along and tell you. I don't know why, but that's my nature—helping the poor crooks!"

He saw the three men glance at one another, and the alarm in Connor's face was patent.

"We had a parcel over from Paris the other day," he said un- easily. "Harry, get it up."

He looked at the huddled figure of Luke.

"You're meaning a big mistake about this bird," he said. "You let him get into the hands of the police and I'll put up a squeal that'll make you deaf!"

Stopping the Gunner put his arm about Luke Maddison and lifted him bodily. He turned and strode through the narrow passage, and into the untidy yard. He had already located Connor's van, and he was on the point of hoisting his burden into its interior when he heard a stealthy scrapping against wood. It was the sound that a man makes when he is climbing somebody getting over the gate.

He sat Luke on the ground, propped him against a wall, and went noiselessly toward the entrance of the yard. Stooping to get a skyline, he saw the head and shoulders of two men above the gate. It was enough; he need see no more.

GOLDENROD

Goldenrod is a beautiful flower and a pestilent weed. It grows all over the country and so comes as near as any to being our national flower. Modern medical science says it is not goldenrod but ragweed which causes hay fever. If Henry Ford's experimental goldenrod farm in Georgia succeeds in commercializing Edison's discovery that goldenrod contains rubber, we may see goldenrod farming becoming as widespread as wheat farming is today. That is not impossible, though hardly probable. Yet every crop the farmer grows was once a weed and has been made into a crop by somebody's discovery that it is useful to humanity.

BUILDINGS

Plans already developed for new buildings to be constructed in 1930 call for an expenditure of nearly double that of 1929. And this does not include private residences. States and municipalities have raised more funds by bond issues in the past three months than in any similar period, and the proceeds of those sales will be used for new roads, public buildings and other improvements. Everything points to a greater volume of construction work under way in the near future than we have seen since the first year or two following the war. And that means employment for everybody, money freely in circulation again, renewed prosperity for all sorts and conditions of men.

ARLINGTON

The great Natinal Cemetery in Virginia, across the Potomac River from Washington, where William Howard Taft, President and Chief Justice, was laid to rest, is one of the most beautiful spots in America. It was the estate of Robert E. Lee, and was confiscated by the Federal Government when Lee threw in his lot with the Confederacy. Only men who have served their country in war may be buried there.

From the Lincoln Memorial in Washington the great new bridge over the Potomac leads directly to this ancient home of the Lees, tying the memory of two great Civil War leaders together and bridging the gap between North and South with a final gesture of reconciliation.

Arlington is to America what Westminster Abbey is to England the burial place and shrine of our devoted dead. No one has truly seen America who has not seen Arlington.

BRITISH

Thirty years ago, in 1900, the Boers of South Africa gave up their unequal war against the British. American sympathy was completely with the Boers in that conflict and against the British. It looked to all of us like a parallel to our Revolution. We expected reprisals and oppression of the conquered on the part of the British, but on the contrary the new government set up in South Africa proved to be far more liberal than the done which the Dutch Boers had operated. The U. S. A.—meaning in this case the Union South Africa—is today an independent nation, a member of the British Commonwealth of Nations, to be sure, but in every respect a self-governing state. French and British participate on terms in its government, as the French and British in Canada. General Smuts, great of the Boer war leaders, has served as Prime Minister.

His object-lesson, proving to the British government of time is not the tyrannical ruler which it seemed to be. George III, has done more than anything else to establish friendly feeling toward Britain which now prevails almost everywhere in America.

When Admiral Byrd's return explorers reached New Zealand the sight which stirred most deeply was trees. Nearly two years they had

Dr. Frederick A. Cook, who claimed to have discovered the North Pole, has been paroled from Leavenworth penitentiary where he was serving 4 years for oil-stock frauds.

WHAT'S THE MATTER WITH FARMING

With the agricultural season of 1930 beginning to get under way the eyes of the nation are focused upon agriculture and its problems and possibilities as they seldom have been heretofore.

For the first time since the early days when we were primarily an agricultural nation, big business and financial interests are taking an interest in the farmers' problems from another point of view than to see the possibility that agriculture may develop into an actually profitable industry.

For fifty years the farmers of the United States have been crying poverty so persistently that the rest of the people had just about come to believe them. The farmer, in the eyes of the average business man in the city was a poor dabbler struggling for a bare existence, facing foreclosure and the poorhouse every day of his life. That was the natural reaction from the loud outcries of the farmer lobbyists in Washington who, whether they intended to do so or not, conveyed the impression that unless something was done by the Government all the farmers would have to go out of business.

That never was the case, as anybody who knows anything about farming knows. There are poor farmers everywhere—poor in both senses of the word. There are disgruntled farmers everywhere, who talk poor when they are really a good deal better off than most of their neighbors. It has always been the farmer's privilege to grumble about the weather and the corn-borer and the boll-weevil and the other pests that make agriculture one of the most exciting occupations of the world.

But the general run of farmers get along pretty well, considering, and now that a comment aid has been adopted and is actually in practice, the cries of the farm lobbyists are hushed and the rest of the country is beginning to watch the farmer with great interest.

Is he a business man? He has five hundred million dollars of Government funds with which to try the experiment of being his own middleman. In addition to that, he has a basic capital of a great many million of his own money invested in the shares of the cooperative marketing associations, and some of the biggest investors in the land have added more millions to that capital by buying the bonds and debentures of the national cooperatives.

The greatest danger to the farmer just now seems to be that other people will swing to the opposite view of him and think he is making money so easily that it might be a good line for them to go into.

It is a difficult world without trees, though in ice land a hundred generations have lived and died without ever seeing one. We are cutting down trees as a crop, but as a natural resource to be mined without replacement. The Federal Farm Board's chairman lately made a plea for the restoration of the "woodlot" as an important part of every farm. Trees as a crop do pay. They take longer from seed to market than any other crop, but every sound tree adds its little to the value of any farm, and with the inevitable reduction in acreage devoted to money crops and pasturage there is no better use to which surplus land can be put than growing trees for the future. Moreover, many states now exempt reforested land from taxation.

COMING TO San Angelo DR. MELLENTHIN Special Attention to Internal Medicine

DOES NOT OPERATE Will be at HILTON Hotel on TUESDAY APRIL 1st. from 10 a. m., to 4 p. m. ONE DAY ONLY No Charge For Consultation

Many in this community will avail themselves of the opportunity to visit Dr. Mellenthin on this special visit to SAN ANGELO. The Doctor pays special attention to the Science of Internal Medicine and Dietetics. He is trying conscientiously to eliminate surgery in his treatment of disease as far as possible.

Some of the ailments treated are diseases of stomach (especially ulcers), glands (especially goitre), ailments of women, diseases of liver and bowels, as infected gall bladder, gall stones, appendicitis, chronic constipation, colitis, auto-intoxication and rectal ailments, circulation disturbances as high or low blood pressure, heart and blood disorders, skin, nerves, bladder, kidneys, bed-wetting, weak lungs, tonsils, adenoids, metabolic disturbances such as Rheumatism, sciatica, leg ulcers and chronic catarrh.

Medicines are prescribed and repaired for each individual case in his private laboratory, also special attention given to diet as to proper balance and selection of foods.

For this service a nominal charge is made. Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the State of Texas.

Married women must be accompanied by their husbands. Address: 4221 West Third Street, Los Angeles, California.—Adv. (c13)

What about Marshal Chick? He has had the measles and has been absent for several days. If Chick comes out for baseball Coach Smart will have his two star men, "Fat" and "Rooster", on the team and he certainly will have a team.

SCHOOL NOTES

(Continued from page 5)

One of the big questions is (1) "Why should the laboring people favor the Sterling Plan?"

Answer: Because it will cause a demand for material and workers. At the present time the question of labor is a very serious one.

Because a big demand for labor means good wages and plenty of work.

Because the rads will not cost the tax payer a cent unless he owns and operates an automobile.

Because it will save the owner of a car from \$25 to \$200 a year in upkeep and depreciation. The fine system of highways in California could be torn up and rebuilt every five years from saving resulting in the upkeep of motor vehicles. This sounds rather fishy but statistics show it to be true.

Question 2. Why borrow money to build roads?

Answer: So that roads can be built as quickly as possible.

Question 3. Will this bond issue raise the taxes on our property?

Answer: No. This is a tax on gasoline alone. If you do not run a car you will not have to pay a cent more tax.

There will be more questions and answers about the plan in next week's paper.

In closing this article I wish to say that I can see no sound reason for opposing this plan for building roads. I am of the same opinion of Mr. Wilson, Chairman Federal Highway Commission, who said: "It appears the only way Texas can put on a comprehensive road program is to adopt a large bond issue." Texas cannot grow in prosperity without the good roads which the Sterling Plan will supply.

Several years ago California attracted the attention of the whole country. Everybody wanted to go to California, "The land of the setting Sun" and California had a boom. Then Florida got on a big boom. The Florida boom has quieted down and, my friends, the next section of our nation to attract the attention of the entire country will be our good old lone star state of Texas. Texas has wonderful resources and mighty monuments of history of this nation. We have the Alamo, Goliad, San Jacinto and other famous places to attract the interest of tourists. These, with the other resources, will attract new citizens to Texas.

The present wealth of our state is boundless and her stored-up wealth is greater. The Sterling Plan means the development of roads. The development of whole state and thus means greater and wider opportunities for every citizen in the state. The Sterling Plan indirectly means bigger and better homes for all. This wonderful plan will build highway and good laterel roads throughout the state. The Sterling Plan will develop the resources of the state and I believe you will agree with me in saying that it is essential to the growth of prosperity in the State. Why not give this plan a trial? I say, and I feel sure that you will say that the Sterling Plan for financing a state system of roads in Texas should be adopted.

Geographically Speaking
Waitress: Hawaii, gentlemen. You must be Hungary.

First Man: Yes, Siam and we can't Rumania lang, either. Ven ice lunch ready?"

waitress: I'll Russia ta a table. Will you Havana?

First Man: Nome, you can wait on us.

Waitress: Good, Japan the menu yet? The Turkey is Nice."

First Man: Anything at all. But can't Jamaica little speech

Waitress: "I don't think we can Fiji that fast but Alaska."

First Man: Never mind asking any one. Just put a Cuba sugar

WORRYING DOESN'T PAY

On his way back to a college reunion, one of my friends stopped in the little town where he had spent his boyhood.

"How is business?" he asked a local merchant.

"Awful bad," was the reply. "And what's more, I don't like the outlook."

"Why not?"

"Well, there's elements in the situation that might develop a lot of trouble. At least that's the way it looks to me."

My friend lighted a cigar, and leaned over the counter.

"George," said he familiarly, "those are almost exactly the same words I used to hear from the storekeepers when I was a kid here twenty-five years ago. I've been a subscriber to the local paper ever since I left, and most of those old storekeepers have died. I have taken special notice of the size of their estates. How much money do you think they left? Between a hundred thousand and two hundred thousand dollars each. And here's the funny thing—every penny was made out of business which were always bad and always on the verge of getting ever so much worse."

I suppose that if gravestones told the real truth, nine out of ten of them would bear a line to this effect: "That man's life was shortened several years by the

fear of bad developments, most of which never occurred. Even very wise men, as their years have increased, have suffered from the evil habit of fearing the worst. The Rev. Dr. Cotton Mather, who died two hundred years ago in Boston, was the most eminent graduate of Harvard and virtually the founder of Yale. He had courage and a wonderful mind.

Yet in his old age he viewed the future disconsolately. He concluded that God had brought the Pilgrims across the ocean to "a New England desert" for a very special purpose, but that this purpose had obviously been accomplished and that the whole colony would "soon come to naught."

The colony shows no sign of coming to naught, but there are doubtless a million men in it today who are losing the fun of their current success because of the bread that something unfortunate may be about to happen.

"One-fourth of life is intelligible," said Mark Rutherford, "the other three-fourths unintelligible darkness; and our earliest duty is to cultivate the habit of not looking around the corner."

Those of us who do not look bump occasionally, but how much faster we travel! And what a lot more fun we have because of the imaginary bumps that we miss!

in our Java.

Waitress: Sweden it yourself. I'm only here to Serbia.

First Man: "Denmark our bill and call the Bosphorus. He'll probably Kenya. I don't Bolivia know who I am.

Waitress: No, and I don't Caribbean Youse Gipare Armenia.

Boss: "Lamao your wisecracks is it? Don't Genoa (u) a customer is always right? What's got India? You think maybe this arguing alps business? (Customer—Canada racket. Spain in the neck!

Sophomores Personals
Lola Davis and Alice Doran have not been at school this week. We are expecting to have a back ready for work by next week. The "sophs" are missing them very much.

Clemmie Mercer came back to school. Clemmie had been absent three weeks, and we are very glad to see her back in school with us.

Helen Craddock, Margaret

Sheen, Bell Sample, and Lawson Edmiston were absent out of the sophomore class last week too. Helen, Margaret and Lawson were out on account of measles. Bell was out with a good case of laziness, we think. We hope he has recovered sufficiently by this time.

PARTY
Mrs. L. T. Wilson entertained many young people with a party at her home last Friday nite. There was a big crowd and everybody reports a good time. One always enjoys a party at the Wilson home.

On the way to the party Margaret Williams, Albert McGinty, Mary Dell McGilvaray and Margaret Sheen ran their car into a ditch and were injured. We are very sorry this accident happened and we hope those injured recover very rapidly.

Field and Literary Meet
The Interscholastic league county meet was held here last Friday. This is the first county meet that has been held here.

EVANS MOTOR COMPANY

All the rural schools were to have been represented but so many of their pupils have been out with the measles that there was a very small representation

In track events the Eldorado Junior team won every event. 50 yard dash, Junior Isaacs, 1st Bill Smith second, and W. C. Parks of Bailey Ranch third.

High jump, Arnold Farrington first, Arnold could easily have gone another foot higher had he wished to do so. He should easily make a good high school track man next year.

440 yard Relay, Runners for Eldorado were Oliver Hardt, Bill Smith, Jack Shuggart, and Junior Isaacs.

Runners for Bailey Ranch were Jack Meadow, John E. Rodgers, J. Kerr and W. C. Sparks. Eldorado won this relay.

100 yard dash, Junior Isaacs first, Bill Smith, second and W. C. Parks, third.

Broad Jump, Bill Smith, first 14 feet. Oliver Hardt, second, 13 feet 6 inches. Junior Isaacs, third, 13-3. Jack Meadow, fourth 13 feet.

In literary events there were only two schools that had speakers Reynolds and Adams, and Bailey Ranch on arithmetic team

In Senior Declaration, Mary Dell Williams of the Adams School won first place. Aletha Fought won Junior declamation. The Eldorado team won the Arithmetic contest.

Eldorado won the picture memory contest also.

BASEBALL GAME

Rocksprings defeated Eldorado Friday afternoon by a score of 13-7. This was the first game of the season for Eldorado.

The E. H. S. players did some good work especially in batting Jim West is a good hitter even though he is small. We are proud of Elzie Moore for knocking a home run. If Elzie will just keep up this up he will be "all right."

All the boys played a good game. Carl Kerr, catcher, Jack Kerr, first base, did some good playing. With a few more week training this should be a winning team.

WRIGHT'S PARAGRAPHS

Most every one took note of the high wind that came up Monday morning at 3 o'clock. We had no way of measuring the velocity of this wind, but according to Buck White's judgement it was about the swiftest that has visited this section in several years. The wind was from the north, and had it been as cold as it was strong it certainly would have had whiskers.

The report from the Stockman's convention over at San Angelo are quite confusing. We can't tell whether the crowd a good time or a hell-of-a-time, any way from reports of some that attended from here, there was plenty to drink and this being the case there was nothing to keep them from having some kind of a glorious feeling.

Why worry about rain when you have plenty of wind to get the water, anyway Elmer Brunton has that rain scheduled to come by April 1st. Aubry Miller says we don't need it before April 15, and J. M. Ramey says April 10, will be soon enough, "Uncle Dink" feels a little bit dryer since the stockman's convention, and says right now is the time. Jess Bradshaw says he's been dry for some time now. Another thing if our wells go dry we can haul our water in on the Santa Fe. L. T. Wilson and C. B. Reagan have been all wet since they came back from joys a good patronage, he has beyond the Rio Grande on a fish associated with him now his sing trip. All indications are Grady, and the writer of this that they both fell in the creek.

Bill Mund attended the convention and from reports he must have been one of the judges of the 16 Wagner beauties. Anyway we should not worry about the dryness of the county and the wetness of the county at the same time.

R. L. Henry has announced for Senator against Morris Sheppard. Sheppard is the father of the 18th Amendment. Henry announces that if he is elected he will stand for the repeal of the 18th Amendment. This makes prohibition a real issue in the political field today. The prohibition issue made a republican state out of Texas last general election, and unless their forces get divided the prohibition citizenship of Texas will see that the 18th Amendment will remain in the constitution of the United States as far as Texas is concerned.

We are almost willing to wager our old "Sombero," that Jim Ferguson leads Barry Miller in the governor race 10,000 votes. This is one time we are almost willing to bet on Jim. Of course we don't expect either of them to go to the run off.

Congratulations are in order, for W. H. Parker, he is moving his old store building and making a new modern store building where his old one stood. Mr. Parker is one of our oldest business men and he has been all wet since they came back from joys a good patronage, he has beyond the Rio Grande on a fish associated with him now his sing trip. All indications are Grady, and the writer of this paragraph congratulates this en-

Baseball Game, March 22

Folks, we had a very close, fast played game, at the school house Saturday between Eldorado and Sonora. Although we had a very good crowd out, we want many more so that people coming here with the other team can't drown us out. If you will only boost this little team of ours, we can show you the results.

Lefty (Tom) Smith pitched in the first part of the game and Jack Kerr pitched the rest.

Jack sure gave the crowd a surprise when he got in the box. No one except the Coach, knew what Jack could do it seems. He started right in and kept the bunch on their toes through the rest of the game. Carl Kerr did some fine back catching. Reckon those boys are going to make another T. J. and Buck? It looks like it now.

Although there was \$2.00 offered for every home run, none of the boys got rich, and Elzie said he wished that he had saved the one from the day before until Saturday's game.

Surprising business firm.

F. M. Bradley, the bald-headed man on the front row at the speaking Monday night, enjoyed the lecture very much, also the picture, he reports of being disturbed only once and that was when the writer of these lines began smacking his lips when the picture reached a certain stage.

TRUSTEE ELECTION

There will be an election held at the Court House in Eldorado, on April 5, 1930, for the purpose of electing three trustees to take the place of Jess Koy, W. R. Nicks, T. W. Ellis and B. E. Moore, and Sam E. Jones is here by appointed to hold said election.

S. L. Stanford, Pres.
W. N. Ramsey, Sec.

There were three or four third beggars knocked at some very critical moments.

They just couldn't fan Dutchy (Vance) Morgan.

Be sure to come out and see these games, you'll have a lot of fun, and put new life into the home team at the same time.

Dr. Morrow Lectures To School Students

Dr. Morrow from Michigan spoke to the assembled school children Tuesday. Everyone enjoyed his talk very much and we wish that we might have the privilege of hearing good speeches oftener.

After his speech the debating teams spent several pleasant minutes talking to him about the highways in Michigan.

What a Student of E. H. S. Thinks of the Sterling Bond Plan for Building Roads in Texas

I believe the "Sterling Plan" for the insurance of serial bonds for building roads in Texas is essential to the growth of prosperity in the state. At present there is a great demand from industrial and agricultural parts of Texas for better roads. There has been a great increase in automobile registrations and bus and truck lines have been increased over 50 percent. There vehicles need good roads to travel over. Under our "Pay-as-you-go-plan" a system of roads can be built throughout the state in something like 30 or 40 years, but under the Sterling plan a greater system of roads can be built in 10 years. Also under the present plan of highway finance there is no provision for building of lateral roads and the revenues at present are only enough for maintenance of the present highways. The Sterling plan will provide for expansion road building over a number of years.

A big factor for the Sterling Plan is that it will place highways construction under the State control and the counties

will be left free to build lateral roads and improve their own projects.

The Sterling plan will be a great benefit to the majority of people in Texas, for it will develop social advantages by providing for good roads which will give better means of education. The small one-teacher schools can be consolidated with the larger school. The pupils in the rural schools will have good roads provided for under the Sterling plan, to go to school over. This will scatter educational advantages out evenly throughout the state. In the paper a few days ago here was an article about what governor Moody intended to do if he were re-elected governor of Texas. Mr. Moody said that he wanted to tax the natural resources of Texas, so that the heavy burden of tax paying would be lifted off of the tax payer so that he might repair his farm and rehang his sagging gates. The Sterling plan will develop the natural resources in Texas and in this way will help Governor Moody's plan.

Under the "Pay-as-you-go" plan the people of Texas are paying for roads that they do not get. The Sterling plan will eliminate this fault and provide good roads throughout the state that will be paid for by the ones that use them.

I have carefully studied both sides of the question of highway finance and I find there are many questions that are asked about the Sterling plan. The answer to these questions concern the people in this section of the State very much and should be given a great deal of consideration.

MONEY TALKS

THE INVISIBLE ELEMENT

There is one phase of our service that you can always see, such as keeping an accurate account of your funds—

But it is THE INVISIBLE ELEMENT—That loyalty and wholehearted concern for the welfare of our patrons—which really makes our service a little different and a little better.

"DEPENDABLE SERVICE"

The finest set you ever heard—

NO SET, at any price, will give you more power—greater range; no set is more selective; there is no finer tone. Yet this wonderful Atwater Kent Model 60 costs only a moderate price.

If you know the story of Atwater Kent Radio, you know why only Atwater Kent can make a set like this, at such a price; or, if you're not radio-wise, you can take our reputation and Atwater Kent's as proof of the value.

Entered as Second Class matter July 9th, 1906, at post office at Eldorado, Texas, under Act of Congress of March 3, 1879.

Charles Arthur (the Great) Shires famous fighter and tobacco chewing first baseman for the Chicago White Sox has at last decided to sign another contract to play baseball. He stated at first that he would not help the White Sox win the pennant this year unless they paid him \$25,000 but he has signed for about \$7,500. He might have decided that his services were not worth the large sum, especially in the mind of the manager. Sports writers say that if he had not signed with the Sox that the tobacco chewing companionship would have been lost to the major league.

THINGS GETTING DAMP

According to the secret ballot that is being made by the Literary Digest, things are getting damp around in the old U. S. and not from rain. The votes are being received from different parts of the nation on the enforcement of the prohibition Amendment, the Modification of the Volstead Act and the Repeal of the Amendment. The Repeal is leading at present with 287,885 over 191,909 for enforcement and 224,141 for modification.

This week may bring in an altogether different story, as the dries are on their mettle and getting ready to put on their usual fight.

The government is spending millions of dollars annually in trying to enforce this law but as long as there are sots hired to enforce this law in many places, who will take a fellows whiskey away from him and then put on a cheap party himself, there will be millions more dollars spent, and the law will get no further than it is. We suppose that it is as well enforced as any other law as far as that goes. A fellow with the money can get all the whiskey he wants and a fellow with money can get out of most any crime that he commits. Every thing seems to be square on that line.

When these "two gun licks" that are hired to enforce the law, start getting on sprees and drawing their guns on other people, then the time has come for something to be done. The remedy has not been found yet, it seems, as the government is still appropriating more money for the enforcement of the dry law and the bootleggers are putting on larger pots of corn, trying to make production equal the large demand. It is not a question of whether you can get liquor now, but only the question of how long will it take the prater to get back with and the ice water to smother the flame in your throat and in many instances the liquor gets back before the water.

A NEW "GOOBER GRABBER"

During the time that sheep contests were the hottest at the Fat Stock Show, our friend F. M. Bradley wired the County Agent L. E. Sumner to send him some peanuts. As the peanuts were not available at the stock show, Mr. Sumner told his father, who raises them in plenty, to send Mr. Bradley ten bushels C. O. D. Mr. Bradley will probably use these while campaigning for the County Judge's office.

MINIATURE GOLF LINKS

Miniature golf is the latest fad. Town block imitation of the real thing are to be seen in many places, and a number of hotels are establishing them for their guests. While an entire block is better, even smaller plots may be used. Stone, cement, wooden obstacles and sand piles are used. While the main rules of golf are followed, the miniature golf courses present more the appearance of cluttered croquet grounds. The game is far better and less exhausting and much more economical than that of the large golf courses. Every town worth while will have its miniature golf courses.

SCHOOL NOTES

OUR BASEBALL TEAM

Carl Kerr, catcher; William McAngus, pitcher; Aubrey Smith, pitcher; Jack Kerr, first base; Edwin Kent, second base; Jim West, Short stop; Bill McGilvary, third base; Eli McAngus left field; Elzie Moore, center field; Brownie Bullion, right field; J. R. Connor, center field; Alfred Sharp, left field; Albert McGinty, catcher; Fred William Catcher; Lawson Edmiston, third base; Vance Morgan, rite field.

season with a sensation which persuades them to believe that this is not going to be a "luckless year." The line up has not been permanently fixed but most of the boys have found a vacant place on the diamond which they believe they can fill. If the town will help the school support this team we can show Sonora, Rocksprings and other "friends of opposition" just how it is done. Due to the fact that the boys who are taking part in baseball are willing to try to represent our High School and our working out to try to be fully prepared to beat other teams of competition the High school wants to be represented at each of the games and want to see all of the citizens of the town out boosting our team.

The high school is behind you boys so show them what you can do—then I'm sure you will have no trouble in getting boosters for the games.

Business Men Help Baseball Team

Below is a list of the men who donated money to the baseball team.

M. O. Shafer, Grocery, Roberts Clothing Store, Evans commission company, Royster Whit ten Drug Store, Palace Barber Shop, Williams Mans Shop, Bill Munds Barber Shop, McDonalds Confectionery, Parker Grocery, Evans Motor Company, Davis Filling Station, Shoemaker and Sons, Eldorado Electric Shop, Pnton's Blacksmith Shop, Humphrey Hardware, Rock Filling Station, City Barber Shop, Duncans Cafe, Brooks Store, Wright Cash Store, Greens Service Station, Trail Motor Company, Hoover Drug Store, Red Front Variety, Self Serve Grocery, Eldorado Bakery, Eldorado Recreation Club, Andrews Market and Store, Harris Rounds Meat Market, Sweatts Saddle and Boot Shop, S. A. Carryway, Leslie Baker, J. B. Christian, Dictor Wiedenmann, Doc. Kerr.

The baseball team wishes to thank these men and also the one who collects the money. The school also wishes to thank every one who has helped our baseball team.

JOKES

Marshal Chich (freshman): entered a crowded barber shop: "How long will I have to wait for a shave?" Barber (eying him critically): Oh, I should judge about two years.

Carl: Men of my type ore not running loose.

Jess Ella: Of course not, that is what this big deputy is for.

Junior: The teacher told us that in Alaska a day lasts six months.

Holt: I'd like to do business there.

Junior: Why?

Mr. Holt: When a collector came to collect a bill I could tell him to come back tomorrow.

Mary Dell: It is bad luck to postpone a wedding?

Albert: No, Not if you keep on doing it.

NEW WORLDS TO CONQUER

Conquer the trip which Malaburton made in over South Amer

ica. It was published in 1929 and is very interesting because it tells of the experiences he had and of the knowledge he gives of the South American countries. Because it was only published last year it tells of the country the way it is now and he was on his trip ten years he had time to see things with his own eyes and to absorb some knowledge about the people. Being merely a vagabond while in these countries he was some times among a low class of people and in his story he talks chiefly of his pleasure and hardships in traveling.

The work is intertaining because of the nature of its style which is in the manner of talking and it relates everything so clearly that one does not want to stop reading for more inspiration from the next story. The scenes of the old cities of Mexico, the Panama Canal and cities of South America that he describes make one want to travel to the places too as he did.

The book teaches us much about South America especially the geography of the country. Its climate, forests where monkeys and ther strange animals dwell, wild fruits that grow there, mountains and beautiful cities of South America. He also met some beautiful Spanish girl in Lima City. In French Guiana he learns of the treatments of the prisoners on Devils Island and no one has learned so much of the life of these prisoners besides the officers so he makes it known in his book.

The whole book is interesting because of history it gives of South America and Mexico it is a good book for the High school Library.

SPORTS

We are mighty sorry that this paper does not have a sport writer like Blondy Cross to write for it. If it did maybe the school would have a better athletic team. As it is, however, we will have to worry along without a writer like the great Mr. Cross.

"Fat" Williams, the illustrious tennis and basket ball star, is a "mean" one in base ball. If he does not have a mit ready to catch the ball in he lets it him in the stomach, "Fat" will catch a ball in his bare hand, on the shins, or just any place the ball happens to hit. "Fat" never moves out of the way to keep from getting hit. If he does not get fat worked off running he will get it knocked off so why should he worry? "Fat" is a real ball player. Just watch his smoke. He "might" be a second Babe Ruth, Quien sabes?

We will have some Dwarf Maize seed and Fetterita seed Saturday at Wright's Cash Store

LOST: Pair of White Gold rimmed Bifocus glasses in case, return to this office and receive reward.

Mr. and Mrs. W. L. Isaacs were shopping and visiting in the city Tuesday.

Nurse Tells How CARDUI Helped Her

Mrs. W. A. Cox, a well-known professional nurse, of Burnside, Ky., writes:

"I was in very bad health, and only weighed 110 pounds. I read in the papers about Cardui, and thought I would give it a try-out. After I had taken one bottle, I could see that I was improving. After I had taken it a month or two, I began to gain, and I weigh at present 163, and have weighed that for some time. I am now 55 years old, and can do as much work as the average middle-aged woman can."

"I would advise any woman, who is weakly and in a rundown condition, to try Cardui, but not to expect one bottle to make her well. I take two or three bottles a year, now, and I feel fine."

CARDUI
USED BY WOMEN FOR OVER 50 YEARS

Take Theford's Black-Draught for Constipation, Indigestion, and Biliousness.

Jim Young For Tax Reduction

Declaring that he was a life long Democrat, Jim Young, Kaufman attorney and former Congressman, launched his campaign in a radio speech here at a state-wide rally of his friends. Mr. Young based his campaign on a program of tax reduction.

Mr. Young contended that the farms of Texas have decreased in value and productivity, though through an antiquated system the small land owners were bearing more than their share of the burdens of the states expenses. He proposed to equalize the tax burdens by reducing the farm taxes and levying toll on the natural resources of the state, such as oil, gas, sulphur and other minerals.

"The farmer and the ranchman has been a stabilizing influence in our community life and the support and mainstay of our system of government," he declared "I advocate that the burden of taxes be made lighter on the farmer and the small land owner. It should be placed on those who have become rich in our natural resources of oil, gas and other minerals."

Mr. Young argued that expenses of government must be curtailed and the places of waste found and abolished. Mr. Young said that he did not mean however, that the large corporations should be unjustly taxed.

Mr Young went on record as opposed to a statewide bond issue for road building or for any purpose. He declared that it was his opinion that the present funds were all that the highway commission could judiciously expend for highway construction.

"In this great enterprise we must make haste slowly," he said of road building.

"The government should always be alert in caring for the whole educational system, beginning with the common schools and running through our whole system to its cap-stem, the State University our, A. and M. colleges and our Technological schools," he declared,

The direct responsibility for law enforcement, Mr. Young placed on the various counties of the state.

ELDORADO LOSES—

eral years to win by 20 to 17. This was a very loosely played game, hits and errors were numerous on both sides. Sonora gained an eight run lead in the first frame, a lead that the home team could never threaten. The visitors were never in danger throughout the game and the closest the Eagles ever came was within three runs. That being in the last inning when they bunched three hits to bring over three tallies. The rally fell short and the home team went down in defeat.

The team is practically a green team this year, with only one or two of the boys ever playing any baseball, with the exception of alley ball on Sunday afternoons, with the usual rag ball and pick handle bat. But with more coaching and hard practice, the team will look much better and will win several games before the season closes.

Coach Smart has had a hard time this season in both football and base ball, working under the handicap of practically all new material. The football team was light and with little experience to begin with but played some good football before the season ended. The basketball team made the best record of the year up to date. The track team, an inexperienced team took second place at Sonora meet but were unable to hold the loving cup won at the meet last year. The light weights were unable to compete with the fast team that Sonora placed in the field this year. The baseball season has started off with a smash for the local boys but we can say that they fought hard to win in both games right up to the last out. Whether win or lose this spirit displayed by the boys in the first two games will carry them over in the respect of the fans in Eldorado. The fighting spirit is the reputation that Eldorado teams have over West Texas. They always lose fighting. They have never given up. This spirit has always been the drawing card for the fans. They always love a hard fighter and a good loser.

"Self-Serve" Grocery & Market

Last week we sold more groceries than any week since locating in Eldorado.

To our many customers we thank you, for it is you and your influence that has helped us to make the Self Serve Grocery what it is. We want you to feel at home in our store.
