## Schleicher Co. Drenched, 4 Inch Rain Friday and Saturday.

### OH! BOYS.

Come and get a pair of the latest long Trousers for boys, little men, of all ages, from five years up. Williams Tailoring Co.

I will be in El Dorado September 1st, to repair my house and also will want to sell it at that time. If interested see me when I come, or write me at Uvalde, Texas. W. B. Roberts.

### SCHLEICHER CO. DRENCHED. FOUR INCH RAINFALL.

Friday morning about daylight a rain began to fall at El Dorado and by noon two and a half inches of rain had fallen, and reports from over the country is that the entire county has had a good soaking, and the Friday rain reached to Sonora and they reported about an inch. It began raining Saturday evening and continued most of the night and most of the day Sunday until the rain at El Dorado is near 4 inches. The value of this rain to Schleicher County is unestimable, but it insures a good cotton that will surpass the 1924 crop which was the largest ever produced in the history of the county. We already had the best grass in the history of the county crop and this will insure plenty of winter grass. Some of the early feed has been harvested and the rain will make the late feed mature with plenty of grain, although the earlier feed did not fill out very good.

We understand that the rain Saturday night extended farther south and east than the other rain Friday morning did.

Cotton growers here are wearing smiles and all are unanimous in that we will make a good crop as the rain has come in time to keep the cotton growing and make it put on its best. The man that couldn't be thankful for the splendid rain that has come is a hard guy to please.

Prof. A. B. Tyson, superintendent of our school for next year, writes us from Burlington North Carolina, to try and rent him a house, this is a hard job in an over crowded town like El Dorado, so if you have a four or five room house to rent call 31 The Success office and we will try to deal with you for Mr. Tyson.

John F. Isaacs and family returned Saturday from a tour which took them to Austin via San Antonio, they were gone about six days and report an enjoyable outing, but found the country in bad condition down that way.

S. W. Mather was in the city Tuesday on business.

### R. A. EVANS SELLS LEASE AND STEERS.

R. A. Evans Commission Co., report the following sales. They sold for R. A. Evans his lease on the O9 ranch for 50 cts per acre, the lease to run seven and one half years. Mr. J. R. Brooks of Mertzon gets 71-2 sections and J. L. Nutt of San Angelo gets 18 sections of this ranch.

Mr. Evans also sold 800 head of two-year-old steers to Slaughter & Blackstone, at \$40 per head.

### J. D. RAMSAY & SONS BUY COWS AND LEASE.

J. D. Ramsey reports that he and the boys had purchased the lease on nine sections of the Roach ranch from W. R. Nicks together with the cows and calves that Mr. Nicks bought with the lease from Roach Bros.

Ben Hext reports the sale of 100 lambs for Hext Brothers to J. O. Willoughby at \$6.00 per head. Hext Brothers then bought 77 yearling ewes from E. H. Sweatt for \$8.50.

Hext Brothers bought about 200 head of yearling ewes from Jim Cheek and W. T. Whitten, at \$8.25 per head.

Joe Wilson was in the city Tuesday trading.

### TO THE PUBLIC.

If you own a One or Two section ranch and want to sell, list it with me. I can sell it for you if priced right, as I have had several inquiries lately for such places. G. D. Hines, County Surveyor, Schleicher County, Texas.

### Ladies Shoes

We have just received a Shipment of Ladies Shoes. Also a Good Assortment of Men and Boys Dress Shoes. A Base Ball Free with every Pair of Shoes.

From Dallas comes the announcement of the establishment of the Sears-Roebuck Agricultural Foundation Student-Loan Fund of \$25,000.00. This fund will be used to enable worthy farm boys, who otherwise would be deprived of this privilege through lack of funds, to attend A & M. College and study the principles of agriculture. From information received from the management of the Ex-Students Association, the operation of this fund this fall should enable approximately four or five hundred boys to take up agricultural work, who otherwise would be forced to forego this opportunity.

## APPRECIATION OF BRYAN.

(From Dallas News.)

The golden heart that for so long has beaten in sympathy with human rights, and the silver tongue that has eloquently proclaimed the sentiments of this great heart have been stilled forever in so far as we that are earthly are able to discern, but we among the millions who mourn the loss and departure of our true friend and the greatest defender of both our civil and religious heritage have comfort in the fact that before his departure he lived to see so many of his ideals realized for which he so earnestly contended.

We did not have the pleasure of personal acquaintance with Mr. Bryan, but from that October day in 1895 at the Texas State Fair, where he so eloquently and earnestly pleaded for an increase in the currency of the country to relieve the distress of the toiling masses, and especially from that hour in July, 1896, at Chicago, where he wrested the democracy of the Nation from the control of the predatory interests and won for himself the leadership of oppressed humanity and proved himself to be their greatest champion, we have had an intense admiration for him.

He has not only been the world's most able champion of human rights; but the most able defender of the Word of God and of the religion of the Lord and Savior Jesus Christ since the days of St. Paul. He not only so eloquently proclaimed the unsearchable riches of the grace of God, but was willing to submit himself in the defense of Christianity to the ordeal of being questioned by a self-confessed descendant of the brute creation, knowing that he would hurl insults at the Word of God and at the intelligence of the fellows of the meek and lowly Nazarene; but Mr. Bryan remembered that his Savior had been bruised for the iniquity of us all and he was willing to confess Him before men, knowing that Christ would confess him before his Heavenly Father, and it is no wonder that the Lord has said unto him, "It is enough, come up higher," and I can imagine that on last Sunday afternoon when his great spirit took its flight that the pearly gates were opened just a little wider than at any time since they stood ajar for the abundant entrance of the spirit of St. Paul.

We have had the privilege of hearing several of Mr. Bryan's speeches and great lectures, but of all he has ever delivered we would rather have heard his speech last Sunday afternoon in response to the welcome of his Lord and Savior, and Moses and the prophets, and the innumerable hosts assembled near the pearly gates, after he had received his crown and heard that welcome applaudit of "Well done thou good and faithful servant, enter thou into the joys of thy Lord." If we had had our radios properly tuned in we might have heard all this and afterward an angelic choir led of Caruso singing "All Hail the Power of Jesus' Name" and the hallelujahs resounding around the universe.

The world is better that Mr. Bryan has lived among us, but he has gone to occupy the place prepared for him among the heavenly mansions and we of this generation will not see his like again, but may our Heavenly Father in His great wisdom prepare some one to take up his mantle and carry on the great work for which Mr. Bryan so graciously and willingly laid down his life.

In the Rio Grande Valley the annual  
rainfall is so light that it is imprac-  
ticable to grow most crops without ir-  
rigation. As a result, water from the  
river is lifted by pumps and carried in  
ditches over the fertile valley lands.  
Members of the Rio Grande valley  
chamber of commerce a few days ago  
followed the lead of the San Antonio  
group when they met at McAllen and  
endorsed the petition of the Southern  
Pacific to extend their road from Fak-  
turillas to the border.

J. T. Robison, land commissioner,  
has left Austin for Culberson county,  
where he will begin reevaluation of  
500,000 acres of public lands in nine  
counties west of the Pecos river. The  
half million acres were forfeited to the  
state because of failure of owners to  
pay interest.

Marble Falls, the picturesque little  
ranching and farming center in Burn-  
et county, soon will assume impor-  
tance as a center of industry. A fine  
new cotton textile mill is in course of  
construction and within a few weeks  
the hum of spindle and loom will greet  
visitors and townfolk.

The rail situation in the South  
Plains and in the Brownsville-Mission  
area offers an almost exact parallel.  
Both sections are new to farming.  
Both have undergone wonderful ex-  
pansion within the past two decades.  
Both are served at present by single  
great railroad systems.

Decision as to whether to re-allot  
\$163,000 toward the construction of a  
3000-foot bridge across the Red River  
at Burkburnett, in all likelihood, will  
be made at the next regular meeting of  
the state highway commission. Sena-  
tor Joe Burkett, member of the com-  
mittee, said a few days ago.

State highway aid granted a few  
days ago by the Texas highway com-  
mission totaled \$1,180,000, while con-  
tracts let reached \$379,227, making  
one of the most active days in the his-  
tory of the commission. Also, a large  
number of roads were designated  
State highways by the commission.

The meeting place of the Northwest  
Texas Press association in 1925 was  
changed from Mineral Wells to Wich-

the committee on arrangements. The  
meeting will be held August 21 and 22.

Plans of the La Salle county water  
improvement district No. 1, looking  
toward irrigation of close to 100,000  
acres in the vicinity of Cotulla, were  
discussed several days ago with mem-  
bers of the board of water engineers  
by Andrew Rollins, Dallas, and John  
W. Gaines, San Antonio, chief engi-  
neer and chief counsel, respectively,  
of the district. It is proposed to carry  
on the large irrigation by diverting the  
waters of the Nueces river near  
Cotulla.

Persons at Dallas were amazed to  
see a truck of the local fire depart-  
ment rush to a street intersection a  
few days ago and begin to play chemi-  
cals on the street, and were certain  
for a time the heat had broken all  
records. The pavement was blazing.  
It was explained that a leaking gas  
main had been ignited by the exhaust  
from a passing automobile.

Approval of a considerable number  
of small scale irrigation projects was  
given recently by the state board of  
water engineers. The largest acreage  
was involved in approval given to  
Graddy and Williams, Alpine, for di-  
vision of water from the Rio Grande  
for irrigating 1000 acres. A pumping  
plant will be built to handle this pro-  
ject.

The advantages of Palacios as a  
recreational center are becoming more  
widely advertised each year. With  
the completion of the proposed high-  
way from Wharton and Bay City to  
the Matagorda bay front and the im-  
provement of the huge tract set aside  
for the Texas national guard, the Pa-  
lacios country will become a summer  
playground for thousands.

War was declared several days ago  
by Frank V. Lanham of Dallas, chair-  
man of the state highway commission,  
on what he termed wholesale violation  
of the automobile registration law by  
truck and bus owners, when he took  
steps looking toward the deputizing  
of the maintenance supervisor in each  
county of the state in order to ex-  
pedite arrest of offenders. Chairman  
Lanham estimates that the state is de-  
frauded of several hundred thousand  
dollars each year by truck and bus  
owners.

Mr. and Mrs. W. E. Baker and Miss Ruth, their daughter, returned Sunday from a ten days visit to Mr. and Mrs. Fred Baker at El Paso, they report that it rained all the way from El Paso to Eldorado, they spent one day with Mr. and Mrs. A. H. Mills at Balmorhae, and are sending him The Success for six months. They report a pleasant visit and said that Fred and wife were doing nicely.

Roy Davidson was in from the ranch Tuesday meeting friends.

The travelers Friday and Saturday over the Schleicher County Highway seem to be greater than ever before, people were returning from the Sheep and Goat Raisers Convention at Brady and took advantage of the good road from San Angelo to El Dorado. If you were against good roads and traveled on highway No. before it was built and since it was built, we are sure you are in favor of good roads now.

It seems to be the survival of the fittest.

### CONDENSED AUSTIN NEWS

The Southwestern Bell Telephone Company has remitted to the State Comptroller \$56,452 as payment of the gross receipts tax for the quarter ending June 30. Gross receipts for the quarter amounted to \$2,763,488.

Adjutant General Mark McGee, State Commander of the Texas Department of the American Legion, will attend the convention of the Louisiana department of the Legion at Shreveport Aug. 6 and deliver an address.

Final settlement has been made of the inheritance tax on the estate of the late Col. Francis L. Towne of San Antonio, the State receiving \$17,097 tax. The remainder will be paid in New Hampshire, where the bulk of the estate was located.

Requisition has been made by Gov. Ferguson on the Governor of Wisconsin for return to Denton County of Bill Fox to answer a charge of "swindling over the value of \$50." Fox is reported to be in custody in Rock County, Wisconsin.

The Pullman Company paid \$18,522, 5 per cent gross receipts tax to the State on purely intrastate tickets sold during the quarter ending June 30, which aggregated \$370,447, an increase of \$1,236 over the preceding quarter.

The University of Texas will have seven representatives at the annual Y. W. C. A. and Y. M. C. A. Conference, to be held at Estes Park, the latter part of August. Student representatives from Texas and many other states gather to participate in the programs.

Final arrangements have been completed for the joint inspection of Devil's River by the State Board of Water Engineers and the State Game, Fish and Oyster Commissioner, the trip to start on Aug. 6 and will be by boat from Pecan Springs to the mouth of the stream.

Adjutant General Mark McGee has announced that a reward of \$200 has been offered for the arrest and conviction of the person or persons connected with the burning last May of a large warehouse at Camp Mabry containing military supplies and equipment for the Texas National Guard.

The Attorney General, through assistant R. J. Randolph, has approved the title to 195 acres of land adjoining the campus of the College of Industrial Arts at Denton which is to be added to the college grounds at a cost of \$20,000. The growth of the institution has necessitated the acquisition of additional land.

An opinion by Assistant Attorney General Ernest May advises Gov. Miriam A. Ferguson that the last annual report of the Railroad Commission should be printed. It is for the year ending Aug. 31, 1924, and has never been printed. It consists of a large number of statistical tables and much other data concerning the operation of Texas railroads.

Numerous requests are coming to State Labor Commissioner E. J. Crocker from bankers, secretaries of Chambers of Commerce and others in the drouth-stricken areas for information as to the most likely places for employment of persons affected by the drouth. Commissioner Crocker has announced that the State free employment agencies, conducted by the Department of Labor at various points in the State, have very few calls for unskilled labor.

There was a net decrease of nineteen convicts in the Texas penitentiary during June according to official report made to the Governor by the State Prison Commission. On June 1 there were 3,640 convicts in the State penitentiary and during June the movement was as follows: Newly received 179, recaptured 21, returned by Sheriffs 3, returned from parole 1, returned from furlough 5, discharged 100, pardoned 80, escaped 30, died 4, delivered to Sheriffs 3, furloughed 6, paroled 5. This made the number on hand as of June 30, 3,521.

Gallonage gasoline tax payments by the five largest oil companies in the State indicate that all monthly records going to \$400,000. The five companies are contributing \$292,367, compared to \$291,142 for May. This means that there was sold at wholesale in Texas during June a total of 40,000,000 gallons of gasoline. The fivers and gas wagon were doing some tall traveling that month.

A man-hunt of twenty-six years ended here recently when Governor Miriam A. Ferguson granted requisition for the return to Georgia of a convict in the Texas penitentiary, Will Jones, alias J. B. Jones, wanted in the former State on a charge of murder alleged to have been committed on Sept. 23, 1899. To add to the drama is the fact that the son of the slain man and his attorney were in Austin and successfully pleaded for the return of the accused.

### Champion Wrestler Tells What to Eat

Johnny Meyers, middleweight wrestling champion of the world, is strongly in favor of the use of scientifically prepared foods. He prefers to know that the food he is eating is pure and wholesome rather than to take a chance with any kind of food poisoning by eating food from an unknown source. In a recent interview on the eve of his match with Lou Talaber, from whom he won his crown, he said: "I expect to win the crown from Talaber. He is a fine wrestler and uses more science than any man of the mat today. However, I feel sure that my superior physical condition will prevail and that I will emerge victorious and the champion of my division. Diet is a very important part of my program in training for a match. The system that I use is really very simple, involving only good judgment and caution in the selection of food. I prefer to eat scientifically prepared foods whenever possible and I never eat anything to which is attached the slightest doubt of its purity. I eat a great deal of canned foods because I am sure that they are pure and will have no ill effects on my digestive system. Take just as an example of what food can do for the body—milk. It is the greatest of body builders and a very important part of any man's diet. But is sometimes impure or contaminated and may be the source of illness if used. Because of this fact, I use evaporated milk entirely and find it very satisfactory. I know that it is pure and that I will not suffer from its use. I know that it is a great body builder because the concentration of it gives it such food value. I know that it is easily digested, more so than market milk, in fact, because I drink it before going to bed and feel no effects of it in the morning. This is usually hard to do with ordinary market milk. This plan, in substance, is the same one that I use regarding other foods. If there is any chance or suspicion of impurity or low food value, I use something else.

"And if a man is so situated that it is impossible for him to get the proper amount of exercise, he must be doubly cautious not to partake of any but the purest food. On the whole, if a man eats with wisdom and observes the fundamental rules for good health, there is no reason why he should ever have a sick or uncomfortable day."

### Frequent Bilious Attacks

"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Nevins, of Lawrenceburg, Ky. "I would get nauseated. I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief.

### BLACK-DRAUGHT Liver Medicine

"A neighbor told me of and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—get rid of the bile and have my usual clear head, feel full of pep, and could do twice the work."

Bilious attacks are "seasonal" with many people. Millions have taken Theodor's Black-Draught to ward off such attacks, and the good results they have reported should induce you to try it. All Druggists' E-107
