**STAR**

### Running-in-oil

You will find in the new running-in-oil STAR the many features you have always wanted in a windmill—one oiling a year—your choice of Timken Tapered Roller Bearings or "NO-OIL-EM" Bearings—two gears, two pinions and two pitmans—direct center lift to pump rod—crosshead, guides and pitmans bearings flooded with oil—a scientifically designed wheel with angle steel arms and braces and ball-bearing turn table.

The fans of this new Star are curved to give great efficiency in an 8 to 10 mile an hour wind. Plunger pump in crank case floods crosshead, guides and pitman bearings with oil, and tight cover keeps out dirt, rain or snow.

One filling of crank case with oil each year will save many trips up the tower. May be fitted on any tower.

The new STAR is the last word in Windmill construction. Come in and let us show you this mill. You will want to know about it whether you are needing a new mill right now, and we want you to know what a really fine windmill we have in this new Star.

### EL DORADO LEAGUE GETS BANNER FOR THIRD TIME.

The El Dorado League won the attendance banner for the third time in succession at the League Federation Sunday.

The Federation met at Christoval and decided to keep up the Mexican work started last summer, the district will be known as the Concho-Brady Federation and a preacher will be sent to the work November 1st.

The El Dorado Leagues have subscribed \$10.00 per month on this work. This work has been badly neglected and all christian people can assist in this work in many ways, sometime during the next 12 months give a dollar to the League on this work.

### UNIVERSITY INCOME INCREASING.

With the bringing in of two new oilwells, one with a flow of 5,700 barrels a day and the other at the rate of 3,720 barrels a day in the Big Lake Field on the University of Texas land, the total daily production is now in excess of 55,000 barrels. This places it in the lead of all fields in Texas. Five other wells are near the pay sand and should be brought in now, it is stated. It is thought they will bring the total daily production of the field up to more than 50,000 barrels, or at the rate of 1,500,000 barrels a month. At the contract price of \$1.50 a barrel this would mean a total revenue of \$2,250,000.00.

Of this amount the University of Texas would receive one-eighth royalty, or a little more than \$280,000 a month

### EL DORADO AND OZONA TIE IN FIRST GAME.

The El Dorado High School Foot Ball Team went to Ozona Saturday where they played their first game of ball, the game resulted in a tie the boys were well pleased with the results of their first game

El Dorado has never had a very strong foot ball team but hope to win some games this year.

Mayor Spencer and Alderman A. A. Bush made a business trip to San Angelo Monday, it has taken some time to get ready to form our City Government but it look now like we might be ready to begin. Any way we hope so.

### PRESBYTERY TO MEET IN ELDORADO NEXT YEAR.

Bro. Davis was here Sunday to fill the regular appointment of the Presbyterian congregation. He reports while here that the next Presbytery will meet in El Dorado, this will be in the spring, after the completion of the new church building here, the dirt was broken last week and it is hoped to get the building done before the first of the year.

The meeting of the Presbytery here in the spring will be the first to be held in the County

B. F. and F. H. Jones of Lampasas were here this week prospecting, Mr. Frank Jones is a baker and is contemplating putting in a Bakery here, and if he listens to the editor he will put it in at once.

Little John Luedcke got a painful hurt at the school building Tuesday while playing a round the swings, one of the swings hit him in the mouth lacerating his face which required two stitches to close it up.

### BILL BOOSTER SAYS

AIN'T GOT MUCH TIME TO WORRY OVER THE WAY PEOPLE ARE BUYING AUTOMOBILES, BECAUSE THE AUTO IS ADDING YEARS TO THEIR LIFE. MIGHT AS WELL BE BUYING CARS AS CEMETERY PLOTS, I SAY! THE AUTO PAYS BIG DIVIDENDS IN HEALTH AND HAPPINESS!

### COOPERATION AND ECONOMY.

If a man started out to manu-  
facture a watch all by his own  
efforts and and at his own ex-  
pense, digging in the mines for  
jewels and metal, melting sands  
for the glass, and fashioning the  
cogs and springs by his own  
handiwork, it has been estimat-  
ed that the material, labor and  
tools for the making of an ordi-  
nary twenty-dollar watch would  
amount to \$2,000.000

If, therefore, alone and unaid-  
ed, one should try to develop his  
community or his private busi-  
ness without the support and co-  
operation of his fellow citizens,  
he would foolishly waste a life-  
time of effort at the job. Boiled  
down, civilization is cooperation  
in all good works.

The Church cannot make pro-  
gress without cooperation of its  
membership, and oh how easy it  
is to prevent. The school needs  
the cooperation of the entire  
citizenship, it's easier to complain  
when something goes wrong  
than it is to smile, but no com-  
parison in the value of the two,  
let's study cooperation and be a  
soldier to the cause, and we can  
accomplish much for our com-  
munity.

Les Galbreath tendered his res-  
ignation as Chief of Police to  
take effect immediately.

Mr. Galbreath severs his con-  
nection with the City official  
force, to take charge of a meat  
market business which he has  
purchased a few days ago in El  
Dorado, and it is his intention to  
move to El Dorado this week.  
He is deeply appreciative of the  
cooperation of the city and the  
people in his efforts to render  
good service, and is reluctant a-  
bout leaving Brady, but is doing  
so because he thinks it is a good  
move from a financial outlook.

It is the general opinion and  
comment of the people in gener-  
al, that Mr. Galbreath has been  
a fearless, but courteous officer,  
and has done everything human-  
ly possible to render faithful  
and efficient service. The best  
wishes of everybody go with him  
and his family to their new  
home.—Brady Sentinel.

**CONDENSED AUSTIN NEWS**

The Texas State Library has received more than 600 pages of transcripts of material in the archives of Mexico City bearing upon Texas history.

Blue sky permit was granted by Secretary of State to the Greater Texas Speedway Association of Dallas to sell \$395,000 worth of stock, 2,950 shares at \$120 a share, increasing the stock from \$5,000 to \$300,000.

H. E. Wattinger of Austin was recently awarded by the State Board of Control contract for construction of three new buildings at the Austin State School (colony for feeble-minded), his bid being \$65,620. The buildings include a dormitory, employe's home and doctor's cottage.

Constitutionality of the act of the Thirty-Seventh Legislature fixing a standard weight for a loaf of bread is attacked in an appeal filed in the Court of Criminal Appeals in the case of C. H. Ford, from Harris County, convicted of violating the statute and fined \$110.

A total of \$315,887 tax on gasoline was paid the State in August by the Gulf Refining Company, the Texas Company, the Magnolia Petroleum Company, Pierce Petroleum and Humble Oil and Refining Company. This is \$277 less than the amount paid by these companies in July.

As a result of a shake-up in the State Industrial Accident Board, three long-time clerks will retire on Oct. 15. Two of them are men and the other a woman. The clerks who are to be displaced are said to have long been recognized as among the most efficient employes of the State government.

Peanuts grown in China are imported into this country, pay a duty and then are transported half way across the continent and sold in Dallas at a cent per pound cheaper than Texas-grown peanuts, according to testimony adduced before the Railroad Commission by peanut experts who declared that the local rates are choking the Texas industry.

While banks desiring to become State depositories have until Oct. 15 in which to make application for State funds, nearly all of the funds which can be placed in State depositories have already been applied for, according to State Treasury W. Gregory Hatcher. The applications came from banks in every section of the State, Mr. Hatcher said.

Robert Lee Daniel, newly appointed Commissioner of Insurance, has been in Austin and announced that few, if any, changes will be made in the office force when he assumes charge. He authorized the statement that T. E. Werkenkith will continue as deputy commissioner and that Miss Vera Swann, stenographer, will be made his secretary.

It has been learned here that Dr. George Pendleton Day of Madisonville is to be the next assistant State health officer of Texas. This place had not been formally filled by Dr. H. O. Sappington, State health officer, and while he was out of the city it was understood from other sources that Dr. Day will accept the place and assume his duties at once.

Fees for freshmen students at the University of Texas will vary from \$43 to \$60, according to a statement from the University registrar's office. The imperative need of additional funds led the board of regents to make a new service and maintenance fee of \$20. The matriculation fee of \$15, the library fee of \$7 and a gymnasium fee of \$1 make up the \$43.

No artist ever worked with a larger and more itinerant "gallery" observing than Miss Margaret Brisbane of Houston, who is making a large reproduction of Huddle's famous painting of the surrender of Santa Anna at San Jacinto. The original hangs in the main corridor of the Capitol and, perched some dozen feet above the floor, Miss Brisbane is copying the painting.

The Railroad Commission granted the petition of the Fort Worth & Denver Railroad and certain connecting lines for the storage of butter in transit when moved in carload shipments. Elaborate rules are prescribed for the single stop allowed for storing and reshipment within "twelve months." This might seem to make stale butter, but cold storage saves it.

The teachers' college of Columbia University, New York, has written Gov. Ferguson requesting full information about the budget system used in this State, and reply will be made by the Board of Control, which builds the budget every two years. The college advised that it is making a survey of the entire United States. The inquiry was addressed to "Governor M. A. Ferguson," and the salutation was written "My Dear Sir," evidently the writer not knowing that Texas has a woman Governor.
