DR. L. R. SCARBOROUGH ON ROMAN CATHOLIC MARRIAGES

In his address over the radio Monday August 27, Dr. L. R. Scarborough said the following: "The second tenet of the faith to which he beholds, on the ground of which I oppose him, is the marriage law in the Roman Catholic Church and that law is very definite and is known everywhere and written in the records and life of the church. And that is that marriage without the presence of the Roman Catholic priest is null and void and is not marriage at all. The law of the Catholic Church says that civil marriage is 'legal concubinage'; and the Catechism of that church says, in answering the question, 'What is civil marriage or marriage by a civil officer or a Protestant minister?' is base concubinage." For proof of this see the Catechism of the Council of Trent, page 313, the Manual of Christian Doctrine of the Catholic Church, page 498, the Canon Law of Rome, page 422 and the Catechism of Ripalda, a vice-general of the Roman Catholic Church, published in 1918. See what Priest Phelan, editor of the Western Watchman, of St. Louis said on March 28, 1912. He said "Civil marriage is licensed cohabitation. There should be no such legal abomination and the church should be the supreme judge of the marriage relations". William E. Gladstone, in his great book, "Romanism and the Republic", on pages 214 and 275, said, "The Catholic Church denies all civil and Christian marriages to be true and lawful marriages when not performed within the Catholic Church; and Pope Pius IX calls it 'filthy concubinage'. The Catholic Mission Book, pages 462 and 463, plainly states that 'when a Catholic is to marry a Protestant, the marriage must be performed by the priest, must be outside the church building, and only then on condition that the Protestant party sign an agreement that all children born of the marriage be reared and educated Catholics. In other words, the religious system to which Governor Smith is a loyal member and devotee says that every marriage in this country, performed by civil authority, a baptist or a Protestant preacher of any kind, is illegal and is 'base concubinage', a filthy cohabitation, and the children that are born of such marriages are illegitimate. I do not believe that the Baptist and Protestant citizenship of this country ought to subject themselves to such unspeakable shame as to support a man for the Presidency of the United States who regards all of our fathers and mothers as living in 'base concubinage', and that we ourselves are illegitimate."—The Fundamentalist.

Plenty of Opportunities to Ride Now

GOOD CROWD ATTENDED SCHLEICHER CO. FAIR

The Annual Schleicher County Fair was held at the county fair grounds September 11 and 12, and the attendance was very good considering that a heavy rain fell on Sunday night previous of the event, and the time for the Fair being one of the busiest times of the year. The cattle exhibits was somewhat shorter than it was last year but the goat and sheep exhibits were very good. George Williams and C. E. Townsend won first prizes for registered sheep. Otis Buie and Vernon Porter winning first on graded sheep. The exhibit hall was full of farm and garden products, home economics and fancy work. This exhibition shows what wonderful productive power the soil of Schleicher county has. Corn, wheat, oats, barley, cotton and many other farm products were on exhibition. The poultry department was not as good this year as it has been but some nice coops were shown. Nellie Mather won first prize on the best Ton and blue ribbon on best hen. L. L. Harris won blue ribbon on best two hens and gobblers. T. H. Alexander on Tom. Mrs. George Williams won first on 1 cockerel and 3 pullets and second on two cockerels. Mrs. Jess Koy won blue ribbon on best two hens and cockerel. Tuesday's Roping Preston Chick of Sherwood,

won first money in the calf roping.

The saddle horse race, 1/4 mile was won by T. C. Meador, Hugh Buie coming in second and Otis Buie third.

Tuesday's Bronc Riding
Otis Buie won first money by riding "Yellow Fever", one of Eldorado's toughest rodeo horses. Second money went to Bill Chick on "He'll Do". There were six entrants in the riding of which three were bucked off and one disqualified.

Wednesday's Program
In the saddle horse race, Otis Buie's horse took first place, Hugh Buie's second and T. R. Henderson's third.

Bronc Riding
Otis Buie winner of the first day's bronc riding, found "Blue-jay" a little too rough for him and was unable to stay above his mount. First money went to Bill Chick and second to R. E. Taylor.

Calf Roping
"Silent" Sam Mather took first place in the calf roping contest, tying his calf in 33-1-5 seconds. Bill Chick was second and J. C. Crosby third.

Steer Riding
In the steer riding contest, O. V. Williamson and Eldred Roach tied for first and second place, Tom Kent taking third.

Cow Milking
The first money was won by the Meador brothers in 23-1-5 seconds, Edmiston and Swift took second and Sam Mather and B. A. Whitten third. J. B. Sammons also put on an exhibition in the cow milking.

ELDORADO EAGLES TO OPEN FOOTBALL SEASON

The Eldorado Eagles will open their football season Friday afternoon at 3:30 o'clock, with the Menard Yellow Jackets at the Fair Ground.

The game will start promptly at the called time and all those who want to attend will be assured that they will not be detained from their business but one hour.

The Eldorado has always been handicapped with a light team but are widely known for their stubbornness in not giving up until the last whistle blows. Every team that has played them have proclaimed them the hardest "little fighters" in this section.

Every one should attend this opening game and give the boys some encouragement, both morally and financially. Let them know that you are behind them, win or lose. The team needs your support. With the best material and the best coaching a team cannot have a winning spirit unless the people of the town gives their every effort to help them.

The school here is promised a good team with the material already coming out for practice and the boys have promised in advance to show the citizens a real fighting spirit and true sportsmanship regardless of the outcome of the games. They have never been known to give up and a team of this kind certainly deserves the support of the town. If the boys are always willing to stand the punishment and defeats when they come, you should at least be willing to give your attendance and backing. **GAME IS CALLED PROMPTLY AT 3:30. BE THERE**

HOOVER AND THE RACE QUESTION

The mere routine of transferring 16 negro clerks to a separate room in the Census Bureau to facilitate their work in compiling data on their race and a transfer back again under order of the President has given rise to two political rumors of opposition.

Instead of Mr. Hoover's doing away with segregation—a charge often heard of late—the real charge was that he put segregation into effect. This accusation, according to Arthur F. Weil, Washington correspondent of the Buffalo Evening News, who investigated the matter fully, figured prominently in the bitter pre-convention campaign in Ohio when friends of the late Senator Frank B. Willis attempted to prejudice the negro vote against the Secretary of Commerce.

The Anti-Hooverites even carried the charge to President Coolidge. As evidence, the Willis faction pointed to the transfer of the 16 negro clerks to a room to themselves. Census Bureau officials made no denial, but they explained that the work had been turned over exclusively to negro clerks because they would naturally take greater interest in it than would white clerks. The separate room was given them to facilitate their task.

Now for over fifty years the Federal Laws have forbidden segregation of races in governmental service. While negro and white may not be forced, necessarily to work side by side at desks, there are many rooms in government buildings where negroes work at one end of the room and whites at the other. So President Coolidge communicated with Mr. Hoover and advised him that anything of that sort was a violation of the Federal law. Thereupon, at the President's order, Mr. redistributed the 16 clerks to their old positions—which when the newspapers got wind of it, meant only one thing—the end of segregation. The entire matter was apart from any opinion Mr. Hoover might have had on race segregation.

ROYSTER AND WHITTEN HAS HOUSEWARMING

The many friends and patrons of the new drug store of Royster and Whitten were given a treat last Tuesday night with a housewarming, given at the new store. Ice Cream was served free to all those who came and quite a few attended and enjoyed the treat very much.

Born—to Mr. and Mrs. B. B. Brittain a baby boy. The boy weighed 10 1/2. Both mother and baby doing nicely. They are in the Brady hospital.

We hope dady Bunch will recover and also that he will not encourage him to join the Navy.

MR. ROBERTS OPENS NEW BUSINESS

Sam Roberts has leased the vacant space in the new McKnight building an dwil install an up-to-date dry cleaning plant, gents furnishing and ladies ready to wear.

Mr. Roberts is well known in our city and needs no introduction. He has proven a very successful business man. He formerly operated a cafe here, then went to Ozona and took charge of a cafe there, later selling out and coming back to Eldorado to open his new business. He will be in charge of the Gents Furnishing and cleaning department while his wife will have charge of the Ladies department.

The place will be open for business about the tenth of October. We are very glad to have them come back to Eldorado and wish them much success in their business.

RADIO BROADCASTING

Big surprises are in store for you this coming Radio Season. Get your new set fixed up. The 1928-29 season will start in a few weeks. Texas is to have two Super Power Stations. WBAP Ft. Worth and WFAA Dallas are to have 50,000 watts of power—a hundred times as much as WFAA has been using. KRLD gets 10,000 watts, WRR 5,000, WOAI 5,000 and many of the small stations are to get an increase. The wave length of nearly every station will be changed, so a new log book will be valuable. These changes will take place at 3:00 A. M. November 11th.

Mrs. Ishell has returned to her home in Waco, Texas after a visit with her brother, D. C. Hill and family of this city.

Bill Davis, proprietor of the Standard Barber Shop was on the sick list this week.

See our line of work clothing and children's school pants. Wright's Cash Store

Last Thursday, John and Ennis Rodgers, two sons of Mr. and Mrs. John H. Rodgers, who live on the Pfluger farm west of town, decided to leave home and rustle for themselves. They failed to attend school Thursday and the parents did not know they were gone until after school that evening. A search was begun at once but no trace could be found. Sunday afternoon the boys appeared at the home of an uncle at Artesia New Mexico, who immediately wired the parents of the run-a-way boys. They left at once to bring them home.

MASS PRODUCTION GIVES CHEAP ELECTRICITY

The modern trend of the electrical industry has for five years been toward fewer companies and larger generating units.

During that time the number of operating companies declined from 6,355 to 4,409, while the capacity almost doubled and the kilowatt hours generated went up from 43 billion to 75 billion.

This is the reason why we get electricity so cheaply, in spite of constantly bettered service. Mass production is today a synonym of economy and efficiency. Outmoded, petty methods meant duplication and waste.

The modern generating plant serving a tremendous territory, takes the place that was formerly held by several small plants. It has at its command, engineering and service facilities that no small plant could possibly provide. Its limitless resources permit of extensions and improvements that would be financially impossible for the small plant.

When sales are few, large profits must be made on each sale. Mass production, on the other hand assures good total profits with very small individual profits. This is the principle that has made the electrical industry great and has enabled it to give necessary service at a negligible cost. — Industrial News

O. B. Page has been out of town for several days, delivering and receiving some lambs. We hope he will be able to return in a few days as the golf course is getting lonesome.

B. E. Moore was a business visitor in the city Tuesday.

WEEKLY COTTON REVIEW

Prices Considerably Lower Demand Not Generally Improved

The week of September 8th to 14th witnessed an erratic price movement with final quotation down about 1 1/2 cents per pound compared with the previous week. The rather severe decline was partly attributed to an uneven demand for spot cotton. A good demand was reported in certain sections for immediate shipments in shorter staple lengths, but mills generally were interested in Fall shipments.

Basis for new crop cottons was reported practically unchanged to somewhat easier. Prices paid, September 14th on middling cotton 3/8 inch staple were as follows: Norfolk 17.56, Augusta 17.00, Savannah 17.00, Montgomery 16.55, New Orleans 17.10, Memphis 16.50, Little Rock 16.82, Dallas 16.30, Houston 16.95 and Galveston 17.05. The average price paid in the ten designated markets on September 14th was 16.88 compared with 18.57 last week and 20.63 the same day a year ago. Total sales of spot cotton on these markets for the week were 244,835 bales compared with 204,893 bales the corresponding week 1927.

October futures contracts for the week at New York declined 160 points to 17.55. At New Orleans they declined 157 points to 16.83 and Chicago was down 152 points to 16.94. Certified stocks on September 14th were as follows: New York 7,237 bales, New Orleans 3,023 bales, Houston 1,613 bales, and Galveston 1,049 bales. Exports this season to September 14th were 57,731 bales compared with 703,414 last season.

Grade Differences.

Quotations for grades above middling changed but very little during the past week. Grades below middling widened further with the average of the ten markets, on strict low middling 68 points off of middling and low middling off 139 points compared with 60 and 124 points respectively last week.

Staple Cotton.

Demand for premium staple cotton as reported for the past week continued rather indifferent, with premiums practically unchanged and lowest for some time.

Southern Mill Centers.

Reports continue to indicate good demand for immediate shipments of middling and strict middling cotton 3/8 and 15-16 in. staple. There was better inquiry reported for Fall shipment of new crops middling and strict middling, 3/8 to 1-1-32 in. staple. The Southern Spinners taking to date were 442,975 bales compared with 479,185 bales in the corresponding period in 1927.

New England Mill Centers.

Considerably more interest was in evidence for raw cotton during the past week in New England Centers, due to brighter prospects of the New Bedford strike settlement. Price fixing by mills reported with some new demand for both selected shorter and staple premium cottons. The qualities most in demand were middling and strict low middling, 1 1/8 to 1-1-16 inch staple. Boston and Providence were the most active markets for the shorter staple. The trade was rather restricted in Fall River. Northern Spinners taking to September 14th were 109,053 bales compared with 120,101 bales last season.

According to the United States weather bureau, the week ending September 11th was too wet in the Atlantic States and deterioration in the cotton was reported in many places. The latter part of the week however, had prevailing fair weather and sunshine with moderate temperature most favorable.

According to the Bureau's Census the domestic consumption of cotton for August was 526,729 compared with 634,520 bales for the same month last year. Mill stocks on August 31 were 782,068 bales compared with 1,120,734 bales the same date last year.

The world's visible supply of American cotton on September 14 was 2,026,007 bales compared with 3,471,138 bales last year. American port stocks on September 14th were 624,874 bales against 1,312,920 bales a year ago. Interior stocks were 275,133 bales compared with 421,618 bales last year in the corresponding period.

Sold for R. C. Edmiston to Will Evans, 200 mixed lambs.

Sold for W. T. Whitten to Arthur Henderson 100 mixed lambs

Sold for W. M. Bearce to J. B. Sammons, 50 mixed calves.

Sold for T. R. Henderson to Meador & Crosby, 1300 ewes.

DESTROYING THE WEALTH WE CREATE

The rate at which we create wealth, and then convert it into a colossal heap of ashes is appalling, said I. G. Hoagland, a fire prevention engineer of New York recently.

During the past two years the actual property loss in fires was more than \$1,000,000,000, an amount that would finance employment of 400,000 men at \$1 an hour for one year. And also the human casualties were heavy.

During the past forty years the total property loss was \$10,000,000,000. If the rate of burning during the past two continues, the total for the next forty years will be \$20,000,000,000.

It must be admitted that in the matter of fire we are the most careless of nations. Our waste for one year could very possibly bankrupt less prosperous countries. And the very fact of our prosperity is no justification for our countenancing destruction.

We must do more than merely regret fire waste. We must give every effort toward outlawing it, and providing ways to prevent it. Fire is preventable in almost every instance. It is our own fault if we fail to control it. —The Manufacturer.

The NEW BUICK is the NEW STYLE

A triumph in individual beauty ... a refreshing and radical departure from the tiresome commonplace ... a new style, a richer style, a more alluring style than the world has ever known!

Only one completely new motor car style in the past twenty-four months—only one beautiful development in body design—and, as the whole world realizes, it is the Silver Anniversary Buick with Masterpiece Bodies by Fisher! Here is an entirely new scheme of body lines and contours—arresting new color combinations—matchless new interiors—new appointments of comfort and convenience unapproached by any other automobile of the day! Here is a true distinction wedded to genuine good taste. Here is a new style—a richer style—a more alluring style—than the motor world has ever known. And here, too, is tremendous increase in power, in flexibility, in responsiveness—so outstanding as to amaze even those motorists who have long been familiar with Buick's superior performance. That is why America is according the Silver Anniversary Buick the most enthusiastic reception ever enjoyed by any fine car. That is why this beautiful new Buick has already become a countrywide vogue!

Week after week and month after month the Bigger and Better Chevrolet has swept on to greater and greater heights of popularity—until today it stands acknowledged everywhere as first choice of the nation for 1928!

Never has any Chevrolet enjoyed such overwhelming public acceptance—for never has any low-priced car provided such an outstanding combination of distinctive beauty, thrilling performance and amazing economy!

Its beautiful bodies by Fisher—long, low and racy, and finished in colors that reveal to-day's mode for smartness and individuality—are far in advance of accepted standards in the field of low-priced cars. Inside

and out they prove anew that Fisher craftsmanship is a thing apart.

But Chevrolet performance is no less impressive than Chevrolet beauty and style. Never before was a low-priced car so easy to handle—for the steering mechanism is fitted with ball bearings throughout... the clutch and gear-shift lever respond to the slightest touch... and big non-locking 4-wheel brakes give a measure of braking control that is more than equal to every occasion.

Come in and see the car that has won the approval of more than three quarters of a million buyers since January 1st. Learn for yourself why it is scoring the greatest success of this great automotive year!

Evans Chevrolet Sales.

Eldorado, Texas.

QUALITY AT LOW COST

The Bush Motor Company received and sold their eighteenth Ford this week. They are receiving the cars faster now than they have been and will take up the back orders more rapidly from now on. Mr. Bush has gone to Dallas this week to bring out another Coupe.

Quite a few Eldorado people attended the Bull Fight in Old Mexico Sunday. Bill Mund reports a wonderful time.

NOTICE TO ALL CHAPTER MASONS

The Lodge of the Masons of Eldorado will meet the second Tuesday of each month and you are requested to be present. Eldorado Chapter No. 313. H. M. Freund, Secretary.

WANTED—18 Rhode Island Red hens, one year old. H. H. Murchison.

J. B. Sammons says for every body to hide their silverware, as there might be a sailor in town the last of the week.

Hick McElroy left Monday for Lubbock where he will attend the Texas Tech College there. He graduated from our school last year and we predict that he will make good.

FOR SALE
A few nice Bucks, priced reasonable. Seth Ramsey. (p38)

FOR SALE—5 room house with bath, close in. Good location, large lot. Priced right. E. W. Brooks.

We understand that Hubert Graves has gone to driving sheep a foot instead of riding his horse.

W. T. Conner, Schleicher's noted whittler, had his famous table of many woods, made without nails and a bedstead made of native mesquite timber on exhibition at the Fair. The bedstead was also made without nail.

Schleicher County won second place at the San Angelo Fair on County Exhibit. We are not satisfied with second place as Schleicher should always be first. Rannels county won first place.

Lewis Jones, former world's Champion roper, attended the Schleicher County Fair. His many friends are glad to see him almost well and able to take part in rodeo performances again. He was judge in the roping and riding contests during the fair.

SCHOOL NOTES

Bright prospects are looming for a bigger and better football squad as the members of the Eldorado High team sally forth in to the second week's practice. Several new men were out the latter part of the week.

Coach Williamson's hardest problem to face is that of making a strong line as most of the linemen are inexperienced and will take some time to get on to the game.

New equipment which is very badly needed is expected to arrive any day.

Some very interesting games are being planned. The schedule for the entire season will be announced later.

Classes and school activities are now on a smooth-running schedule and working basis. The enrollment in the first week greatly exceeds that of the first week last year. In fact, quite a few desks are having to be brought from the storeroom to accommodate the large number of pupils.

In the high school the total enrollment is 114, while that of the primary and elementary department is 209, making a total of 323 for the entire school.

Mrs. Neal of San Angelo is organizing a class in public speaking for the high school pupils. The boy or girl as well as the man or woman who can stand before an audience, think clearly and talk to the point, is in demand always, whether in school, business or private life. We have heard a sample of Mrs. Neal's ability an dfeel that those who are fortunate enough to be in her class will profit by the work in school and out.

The P. T. A. made a good start for the year with an enthusiastic meeting last Friday afternoon. Mrs. Tisdale, the president and Mr. Holt made helpful and interesting talks.

The parents and teachers were very glad to have with them, Mrs. Gilmore, the district president, and to have an opportunity of hearing her discuss the work of the year. Her advice and related experience with other P. T. A's. will greatly assist the local organization in realizing its plans for the year.

The new ranch home of G. C. Crosby is also showing signs of a house, work going on and making progress.

Schleicher County Honey, the best on earth, at Wright's Cash Store.

F. Ramsel was in from the ranch Tuesday. He had a rocking chair that he made from native mesquite wood on exhibition at the Fair and it received much comment from all.

Jim Lewis, Dewitt Holland and Gene Jories, all of Christoval attended the Schleicher County Fair.

UPSET

With Stomach Spells

"I have taken Black-Draught ever since I was a child, and can recommend it as a splendid medicine for family use," says Mrs. Cora Maberry, of Sageeyah, Okla. "My mother used it, in bringing up her family, and after I had a home of my own, I continued to use it, as I thought it was good to give the children."

"My children did not mind taking Black-Draught, and so when they got upset with stomach spells, or were constipated, I gave them Black-Draught tea."

"They are all grown now and have homes of their own, but I still keep Black-Draught in the house and use it myself when I wake up in the morning feeling dull and 'headachey', and have a bad taste in my mouth."

In use over 87 years. Price 25c.

SUN OIL CO., TO DRILL TEST IN IRON COUNTY

Will Go 2,500 Feet Or Deeper On W. H. Williams' Ranch Sun Oil Company thru its West Texas office at San Angelo has awarded a contract to Scott Foster of McCamey for the drilling for a test for oil on the W. H. Williams ranch in southeastern Iron county, about ten miles south and two miles east of Mertzon. The location has not yet been announced, but will be about three miles north of the Iron-Schleicher line and some five miles north of Long and Long's No. 1 Williams in Schleicher County.

A 15 1/2 inch hole will be spudded in order that the test may be carried as deep as is deemed advisable. It is expected to go at least 2,500 feet. Drilling is scheduled to get under way before October 1. The rig is now being moved from McCamey, an Angelo Standard.

P. T. A. NOTICE

The Parent Teachers will entertain the teachers of the Eldorado high school at the home of Mrs. Tom Jones' on Friday night September 21. All members of the P. T. A. are expected to be present and also the members of the School Board are invited.

The question of building and maintaining public roads is being discussed all over Texas. There is but one feasible way and that is to place the tax on the ones that use the highways. The roads belong to the State and the tax for the maintaining must not come from the land owners and home owners, but must come from placing a tax on gasoline and motor vehicles and drawn from the ones that constantly use the roads for pleasure and to earn a living.
