TIGERS HERE TONIGHT

TOWN MEETING TO BE SATURDAY SEPTEMBER 10th

The McLean area town meeting will begin at 4:00 p.m. Saturday with registration and a picnic lunch in the park. Each family is to bring their food and drinks for the picnic.

Beginning at 5:30 a workshop session will be held at the school auditorium. A nursery will be provided at the Methodist Church.

PROGRAM:
4:00 Registration-Park
Introduction of dignitaries. Entertainment-J. T. Trew.
4:30 Picnic supper-Park.
5:30 First session-Auditorium. Subject-"Challenges Facing McLean".
7:45 Break.
8:00 Second session-Auditorium. Subject-"Problems of McLean".
9:30 Report.

Senior Pictures To Be Taken Sept. 14

On Wednesday September 14 the seniors will have their pictures made in the home ec room for the 1977-78 school year. Letters will be given to seniors advising them to bring a deposit and also what to wear and the various settings they may choose from.

The taking of individual school day pictures, football, student council, class officers and other organizations will also be taken beginning at 9:00 a.m.

Pine trees are less likely to be struck by lightning because their resin interferes with their conducting of electricity.

Texas is more than oil wells.

Our state is exciting cities and tranquil forests... spring-fresh streams and towering mountains... a week or weekend vacation bargain.

Discover the rest of Texas.

"It's right in your own backyard."

Boy Scouts Earn Merit Badges

Monday, September 5, the McLean Boy Scouts began the first step toward earning their Bicycle Merit Badge. They covered 27 miles from Shamrock to McLean in 6 hours. Within the next three months these courageous scouts must bicycle five more rides of 25 miles each. Then after that period of time their seventh and last ride will be over a 50 mile course to be done in 8 hours.

The boys who participated were Stephen McAnear, Damon McElroy, Craig Morris and Robert Swaner. Chet Bohlar and Martin Gately volunteered to go along.

Scoutmaster Neal Middleton periodically checked up on the boys. He was amazed and pleased at the scouts' enthusiasm even at the end of the trip. Their next 25 mile venture will probably be from Hedley to McLean.

Proposed Budget Hearing, Sept. 13

The budget hearing for the City of McLean will be held September 13, at the City Hall at 7 p.m. The budget for 1977-78 will be on General Fund and the Revenue Sharing Fund.

These budgets are available to everyone at the McLean City Hall during office hours.

fragile and spectacular resources are in western areas that are sparsely populated and not readily accessible to most of the state's population.

Houston Man Killed Tuesday Near McLean

A 36-year-old Houston woman remained in critical condition Tuesday night with injuries suffered in a semi-trailer-truck accident which killed her husband.

The accident occurred about 2 a.m. Tuesday just west of McLean.

Ronald James Raymond, 41, was dead at the scene. His wife, Sandra K., was flown by the Potter County sheriff's office helicopter to Northwest Texas Hospital in Amarillo.

The couple was en route to Wichita, Kan., from Plainview with a load of beef. Raymond was in the sleeper and his wife was driving, officers said.

The truck apparently missed a curve, investigators said and the tractor separated from the trailer and flipped.

Services for Raymond are pending with Lamb Funeral Home in McLean.

TEXAS' NATURAL RESOURCES

Texas has a vast array of natural resources which can best be protected through private control coupled with an appreciation for public need, contends a recreation and parks specialist with the Texas Agricultural Extension Service. Many of nature's attractions in Texas are still in their pristine state due to the high degree of private ownership of land and the resource management practices of farmers and ranchers. Also, the most

School Bell Needs Trailer

The graduating class of 1977 left a victory bell to McLean High School last year, but there is one minor flaw... no transportation.

So, as usual the burden has fallen on school officials. Mr. Jefferson and Mr. Gee have organized a fund to provide for a trailer to place the bell on.

After the bell is affixed to the trailer, it will be towed behind the school bus to all school activities such as football games and band marching contests.

The trailer will be in memory of Todd Darsey. All people wishing to donate money for the trailer should contact Mr. Jefferson or Mr. Gee or come by the high school. Checks should be made payable to McLean High School, Todd Darsey Memorial Fund. A plaque will be placed on the trailer dedicated to Todd.

small, fast teal from the other larger ducks such as mallards, gadwall and pintails that might be in the same area during the September hunt.

The three species of teal which can legally be taken during this early hunt are the cinnamon, blue-winged and green-winged teal. Teal hunters will be required a federal migratory waterfowl stamp which can be purchased at U. S. Post offices for \$5. The stamp must be signed in ink across the face of the permit by the holder.

The S.S. Savannah was the first steamship to cross the Atlantic

New Hunting Licenses Required

The 1977-78 Texas hunting licenses are available at license vendors and all Texas Parks and Wildlife Department offices across the state.

The licenses will be valid for the period Sept. 1, 1977 through Aug. 31, 1978. The resident hunting license is \$5.25 and the combination resident hunting/fishing license is \$8.75. Non-resident/small game license is \$37.50 and will be required for out-of-state hunters after quail, prairie chicken, pheasant, dove and other small game species. The non-resident/general hunting license is \$100.75 and will allow out-of-state hunters to bag all legal Texas species including deer and turkey.

These licenses are printed on waterproof, tear-resistant paper and each license will contain buck, antlerless deer and turkey tags. The date and month of kill on all tags must be marked out in ink or cut out and tags attached securely to the carcass before transporting or moving the carcass. The place and county of kill must also be filled in at this time.

There is a space on the back of the new license for white-winged dove, archery and federal waterfowl stamps to be affixed.

A resident license is required of every Texas citizen hunting outside of the county of residence between the ages of 17-65 years old. Persons hunting on land where they reside or persons hunting deer and turkey in county of residence must have an exempt hunting license which costs \$1.25.

Teal Season Set

A nine-day teal season has been set for Sept. 10-18, 1977 and lakes with ample water are scattered across the Panhandle and South Plains.

According to waterfowl biologist Max Tra-week the rains have been spotty this summer with some areas of the eastern Panhandle receiving record amounts of water.

Traweek is reporting more green-winged teal than normal this year in his surveys of the area. Normally, the blue-winged teal is the most abundant species during the early duck season.

The daily bag limit of four with a possession limit of eight teal can be banded from sunrise to sunset. The later shooting hours should help hunters identify the

Funeral Rites For Mrs. Elizabeth Cooper, 92

Mrs. Elizabeth Cooper, 92, died Tuesday. Funeral services will be at 2:30 p.m. Saturday at First Baptist Church with Rev. Roy Wade, pastor of First Pentecostal Holiness Church in Amarillo, officiating. Burial will be in Hillcrest Cemetery by Lamb Funeral Home.

Mrs. Cooper was born in Montague County and moved to McLean from Amarillo in 1931. She married Robert Cooper Oct. 11, 1904 in Oklahoma. She was a member of the Pentecostal Holiness Church.

Survivors include five sons, Chester of Coke, Colo., Jessie ofasco, Wash., Paul and Lawrence, both of Amarillo, and Archie of Dalton; five daughters, Mrs. Susie Trout and Mrs. Minnie Erwin, both of McLean, Mrs. Mozelle Miller and Mrs. Ola Granger both of Portland, Ore., and Mrs. Maggie Morrow of Walla Walla, Wash.; two brothers, Henry Hale of Miami, Okla., and C. R. Hale of Irving; two sisters, Mrs. Neggie Dobson of Erick, Okla., and Mrs. Edith Knox of Fort Worth; 46 grandchildren, 19 great-grandchildren and 13 great-great-grandchildren.

Workshop set for application of pesticides

A training workshop for commercial and commercial agricultural applicators of pesticides has been scheduled for Thursday and Friday at the Texas Tech Regional Academic Health Center, Amarillo, Texas, according to County Extension Agent Joe VanZandt.

The educational workshop, though not a part of the official certification process, is being conducted by the Extension Service to train commercial and commercial applicators in various categories of agricultural pest control. These are field pest control, farm storage pest control, fumigation, and treatment.

McLean Future Magazine Sale

The McLean Future Business Leaders of America will begin their annual magazine and music sales today. We sincerely appreciate your cooperation and support in these sales. The magazines and music are guaranteed to be delivered.

you and the LAW

PRESENTED BY THE STATE BAR OF TEXAS

Q: My son was recently injured in an auto accident. We asked him not to sign any legal papers, but he signed a settlement to pay for the injuries he suffered in the accident. My husband and I believe the settlement is too low. My son is twenty years old — can I void the settlement?

A: Any person over the age of 18 is free to enter into a contract. Unless a court determines a person to be incompetent, that person's contract cannot be rescinded by a parent. As his parent, you have no right to contract for your son or to reject his agreements after he is 18.

Q: What's the law on U-Turns? Can I make one in the middle of the block?

A: According to state law, U-Turns are allowed if they are done safely. But there are some exceptions. U-Turns can't be made on curves or on the crest of a hill, unless the turning vehicle can be seen by approaching drivers 500 feet away. Also, U-Turns aren't allowed where signs prohibit them. There is one catch: Beyond state law, many cities and towns have ordinances regulating U-Turns. Each driver had better be up on these local laws.

Q: I am considering a divorce, but I am expecting a child and I understand this might delay the proceeding. Is that true?

A: The judge might prefer to wait until your child is born before holding a hearing on your divorce. This would assure that the provisions of the divorce decree cover the child. These provisions would include granting one parent custody of the child, allowing visitation rights to the parent who does not have custody, and establishment of child support to be provided to the parent given custody of the child.

Q: I've got a cyclone fence

along the back of my property, which adjoins an apartment house parking lot. The fence is being pushed down by cars in the apartment complex, and I've written the owner several times. However, the apartment is owned by a large corporation in another city and I can't get them to communicate with me. Can I take steps to get them to repair or replace my fence?

A: If a fence constructed on a homeowner's property is being damaged by an adjoining property owner, the homeowner may sue the neighbor to recover for damages to the property.

ACCIDENT CONTROL

Inexperienced workers face a relatively high accident risk. Employers should train all new workers about workplace hazards and make sure they know the proper way to do their job, advises the Texas Agricultural Extension Service.

THANK YOU

To my friends and customers, I want to thank each and everyone for your patronage during the time I have been in the service station business here.

I have sold the CHARLES TEXACO STATION to Pete Miller, and he will continue to give the same fine service.

Again, I have appreciated very much your patronage. Thank you.

Charles Weaver

MHS Band Prepares For Football Season

by Leslie Cunningham
The McLean High School Tiger Band, under the direction of Mike Lee, has been working hard in preparation for the football season. In addition to preparing for half-time shows, the band has been raising school spirit, not only with their music but with their enthusiasm. Showing their school spirit, drum majorette, Sherry Glass, led the band through the halls of MHS playing the Tiger fight song. At the pep rally, Sherry Swaner and Robin Smith made their debut as MHS twirlers.

LAFFS

"I have to get home early today, Edna. So let's just play 6 holes and multiply by 3."

New Arrivals

Mr. and Mrs. Jerre Lee of Portland, Oregon are the parents of a daughter Trisha Lynnette. She was born August 25th and weighed lbs. 3 ozs. Grandparents are Mr. and Mrs. Moore and Mr. and Mrs. Bill Webb of McLean. Great-grandparents are Ben Tedder of McLean and Mrs. L. E. Murphy of Childress.

An average bale of cotton weighs 480 pounds.

An important message to our customers.

The House of Representatives has just voted to raise the price of your electricity! And the Senate is looking at the same legislation. These bills are going to cost you plenty — nearly \$50,000,000 a year for the next ten years. That's almost half a billion dollars!

Who cares? Of course you care. And we care. That's the reason we want you to know what's happening in Washington.

Not only did the House vote to raise your electric bill, there's a strong chance you'll get less reliable service, too. The Government is trying to take over regulation of your electric company. That's right! A Washington bureaucrat will decide who gets electric power and how much instead of your state and local officials.

That means your electric company will lose control over how we operate our own power transmission lines and facilities. We might not be able to give you — our customers — first priority. The Federal Government could use some of the money you pay for your electric service to make your electric company build a transmission line for a government-subsidized utility. You pay twice that way — in your electric bill and in your taxes. And you don't even get to use the line.

Let's not beat around the bush. The cost of doing business is going up. It costs you more for your electric service than it used to. But now when you pay your electric bill, you pay only what it costs to serve you, plus a controlled profit, so that we can keep updating our generation facilities and our technology to keep serving you better.

Well, if some Congressmen have their way, some people will pay less than their fair share of the electricity cost. Who will decide who gets the special rates? You can bet it won't be you . . . or us . . . or our state and local government who know our needs best.

It will be some government official in Washington! There's a whole lot more bad news in this legislation that has passed the House and is now being considered in the Senate. It's all part of Senate Bill 1472, Part E. . . and . . . Now for more bad news . . . Senate Bill 1472!

That's a dandy. It's the one that taxes you because some of your electricity is generated with natural gas. The gas users' tax is a case of the Government telling us to build coal-fired power plants faster than you can afford them.

It's as though the folks in Washington just woke up one day and decided there was an energy crisis and decided to try to right all the wrongs over night. The facts are that your electric company has been doing something about our diminishing natural gas reserves for more than six years. We haven't planned or constructed a gas-fired generation facility since 1971. And since that same time we've been planning to use coal as our primary generation fuel. We've just completed and put into operation Harrington Station — a coal-fired generation plant near Amarillo.

But we need the opportunity to phase out the gas-fired facilities at a savings economical to you, our customers. New power plants cost money . . . cost you money, because you are our only source of money. We have a program that makes it possible for us to stop using natural gas to make electricity by 1995 at the latest.

It's a program you can afford. It's a program that will help alleviate rising costs. Sure, you'll pay more for electricity in the future. You'll be paying more for everything, but under our plan you'll pay a lot less than you'll have to pay if Senate Bill 1472 passes. \$423,000,000 less between 1983 and 1990.

Why? Because Senate Bill 1472 says that even though we are building coal-fired power plants as fast as you can afford them, you're still going to be penalized, by almost a half billion dollars. Just because some staff member in Congress thinks you should build them faster. And remember it is your money that builds these new plants.

The Good News in all this is that your Congressman voted against raising your electric bill, voted against giving you poor service . . . but he was out-voted. Now what you can do is write your United States Senator (His name and address are printed below for your convenience) and tell him to vote against Part E in Senate Bill 1469 and against the gas users' tax in Senate Bill 1472. Why? BECAUSE YOU CAN'T AFFORD THESE BILLS. And that's a darn good reason. Let the people in Washington know that YOU CARE what they're doing with YOUR MONEY!

Thank you

Schools Opened Last Wednesday

Gina Layne School started off with bang last Wednesday with a student assembly first period in the auditorium with Mr. Cummings, the new high school principal presiding over the activities. Mr. Gee, science teacher, handed out academic achievement plaques to those students attaining an average of 2 or above for the 1976-77 school year. Last year's seniors earning plaques were Cherrie Billingsley, Rose Dwyer, Maridale Glass, Beth Lambright, Cynthia Morris, Judith Bentley and Dave Jefferson. Seniors receiving these plaques were Carolyn Bailey, Lynda Daniels, Melinda Hunt, Gina Layne, Billie Lowery and Odette Swaner; juniors were Diane McAnear, Jeanette Brown, Tommy Eck and Sherry Glass; sophomores were Brad Melton, Ann Skipper, Rudy Stewart and Randy

Suggs. The 1977 Tumbleweed annuals were distributed under the supervision of Mrs. Haynes, last year's sponsor of the annual staff and there was a signing party afterward. The annuals this year were larger than usual and for the first time had a student-designed cover.

As a special treat for the assembly, the band under the direction of Mr. Lee, played the school song.

Former Resident Celebrates Birthday

Mrs. C. G. Nicholson, a former long time resident of McLean, will celebrate her 100th birthday September 20th. An open house will be Sept. 18th at the Muleshoe Nursing Home. Anyone wishing to attend are welcome or anyone wishing to send birthday greetings can send them to Room 82 in care of the Muleshoe Nursing Home, Muleshoe, Texas 79347.

Tigers Lose Opening Game

by Sam Haynes
The Tigers lost their season opener last Friday as the Clarendon Bronchos stomped the Tigers 49-0. The black and gold could never sustain a drive up the field because of fumbles and penalties. The Tigers had 63 yards of total offense to 417 for the Bronchos. Clarendon scored early with Kelly Choate returning a punt 34 yards down the left sideline. He also scored the final two Broncho touchdowns on a 60 yard pass from Dan Brandes in the third period and a five yard run in the final quarter. Billy Gardner also scored on runs of three and 30 yards. John Hall and Gary McClellan scored on runs of 16 and two yards.

The Tigers return to action this Thursday night as they take on the Pampa Sophomores. Game time is at 7:30.

A man with big ideas is a hard neighbor to live with.

Junior Class Holds Meeting

The Junior class met last Tuesday for a short meeting. The juniors' sponsors this year are Miss Gillispie and Mr. Wright. The class elected three officers for this year. They were v. president-Tommy Eck-Secretary-Diane McAnear and treasurer-Sherry Glass.

The class also decided to sell mums for the homecoming game against Lefors on the 16th. They are on sale by all members of the class. There are five different types ranging from \$2.50 to \$10 in price. They will be putting the boys football numbers or just an "M" on the mums. They will be on sale until noon on game day. Mums can be picked up or they can be delivered.

The first automatic match-making machine was patented in 1851.

X's and O's

by Bill Coward

This Saturday the citizens of McLean will have an opportunity to take part in the democratic process our nation centers around. I'm talking about the Town Meeting beginning in the park at 4:00 p.m. and ending in the High School Auditorium at 10:00 p.m. Active participation by all the people will make this event a success. Show your concern for our city by going out and supporting the Town Meeting.

Next week will be homecoming week at McLean High School. The week will be marked by numerous activities such as club meetings, bonfires, pep rallies and the crowning of the 1977 Homecoming Queen and her Court. Football games will begin Thursday afternoon when our Jr. High team plays Higgins here at 6:00 and then the varsity game Friday at 8:00 against Lefors. I hope you will support this special week by taking part in the activities.

The Future Business Leaders of America had their first meeting of the school year last Tuesday. One of the many organizations in our school, it is organized on a local, state and national level. The purpose as stated in the FBLA Constitution "is to assist youth and young adults enrolled in business programs to develop vocational competencies and a sense of civic responsibility. FBLA is designed to be an extension of the instructional program, thus being an integral part of the business curriculum."

The idea of such an organization was born in 1937 at Hamden L. Forkner of Teachers College, Columbia University, New York. In 1940, the idea was presented to the National Council for Business Education and was readily accepted. The first Chapter was organized in Johnson City, Tennessee in 1942 and since that time membership has climbed to more than 88,000 students. The local chapter of FBLA is active in community and state functions. Their sponsor is Mrs. Jan Johnson.

Last Friday night was not a total disaster. De-

spite the score, I can confirm that our team played better than the score indicated. All the mistakes, penalties, fumbles, missed tackles, etc. are things that can be corrected. The thing I was happy to see was that we have some players that never gave up in spite of the score. They played hard the whole ball game. I was especially pleased with the play of Randy Kennedy and Carter Trew. I think they played well the whole game. I believe that winning is just as much an attitude as it is hard work and determination. I guess my feelings along this line can be best put in this poem that was written by an anonymous author: If you think you're beaten you are

If you think you dare not, you don't
If you'd like to win but think you can't, it's almost a cinch you won't.

Life's battles don't always go to the stronger or faster man. But soon or late, the man who wins, is the one who thinks he can.

I still believe and the players do too, that McLean can have a winning season. This Thursday, we play Pampa's sophomore team. This is an excellent opportunity to get back on the winning side. The coaches, players, cheerleaders, pep club, band, faculty and students at McLean High School have not given up. Please don't you either. See you at the game Thursday night.

HOME BUYERS SHOULD NOT WAIT

Now is as good a time as any to buy a home, says an economist in real estate with the Texas Agricultural Extension Service. The average cost of a new single-family home has increased more than 100 per cent in 10 years and this trend is likely to continue. Given population and inflation trends, the average home appreciation rate should be about 8 percent annually over the next decade.

TULLEY BROWN

Two of every three deaths in Texas during 1976 were caused by diseases of the heart and blood vessels--plus cancer, says the Bureau of Vital Statistics of the Texas Department of Health.

Deaths from all causes in 1976 totalled 100,620 according to Don Carroll, Chief, Bureau of Vital Statistics.

Slightly offsetting these grim statistics is some good news. Infant deaths reached the lowest point in Texas in 1976--16.0 deaths per 1,000 live births.

The two top killers, heart disease and cancer, came as no surprise since both of these have been the leading causes of death in the state for some time.

Last year, Carroll noted, heart disease killed 33,836 Texans, while cancer accounted for 19,230 deaths.

Even though heart disease is a top killer in Texas, a decline in the death rate from heart attacks has continued for the third straight year. In 1976 the death rate was 118 per 100,000 population. In fact, health officials say, there were 360 fewer deaths than expected from heart attacks, based on 1975 experience. "Whether a three-year declining rate is related to a decline in 'risk factors' for heart attack isn't known," said Dr. Richard K. Donelson, Director of the Epidemiology Division. "And, whether the decline is matched elsewhere in the United States will be answerable soon, when the UU mortality data becomes available."

The mortality rate for all forms of cancer in 1976 showed an increase of 550 more cancer deaths in Texas last year. The mortality rate was 154 per 100,000 population, compared to the 1975 rate of 150.

"Some forms of cancer, such as leukemia and cancer of the mouth and throat, are showing slight decreases," said Dr. Donelson. "But fortunately, cancer of most of the other body sites has continued to cause a gradual increase in the death rate over the years."

The other killers in the top 10 for 1976 were: (3) apoplexy (cerebrovascular disease) 10,653; (4) accidents 6,468; (5) pneumonia 3,057; (6) diabetes mellitus 1,894; (7) certain causes of infant deaths 1,817; (8) arteriosclerosis 1,691; (9) homicide 1,633; and (10) suicide 1,526.

A significant increase in the number of deaths ascribed to septicemia was observed last year. The 405 deaths were up from 297 such deaths in 1975.

"Several explanations for this increase in septicemia deaths are now being investigated," said

Dr. Donelson. "One possible explanation is that physicians and hospital workers have recently become more persistent in their attempts to diagnose and make special records of septicemia. This is perhaps due to the increasing emphasis on hospital infection control. The several different types of septicemia appear to have been equally increased, said Dr. Donelson. About half of the deaths occurred in persons over 65, which has been the experience in past years.

The infant death--which includes the first year of life--continued its downward course to 16.0 deaths per 1,000 live births. Since 1972, when the death rate of infants was 20.2, the number of infants deaths has gradually decreased. Despite this gratifying decline, there were 3,502 deaths last year.

Physicians with the Department are concerned about the number of infant deaths and feel that the infant death rate can be improved.

"The greatest decline in infant mortality will occur in the newborn period and will be influenced by better prenatal care and the continued improvements in hospital facilities and trained personnel," said Dr. P. Bureau of Personal Health Services. "Good intensive care for the premature babies can be a big factor."

The number of "preventable" infant deaths is the subject of continuing great interest among obstetricians and pediatricians, as well as public healthworkers, in this country, says Dr. Donelson.

Recording births and deaths was one of the very earliest duties assigned to the state health department.

Today, the department maintains more than 20 million records of births, deaths, marriages and divorces. The vital records of the births and deaths of Texans are protected in a new 32,000-square foot facility along side of the Department's headquarters at 1100 West 49th St. in Austin.

More than half a million new records are filed each year and 250,000 requests for certified copies of these records are received each year. The bulk of the Bureau's work involves recording births and deaths.

Outbreak of Horse Sleeping Sickness Continues
 The Texas Department of Health is urging all horse owners to have their animals vaccinated for encephalitis, also known as "sleeping sickness". This infection is carried to horses and man by mosquitoes. Because of heavy August rains, the mosquito population in the Panhandle has increased.

Even though it is late in the summer, area veterinarians continue to report Western equine encephalitis especially in unvaccinated yearlings. The State Health Department is still finding Western equine encephalitis in the mosquitoes it collects. The common U.S. types are Eastern equine, Western equine and St. Louis encephalitis. Most veterinarians have a supply of a bivalent vaccine for Eastern, Western and Venezuelan.

Since man can also be infected, those out at dawn or dusk should use mosquito repellent. Home owners are urged to eliminate any standing water in their yards and cut any weeds around their houses.

The Texas Department of Health recommends that cities continue their mosquito abatement programs since it will take a hard freeze to eliminate the mosquito carriers.

Further information concerning the subject may be obtained by contacting the ZOONOSIS Control Program at (806) 655-7151; WTSU Station Box 968, Canyon, Texas 79016.

COOL SEASON GRASS PLANTING TIME
 If you are wanting to plant a cool season grass, you also need to be getting ready to plant. This applies whether you are a farmer or a home owner. Lawn grasses such as Fescue, Bluegrass and some combinations of Park mixes should be planted during September. Also now is a good time to make your Fall application of fertilizer on home lawns. Apply about one to two pounds of nitrogen per 1,000 square feet.

Farmers interested in planting grasses such as Fescue, Brome, or Orchard grass need to be getting final land preparations made.

CARD OF THANKS
 To each of our many friends in McLean: I just with I could find the right words to express my deep appreciation for all the nice cards, visits, phone calls, gifts and letters I received while in the High Plains Baptist Hospital in Amarillo. Thanks also for the many thoughtful and helpful things done for me and my family since I've been home. Thank you so very much.
 Myrtle Allen

Farmers need to be checking cotton, sorghum and soybean fields for the presence of bollworms or corn earworms. Light to moderate bollworm populations have been received from the area. Cotton fields should be checked frequently during the next few weeks and if previously untreated fields have 8 to 10 percent green squares damaged, then chemical treatment is justified. If a field has been treated for bollworms, additional treatments are justified when bollworm eggs and 4 to 5 young worms are found in 100 plant terminals and 5 percent of the green squares and small bolls have been damaged.

In sorghum the worms will be found feeding on the heads and chemical treatment is economical when two worms per head are present. Early detection is important for as they get larger, they become more difficult to control and farmers are reporting difficulty in controlling the worms.

With sorghum, the size of worms and stage of maturity will have an effect on what worm populations are justified in controlling. Small worms will be around for a longer time to feed, whereas large worms may only have a few more days before they pupate. The worms have a life of about 18 days as worms and about 30-35 life cycle.

In soybeans, worms may be feeding on leaves and pods. There are no definite guidelines on when to control worms in soybeans. However, worms should be present in what the producer would consider to be damaging numbers.

ALFALFA PLANTING TIME
 Sam Condo was by the office this past week to discuss planting some more alfalfa. I checked with Dr. Frank Petr on his current recommended varieties for this area and they follow: 1. Kanza; 2. Cody; 3. Dawson, and 4. Mesilla. It is time to be getting ready to plant any alfalfa and you may want to consider putting down a heavy application of phosphorus fertilizer prior to final land preparations. Also don't forget to inoculate your alfalfa seed so the nitrogen forming bacteria will be present to manufacture the needed nitrogen for the alfalfa crop.

IRS Offers Tax Guides

A free 64-page book-
 let dealing with the many
 tax situations faced by
 farmers is available free
 from most Internal Re-
 venue Service offices.

"Farmer's Tax
 Guide," IRS Publication
 225, covers numerous
 tax facets of agriculture,
 including crop destruc-
 tion, sod sales, drought
 sales, poultry purchases
 and the Federal Highway
 Use Tax.

Also included in the
 publication are instruc-
 tions for use by farmers
 in completing Form 1040
 and related schedules, a
 listing of the important
 tax dates which affect
 farmers during the
 course of the year, and
 several useful tips on
 how a good recordkeep-
 ing system can help a
 farmer insure that he
 or she takes advantage of
 all legal deductions.

Farmers can order the
 "Farmer's Tax Guide"
 by calling the IRS toll-
 free number: 1-800-492-
 4830.

PUBLIC NOTICE

NOTICE OF PUBLIC
 HEARING OF THE TAX
 BOARD OF EQUALIZA-
 TION OF THE MCLEAN
 INDEPENDENT SCHOOL
 DISTRICT

Pursuant to Article
 29E, Revised Civil Sta-
 tutes of Texas, NOTICE
 IS HEREBY GIVEN
 THAT THE TAX BOARD
 OF EQUALIZATION OF
 the McLean Independent
 School District will hold
 public hearings relating
 to the valuation and
 equalization for tax pur-
 poses of all properties
 subject to taxation by the
 McLean Independent
 School District, com-
 mencing on the 26th day
 of September, 1977, from
 7:00 to 9:00 P.M. in the
 McLean Elementary
 School Cafeteria, and
 continue to such other
 dates and times as shall
 be determined and an-
 nounced by said Board
 until such Board shall
 have completed its pub-
 lic hearings as required
 by law. All persons own-
 ing property, real or
 personal, within the cor-
 porate limits of the Mc-
 Lean Independent School
 District having business
 before said Board of
 Equalization, may ap-
 pear before said Board
 on the above stated date
 at the above stated loca-
 tion for said hearings.

 Tax Assessor-Collec-
 tor
 McLean Independent
 School District 36-2tc

VA Offers Counseling

Since 1967 when VA's
 first toll-free lines were
 installed, telephone
 counseling has played a
 major role in VA's out-
 reach efforts to its
 clientele. Free calls
 within state boundaries
 are now available to vet-
 erans in all 50 states,
 but this service is only
 one part of VA's total
 outreach effort to veter-
 ans and their dependents,
 according to Jack Coker,
 Director of the VA Re-
 gional Office in Waco.
 Another major seg-
 ment of this massive
 program has been the
 direct-mail approach.
 Each of the 50,000 men
 and women who complet-
 ed military service each
 month during 1976 re-
 ceived at least five com-
 munications from VA

Beta Sigma Phi Starts New Year

Alpha Xi Upsilon
 Chapter of Beta Sigma
 Phi met August 27 for
 Beginning Day. A salad
 luncheon was enjoyed by
 ten members, sponsor
 Cheryl Smith and five
 guests Brenda Dickin-
 son, Gail Rohde, Suzie
 Lee, Janet Yakubovsky
 and Sue Coward. Year-
 books were handed out.

The first regular meet-
 ing was held Tuesday,
 September 6. Plans were
 made to attend the con-
 vention which will be held
 October 8 and 9 in
 Pampa.

The Chapter is going
 to "adopt" a girl at
 Girlstown and send her
 gifts on special occa-
 sions. Mary Lou Glass
 gave an interesting pro-
 gram on "Family" and
 reminded us how much
 influence the home has
 on a child.

Carlene Beauchamp
 was hostess. Refresh-
 ments were served to
 Sonie Heasley, Jean
 Smith, Jacque Gillispie,
 Mary Bybee, Susan
 Barker, Freda Holland,
 F.

Frankie Smith, Mary Lou
 Glass, Linda McDonald,
 Nancy Billingsley, Car-
 lene Beauchamp, Janet
 Glass, Shirley Stokes and
 one guest, Brenda Dick-
 inson. Th door prize
 was won by Janet Glass.

Students Asked To Attend Town Meeting

by Gina Layne
 The students of Mc-
 Lean High School have
 been requested to attend
 the McLean Area Town
 Meeting Saturday in the
 city park and high school
 auditorium. The students
 have been urged to speak
 out on issues and make
 constructive suggestions
 concerning the youth of
 McLean, such as recrea-
 tional facilities and the
 building of a community
 building.

Some of the students
 are already involved in
 the meeting, such as the
 Boy Scouts, the Jr. Vol-
 unteer Fire Department
 and students who will
 help type the report at the
 conclusion of the meet-
 ing.

Activities will kick
 off at 4:00 p.m. Saturday
 afternoon with registra-
 tion and a picnic lunch
 in the park followed by
 two sessions concerning
 the challenges and prob-
 lems of McLean.

during their first six
 months back in civillife.

VA letters advise all
 new veterans of their eli-
 gibility for benefits.
 Those without a high
 school diploma receive
 special attention through
 follow-up letters and
 even phone calls. With
 the first letter is a pos-
 tage-free card on which
 the veteran can designate
 those benefits on which
 he would like more in-
 formation.

Since 1968, the VA
 has mailed 5.6 million
 such letters.

Follow-up letters pro-
 vide new veterans with
 certificates of eligibility
 for GI home loans and
 information on insur-
 ance and educational
 programs.

What is

WELLNESS?

It's a lot more than not being sick.

*"The preservation of health is a duty. Few seem
 conscious that there is such a thing as physical
 morality."*
