Methodist-Presbyterian Tent Revival Opens Sunday

TENT IS PLACED IN PARK

Revival to Last Three Weeks from Next Sunday

Everything is in readiness for the Methodist-Presbyterian revival to be held in a large tent in the city park with a seating capacity of 1,000, beginning Sunday morning and lasting three weeks, including four Sundays.

Rev. "Jimmie" Smith of Dallas, a general evangelist of the Methodist church, will do the preaching. He is said to be a very successful evangelist, having wide experience in tabernacle meetings, most of them being union, or co-operative, and claims some 40,000 conversions under his preaching during the past 15 years. Prof. and Mrs. R. G. Fraser of Greenville will have charge of the song services, and it is understood that they will furnish their own song books, insuring plenty of books for all who care to sing. A big choir practice under the direction of the Frasers is planned for Saturday night of this week, and every singer in town is invited to be present, as also they are to attend the choir at each service of the meeting.

Pastor Wilkins of the Methodist church and Pastor Erwin of the Presbyterian church urge their congregations to meet early for Sunday school in order that the revival may start promptly on time. They also want to cordially invite people of all religious faiths to co-operate with them in the revival services.

FIRE DAMAGES HOME NEAR HIGH SCHOOL

Fire caught in a closet of the building owned by Massay and Stokely, and occupied by S. E. Boyce, just across the street from the high school building, Sunday night about 8 o'clock.

The family had gone to church, but an alarm was turned in as soon as the fire was seen coming out of the roof, and the building was saved, with the exception of about \$450 damage.

Household goods were damaged by fire and water.

SMALL BLAZE AT HARDENDORF HOME

A small blaze was discovered at the H. Hardendorf home just outside the city limits about 1 o'clock Saturday afternoon, and a quick run by the fire department saved the building, with only about \$50 or \$60 dollar damage.

OZIER PROVES FISH STORY

The editor of The News has been writing up fish stories for various local sportsmen for many years, but Saturday is the first time that a fisherman brought in the fish to prove his statement. Bunk Ozier presented us with a string of 18 purple-eyed perch that made the place do resistance for the editor's Sunday dinner.

Mr. Ozier stated that he caught 37 perch just about as fast as he could hold his hook, and claims that O. E. Lechridge was with him and only caught three fish during the time. We haven't seen Mr. Lechridge, and as he did not bring us any fish, we are forced to accept Mr. Ozier's statement.

We did not ask too many questions as to where the fish were caught, but learned that the water is in easy driving distance from town.

We are hereby awarding the official fishing medal for the season's best catch to Mr. Ozier, which will stand until some one proves a better one.

ERWIN ELECTED CHM. "SMALL FOR GOV." CLUB

Rev. W. A. Erwin was elected chairman of the temporary organization of the "Small for Governor" Club at the high school auditorium Friday night.

A meeting was called for Friday night of this week, when a permanent organization will be effected.

The organization came at the close of a program in which J. B. Clark of Shamrock was the principal speaker. Mr. Clark stated that he was not here to dictate to McLean how to vote, but to speak in favor of his friend, Clint Small. "Unless one is a personal friend of some other candidate," said Mr. Clark, "there is no reason why every West Texan should not vote for Small." Mr. Clark mentioned the river-bed case, which drew applause.

The speaker paid his respects to the McLean band, which gave a couple of numbers at the beginning of the program, under the direction of Laurence Bourland. Mr. Clark said it was the best band that visits Shamrock.

Rev. W. A. Erwin, pastor of the First Presbyterian church, introduced the speaker, stating that the meeting was called at the instance of 110 petitioners. Mr. Erwin stated that he was a personal friend of Mr. Small and knows of no one better qualified to hold the office of governor.

There were 42 voters present, and on account of the lateness of the hour, it was decided to hold another meeting Friday night of this week at the same place to effect a permanent organization. Chairman Erwin insisted that every Small supporter be present Friday night promptly at 8:30, saying that he had found some opposition to Sen. Small and that the club should get busy at once. Mr. Erwin referred to his statement last year when presenting Sen. Small to a McLean audience. "The next governor of Texas," said he, "and he hoped to see this an actual fact."

COLEBANK-COOPER WEDDING SATURDAY

Miss Vida Mae Colebank and Mr. John W. Cooper were married Saturday evening, May 31, 1930, at the home of the bride's parents, Mr. and Mrs. Geo. Colebank. Rev. J. P. Gay officiated and Mrs. Raymond Hall played the wedding march at the piano.

The bride is a graduate of the McLean high school and spent one year at Simmons University. She taught in the Whitefish school last term, and is very popular in church and social circles.

The groom is a prominent young business man of McLean, being manager of the Piggly Wiggly store.

The young people left immediately following the ceremony for a short wedding trip, and will be at home to their friends at the King apartments in North Third street.

Those present at the wedding were: Mr. and Mrs. Geo. Colebank and daughter, Georgia; Mrs. E. L. Minty and Mrs. Raymond Hall, Mrs. Murray Boston, Misses Elizabeth Wilkerson, Naomi Hunt and Trilby Mackracken, and Martin Bilderback.

Carpenter No. 1 Oil Well Comes in a Producer

The Vulcan Oil and Gas Co.'s No. 1 Carpenter came in last week a producer, standing 100 feet in oil with 400 feet open hole at the 2715 foot level. A show of oil was found at 2590 feet, and it is thought the oil is seeping back at this level. Attempts to lower the oil with the baller showed no result. The well also has about 6 million cubic feet of gas.

The structure is of a loose nature and casing will have to be run before it is known just what the well will produce, estimates ranging from 25 to 600 barrels.

FREE HEALTH EXAMINATION FOR SCHOOL CHILDREN

By Mrs. L. Sligar, P.-T. A. Heath Chm. Plans for the Parent-Teacher Association summer round up are maturing rapidly. Strenuous efforts are being made to get in touch with the parents of all children who will enter school next September for the first time. Circular letters have been mailed out to the parents of all six and seven year old children who were given in the school census, and a visiting committee with Mrs. Bryant Henry as chairman, is calling on these parents in person this week. However, all are urged to co-operate whether they have received a personal invitation or not.

The round up will be held on Friday and Saturday afternoons, June 5 and 7, beginning at 2 o'clock each day. In order to divide the children into two groups, it has been decided to ask all children whose names begin with the letters A to H to come for examination on Friday and the remaining children on Saturday. The building formerly occupied by the A & A Cleaners, next door to Hodges Furniture store, will be used. Five doctors will be present. An eyesight specialist will examine the children's eyes, a dentist will examine their teeth, and the parent may choose from among three medical doctors the one whom he wishes to examine his child. The examinations will be private, and free of charge.

Mothers are asked to accompany the child if at all possible. If you have no way to bring your child for examination, phone Mrs. Evan Sitter, chairman of the transportation committee, and a car will be sent for you on the proper day. Let's be sure that our beginners' class for 1930 is as near 100% perfect physically as it is possible to have it, for physical and mental development go hand in hand.

PROGRAM AT PAKAN TONIGHT

A school play will be given at the Pakan school tonight, at which it is planned that the McLean American Legion Post will present the school flag. The McLean band is also invited to attend.

Mr. and Mrs. W. H. Ayer visited in Mangum, Okla., Sunday.

Mrs. E. L. Minix of Sulphur, La., is visiting relatives here.

County Council Agriculturists Here Friday

The Gray county agricultural council met here Friday, with Geo. W. Briggs of Pampa, president, in charge. The meeting began with a luncheon at the Meador Cafe, courtesy of local business men, which was followed by an open meeting at the chamber of commerce hall, where plans were outlined for future work.

Mr. Briggs outlined the purposes of the council, stating that it was organized to help develop diversified farming in Gray county. "Oil is at best only temporary," said Mr. Briggs, "and while we would not for a minute minimize the importance of the oil industry, the fact remains that we must depend upon agricultural interests for our permanent prosperity. It is not the purpose of this organization to tell the farmers what to do, but to arouse interest among farmers and business men in problems of mutual interest."

Plans for community fairs for McLean and Pampa were discussed, as were several other propositions.

Dr. A. A. Tampke suggested judging contests for farmers, and Prof. Ralph R. Thomas stated that the council could be of material benefit in the annual boys and girls encampments.

A motion carried to appoint men from each section of the county to comprise an organization and personal committee, this committee to have the power to appoint sub-committees to handle the different projects fostered in each community. P. H. Bourland was appointed chairman. Other members are: J. L. Lester, Pampa; E. B. Hedrick, Albreed; P. B. Farley, Groom; Walter Jones, Laketon; E. Bacchus, Lefors.

Those attending the luncheon were: Geo. W. Briggs, J. L. Lester, F. P. Reid, B. F. Gray, T. W. Gilstrap, M. D. Bentley, E. L. Sitter, Ralph R. Thomas, A. A. Tampke, T. A. Landers and Miss Myrtle Miller. Others attending the business session were: O. G. Stokely, F. H. Bourland, Geo. W. Sitter, J. E. Biggs and B. W. Wilkins. The next meeting will be held upon call of the president.

"SMILE" SOCIAL AT METHODIST CHURCH

The Methodist women held their social meeting in the basement of the church on Tuesday afternoon, beginning at 3 o'clock.

Invitations were extended to the ladies of the other churches of the town, and seventy-one were present. The basement was beautifully decorated with flowers of the season, and pictures and posters illustrated the thought of the day, "smile."

The women were served punch on entering the room. After a devotional service led by Mrs. Geo. W. Sitter. Mrs. E. E. Dishman conducted the social part of the program. Mrs. A. B. Blake gave a song with the idea of the day, and Mrs. W. E. Bogan read a selection of poems on smiling and happiness.

Several contests were conducted by the leader, and the smiles of each guest were measured. Mrs. G. V. Koons having the broadest smile. After a very happy and pleasant afternoon of smiles, the guests were served cake and ice cream and were then allowed to have a pleasant time visiting with each other.

LEFORS NEEDS NEWSPAPER

E. Bacchus, city secretary of the town of Lefors, in a conversation with a representative of The News Monday, stated that they need a newspaper in that town.

The News is printing city ordinances for Lefors that might just as well go to a home newspaper, if they had one located there.

Miss Dot Payne, student nurse, of Amarillo is visiting her mother here this week.

LIONS ENJOY LUNCHEON

A general feeling of good fellowship prevailed at the Lions luncheon held Tuesday noon at the Meador Cafe. After the meal, President Meador announced that his mind was a perfect blank, and most of those present must have been in the same happy state, as he was not called upon to prove his statement.

Lion Erwin reported for the garden committee, stating that a second prize of \$15 worth of shrubs and bulbs had been secured, \$7.50 to be used this fall and \$7.50 next spring. President Meador stated that a third prize of \$10 worth would be forthcoming. It was tentatively agreed that the judging should be done some time in August, and it was suggested that it might be a good idea to not allow those who won last year to compete this year.

The time for election of officers was set for Tuesday, June 17th. The tall twister was unusually active in collecting fines for late attendance and failure to wear the Lion button.

Rev. Erwin called attention to the revival meeting season and quoted one of America's greatest educators as saying: "Ten men have failed from defects in morals where one has failed from defects in intelligence." Rev. Erwin urged sympathetic co-operation in all revivals.

Those present were: Boyd Meador, H. M. Coleman, M. D. Bentley, W. E. Bogan, Reep Landers, Evan L. Sitter, S. M. Hodges, W. A. Erwin, A. F. Smith, B. W. Wilkins, Sherman White, T. W. Gilstrap and T. A. Landers.

GOOD-LANDERS

Miss Margaret Good and Mr. LeRoy Landers were married at Amarillo on Saturday, May 31, 1930.

The bride is a daughter of Mr. and Mrs. W. M. Good of Perryton, and is a popular young school teacher and a graduate of the West Texas State Teachers College at Canyon.

The groom is a son of Mr. and Mrs. T. A. Landers of McLean, is also a graduate of the college at Canyon and deputy district clerk of Randall county.

The young people left immediately following the ceremony for a trip to Cainsbad Caverns and other western points. They will make their home at Canyon.

LAVELLE CHRISTIAN SCOUT CAMP LEADER

Lavelle Christian has been appointed Boy Scout camp leader for McLean during the encampment at Diversion Dam this summer. Virgil Elms has a similar position at Allamore.

RELIGIOUS CENSUS MONDAY

A religious census will be taken Monday, with workers from several churches co-operating. The information gained will be used in the different revivals this summer.

Mrs. E. R. Adams was a visitor in Amarillo Tuesday.

LEFORS FORCES ISSUE

County-Wide Election Road Bonds to Be Called

A delegation of Lefors citizens met representatives from Albreed and McLean at the chamber of commerce hall here Monday night and stated that Lefors is not satisfied with the proposed three-precinct plan and intended to take advantage of the law requiring the commissioners to call a county-wide election for road bonds when presented with a petition containing the names of 250 voters.

The Lefors gentlemen state that they are against the bond issue in the county-wide form and will petition to have the McLean precinct included in order to have the issue defeated, as it is their opinion that the county-wide plan will carry a tax rate too high for the voters to endorse.

They also stated that a petition had been presented the road committee from precinct three with some 100 names asking that their precinct be left out of the plan. Lefors entered verbal protest to the committee at Pampa, asking that their precinct be left out.

W. J. Ball of Albreed stated that Pampa has the plum in the court house and should be willing to give other parts of the county an even break in the matter of roads, and that he would favor the issue if Albreed were properly taken care of, but voters need to be careful in considering a heavy bond issue. "If the issue is to be forced," said Mr. Ball, "it should be seen that every part of the county is taken proper care of."

A. A. Callahan suggested that the proposed improvements should have designated just the amounts to be spent on each project.

Witt Springer said that the three towns should get together and decide what is needed.

C. S. Doolen said a county-wide issue would likely be defeated, and suggested a mass meeting of McLean citizens to see what is needed here.

The Lefors men claimed that they would have to begin work on the petition Tuesday morning in order to present it to the commissioners next Monday, probably using the plan drafted at a Pampa meeting and endorsed by the central committee. E. Bacchus, speaking for Lefors, said that they were forced to do something they did not want to do, and hoped McLean people would not feel hurt at Lefors for trying to protect themselves.

Those present were: Messrs. Bacchus, Thut, Beavers, Breining and Ogden of Lefors; Ball and Elms of Albreed; W. E. Bogan, Witt Springer, D. C. Carpenter, A. A. Callahan, J. E. Lynch, C. S. Doolen, M. D. Bentley and T. A. Landers.

The Call to Arms

RICHARD BARDWELL, principal of Atherton high school, was young and earnest. He looked seriously at Miss Persis Wilton, the new junior teacher.

"Now, you see, Miss Wilton, the junior dance is one of the important social functions of the year. Of course, there will be chaperones from the school board, etc. But all of the actual work of supervising the dance will devolve upon the member of the faculty who comes. So, when I ask you to act as chaperone, I mean for you to be responsible for the conduct of the whole affair."

Persis Wilton gazed solemnly back at him. "I'll do my best," she answered, wondering whether Richard Bardwell himself danced, and whether he would be there.

Persis would have liked to bring some one to the dance with her, but she admitted to herself with a sigh that her onerous duties would preclude all possibility of dancing and of having a really human good time. Besides, perhaps it might look undignified to the school board. And chaperones were supposed to be too old to dance.

On the night of the affair Persis brushed her light hair firmly behind her ears, and wore a straight dress of pale green, guileless of ornament, and with the finest wisp of a sleeve. By the time she was introduced to her colleagues in chaperonage, she had achieved the dignity of a wide-eyed child.

But as she sat in the corner and watched everyone else dancing and laughing together, wistful little tendrils of golden hair escaped to curl around her face, her body trembled to the rhythm of the music, and her lips parted with eagerness.

With a throbbing heart Persis adjusted the frail wisps of chiffon at her shoulder, and started to make the pilgrimage of duty around the halls. Once she thought she saw the firm back of Richard Bardwell disappear around a corner, but when she reached the spot, he was no longer there. She would have to go alone.

At the far end of the lower hall she heard the murmur of voices and light laughter. In the shadows on the steps she could discern two figures, and two more farther up the stairs. Surely the school board wouldn't approve of boys and girls being there like this. Duty lay clear and straight ahead.

But Persis couldn't do it. What should she say to them? After all, they were only sitting out dances together, as she had done dozens of times. If only she were sitting one out now, instead of patrolling like an eagle-eyed policeman!

Suddenly from the darkness behind her she heard a girl say: "Listen to that gang over on the stairs, Jimmy. Some teacher'll be on their necks if they don't keep still. Who's here to-night, anyway?"

"Wilton, I think."
"Say, how old do you think she is, Jimmy?"
"Oh, about thirty. Say, Dodo, is she?"

Persis stood for a moment wavering, then fled down the hall. At the opposite end she encountered two shadows blended in a doorway. On the second landing an impromptu male quartet were crooning Carolina Moon to their adoring audience.

Suddenly from below came the sobbing notes of a saxophone. Like a bugle, thought Persis. She drew back into the darkness. A little stgle rustled all along the corridor. Shadows stirred. In a rush Persis fled down the stairs, and straight into the arms of Richard Bardwell.

She looked up at him through misty eyes. "Oh," she gasped, "that—that whole corridor is just answering the Call to Arms!"

After the dance was at last over, Richard Bardwell and Persis Wilton made a final tour through the now empty upper hall.

"Did you ever notice this roof?" he asked her softly. "You know, I think it ought to be made into a roof garden!"

Down the the front hall Jimmy Gardner stood at the door with Dodo Marsden. "Listen, Dodo, you know, I think that Miss Wilton's an awfully good sport. The way she came up to that corner and never said anything, only just looked kind of—of—disappointed. And did you notice just as soon as she went away, all the eyes beat it and went into the dance again. I don't think anyone wants to be mean to her. Say, Hassen, Dodo, let's take her home in my car?"

But they couldn't find her anywhere, and finally they had to go without her. For up where the roof garden ought to have been, Richard Bardwell was saying, "Do you know Persis, I think it would be a lot easier for you to chaperone if you were the wife of the principal?"

Persis gazed at him with adoration. "So I wouldn't have to go round the halls?"

"Mhm. And other reasons!"
And just as outside Jimmy finally spun the motor, and the car rolled noisily away, Persis Wilton, chaperone, was answering the Call to Arms.

8c COTTON

Although for weeks there were articles written in the leading daily and weekly papers about cotton reduction, and although thousands of dollars worth of literature was printed and distributed by the government along the same lines; although local bankers and business men took time off from their business to see personally cotton raisers in their towns and counties, a survey made recently appears to show that there will be no reduction worth mentioning in the cotton areas of the South. There can only be one result from such action as this. Unless Providence intervenes and reduces the coming cotton crop by storm, rain and pest, there will certainly be squally times ahead for the cotton grower. If the entire South averages in proportion to acreage planted anything like a normal crop this year the farmers will do well to get 8c a pound for their best staple. According to their statements for the past few years, they cannot come out, even on 10c cotton. Taking this as a basis for argument, it looks very much like the cotton states are doomed for some more financial disappointment this coming fall and winter. Cotton raising and marketing is like any other crop—the law of supply and demand governs it. Today more cotton is being raised in Europe than ever before. With every pound produced there the export cotton trade of America is reduced that much. When it gets to the point in the United States that this country must use all the cotton grown here it will mean a huge surplus unless there is a terrific cotton reduction. There are not factories enough in America to use more than 45 or 50 per cent of the staple raised here. There are not enough users of cotton goods in America to consume that much of the crop. So, if the cotton growers must increase rather than decrease their crop, nothing can be looked for but a low selling price. There is no sentiment attached to this proposition. There is nothing of a personal liking or disliking of any individual or set of cotton growers—the world's setting the price by the demand for the staple. It will be too bad for the South if another year's business must be done on the basis of a loss. But with a full cotton crop it would look like this will be the case.—Paducah Post.

KILL THE CHAIN LETTER

Chain letters are again rampant. So long as this world produces a single nut in a generation, a chain letter will be written. So long as it produces a million nuts, the chain letter will prosper.

Quite recently a statistician figured that if the claims made in a chain letter were correct, 2,816,052,982,534,581,690,712,734,345,580 copies of the letter had been mailed. Figure the millions, billions and trillions of dollars in postage this would mean, and learn once and for all that the chain letter is a delusion and a snare.

Anyone superstitious enough to believe that the writing or destroying of a chain letter of any kind has any bearing upon his future is surely entitled to a celluloid medal bearing the words, "The World's Prize Boob."—Progressive Farmer.

GARDEN BRINGS HEALTH

Huntsville.—A half acre garden has reduced doctor bills from "hundreds of dollars to \$11 last year," in the family of Mrs. J. H. Neiderhofer of the Pine Valley Home Demonstration Club in Walker county. With 700 containers of home grown fruits, vegetables and meats on her pantry shelf, she has been able to serve well balanced meals in short order, and the saving in grocery bills and health is "nestimable," she says.

"Nothing goes to waste," Mrs. Neiderhofer states, "and what isn't canned goes to market. With the help of three of my girls who are I-H club members, I am carrying demonstrations in the 4-H pantry, poultry flock management and living room improvement. My 112 laying hens made me a net profit in a recent month of \$35.70 after paying the feed bills."

A negro cook answered the telephone the other morning, and a cheerful voice inquired: "What number is this?"
The cook, in no mood for trifling questions, said with some asperity: "You-all ought to know. You done called it."

CHEVROLET'S New Service Policy wins nationwide approval

On January 1st of this year, the Chevrolet Motor Company announced a new service policy—the most liberal ever offered in connection with a low-priced automobile.

Immediately it was greeted with enthusiasm by Chevrolet buyers everywhere—because its many unusual features materially add to the economy and lasting satisfaction of Chevrolet ownership. Briefly, it provides—

—for free inspection and adjustment at the 500-mile mark, and free inspections every 1000 miles thereafter.

—for free replacement of any

material—including both parts and labor—that may prove defective, within the terms of the standard warranty—that this replacement will be carried out by any Chevrolet dealer in the United States—regardless of where the owner may have traveled during the warranty period.

Backing this policy is one of the largest service organizations in the automotive industry—consisting of over 10,000

authorized Chevrolet dealer service stations in the United States alone. Come in! Learn all the other reasons why it's wise to choose a Chevrolet Six!

BERT WELLS MAY PRODUCE "DRY ICE"

Best spaces of the West may be more than the dwelling place of the man who makes an ice cream, and may produce "dry ice" from carbon dioxide wells, which is a refrigerating efficiency twice that of water ice, the Interior department announced.

Two wells in western Colorado and eastern Utah produce carbon dioxide gas, which is the same product that causes the fizz in carbonated water. It has been found that a pressure of 1,100 pounds to the square inch will turn this gas into a liquid, which if released in a spray, will form a snow. This snow may be compressed and used like ice. As it changes from the solid form it passes directly to the gaseous form, and absorbs heat from surrounding space. It takes up nearly twice as much heat, pound for pound, as does water ice, transforms more slowly than water ice and is more satisfactory for shipping purposes.

Youngster Scored One on Older Generation

A sixteen-year-old youth, oldest of a family of three boys, was being cautioned by his parents on the dangers of fast and reckless operation of automobiles. He was told that it would be only a matter of a few months until he would be entrusted with the family car and that he would have to demonstrate his responsibility.

"There can be no forty and fifty-mile-an-hour driving in town," he was admonished by the father.

"You know," followed his mother, "that when I was a girl and your father was a boy, all we had was a horse and buggy and the best speed we ever made was only ten or twelve miles an hour."

"Yes, mother," chimed the irrepressible youth, "but don't forget that you went as fast as you could."

Most Northern Church

The world's northernmost church will be erected during the summer at Cape York, native settlement on the northwestern tip of Greenland. It has been announced in Copenhagen. The original fund for the construction of a church building was established two years ago through the sale of several fur skins which brought a total of \$1,000. Additional contributions from the native parishioners and public spirited Danes have increased the amount materially and the so-called "The committee, headed by the great explorer, Dr. Knud Rasmussen, has agreed to erect a parsonage out of its own funds. Cape York is situated on the western point of Hayes peninsula at 77 degrees north latitude, approximately 900 miles from the North pole.

Cherry Words

John D. Rockefeller, Jr., commented on his recent gift of \$2,000,000 to the University of Paris, modestly changed the subject by means of an anecdote.

"The French are a wonderful people," he said. "Consider how gallant they were in 1914, all our French waiters and cooks and chauffeurs sailed off from New York to die."

"Louis Sherry had an excellent entree cook, Raoul Roux. Well, when Raoul left, his last cherry words were: "Good-by, Monsieur Louis, I'm off to make sorties instead of entrees."

Fate's Little Joke

For thirty years Edward Lane, Palo Alto (Calif.) carpenter, left his tools unhooked, despite repeated warnings from Mrs. Lane that they would be stolen. One night he told his wife: "Well, for once my tools are safe, I hooked them up in the garage I finished today." The next morning the tools were missing, taken by a thief who looted the garage during the night.

Angler's Odd "Catch"

While fishing in a tributary stream of the river, Charles Grant of Hedding, Calif., had the surprise of his life when he hooked a deer instead of a trout. On an overcast into a pool he found a yearling buck on his line, hooked in the ear. The little buck was in the brush behind him. The frightened animal was released by Grant and went scampering over the hills.

Speed Toys in Europe

Children in Europe are demanding speed in their toys. Six-year-old Mario Costello recently appeared on the streets of Paris on his motor-driven motorcycle. Three-year-old Warner Kimmell, son of a famous German auto maker, has his own electric racing car. And Alfredo Bonifatti, aged four, drives through the streets of Rome on a day, but speedy, motor cycle.

Kept on Edge

Aunt Maria—And now that you're married, I suppose you're glad to be lulled forever with shorthand and typewriting.

New Bride—No, I get lots of practice. Why, Henry talks a hundred and fifty words a minute in his sleep!

Not for Them

Phil Tramp—Say, pard, do you think airship passenger service will ever become practical?

Samuel Tramp—No; I don't see how anybody like us will be able to hang on to Philadelphia Bulletin.

Ready With an Explanation

Grandpa—What are these hairpins in the car?

Suppose the chauffeur sneaks them in occasionally.

THE SPIRIT OF OUR PEOPLE

Every city, town, village and hamlet, as well as every person, longs to achieve.

Some communities are blessed with attainments in art, music, the drama, and with great institutions of learning. Others point with pride to a highly developed industrial and commercial system. Many stress the beauties and wonders of natural resources or majestic scenery. Climate and living conditions have been featured in community advertising.

But there is one thing all may possess in common. It is the possibility that any community may distinguish itself. That possibility is the spirit of the people, or what is called community spirit.

The "kingdom" is within us. Now is the time for a greater sense of responsibility and more reason for co-operation in the general welfare. There is little need to wish for more industries, more trade and more population unless all of us work together in common purposes to gain commonly desired objectives.

The hope for too quick a result is not practical. But the most reassuring fact is that in whatever degree our people co-operate in the public interest the community will proportionately move forward; and in whatever degree the spirit of our people fails, ground will be lost.—Exchange.

KEEPING MONEY AT HOME

The government estimates that 85% of the money that is spent in a community for labor remains at home. Labor puts it at 87%. This means that for every dollar spent for carpenter work, plumbing, plastering, painting, printing, manufacturing, etc., 85 to 87% turns back into channels of trade in the community where the labor is performed. If the workman lives in the community.

If such an estimate is correct, it is a strong argument for the employment of men who live in the community instead of importing men from outside.

Conductor—"Next station is Long Wait Junction. Change cars for Mauch Chunk, Squeedunk, Quakake and Podunk, Hokendaqua, Catasaqua, Mecanaqua and Tamaqua."

Green Brakeman (at other end of car)—"Same as this end."—Pathfinder. Teacher—"John led the cow home. What mood, Jimmy?" Jimmy—"The cow."

IN SALOON DAYS

"The back rooms of 445 saloons in Chicago contribute to the delinquency of more than 14,000 girls every 24 hours."—Chicago Tribune, February 25, 1914.

"The average consumption of beer for every man, woman and child in Chicago in 1906 was 2 1/2 barrels, the average for spirituous liquors was 4 gallons."—"The City of Chicago," in McClure's, April, 1907.

Andrews—"Suzan, tell the class about Lindbergh's great feat."

Suzan—"I never saw them, but I can tell about Charlie Chaplin's."

"Husbands is easy led astray, an if I was a girl I wouldn't trust none of 'em with other women unless he had religion or a bald head."—Aunt Het.

Beggar—"I can't, mum. It's full of sandwiches."

UNCLE EBEN

"Look on de bright side," said Uncle Eben. "Even a fortune teller don't expect special pay for bringing de bad news."—Washington Star.

Ada (admiring new fur coat, a gift of her father)—"And to think, this beautiful fur comes from a small, sneaking little beast."

Father—"I don't ask for thanks, but I insist upon respect."

SPEAKEASIES NO NEW THING

Senator Brookhart reminded a prohibition critic that when Chicago had 7,000 licensed saloons it had 14,000 speakeasies.

FIGHTING AGAIN

"I hear they're starting a new campaign against malaria."

"Good heavens! What have the Malarians dne now?"

BOOMS

Community revival is not necessarily dependent upon the wholesale selling of lots.

A town can boom when there is shown a more co-operative spirit to boost all things and hold fast that which is good.

A town can boom when its forces of education, culture and morality bear fruit in well-doing.

A town can boom when business is placed on a fair level of competition, when greater service is rendered, and a more thorough method is used to establish growing patronage.

A town can boom when there are more get-together meetings, more neighborliness and more genuine friendship backed up by deeds as well as words.

A town can boom when it takes on a cleaner aspect; when paint, soap, broom and mop are applied to its physical properties and a cleansing of the hearts of its people takes place as well.

A town can boom when orderly society is recognized, and when greater opportunities are given to its people in the enjoyment of their material and spiritual blessings; when its institutions are supported by its own people who are consciously active to prove their loyalty.

The Westmoreland brothers, Linotype operators on the Little Rock (Ark) Daily Gazette, called at the News office Tuesday, enroute to California, and expressed surprise at finding a new model 14 machine in a town of this size. The Gazette has 15 of the same model machines.

Terry county commissioners had their regular quarterly treasurer's report published last week. Slowly the different boards over the country are coming to obey the law in such matters. Taxpayers have a right to know how their money is being spent, and the law was made for that purpose.

A man was talking to the editor one day this week and remarked that he seldom reads the advertisements, yet he always notices when a merchant's advertisement is missing from The News. He said the catch lines and signatures always make an impression, regardless of not reading the entire ad; however, he admitted that his wife reads the advertisements each week.

A printing peddler was in our office one day last week, and in discussing business, paid a handsome compliment to several merchants when he said that he did not call on them for the reason that he had been told that they believe in trading at home. "And you know they are exactly right," said the peddler. "I respect that kind of business man and do not bother him when I am in town." Nobody knows the importance of trading at home like the modern business man, and when all learn the lesson, hard times will not exist for home folks.

FOOD SUPPLY WORK OF CLUB-WOMEN

By Miss Myrtle Miller

Food supply work was the choice of Gray county home demonstration women from March until November. The first county-wide demonstration was meat canning in March, followed by a study of essentials that should be the foundation of daily eating, namely: A quart of milk, a serving of butter, a whole cereal, a leafy or green vegetable three times a week, a starchy vegetable, a succulent vegetable, two servings of fruit, preferably one raw; oranges, grapefruit, lemons or tomatoes three times a week, a meat or meat substitute.

The above is given by Dr. Jessie Whitacre, director of rural home research, Texas Agricultural Experiment Station, at College Station. The provision and serving of food essentials as outlined by Dr. Whitacre is called a 4-H pantry demonstration. Each home demonstration group has a 4-H pantry demonstrator and members carrying on the same demonstration, whole or in part, are called co-operators. A part of the demonstration is a six months canning budget to insure an adequate supply of the essentials during the winter.

Mrs. S. L. Montgomery, demonstrator of the McLean club, has the largest canning budget planned thus far in the county. Demonstrators are as follows: Mrs. S. L. Montgomery, McLean; Mrs. J. T. Blakney, Alanreed; Mrs. P. B. Fagles, Bluebonnet (southwest part of county); Mrs. S. C. Jones, Grandview. Helping hands: Laketon, Mrs. Chas. Telley, Wayside, Mrs. E. F. Hudgel. Co-operators are: McLean, Mesdames Seena Johnston, W. W. Wilson, S. W. ... Rish Phillips, Saunders, John B. Vanooy and R. B. McDougald; Alanreed, Mesdames W. A. Chass, W. H. Davis, S. B. Kiser, Hoyt Kiser, L. S. Prock, W. B. Stapp,

G. C. Prock and Ollie Elliott; Bluebonnet, Mesdames Gus Davis, Ed Wagner and S. C. Drake; Grandview, Mesdames Guy Andis, R. B. Elder, H. G. McClesky, R. I. Davis and Jess Ritter; helping hands, Mesdames Leo Paris, John R. White, Clyde Beebe and Herman Jones.

The county home demonstration meets Saturday at 2 o'clock at the office of the agent in Pampa.

HOME DEMONSTRATION CLUB

By Reporter

The McLean Home Demonstration Club will meet with Mrs. S. L. Montgomery at her ranch home Friday, June 6, for an all day meeting. The following program has been planned: Roll Call—A Vegetable That I Learned to Like—How?

Demonstration, Canning of English peas by water bath and pressure cooker method—Home demonstration agent.

Arrangement of Recipe File—Mrs. S. L. Montgomery.

Pot luck dinner.

Demonstration, Household linens: a. materials; b. mitering of corners; c. stitches—Demonstration agent.

4-H Pantry demonstration, sheets, towels—Demonstration agent.

All women bring materials for demonstrations—linen, Indian head or gunny sack; white thread Nos. 20 and 50, coarse and fine needles, thimble, scissors and tape.

Miss Myrtle Miller, county home

demonstration agent, will be present. Let every member strive to make the day a profitable one as well as a day of pleasure.

GRAVES INDICTMENT QUASHED

A defense motion to quash an indictment returned by the grand jury against Sheriff Graves, alleging conversion of bond money, was granted in district court Monday morning, state's attorneys acquiescing in the motion.

Russ Bartlett, prosecuting witness, was not found until Monday evening when he appeared at the sheriff's office, where he was told that he would be called before Judge Ewing at the next term of court to explain why a \$300 fine should not be assessed against him for failure to appear in court after being served with a summons.

Mrs. Wm. Blaisdell has returned from an extended visit at Wheeling, W. Va.

EDNEY DAIRY IMPROVES

N. B. Edney has an advertisement in this issue of The News announcing the production of grade "A" milk, with the figures given in the official test.

Mr. Edney has added the equipment necessary under the terms of the city ordinance and is prepared to furnish his customers with grade "A" milk and cream.

McLean now has two dairies that have met the terms of the sanitary ordinance, and it is understood that others will be in the near future.

Miss Lucile Harlan has entered a business college at Lubbock, where she is taking a secretarial course.

To the BUYERS of GOOD Furniture
\$
The tendency of modern furniture manufacturers is to build merchandise cheaper than their competitors can. The result is the market is flooded with furniture that is built so flimsy and cheap that it has no appeal except price. Our policy is and always has been to place quality above price.
In buying, we are very cautious to buy only from manufacturers who have a national reputation. You will find on our floors standard advertised makes that are sure to satisfy.

McLEAN LOSES TO SHAMROCK 10 TO 2

The McLean baseball team crossed bats with the Shamrock team at Shamrock Sunday and lost with a score of 10 to 2.

On account of failure to have the high school athletic field ready, the game was played in a cotton field north of highway 4, which is claimed accounts for the outcome of the game.

Next Sunday's game will be played at Amarillo.

A BIRTHDAY PARTY

Mrs. Roy Campbell entertained a number of youngsters Monday afternoon with a party, the occasion being the fourth birthday of her daughter, Jo Ann.

McLEAN RED CROSS QUOTA RAISED

By M. D. Bentley, Local Chm.
 When the recent severe storms swept Central Texas, taking a toll of near one hundred lives and more than a million dollars of property, the National Red Cross called upon McLean for \$100, which has been collected and forwarded to the St. Louis headquarters.

I wish to congratulate our citizens for their splendid co-operation in this collection.

Special credit is due Mrs. Lonsdale for her splendid efforts in raising the funds.

CHURCH BULLETIN PRINTED

Pastor Goff of the First Baptist church has contracted with The News to publish a weekly church bulletin, containing regular church announcements and financed by advertisements from local business men. Rev. Goff says he believes in patronizing the home paper in all church printing, and the advertising rate was made just enough to pay for the bulletin, with no profit above the actual cost.

According to the first number of the bulletin, Dr. H. E. Dana, instructor of New Testament interpretation at the Southwestern Baptist Theological Seminary, will hold the revival meeting for the local church this summer, beginning August 10.

Miss Marie Browning has returned from Canyon, where she attended W. T. S. T. C.

A HAIR CUT

Miss—"Did you get a haircut lately?"
He—"Yes."
Miss—"Why didn't you have them all cut?"

Texas is drained by 3,680 rivers, bayous and creeks, including only creeks of sufficient importance to carry a name. The runoff into the Gulf of Mexico is estimated at 33,000,000 acre-feet annually. Mileage of the 3,680 streams is estimated by the State Board of Water Engineers at 125,000 miles.

With due solemnity, a New Jersey court issued an injunction restraining a jilted lover from committing suicide on the doorstep of his lady fair, as he had threatened to do. Now, if he goes and does it he will be liable for contempt of court.

Texas produces one-third of the cotton seed products in the United States and contributes 45% of exports in those commodities.

Texas is among the leading ten salt-producing states in the Union. Nearly all the production is from Grand Saline and Palestine.

"I refused you a loan on Sunday, and now you are asking again for one."

"Yes, I wanted to show you there was no ill-feeling."

Teacher—"Why do you insist on spelling bank with a capital 'B'?"
Johnny—"Well, pa said a bank was no good unless it had a big capital."

Frigidaire

The FRIGIDAIRE mechanism is inside the cabinet at the bottom where the outside air is coolest... One reason for its lower operating cost.

because the unit is in the bottom, the food shelves are elevated.... this eliminates stooping... and the top is flat, clean and usable

this is ONE reason why

3 times

as many Frigidaires are now in use as any other make of electric refrigerator.

Frigidaire is sold with a definite guarantee, backed by General Motors.

And still more important to you as a purchaser is the fact that year after year Frigidaire continues to give satisfaction—long after the guarantee has expired.

If service should be required it is rendered instantly and without removing the machine from the premises.

Good Citizens

F. H. BOURLAND, vice president of the AMERICAN National Bank, was in PASSING the time of day YESTERDAY and finally he HEAVED a sigh and said HE guessed it takes all KINDS of people to make a TOWN, and when we asked HIM what he meant by THAT he said there are SOME men who waste a LOT of time feeling sorry for themselves and THEN there are others WHO are so mean they WON'T even let their wives HAVE the last word; and we TOLD him we guessed he was RIGHT, but on the other HAND there are lots of MEN in McLean WHO have the good sense to BE contented with their LOT and let their wives DO most of the talking AND who also come in HERE quite regularly to BUY a cigar, AND in our opinion a FEW of those will outweigh A LOT of the other kind.

Moral: It marks you as a man of good judgment when you buy cigars here, because we handle only standard brands.
