Federal court earlier dismissed the suit. Third Court of Civil Appeals upheld a lower court decision that a Houston bus company must get a Railroad Commission certificate for space center tours and other routes outside the city. All three judges wrote their own opinions, one dissenting. ATTORNEY GENERAL RULES Fraternal and veterans organizations do not have to collect sales tax on mixed drinks served to members, Atty Gen. Crawford Martin ruled in a new opinion.

Martin also said that a new law requiring free kindergarten programs during the 1970's did not allow for all "practical problems" and may need adjustments. CAR INSPECTION DEADLINE April 15 is the deadline for motor vehicle inspectors. Texas adopted the annual inspection program September 1. Vehicles inspected in January will bear stickers with "No. 1" and won't be up for reinspection before January, 1971. All cars which still have old stickers on the right side of the windshield have not been reinspected in compliance with the new law, and owners have until April 15 to visit an approved inspection station.

The Texas Department of Public Safety is seeking applicants to fill the ranks of its uniform services. The training schools for cadet patrolmen will begin February 10, March 17 and May 5. Successful applicants will be given a agility test, a character investigation and a physical examination. Those accepted for employment will be notified prior to the beginning date of the next training school. TRAINING Cadet patrolmen will be assigned to the Texas Department of Public Safety Law Enforcement Academy in Austin, Texas for a 17-week training period. The cadet will receive some 800 hours of intensive classroom work and supervised study. The training is designed to equip the cadet to handle any of the various situations he may encounter as a patrolman. The training of a patrolman is a test of an individual's intellectual, emotional and physical stamina. It is also an educational process which prepares him for a rewarding career in law enforcement. In addition to classroom work the cadet is taught self-protection by means of judo, boxing, wrestling, and other police-protection methods. The salary during training is \$525 per month. Room and board while at the academy will cost the cadet approximately \$50 per month. BENEFITS Upon being commissioned a patrolman, the salary is automatically raised to \$630 per month. Doctor Herefords Has Champion Bull At Arizona Show

Phoenix, famous for its friendly hospitality and sunny weather, provided an ideal setting for the first Hereford Register of Merit competition staged in the 70's, held in conjunction with the Arizona National Livestock Show. Forty-five exhibitors, representing Arizona, California, Colorado, Nebraska, New Mexico, Oklahoma, Texas, Utah, and Wyoming, competed in the event; and Judge Odell Gelvin, manager of Ogechee Farms, Fairland, Oklahoma, distributed awards widely. Four herds shared championships, and eight won class blue ribbons. Texas herds won three of the championships, including champion bull, captured by Doctor Herefords, McLean. The winner, DR Image, owned by F. Jake Hess, headed the two-year-old class. Another Texas firm, 07 Ranch, Bronco, showed a junior yearling, 07 Hunter 905, to the reserve title.

1969 Federal Tax Now Available From IRS

A 160-page booklet on how to fill out your Federal income tax return is now available at most Internal Revenue Service offices throughout Texas, according to Ellis Campbell, District Director of Internal Revenue. The booklet, "Your Federal Income Tax," Publication 17, contains many examples to illustrate how the laws apply to actual situations. A special feature of the booklet is the sample, filled-in return, Form 1040, keyed to pages in the booklet where explanations can be found for the entries on the return. The material, written in laymen's language, is especially helpful to taxpayers who have unusual tax situations or new tax problems, Mr. Campbell said. Examples of taxable and non-taxable deductions are included. A detailed index helps taxpayers find the answers to their tax problems. The booklet may also be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, at 60 cents a copy. Those attending funeral services for Mrs. Ivona Mae Morris at Mobeetie Friday were Mr. and Mrs. A. W. Hill, Mr. and Mrs. A. E. Carpenter, Mr. and Mrs. Pete Brown, Mrs. Ben Brown and Mrs. Luther Petty.

McLean's Number Of Telephone Growing

Southwest Bell Manager G. H. Newberry reported that the number of telephones in McLean grew to more than 1,075 during 1969. He noted this figure compares with 788 telephones here at the end of 1960. "McLean residents also seem pretty talkative," Newberry said. "They dialed 3,192 calls per average business day during November." Newberry said a record \$99 million construction budget has been set by Southwest Bell for its San Antonio Area, of which McLean is a part. The area covers roughly the western half of Texas. The \$99 million figure is for land, buildings, central office equipment and outside plant such as cable installation.

Texas Dept. Of Public Safety Appeals For Help

The Texas Department of Public Safety today issued a special public appeal for any kind of information which might lead to the apprehension of a hit-and-run driver whose car struck and killed a young highway patrolman on US 80 east of Weatherford, Parker County, at 2:43 a. m. Sunday, December 7. Patrolman Douglas Thompson, 26, married and the father of a five-year-old son, was killed by the hit-and-run car while standing at the side of the road interviewing a traffic violator. The car sped on at a high rate of speed after the impact without any sign of hesitation. Specifically, the DPS is seeking information that might help locate the killer car which has been identified as a white, 1960 model Ford "Fairlane" or "Fairlane 500" four door with damage to the front right side. The damage included the loss of the right front fender ornament, a long with a 43-inch long chrome strip from the right front door. Also found at the scene were the first two letters-"Fa" which had been knocked off the "Fairlane" emblem on the side of the right front fender. The DPS called upon any citizen who might have information he thinks would be helpful in this case to contact either of the following: Bob Andrews, Texas Highway Patrol, Box 329, Weatherford, Texas, 76086--Telephone: Area code 817, 594-6936, or Tom Arnold, Texas Range, 300 West Balknap, Fort Worth, 76102--Tie 76102--Telephone: Area Code 817, 336-9541, or The nearest office of the Highway Patrol or Texas Rangers, which is listed under "Texas Department of Public Safety" in the telephone book.

Cubs Participated In Wheeler Tournament

By Cherylan Holmes The Cubs journeyed to Wheeler, Monday, January 19th, to take on the Briscoe Broncos. The Cubs were victorious. Considering the style of the Cubettes it appeared it would be a repeat performance of the preceding games, as the Cubettes ended the quarter 13 to 2. In the 2nd quarter a grave change occurred as the Broncoettes went ahead for a 26 to 13 lead. Although the Cubettes made a strong comeback, in the last quarter they were unable to over power the Broncoettes. The Cubs held a 7 point margin throughout the first half, but in the third quarter they came on strong to secure twice that of the Broncoes. The Cubs continued scoring for the remainder of the half for a large margin victory. Future competition for the Cubs is set for this coming Saturday at 1:30 and a bout with Wheeler for the Cubs on Friday at 8:30.

LOOKIN' BACK

by Vera Featherston Back

Wheeler school children were our visitors last week, and very nice and interested visitors they were, too. Today (Thursday) I understand we are to have a group of students from the Shamrock Schools. Our thanks go to Mrs. Joe Taylor who was responsible for our young visitors.

Another of our friends of the museum was buried Friday. Mrs. Mae Morris loved the memories of the past as well as her present day neighbors, relatives, and friends. We'll miss her visits to the museum, but some of her relics will be there to remind us. In fact, it was her idea that we purchase the 1902 Sears Catalog, and it has really been a popular book since.

Sunday is the regular meeting of the Alfreed-McLean Historical Society. We are planning open house from 1:30 until 5:00 p. m. Visitors from Amarillo and Pampa are expected and we hope our local people will come as they usually do. The speaker of the day will be Charles Woodburn, Chairman of the State Historical Survey Committee. Folding chairs will be brought in so that you will have a place to sit, so come along and forget the cold spell. Hear that George Saunders may open the program with some more of that old community singing which has been so popular in the past.

A letter of encouragement from the grandson, Wayne Woods and his wife Jean from Seattle came this week. They read "lookin' Back" and week before

16 Rural Accidents In Gray County During December

The Texas Highway Patrol investigated 16 accidents on rural highways in Gray County during the month of December, according to Sergeant J. L. Dalrymple, Highway Patrol supervisor of area.

These crashes resulted in two persons killed, 16 persons injured and an estimated property damage of \$19,140.00.

The rural accident summary for this county during the calendar year of 1969 shows a total of 207 crashes resulting in nine persons killed, 137 persons injured, and an estimated property damage of \$185,941.00.

What will the decade of the 1970's be traffic fatality wise in Texas? Here are some facts that could give you an idea. There were 25,000 persons killed during the 1960's. If the past and present trend continues the 1970's will be another record decade.

The sergeant reminded all motor vehicle owners that still have their inspection stickers on the lower right-hand side of their windshields that April 15 is the deadline for having the new stickers placed on the lower left-hand side of their windshields. Only about 16 percent of the registered vehicles in this county have been inspected.

last week they thoroughly enjoyed the business vocabulary printed next to it. In fact, that is their every day language as they fulfill their obligation at Boeings.

Sorry I Missed Keith Myatt and his family from Beaumont, Texas over the weekend. Seems like every time I leave town somebody comes that I used to know and hate to miss seeing. Come again, Keith, and perhaps I'll be there, incidentally, hope Mrs. Myatt liked where we put her Russian samovar - in the parlor - and isn't it a beautiful thing!

See you Sunday at the museum.

LETTERS TO THE EDITOR

Dear Mr. Editor,
While thinking of our youth and of some of the demonstrations that are taking place around our land today and to look about us at the way some young people are dressing I feel we are the luckiest people around, we of McLean have a good bunch of Red-Blooded American kids and I know we can keep it this way with the right leadership and I feel we have some of the best right here in our town and school system. We are most fortunate to have a man in our McLean Jr. High that has our kids at heart. He is willing to give his Saturdays so the kids can go to the gym and play. How many would do this especially when its for someone else's kids. I feel with men around like this our young people have so much to be grateful for and as a parent I am especially thankful for such a teacher of our students. I felt like all the people of McLean should know of what this man is doing for our young people.

I would like to say thank you from the bottom of our hearts, Coach Bell, You're tops with all of us and I'm sure the rest of McLean join is with us. We hope you'll be around a long time. Thanks for what you are doing for our young people. We're thankful for you and for what you're doing.

A country can't live on love alone.

There are a lot of things a man can do for his country. Including saying his piece, pro or con.

And talk is an important part of what makes a democracy like ours work.

But in the final analysis, talk is cheap. Personal involvement accomplishes a lot more.

Putting part of your savings to work for America is a step in that direction. To provide some of the economic strength it takes to make the whole system run.

That's one reason why Savings Bonds mean a lot.

They help to pay part of the cost of running a country where you're free to speak your mind.

And they help you at the same time. With interest and security.

So next time you have something to say about America, let your Bond purchases do part of the talking.

Panhandle Quodad Sheep Harvest Total 36 For Year

Aoudad sheep hunters in the Palo Duro Canyon area of the Texas Panhandle needed more than skill and marksmanship this year during the five-day season ending January 7. They harvested 36 sheep, 28 rams and eight ewes in weather ranging from five degrees below zero to a high of 31 degrees above.

Dick DeArment, project leader for the Texas Parks and Wildlife Department, said landowners received 125 aoudad permits, about half of which were issued to hunters, but icy weather and winds up to 30 miles per hour chilled the enthusiasm of some. Snow on the third day of the hunt added to the general discontent.

One Briscoe County hunter came out with a true trophy for the wall, a big ram with a horn measurement of 30 7/8 inches, a base circumference of 17 3/4 inches, and a field-dressed weight of 202 pounds. Six sheep were taken in Randall county, 13 in Briscoe County, and Armstrong County had a kill of 17 animals.

Aoudad sheep, originally from the Atlas Mountains of Africa, aren't the easiest animals to hunt. Hunters saw a total of 225 head, and those who were successful this year averaged 7.9 hours in the field each. A party of three men from Baton Rouge, Louisiana, hunted from sunrise to sunset each of the five days and went home empty-handed. They said they intended to return next year. Each hunter who bagged a sheep averaged 2.9 shots.

Miles mean little in today's hunting. A sheep hunter came 1,600 airline miles from Stamford, Connecticut, and another joined the hunt after flying in from Coral Gables, Florida. A few women also participated in the hunt this year.

Aoudads are big animals who prefer the roughest of canyon habitat they can find, and one big ram fell 300 feet from the top of a canyon rim, lodged 150 feet from the bottom of the deepcut, and had to be brought out in quarters.

Biologists estimate the total Palo Duro sheep population at about 600, all offspring from the original 44 stocked by the Department in 1957.

negotiable instrument for banking purposes, it will be accepted by the IRS. The IRS said, however, that if a check or similar instrument is not honored by the bank on which it is drawn, the taxpayer may be subject to penalties.

The tax laws provide a penalty of one percent of the amount of any dishonored check and a minimum penalty of \$5.00. This is in addition to other penalties and interest for non-payment of taxes.

Gray Co. Extension Service To Have Home Study Course

There will be a Home Study Course conducted by the County Extension Service office on "Making a House a Home," reports Jimmie Lou Wainscott and Jeni D. Finch, Gray County home demonstration agents.

This study course will have material for six different lessons that will have lessons on what makes your home liveable, how much you can spend for housing, shopping for a house loan, dollar costs of buying, renting or remodeling, and the final closing.

Anyone who is interested in learning more will need to contact Miss Wainscott or Miss Finch so they may send an enrollment sheet. The course will cost one dollar to cover the cost of reference materials and postage. The deadline for enrollment is February 2, 1970.

April 15 Is Deadline For Inspection Stickers

"With approximately three months left until the April 15 deadline for obtaining inspection stickers, only 25 per cent of the registered vehicles in Gray County have been inspected," stated Major C. W. Bell, Regional Commander for the Texas Department of Public Safety.

"This will be the last year for an April 15 deadline as the Texas Motor Vehicle Inspector Program has gone to a year-round inspection program. The new stickers will display the number of the month in which the vehicle was inspected and will be valid through that month of the following year," added Major Bell.

Two items have been added to the inspection list - the exhaust system and the exhaust emission system. A car must now have a muffler and it must be free from leaks. All cars manufactured in 1968 or later coming from the factory equipped with the emission system (commonly known as the smog device), still must have the device connected and in working order.

IRS Will Not Accept Credit Cards

The Internal Revenue Service announced today that it has not entered into any arrangements with banks or others or the payment of taxes by credit card or through any other credit means. The IRS said it will not accept credit cards and that any credit arrangement for the payment of federal taxes is strictly between the taxpayer and his bank or other credit company.

On the other hand, if a check or other document issued by a taxpayer in payment of taxes is acceptable by the Federal Reserve District concerned as a

Farmers Subject To Self-Employment Tax

Texas farmers are subject to self-employment tax for 1969 if their farm income is \$400 or more. The self-employment tax rate is 6.9 percent with a maximum of \$538.20, and is in addition to income tax.

A self-employed farmer is one who operates his own business or farm. A farmer is also considered self-employed if he employs others to operate or work his farm even though he does not live on it himself.

A farmer must file a Federal Income Tax return and pay the self-employment tax due if his net earnings from self-employment are \$400 or more, even if his gross income is less than \$600 and he owes no income tax. The self-employment tax applies to a maximum of \$7800. But his figure is reduced by any wages from which Social Security taxes are withheld. A special optional provision in the law enables farmers to acquire Social Security credits even if they have a loss after after expenses are deducted. "Farm" as used in the Federal tax law relating to Social Security and self-employment taxes, included stock, dairy, poultry, fruit, fur bearing animals, and truck farms, and also plantations, ranches and nurseries. "Farmer's Tax Guide," IRS Publication 225, furnishes detailed information on subject. The booklet is available without charge by mail on a post card to your county assessor or Supply, Internal Revenue Service, P. O. Box 1738, Dallas, Texas 75221.
