VFW To Have Chili Supper

The McLean V.F.W. Post will have an awards night May 20 at the Post home at 7:30 p.m.

The Post strongly urges all members and their guests to be present. A chili supper will be served to show appreciation to the recipients of these awards.

Why Have A Blood Drive?

The practice of paying cash to people for their blood has been stopped in this country. It has been shown that blood which is given by a volunteer donor is safer and more usable than blood which is given by someone who is motivated by a cash payment. So the civic minded citizens among us must step forward and support our community blood program to ensure that fresh and safe blood will always be there in case any of us should need it. Remember, your one pint of blood could very easily determine whether someone lives or dies. Give your blood in McLean on May 29th in the Casper Smith Building.

George Patterson, Resident's Brother Dies At Wellington

The funeral for George F. Patterson, 57, of Wellington was held at 2 p.m. Monday in the Wellington Assembly of God Church with Rev. Elvis Pitts and Rev. Roy Collins officiating.

Burial was in North Fairview Cemetery by Kelso Funeral Home.

Mr. Patterson, the brother of Pat Guill of McLean, died Friday in Collingsworth County Hospital after an apparent heart attack.

He was born at Elida, N.M., and moved to the Wellington area in 1921. He was a farmer and a Baptist.

He is survived by his widow, Pauline; a daughter, Mrs. Leroy Belew of Westwego, La.; four brothers, Alfred and Billy Joe, both of Wellington; Leon of Shamrock and Johnny of Hereford; two sisters, Mrs. John Guill of McLean and Mrs. Jack Brown of Amarillo; and three grandchildren.

McLean To Have Poppy Sale May 22

"In Flanders Fields the Poppies blow..." So went the immortal words of Col. John McCrae's poem. Little did he realize when he penned those lines that some day the very poppies of which he wrote would be the true symbol of all those who gave their lives in our nation's wars. But that is the case today. Annually, the Veterans of Foreign Wars sponsors the Buddy Poppy Sale in the McLean area to raise money for needy and disabled veterans. This is their way of "Honoring the dead by helping the Living." You, too, can pay your respects on May 22 when the Buddy Poppies will be on sale in this community.

Do your part--buy a Buddy Poppy and wear it proudly.

E. J. Windom Jr. Receives Award

On Friday, May 9, E. J. Windom, Jr., who owns Windom Auto Supply in McLean, received a special "Mystery Shopper" Award from a representative of the Gates Rubber Company, Denver, Colorado.

The award, a special "Silver Dollar" plaque, was presented to Windom for exceptional customer service.

Gates sponsors this nationwide contest every year to reward Automotive Parts Jobbers for maintaining adequate inventories of replacement cooling system parts.

A fleet of Gates "Mystery Shoppers" travel across the country stopping at authorized Gates Jobber outlets. If the Jobber's stock includes certain "Mystery" part numbers, the Jobber is awarded one of two special plaques.

30th Infantry Division Reunion

The 30th Infantry Division Association will hold its 29th annual reunion at the Hilton Inn, Dallas, Texas July 1-3.

Activated in July, 1917 the division was nicknamed "Old Hickory" in honor of General Andrew Jackson. After a distinguished record including breaking the Hindenburg Line in World War I, the division was a National Guard unit until reactivation in September 1940.

During World War II the division gained other nicknames like "Workhorse of the Western Front," and "Roosevelt's SS Troops." At the end of World War II, General S. L. A. Marshall noted author and historian for the European Theater of Operations rated the 30th the number one Infantry Division of the 69 divisions that fought in Europe and said "They were the Best."

Many Texans fought with the 30th Division during both World Wars. For additional information contact Sammie Yarber, P.O. Drawer A, Alvarado, Texas 76009.

Apr. 1 stocks 30% above year earlier, 25% ahead of Apr. 1, 1973 stocks. Frozen potatoes plentiful, with Feb. 28 holdings 13% more than year earlier and 11% above 1972-74 average.

Frozen vegetables plentiful, overall. End-of-Feb. stocks were 16% greater than year earlier and 29% heavier than 1972-74 average. Frozen sweet corn was especially plentiful with holdings 27% above average. Also relatively heavy were green peas, snap beans, and carrots.

Canned green beans plentiful. Cannery stocks Mar. 1 were 66% more than year earlier, 61% above the 1972-74 average. Other canned goods substantially above average included asparagus, sauerkraut, and spinach.

Peanuts plentiful, with end-of-Feb. stocks 16% above year earlier. The 1974 crop was estimated at 6% more than 1973's record output. Walnuts plentiful, due to carryover from record 1973 crop. Almonds plentiful, with 1974 crop estimated at about a third larger than record crops of 1973 and 1971.

GRAINS & LEGUMES — Rice plentiful. Record high Jan. 1 stocks were 32% above year earlier and 28% more than 1972-74 average for the date.

Dry beans, dry peas plentiful. Record high 1974 dry bean crop was 27% ahead of year before, 23% above 1971-73 average. Dry pea output more than doubled 1973's and 36% larger than 1971-73 average.

Wheat continues adequate for food use. Jan 1 stocks exceeded those of year earlier by 19%, but 15% less than latest 3-year average.

Corn adequate for food use. Supplies Jan. 1 were 19% under year earlier, 23% below 1972-74 average.

Storage potatoes plentiful. More than enough for requirements. ADEQUATE — Enough to meet needs. LIGHT — Less than adequate; not enough for normal needs.

FOOD MARKETING ALERT

USDA
Agricultural Marketing Service

As of mid-April, the supply situation in May is expected to look like this . . .

RED MEATS —

Beef plentiful, with output about the same as last May's record and 5% above the 1972-74 average for May. Leaner beef — from cattle fed largely on forage — will account for all the increase. Pork light. Production will be down 15-18% from last year, well under most recent 3-year average, but relatively large beef supplies will take up slack.

POULTRY & EGGS —

Turkey adequate, with seasonally light new-crop marketings 20% under May 1974 and about equal to 1972-74 average. Cold storage holdings May 1 should be below high level of year earlier, but up nearly one-half from 1972-74 average.

Broiler-fryers adequate. May production 7% less than year earlier and 4% under 1972-74 average.

Eggs adequate, with output about 6% under year earlier and 8% less than May 1972-74.

MILK & DAIRY PRODUCTS —

Fluid milk, dairy products plentiful. Milk production is rising seasonally, and supplies of most dairy products should be near seasonal peaks. Feb. butter production rose 31% from a year earlier, and about 7% more than the Feb. average for 1972-74.

Dry milk production in Feb. was 46% greater than in Feb. 1974 and almost 8% above most recent 3-year average for the month. Commercial stocks on hand March 1: dry milk 126% more than the March average for 1972-74; American cheese 43% higher, and butter almost 36% greater.

Terminology used: PLENTIFUL — More than enough for requirements. LIGHT — Less than adequate; not enough for normal needs.

AUSTIN — The Legislature is racing toward its closing date with most of its major assignments unfinished but with reasonable hopes of finishing many of them.

School finance debate began this week in the House, while the Senate Education Committee wrestled with its version of how to help equalize educational opportunity.

When all is said and done, a bill in the \$600 million range seems likely to emerge, with school teachers assured of a starting pay of \$7,600 to \$8,000 a year.

The Senate has passed a bill to establish a three-member statewide utilities regulatory commission, and the action this week switches to the House where a rival measure is pending.

Conference committees will get the job of working out differences between the two houses over both school finance and utilities regulation. Final agreement on a utilities bill is a reasonable expectation.

Two-year budgets have now been drawn by both the Senate Finance and House Appropriations Committees. Both are expected to leave close to \$600 million in unobligated revenues—most of which will go into the schools.

Some expect Comptroller Bob Bullock to revise his income forecasts to show \$677 million in unspent revenues over and above the budget.

REDISTRICTING APPROVED

A prolonged fight over single-member House of Representatives districts has been settled in the House—but with minority groups still unhappy.

The House agreed on an omnibus redistricting measure for Travis, Jefferson, McLennan, Tarrant, Lubbock, Nueces, El Paso, Galveston and Hidalgo counties. Senate approval is still required.

Jefferson, Tarrant and Nueces county spokesmen threatened a challenge in federal court.

PENSIONS SWEETENED

Legislators, with few knowing what they were doing, approved substantial improvements in their retirement benefits.

House amendment, never debated before adoption, altered a state employee and officials' retirement system overhaul to gear elected officers pensions to pay of district judges. That would mean legislators with 30 years' service could get \$18,600 a year in retirement pay, instead of the present \$10,800 maximum.

After newspaper criticism of the undebated action, both House and Senate went back and passed a resolution endorsing their decision and

urging the governor to sign the bill.

PARK BUY URGED

Land Commissioner Bob Armstrong is seeking \$8 million to buy 220,000 acres west of Big Bend National Park for about \$36 an acre.

Armstrong has advised legislative committees the area has mineral production possibilities as well as vast tourist attraction potential.

There are 700,000 acres in Big Bend Park.

COURTS SPEAK

The State Supreme Court reversed itself and concluded in a 6-3 decision that San Marcos has authority to turn down a Lower Colorado River Authority electrical rate hike.

The High Court affirmed a \$358,180 judgment against Ford Motor Company as the result of a defective car which overturned near Waco, seriously injuring the owner.

In still another case, the Supreme Court agreed to dismiss a motion to review a \$25 million divorce settlement against F. Lucher Brown at Houston.

A Houston man won reversal of a 15-year sentence for murder because the prosecutor raised questions about his juvenile record.

AG OPINIONS

Allocation provisions of a proposed refinery tax do not violate the constitution, Atty. Gen. John Hill held.

In other recent opinions, Hill concluded:

McLean Students Receive Honors

McLean High School students Dean Trew, Halcyon Back, and Betty Holmes were recently notified that they had been selected to have their biographies published in the 9th annual Edition of Who's Who Among American High School Students, 1974-75. This is a nationally recognized honor, awarded to juniors and seniors who have demonstrated leadership in either academics, athletics, extra-curricular activities, or community service. Also, it is the largest leading published account of student achievement, enjoying wide recognition among educators, government, clergymen, and business executives throughout the country.

In addition to the honor or being recognized in this years program, these students may apply for scholarship grants of \$1,000 sponsored by the ECI Scholarship Foundation.

Delinda Howard Is Top Rodeo Rider

McLean has many talented students and Delinda Howard is in the top caliber of these students. She is sitting in 1st place in the Tri-State High School Rodeo Association in Steer riding. Contestants from Colorado, Oklahoma, and Texas compete from June of one year til the next June in Rodeos collecting points. A first place gets 6 points, 2nd-5, 3rd-4, 4th-3, 5th-2, and 6th-1. The top 15 contestants in each event qualify for the finals that are to be held in June in Dumas.

McLean High School is very proud of Delinda and wish her the best of luck in the finals this year.

History Students Study Exodus

By Maridale Glass

The world history class is presently partaking in the Arab-Israeli war. Actually they are reading Exodus, a book authored by Leon Uris.

It is a story about the Jewish people who fled from the land of Israel.

The book is read aloud in class by Mrs. Linda Haynes. That is all the parts except the sad or squeamish parts that upset the girls.

It has had a great influence on most of the students. So don't be surprised if you hear shalom in place of the casual "hi".

Awards Given At Band Banquet

The Band Banquet was held on Tuesday, May 13, at the country club.

The theme was Bi-centennial. The elementary and junior high band members provided the entertainment. They did dances ranging from the minuet to the locomotion. The minuet was done by George and Martha Washington played by Brad Melton and Sherry Glass, the music was played by Beth Smitherman, the square dance was done by Sherry Swamer, Letha Estes, Mike Reynolds, and Chuck Estes, the Charleston by Jill and Judy Trew, and the locomotion by Robin Smith and Dixie Marsh. Jokes were told by George Washington (Brad Melton), Davie Crockett (Ann Skipper), Paul Revere (Joel Kingston), Abe Lincoln (Elaine Bentley), Annie Oakley (Trudy Stewart) and Franklin D. Roosevelt (Tammie Smith).

The meal that was served consisted of baked ham, green beans, macaroni, and cheese, salads, rolls and butter, cookies, ice cream, and ice tea.

The Band King and Queen were recognized. They are Sheri Haynes and Sidney Morris.

Other awards given included medals presented to Delynn Miller-drum majorette; Diann Miller-twirler; and Cherrie Billingsley-twirler. The outstanding musicians award was presented to Sidney Morris. He has also been nominated for Who's Who in America among Band members. Keith Gipson, received the John Phillip Sousa Award which consisted of a certificate and the John Phillips Sousa paperweight.

The band members presented Mr. Quibodeaux with a silver plate in recognition of his work. The band boosters presented Mr. and Mrs. Quibodeaux with a beef certificate as a token of their appreciation.

The banquet is held each year to honor the senior band members who are: Donnie Bentley, Eddie Estes, Jay Dee Fish, Keith Gipson, Sheri Haynes, Kit Long, Delynn Miller, Sidney Morris, Steve Myers and Diann Miller.

Hugo Leal To Return To Brazil

By Gina Layne

Hugo Leal, the foreign exchange student from Fortaleza, Brazil, has kept the students and the teachers laughing since January 11, when he arrived. Hugo, before coming to America, know very little English, but by using sign language and his trusty dictionary, he has been able to communicate with the people at MHS.

Hugo met Mr. McGinty, the Ag teacher, by the hearty war cry, "Me-Ma-Gin-Ty, Tee-cher!" Mr. Smith always gives Hugo a chapter algebra test, which he surprisingly does well on.

Hugo has picked up quite a bit of English from his American friends, although everyone has the feeling that he knows more than he acts like he does. For instance, when he is frequently reprimanded by the teachers, he replies in broken English, "I no understand." All the boys have learned certain new vocabulary words from Hugo, while he in turn has learned new English vocabulary words from them.

Hugo will be leaving for Brazil about the middle of June. He plans to continue his studies and become a doctor.

Lawn Mower Safety Advised

Lawn mowing can be hazardous to your health, especially if you disregard safety when using a power mower.

Every year 55,000 Americans are treated in hospital emergency rooms for injuries resulting from the use of power lawn mowers. Many victims lose fingers or toes; some accidents prove fatal.

Most of these lawn mower accidents could have been prevented if a few safety rules had been followed.

The first rule in safe operation of a lawn mower is to become completely familiar with your machine. Read the owner's manual carefully. Make sure everyone who will be operating the lawn mower understands the controls and knows how to stop the engine quickly in case of an emergency.

Before mowing, clear the entire lawn of sticks, stones wire and debris--anything that could be thrown by the mower blade. Then get pets and small children out of the mowing area.

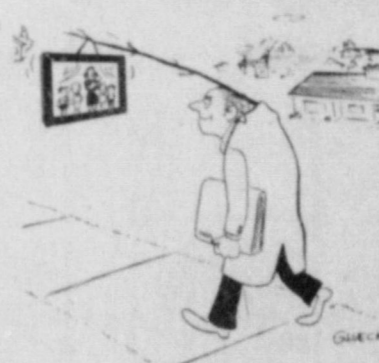

Keese advises disengaging the clutch and shifting into neutral before starting the engine.

Stop the engine whenever you leave the mower, if even for a moment; cautions Keese. "Always stop the engine and disconnect the spark plug wire if you intend to check or work on the mower."

Also stop the engine and allow it to cool before refueling. And use safety containers for gasoline.

Exercise extreme caution when mowing on slopes or wet grass, and never pull the mower toward you. Use a "plug-in" electric mower only when the grass is dry.

Market Report

Meat prices are on the move again--upward, according to Mrs. Gwendolyn Clyatt.

"Retail beef prices are generally declining since last September, now will be increasing somewhat as supplies are slightly undant," the consumer marketing information specialist explained.

Pork and poultry are not as plentiful as beef--will continue to increase especially as the barbecue season nears.

One commodity with prices is the egg.

Mrs. Clyatt, with the as Agricultural Extension Service, "The Texas University System, says eggs "one of the best buys currently available."

In the dairy department consumers can expect able prices on liquid milk, cottage cheese and dry milk.

Produce counters show a mixture of spring and winter vegetables.

Soft-shell yellow and green beans are plentiful, and corn-cob will double April's price during May, Mrs. Clyatt said. Potatoes remain abundant, and new shipments Round Reds are increasing.

In fruit sections, oranges are more plentiful than fruit, but both have high prices.

Strawberries and pineapples are featured items in stores with quality prices very good, and watermelon prices are gradually dropping as supply increases.

Other vegetables at the most economical prices are beets, celery, cabbage, carrots, dry yellow collards, mustard, turnips and greens.

CONSUMER WATCHDOG With egg prices down, this is a very good time to buy more eggs in menus--or extra baking for the freezer.

By FOSTER WHALEY

Mrs. I. B. Veale, North Pampa, was one of several callers about the millers that are invading the homes.

According to Dr. Bill Clymer, Extension entomologist, Amarillo, these millers are the adult stage of the Army Cutworm. He also said they could point up trouble for us later this year when the eggs from these millers hatch out as cutworms. Weather has a great deal to do with cycles of different insects.

About 15 years ago we had a similar outbreak of these millers. Mrs. Veale was get-

ting panicky. She has wedding coming up soon and she could envision many problems at a time when you want every thing perfect. Fact, is, she had heard that when these millers mated, they died. She was giving serious thought to putting on some type of romantic music and just watch the miller die. The entomologist had his doubts about this one.

I would like to mention the fact the Mrs. Veale's is getting a Texas Aggie for a son-in-law even at the expense of this article might be taken out of the "Agricultural Column" and placed in the Society Section.

Back to the millers-The Entomologist thought the millers should soon run their course.

However, Mrs. Veale, if on the May 31st wedding date, it looks like the millers might re-decorate the cake, you might call a pest control operator and have them spray the attic with Diazinon or

Bavgon. If you are fast enough, a vacuum cleaner works pretty good and doesn't leave a smear on the wallpaper.

Wheat Harvest Underway... Carryover To Be Up Substantially in 1976... Crops Progressing... How Many Sunflowers?... Texas In Top Ten... Rice Planting

The 1975 wheat harvest is underway in South Texas; less than five per cent of the bountiful crop has been harvested to date. And while that is going on in the southern portion of the state, wheat is making excellent progress across the rest of Texas with the crop now headed out.

Nationwide prospects for the 1975-76 season range from slightly more than two billion bushels to around two and a quarter billion bushels.

Projected production for the 1975-76 marketing year for all wheat ranges from two to two and a quarter million bushels. Total supply ranges around 2.5 million bushels. Carryover as of June 30, 1976, is expected to be around 450 million bushels; this year's carryover as of June 30 is anticipated to be around 230 million bushels.

MEANWHILE, CROP PROSPECTS throughout the state continue to brighten. Cotton planting is about 20 per cent completed, which is slightly behind 1975 plants at this time. Planting is virtually completed, except for some replanting in the Blacklands and Trans-Pecos areas. Seedbed preparation is about finished on the High and Low Plains, and the first of the 1975 crop is now in the ground in that area.

Sorghum planting is more than 60 per cent finished; sorghum in the Rio Grande Valley is headed out. A few early stands have been planted in the High and Low Plains.

Peanut seeding for the state is about a fourth completed. Corn planting is about two-thirds completed compared with about 90 per cent at this time a year ago.

HOW MANY ACRES are planted to sunflowers in Texas this year? That's one of the questions the Texas Crop and Livestock Reporting Service is going to find out in its crop questionnaire.

About 24,000 crop questionnaires go in the mail this week to producers throughout the state. If you receive one of them, you are requested to fill it out as accurately as possible and return it promptly. Information in the questionnaire will be the basis for crop reports to come out later this year.

IF YOU LIKE WATERMELONS--and who doesn't--you'll be happy to learn that watermelon season will come a little early this year--about a month earlier, to be exact. The Texas watermelon producers are planning on a big season. Texas, in case you didn't realize it, is first in the nation in production of watermelons.

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Mother nature has many faces. In spite of all her gentleness there is a destructive side as well. Consider, for example, the tornado, one of the deadliest phenomena in nature.

Many of these violent storms occur during the spring--some occur during the spring-time, when the earth is waking from its winter slumber. The destructive, whirling wind may strike almost without warning and seemingly at random, sweeping everything out of its way with a whiplash tail that moves in a narrow path across the land.

At one time, about all that people could do to guard against being killed or injured by a tornado was to be on the alert for tornado weather and to move underground--

Sandwiches, cokes and cookies were served to those attending. The next meeting will be held in the fall when school resumes. No meetings will be held during the summer.

into a storm cellar--when conditions warranted.

While oldtimers had to rely on experience to assess the possibility of a tornado, electronics play a major part in today's alert system. Radar storm warning sets are used in almost all major cities in the state. These stations are connected by teletype and radio. Any station is able to instantly apprise all other stations of tornado activity and the path of a tornado. Then, all communities in the vicinity of the twister can be warned of the tornado's approach through normal channels of communications, or through special warning devices.

The Texas State Department of Health has joined with other state and federal agencies and medical associations in efforts aimed at disaster preparedness. It is ready to go into action in any emergency.

If worse comes to worst, and a tornado does strike a community, the State Health Department can provide vaccine, public health engineering, medical emergency nursing know-how, and other vital services, to stem the

threat of disease or further complications while disaster relief is underway.

Over the years, the National Weather Service has developed a system to accurately report severe weather conditions. The public is informed by radio and television advisories.

For tornado activities, terms used are "Tornado Watch", indicating the possibility of a tornado; "Tornado Warning", meaning that a tornado has been reported in the general area; and "Tornado Alert", meaning that a fast, that a tornado is to be in the area.

What can you do in the face of a tornado alert?

If it's daylight, or if you can see the funnel advancing toward you, you may have time to move out of its path. If you have a storm cellar, you should move into it.

If you can't get out of the way and you don't have a storm cellar, you can still protect yourself.

In homes, open some windows and then keep away from them. Get to the center of the house, or to a basement if there is one.

More dependable than a man.

Someday a handsome prince will ride up and carry you away.

Or maybe you don't see it that way. Not that you've got anything against handsome princes. It's just that they're not very reliable.

That's why it's nice to know you've got some control over your future. Like being financially prepared for whatever lies ahead.

And one of the easiest ways to build future funds is with U.S. Savings Bonds. Buy them through your bank. Or join the Payroll Savings Plan where you work.

Bonds are steady, solid, dependable. Just the kind of security a girl needs.

Then if your handsome prince does come along, so much the better. You can always buy him a castle.

New E Bonds pay 6% interest when held to maturity of 5 years (4% the first year). Bonds are replaced if lost, stolen or destroyed. When needed, they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.
